Response. Section 190.85(b) indicates that the audit is to be done by the institution or at the institution's direction. In the majority of cases, this will mean that the audit will be done by an independent private accounting firm hired by the institution. However, in some cases an internal audit staff of the institution may be available to perform these audits. In these instances, the internal auditor must meet the standard of independence as defined by the United States General Accounting Office in its publication, "Standards for Audits of Governmental Organizations, Programs, Activities, and Functions."

SUBPART H

§ 190.94 Calculation and disbursement of awards by the Commissioner of Education.

Comment. Concerning paragraph (b), one commenter stated that validation should be performed by the Office of Education for students attending Alternate Disbursement System (ADS) schools.

Response. Verification for students at an ADS institution will be performed by the Office of Education.

§ 190.95 Termination of enrollment and refund.

Comment. One commenter asked if the school is required to notify the Office of Education of a change in enrollment status under paragraph (a).

Response. No, such notification is not required.

Comment. Two commenters suggested that the word "unofficially" be deleted from paragraph (a) because schools would not know if the student has unofficially withdrawn.

Response. The regulation has not been changed. "Unofficial withdrawal" refers to situations where the student leaves the institution without completing official withdrawal procedures. This provision does not require institutions to change current procedures for withdrawing students. Rather, the institution determines to the best of its ability the date on which the student left the institution.

JAN 25 1979 UMI

V 4 4 / 1 8

Comment. Concerning paragraph (b) two commenters disagreed with the student having to refund a prorated portion determined by the Commissioner. One commenter suggested that the student should refund a portion which is consistent with the institution's refund policy. The other commenter suggested that this section should be amended to require the student to refund the lesser of a prorated portion of the Basic Grant, or the amount remaining to the student following payment of all outstanding room, board and tuition payments for the payment period.

Response. No change has been made to this section. Under the Alternate Disbursement System, all payments and refunds must be calculated by the Office of Education. Incorporation of each institution's refund policy or each student's outstanding bills into the central system is administratively infeasible. A pro rata refund is the only method which can be handled through central administration of the Program.

COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

AGENCY: Department of Housing and Urban Development; Assistant Secretary for Community Planning and Development.

ACTION: Notice of application submission date—Financial Settlement Fund.

FOR FURTHER INFORMATION CONTACT:

Peter Rowan, 202-755-1871.

Pursuant to Section 570.484, Chapter V, Title 24 of the Code of Federal Regulations which requires the establishment of submission deadlines for the filing of applications for Categorical Program Settlement Grants, the Secretary is establishing the application date with respect to grants for funding the financial settlement, and to the extent feasible, the completion of projects assisted under the categorical grant programs terminated by Congress in 1974.

Accordingly, applications are invited from units of general local Governments in which projects assisted under the Urban Renewal Program are located which cannot be financially settled or completed, without supplemental financial assistance. To be considered for funding at this time, complete applications must be received by the appropriate HUD Area Office by close of business, February 28, 1979. For full program information see Subpart H. Part 570, Chapter V, Title 24 of the Code of Federal Regulations, which was published June 6, 1978, 43 FR 24656.

Issued at Washington, D.C., January 18, 1979.

ROBERT C. EMBRY, Jr.,
Assistant Secretary for Community Planning and Development

Coast Guard

SUSPENSION AND REVOCATION PROCEEDINGS

Temporary Documents

V 4 4 / 1 8

[4910-14-M]

Title 46—Shipping

CHAPTER 1—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 78-024]

PART 5—SUSPENSION AND REVOCATION PROCEEDINGS

Temporary Documents

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This amendment revises the regulations governing the issuance of temporary documents during the pendency of appeals of suspension and revocation orders to the Commandant and revokes redundant regulations concerning the release of records. The Administrative Law Judge hearing the case presently forwards each denied request for a temporary document the Commandant for final action. This amendment makes the Administrative Law Judge's decisions concerning the issuance of a temporary document final in the absence of further appeal of that decision, and eliminates the necessity of the Commandant reviewing each denial of a temporary document.

EFFECTIVE DATE: January 25, 1979.

FOR FURTHER INFORMATION CONTACT:

Commander Charles H. King, Jr., Office or Merchant Marine Safety (G-MMI-2/82), Room 8205, Department of Transportation, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590 (202 426-2215).

SUPPLEMENTARY INFORMATION: Since this is a matter relating to agency procedure and practice, under 5 U.S.C. 553(a)(2) notice and public procedure are unnecessary. Under 5 U.S.C. 553(d)(3), the amendments may be made effective in less than thirty days after publication in the FEDERAL REGISTER since they clarify appeal procedures for merchant seamen. This rule has been reviewed under the Department of Transportation's "Policies and Procedures for Simplification, Analysis, and Review of Regulations" (43 FR 9582, March 8, 1978). A final evaluation has been prepared, and has been included in the public docket.

DRAFTING INFORMATION

The principal persons involved in drafting this amendment are: Commander Charles H. King, Jr., Project Manager, Office of Merchant Marine Safety, and Edward J. Gill, Jr., Project Attorney, Office of the Chief Counsel.

DISCUSSION OF AMENDMENT

A merchant seaman who has had his document suspended or revoked by an order of an Administrative Law Judge may request the issuance of a temporary document that would be valid during the pendency of his appeal of the suspension or revocation to the Commandant. The change to the regulation will make the Administrative Law Judge decision denying the issuance of a temporary document final in the absence of an appeal of that decision. If the Administrative Law Judge's does not authorize the issuance of a temporary document, the merchant seaman may appeal to the Commandant requesting that the Commandant review the Administrative Law Judge's decision concerning the temporary document. The amendment will relieve the Commandant of the burder of reviewing every denial of a request for a temporary document. The Commandant will now review only those cases in which an appeal has been made by the seaman.

The regulations dealing with the release of records (46 CFR 5.55) are being deleted because the substance of the regulations is in Title 49 of the Code of Federal Regulations and this reference is set out in 46 CFR 5.50-1. It is unnecessary and superfluous to have two sets of regulations on the same subject.

Accordingly, Part 5 of Title 46 of the Code of Federal Regulations is amended as follows:

1. By revising § 5.30-15(a) and (b) to read as follows:

§ 5.30-15 Temporary documents.

(a) A person who has appealed from a decision suspending or revoking a document and/or license may file a written request for a temporary document and/or license with the Administrative Law Judge who rendered the decision, or with any Officer in Charge, Marine Inspection, for forwarding to such Administrative Law Judge. Action on the request will be taken by the Administrative Law Judge. However, if the hearing transcript has been forwarded to the Commandant, the request for a temporary document is forwarded by the Administrative Law Judge to the Commandant for final action.

(1) If the request for a temporary document is denied by the Administrative Law Judge, the individual denied the document may appeal the denial, in writing, to the Commandant within 10 days.

(b) The Administrative Law Judge or the Commandant grants the request for a temporary document based on:

(1) Whether the service of the individual involved on board a vessel at the time of the request, or immediately thereafter, is compatible with the requirements for safety of life and property at sea.

(2) The individual's prior record.

* * * * * * *

Subpart 5.55 [Deleted]

2. By deleting Subpart 5.55.

(Sec. 633, 63 Stat. 545, as amended (14 U.S.C. 633); R.S. 4450 (46 U.S.C. 239); sec. 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1)); 49 CFR 1.46(b))

Dated: January 20, 1979.

J. B. HAYES,
Admiral, U.S. Coast Guard
Commandant.

[10 CFR Parts 211, 212]

[Docket No. ERA-R-78-12]

AMENDMENTS TO IMPOSE THE ENTITLEMENT OBLIGATION ON THE FIRST PURCHASE OF PRICE-CONTROLLED DOMESTIC CRUDE OIL

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of proposed rulemaking and public hearing.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) is proposing to amend its domestic crude oil allocation (or entitlements) program to impose the entitlement purchase obligation on the first purchase of price-controlled domestic crude oil, regardless of whether the purchaser is a refiner, reseller, or some other user of crude oil.

Under this proposal, the ERA would announce in advance of each calendar quarter the entitlement prices for lower tier and uppper tier crude oil, respectively for each month of the quarter. Since all transactions after the first sale would reflect the entitlement obligation, resellers of crude oil would not be required to certify to their purchasers the volumes and per-barrel price of lower tier, upper tier, and exempt crude oil sold in each transaction, thus reducing the current regulatory burden on both resellers and refiners and the potential evasion of price controls downstream of the producer. In addition, shifting the entitlement purchase obligation from refiners to first purchasers would automatically assure that entitlement obligations attach to nonrefining uses of price-controlled domestic crude oil.

This proposal is intended to be the first phase in ERA's effort to simplify the crude oil price controls by eventually using the entitlements program, rather than the ceiling price regulations, to regulate first sale prices of domestic crude oil.

DATES: Comments by March 23, 1979, 4:30 p.m. Requests to speck by March 2, 1979, 4:30 p.m. Hearing dates: Denver, Colorado hearing: March 8, 1979, 9:30 a.m.; Washington, D.C. hearing; March 13, 1979, 9:30 a.m.

B. Relationship to Other Rulemakings
II. Proposed Amendments
A. General
B. Principal Definition Changes
C. Effect of Proposal on First Purchasers
D. Effect of Proposal on Refiners
E. Reporting Requirements
F. Special Provisions for Transition Period
III. Request for Additional Comments
IV. Written Comment and Public Hearing Procedures.

I. Background

On April 5, 1978, we issued a notice of inquiry (43 FR 15158, April 11, 1978) requesting public comment on simplifying the crude oil price control program by using an entitlements-based crude oil price system, rather than the present ceiling price regulations, as the primary mechanism for regulating first sale prices of domestic crude oil. We stated that the principal objectives of such a system were to expand the role of the market system in determining specific transaction prices in sales of domestic, price-controlled crude oil and to eliminate as much of the current regulatory burden on crude oil producers, resellers and refiners as possible without affecting current benefits of price controls to consumers. We also indicated that an entitlements-based crude oil price control system could permit the elimination of ceiling prices on first sales of domestic crude oil as well as price controls on crude oil resellers. We identified and requested comment on a wide variety of issues and possible regulatory actions concerning the simplification of the existing ceiling price and entitlements programs generally and the entitlements-based price control system in particular. These included the desirability of establishing the entitlement price for a calendar quarter rather than a month; the desirability and feasibility of imposing the entitlement obligation on the first purchaser of crude oil; the legality of eliminating ceiling prices on crude oil prior to May 1979 (when authority under the EPAA is discretionary rather than mandatory); and the desirability of establishing different entitlement prices for discrete gravity ranges of crude oil.

A. Discussion of Comments

In response to our April 5 notice, we received 70 written comments. Public hearings were held in Houston, Texas on May 22, 1978, at which 5 persons testified, and in Washington, D.C. on May 24-25, at which 23 persons testified. The commenters included major, large independent, and small refiners, independent producers, crude oil resellers, trade and industry associations, a consumer group, and two federal agencies.

Although the commenters were nearly unanimous in their support of any effort to remove unnecessary regulatory controls and to restore the influence of the marketplace in domestic crude oil pricing practices, a slight majority of the commenters opposed the entitlements-based price control system. Most of the firms which opposed the proposal urged us to concentrate our efforts on a phased decontrol of domestic crude oil prices rather than a new regulatory system which would perpetuate price controls. However, of the commenters which opposed the proposal, few offered substantive support for their position other than general apprehension over the uncertainties and disruptions involved in a significant change in the status quo.

The principal arguments that were raised in opposition to the entitlements-based price control system were: 1) the system would not reduce appreciably the reporting burdens for producers, refiners or resellers, and the confusion and uncertainty which normally follows any major regulatory change would outweigh the benefits of the system; 2) since the system would continue the present crude oil pricing categories, the composite price limitation, the small refiner bias and entitlements exceptions relief for particular refiners, it would not promote market-determined pricing; 3) the fluctuations

in world and domestic crude oil prices would require repeated adjustments in the pre-determined entitlement price to compensate for previous forecast inaccuracies, creating cashflow problems for many refiners and general uncertainty in the marketplace; and 4) the likely increase in low-sulfur crude oil prices would cause producers of medium and high-sulfur crude oils to lose an equivalent amount of revenues unless there were an overall rise in the average domestic crude oil price. Many of the commenters expressed the view that it would be inappropriate to adopt the proposal at this time since the composite price requirements on first sales of domestic crude oil as well as other mandatory price controls expire on May 31, 1979, and it is unclear whether the President will use his discretionary authority to continue controls.

The overwhelming majority of the small refiners who submitted comments opposed the entitlements-based price control system. In general, they argued that, without the continuation of allocation controls on crude oil, the major integrated refiners would decline to sell their production to small and independent refiners and would outbid them for production controlled by independent producers. The result for small and independent refiners would be significantly higher crude oil costs and near total dependence on imported crude oil.

Most of the commenters who supported the concept of an entitlements-based crude oil price control system contended that its successful implementation depended upon the adoption of various complementary regulatory changes. Thus, for example, several independent and major refiners argued that without modification of the small refiner bias and elimination of entitlement purchase exemptions, some refiners would be in a position to outbid all other refiners for access to crude oil from their historical sources. Many commenters stated that the present ceiling price controls should be removed immediately upon implementation of the new system to permit the market place to determine the proper differentials among different grades and qualities of crude oils. Some commenters argued that the new system would be effective only if the entitlement value varies with crude oil gravity, while others contended that a variable entitlement price would so complicate the system as to make it unworkable. Finally, as discussed more fully below, many firms expressed the view that shifting the entitlement obligation from refiners to first purchasers would facilitate the transition to an entitlements-based crude oil price system.

Both the Department of Justice and the Bureau of Competition of the Federal Trade Commission urged us to adopt the entitlements-based price control system. They both expressed the view that it would enhance significantly competition within the petroleum industry, provided that controls on first sale prices of domestic crude oil and crude oil resellers were removed and the entitlement obligation were imposed on the first sale of domestic crude oil.

We have carefully considered the written comments received and the testimony given at the public hearings. On the basis of these comments, we have decided not to propose an entitlements-based crude oil price control system at this time. Notwithstanding that the majority of the commenters opposed the proposal, the information received in this proceeding has persuaded us that such a system would accomplish the objectives which we outlined in our April 5, 1978 Notice. However, we believe it would be desirable to implement the system in phases in order to lessen the disruptive effects and uncertainties which necessarily follow a major regulatory change. Accordingly, as the first phase in the implementation of and to facilitate the transition to an entitlements-based price system, we are proposing in this proceeding to modify the structure of the entitlements program to impose the entitlement purchase obligation on the first sale of price-controlled domestic crude oil. During the pendency of this rulemaking, we will continue to evaluate the comments submitted in response to the April 5 notice, particularly the comments addressed to the eighteen specific issues raised in the notice.

As expressed in many of the comments, a first purchaser entitlements program should significantly reduce the public and private costs associated with crude oil price controls, since such a system eliminates the need for tracking the various price tiers of domestic crude oil from the wellhead to the refiner. In addition, since all transactions after the first sale would reflect the entitlement purchase obligation, such a system should help reduce the potential evasion of price controls that now can occur downstream of the producer, since there would be less opportunity for a reseller to profit from the evasion on controls. In this regard, since any evasion scheme that occurred under this system would have to occur at the production level, it should be easier to detect such conduct than it has been under the present system where miscertifications can occur anywhere between the wellhead and the refinery gate. Finally, since the entitlement purchase obligation is imposed on the first purchaser regardless of eventual end use, the proposal would eliminate the need for special regulations to include nonrefining uses of crude oil in the entitlements program.

In deciding to propose the first sale entitlements program, we gave serious consideration to the concern reflected in some comments that the addition of aproximately 100 to 150 new participants (i.e., first purchasers other than refiners) to the entitlements program potentially could create confusion and uncertainty with respect to settlement of entitlement transactions, particularly where the accountability and financial stability of a first purchaser is questionable. However, we have concluded that, on balance, the advantages of a first purchaser entitlements program outweigh these disadvantages. In any event, as discussed below, we are requesting comments on whether we should strengthen existing provisions that are designed to ensure that all firms perform reliably in the settlement of their entitlements transactions.

B. Relationship to Other Rulemakings

On November 1, 1978 (43FR 52104, November 8, 1978), we issued a notice of proposed rulemaking to expand the coverage of the entitlements program to include the nonrefining uses of price-controlled domestic crude oil. The proposal presented in this notice to shift the entitlement purchase obligation from refiners to first purchasers would automatically result in including all nonrefining uses of domestic crude oil in the entitlements program (unless a specific exception were made), since the entitlements obligation would attach at the point of first sale regardless of the ultimate use of the oil. Accordingly, the issues raised in and the comments submitted in response to the November 1 notice will be considered in the context of this rulemaking and, in the event we determine to adopt a final rule imposing the entitlement purchase obligation on first purchasers, we will terminate the nonrefining uses proceeding.

II. Proposed Amendments

A. General

Under the proposed "first purchaser" entitlements program, each first purchaser (regardless of whether the purchaser is a refiner, reseller or some other user of crude oil) of price-controlled domestic crude oil would be required to purchase one entitlement for each barrel of old oil and a fraction of an entitlement for each barrel of upper tier crude oil purchased in a month. However, consistent with our November 1 proposal with respect to nonrefining uses, first purchasers

JAN 25 1979 UMI

V 4 4 / 1 8

would not incur an entitlement obligation with respect to old oil and upper tier oil sold to producers for purposes of crude oil production, provided that the producer certifies to the first purchaser that the crude oil will be used for production purposes. We would announce the monthly entitlement prices for old oil and upper tier crude oil in advance of each calendar quarter to permit first purchasers to establish their prices to their purchasers. Thus, resellers' invoices would reflect the appropriate entitlement obligation associated with the crude oil sold.

Refiners would be issued entitlements each month based on their crude oil runs to stills multiplied by the National Domestic Crude Oil Supply Ratio (DOSR), as is presently done. As is also the case under the present entitlements program, the sale and purchase of entitlements would take place in the second month following the month in which crude oil is run to stills. Thus, although the proposal provides for the determination of the entitlement prices on a quarterly basis, first purchasers and refiners would continue to report their first sale transactions and runs to stills, respectively, on a monthly basis.

Since under this proposal all transactions after the first sale would include the entitlement obligation (except crude oil sold for purposes of crude oil production), the provision requiring resellers of crude oil to certify the volumes and per barrel prices of lower tier, upper tier, and exempt crude oil sold in each transaction could be eliminated. For the same reason, firms (except producers) which consume price-controlled domestic crude oil for nonrefining uses will obtain such crude oil subject to the cost-equalizing effects of the entitlements program. In this regard, refiners and other firms (except producers with respect to price-controlled crude oil used for production purposes) would be deemed to have crude oil runs to stills (and thus receive entitlements) for any volume of domestic crude oil consumed for nonrefining uses.

B. PRINCIPAL DEFINITION CHANGES

Under the proposal, "first purchaser" would be defined in § 211.62 as any firm which acquires domestic crude oil in the "first sale" as that term is defined in § 212.72 of the Mandatory Petroleum Price Regulations. Since "first purchasers" rather than refiners would incur the entitlement obligations for purchases of price-controlled domestic crude oil, the term "entitlement" in § 211.62 would be redefined as the right for a particular month of a first purchaser to include one barrel of deemed old oil in its adjusted crude oil purchases in that month. Similarly, since first purchasers would not be required to certify the volumes of lower tier, upper tier and exempt crude oils sold in each transaction, and thus refiners would not report their receipts of these crude oil pricing categories, the numerator of the "National domestic crude oil supply ratio", as defined in § 211.62, would be based on the adjusted purchases of all first purchasers, rather than the "adjusted crude oil receipts" of all refiners, as is done currently.

The proposed regulations also would add a new definition of "adjusted crude oil first purchases" to provide for reporting by first purchasers of retroactive adjustments on a current basis in the same manner that refiners presently report such adjustments under the definition of "adjusted crude oil receipts." In this regard, as discussed more fully below, we are proposing to amend § 211.67(j) of the entitlements program regulations to permit first purchasers, as well as refiners, to correct clerical and other "reporting errors" by the filing of amended monthly reports.

C. EFFECT OF PROPOSAL ON FIRST PURCHASERS

The principal regulatory change to the entitlements program under this proposal is an amendment to § 211.67(b) [Required purchase of entitlements by refiners] to require each first purchaser of price-controlled domestic crude oil to purchase one entitlement for each barrel of old oil and a fraction of an entitlement for each barrel of upper tier crude oil purchased in a month. Refiners that own and consume their own crude oil production would, of course, be first purchasers as to that production, since the definition of "first sale" in § 212.72 of the price regulations provides that in the case of transfers between affiliated entities, the "first sale" will be imputed to occur as if in arms-length transactions.

As discussed above, imposing the entitlement purchase obligation on the first sale of price-controlled domestic crude oil automatically would include nonrefining uses of crude oil in the entitlements program since, in the absence of an express exemption, all transactions after the first sale would reflect the entitlement purchase obligation. However, consistent with our November 1 proposal to include nonrefining uses of price-controlled crude oil within the entitlements program, the proposed amendment to § 212.67(b) would exempt from the entitlement purchase obligation sales of lower tier and upper tier crude oil to crude oil producers for purposes of crude oil production, provided that the producer-purchaser certifies to the seller (first purchaser) that the crude oil would be used for production purposes.

On June 15, 1978 (43 FR 26540, June 20, 1978), we adopted a graduated system of reducing the entitlement obligations of (that is, increasing the number of entitlements issued to) refiners which report low-gravity California lower tier and upper tier crude oil in their adjusted crude oil receipts based on the weighted average gravity of the crude oil. Under the first purchaser system, we propose to give effect to these adjustments for California price-controlled crude oil at the first-purchaser level. Accordingly, the proposed amendment to § 211.67(b) provides a graduated system for reducing the entitlement obligations of first purchasers of California lower tier and upper tier crude oil that is similar to the system which we adopted on June 15, 1978. Since resellers play a relatively small role in the distribution of California crude oil, we believe that this approach will not frustrate our objectives underlying the June 15, 1978 amendments of better equalizing the after-entitlement costs to refiners of controlled and uncontrolled crude oil in California and providing greater incentives for refiners to purchase price-controlled California crude oil at prices that will enhance the potential for maximum domestic crude oil production. However, comments are sought on the impact, if any, of giving effect to the California entitlement adjustments at the first purchaser level on the wellhead prices of price-controlled California crude oil.

Since all transactions after the first sale, regardless of the pricing category of the crude oil involved, would be based on a price which includes the entitlement cost, the proposed regulations delete the certification requirement in § 212.131(b) applicable to resales of price-controlled domestic crude oil. The deletion of the certification requirements should substantially lessen the current regulatory burden on crude oil resellers and the potential for price violations by resellers based on miscertifications.

We would publish the entitlements notice specified in § 211.67(i) in the second month following the transaction month, as is currently done. § 211.67(i) would be amended to provide that the list would specify the number of barrels of deemed old oil purchased by each first purchaser and the number of entitlements required to be purchased by each first purchaser. With regard to first purchasers that are also refiners, the entitlements list would specify the entitlement obligations net of entitlement issuances and, if appropriate, the entitlement issuances net of entitlement obligations.

§ 211.67(i) also would be amended to provide that, in advance of each calendar quarter, we would fix the price at which entitlements would be sold and purchased in each month of the quarter. The entitlement price under this proposal would be established to accomplish the objective under the present entitlements program of roughly equalizing refiners' crude oil acquisition costs.

Since the entitlement prices would be established in advance of each quarter, it will be necessary for us to project the weighted average delivered costs to refiners of imported and domestic crude oils for the quarter. In the case of *domestic* crude oils, these projections would be based on available historical data and projected first sale price increases. The projections regarding old oil and upper tier crude oil would, of course, be consistent with the schedule of monthly first sale price adjustments for the quarter.

With the elimination of the tier certification requirement, refiners would not report to us their weighted average *delivered* costs of domestic crude oils by tier. Consequently, in projecting the delivered costs of domestic crude oils, it would be necessary for us to impute the national average cost of transporting domestic crude oils from the lease to the refinery. In this regard, we are proposing to require refiners to continue reporting their receipts and delivered costs of Alaska North Slope (ANS) and Naval Petroleum Reserves (NPR) crude oils. Since ANS and NPR crude oils are not typically sold through resellers, we believe that refiners would be able to identify and report their delivered costs of such crude oils.

In light of these considerations, proposed § 211.67(i)(4) provides that the entitlement price would be calculated as the difference between the projected weighted average delivered cost per barrel to refiners of old oil and such projected weighted average delivered cost of imported crude oil, ANS crude oil, stripper well crude oil, incremental tertiary crude oil and other exempt domestic crude oils. Consistent with our recent notice of proposed rulemaking (43 FR 52186, November 8, 1978) regarding incentives to promote increased production of domestic crude oil, the above method for calculating the entitlement price would eliminate the current 21¢ penalty for refiners' receipts of imported crude oil. As we indicated in the November 8 notice, we have tentatively concluded that the 21¢ penalty may be imposing an inappropriate burden on those refiners that are dependent upon imported crude oil.

We invite comments on the appropriateness and feasibility of calculating the entitlement price in the manner described above. You are encouraged to offer alternative calculation methods. In particular, we request comments on the feasibility of establishing a single entitlement price for an entire quarter, rather than a separate entitlement price for each of the three months of the quarter, as proposed.

Finally, we are proposing to amend § 211.67(m) [Adjustments to crude oil and product costs] to permit first purchasers that are crude oil resellers to pass through the cost of entitlements to their purchasers. Proposed § 211.67(m)(2)(ii) would permit crude oil resellers to include in their monthly "costs and expenses associated with sales of crude oil," as defined in § 212.182 of the reseller price regulations contained in Subpart L of Part 212, the entitlement obligations incurred with respect to the crude oil sold in that month.

D. EFFECT OF THE PROPOSAL ON REFINERS AND NONREFINING END-USERS

Generally speaking, the shifting of the entitlement purchase obligation with respect to price-controlled domestic crude oil from refiners to first purchasers should lessen the current regulatory burden for refiners, inasmuch as refiners would not be required to keep track of and report to us the volumes and costs of lower tier, upper tier and exempt crude oil included in their crude oil receipts each month. In this regard, the current provisions designed to require refiners to account for price-controlled domestic crude oil as to which they have received the competitive benefits associated with its lower acquisition cost would be eliminated. Thus, the proposed regulations would delete the present provisions applicable to exchanges of crude oil (§ 211.67(g)) and certification by non-refiners (§ 211.67(l)). An exception is § 211.67(f), which governs transactions under the crude oil buy/sell program (§ 211.65). § 211.67(f) would be amended to provide that where a refiner-seller arranges for a refiner-buyer to acquire Price-controlled crude oil in a first sale to satisfy the refiner-seller's sales obligation under § 211.65, the refiner-seller would be deemed to be the first purchaser.

With the exception of the amendment discussed above applicable to entitlement adjustments for California price-controlled crude oil, imposing the entitlement purchase obligation on first purchasers would not involve a change in other special entitlements adjustments provisions, such as, for example, the provisions regarding the small refiner bias,[1] petroleum substitutes, and East Coast residual fuel oil.

[1] On November 14, 1978, the ERA proposed amendments to the entitlements program to reduce the level of benefits received under the small refiner bias (43 FR 54652, Novermber 22, 1979).

Since refiners and other firms (except producers with respect to crude oil used for production) would acquire all price-controlled domestic crude oil, regardless of its end use, subject to the cost-equalizing effect of the entitlements program, the cost for such volumes would be approximately equivalent to the weighted average cost of uncontrolled crude oil. Proposed § 211.67(d)(9) provides that a refiner's crude oil runs to stills would (except for purposes of computing the small refiner bias) be deemed to include those volumes of domestic crude oil consumed by that refiner as other than a refinery feedstock. Proposed § 211.67(d)(10) would provide for entitlement issuances to firms other than refiners on the same basis as a refiner with respect to those volumes of domestic crude oil consumed for nonrefining uses. The effect of these provisions would be to render the after-entitlement cost for domestic crude oil consumed for nonrefining uses equivalent to the cost of crude oil used as a refinery feedstock.

E. REPORTING REQUIREMENTS FOR FIRST PURCHASERS, REFINERS, AND NONREFINING END-USERS

In order to implement the proposed first purchaser program, we are proposing to amend the refiner reporting requirements contained in § 211.66 and the reporting forms for first purchasers (FEA-P124-M-1) and refiners (ERA-49) currently used in connection with the entitlements and crude oil price control programs. Section 211.66(h) [Monthly report] presently requires refiners to report the volumes and costs by tier of all crude oils included in their crude oil receipts each month. The proposed amendment to § 211.66(h) would require refiners to report the total volumes and average costs of all domestic crude oil (excluding ANS and NPR crude oils), ANS and NPR crude oils, an imported crude oil included in their crude oil receipts in the second month prior to the month in which the report is filed. In addition, refiners would be required to report the volumes of domestic crude oil consumed for purposes other than refining (excluding lease use). Finally, refiners would be required to report their crude oil runs to stills for the reporting month, as is currently done.

We are proposing to revise the present first purchaser reporting form (FEA-P124-M-1) to require the following new information of first purchasers (including refiners that are first purchasers):

(a) The volumes (separately stated) of lower tier crude oil and upper tier crude oil (i) consumed by the first purchaser on a lease for crude oil production purposes and (ii) sold to a produc-

JAN 25 1979 UMI

V 4 4 / 1 8

er for consumption on a lease for crude oil production purposes.

(b) The volumes and weighted average gravity of California lower tier crude oil and upper tier crude oil included in the first purchases.

(c) Any permitted or requried adjustments to the volumes of lower tier, upper tier and California lower tier and upper tier crude oil included in the purchases of the first purchaser.

For firms other than refiners and producers which consume domestic crude oil for a nonrefining use, proposed § 211.66(l) would require such firms to report the volumes of domestic crude oil so consumed for purposes of receiving entitlements. Finally, the proposed amendments to § 211.66(i) would require any firm (that is, first purchaser, refiner and nonrefining user of crude oil) which is required to buy or sell entitlements to file the monthly entitlement transaction report specified in § 211.66(i). Currently, only refiners and "eligible firms" are required to file this form.

We are interested in receiving specific comments on the reporting requirements as proposed and, in particular, whether any further modifications to the reporting requirements should be made.

F. SPECIAL PROVISIONS FOR TRANSITION PERIOD

In the event we adopt a final rule imposing the entitlement purchase obligation on first purchasers, it will be necessary to ensure that all price-controlled domestic crude oil is properly accounted for during the transition period between the present entitlements program and the first purchaser entitlements program. Thus, under proposed § 211.67(n), the provisions of §§ 211.62, 211.66, and 211.67, as they existed prior to the effective date of the final rule, would govern entitlement issuances and purchase requirements after the effective date with respect to receipts and runs to stills of price-controlled domestic crude oil prior to the effective date of the proposed rule. To illustrate, if the proposal were adopted effective April 1, 1979, in April and May refiners would be required to file with the ERA the monthly report specified in § 211.66 with respect to their crude oil receipts and runs to stills in February and March, respectively, pursuant to the regulations in effect prior to April 1, 1979. Similarly, ERA would issue in April and May the entitlement notice for February and March, respectively, and refiners would be required to consummate their entitlement purchase and sale transactions for February and March by the end of April and May, respectively, pursuant to the regulations in effect prior to April 1, 1979.

Proposed § 211.67(n) also provides that any price-controlled domestic crude oil purchased (including crude oil in transit or in inventory) prior to the effective date of this proposed rule and sold after such effective date would be deemed, in this one instance only, to be a first purchase of price-controlled domestic crude oil in the month following the effective date of the proposed rule. In addition, any volume of crude oil received by any firm *after* the effective date of the proposed rule pursuant to an exchange subject to present § 211.67(g) in which price-controlled domestic crude oil was given up *prior* to the effective date of the rule would be deemed to be a first purchase of price-controlled domestic crude oil at the time it is received. In the event this proposal is adopted, we will take appropriate measures to ensure that no price-controlled domestic crude oil is unaccounted for during the transition between the present program and the first purchaser program.

The following two examples will illustrate the operation of proposed § 211.67(n). For the purposes of these examples, assume that the entitlement obligation is imposed on first purchases effective April 1, 1979. In the first example, a firm purchases lower tier crude oil in March 1979 and sells that crude oil in April. Under proposed § 211.67(n), the firm which sold the crude oil after April 1 (irrespective of whether it is a first purchaser of the crude oil) would be considered a first purchaser of the crude oil and would be required to include the crude oil in its adjusted crude oil purchases for April (which would be reported in June). Thus, the firm would be required to satisfy the entitlement purchase requirement associated with the crude oil.

For the purposes of the second example, assume that Refiner a acquires lower tier crude oil in March and enters into an exchange agreement with Refiner B whereby Refiner A will deliver the lower tier crude oil to Refiner B on March 30 in exchange for crude oil to be delivered April 15.[1] Under proposed § 211.67(n), Refiner A would be required to treat the crude oil received April 15 as a first purchase of *lower tier* crude and therefore satisfy the entitlement obligation associated with the lower tier crude oil.

III. REQUEST FOR ADDITIONAL COMMENTS

Comments are requested on all aspects of the proposed first sale entitlements program described in this notice. You are encouraged to provide your own analysis of any regulatory problems which could develop if the proposal is adopted and to recommend alternatives to the regulatory provisions set forth in this notice. In addition to the specific comments requested in other sections of this notice, we invite comments on the issues discussed below:

1. Shifting the entitlement purchase obligation from refiners to first purchasers may pose a cash flow problem (that is, a requirement for increased working capital) in the second month following the adoption of the first purchaser system for certain refiners that acquire price-controlled crude oil from first purchasers/resellers. The following example illustrates this potential cash flow problem.

For the purposes of the example, assume that the entitlement purchase obligation is imposed on first purchasers effective April 1, 1979 and that a refiner purchases and receives delivery of deemed old oil from a reseller in April. In May, when the reseller's invoice normally is payable, the refiner would be required to pay to the reseller a price for the oil that will reflect the entitlement obligation the reseller has paid on the deemed old oil. The total will be approximately equal to the market price for uncontrolled oil.

Under the current entitlements program, the refiner would not have been required to buy entitlements until the *second* month (*i.e.*, June) after the receipt of the deemed old oil. As is done currently, under the proposal the refiner would not receive entitlement issuances for its April runs to stills until June. Thus, in May the refiner would be required to make a cash outlay for crude oil at market prices irrespective of whether it would have been a purchaser or seller of entitlements under the present program.

This cash flow problem does not apply to refiners which purchase crude oil directly from the producer (or from their own production division) as opposed to through a reseller. As first purchasers, such refiners would not be required to buy entitlements for April crude oil receipts until June, when they receive entitlement issuances for their April runs to stills.

We have not been able to determine whether and to what extent refiners will experience a cash flow problem of the type described above. However, it appears that the impact, if any, of the cash flow problem would be greatest upon small refiners (those having refining capacity less that 175,000 barrels per day), since many of them purchase a significant portion of their crude oil supply through resellers and they may not have, or be unable to borrow, sufficient working capital to finance the entitlement obligations in the second month of the first purchaser system.

We invite comments on all aspects of the cash flow problem. In particular, comments are requested on whether you believe that refiners would be able to recover any increased working capital costs in the marketplace. If not, is it desirable and necessary to adopt a regulatory provision designed to alleviate the cash flow problem? What type of provision would be appropriate? Should all small refiners that acquire price-controlled domestic crude oil from resellers be eligible for such relief, or would it be appropriate to limit the relief to only the smallest small refiners (for example, those with capacity under 50,000 barrels per day), or only to small refiners with a demonstrated hardship? Should refiners other than small refiners be eligble for such relief? Commenter who believe they would experience a cash flow problem of the type described above are requested to submit detailed financial data which would show the nature and magnitude of the problem.

2. Some crude oil resellers also may experience a cash flow change as a result of imposing the entitlement obligation on first purchasers. Thus, for example, where there are two or more resellers in the distribution chain between the producer and the ultimate refiner purchaser, the reseller purchasing deemed old oil from a first purchaser would be required to pay the first purchaser a price for the oil that reflects the first purchaser's entitlement obligation. The second reseller may experience a cash flow change if it is required to make full payment to the first purchaser before it sells the crude oil to a refiner. Although we anticipate that resellers would adjust their business arrangements to avoid problems from such changes in cash flow, we invite comments on the necessity of a regulatory provision that deals with this potential problem.

3. A number of refiners have expressed concern to us that under the present entitlements program refiners that are dependent upon imported crude oil and thus are required to sell entitlements are penalized by the time lag between the time such crude oil is booked into inventory and receipt of entitlements revenues. For example, a refiner that processes imported crude oil currently carries $1.42 (the value of the runs credit in September) per barrel of inventory cost on behalf of the refiner that processes lower tier crude oil for about 75 days. Assuming a marginal cost of money of 10% per annum, this cost to the imported crude oil refiner is approximately 3¢ per barrel in carrying charges. On the other hand, the refiner processing lower tier crude oil enjoys a benefit of approximately 14¢ per barrel, inasmuch as it has the use of the net entitlement obligation (approximately $6.71 for September 1978) for this 75-day period.

Under a first purchaser entitlements program, refiners that acquire price-controlled domestic crude oil from resellers may incur a similar penalty since they would be required to pay the resellers the entitlement obligations associated with crude oil receipts in a particular month approximately five weeks before they receive entitlement issuances for their runs to stills in that month. The resellers, of course, would enjoy the benefit of the use of the entitlement monies for this five-week period.

We are interested in receiving comments on all aspects of this issue and, in particular, the desirability and feasibility of a regulatory solution, such as, for example, establishing a separate entitlement price that would reflect the time value of the entitlement price for firms that may be penalized in the manner described above.

4. As indicated above, a number of the comments submitted in response to our April 5 notice on Simplification of Crude Oil Price Controls expressed concern that some first purchasers may not perform reliably in the entitlements market. Specifically, some refiners expressed the belief that certain resellers which enter the market only occasionally as first purchasers may be difficult to identify or may attempt to avoid their entitlement purchase obligations. We invite comments on whether we should adopt regulatory measures to deal with this problem and, if so, what type of measures would be the most effective and the least burdensome. For example, would it be desirable and feasible to require first purchasers to deposit their entitlement monies with a central or regional escrow agent, who would then purchase entitlements from refiners? Should all first purchasers be subject to such a requirement? If not, what criteria should we use to determine which resellers would be subject to the requirement?

In addition to or in lieu of the escrow agent mechanism, should we adopt a provision that would permit us to impose sanctions against any firm which fails to purchase or sell entitlements and, if so, what type of sanctions? We are particularly interested in receiving specific and detailed comments on this issue and, if warranted, we may adopt one or more measures designed to ensure that all firms perform reliably in purchasing and selling entitlements.

5. Under our November 1, 1978 nonrefining uses proposal, refiners and non-refiners (except producers with respect to crude oil used for crude oil production) would receive entitlements only for lower tier and upper tier crude oil consumed for nonrefining uses. However, under this proposal such firms would receive entitlements for nonrefining uses of *all* domestic crude oil, since the elimination of the § 212.131(b) certification requirement would make it impossible for them to distinguish between price-controlled and uncontrolled domestic crude oil. We invite comments on whether such firms should also receive entitlements for imported crude oil consumed for nonrefining uses. In addition, comments are sought on whether any nonrefining uses (for example, crude oil used for bunker fuel) should be ineligible for entitlement issuances.

6. Under present § 211.67(j), in adjusting entitlement issuances or purchase requirements to reflect refiners' reporting errors, we are required to give effect to any differential between the entitlement price for the month in which the correction is reflected as compared with the entitlement price for the month as to which the reporting error is made. We invite comments on whether § 211.67(j) should be amended to provide that such adjustments also would give effect to any change in the domestic crude oil supply ratio.

IV. WRITTEN COMMENT AND PUBLIC HEARING PROCEDURES

A. WRITTEN COMMENTS

You are invited to participate in this proceeding by submitting data, views or arguments with respect to the proposals set forth in this notice of proposed rulemaking. Comments should be submitted by 4:30 p.m., e.s.t., March 23, 1979 to the address indicated in the "Addresses" section of this notice and should be identified on the outside envelope and on the document with the docket number and the designation: "First Purchaser Entitlements Program." Fifteen copies should be submitted.

Any information or data submitted which you consider to be confidential must be so identified and submitted in writing, one copy only. We reserve the right to determine the confidential status of such information or data and to treat it according to our determination.

B. PUBLIC HEARINGS

1. *Procedure for Request to Make Oral Presentation.* The times and places for the hearings are indicated in the "Dates" and "Addresses" sections of this preamble. If necessary to present all testimony, a hearing will be continued to 9:30 a.m. of the next

[1] Under present § 211.67(g); Refiner A is deemed to retain the lower tier crude oil exchanged away and is required to include the lower tier crude oil in its crude oil receipts at the time the imported crude oil constitutes a crude oil receipt, that is, after April 15.

JAN 25 1979 UMI

V 4 4 / 1 8 J A 2 5 7 9 UMI

business day following the first day of the hearing.

If you have any interest in the proposals in this notice, or represent a group or class of persons that has an interest, you may make a written request for an opportunity to make oral presentation by 4:30 p.m., e.s.t., March 2, 1979. You should be prepared to give a concise summary of the proposed oral presentation. You should also provide a phone number where you may be contacted through the day before the hearing.

If you are selected to be heard, you will be so notified before 4:30 p.m., e.s.t., March 6, 1979, and will be required to submit one hundred copies of your statement to the appropriate address indicated in the "Addresses" section of this preamble before 4:30 p.m., e.s.t. on March 12, 1979 for the Washington, D.C. hearing and, for the Denver hearing, to the hearing room by 9:30 a.m. of the date of the hearing.

2. *Conduct of the Hearings.* We reserve the right to select the persons to be heard at the hearings, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearings. The length of each presentation may be limited, based on the number of persons requesting to be heard.

An ERA official will be designated to preside at each of the hearings. These will not be judicial-type hearings. Questions may be asked only by those conducting the hearing. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

You may submit questions to be asked of any person making a statement at either of the hearings to the addresses indicated above for requests to speak before 4:30 p.m., of the day before the hearing. If you wish to have a question asked at a hearing, you may submit the question, in writing, to the presiding officer. The ERA or, if the question is submitted at a hearing, the presiding officer will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer. The question will be asked of the witness by the presiding officer.

Any further procedural rules needed for the proper conduct of a hearing will be announced by the presiding officer.

Transcripts of the hearings will be made and the entire record of each of the hearings, including the transcripts, will be retained by the ERA and made available for inspection at the DOE Freedom of Information Office, Room GA-152, James Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. You may purchase a copy of the transcript of a hearing from the reporter.

As required by section 7(a)(1) of the Federal Energy Administration Act of 1974, Pub. L. 93-275, a copy of this notice has been submitted to the Administrator of the Environmental Protection Agency for his comments concerning the impact of this proposal on the quality of the environment. The Administrator had no comments.

Executive Order 12044 (43 FR 12661, March 24, 1978) requires that a regulatory analysis be prepared for all regulations which will result in "an annual effect on the economy of $100 million or more" or will result in "a major increase in costs or prices for individual industries, levels of government or geographic regions." We have determined that neither of these threshold criteria for the preparation of a regulatory analysis is met by the proposed rule. However, since the proposal involves significant regulatory changes, we have prepared a preliminary regulatory analysis which examines the various potential impacts of the proposal. Copies of the preliminary regulatory analysis may be obtained from ERA's Office of Public Information, Room B-110, 2000 M Street, N.W., Washington, D.C. You are invited to provide comments on the preliminary regulatory analysis at the time you submit comments on the proposed rule. Such comments will be taken into account before the preparation of a final regulatory analysis on any final rule that may be adopted.

Pursuant to the requirements of section 404(a) of the Department of Energy Organization Act (Pub. L. 95-91), this proposed rule is being referred, concurrently with the issuance hereof, to the Federal Energy Regulatory Commission for a determination whether the proposed rule may significantly affect any function within the Commission's jurisdiction pursuant to section 402 (a)(1), (b), and (c)(1) of the Act.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended, Pub. L. 93-511, Pub. L. 94-99, Pub. L. 94-133, Pub. L. 94-163, and Pub. L. 94-385; Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended, Pub. L. 94-332, Pub. L. 94-385, Pub. L. 95-70, and Pub. L. 95-91; Energy Policy and Conservation Act, Pub. L. 94-163, as amended, Pub. L. 94-385, and Pub. L. 95-70; Department of Energy Organization Act, Pub. L. 95-91; E.O. 11790, 39 FR 23185; E.O. 12009, 42 FR 46267.)

In consideration of the foregoing, Parts 211 and 212 of Chapter II, Title 10 of the Code of Federal Regulations, are proposed to be amended as set forth below.

Issued in Washington, D.C., January 19, 1979.

DAVID J. BARDIN,
Administrator,
Economic Regulatory Administration.

1. Section 211.62 is amended by adding the definitions of "Adjusted crude oil purchases" and "First purchaser" in proper alphabetical order, and by revising the definitions of "Entitlement," "National domestic crude oil supply ratio," "Old oil," and "Upper tier crude oil" to read as follows:

§ 211.62 Definitions.

* * * * *

"Adjusted crude oil purchases" means the crude oil purchases of a first purchaser in a particular month the composition of which has been adjusted to reflect any invoice which is received in that month for domestic crude oil purchased by that first purchaser in any previous month, and which has the effect of increasing or decreasing the volume of old or upper tier crude oil reported by that first purchaser for such previous month, in cases where such previously reported volume was based on either a prior invoice or a good faith estimate (based on that first purchaser's past experience as to the old and upper tier crude oil content of domestic crude oil of the same origin) as to the old and upper tier crude oil content of that crude oil delivery.

* * * * *

"Entitlement" means, for a particular month the right of the first purchaser owning the entitlement to include one barrel of deemed old oil (as provided in § 211.67(b)), in its adjusted crude oil purchases in that month. The issuance and transfer of entitlements shall be evidenced on records maintained by the ERA.

* * * * *

"First purchaser" means any firm which acquires domestic crude oil in the first sale as defined in § 212.72 of this chapter.

* * * * *

"National domestic crude oil supply ratio" means, for a particular month, the volume of deemed old oil (as defined in § 211.67(b)(2)) included in the aggregate adjusted crude oil purchases of all first purchasers, decreased by a number of barrels of old oil equal to the number of entitlements issuable to small refiners under § 211.67(e) and the number of entitlements deducted from the entitlement purchase requirements of all first purchasers under § 211.67(b)(3) and the number of entitlements issuable under § 211.67(a)(5), divided by the sum of the total volume of the crude oil runs to stills for all refiners for that month and thirty percent (30%) of the total volume of imports of eligible products by eligible firms for that month, *provided* that, for the period July 1, 1978 through June 30, 1979, the reference herein to thirty percent (30%) shall read fifty percent (50%). The calculation of the national domestic crude oil supply ratio for each month shall take into account entitlement purchase or sale requirements resulting from the correction of reporting errors pursuant to paragraph (j) of § 211.67.

* * * * *

"Old oil" means old crude oil as defined in §§ 212.72 and 212.75 of this chapter, except that old oil included in a first purchaser's adjusted crude oil purchases or a refiner's adjusted crude oil receipts shall not include condensate recovered at the inlet side of a gas processing plant.

* * * * *

"Upper tier crude oil" means, (i) for the period February 1, through August 31, 1976, new crude oil as defined in §§ 212.72 and 212.75 of this chapter and crude oil produced and sold from a stripper well lease as defined in § 212.74 of this chapter, and (ii) effective September 1, 1976, new crude oil as defined in §§ 212.72 and 212.75 of this chapter, except that upper tier crude oil included in a first purchaser's adjusted crude oil purchases or a refiner's adjusted crude oil receipts shall not include condensate recovered at the inlet side of a gas processing plant.

* * * * *

2. Section 211.66 is amended by revising paragraphs (h) and (i) and by adding a new paragraph (l) to read as follows:

§ 211.66 Reporting requirements.

* * * * *

(h) *Monthly report.* On or prior to the fifth day of each month, commencing with the month of ———, 1979, each refiner shall file with the ERA a report certifying the following information as to the second month prior to the month in which the report is filed:

(1) The estimated volume (to the best of the knowledge of the certifying officer) of domestic crude oil (excluding Alaska North Slope and Naval Petroleum Reserve crude oils) included in the crude oil receipts of that refiner.

(2) The estimated volumes (to the best of the knowledge of the certifying officer), stated separately, of Alaska North Slope and Naval Petroleum Reserve crude oils included in the crude oil receipts of that refiner.

(3) The volume of crude oil runs to stills of that refiner, taking into account, and specifying the amount of, the adjustments provided for in § 211.67(d).

(4) The volume of domestic crude oil consumed by that refiner for purposes other than refining.

(5) The weighted average costs (including transportation costs to the refinery) for that refiner for (i) domestic crude oils (excluding Alaska North Slope and Naval Petroleum Reserve crude oils), (ii) Alaska North Slope and Naval Petroleum Reserve crude oils, and (iii) imported crude oil included in that refiner's crude oil receipts. For refiners required to file transfer pricing report forms under § 212.84 of this chapter, the weighted average cost of imported crude oil reported under this subparagraph should be derived from the landed costs set forth in such reports.

(6) Such other information as the ERA may request.

(i) *Monthly transaction report.* On or prior to the tenth day of each month, commencing with the month of ———, 1979, each refiner, eligible firm, first purchaser or other firm that was required to purchase or sell entitlements for the third month prior to the month in which the report is filed shall file with the ERA a report certifying its purchases or sales of entitlements for that prior month.

* * * * *

(l) *Special report for crude oil consumed for non-refining uses.* On or prior to the fifth day of each month, commencing with the month of ———, 1979, each firm other than a refiner or producer (with respect to crude oil consumed on the lease for crude oil production purposes) that purchases domestic crude oil for consumption by that firm for purposes other than refining shall file with the ERA a report certifying the volumes of domestic crude oil so consumed.

3. Section 211.67 is amended by deleting the last sentence of subparagraph (2) of paragraph (a), by deleting subparagraph (4) of paragraph (a), by renumbering subparagraph (5) of paragraph (a) as subparagraph (4), by revising paragraphs (b) and (c), by adding new subparagraphs (9) and (10) to paragraph (d), by revising paragraph (f), by deleting paragraphs (g) and (h) and reserving them for future use, by revising subparagraphs (1), (2) and (4) of paragraph (i), by revising subparagraphs (1) and (3) of paragraph (j), by revising paragraph (k), by deleting paragraph (l) and reserving it for future use, by revising subparagraph (2) of paragraph (m), and by adding a new paragraph (n) to read as follows:

§ 211.67 Allocation of domestic crude oil.

* * * * *

(b) *Required purchase of entitlements by first purchasers.*

(1) For each month, commencing with the month of ———, 1979, each first purchaser of domestic crude oils the first sale of which is subject to the provisions of Part 212 of this chapter shall purchase a number of entitlements effective for that month equal to the number of barrels of deemed old oil purchased by that first purchaser in that month; *provided that* this subparagraph (1) of paragraph (b) shall not apply to purchases of lower tier or upper tier crude oil sold to crude oil producers for purposes of crude oil production, provided that the producer certifies to the seller that the crude oil will be used for production purposes. Entitlement purchases required under this paragraph (b) with respect to a particular month shall be effected by the close of the second month following that month.

(2) To calculate the number of barrels of deemed old oil included in a first purchaser's adjusted crude oil purchases for purposes of the definition of national domestic crude oil supply ratio in § 211.62 of this subpart, each barrel of old oil shall be equal to one barrel of deemed old oil and each barrel of upper tier crude oil shall constitute a fraction of a barrel of deemed old oil, such fraction to be fixed by the ERA by the ——— day of the month preceding the calendar quarter for which such fraction shall be effective.

(3) For each month, commencing with the month of ——— 1979, the number of entitlements required to be purchased under paragraph (b)(1) of this section by each first purchaser shall be decreased by: (i) the number of barrels of California lower tier crude oil purchased by that first purchaser in that month multiplied by a fraction, the numerator of which is $2.38 plus or minus $.09 for each degree API gravity (or fraction thereof) by which the weighted average gravity of all California lower tier crude oil purchased in that month either falls below or exceeds, respectively, 18 degrees API, and the denominator of which is the entitlement price for that quarter; and (ii) the number of barrels of California upper tier crude oil purchased in that month multiplied by a fraction, the numerator of which is $1.45 plus or minus $.09 for each degree API gravity (or fraction thereof) by which the weighted average gravity of all California upper

V 4 4 / 1 8 J A 2 5 7 9 UMI

tier crude oil purchased in that month either falls below or exceeds, respectively, 18 degrees API, and the denominator of which is the entitlement price for that quarter; *provided that* the dollar value by which the entitlement obligation is reduced for a barrel of such California crude oil shall not exceed the dollar value of the entitlement obligation associated with such crude oil. Each first purchaser shall calculate and report the weighted average gravity of California lower tier crude oil and California upper tier crude oil separately, and in calculating such weighted average gravities shall (A) determine the gravity of such crude oil for each purchase of such crude oil in that month on the basis of the gravity of such crude oil at the time it is purchased and (B) determine a single monthly weighted average gravity for such crude oil by weight averaging (on a volumetric basis) all of such crude oil purchased in that month.

• • • • •

(c) *Refiners and other firms issued entitlements.* For each month, commencing with the month of ———, 1979, each refiner that has been issued entitlements for that month shall sell such entitlements and any firm other than a refiner, including any eligible firm as defined in § 211.62, that has been issued entitlements shall sell such entitlements.

• • • • •

(d) *Adjustments to volume of crude oil runs to stills.*

• • • • •

(9) Commencing with the month of ———, 197—, the volume of a refiner's crude oil runs to stills in a particular month for purposes of the calculations in paragraph (a)(1) of this section and the calculations for the national domestic crude oil supply ratio (without giving effect to the provisions of paragraph (e) of § 211.67) shall include the number of barrels of crude oil consumed (other than as a refinery feedstock) by that refiner or blended into a refined petroleum product or residual fuel oil by that refiner and sold to any firm other than a refiner for consumption by that firm for purposes other than refining.

(10) Notwithstanding any other provisions of this section, any firm other than a refiner shall be eligible for entitlement issuances on the same basis as a refiner under paragraph (d)(9) of this section with respect to those volumes of crude oil consumed by that firm for purposes other than refining; *provided* that, this subparagraph (10) shall not apply to those volumes of crude oil consumed by a producer for purposes of crude oil production.

• • • • •

(f) *Transactions under § 211.65.* Effective for sales for the allocation period commencing ——— , 1979 under § 211.65 of this subpart, and notwithstanding the provisions of subparagraph (1) of paragraph (b) of this section, a refiner-seller shall be deemed to be a first purchaser as to any volume of domestic crude oil acquired by a refiner-buyer in a first sale as defined in § 212.72 of this chapter, where such first sale is made to satisfy such refiner-seller's sales obligations under § 211.65 of this subpart.

(g) *Reserved.*

(h) *Reserved.*

(i) *Issuance and transfer of entitlements.* (1) The ERA shall issue entitlements for each month (effective for the month of ——— 1979 and subsequent months) pursuant to a notice issued on the fifteenth day of the second month following that month.

(2) Each notice published by the ERA evidencing the issuance of entitlements under this section shall specify as to a particular month the national domestic crude oil supply ratio, the name of each refiner or other firm to which entitlements have been issued, the number of barrels of deemed old oil purchased by each first purchaser, the number of entitlements issued to each such refiner or other firm, the number of entitlements required to be purchased or sold by each such refiner, first purchaser or other firm, and the price at which entitlements shall be purchased and sold.

• • • • •

(4) On or about the tenth day preceding each calendar quarter, the ERA shall fix and publish the prices at which entitlements shall be sold and purchased for each month during the calendar quarter. The entitlement price shall be equal to the differential between the projected weighted average cost per barrel to refiners of old oil, and such projected weighted average costs of imported crude oil, ANS crude oil, stripper well crude oil (as defined in Part 212 of this chapter), incremental tertiary crude oil (as determined pursuant to § 212.78), and other domestic crude oils the first sale of which is exempt from the provisions of Part 212 of this chapter, such costs to be equivalent to the projected delivered costs to the refinery.

• • • • •

(j) *Reporting errors.* (1) Refiners, first purchasers and other firms, including eligible firms, shall correct any errors contained in reports filed pursuant to § 211.66, or reports filed pursuant to statutory authority, by filing an amended report for the particular month. Based on any reporting errors so corrected, the ERA in its discretion may adjust entitlement issuances to the refiner or other firm or adjust the entitlements purchase obligations of the first purchaser, refiner or other firm in one or more months subsequent to the month in which the amended report is filed with the ERA, by issuing fewer entitlements than the number otherwise issuable, by requiring the refiner or eligible firm to purchase entitlements in order to correct for excess entitlements issued in a prior month or by issuing entitlements over and above the number otherwise issuable to compensate for too few entitlements having been issued in such prior month or by requiring a first purchaser to purchase entitlements to compensate for insufficient entitlement purchase obligations for a prior month. All entitlement issuances or purchase requirements under this subparagraph shall give effect to any differential between the entitlement price for the month in which any correction is reflected as compared with the entitlement price for the month as to which the reporting error was made (except with respect to corrections to volumes of crude oil runs to stills where a corresponding adjustment to crude oil receipts was made as contemplated by the term "adjusted crude oil receipts" in § 211.62) and such other factors as the ERA deems appropriate.

• • • • •

(3) For purposes of this paragraph, errors required to be corrected by the filing of amended reports include (i) clerical errors, and (ii) inaccurate estimates as to the domestic crude oil pricing composition of a particular volume of crude oil where the refiner or first purchaser had no basis, in prior experience or otherwise, on which to make that estimate.

• • • • •

(k) *Failure to consummate transactions.* The ERA may direct first purchasers, refiners or other firms, including eligible firms, that have not purchased the required number of entitlements under this section for a particular month to purchase such required number of entitlements at a price specified by the ERA from any first purchaser, refiner or other firm, including an eligible firm, that has entitlements for such month available for sale. The ERA may direct first purchasers, refiners, or other firms, including eligible firms, that have entitlements available for sale to sell such entitlements at a price specified by the ERA to first purchasers, refiners, or other firms, including eligible firms,

that have not purchased their required number of entitlements under this section.

(l) *Reserved.*

(m) *Adjustments to crude oil and product costs.*

• • • • •

(2) *Resellers and retailers.* (i) The sales revenues from entitlements sold pursuant to this section by resellers or retailers of refined petroleum products and residual fuel oil shall be subtracted from the cost of the product in inventory for which the entitlements were issued, so as to reduce the weighted average unit cost of that product in inventory computed pursuant to § 212.92 of this chapter.

(ii) The reseller's costs and expenses associated with sales of crude oil as defined in § 212.182 of this chapter in a month may include the cost of entitlements associated with the crude oil sold in the month.

• • • • •

(n) *Savings provision; deemed old oil purchased prior to ———, 1979 and sold after ———, 1979.* (1) The provisions of this section and §§ 211.62 and 211.66 as in effect on ———, 1979 shall govern entitlement purchase and sale requirements which arise after ———, 1979 with respect to refiners' crude oil runs to stills and adjusted crude oil receipts for any month prior to ———, 1979.

(2) Any firm that purchased old oil or upper tier crude oil prior to ———, 1979 and sells such crude oil after ———, 1979, shall be deemed a first purchaser as to such crude oil, irrespective whether the firm acquired the crude oil in a first sale as defined in § 212.72 of this chapter, and shall include the volumes of such crude oil in its adjusted crude oil purchases for the month of ———. In addition, any firm which receives crude oil after ———, 1979, pursuant to an exchange or matching purchase and sale transaction of the type described in paragraph (g)(1) of this section as in effect prior to ———, 1979, in which old oil or upper tier crude oil is exchanged away prior to ———, 1979, shall be deemed a first purchaser as to such crude oil received after ———, 1979 and shall include in its adjusted crude oil purchases for the month in which such crude oil is received the volumes of old oil or upper tier crude oil exchanged away prior to ——, 1979.

§ 212.131 [Amended]

4. Section 212.131 is amended by deleting paragraph (b) and by redesignating paragraph (c) as paragraph (b).

§ 212.185 [Amended]

5. Section 212.185 is amended by deleting paragraph (c).

VESSEL NUMBERING AND CASUALTY AND ACCIDENT REPORTING; STATE NUMBERING AND CASUALTY REPORTING SYSTEM

V 4 4 / 1 8 J A 2 5 7 9 UMI

[4910-14-M]

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER S—BOATING SAFETY

[CGD 76-155]

PART 173—VESSEL NUMBERING AND CASUALTY AND ACCIDENT REPORTING

PART 174—STATE NUMBERING AND CASUALTY REPORTING SYSTEM

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: A change is being made to the accident reporting regulations which would reduce the number of recreational boating accidents which must be reported to the Coast Guard. Present reporting requirements result in accidents being reported in which the Coast Guard has minimal interest. One other change will require States to list the cause of accidents on the accident report forwarded to the Coast Guard. These changes will reduce the reporting burden and increase the usefulness of the report. Similarly, the time period allowed for reporting certain accidents will be extended. A proposed change to the vessel numbering requirements is being withdrawn. Also being withdrawn is a proposal to change the Application for a Certificate of Number which will be included in a more comprehensive change to the Application.

EFFECTIVE DATE: February 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Mr. David R. Gauthier, Office of Boating Safety (G-BLC-3/TP42), Room 4308, Department of Transportation, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590, 202-426-4176.

SUPPLEMENTARY INFORMATION: A Notice of Proposed Rulemaking concerning this amendment was published in the FEDERAL REGISTER issue of November 10, 1977 (42 FR 58722). Interested persons were invited to submit written comments to the Coast Guard before December 27, 1977.

DRAFTING INFORMATION

The principal persons involved in the drafting of this rule are: Mr. D.R. Gauthier, Project Manager, Office of Boating Safety and Ms. Mary Ann McCabe, Project Attorney, Office of Chief Counsel.

DISCUSSION OF COMMENTS

Eleven comments, including nine from state boating law administrators, one from the National Transportation Safety Board (NTSB), and one from the public, were received.

Numbering: Exemption of Tenders of Documented Yachts. Of the nine State boating law administrators who responded, eight expressed opposition to the proposal to exempt tenders of documented yachts from the vessel numbering requirements of 33 CFR 173.13 and 173.27. Reasons expressed were law enforcement problems connected with the multiple uses of small boats used as tenders and a reluctance to extend a financial benefit to a class of boaters seen by some States as already circumventing the State registration laws by documenting their boats with the Coast Guard. Adoption of this exemption by the States would not be required and, in light of the apparent widespread opposition to the rule, it can be expected that the exemption would be effective in few States other than those for which the Coast Guard is the numbering authority. For that reason, and because of the potential confusion which would result, the Coast Guard has decided to withdraw that proposal.

CASUALTY AND ACCIDENT REPORTING

Four persons commented on the proposed changes to the accident reporting requirements of 33 CFR 173.55. Two of the commenters supported all of the proposed changes. The other two commenters found that the new criterion for a reportable injury, "unable to perform normal functions or usual activities for more than 24 hours", is as ambiguous as the phrase to be replaced. One commenter suggested, as an alternate criterion, "receives medical treatment," defined as "aid or attention by a physician or other person trained to practice medicine or administer treatment." In the Notice of Proposed Rulemaking, the Coast Guard proposed deleting the phrase "receives medical treatment" from the existing regulations because it was considered ambiguous and resulted in a lack of uniformity in reporting. However, since the commenters seemed to have as much difficulty with the proposed criterion, the Coast Guard has decided to adopt the commenter's suggestion to keep the phrase "receives medical treatment," but to modify the commenter's suggested definition to create a clearer criterion that will result in greater uniformity of reporting.

One commenter was concerned that under the proposed $200 criterion for property damage, accidents involving inexpensive boats would not be reported even if the boat was a total loss. The commenter suggested, therefore, that a criterion for accidents involving complete loss of the vessel be added. The Coast Guard has adopted that suggestion.

One commenter objected that the latitude left to the States by 33 CFR 174.101, in that a State may require accident reports resulting in property damage less that $200, demolishes the objective of uniformity. The Coast Guard does not concur and the comment was not adopted. States have had, since 1972, the latitude to require accident reports for accidents other than those the Coast Guard would require and there has been no serious public objections.

REVIEW OF REPORTS

Three commenters objected that the changes to 33 CFR 174.103 would require onsite investigations of all accidents. They argue that it would be difficult, if not impossible, to guarantee accuracy or completeness. It is not the intent of this section to require onsite investigations, although the Coast Guard encourages the States to do so. The change does not add a new requirement to determine cause. It merely clarifies how and where the determination should be furnished to the Coast Guard. As noted in the proposal, 70% of the states follow this procedure now. If during a review of a report the reviewing agency finds that the report does not state the cause of the accident or that the cause stated is inconsistent with information which the reviewing agency possesses, the reviewing agency is required to enter its opinion as to the cause. To clarify that there is no intent to require an investigation of the accident, the phrase "based on information available" is added and the term "apparent cause" is used.

One commenter suggested that State agencies should determine the cause of the fatality, if appropriate. This comment was not adopted because it may be interpreted as placing unintended burdens (requiring autopsies) upon the States.

This amendment has been reviewed under the Department of Transportation's "Policies and Procedures for Simplification, Analysis and Review of Regulations (43 FR 9582, March 8, 1978). A final evaluation has been prepared and is included in the public docket.

In consideration of the foregoing Title 33 of the Code of Federal Regulations is amended as set forth below:

1. By revising § 173.55(a) (2) and (3) and (b) (2) and (3) to read as follows:

§ 173.55 Report of casualty or accident.

(a) • • •

(2) A person is injured and requires medical treatment beyond first aid;

(3) Damage to the vessel and other property totals more than $200 or there is a complete loss of a vessel; or

• • • • • •

(b) • • •

(2) Within 48 hours of the occurrence if a person is injured and requires medical treatment beyond first aid, or disappears from a vessel; and

(3) Within 10 days of the occurrence or death if an earlier report is not required by this paragraph.

• • • • • •

2. By revising § 174.101(b) to read as follows:

§ 174.101 Applicability of state casualty reporting system.

• • • • • •

(b) The State casualty reporting system may require vessel casualty or accident reports resulting in property damage of $200 or less.

3. By revising § 174.103 (c) and (d) to read as follows:

§ 174.103 Administration.

• • • • • •

(c) Reviews each accident and casualty report to assure the accuracy and completeness of each report;

(d) Determines the cause of casualties and accidents reported based on information available and indicates the apparent cause on the casualty report or on an attached page;

• • • • • •

(46 U.S.C. 1486; 49 CFR 1.46(n)(1).)

Dated: January 20, 1979.

J. B. HAYES,
Admiral, U.S. Coast Guard,
Commandant.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 164]

[CGD 77-168]

VESSELS OF 1600 GROSS TONS OR MORE

Proposed Electronic Navigation Equipment

AGENCY: Coast Guard, DOT.

ACTION: Supplemental notice of proposed rulemaking.

SUMMARY: This supplemental notice proposeds a more detailed standard for marine LORAN-C receivers, provides for a "phase in" period, and modifies the proposed warranty requirement. The more detailed standard was not available at the time of publication of the notice, November 14, 1977 (42 FR 59012). Although objectively similar, it is so clearly superior to the previously proposed standard that the Coast Guard considers its incorporation worthy of consideration.

DATE: Comments must be received by March 12, 1979.

ADDRESSES: Comments should be submitted to Commandant (G-CMC/81) (CGD 77-168), U.S. Coast Guard, Washington, DC 20590. Comments will be available for examination at the Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street, S.W., Washington, DC 20590.

FOR FURTHER INFORMATION CONTACT:

Mr. Fred A. Schwer, Project Manager, Office of Marine Environment and Systems (G-WLE-4/73), Room 7315, Department of Transportation, Nassif Building, 400 Seventh Street, S.W., Washington, DC 20590, (202) 426-4958.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data or arguments. Persons submitting comments should indicate their name and address, identify this notice (CGD 77-168) and the specific section of the proposal to which each comment applies, and give reasons for each comment. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No additional public hearing is planned but one may be held at a time and place to be set in a later notice in the FEDERAL REGISTER if such a meeting is requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

DRAFTING INFORMATION

The principal persons involved in drafting this document are: Mr. Fred Schwer, Office of Marine Environment and Systems, Project Manager, and Mr. Stanley Colby, Office of Chief Counsel, Project Attorney.

DISCUSSION OF COMMENTS

The Coast Guard published a notice of proposed rulemaking on this subject on November 14, 1977 (42 FR 59012). Thirty two letters of comment were received. Six commenters endorsed the proposal as written and two additionally advocated haste in its implementation. The Coast Guard agrees with the need for deliberate haste and is proceeding with the rulemaking as quickly as necessary information becomes available and the Administrative Procedure Act allows.

Nine commenters urged that the Coast Guard incorporate the "Minimum Performance Standards (MPS) [for] Marine LORAN-C Receiving Equipment", developed by the Radio Technical Commission for Marine Services (RTCM), an advisory group to the Federal Communications Commission, as the required standard for LORAN-C receivers. That document became available in January 1978. In reviewing the MPS, it was evident that the standard is a more detailed version of that which the Coast Guard proposed in the notice of proposed rulemaking. In response to the commenters and in recognition of the fact that use of the MPS will achieve the same objectives and that it is a technically superior document, the Coast Guard proposes to incorporate it as the LORAN-C standard. The purpose of this supplementary notice is publication of the more detailed standard.

This notice proposes one departure from the RTCM MPS. The existence of an interfacing capability, described in section 1.4(f) of the MPS under advisory information, would be made mandatory. Loran Position Transmitting equipment will be proposed as a requirement for Trans Alaskan Pipeline System tankers in the Prince William Sound VTS area by 1980. A similar requirement is contemplated for the Puget Sound, Houston, New Orleans and New York VTS Areas. Moreover, a general requirement for continuous position reporting by vessels calling at U.S. ports is being discussed as a means of tracking vessels in the U.S. Coastal Confluence Zone. In view of the probable need for the interfacing capability within the next few years, it is proposed that the requirement be imposed now. In that way, receivers would not require retrofit or suffer premature obsolescence.

Nine commenters suggested that the Coast Guard "grandfather" good existing units, even if they are not "to spec". This was considered, but the definition of "good" units is an elusive one. That approach would require the Coast Guard to undertake an evaluation of each existing receiver. This would be time consuming and expensive and neither personnel nor financial resources are available for such a program. Instead, the Coast Guard is proposing a "phase in" period, from June 1, 1979 to June 1, 1981, during which any Type I or II (fully- or semi-automatic acquisition) receiver will be acceptable. At the end of that period, only LORAN-C sets complying with the RTCM standard would be acceptable.

The Coast Guard proposes to stagger the effective dates for various vessels. Section 5 of the Port and Tanker Safety Act of 1978 (Pub. L. 95-474) requires tank vessels of 10,000 gross tons or more that carry oil or any hazardous material in bulk as cargo or in residue to be equipped with an electronic position fixing device by June 1, 1979. Therefore, those vessels would have to be equipped with a Type I or II LORAN-C or a specified alternative by that date. All other tank vessels of 1600 gross tons or more would have to have them by June 1, 1980, and all other vessels of 1600 gross tons or more by June 1, 1981.

Nine commenters asserted that the warranty requirement, as written, subjected manufacturers to an unacceptable degree of product liability. This was not the intent of the proposal. The Coast Guard, as explained above, is not able to undertake a type approval program for electronic navigation equipment at this time. Therefore, because it is necessary for vessels to be equipped with adequate devices and because purchasers and vessel inspection personnel must have a way to recognize complying units, the proposed warranty requirement is retained.

It is recognized that manufacturers may have no control over equipment installation and proper use, nor was that broad a warranty intended. Therefore, it is proposed that the warranty be limited to the set being in compliance as designed and manufactured or as subsequently modified by the manufacturer. Moreover, it is recognized that an individual warranty program may prove cumbersome, particularly for sets already installed or in distribution. Therefore, this supplementary notice proposes a type-attestation alternative. The manufacturer might elect to attest to the Coast Guard, in writing, that a particular make, model, and series or modification of receiver complies with the MPS. The Coast Guard would list the receivers as having been attested to for the convenience of purchasers and vessel inspectors. However, inclusion on the list would not constitute an approval by the Coast Guard.

Warranty or attestation would not be required for any receiver until June 1, 1981.

Two commenters recommended that the Coast Guard publish procedures for approving alternative devices. The Coast Guard does not intend to "approve" any of these devices. A receiver proposed as an alternative under the provisions of § 164.41(b)(3) would be evaluated against the requirements of the National Plan for Navigation. Since the receivers so proposed could vary widely, no specific procedure can be stipulated at this time. Requests would be handled on a case by case basis, using whatever procedure is appropriate to the particular device.

Several persons have complained to the Coast Guard that they have been unable to obtain copies of the National Plan for Navigation. That document has been revised and is available from the National Technical Information Service (NTIS), Springfield, VA 22161. The Government Accession Number is AD-A-052269.

Eight commenters complained about the lack of signal characteristic and test standards. The Coast Guard plans to publish LORAN-C signal characteristics. The RTCM is developing LORAN-C test standards. The proposed two year phase in period would allow time for all needed information to become available.

This proposal has been reviewed under the Department of Transportation's "Policies and Procedures for Simplification, Analysis, and Review of Regulations" (43 FR 9582, March 8, 1978). A draft evaluation has been prepared and is included in the public docket.

In consideration of the foregoing, it is proposed to amend Part 164 of Chapter I of Title 33, Code of Federal Regulations as follows:

§ 164.30 [Amended]

1. By striking, in § 164.30, the section number "164.35" and inserting the section number "164.41" in place thereof.

2. By adding a new § 164.41 to read as follows:

§ 164.41 Equipment: Certain vessels.

(a) This section applies to vessels calling at ports in the continental U.S. or on the Gulf of Alaska, except—

(1) Vessels not engaged in commerce and owned or bareboat chartered and operated by the United States, by a state or its political subdivision, or by a foreign nation; and

(2) Vessels calling only at U.S. ports on the Great Lakes are not required to meet paragraph (b) of this section until 120 days after the day LORAN-C for that area is declared operational by the U.S. Coast Guard.

(b) Each vessel must have one of the following devices installed:

(1) A LORAN-C receiver meeting the requirements of paragraph (c) of this section.

(2) A continual update, satellite-based hybrid navigation receiver (i.e., satellite-bottom tracking, satellite-inertial, or satellite-Omega) meeting the standards contained in paragraph (d) of this section.

(3) A system that the Commandant finds meets the intent of the statements of availability, coverage, and accuracy for the U.S. Coastal Confluence Zone (CCZ) contained in the U.S. Department of Transportation National Plan for Navigation (Report No. DOT-TST-78-4 dated November 1977). A person desiring a finding by the Commandant under this subparagraph must submit a written request describing the receiver to: Commandant (G-W/73), U.S. Coast Guard, Washington, DC 20590. In addition to the description, the Commandant may request data and test results to establish whether or not the receiver meets the National Plan.

(c) Each LORAN-C receiver must meet the following:

(1) Be a Type I or II receiver as defined in Section 1.2(e) of Radio Technical Commission for Marine Services (RTCM) Paper 12-78/DO-100, entitled "Minimum Performance Standards (MPS) Marine LORAN-C Receiving Equipment."

NOTE.—This paper may be purchased from the Radio Technical Commission for Marine Services, P.O. Box 19087, Washington, DC 20036 [(202)—296-6610].

(2) Provide a separate digital data output as described in section 1.4(f) of the RTCM MPS. Resolution of the output data may not be more coarse than that displayed by the receiver. Data must be available whenever the receiver is tracking LORAN-C signals.

(3) After June 1, 1981, be accompanied by a manufacturer's warranty that, at time of manufacture or modification by the manufacturer, the receiver complied with the minimum performance standards contained in Section 1.4(f) and 2 of the Radio Technical Commission for Marine Services Paper 12-78/DO-100 as defined in Section 1 of that paper, unless the manufacturer attests to the Coast Guard, in writing, that a particular make, model, and series of receivers meets the minimum performance standards contained in Sections 1.4(f) and 2 of the RTCM Paper 12-78/DO-100, as defined in Section 1 of that paper.

NOTE.—A list of equipment which manufacturers have attested as being in compliance with this standard will be published periodically by the Coast Guard. The Coast Guard does not test or otherwise verify the performance of electronic navigation equipment, but publishes the listing solely as a matter of public convenience based on the representations of the manufacturer.

(d) Each hybrid satellite system must have—

(1) Automatic acquisition of satellite signals after initial operator settings have been entered;

(2) Position updates derived from satellite information obtained during each usable satellite pass; and

(3) A continual tracking complementary system that provides, in between satellite passes, position updates at intervals of one minute or less.

§ 164.53 [Amended]

3. By adding in § 164.53(b) the words "radio navigation receivers," after the word "radar," and before the word "gyrocompass,".

(Sec. 2, Pub. L. 95-474; R.S. 4417a, as amended by Sec. 5, Pub. L. 95-474 (46 U.S.C. 391a); 49 CFR 1.46(n)(4).)

Dated: January 16, 1979.

J. B. HAYES,
Admiral, U.S. Coast Guard,
Commandant.

LTJG Michael P. Rolman (G-MVI-2/83), Room 8300, Department of Transportation, Nassif Bldg., 400 Seventh St., S.W., Washington, D.C. 20590, (202) 426-2190.

SUPPLEMENTARY INFORMATION: Since these amendments are matters relating to agency procedure or practice, they are exempt from notice of proposed rulemaking requirements in 5 USC 553(b)(3)(A) and since these amendments are not substantive, they may be made effective immediately under 5 USC 553(d).

DRAFTING INFORMATION

The principal persons involved in drafting this rule are: LTJG Michael P. Rolman, Project Manager, Office of Merchant Marine Safety, and Michael N. Mervin, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF AMENDMENTS

In recent years the Coast Guard has expanded its role in the inspection of merchant vessels, both United States and foreign. As a result the Coast Guard issues new forms of Certificates of Inspection that were not previously issued. These are Barge Certificates of Inspection (CG-4678), Control Verification for Foreign Vessel (CG-4504), Letter of Compliance (CG-2832A), and Tank Vessel Examination Letter (CG-840S-1).

The Barge Certificate of Inspection issued to a United States vessel describes the vessel, route, required crew, required safety equipment, owner, operator and product allowed to be carried.

The Control Verification for Foreign Vessel describes the vessel, type of certificate required by the International Convention for the Safety of Life at Sea, 1960, as modified by the amendments proposed by the Thirteenth Session of the Maritime Safety Committee of the Inter-Governmental Maritime Consultative Organization contained in Annexes I through IV of the Note Verbale of the Secretary General of the Organization dated 17 May 1966, No. A1/C/3.07 (NV.1), and country issued by. This certificate indicates the vessel has been examined by the Coast Guard and that the vessel meets the requirements of SOLAS, 1960 as modified by the amendments proposed by the Thirteenth Session of the Maritime Safety Committee of the Inter-Governmental Maritime Consultative Organization contained in Annexes I through IV of the Note Verbale of the Secretary General of the Organization dated 17 May 1966, No. A1/C/3.07 (NV.1)

The Letter of Compliance indicates that the described foreign vessel has been examined by the Coast Guard for compliance with 33 CFR Parts 155, 156, 159, 164, 46 CFR Part 153, and SOLAS 60, and is considered suitable for carrying into or from United States ports the cargoes shown in the endoresment, subject to the restrictions of 46 CFR Part 153.

The Tank Vessel Examination Letter is issued to a foreign vessel, described therein, that has been examined for compliance with Tankship Cargo Venting and Handling Systems and Minimum Safety Standards (SOLAS 60, 46 CFR Part 35), Pollution Prevention Regulations and Transfer Procedures (33 CFR Parts 155, 156, 157, and 159) and Navigation Safety Regulations (33 CFR Part 164).

There are also certificates that were issued to foreign vessels that are no longer used due to either obsoleteness or replacement. These certificates are Certificate of Examination of a Foreign Passenger Vessel (CG-989) and Certificate for Foreign Vessel to Carry Persons in Addition to Crew (CG-3463).

PART 2—VESSEL INSPECTIONS

Subpart 2.01—Inspecting and Certificating of Vessels

Accordingly, Subpart 2.01 of Title 46, Code of Federal Regulations is amended as follows:

1. By revising § 2.01-5 to read:

§ 2.01-5 Certificate of Inspection.

(a) *Issuance of Certificates.* Upon completion of the inspection of a United States vessel, and on condition that the vessel and its equipment are approved by the inspector, a certificate of one or more of the following Coast Guard forms is issued by the Officer in Charge, Marine Inspection:

(1) CG-841—Certificate of Inspection.

(2) CG-854—Temporary Certificate of Inspection.

(3) CG-3753—Certificate of Inspection (for small passenger vessels).

(4) CG-4678—Barge Certificate of Inspection.

(b) *Description of Certificates.* The certificates of inspection issued to United States vessels describe the vessel, the route the vessel may travel, the minimum manning requirements, the safety equipment and appliances required to be on board, the total number of persons that may be carried, and the names of the owners and operators. The period of validity is stated on the certificate. The certificate may be renewed by applying for inspection under § 2.01-1.

(c) *Amending Certificates.* When because of a change in the character of the vessel or vessel's route, equipment, etc. the vessel does not comply with the requirements of the Certificate of Inspection previously issued, a certificate amending such certificate may be issued at the discretion of the Officer in Charge, Marine Inspection, to whom request is made on Coast Guard form CG-858, Certificate of Inspection Amendment.

2. By adding a new § 2.01-6 to read as follows:

§ 2.01-6 Certificate issued to foreign vessels.

(a) *Issuance of Certificates.* Upon completion of an examination of a foreign vessel, one or more of the following certificates is issued by the Officer in Charge, Marine Inspection:

(1) CG-4504—Control Verification for Foreign Vessel—issued to a foreign vessel that is registered in a country which is signatory to the International Convention for the Safety of Life at Sea, 1960, as modified by the amendments proposed by the Thirteenth Session of the Maritime Safety Committee of the Inter-Governmental Maritime Consultative Organization contained in Annexes I through IV of the Note Verbale of the Secretary General of the Organization dated 17 May 1966, No. A1/C/3.07 (NV. 1).

(2) CG-2832A—Letter of Compliance—issued to a foreign vessel that is suitable for carriage of hazardous cargoes in bulk as defined in 46 Code of Federal Regulations, Subchapter 0 and is in compliance with Tankship Cargo Venting and Handling Systems and Minimum Pollution Prevention Regulations and Transfer Procedures (33 CFR Parts 155, 156, 157 and 159), and Navigation Safety Inspection Regulations (33 CFR Part 164).

(3) CG-840S-1—Tank Vessel Examination Letter—issued to a foreign vessel that is suitable for carriage of cargoes as defined in 46 Code of Federal Regulations, Subchapter D and is in compliance with Tankship Cargo Venting and Handling Systems and Minimum Safety Standards (SOLAS 60-46 CFR Part 35), Pollution Prevention Regulations and Transfer Procedures (33 CFR Parts 155, 156, 157 and 159), and Navigation Safety Regulations (33 CFR Part 164).

(4) Foreign vessels of countries which are nonsignatory to the International Convention for the Safety of Life at Sea, 1960, are issued a Temporary Certificate of Inspection (CG-854) and a Certificate of Inspection (CG-841) as described in § 2.01-5.

(b) *Description of Certificates.* (1) CG-4504—Control Verification for Foreign Vessels—describe the vessel, type of certificate required by the International Convention for the Safety of Life at Sea, 1960, as modified by the amendments proposed by the Thirteenth Session of the Maritime Safety Committee of the Inter-Governmental Maritime Consultative Organization contained in Annexes I through IV of the Note Verbale of the Secretary of the Organization dated 17 May 1966, No. A1/C/3.07 (NV. 1), country issued by, and its expiration date. The period of validity of a control verification for foreign vessel is stated on the certificate.

(2) CG-2832A—Letter of Compliance—describe the vessel and the period for which the letter is valid.

(3) CG-840S-1—Tank Vessel Examination Letter—describe the vessel and if there are any deficiencies as to applicable regulations at the time the vessel was examined. If there are deficiencies they are listed in an attachment to this letter (CG-840S-2). The Tank Vessel Examination Letter is valid for a period of 1 year from the date the examination is completed.

(4) Temporary Certificate of Inspection (CG-854) and Certificate of Inspection (CG-841) are amended as provided for in § 2.01-5(c).

(46 USC 416, 49 USC 1655(b); 49 CFR 1.46(b).)

Dated: January 16, 1979.

J. B. HAYES,
Admiral, U.S. Coast Guard,
Commandant.

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 124]

SMALL BUSINESS AND CAPITAL OWNERSHIP DEVELOPMENT PROGRAM

Procurement and Technical Assistance

AGENCY: Small Business Administration.

ACTION: Proposed rules.

SUMMARY: These proposed rules describe the type of assistance available, the requirements for obtaining assistance, and the methods of providing assistance to certain eligible small businesses under SBA's new Small Business and Capital Ownership Development Program as mandated by Pub. L. 95-507. In addition, they provide criteria for determining when the participation of a business in the program should be terminated or determined to be completed, and specify a procedure by which such a determination can be made.

DATES: Comments must be received on or before March 26, 1979.

ADDRESS: Comments, submitted in duplicate, are to be submitted to the Associate Administrator for Minority Small Business and Capital Ownership Development, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416.

FOR FURTHER INFORMATION CONTACT:

Martin D. Teckler, Office of General Counsel, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416, 202-653-6797.

SUPPLEMENTARY INFORMATION: Pub. L. 95-507 requires the revision of Part 124 of Title 13 of the Code of Federal Regulations because that Public Law substantially amends parts of the Small Business Act which Part 124 implements. As a result of Pub. L. 95-507, it is necessary to replace the following presently effective sections: 124.8, 124.8-1 and 124.8-2. The following proposed rules are proposed as replacements for these sections.

These proposed rules are to provide for the implementation of the Pub. L. 95-507, which amends among other provisions, sections 8(a) and 7(j) of the Small Business Act, as amended, (hereinafter the "Act"). The purpose of Section 8(a) of the Act is to foster busines ownership by individuals who are both socially and economically disadvantaged, to promote the competitive viability of such firms by providing such available contract, financial, technical, and management assistance as may be necessary, and to clarify and expand the program for the procurement by the United States of articles, equipment, supplies, services, materials and construction work from small business concerns owned and managed by socially and economically disadvantaged individuals.

The Act sets forth a business development program whereby the Administration is authorized to provide to eligible business concerns procurement contracts, financial, management and technical assistance.

The Congress has found that the opportunity for full participation in our free enterprise system by socially and economically disadvantaged persons is essential in order to attain social equality and economic parity for such persons. The Congress found further that Black Americans, Hispanic Americans, Native Americans, and other minorities have suffered the effects of discriminatory practices and other invidious circumstances over which they have no control.

The business development program of the Administration is designed to ameliorate the condition of socially and economically disadvantaged groups by providing the maximum practical opportunity for the development of businesses owned and managed by such persons. Such development can be materially advanced through the procurement by the United States of articles, equipment, supplies, services, and construction work from such businesses and the provision of management and technical assistance to develop managerial self-sufficiency. The Congress intends that the primary beneficiaries of this program shall be minorities and that the authorities granted the Administration in this program will be used for appropriate business development.

The Act requires that the Administration of the section 8(a) program—the principal procurement assistance vehicle—and the section 7(j) management assistance program shall be under the direction of the Associate Administrator for Minority Small Business and Capital Ownership Development. The interface of these programs should result in the delivery to the business owned by the socially and economically disadvantaged individual an increased opportunity to produce and sell goods and services efficiently and profitably.

These regulations provide for significant changes in regard to the following areas:

(a) Program eligibility—The Act allows program participation for a "socially and economically disadvantaged small business concern." This means a small business concern which is at least 51 percent owned by one or more socially disadvantaged individuals, and whose management and daily business operations are controlled by one or more of such individuals. Socially disadvantaged individuals are those who have been subjected to racial or ethnic prejudice or cultural bias because of their identity as a member of a group without regard to their individual qualities.

Economically disadvantaged individuals are those socially disadvantaged individuals whose ability to compete in the free enterprise system has been impaired due to diminished capital and credit opportunities as compared to others in the same business area who are not socially disadvantaged. In determining the degree of diminished credit and capital opportunities, the Administration shall consider, but not be limited to, the assets and net worth of such socially disadvantaged individual.

This represents a significant change of eligibility criteria from the standard of social or economic disadvantage heretofore utilized by the Administration.

(b) Contracting—This section provides for the relationship between the Administration and other federal agencies in regard to the provision of procurement contracts for the 8(a) program.

(c) Termination—Detailed termination procedures and standards are provided which will govern the circumstances under which a business concern can be denied assistance under the program. Simultaneously, with the publication of the within regulations, final regulations governing substantive and procedural rights for 8(a) concerns in regard to termination and the dental of assistance under the program shall be published. Comments regarding these matters are welcome.

(d) Small Business and Capital Ownership Development Program—This section grants significant new authority for the Administration to aid 8(a) concerns in regard to procurement, financial, management and technical assistance matters.

(e) Advance Payments and Business Development Expense—These sections set forth the criteria and standards for the award and use of advance payments and business development expense.

(f) Surety Bond Waiver—This section provides for the criteria and conditions for the Administration to grant waivers to requirements for the use of surety bonds in appropriate circumstances.

This 22d day of January 1979.

A. VERNON WEAVER,
Administrator.

It is proposed to amend 13 CFR Part 124 by deleting the present §§ 124.8, 124.8-1, and 124.8-2 and adding the following new §§ 124.1-1—124.1-5, 124.2-1, 124.3-1 and 124.4-1 to read as follows:

Sec.
124.1-1 The Section 8(a) Program.
124.1-2 Contracting.
124.1-3 Advance payments.
124.1-4 Letter of credit.
124.1-5 Business development expense.
124.2-1 Consultant services program.
124.3-1 Small business and capital ownership development program.
124.4-1 Surety bond waivers.

§ 124.1-1 The Section 8(a) Program.

(a) *General.* These regulations implement Section 8(a) of the Small Business Act (15 U.S.C. 637(a)) which authorizes SBA to enter into all types of contracts (including, but not limited to, supply, services, construction, research and development) with other Government departments and agencies and negotiate subcontracts for the performance thereof.

(b) *Purpose.* It is the objective of SBA to use such authority to assist small business concerns owned and controlled by socially and economically disadvantaged persons to achieve a competitive position in the market place.

(c) *Eligibility.* In order to be eligible to participate in the section 8(a) program, an individual or an applicant concern as the case may be must meet all of the pertinent eligibility criteria set forth hereafter in paragraphs (c)(1) through (5) of this section. All determinations pursuant to paragraphs (c)(1) through (5) of this section shall be made by the Associate Administrator for Minority Small Business and Capital Ownership Development (AA/MSB&COD) whose decision shall be final; provided however, than an applicant may request reconsideration of such final decision based upon information discovered subsequent to such decision or upon information which was unavailable at the time of such final decision. The granting of such reconsideration shall be within the absolute discretion of the AA/MSB&COD.

(1) *Small Business Concern.* In order to be eligible to participate in the section 8(a) program, an applicant concern must qualify as a small business concern as defined for purposes of Government procurement in § 121.3-8 of the SBA Rules and Regulations; the size standard to be applied shall be based on the principal activity of the applicant concern.

(2) *Ownership and Control.* In order to be eligible to participate in the section 8(a) program, an applicant concern must be one:

(i) Which is at least 51 percent owned by an individual or individuals who are citizens of the United States, (specifically excluding resident aliens) and who are determined to be socially and economically disadvantaged.

(A) In case of an applicant concern which is a corporation, 51 percent of all classes of voting stock of such corporation must be owned by an individual(s) determined to be socially and economically disadvantaged.

(B) In the case of an applicant concern which is a partnership, 51 percent of the partnership interest must be owned by an individual or individuals determined to be socially and economically disadvantaged.

(ii) Whose management and daily business operations are controlled by an individual(s) determined to be socially and economically disadvantaged. Such individual(s) must be engaged full time in the daily management and operation of the business concern.

(3) *Social Disadvantage.* (i) Socially disadvantaged individuals are those who have been subjected to racial or ethnic prejudice or cultural bias because of their identification as members of certain groups, without regard to their individual qualities. Such groups include, but are not limited to, Black Americans, Hispanic Americans, Native Americans and other minorities.

(ii) Social disadvantage of individuals within such groups shall be determined on a case-by-case basis. Membership alone in any group is not conclusive that an individual is socially disadvantaged.

(4) *Economic Disadvantage.* (i) Economically disadvantaged individuals are socially disadvantaged individuals whose ability to compete in the free enterprise system has been impaired due to diminished capital and credit oportunities, as compared to others in the same line of business and competitive market area who are not socially disadvantaged.

(ii) In determining the degree of diminished credit and capital opportunities, consideration shall be given:

(A) With respect to both the disadvantaged individual and the applicant concern, to the following factors, including but not limited to:

(*1*) Personal and business assets;

(*2*) Personal and business net worth; and

(*3*) Personal and business income and profits.

(B) With respect to the applicant concern, the following factors, including but not limited to:

(*1*) Availability of financing;

(*2*) Bonding Capability;

(*3*) Availability of outside equity capital; and

(*4*) Available markets.

(5) *Potential for Success.* In order to be eligible to participate in the section 8(a) program, an applicant concern must be a concern:

(i) Which with contract, financial, technical and management support will be able to successfully perform contracts awarded under the section 8(a) program, and with such assistance shall have reasonable prospects for success in competing in the private sector.

(ii) In addition to meeting the criteria set forth in § 124.1-1(c)(5)(1) above, the AA/MSB&COD must determine that the financial, technical and management support necessary to enable the applicant concern to successfully complete the section 8(a) procurement contract shall be available to such concern from SBA or other identified and acceptable sources.

(d) *Program Completion.* (1) When a section 8(a) business concern has substantially achieved the objectives of the 8(a) program, including but not limited to, the achievement of the goals set forth in its business plan as approved an modified, and the attainment of demonstrated ability to compete in the market place without assistance from 8(a), its participation within the program shall be determined by SBA to be completed.

(2) In determining whether a concern has substantially achieved the goals of its business plan or has attained the ability to compete in the market place without 8(a) assistance, the following factors, among others, shall be considered by SBA. The factors cited above shall be determined with regard to the remedial purposes of the statute.

(i) Positive overall financial trends, including but not limited to:

(A) Profitability.

(B) Sales, including improved ratio of non-8(a) sales.

(C) Net Worth, financial ratios, working capital, capitalization, access to credit and capital.

(D) Ability to obtain bonding.

(ii) A comparison of the 8(a) business concern's business and financial profile with profiles of non-8(a) small businesses in the same area or similar business category.

(iii) Management capactity.

(3) Upon determination by the SBA that a section 8(a) business concern's particiaption within the program has been completed pursuant to § 124.1-1(d)(1), above, the section 8(a) business concern shall be afforded an opportunity for a hearing on the record in accordance with chapter 5 of Title 5 of the United States Code, at which hearing it may contest such determination. Such a hearing will be held pursuant to the SBA's Rules of Practice for Adjudicative Proceedings set forth at Part 101.10 et. seq. of SBA rules and regulations.

(4) Subsequent to the completion of such hearing, based upon the record established therein, and after consideration of the recommended decision of the examiner who has conducted the hearing, the AA/MSB&COD shall render a final decision regarding the completion of the section 8(a) business concern's participation in the pro-

JAN 25 1979 UMI

V 4 4 / 1 8 J A 2 5 7 9 UMI

gram. Prior to a final decision, the subject 8(a) business concern may have full rights of participation in the 8(a) program.

(e) *Program termination.* (1) Participation of a section 8(a) business concern in the program may be terminated by the SBA prior to the completion of the concern's business plan for good cause. Examples of good cause include, but are not limited to, the following:

(i) Failure of the 8(a) business concern to continue to meet the standards of eligibility set forth in these regulations.

(ii) Failure of the 8(a) business concern to maintain its status as a small business concern within the applicable regulations.

(iii) The failure of the section 8(a) business concern to exert reasonable efforts to attain commerical business.

(iv) Failure to maintain ownership and control by the person(s) who has been determined to be socially and economically disadvantaged.

(v) Inadequate management performance by the section 8(a) business concern; and

(vi) Repeated inadequate performance of awarded section 8(a) procurement contracts by the section 8(a) business concern.

(vii) The concern has ceased its business operations. This constitutes automatic and immediate grounds for terminating a concern's participation in the program.

(viii) Failure to submit updated business plans within a reasonable time after its due date without approval by SBA.

(ix) Withholding notice from, or failure to provide notice to SBA within 30 days of changes in ownership and mangement control.

(x) Noncompliance with substantial requirements of divestiture or management agreements as approved by the AA/MSB&COD.

(xi) Failure to comply with the reporting provisions required in management agreements. Compensating those providing management assistance in excess of that specified in the SBA approved management agreement. Having a management agreement either written or oral that has not been approved by the AA/MSB&COD. Willful violation of any of the requirements of the management agreement.

(xii) Failure or refusal to provide SBA with required quarterly and annual financial statements and reports within a reasonable time after the close of the quarter.

(xiii) Failure to achieve goals cited in the business plan, as modified, as a result of repeated refusal to accept or utilize SBA assistance.

(xiv) Failure to reasonably pursue commerical and competitive business in accordance with the business plan projection, or failure to otherwise make reasonable efforts to achieve competitive status.

(xv) Inability to make satisfactory progress, within a reasonable time, after receiving SBA's management and technical assistance, financial and technical assistance in achieving its business development objectives.

(xvi) Failure to request prior approval from SBA before subcontracting under an 8(a) contract.

(xvii) Failure to disclose to SBA the extent to which nondisadvantaged persons or firms will participate in the management of the 8(a) business concern.

(xviii) Failure to disclose to SBA fees paid or to be paid, costs incurred or committed to third parties, directly or indirectly, in the process of obtaining 8(a) contracts.

(xix) Willful failure to comply with applicable labor standards obligations.

(xx) Knowingly submitting false information to SBA.

(xxi) Whenever the concern is debarred by the Comptroller General, the Secretary of Labor or the Director of the Office of Federal Contract Compliance.

(xxii) Whenever the concern is debarred or suspended for cause by any contracting agency pursuant to FPR subpart 1-1.6 "Debarred Suspended and Ineligible Bidders" or DAR (ASPR) section I. Part 6, "Debarment, Ineligibility and Suspension".

(xxiii) Conviction for commission of a criminal offense as an incident to obtaining or attempting to obtain a public or private contract, or subcontract thereunder, or in the performance of such contract or subcontract.

(xxiv) Conviction under the Organized Crime Control Act of 1970, or conviction of embezzlement, theft, forgery, bribery, falsification or destruction of records, receiving stolen property, or any other offense indicating a lack of business integrity or business honesty which seriously and directly affects the question of present responsibility as a Government contractor.

(xxv) Conviction under the Federal Antitrust Statutes arising out of the submission of bids or proposals.

(xxvi) Violation of the subcontract provision against contingent fees and gratuities.

(2) Upon determination by the SBA that a section 8(a) business concern's participation in the program should be terminated for good cause, the section 8(a) business concern shall be afforded an opportunity for a hearing on the record in accordance with chapter 5 of Title 5 of the United States Code, at which hearing it may contest such determination. Such a hearing will be held pursuant to the SBA's Rules of Practice for Adjudicative Proceedings set forth at Part 101.10 et seq. of the SBA rules and regulations.

(3) Subsequent to the completion of such hearing, upon the record established therein, and after consideration of the recommended decision of the examiner who has conducted the hearing, the AA/MSB & COD shall render a final decision regarding the termination, for good cause, of the 8(a) business concern's participation in the program.

(4) After the effective date of a program termination as provided for herein, the 8(a) business concern is no longer eligible to receive 8(a) subcontracts and other 8(a) assistance. However, such concern is obligated to complete previously awarded 8(a) subcontracts.

§ 124.1-2 Contracting.

(a) *General policy.* (1) Whenever SBA determines that it is necessary or appropriate, it shall enter into contracts with the United States Government or any department, agency, or officer thereof having procurement powers obligating SBA to furnish articles, equipment, supplies, services or materials to the Government, or to perform construction work for the Government.

(2) In any case in which SBA certifies to any procurement officer that SBA is competent and responsible to perform any specific Government procurement contract to be let by such officer, such officer shall be authorized in his discretion to let such procurement contract to SBA upon such terms and conditions as may be agreed upon between SBA and the procurement officer.

(3) In any case in which SBA and such procurement officer fail to agree on a procurement and/or the terms and conditions of a specific procurement contract, such disagreement shall be submitted to the head of the department or agency for final determination.

(4) SBA shall arrange for the performance of such procurement contracts by negotiating or otherwise letting subcontracts to section 8(a) small business concerns to provide whatever goods, construction work, or services may be necessary to enable SBA to perform such contracts.

(b) *Procedures*—(1) *Submission of business plans.* Applicants must submit a business plan, including complete information regarding the concern's qualifications, which will demonstrate that section 8(a) assistance will foster its participation in the economy as a self-sustaining, profit-oriented small business.

(2) *Requirements.* Procuring agencies will offer prospective contracts to SBA for the 8(a). A procuring agency shall submit to SBA an offer which contains the following information:

(i) Current and complete specifications and drawings as necessary;

(ii) A procuring agency estimate of the current fair market value of the contract documented with supporting calculations;

(iii) Identification of any incumbent small business contractor which is presently performing the same or similar contract requirements with all available information on that business' gross receipts and the volume of Federal contracts previously awarded to and performed by such contractor, when such information is readily available and does not unduly delay the offering of a contract.

(3) *Certification.* SBA's execution of a procurement contract with a procuring agency, will operate as a certification of SBA's competency and responsibility to perform the contract as required by section 8(a)(1) of the Small Business Act.

(4) *Failure to Agree on Terms and Conditions.* In the event that SBA and the procuring agency's contacting officer fail to agree upon the selection of the procurement or the terms and conditions of any prospective contract being negotiated between SBA and the procuring agency, SBA and the procuring agency shall submit information sufficient to facilitate a final decision to the head of the procuring agency, who shall have the responsibility to resolve any such disagreement.

(i) Before submission of any disagreement to the head of the procuring agency, the appropriate SBA Regional Director shall seek resolution of any such disagreement by the contracting officer's supervisor.

(ii) Failure of the appropriate Regional Director and the contracting office's supervisor to agree will cause the matter to be submitted to the AAMSB-COD, who on behalf of the Administrator of the SBA, shall present the disagreement to the head of the procuring agency for resolution.

(iii) Subsequent to the resolution of any disagreement over the terms and conditions of any proposed contract by the head of the procuring agency, SBA and the procuring agency may reach agreement upon the proposed contract, or SBA may decide that the contract is unsuited to performance by a section 8(a) business concern, and may then return the proposed contract to the procuring agency for other procurement action.

(c) *Negotiation by 8(a) Business Concern.* Whenever practicable, any section 8(a) business concern which has been selected by SBA to perform a section 8(a) subcontract shall participate in the negotiations of the terms and conditions of such contract.

(d) *Impact on Small Business.* The AAMSB-COD and the AA/PA shall make a determination for each section 8(a) subcontract before award that:

(1) No public solicitation has been made on the specific purchase in question; and

(2) No small business, having relied upon Federal purchasing of the item for a significant part of its business during the preceding year, will suffer hardship because of the removal of the procurement from competition.

§ 124.1-3 Advance Payments.

(a) *Definitions.* Advance payments are disbursements of money made by SBA to a section 8(a) business concern prior to the completion of perfromance of a specific section 8(a) subcontract for the purpose of assisting the said 8(a) business concern in meeting financial requirements pertinent to the performance of said subcontract. Advance payments must be liquidated from proceeds derived from the performance of the specific section 8(a) subcontract. However, this does not preclude repayment of such advance payments from other revenues of the business except from other advance payments. The proceeds derived from the performance of the specific 8(a) contract must be deposited in a bank account established exclusively for the purpose of administering the advance payments.

(b) *General Policy.* Advance payments shall not be made in any case in which the section 8(a) business concern has assigned its rights to receive any payment under the specific section 8(a) subcontract to any person or entity, unless such assignment shall be made to SBA or to a Federal agency in regard to the receipt by the 8(a) business concern of a progress payment for any specific 8(a) subcontract. In no event shall the total amount of advance payments for a Section 8(a) business concern exceed the amount of the 8(a) subcontract to which it relates; nor shall any such advance payment exceed the amount which is to be earned from the anticipated completion of performance of the remainder of the subject 8(a) subcontract. The SBA shall not charge interest on advance payments disbursed pursuant to these regulations.

(c) *Requirements.* (1) Advance payments may be approved for a Section 8(a) business concern when the following conditions are found by SBA to exist:

(i) A Section 8(a) business concern does not have adequate working capital to perform a specific Section 8(a) subcontract; and

(ii) Either adequate and timely financing is not available on reasonable terms to provide the necessary capital, or financing is available but the terms of such financing are not conducive to the effective performance of the Section 8(a) subcontract and/or the business development purposes of the Section 8(a) program.

(iii) The Section 8(a) business concern has established or agrees to establish and maintain financial records and controls which provide for complete accountability and required reporting of program funds. These records must be made available upon request for review by SBA and the General Accounting Office.

(d) *Procedure.* To be eligible to receive Advance Payments a Section 8(a) business concern must meet the conditions set forth in § 124.1-3(c) above and must comply with the following procedure.

(1) A Section 8(a) business concern desiring to receive an advance payment in connection with any Section 8(a) subcontract shall:

(i) Submit a written request for advance payment to the appropriate SBA regional director or his designee. Such request must include detailed documentation supporting the need for such funds and evidence that working capital financing cannot be found upon terms acceptable under § 124.1-3(c)(ii) above from financial institutions.

(ii) The Section 8(a) business concern msut select a commercial bank which is a member of the Federal Reserve System in which it must establish a Special Bank Account for the deposit of advance payment funds from SBA and for the deposit of payments earned pursuant to the performance of the subcontract(s). This special account shall be a demand deposit account.

(A) Disbursements from the account shall require the countersignature of such SBA employee as shall be designated by the appropriate regional director.

(B) Under no circumstances shall the requirement for an SBA employee countersignature be waived.

(C) SBA shall obtain a lien upon the Special Bank Account, any property contracted for, and supplies, material and other property acquired with the proceeds of such advance payment funds.

(2) Upon a review of all the circumstances and evidence, the Regional Director shall have the obligation to decide whether to approve or deny a request for advance payment. This right of approval by the Regional Director shall not be delegated to any other person or entity. The 8(a) business concern, the bank selected pursuant to § 124.1-3(d)(ii) above, and SBA shall execute an Advance Payment agreement which shall set forth the terms and conditions governing advance payments.

V 4 4 / 1 8 J A 2 5 7 9 UMI

(e) *Use of Advance Payment Funds.* (1) Except for repayment to SBA in appropriate circumstances, advance payment funds may be withdrawn from the special bank account by a Section 8(a) business concern exclusively for the purpose of purchasing materials and labor and paying for administrative and overhead expenses required to perform the specific Section 8(a) subcontract.

(2) Under no circumstances may advance payment funds be deposited in interest-bearing accounts.

(3) Advance payment funds shall be disbursed for deposit into the special account only in such amounts necessary to pay for the immediate needs of a Section 8(a) subcontract. Such disbursements shall be made as expeditiously as possible. Such immediate needs shall be documented by the small business concern and verified by SBA prior to disbursement.

(4) Payments to the 8(a) business concern for work performed or services rendered pursuant to the subject 8(a) contract shall be paid into the Special Bank Account.

(f) *Cancellation.* (1) SBA may determine that the advance payments be cancelled for any of the following reasons:

(i) The terms and conditions of the advance payment agreement have not been adhered to by a section 8(a) small business concern.

(ii) The subcontracting relationship between SBA and subcontractor is completed or terminated.

(2) In the event of cancellation, all previous advance payments shall become immediately due and payable to SBA.

§ 124.1–4 Letter of Credit.

(a) *General Policy.* The letter of credit method of payment will be utilized under certain circumstances to disburse advance payments to section 8(a) business concerns performing subcontracts under the section 8(a) program when SBA has made a decision approving the use of advance payments pursuant to the requirements and conditions provided for in these regulations.

(b) *Eligibility Requirements.* SBA may disburse advance payments through the letter of credit method of payment through the Federal Reserve Bank System to a section 8(a) business concern when all of the following conditions are found by SBA to exist:

(1) SBA determines that the section 8(a) business concern may be awarded more than one section 8(a) subcontract during a period of at least one year.

(2) The aggregate amount of letter of credit advance payment funds will exceed $120,000 annually.

(3) The section 8(a) business concern has submitted a schedule of its projected monthly advance requirements for 8(a) subcontract disbursements, SBA has reviewed it, and SBA has found it to be reasonable.

(4) The section 8(a) business concern has established or agrees to establish and maintain financial records and controls which will provide for complete accountability and required reporting of program funds. These records must be made available upon request for review and audit by SBA and the General Accounting Office.

(c) *Procedures.* The procedures for the utilization of the letter of credit method of payment shall be in accord with 41 CFR 1-30.408-1.

§ 124.1–5 Business Development Expense.

(a) *Definition.* Business Development Expense (BDE) funds are available for the purpose of assisting section 8(a) business concerns in connection with specific 8(a) subcontracts in their efforts to become competitive by overcoming deficiencies which would otherwise impede the firms from producing a service or product at a fair market price.

(b) *Purpose.* In the discretion of SBA, BDE funds may be used for the following purposes:

(1) To make up the difference between the current fair market price and the reasonable price required by the 8(a) contractor to provide the product or service in connection with a specific section 8(a) subcontract.

(2) For the purchase of capital equipment which has been determined by SBA to be essential to the section 8(a) business concern's performance of specific section 8(a) subcontracts and for which acquisition cannot be made by other financing means without adversely affecting the concern's financial condition.

(c) BDE may be used to defray other costs necessary to the performance of a specific 8(a) contract, including but not limited to:

(1) Facility and production engineering.

(2) Development, testing, and implementation of quality control procedures.

(3) Training costs to counteract low labor productivity due to the inexperience of the business concern or its labor force.

(4) Differential due to low order purchasing power and/or material usage in comparison to its competitors.

§ 124.2–1 Consultant Services Program.

(a) *General.* The Small Business Act, as amended, authorizes the SBA to provide assistance as set forth in section 7(j) of the Act. Section 7(j) of the Small Business Act, provides for financial assistance to public or private organizations to pay all or part of the cost of projects designed to provide technical or management assistance to individuals or enterprises eligible for assistance under section 7(i), 7(j)(10), and 8(a) of the Small Business Act. Section 7(j)(10) of the Small Business Act establishes a Small Business and Capital Ownership Development program which shall provide additional assistance exclusively for small business concerns eligible to receive contracts pursuant to section 8(a) of the Small Business Act. The management of the Capital Ownership Development program is vested in the Associate Administrator for Minority Small Business and Capital Ownership Development who is responsible for the oversight of the program and activities set forth in this part of these regulations. The Associate Administrator for Minority Small Business and Capital Ownership Development is responsible for coordinating and formulating policies relating to Federal assistance to small business concerns eligible for assistance under section 7(i) and 8(a) of the Small Business Act.

(b) *Services.* (1) Section 7(j)(1–2) of the Small Business Act empowers the SBA to provide through public and private organizations the management and technical assistance enumerated below to those individuals or concerns who meet the eligibility criteria contained in sections 7(i) and 8(a) of the Small Business Act.

(2) The SBA shall give preference to projects which promote the ownership, participation in ownership, or management of small businesses owned by low-income individuals and small businesses eligible to participate in the section 8(a) program.

(3) This assistance may include any or all of the following:

(i) Planning and research, including feasibility studies and market research;

(ii) The identification and development of new business opportunities;

(iii) The furnishing of centeralized services with regard to public services and Federal Government programs including programs authorized under sections 7(i), 7(j)(10), and 8(a) of the Small Business Act;

(iv) The establishment and strengthing of business service agencies, including trade associations and cooperatives;

(v) The furnishing of business counseling, management training, and legal and other related services, with special emphasis on the development of management training programs using the resources of the business community, including the development of management training opportunities in existing business, and with emphasis in all cases upon providing management training of sufficient scope and duration to develop entrepreneurial and managerial self-sufficiency on the part of the individuals served.

(4) Sections 7(j)(3) and 7(j)(9) of the Small Business Act authorize SBA to:

(i) Encourage the placement of subcontracts by businesses with small business concerns located in areas of high concentration of unemployed or low-income individuals, with small businesses owned by low-income individuals, and with small businesses eligible to receive contracts pursuant to section 8(a) of this Act. SBA may provide incentives and assistance to such businesses that will aid in the training and upgrading of potential subcontractors or other small business concerns eligible for assistance under sections 7(i), 7(j), and 8(a) of the Small Business Act, and

(ii) Coordinate and cooperate with the heads of other Federal departments and agencies, to insure that contracts, subcontracts, and deposits made by the Federal Government or with programs aided with Federal funds are placed in such way as to further the purposes of sections 7(i), 7(j), and 8(a) of the Small Business Act.

(c) *Eligibility.* (1) Eligibility for the assistance enumerated under § 124.2-1(b) above shall include, but not limited to:

(i) Businesses which qualify as small within the meaning of size standards prescribed in Part 121 of 13 CFR and which are located in urban or rural areas with a high proportion of unemployed or low income individuals; and

(ii) Businesses eligible to receive contracts pursuant to section 8(a) of the Small Business Act.

(d) *Delivery of Services.* (1) The financial assistance authorized for project under § 124.2-1(b) above includes assistance advanced by grant, agreement, or contract.

(2) To the extent feasible, services under § 124.2-1(b) above shall be provided in a location which is easily accessible to the individuals and small business concerns served.

(e) *Coordination and Cooperation With Other Government Agencies.* (1) The Associate Administrator for Minority Small Business and Capital Ownership Development may utilize the resources of other agenies and departments whenever practicable which can directly or indirectly support or augment the purposes of sections 7(j) and 8(a) of the Small Business Act.

(2) The Associate Administrator for Minority Small Business and Capital Ownership Development shall enter into agreements with Federal agencies and departments to further effectuate sections 7(i), 7(j) and 8(a) of the Small Business Act.

(3) The Associate Administrator for Minority Small Business and Capital Ownership Development shall encourage the placement of deposits made by the Federal funds, in such a way as to further the purposes of sections 7(i), 7(j) and 8(a) of the Small Business Act.

§ 124.3–1 Small Business and Capital Ownership Development Program.

(a) *General.* The development assistance described below shall be provided exclusively to those small business concerns eligible to receive contracts pursuant to section 8(a) of the Small Business Act. Such small business concerns shall be participants in the Small Business Capital Ownership and Development program. This program shall:

(1) Assist small business concerns participating in the program to develop comprehensive business plans with specific business targets, objectives, and goals;

(2) Provide for such other nonfinancial services as deemed necessary for the establishment, preservation, and growth of small business concerns participating in the program, including but not limited to (i) loan packaging, (ii) financial counseling, (iii) accounting and bookkeeping assistance, (iv) marketing assistance, and (v) management assistance;

(3) Assist small business concerns participating in the program to obtain equity and debt financing;

(4) Establish regular performance monitoring and reporting systems for small business concerns participating in the program to assure compliance with their business plans;

(5) Analyze and report the causes of success and failure of small business concerns participating in the program; and

(6) Provide assistance necessary to help small business concerns participating in the program to procure surety bonds. Such assistance shall include, but not be limited to, (i) the preparation of surety bond application forms; (ii) special management and technical assistance designed to meet the specific needs of small business concerns participating in the program and which have received or are applying to receive a surety bond, and (iii) preparation of all forms necessary to receive a surety bond guarantee from the SBA pursuant to Title IV, part B of the Small Business Investment Act of 1958.

§ 124.4–1 Surety Bond Waivers.

(a) *Policy.* Notwithstanding subsections (a) and (c) of the first section of the Miller Act (40 U.S.C. 270(a) and (c), 49 Stat. 793) no small business concern shall be required to provide any amount of any bond as a condition of receiving any subcontract under section 8(a) of the Small Business Act if such business concern is determined by SBA to be a start-up concern which, as defined below, has not been participating in any program conducted under the authority of section 8(a) of the Small Business Act for a period exceeding one year, and SBA determines that such amount of bond is inappropriate for the concern in performing the subcontract.

(b) *Definitions.* (1) Start-up concern means a section 8(a) small business concern which is:

(i) both eligible for participation in SBA's section 8(a) program and has had its business plan approved by SBA, and

(ii) which has not been participating in any program conducted under the authority of section 8(a) of the Small Business Act for a period exceeding one year, and

(iii) which has been in its line of work, as its principal business activity, for no more than 2 years. If a principal of the concern has been a principal of another such firm or firms in the same line of work, and the cumulative time span of his service in such capacity(s) is more than two years, the concern is not a start-up concern.

(2) Surety means a corporation with a Certificate of Authority from the Secretary of the Treasury under sections 6 to 13 of Title 6 of the United States Code, or as otherwise qualified under the Small Business Administration's Surety Bond Guarantee Regulations.

(c) *Eligibility.* To be eligible to receive a waiver of surety bond requirements by SBA, a business concern must:

(1) Be determined to be a start-up concern as defined in above; and

(2) Be under consideration by the AA/MSB-COD for award of a section 8(a) subcontract.

(d) *Procedures for Granting A Surety Bond Water.* SBA shall grant a surety bond waiver to an eligible start up concern with respect to the award of a section 8(a) subcontract after SBA has made the following determinations:

(1) SBA determines that the eligible start up concern is unable to obtain the requisite bond or bonds from a surety, and that no surety is willing to issue such bond or bonds subject to the surety bond guarantee provisions of Title IV of the Small Business Investment Act of 1958; and

(2) SBA determines that it can and shall assist, insofar as practicable, the eligible start up concern to develop within a reasonable period of time, such financial and other capability as may be needed to obtain such bonds as SBA may subsequently require for the successful completion of any such contract awarded to the eligible small business concern pursuant to section 8(a) of the Small Business Act; and

V 4 4 / 1 8

(3) SBA determines that it can and shall take such measures as it deems appropriate for the protection of persons furnishing materials and labor to the eligible small business construction concern to which a surety bond waiver is granted; and

(4) The start up concern agrees to remit to SBA a surety bond waiver fee in the amount of 2 percent of the 8(a) contract's face value within ninety (90) days of the time the contract is awarded.

Title 6—Economic Stabilization

CHAPTER VII—COUNCIL ON WAGE AND PRICE STABILITY

ORGANIZATION, LOCATION OF OFFICES AND CONFIDENTIAL INFORMATION

Correction and Clarification of Regulations

AGENCY: Council on Wage and Price Stability.

ACTION: Final rule.

SUMMARY: These amendments update Parts 701 through 704 of the regulations of the Council on Wage and Price Stability, in order to reflect changes in its organization and the location of its offices, and to clarify procedures relating to confidential information.

EFFECTIVE DATE: January 25, 1979.

FOR FURTHER INFORMATION CONTACT:

Roy Nierenberg, Assistant General Counsel, Council on Wage and Price Stability, Room 5020, 726 Jackson Place NW., Washington, D.C. 20506, 202-456-6210.

SUPPLEMENTARY INFORMATION: The Council's regulations were adopted in 1975, and do not, therefore, reflect recent changes in the Council's organization and location. The amendments incorporate these changes and also clarify existing procedures relating to the submission and treatment of confidential information. It should be noted that the Council on Wage and Price Stability Act, 12 U.S.C. 1904 note, provides strong protection for confidential data submitted to the Council, which protection is reflected in the regulations issued today. If data is confidential, it cannot be released by the Council pursuant to a Freedom of Information Act request or other legal process, and is protected from disclosure to other Federal agencies. Moreover, the regulations issued today contain a new procedure at § 704.4(c), which permits a person to submit information conditionally, subject to a determination by the Council that it can be treated as confidential. If the Council determines that the information cannot be so treated, it will be returned.

Since the amendments are procedural, they are effective immediately, without providing for an initial comment period or waiting the customary 30 days. The Council will, however, accept comments on the amendments, which may be submitted to the General Counsel at the address given above, and which should be received by February 16, 1979.

The provisions of Parts 701 through 704 are promulgated under the Council on Wage and Price Stability Act, Pub. L. 93-387, as amended (12 U.S.C. 1904 note).

In accordance with the foregoing, Parts 701 through 704 of Title 6 of the Code of Federal Regulations are amended to read as follows.

Issued in Washington, D.C., January 19, 1979.

BARRY BOSWORTH,
Director.

PART 701—ORGANIZATION

Sec.
701.1 Purpose.
701.2 Status.
701.3 Membership.
701.4 Staff.
701.5 Offices and hours.
701.6 Functions of the Council.
701.7 Standards of conduct.
701.8 Divisions.

AUTHORITY: Council on Wage and Price Stability Act, Pub. L. 93-387, as amended (12 U.S.C. 1904 note).

§ 701.1 Purpose.

This part is intended to provide a general description of the organization of the Council on Wage and Price Stability (the Council). More detailed information can be obtained from the Assistant Director for Public Information at the Council's offices.

§ 701.2 Status.

Pursuant to the Council on Wage and Price Stability Act of 1974, 12 U.S.C. 1904 note, as amended, the Council was established as an agency within the Executive Office of the President.

§ 701.3. Membership.

The Council consists of eight members and four adviser-members, all of whom are appointed by the President. The Chairman of the Council is designated by the President.

§ 701.4 Staff.

The staff of the Council is headed by a Director, appointed by the President with the advice and consent of the Senate.

§ 701.5 Offices and hours.

(a) The offices of the Council are at the New Executive Office Building, Room 4025, 726 Jackson Place, N.W., Washington, D.C. 20506.

(b) Business hours are from 9:00 a.m. to 5:30 p.m., Monday through Friday, except Federal holidays. Where any provision of this chapter refers to a period of days, such period includes only business days, except where otherwise specified. Where any period lapses on a day other than a business day, such period shall be extended through the next following business day.

§ 701.6 Function of the Council.

(a) The principal function of the Council, pursuant to the Council on Wage and Price Stability Act, is to encourage restraint in wage, price and other activities that might have an inflationary effect upon the nation's economy. The Council serves this function by (1) monitoring wage, price and other activity within the private sector of the economy, (2) reviewing programs and policies of the various Federal departments and agencies to analyze their inflationary impact upon the economy, (3) working with representatives of labor and management in various sectors of the economy to encourage restraint in their wage, price and other activity, and (4) holding hearings and otherwise collecting data related to the economy. The Council does not, however, have the authority to impose mandatory economic controls with respect to wages, prices or similar transfers.

(b) In addition, by Executive Order No. 12092 (November 1, 1978), the President authorized the Council to develop standards implementing the voluntary program of wage and price restraint which the President initiated. These standards are set out in an Appendix to Part 705 of this chapter, with related procedures at Part 706.

§ 701.7 Standards of conduct.

The standards of conduct of the Council staff are those applicable to the Office of the President, 3 CFR Part 100.

§ 701.8 Divisions.

(a) *Office of the Chairman.* The Chairman of the Council establishes the basic policy direction to be pursued by the Council, and participates in the various advisory groups within the Office of the President.

(b) *Office of the Director.* This office consists of the Director, and a Deputy Director. It provides overall coordination of the Council's activities and directs the implementation of those activities and responsibilities assigned to the staff by the Council.

(c) *Office of Planning, Policy and Evaluation.* This office, which is headed by an Assistant Director, investigates and develops policy options to combat inflation in various sectors of the economy; provides broad policy coordination for the Council's program activities; develops and presents detailed strategies for dealing with specific sectoral problems; maintains liaison with the Executive Office of the President and other government agencies to facilitate implementation of anti-inflation policy measures, and undertakes and coordinates program evaluations.

(d) *Office of Legislative/Congressional Affairs.* This office, which is headed by an Assistant Director, maintains relations with House and Senate Committees interested in the Council; processes congressional requests for information; develops and coordinates legislative proposals originated by the Council; and advises the Council on policy matters related to Congress.

(e) *Office of Administration and Management.* This office, which is headed by an Assistant Director, provides administrative support in the areas of budget preparation, personnel management, contracting, and administrative services. It also ensures a coordination of management and other policy issues among the program offices.

(f) *Office of Government Programs & Regulations.* This office, which is headed by an Assistant Director, develops and recommends policies for mitigating the potential inflationary effects of Federal activities. The office participates in regulatory proceedings, and comments on proposed regulations, in order to encourage Federal agencies to analyze the cost-effectiveness of their initiatives.

(g) *Office of Price Monitoring.* This office, which is headed by an Assistant Director, is responsible for the overall monitoring of price data and analysis of trends, and identifying particular sources of inflationary pressure; for determining whether or not specific companies are in compliance with the price standards set forth in Subparts 705A and 705C; and for undertaking studies and providing reports for the Congress with respect to inflation trends.

(h) *Office of Pay Monitoring.* This office, which is headed by an Assistant Director provides analytical support to senior government officials; identifies wage negotiations for special attention; responds to technical inquiries as to whether specific unions and/or firms are in compliance with the pay standard set forth in Subpart 705B; and analyzes overall trends in wages and compensation, in order to identify sources of particular inflationary pressures.

(i) *Office of Public Information.* This office, which is headed by an Assistant Director, carries out activities in the area of media relations and other public information services. It is also responsible for editing and distributing publications and reports of the Council.

(j) *Office of the General Counsel.* This office, headed by a General Counsel, provides broad legal support for the Chairman, the Director, and program offices in the implementation of the Council's programs. It reviews requests for information, coordinates the issuance of regulations and interpretive material, and advises on administration of the Pay and Price Standards in order to insure substantive consistency and procedural due process.

PART 702—PUBLIC ACCESS TO RECORDS

Subpart A—General

Sec.
702.1 Purpose.
702.2 Waiver.
702.3 Authority.

Subpart B—Confidential Records

702.4 Request for confidential treatment.
702.5 Confidential records.
702.6 Confidentiality determination.

Subpart C—Request for Disclosure of Records

702.7 Written requests.
702.8 Notice of request.
702.9 Initial decision.
702.10 Notice of initial decision.
702.11 Preservation of requests and notices.

Subpart D—Appeals

702.12 Written appeal.
702.13 Additional information.
702.14 Appellate decision.
702.15 Notice of appellate decision.

Subpart E—Access to Records; Fees

702.16 Access.
702.17 Fees.
702.18 Prior approval or advanced deposit of fees.
702.19 Payment of fees.

AUTHORITY: Council on Wage and Price Stability Act, Pub. L. 93-387, as amended (12 U.S.C. 1904 note).

Subpart A—General

§ 702.1 Purpose.

The Freedom of Information Act, 5 U.S.C. Section 552, which is applicable to the Council, requires the public disclosure of records held by the Council, with the exception of specific categories of confidential records described in that Act. This Part establishes the Council's procedures for providing public access to Council records and for determining the confidential treatment of specific records submitted to it. This Part authorizes the General Counsel, subject to review by the Director of the Council, to receive and act upon requests for the disclosure of records.

§ 702.2 Waiver.

Whenever a waiver of any of the procedures set forth in this Part would further the purposes of the Freedom of Information Act by causing the public disclosure of nonconfidential records within the time period required by that Act, the Director of General Counsel may, in the context of individual requests for records, waive any of the procedural requirements of this Part.

§ 702.3 Authority.

The provisions of this part are promulgated pursuant to the requirement in the Freedom of Information Act, 5 U.S.C. Section 552, and of 18 U.S.C. Section 1905, both of which statutory provisions are made expressly applicable to the Council by Section 4 of the Council on Wage and Price Stability Act, as amended.

Subpart B—Confidential Records

§ 702.4 Request for confidential treatment.

(a) Any person requesting the confidential treatment, pursuant to 5 U.S.C. Section 552(b) and to 18 U.S.C. Section 1905, of records submitted by that person to the Council shall make that request in writing to the Council. Such a written request shall accompany the records for which confidential treatment is requested and shall specifically identify the portions of the submitted records for which confidential treatment is requested.

(b) To the extent possible, records for which confidential treatment is requested shall be separately bound or otherwise segregated from any accompanying material submitted without a request for confidentiality.

§ 702.5 Confidential records.

The following kinds of records, exempt from the public availability requirements of 5 U.S.C. Section 552, may be provided confidential treatment by the Council, pursuant to a request made as set forth in § 702.1:

(a) Records specifically required by Executive order to be kept secret in the interest of the national defense or foreign policy;

(b) Records related solely to the internal personnel rules and practices of the Council;

(c) Records specifically exempted from disclosure by statute, including information defined in section 4(f)(1) of the Council on Wage and Price Stability Act, as amended, and as further defined in § 704.4(a) of this chapter;

(d) Trade secrets and commercial or financial information obtained from a person and privileged or confidential. This exemption includes, without limitation, data about the amount of sources of income, profits, losses, costs or expenditures; inventory lists; customer lists; manufacturing processes and other trade secrets; in each case to the extent that such information is not in fact published or otherwise made available on a nonconfidential basis;

JAN 25 1979 UMI

V 4 4 / 1 8

(e) Inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the Council. The exemption includes, without limitation, minutes and other records of the deliberations of the Council members and staff, intra- and inter-agency reports, memorandums, letters, work papers, and staff papers, except to the extent that such documents have been publicly released by the Council. To the extent that their premature release would be contrary to the public interest, such documents to be made public are included within this exemption until their public release by the Council;

(f) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. The exemption includes, without limitation, the personnel records of the Council, files containing reports, records or other material pertaining to individual cases in which disciplinary or other administrative action has been or may be taken, including records of proceedings pertaining to the conduct or performance of duties by Council personnel;

(g) Investigatory files compiled for law enforcement purposes except to the extent available by law to a party other than an agency;

(h) Records contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(i) Geological and geophysical information and data, including maps, concerning wells.

§ 702.6 Confidentiality determination.

Where a request for the confidential treatment of records submitted to the Council has been made, the General Counsel may, within a reasonable time, make such determination, and notify the party making that request of whether those records are confidential.

Subpart C—Requests for Disclosure of Records

§ 702.7 Written requests.

(a) Any request for records held by the Council shall be made in writing and addressed to the General Counsel, at the Council's offices, Room 5020.

(b) Any request for records from the Council shall describe and identify, in reasonable detail, the particular documents or the type of records requested.

(c) Such a written request shall also estimate, pursuant to the fee schedule set forth in Subpart E, the maximum fee that the party making the request would be willing to pay for the search and duplication of the requested records, without further approval.

§ 702.8 Notice of request.

Whenever a request shall be made for the disclosure of records that the General Counsel has previously concluded, pursuant to § 702.6 to be confidential, notice shall be given to the party who has submitted those records that their disclosure has been requested.

§ 702.9 Initial decision.

(a) The General Counsel shall, within ten (10) days of the receipt of any written request for records, determine whether to grant or deny, in whole or in part, that request (based on any determinations respecting such records under § 702.6). In making such a determination, the General Counsel shall consider, among other alternatives, the possibility of separating confidential records, as defined in Subpart B, from other portions of any requested records, and disclosing the nonconfidential portions.

(b) In the event of an unusual circumstance, as defined in Paragraph (b) (1), (2), or (3) of this section, the General Counsel may extend, by no more than ten (10) working days, the time within which he must make an initial decision in response to a written request. The General Counsel shall immediately give written notice to the party making the request of any such extension of time, of the reasons for such an extension, and of the expected date of the initial decision. "Unusual circumstances," for this purpose, shall include:

(1) The need to search for and collect the requested records from establishments that are separate from the Council's office.

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request.

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request for records or among two or more components of the Council having substantial subject-matter interest therein.

(c) For purposes of this Section, a written request for records shall be deemed "received" when it has arrived in the offices of the Council in a written form that complies with the requirements of § 702.7.

§ 702.10 Notice of initial decision.

The General Counsel shall, immediately upon making an initial decision about a request for records, give written notice of that decision to the person making the request. In the event that that initial decision is to grant a request in whole or part, the written notice shall include a statement of that decision, a brief description of the records to be made available, a statement of the times and place when such records can be available for inspection or, alternatively, of the procedure for duplication and delivery (by mail or other means) of the records to the requesting party, and an itemized statement of the total fees chargeable to the requesting person, pursuant to the fee schedule set forth in Subpart E, for the search for and duplication of the requested records. In the event, on the other hand, that the General Counsel's initial decision is to deny a request in whole or in part, the written notice of that decision shall include a brief statement of that decision and of the reasons therefor, an identification of the name and title of the person making that decision, and also a description of the procedures, pursuant to Subpart D, for an appeal from that decision.

§ 702.11 Preservation of requests and notices.

The General Counsel shall preserve all written requests for records and all written notices of his initial decisions in response thereto for at least one calendar year.

Subpart D—Appeals

§ 702.12 Written appeal.

(a) Any person who has made a written request for the disclosure of records, pursuant to Subpart C, may, within 30 days of receipt of a written notice of the General Counsel's initial decision or after the General Counsel's failure to take any timely action upon that request, request that the Director of the Council review that decision or nonaction. Any such request for review should be made in writing, shall be addressed to the Director, at the Council's offices.

(b) Any written request for review of an initial decision shall include a copy of the party's initial request to the General Counsel for the disclosure of records, a copy of the General Counsel's initial decision, and a brief statement of the legal, factual or other basis for the party's objection to that initial decision.

§ 702.13 Additional information.

Immediately upon receipt of a written appeal, the Director may request that additional information be submitted by the party appealing or by the General Counsel.

§ 702.14 Appellate decision.

(a) The Director shall, within twenty (20) days of the receipt of any written appeal, determine whether to grant or deny that appeal:

(b) In the event of an unusual circumstance, as defined in § 702.9(b), the Director may extend, by no more than ten (10) days, the time within which he must make an appellate decision in response to a written appeal. The Director shall immediately give written notice to the party making the request of any such extension of time, of the reasons for such an extension, and of the expected date of the appellate decision.

§ 702.15 Notice of appellate decision.

The Director shall, immediately upon making an appellate decision, give written notice of that decision to the person making the request. This notice shall include a brief statement of the appellate decision and of the reasons therefor.

Subpart E—Access for Records; Fees

§ 702.16 Access.

(a) Except as set forth in paragraph (b) of this section or as otherwise determined by the Assistant Director for Administration and Management (hereinafter the "Assistant Director") or the Director, requested records or duplicate copies thereof, to be made available to any person shall be made available during regular business hours at the offices of the Council.

(b) Upon the Assistant Director's or the Director's approval, requested records or duplicate copies thereof can be made available by mail to the person making the request.

§ 702.17 Fees.

(a) Fees charged by the Council for the search for and duplication of any records requested shall comply with the following fee schedule:

(a) *Search for records.* $5 per hour when the search is conducted by a clerical employee. $8 per hour when the search is conducted by a professional employee. There is no charge for searches of less than one hour.

(2) *Duplication of records.* Records will be duplicated at a rate of $.25 per page for all copying of four pages or more. There is no charge for duplicating three or less pages.

(3) *Other.* When no specific fee has been established for a service, the Assistant Director is authorized to establish an appropriate fee based on "direct costs" as provided in the Freedom of Information Act and in accordance with Office of Management and Budget Circular No. A-25. Examples of services covered by this provision include searches involving computer time or special travel, transportation or communication costs.

(4) If records requested are stored elsewhere than at the offices of the Council, the special costs of returning those records to the Council's offices for review will be added to the search costs. Search costs are due and payable even if the record which was requested cannot be located after all reasonable efforts have been made or if it is determined that a requested record is confidential and should be withheld.

(b) The Assistant Director or Director may determine, in connection with specific requests for records, that the public interest is best served by the provision of the requested records at no cost or at a cost below the above schedule and, in those specific instances, may waive the above schedule, in whole or in part.

§ 702.18 Prior approval or advanced deposit of fees.

(a) Where the search, duplication or other fees anticipated to result from a request are substantially greater than the amount estimated in the written request, pursuant to § 702.7 above, or in the absence of such an estimate where the anticipated fees are greater than $25, the person requesting the records shall be immediately notified of the estimated fees and his approval for such fees requested. Such person shall also be offered the opportunity to reformulate his or her request in order to reduce the search, duplication and other fees but yet satisfy that person's needs for records.

(b) Where the estimated search, duplication and other fees would exceed $25, the Assistant Director may in addition request that the person requesting records make an advance deposit of the estimated fees.

(c) The dispatch of any such request for an estimated fee approval or advance deposit shall suspend, until a reply is received by the Council, the period, pursuant to 5 U.S.C. section 552 and to § 702.9, within which the Assistant Director must respond to a written request for records.

§ 702.19 Payment of fees.

(a) Fees actually charged a person for the search and duplication of records must be paid in full prior to issuance to him or her of those records. In the event that that person is in arrears for previous requests to the Council for records, records will not be provided for any subsequent requests until the arrears have been paid in full. (b) Payment of fees shall be made by a personal check, postal money order or bank draft drawn on a bank in the United States, made payable to the order of the Treasurer of the United States.

PART 703—RECORDS MAINTAINED ABOUT AN INDIVIDUAL

Subpart G—Appeals

703.17 General.
703.18 Appeal.
703.19 Director's decision.

AUTHORITY: Council on Wage and Price Stability Act, Pub. L. 93-387 as amended (12 U.S.C. 1904 note).

Subpart A—General

§ 703.1 Purpose.

This part contains the regulations of the Council implementing the Privacy Act of 1974, 5 U.S.C. 552a. The regulations apply to all records maintained by the Council that are contained in a system of records, as defined herein, and that contain information about an individual. The regulations in this part set forth procedures that (a) authorize an individual's access to records maintained about him (or her), (b) limit the access of other persons to those records, and (c) permit an individual to request the amendment or correction of records about him (or her).

§ 703.2 Definitions.

For purposes of this part:

(a) "Council" shall mean the Council on Wage and Price Stability;

(b) "Individual" shall mean a citizen of the United States or an alien law-

JAN 25 1979 UMI

V 4 4 / 1 8

fully admitted for permanent residence;

(c) "Record" shall mean any item, collection or grouping of information about an individual that is maintained by the Council, including but not limited to, education, financial transactions, medical history, and criminal or employment history and that contains the individual's name, identifying number, symbol, or other identifying particulars assigned to the individual, such as a finger or voice print or photograph: *Provided,* That such record is maintained in a system of records as defined herein:

(d) "System of records" shall mean a group of any records under the control of the Council from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

§ 703.3 Fees.

The fee schedule set forth in § 702.17 of Part 702 of this chapter shall apply to the reproduction of documents for any request made pursuant to this part.

Subpart B—Annual Notice of Systems of Records Maintained by the Council

§ 703.4 Publication of notice.

The Council will publish in the FEDERAL REGISTER an annual notice describing the systems of records that the Council maintains. Those notices shall include (a) the system name, (b) the system location, (c) the categories of individuals covered by the system, (d) the categories of records in the system, (e) the Council's authority to maintain the system, (f) the routine uses of the system, (g) the Council's policies and practice for maintenance of the system, (h) the system manager, (i) the procedures for notification, access to and correction of records in the system, and (j) the sources of information for the system. Notices shall also be published, as required by the Privacy Act of 1974, of significant changes in or additions to the Council's systems of records.

Subpart C—An Individual's Access to Records Maintained About Him (or Her)

§ 703.5 Request for records.

Any individual may request that the Council provide access to review and/or obtain a copy of any record pertaining to which is contained in any system of records maintained by the Council. Such a request shall be made pursuant to the procedures set forth in §§ 703.6 and 703.7.

§ 703.6 Contents of request.

(a) Any request for access to records must (1) identify the individual making the request by him full name, birth date and current address and (2) reasonably describe the systems of records from which an individual's records are requested. Descriptions of the systems of records maintained by the Council will be available pursuant to § 703.4 in a volume, listing the systems of records maintained by the various agencies of the federal government, to be published by the Office of the Federal Register.

(b) Any request for access to records may also notify the Assistant Director for Administration and Management(hereinafter the "Assistant Director") of the individual's intent to be accompanied by another person of his choice, when reviewing records. Such a statement shall be deemed the individual's consent that records about him (or her) be disclosed in the presence of that other person.

§ 703.7 Procedure for request.

Any individual's request for access to records pertaining to him shall be made in writing or in person to the Assistant Director at the Council's offices, Room 5235. Any individual making such a request in person shall provide acceptable identification (for example, a driver's license, employee identification card or medicare card) to verify his identity and shall complete and sign any reasonable form that the Assistant Director might provide as a record of the request. Any individual making such a request in writing shall mail or otherwise submit to the Assistant Director a written request that is accompanied by a statement verifying the identification of the requestor.

§ 703.8 Initial decision.

(a) Within 10 working days of the receipt of a request pursuant to § 703.4, the Assistant Director shall make an Initial Decision whether the requested records exist and whether they will be made available to the person requesting them. That initial decision shall immediately be communicated, in writing or other appropriate form, to the person who has made the request.

(b) Where the initial decision is to provide access to the requested records, the above writing or other appropriate communication shall (1) briefly describe the records to be made available, (2) state whether any records maintained, in the system of records in question, about the individual making the request are not being made available, (3) state that the requested records will be available during business hours at the Council's offices or alternatively state the procedure for delivery of copies of the records by mail to the individual making the request, and (4) state whether any further verification of the identity of the requesting individual is necessary.

(c) Where the initial decision is not to provide access to requested records, the Assistant Director shall by writing or other appropriate communication explain the reason for that decision. The Assistant Director shall only refuse to provide an individual access to records about himself (or herself) where (1) there is inadequate verification that the requesting individual is in fact the person about whom records are maintained, (2) in fact no such records are maintained, or (3) the requested records have been compiled in reasonable anticipation of civil or criminal action or proceedings.

Subpart D—Access of Others to Records About an Individual

§ 703.09 Limitations on disclosure.

Requests for records about an individual made by persons other than that individual shall also be directed to the Assistant Director. Such records shall only be made available to persons other than that individual in the following circumstances:

(a) To any person with the prior written consent of the individual about whom the records are maintained;

(b) To officers, employees or contractors of the Council who need the records in the performance of their duties for the Council;

(c) For a routine use compatible with the purpose for which it was collected;

(d) To any person to whom disclosure is required by the Freedom of Information Act, 5 U.S.C. 552;

(e) To the Bureau of the Census for uses pursuant to Title 13, of the United States Code;

(f) In a form not individually identifiable, to a recipient who has provided the Council with adequate assurance that the record will be used solely as a statistical research or reporting record; or

(g) To the National Archives of the United States or other appropriate entity as a record which has historical or other value warranting its preservation;

(h) In response to a written request from the head of that federal agency, to an agency for a civil or criminal law enforcement activity that is authorized by law;

(i) To a person showing compelling circumstances, affecting the health or safety of the individual about whom records are maintained, that require the disclosure of such records: *Provided,* That notification of such a disclosure is immediately mailed to the last known address of the individual;

(j) To either House of Congress or to any committee thereof with appropriate jurisdiction;

(k) To the Comptroller General in the performance of the official duties of the General Accounting Office; or

(l) Pursuant to the order of a court of competent jurisdiction.

Subpart E—Accounting of the Disclosure of Records About an Individual

§ 703.10 Maintenance of an Accounting.

The Assistant Director of the Council shall maintain a record ("Accounting") of every instance in which records about an individual are made available, pursuant to this part, to any person other than (a) an officer, employee or contractor of the Council in the performance of his duties or (b) any person pursuant to the Freedom of Information Act, 5 U.S.C. 552.

§ 703.11 Contents of an Accounting.

The above Accounting shall contain the following information:

(a) A brief description of records disclosed;

(b) The date, nature and, where known, the purpose of the disclosure; and

(c) The name and address of the person or agency to whom the disclosure is made.

§ 703.12 Access to accounting.

Any individual may request and shall be provided access, pursuant to the procedures set forth in Subpart C of this part, to any Accounting pertaining to records maintained about that individual.

Subpart F—Amendment or Correction of Records About an Individual

§ 703.13 Request for amendment or correction.

After inspection of any records about an individual, that individual may request, in person or by mail, that the Assistant Director correct or otherwise amend the records maintained about him (or her). Such request shall specify the particular portions of the record to be amended or corrected, the desired amendment or correction, and the reasons therefor.

§ 703.14 Initial decision.

Within 10 working days of receipt of such a request, the Assistant Director shall give the requesting individual notice, by mail or other appropriate means, of his decision regarding the request. That notice shall include:

(a) A statement whether the request has been granted or denied, in whole or in part;

(b) A quotation or description of any amendment or correction made to any records; and

(c) Where a request is denied in whole or in part, an explanation of the reason for that denial, of the requesting individual's right to appeal the decision to the Council's Director pursuant to Subpart G of this part, and of the individual's right, pursuant to § 703.15, to file a written statement to accompany the records in question, setting forth the individual's reasons why those records should have been amended or corrected.

§ 703.15 Written statement of disagreement.

Any individual whose request for the correction or amendment of a record about him (or her) has been denied, in whole or part, may file a Written Statement of Disagreement, setting forth the reasons why the record should have been amended or corrected as requested. That Written Statement shall be made a part of the record and shall accompany that record in any use of disclosure of the record.

§ 703.16 Amendment or correction of previously disclosed records.

Whenever a record is amended or corrected pursuant to § 703.13 or a Written Statement filed pursuant to § 703.15, the Assistant Director shall give notice of that correction, amendment or Written Statement to all persons to whom the records or copies thereof have been disclosed, as recorded in the Accounting kept pursuant to Subpart E of this part.

Subpart G—Appeals

§ 703.17 General.

Any individual whose request for access to records or request for the amendment or correction of records has been denied, in whole or in part, by the Assistant Director may appeal that Initial Decision to the Director of the Council. Such an appeal shall be made in accordance with the procedures of this subpart.

§ 703.18 Appeal.

An individual whose request has been denied in whole or in part by an Initial Decision of the Assistant Director may appeal that decision by filing an appeal, in writing or in person, with the Director, at the Council's offices. That appeal shall describe (a) the request initially made by the individual for access to or the amendment or correction of records, (b) the Assistant Director Initial Decision thereupon and (c) the reasons why that Initial Decision should be Modified by the Director.

§ 703.19 Director's decision.

Within 30 working days of the receipt of any appeal, the Director shall make a decision, and give notice thereof to the appealing individual, whether to modify the Assistant Director Initial Decision in any way. The Director shall also notify the appealing individual of (a) his right to judicial review of the Director's decision pursuant to 5 U.S.C. 552a(g)(1)(A), and (b) of his right, after the denial of any request to amend or correct records, to file a written statement to accompany those records, explaining the individual's reasons why, in his view, the records should have been amended or corrected.

V 4 4 / 1 8

AUTHORITY: Council on Wage and Price Stability Act, Pub. L. 93-387, as amended Pub. L. 94-78 (12 U.S.C. 1904, note).

Subpart A—General

§ 704.1 Purpose.

This part establishes the Council's procedures (a) for issuing subpoenas for testimony and documentary evidence, (b) for requiring the submission of periodic reports, (c) for receiving information submitted voluntarily in response to a Council request, and (d) for determining the confidentiality of information submitted to the Council, pursuant to the Council on Wage and Price Stability Act, as amended, 12 U.S.C. Section 1904 note, and procedures for filing objections and requests related thereto. This Part also establishes the Council's procedures for requesting data or information from other agencies pertaining to the economy or any sector of the economy.

§ 704.2 Investigational policy.

From time to time, the Council shall conduct investigations related to its responsibilities under the Council on Wage and Price Stability Act, as amended, to monitor inflationary activities and potentially inflationary activities in the public and private sectors of the economy. In these investigations, the Council will encourage parties voluntarily to provide data requested by the Council. Where the public interest requires, however, the Council may, in any matter under investigation, invoke any or all of the compulsory processes authorized by the Council on Wage and Price Stability Act.

§ 704.3 Notification of purpose.

Subpoenas and orders requiring periodic reports issued subject to this Part shall notify the respondent of the purpose and scope of the Council's investigation.

§ 704.4 Confidentiality of information.

(a) Product line or other such category information relating to an individual firm or person obtained by subpoena, or obtained by order requiring periodic reports, shall be considered as confidential and exempt from public disclosure under section 552(b)(4) of Title 5 of the United States Code, the Freedom of Information Act, and shall not be disclosed by the Council.

(b) A firm or person submitting information pursuant to a subpoena or an order requiring periodic reports which he believes to be protected under paragraph (a) shall designate such information as confidential. In the absence of such designation, the General Council shall determine whether the information is confidential pursuant to Section (f)(1) of the Council on Wage and Price Stability Act.

(c) Notwithstanding the provisions of § 702.4, any person or firm considering whether to provide information for which protection under paragraph (a) may be available, but who is uncertain as to its actual availability, may furnish such information to the Council on a conditional basis, pending a decision of the General Counsel as to whether paragraph (a) applies. It should be accompanied by a statement explaining the basis of the confidentiality of the data. All such information shall be submitted directly to the General Counsel, at the offices of the Council, Room 5020, and shall be labeled "CONDITIONAL SUBMISSION/EYES ONLY GENERAL COUNSEL". If the General Counsel determines that paragraph (a) does apply, he shall so advise the person or firm making the submission and authorize the Counsel to treat the information as having been submitted to it on a confidential basis. If the General Counsel determines that paragraph (a) does not apply, he shall neither allow any other person to examine it or reproduce it for his own retention, and shall promptly return it to the person or firm which furnished it. In the latter case, the General Counsel shall record the type of information submitted, and the dates on which it was furnished and returned.

(d) A firm or person voluntarily submitting information to the Council who believes that, although not within the provision of § 704.4(a), such information warrants treatment as confidential information under the Freedom of Information Act should specifically identify the records for which confidential treatment is requested, stating the basis for the request pursuant to Part 702. Information submitted voluntarily to the Council (other than information submitted in accordance with paragraph (c)) and determined to be confidential under the criteria and procedures in Part 702 shall be considered as confidential and exempt from public disclosure under section 552(b)(4) of Title 5 of the United States Code, the Freedom of Information Act, and shall not be disclosed by the Council.

(e) Whenever the Council receives a request under the Freedom of Information Act, Section 552 of Title 5 of the United States Code or other provision of law for the disclosure of confidential information submitted voluntarily, or information obtained by subpoena or by order requiring periodic reports, notice shall be given to the party who has submitted that information.

(f) Nothing stated herein shall prohibit the Council from publishing data submitted voluntarily or obtained by subpoena or by order requiring periodic reports, when aggregated in a manner that does not separately disclose any data obtained from an individual firm or person.

§ 704.5 Immunity of certain information from legal process.

Periodic reports obtained by the Council pursuant to an order and determined to be in compliance with that order, and information submitted voluntarily pursuant to a request and determined to be in accordance with that request, and copies thereof which are retained by the reporting firm or person, shall be immune from legal process as provided by the Council on Wage and Price Stability Act.

§ 704.6 Noncompliance.

In cases of failure to comply with any subpoena, order requiring periodic reports, or part thereof, the Chairman or Director of the Council or a duly authorized representative may request the Attorney General to initiate any appropriate enforcement proceeding in a United States District Court.

Subpart B—Subpoenas

§ 704.7 Authority to issue subpoenas.

(a) The Chairman or the Director of the Council or in the absence of both of the above a duly authorized representative may sign subpoenas issued by the Council for the attendance and testimony of witnesses and the production of relevant books, papers and other documents, relating to wages, costs, productivity, prices, sales, profits, imports and exports and other aspects of business operations, all by product line or by such other category as the Council may prescribe for any purpose related to the Council on Wage and Price Stability Act.

(b) Subpoenas may be issued to any entity whose gross annual revenues are in excess of $5,000,000. For purposes of this Subsection, "entity whose annual gross revenues are in excess of $5,000,000" shall include without limitation (1) any association, company, corporation, estate, individual, joint-venture, partnership, or sole proprietorship, charitable, educational or eleemosynary institutions, or any other entity however organized, including subsidiary or affiliated units thereof, whose consolidated gross receipts from whatever source derived during the most recently completed fiscal year are in excess of $5,000,000, and (2) any labor union, including all local or other unit thereof, whose consolidated gross receipts for the most recently completed fiscal year from membership dues, return on investments or other sources are in excess of $5,000,000.

J A 2 5 7 9

UMI

§ 704.8 Service of subpoenas.

Service of subpoenas may be effected as follows:

(a) By registered or certified mail. A copy of the subpoena shall be addressed to the entity to be served at its principal office or place of business, registered or certified, and mailed. A return receipt shall be requested; or

(b) By delivery. A copy thereof may be (1) delivered to an individual authorized, to accept service for the entity to be served, or (2) left at the principal office or place of business of the entity to be served.

§ 704.9 Proof of service of subpoenas.

When service is by registered or certified mail, it is complete upon receipt. A return receipt constitutes proof of service by mail. When service is by delivery, it is complete upon delivery to an individual authorized to accept service or upon being left at the principal office or place of business of the entity to be served. The verified return or certificate of the person serving the document by delivery shall be proof of the service of the document.

§ 704.10 Satisfactory compliance and extension of time.

(a) Subpoenas are returnable within twenty (20) days or such other period the Chairman, Director, or a duly authorized representative, determines to be warranted under the circumstances of a particular case. If a return date of other than twenty (20) days is chosen, the reasons therefor shall be explained in the subpoena or accompanying letter.

(b) The Director or his authorized representative are each authorized to negotiate and approve the terms of satisfactory compliance with the subpoena and, for good cause shown, may extend the time prescribed for compliance with the subpoena.

§ 704.11 Procedure for objections and requests.

Any objections or requests related to a subpoena shall be filed in triplicate with the Director at the Council's offices, within ten (10) days after service of the subpoena, or, if the return date is less than ten (10) days after service of the subpoena, at any time prior to the subpoena's return date. A timely filing under this section shall stay the requirement of a return on the portion of the subpoena challenged if the Director has not ruled by the return date.

§ 704.12 Contents of objections and requests.

(a) Any filing that objects to a subpoena shall identify those portions of the subpoena which are challenged and also those portions not challenged. With regard to the portions challenged, the filing shall indicate the relief requested and the reasons why the relief should be granted.

(b) Any filing that objects to a subpoena on the ground that the subpoenaed entity is not an entity whose annual gross revenues are in excess of $5,000,000, as defined by § 704.7(b), shall submit documentary proof of its annual sales, dues, or other appropriate data from whatever source derived during its most recently completed fiscal year.

§ 704.13 Director's decision.

Within twenty (20) working days of the receipt of any objections or requests filed pursuant to § 704.11, the Director shall make a decision and shall transmit the decision and the reasons therefor to the objecting party. The Director's decision is a "final agency action" within the meaning of 5 U.S.C., section 704. The Director shall specify a new return date, if appropriate.

§ 704.14 Investigational hearings.

(a) Investigational hearings for the purpose of hearing the testimony of subpoenaed witnesses and receiving subpoenaed documents and other data relative to any subject under investigation, shall be presided over by the Council, one or more of its members, or the Director, or a duly designated representative. The presiding officer at such a hearing is authorized to administer oaths to witnesses.

(b) Witnesses subpoenaed shall be paid the same fees and mileage as are paid to witnesses in the Courts of the United States.

§ 704.15 Rights of witnesses in investigational hearings.

(a) Any person who testifies or appears in an investigational hearing shall be entitled, on payment of lawfully prescribed costs, to procure a copy of his own testimony as transcribed stenographically or electronically.

(b) Any person who appears in person in an investigational hearing may be represented by counsel. Counsel shall be permitted to make objections on the record that could not reasonably been raised pursuant to § 704.12, above, and to state briefly the basis for such objections.

(c) The Director may review any objections made at investigational hearings. If he finds that the objections are without merit and that the witness has failed to comply fully with the subpoena, he shall notify the party of his finding. If within five (5) working days the party has not fully complied, the Director may request the assistance of the Attorney General pursuant to § 704.6.

Subpart C—Periodic Reports

§ 704.16 Authority to require periodic reports.

(a) The Chairman, the Director, or in the absence of both of the above a duly authorized representative, may sign orders issued by the Council to require periodic reports derived from information maintained in the ordinary course of business relating to wages, costs, productivity, prices, sales, profits, imports, and exports, and other aspects of business operations, all by product line or by such other category the Council may prescibe for any purpose related to the Council on Wage and Price Stability Act.

(b) A single report from a single entity, separate single reports from two or more entities, and multiple reports from one or more entities are all authorized under this Part.

(c) Orders requiring periodic reports shall be in compliance with the Federal Reports Act, 44 U.S.C. Section 3501 *et seq.*

(d) Orders requiring periodic reports shall state the date(s) when the periodic reports shall be submitted.

§ 704.17 Definition of periodic reports.

For the purpose of this Part, "periodic report" shall mean a report derived from information maintained in the ordinary course of business relating to wages, costs, productivity, prices, sales, profits, imports and exports, and other aspects of business operations, by product line or such other category as the Council may prescribe, which report is sought by the Council and for the Council relating to any matter under investigation by the Council.

§ 704.18 Service of orders requiring periodic reports.

Service of orders requiring periodic reports may be effected as follows:

(a) *By registered or certified mail.* A copy of the order shall be addressed to the entity to be served at its principal office or place of business, registered or certified, and mailed. A return receipt shall be requested; or

(b) *By delivery.* A copy thereof may be (1) delivered to an individual authorized to accept service for the entity to be served, or (2) left at the principal office or place of business of the entity to be served.

§ 704.19 Proof of service of orders requiring periodic reports.

When service is by registered or certified mail, it is complete upon receipt. A return receipt constitutes proof of service by mail. When service is by delivery, it is complete upon delivery to an individual authorized to accept service or upon being left at the principal office or place of business of the

V 4 4 / 1 8 J A 2 5 7 9 UMI

entity to be served. The verified return or certificate of the person serving the document by delivery shall be proof of the service of the document.

§ 704.20 Statement accompanying periodic report.

All responses to an order requiring periodic reports shall be signed by a representative authorized to file the document, indicating that he (or she) has examined the statements contained in the submittal or response, and that all such statements are true and correct to the best of his (or her) knowledge, information, and belief.

§ 704.21 Procedure for objections and requests.

Any objections or requests related to an order requiring periodic reports shall be filed in triplicate with the Director at the Council's offices, within ten (10) days after service of the order requiring periodic reports. A timely filing under this section shall stay the requirement of a return on the portion of the order challenged if the Director has not ruled by the return date.

§ 704.22 Contents of objections and requests.

(a) Any filing that objects to an order requiring periodic reports shall identify those portions which are challenged and also those portions not challenged. With regard to the portions challenged, the filing shall indicate the relief requested and the reasons why the relief should be granted.

(b) Any filing that objects to an order requiring periodic reports on the ground that the order requires information in categories not maintained in the ordinary course of business shall identify any alternative categories or types of information maintained in the ordinary course of business which bear on the Council's inquiry or shall demonstrate that such an identification would be unreasonably burdensome.

§ 704.23 Satisfactory compliance and extensions of time.

(a) The Director or his authorized representative may negotiate and approve the terms of satisfactory compliance with the order requiring periodic reports. For good cause shown, they may extend the time prescribed for compliance.

(b) The Director may determine that any portion or all of a periodic report which contains substantially less or substantially more information that was ordered is not in compliance with that order.

§ 704.24 Director's decision.

Within twenty (20) working days of the receipt of any objections or requests filed pursuant to § 704.19, the Director shall make a decision and shall transmit the decision and the reasons therefore to the objecting party. The Director's decision is a "final agency action" within the meaning of 5 U.S.C. Section 704. The Director shall specify a new return date, if appropriate.

Subpart D—Data From Other Agencies

§ 704.25 Authorization to request data from other agencies.

The Chairman of the Council has authorized the Director to exercise all of the authority vested in him by section 4(a) of the Act and to delegate any or all of these authorities (39 FR 44068). The Director, the Assistant Directors for Price Monitoring, Pay Monitoring, Government Programs and Regulations, and Planning, Policy and Evaluation, and their representatives are each authorized to request data and information pertaining to the economy or any sector of the economy from any department or agency of the United States and any state or local agency or department, which collects, generates, or otherwise prepares or maintains data or information.

§ 704.26 Procedure for requests by the Council.

(a) Any Council request for data from another governmental department or agency shall be addressed to the head of the agency or to any other appropriate official of the agency.

(b) The time and manner of an agency's response to a Council request for data shall be determined by consultation with the appropriate official from that agency.

§ 704.27 Responses by agencies.

When supplying data and information to the Council, the Federal, state or local agency shall (i) indicate whether the data and information are confidential, and (ii) specify all the applicable rules of practice and procedure governing the disclosure of the material supplied.

§ 704.28 Confidentiality of data obtained from other agencies.

(a) Upon request for disclosure for information obtained from a Federal, state or local agency, the Council will be guided by section 552 of Title 5, United States Code, and all the applicable rules of practice and procedure of the agency or department from which the information was obtained.

(b) If the agency or department from which the information was obtained has no rules of practice and procedure governing disclosure, the Council shall apply its own rules set forth at 6 CFR, Part 702.

§ 704.29 Compliance with Privacy Act.

Submissions made by any agency in response to a Council request shall be made in compliance with the Privacy Act, 5 U.S.C. Section 552a.

PART 705—NONINFLATIONARY PAY AND PRICE BEHAVIOR

Modified Price Standard for Federal, State, and Local Entities

AGENCY: Council on Wage and Price Stability.

ACTION: Final Standard for Federal, State, and Local Entities.

SUMMARY: The Council's voluntary standard for noninflationary price behavior contains modified standards applicable to segments of the economy that would have special difficulties in complying with the general price standard. The Council has determined that, in some instances, Federal, State and local entities would have such difficulties and, accordingly, has adopted a modified price standard applicable to these entities.

EFFECTIVE DATE: January 25, 1979.

FOR FURTHER INFORMATION CONTACT:

Sandra Sherman, Office of General Counsel, Council on Wage and Price Stability, 726 Jackson Place, NW., Washington, D.C. 20506, (202) 456-6210.

SUPPLEMENTARY INFORMATION: On the basis of discussions with Federal, State, and local entities and other groups, the Council has determined that, while the pay standard is applicable to all types of government entities, the price standard can be appropriately applied only to those government entities that resemble private enterprises (the U.S. Post Office, port authorities, etc.). That is, it would be inappropriate to apply the price standard to a government entity that is funded primarily by general tax revenues rather than by revenue from the sale of goods and services. Moreover, since the revenues of government entities are usually from nonbusiness sources (e.g., taxes), they do not maintain the type of data or records which would permit them to make the calculations necessary to determine compliance with the price standard. Accordingly, the Council is adopting a modified price standard for those entities.

Under this modified price standard, Federal, State, and local enterprises (i.e., limited-purpose entities affiliated with the government and doing business with the public, such as municipal utilities, water authorities, and public hospitals) that can be treated as separate compliance units ("companies" under 705D) *and* whose operating revenues equal at least 50% of their total expenses, are expected to comply with the price standard under 705A. Federal, State, and local enterprises and other entities that are not in the foregoing category are exempt from the price standard.

It should be noted that if a government entity is subject to the price standard, it may, of course, comply with the profit-margin limitation if, for either of the reasons set forth in 705A-6(a)(1), it is unable to comply with the price deceleration standard. In meeting the profit-margin limitation, an entity may use the operating-margin limitation that is applicable to nonprofit organizations. The operating margin is operating surplus divided by operating funds, where the operating surplus is defined as operating funds less total costs and expenses including wages.

Under this approach, those entities of government that are separate for accounting purposes and are otherwise operated substantially like businesses, can be expected to have the records appropriate to businesses and, therefore, to have the capability of complying with the price standard. Those government enterprises that cannot be disaggregated from the nonbusiness operations of government in accordance with 705D, or that cannot cover at least half of their current expenses with operating revenue, as well as all other government entities, are less likely to have the necessary records, and are therefore exempt from compliance with the price standard. However, all Federal, State, and local governments and government entities are expected to comply with the pay standard.

While this Standard is final, the Council will consider comments on it. Comments should be sent to the above address by February 16, 1979.

(Council on Wage and Price Stability Act, Pub. L. 93-387, as amended (12 U.S.C. 1904 note); E.O. 12092.)

In consideration of the foregoing, section 705C-4 is added to the appendix to Part 705 of Chapter VII, Title 6 of the Code of Federal Regulations, to read as follows.

Issued in Washington, D.C. January 19, 1979.

BARRY BOSWORTH,
Director, Council on Wage and Price Stability.

A new 705C-4 is added to the appendix to Part 705 to read as follows:

705C—Modified Price Standard for Selected Industries

* * * * * *

705C-4 Federal, State, and Local Government Enterprises and Other Entities

(a)(1) Government enterprises are expected to comply with the price standard.

(2) For purposes of this standard, a "government enterprise" is an entity such as a port, transit, or water authority, public hospital, or municipal utility,

(i) that may, in accordance with the definition of "company" in 705D, be disaggregated from Federal, State, or local government entities and treated as a separate unit for purposes of compliance with the price standard, and,

(ii) whose operating revenue equals at least fifty percent (50%) of current expenses, including interest on debt but not including depreciation. (Operating revenue includes subsidy payments from other government entities intended to effectuate a specific policy objective, but does not include transfers from a government's general revenues.)

(b) Federal, State, and local entities that are not government enterprises in accordance with paragraph (a) are exempt from the price standard but are expected to comply with the pay standard.

* * * * *

[3175-01-M]

PART 706—SPECIAL PROCEDURAL RULES

Compliance With the Pay Standard by Federal, State, and Local Enterprises and Other Entities

AGENCY: Council on Wage and Price Stability.

ACTION: Final rule.

SUMMARY: In order to minimize the reporting burdens on Federal, State and local entities, the Council is adopting modified procedural rules for compliance with the pay standard by these entities.

EFFECTIVE DATE: January 25, 1979.

FOR FURTHER INFORMATION, CONTACT:

Sandra Sherman, Office of General Counsel, Council on Wage and Price Stability, 726 Jackson Place, N.W., Washington, D.C. 20506, (202) 456-6210.

SUPPLEMENTARY INFORMATION: On the basis of discussions with Federal, State, and local officials, and other groups, the Council has determined that, while the pay standard is applicable to all government entities, the price standard should be applicable only to "government enterprises" (defined in Section 705C-4, released today). Accordingly, the Council is adopting a modified reporting procedure for these entities, codified at 6 CFR 706.25.

Under this procedure, if a Federal, State, or local entity is not defined as a government enterprise, it is exempted from the general reporting provisions in Subpart B of Part 706. However, if it has 5,000 or more employees, it is requested to provide the Council by February 15, 1979, with an assurance of compliance with the pay standard or with its method of pay computation under 705B-4.

This procedure reflects the fact that under 705C-4, government entities that are not "enterprises," as defined therein, are exempted from the price standard, and also acknowledges that in the area of pay, it may be much easier for a government to certify compliance than to provide a more elaborate notification of the identification of employee groups and methods of pay-rate calculations.

Since this rule is procedural only, it is effective immediately, without the customary thirty days' notice. However, the Council will accept comments, which should be sent to the above address by February 23, 1979.

(Council on Wage and Price Stability Act, Pub. L. 93-387, as amended (12 U.S.C. 1904 note); E.O. 12092.)

In consideration of the foregoing, Part 706 of Chapter VII, Title 6 of the Code of Federal Regulations, is amended by adding a new § 706.25 to Subpart B—Reports and Notifications to read as follows.

Issued in Washington, D.C., January 19, 1979.

BARRY BOSWORTH,
Director, Council on Wage and Price Stability.

Part 706 is amended by adding a new § 706.25 to Subpart B—Reports and Notifications as follows:

Subpart B—Reports and Notifications

* * * * * *

§ 706.25 Compliance with the Pay Standard by Federal, State, and Local Enterprises and Other Entities

(a) When complying with the pay standard, Federal, State, and local enterprises and other government entities that are not government enterprises as defined in 705C-4, and which have 5,000 or more employees, should either:

(1) Notify the Council by February 15, 1979, of the method of computation under 705B-4 to be used for determining pay rate changes during the program year; or

(2) Furnish the Council by February 15, 1979, with a letter of assurance

V 4 4 / 1 8

from the head of government, stating that the enterprises and/or entities intend to comply with the pay standard during the program year.

(b) No other provision of this Subpart applies to any enterprise or entity covered by paragraph (a) of this section.

[FR Doc. 79-2537 Filed 1-24-79; 8:45 am]

[3175-01-M]

PART 705—NONINFLATIONARY PAY AND PRICE BEHAVIOR

Amendment to Pay Standard

AGENCY: Council on Wage and Price Stability.

ACTION: Amendment to Pay Standard.

SUMMARY: On December 28, 1978, the Council on Wage and Price Stability published in the FEDERAL REGISTER at 43 FR 60772 voluntary standards for compliance with the President's anti-inflation program. It thereafter came to the Council's attention that the intent of the pay standard (705B Pay Standards) could be circumvented by cost-of-living adjustment clauses that were contingent upon a rise in the Consumer Price Index above a certain point. To prevent this from being permissible under the pay standard, the Council ruled on January 10, 1979, that cost-of-living adjustments that make payments only after the Consumer Price Index has been increased by some minimum amount violate the pay standard. Because of the emergency nature of this ruling, the amendment to the pay standard was effective the date the decision was made public, January 10, 1979.

EFFECTIVE DATE: January 10, 1979.

FOR FURTHER INFORMATION CONTACT:

Sean Sullivan, Office of Pay Monitoring, Council on Wage and Price Stability, 726 Jackson Place, NW., Room 5002, Washington, D.C. 20506 (202) 456-6480.

(Council on Wage and Price Stability Act, Pub. L. 93-387, as amended (12 U.S.C. 1904 note); E.O. 12092)

In consideration of the foregoing, section 705B-3(c) of the appendix to Part 705 of Chapter VII, Title 6 of the Code of Federal Regulations, is amended as follows.

Issued in Washington, D.C., January 19, 1979.

BARRY P. BOSWORTH,
Director, Council on Wage and Price Stability.

Accordingly, Section 705B-3(c) of the appendix to Part 705 is amended by adding subparagraphs (1) and (2) as follows:

705B—PAY STANDARDS

• • • • • •

(c) • • •

(1) This assumption cannot be used if—

(i) A new cost-of-living provision is established that makes payments only after the Consumer Price Index has increased by some minimum amount;

(ii) an existing cost-of-living provision is modified to begin making payments only after the Consumer Price Index has increased by some minimum amount;

(iii) The Consumer Price Index minimum amount in an existing cost-of-living provision of the type described in (i) is increased; or

(iv) the duration of the contract is one year or less. (2) Cost-of-living adjustment provisions that are not permitted to be evaluated using the 6-percent inflation assumption should be evaluated using the actual rate of inflation. Contracts with such clauses should be in compliance with the pay standard at the end of each year of the contract.

PART 705—NONINFLATIONARY PAY AND PRICE BEHAVIOR

PART 706—SPECIAL PROCEDURAL RULES

Supplemental Questions and Answers and Implementation Guide

AGENCY: Council on Wage and Price Stability.

ACTION: Issuance of Supplemental Questions and Answers (Q's and A's) and Implementation Guide.

SUMMARY: In order to facilitate compliance with the Council's voluntary standards on noninflationary pay and price behavior (6 CFR 705), and the accompanying Special Procedural Rules (6 CFR 706), the Council is issuing supplemental Q's and A's and an Implementation Guide.

EFFECTIVE DATE: January 25, 1979.

FOR FURTHER INFORMATION, CONTACT:

Pay: Sean Sullivan (202/456-6480); Price: Jack Triplett (202/456-7000); Procedure: Roy A. Nierenberg (202/456-6286), of the Council on Wage and Price Stability, 726 Jackson Place, NW., Washington, D.C. 20506.

SUPPLEMENTARY INFORMATION: The Q's and A's issued today supplement those published at 43 FR 60772 (December 28, 1978), and are arranged in categories under Pay, Price, and Procedure. The information provided supersedes any which may have been furnished by Council staff at an earlier date. The Implementation Guide contains methodologies of calculation applicable to the standards and is intended to facilitate compliances with technical features of the standards.

(Council on Wage and Price Stability Act, Pub. L. 93-387, as amended (12 U.S.C. 1904 note); E.O. 12092.

Issued in Washington, D.C., January —, 1979.

PAY AND PRICE STANDARDS

IMPLEMENTATION GUIDE

JANUARY 22, 1979

COUNCIL ON WAGE AND PRICE STABILITY

INTRODUCTION

The President's anti-inflation program requests that individual firms establish procedures to measure and evaluate their pay and price actions under the voluntary standards. This document is designed

(1) to explain and clarify the concepts used in the voluntary pay and price standards issued on December 13, 1978 (published in the Federal Register on December 28, at 43 FR 60772), and

(2) to illustrate methods individual firms can use to determine compliance with the standards.

Although some firms will be asked to submit information to the Council, the standards are intended to be largely self-administered. The standards provide a general outline for pay and price behavior to reduce inflation. Individual firms are asked to use the concepts presented in the standards to develop and apply measures of their pay and price performance.

The Council is aware that no single set of procedures can cover every eventuality. This guide provides examples that apply to most circumstances. Some firms, however, will need to extend these procedures to meet their own situation. In doing so, they should ensure that their procedures are consistent with the intent of the program and that they are consistently applied.

I. PRICE STANDARDS

The price standard applies to all goods and services (products) sold in the United States and its territories and possessions. To meet the objectives of the price standard, firms will need to make decisions about:

(a) how their firm's activities will be organized for compliance purposes;

(b) how they will compute a measure of their price actions; and

(c) how they will measure profits and profit margins.

Each of these issues is addressed in the following sections. In addition, examples have been included to illustrate the special procedures used in the food processing industry and retail/wholesale trade.

A. ORGANIZATION FOR COMPLIANCE PURPOSES

In most situations, companies will measure their performance under the pay and price standards on an aggregate basis. Since the price-deceleration standard is applicable to average price changes over all of a company's product lines, large price increases for some products can be offset by smaller price increases for others. Firms that have operations in a wide variety of different industries, however, may decide to separate their activities. This section contains a description of an illustrative corporation and a discussion of how it might be organized for purposes of compliance with the price standards.

The A-to-Z Corporation is a parent company consolidated for Form 10K reporting to the Securities and Exchange Commission. The parent company consists of two consolidated divisions (a manufacturing division and a consolidated miscellaneous division), a group of other consolidated subsidiaries, and a group of unconsolidated subsidiaries. This corporation's fiscal year ends June 30. The corporation's business will remain essentially unchanged over 1978-79.

The organizational structure that the company chooses will be affected by special situations acknowledged in the standards. These special situations include: exclusion of products from average-price calculations under Section 705A-3 of the standards; the insufficient-product-coverage considerations under 705A-5; application of the profit-margin limitation under 705A-6(a); and special industry standards, under 705C.

1. Parent, Manufacturing Division ($600 million sales)

This division sells manufactured products, and is complying with the price deceleration standard as a single separate "company" in accordance with the criteria provided by the definition of "company" in 705D. It has the following product lines:

Product Line	Revenues (million)
A	$150
B	90
C (metal scrap)	60
D	270
E (introduced 12/77)	30
Total	$600

Metal scrap is excluded from the calculation of average price changes (705A-3(b)). Thus, adjusted net revenues, as defined in 705A-5, are $540 million ($600-$60). In addition, the new product, E, is excluded from the computation of the average price change under 705A-3(g) for the 1976-77 period, but not for the program year.

2. Miscellaneous Division ($300 million sales)

This division consists of a group of consolidated companies that do not fit into the manufacturing division; it is complying with the standards as a single separate company. Its sales include the following:

Product Line	Revenues (millions)
F (copper)	$ 25
G (custom-made products)	100
H	175
Total	$300

The company can demonstrate that its pricing of copper follows the New York Metal Exchange spot copper price. Thus, these revenues are excluded under 705A-3(c) and adjusted net revenues equal $275 million ($300-$25). The revenues from custom-made products, $100 million, exceed one-third of adjusted net revenue, so this division, following 705A-5(b), will comply with the profit-margin-limitation exception in 705A-6(a). For purposes of this exception all of the Miscellaneous Division's business will be included in the profit-margin calculations for the program year.

3. Other Consolidated Subsidiaries

Each of these subsidiaries will comply as a single separate "company".

Company III — Retail Trade

The company will comply with the retail trade standards under 705C-2(c).

Company IV — Food Processing

The company will comply with the food processing standards under 705C-2(d).

Company V — 80% collected scrap; 20% manufacturing

As scrap prices are excluded under 705A-3(b) and scrap revenues exceed 75 percent of total revenues, under 705A-5(a), company V is exempted from the price standard and the profit-margin limitation.

4. Unconsolidated Subsidiaries

Unconsolidated subsidiaries must comply with the standards as separate companies.

Company VI — Only exports manufactured products

All products are excluded under 705A-3(d). The company is exempted under 705A-5(a) from the general price-deceleration standard and the profit-margin limitation.

Company VII — Hospitals

The standards will be administered by the Department of Health, Education, and Welfare as part of the Hospital Cost Containment Program.

Company VIII — Water Utility

Maximum allowable rates are regulated by State Utility commissions. However, actual rate increases should comply with the general price-deceleration standard.

B. PRICE DECELERATION STANDARD

To establish compliance with the price deceleration standard, two rates of price increase should be computed for the "company" (as defined in 705D). The first summarizes the average rate of price increase over the 1976-77 period. The second summarizes the rate of price increase over the program year. These two rates of change are compared to determine compliance with the price deceleration standard.

A company-wide average price change is calculated as a weighted average of the individual product-line price changes. A product-line is any aggregation of products or services established by a company that reflects the company's customary pricing unit. It may consist of a single product or service, or a group of related products or services.

In establishing the product-line grouping within a company, the price changes computed for each product-line must reasonably reflect the changes in the prices of the products contained within the category. All characteristics which influence price should be reviewed including class of buyer and other factors influencing the terms of sale. Price is defined as the net realized revenues per unit at time of delivery. In establishing product-lines for the calculation of price indexes for their company units, firms should try to minimize the impact of changes in the mix of products sold.

In some situations, it may not be feasible to disaggregate a product group to the point where changes in the mix of products are eliminated. A firm may choose to select a sample of representative products within the group and use the average price change for this sample as an index of price change for the entire group.

The basic data for the illustrative computations are provided in Table 1. The revenues and prices of product-line C (metal scrap) are excluded from covered revenues and all computations. Similarly, price and revenue data from product E are used only during the program year.

TABLE 1

BASIC PRICE DATA FOR EXAMPLE COMPANY

Quarter ending	Revenues	Units Sold	Unit Price
	Product A		
12-31-75	$47,250,135	3,500,010	$ 13.50
12-31-77	54,382,500	3,625,500	15.00
9-30-78	60,800,000	3,800,000	16.00
9-30-79	65,625,000	3,750,000	17.50
	Product B		
12-31-75	$15,600,000	5,200,000	$ 3.00
12-31-77	21,750,750	5,800,200	3.75
9-30-78	26,137,500	6,150,000	4.25
9-30-79	27,450,000	6,100,000	4.50
	Product C (metal scrap)		
12-31-75	$ 5,950,000	170,000	$ 35.00
12-31-77	18,200,000	260,000	70.00
9-30-78	18,750,000	250,000	75.00
9-30-79	10,000,000	200,000	50.00
	Product D		
12-31-75	$45,000,000	1,800,000	$ 25.00
12-31-77	57,000,000	1,900,000	30.00
9-30-78	62,400,000	1,950,000	32.00
9-30-79	70,125,000	2,125,000	33.00
	Product E (Introducted Dec. 4, 1977)		
12-31-75	$ -	-	$ -
12-31-77	496,850	5,230	95.00
9-30-78	15,500,100	147,620	105.00
9-30-79	23,057,500	200,500	115.00

	Total Revenues	Covered Products Revenues
12-31-75	$113,800,135	$107,850,135
12-31-77	151,830,100	133,133,250
9-30-78	183,587,600	164,837,600
9-30-79	196,257,500	186,257,500

1. Base-Period Rate of Price Change

The company should first compute the base-period rate of price change according to the formula of 705D:

Base Period Rate of Price Change (BPRC)

$$BPRC = \left[\sqrt{\sum_i S_i \times \frac{P_i(77)}{P_i(75)}} - 1.0\right] \times 100$$

where

S_i = the share of covered revenues represented by the ith product

$P_i(77)$ = the unit price of the ith product in the 4th quarter of 1977

$P_i(75)$ = the unit price of the ith product in the 4th quarter of 1975

In this example there are three products (A, B, and D) that are used in the base rate of price change calculation:

Product	S_i	$P_i(77) \div P_i(75)$	$S_i \times [P_i(77) \div P_i(75)]$
A	$\left(\frac{47,250,135}{107,850,135}\right)$	$\times \left(\frac{15.00}{13.50}\right)$ =	0.4868
B	$\left(\frac{15,600,000}{107,850,135}\right)$	$\times \left(\frac{3.75}{3.00}\right)$ =	0.1808
D	$\left(\frac{45,000,000}{107,850,135}\right)$	$\times \left(\frac{30.00}{25.00}\right)$ =	0.5007
	Total		1.1683

$BPRC = \left(\sqrt{1.1683} - 1.0\right) \times 100 = \boxed{8.09\%}$

Thus, the base-period rate of price change is 8.09 percent. During the program year, the company would have an allowable price increase equal to the base-period rate of price increase minus the deceleration percentage of 0.5 percentage points (705A-2(c)). Thus, this illustrative company has an allowable program year price increase of 8.09 percent minus 0.5 percentage points or 7.59 percent. (Some companies may have a larger deceleration percentage due to a passthrough of pay deceleration. This is discussed in a later section).

2. Program-Year Rate of Price Change

During the program year the company will need to monitor its price increases to ensure compliance with its deceleration standard (7.59 percent). Program-year price changes are computed according to the following formula:

Program-Year Rate of Price Change (PRPC)

$$PRPC = \left(\sum_i S_i \frac{P_i(79)}{P_i(78)} - 1.0\right) \times 100$$

here

S_i = the share of covered revenues represented by the ith product

$P_i(78)$ = the unit price of the ith product in the third quarter of 1978

$P_i(79)$ = the unit price of the ith product in the third quarter of 1979

In this period there are four products, A, B, D, and E, which are included in the price change calculation:

Product	S_i	$P_i(79) \div P_i(78)$	$S_i (P_i(79) \div P_i(78))$
A	$\left(\frac{60,800,000}{164,837,600}\right)$	$\times \left(\frac{17.5}{16.00}\right)$ =	0.4034
B	$\left(\frac{26,137,500}{164,837,600}\right)$	$\times \left(\frac{4.50}{4.25}\right)$ =	0.1679
D	$\left(\frac{62,400,000}{164,837,600}\right)$	$\times \left(\frac{33.00}{32.00}\right)$ =	0.3904
E	$\left(\frac{15,500,100}{164,837,600}\right)$	$\times \left(\frac{115.00}{105.00}\right)$ =	0.1030
	Total	=	1.0647

$PRPC = (1.0647 - 1.0) \times 100 = \boxed{6.47\%}$

As indicated, the company's program-year rate of price change is 6.47%. It complies with the price-deceleration standard since its program-year rate of price change is less than its allowable rate of 7.59%, which was derived in the preceding section.

However, a company must also determine if its company-wide pay-rate change has decelerated between the 1976-77 period and the program year. If so, the additional amount of deceleration, as computed in the following section, must be incorporated in the company's price-deceleration standard.

3. Passthrough of Pay Deceleration

The above example applies to a company that has not experienced pay deceleration; additional price deceleration is expected for companies whose payroll costs decelerate by more than 0.5 percentage points. The concept of pay used to compute the company pay rate includes the costs of all private fringe benefits, FICA wages, and employment taxes. The pay rate is the simple average pay rate for all employees of the company (including the union, management, and other groups, as well as workers with wage rates below $4.00 per hour).

TABLE 2

BASIC PAY DATA

Quarter Ending	Employee Hours	Pay Rate	Employment Costs (Rate x Hours)	Total Company Revenues
12-31-75	2,250,000	$12.50	$ 28,125,000	$ 113,800,135
12-31-77	2,200,000	14.75	32,450,000	151,830,100
9-30-78	2,350,000	15.25	35,837,500	183,587,600
9-30-79	2,255,000	16.40	36,982,000	196,257,500

Pay rate changes are measured by the following formulas:

$$\left(\begin{matrix}\text{Base Period Rate}\\ \text{of Pay Change}\end{matrix}\right) = \left(\sqrt{\frac{\text{Pay Rate (77)}}{\text{Pay Rate (75)}}} - 1.0\right) \times 100$$

$$\left(\begin{matrix}\text{Program Year Rate}\\ \text{of Pay Change}\end{matrix}\right) = \left(\frac{\text{Pay Rate (79)}}{\text{Pay Rate (78)}} - 1.0\right) \times 100$$

In this example, the base-period rate of change of the company pay rate is

$$\left(\sqrt{\frac{14.75}{12.50}} - 1.0\right) \times 100 = 8.63\%.$$

The program-year rate of change of the company pay rate is

$$\left(\frac{16.40}{15.25} - 1.0\right) \times 100 = 7.54\%.$$

If the program-year rate of pay change is more than 0.5% below the base rate, a pay deceleration passthrough adjustment to the price-deceleration standard is required. This is computed in accordance with 705A-2(c) in the following way:

$$\left(\begin{matrix}\text{Deceleration}\\ \text{Percentage}\end{matrix}\right) = .5\% + \left[\left(\begin{matrix}\text{Deceleration}\\ \text{of Company}\\ \text{Pay Rate}\end{matrix}\right) - .5\%\right] \times \left(\begin{matrix}\text{Company}\\ \text{Pay Share}\end{matrix}\right)$$

where

$$\left(\begin{matrix}\text{Deceleration}\\ \text{of Company}\\ \text{Pay Rate}\end{matrix}\right) = \left(\begin{matrix}\text{Base Period}\\ \text{Rate of}\\ \text{Pay Change}\end{matrix}\right) - \left(\begin{matrix}\text{Program Year}\\ \text{Rate of}\\ \text{Pay Change}\end{matrix}\right)$$

and

$$\left(\begin{matrix}\text{Company}\\ \text{Pay Share}\end{matrix}\right) = \frac{\text{Employment Costs in Base Quarter}}{\text{Total Revenue in Base Quarter}}$$

In the above example

$$\left(\begin{matrix}\text{Deceleration}\\ \text{of Company}\\ \text{Pay Rate}\end{matrix}\right) = 8.63\% - 7.54\% = \underline{1.09\%}$$

$$\left(\begin{matrix}\text{Company}\\ \text{Pay Share}\end{matrix}\right) = \frac{35,837,500}{183,587,600} = .1952$$

$$\left(\begin{matrix}\text{Deceleration}\\ \text{Percentage}\end{matrix}\right) = 0.5\% + [(1.09\%) - 0.5\%] \times .1952 = \boxed{0.61\%}$$

The computation of pay deceleration provides an adjusted measure of the required price deceleration. In this situation the company has an allowable program-year rate of price change of

$$\left(\begin{matrix}\text{Allowable Program-}\\ \text{Year Rate of Price}\\ \text{Change}\end{matrix}\right) = \left(\begin{matrix}\text{Base Rate of}\\ \text{Price Change}\end{matrix}\right) - \left(\begin{matrix}\text{Deceleration}\\ \text{Percentage}\end{matrix}\right)$$

$$= 8.09\% - 0.61\% = \boxed{7.48\%}$$

Since its actual rate of price change was 6.47 percent, it is in compliance with the price-deceleration standard.

Early in the program year, many firms will not be able to determine the actual amount of pay deceleration that will occur.

Thus, the computations will, of necessity, involve a projection that periodically can be adjusted as the year progresses. As long as a reasonable method of projection is used, no company would be out of compliance with the price-deceleration standard as a result of reasonable differences between the projected and actual amounts of pay deceleration.

4. Six-Month Standard for Price Increases

During the first six months of the program year, the company average price increase should not exceed 50 percent of the allowable program-year price increase.

In this example the allowable program-year price increase is 7.48 percent.

Therefore, the allowable price increase in the first six months is

$$\frac{7.48}{2} = \boxed{3.74\%}$$

A firm may exceed this amount if: (1) it can show on the basis of historical practices that the proportion of price increases that occur during this six-month period is normally greater than 50 percent of the annual allowable increase; and (2) that its projected profits over the program year would not exceed the profit-margin limitation.

C. ILLUSTRATION OF PROFIT-MARGIN LIMITATION (705A-6 (a))

The profit-margin limitation is an exception to the standards for companies that cannot achieve price deceleration or are unable to compute an index of price changes. It is a two-part limitation. First, the program-year profit margin should not exceed the weighted average of the highest two annual profit margins during the three fiscal years ending prior to October 2, 1978. Second, total profits during the program year should not exceed profits of the base year, adjusted for any increase in volume and an allowable 6.5-percent increase for general inflation.

For the purpose of this exception, calculations should be based on total domestic operations. The prices of goods and services excluded from company average-price-change calculations under Section 705A-3 should not be excluded in the calculation of the profit margin.

TABLE 3

ILLUSTRATIVE DATA FOR CALCULATION OF PROFIT-MARGIN LIMITATION
(millions of dollars)

	1976	1977	1978
Revenues (year ending 6-30)			
Sales	$446.5	$501.5	$588.0
Rent	2.2	4.1	5.0
Interest	1.0	1.2	1.6
Dividends	0.5	0.8	0.9
Miscellaneous other income	2.7	4.2	4.5
	$452.9	$511.8	$600.0
Less Expenses			
Cost of sales	$363.0	$411.2	$485.0
Selling, general and administrative expenses	40.9	45.8	52.3
Interest	4.6	6.1	9.2
Amortization of debt discount and expense	0.7	0.6	0.7
Misc. other expense	1.0	1.4	2.4
Income or loss before taxes	$ 42.7	$ 46.7	$ 50.4

An illustrative set of revenue and expense data is shown in Table 3. The company's profit as defined by the Council (see 705A-6(2)(i)) can be derived in this example as follows:

PROFIT-MARGIN COMPUTATION	Fiscal Years 1976	1977	1978
	(millions of dollars)		
Sales	$446.5	$501.5	$588.0
+ Rent	2.2	4.1	5.0
= Net revenues	$448.7	$505.6	$593.0
Income or loss before tax	$ 42.7	$ 46.7	$ 50.4
- Interest received	1.0	1.2	1.6
- Dividends received	0.5	0.8	0.9
- Miscellaneous other income	2.7	4.2	4.5
+ Interest expense	4.6	6.1	9.2
+ Amortization of debt discount and expense	0.7	0.6	0.7
+ Miscellaneous other expense	1.0	1.4	2.4
= Profit	$44.8	$48.6	$55.7
$\left(\text{Profit Margin}\right) = \left(\frac{\text{Profit}}{\text{Net Revenues}}\right)$	9.98%	9.61%	9.39%

The two best years for the profit margin in this example are 1976 and 1977. To calculate the allowable program-year profit margin (see 705A-6(a)(1)), the two years are averaged together

	1976	1977	Total
Net Revenues	$448.7	$505.6	$954.3
Profit	44.8	48.6	93.4
$\left(\text{Allowable Profit Margin}\right) = \frac{93.4}{954.3}$ or 9.79%			

The second condition of the profit-margin limitation is that total profits should not increase by more than 6.5 percent plus the percentage growth in physical volume.

For illustration, assume that, in the four quarters ending prior to October 2, 1978 (the base year), net sales were $610 million and profits were $53 million. Also assume that the

physical volume of sales is 3 percent greater in the program year than in the base year. (Note that, in this example, the base year does not correspond to the company's fiscal year, so profit and net revenues can not be taken directly from Table 3.)

Base-year profit is the larger of

1) actual profit during the base year, or
2) an adjusted base-year profit, obtained by multiplying the allowable profit margin times base-year revenues.

In the above example, the adjusted base-year profit is

$$\left(\text{Adjusted Base-Year Profit}\right) = \left(\text{Allowable Profit Margin}\right) \times \left(\text{Base-Year Revenues}\right)$$

$$= .0979 \times \$610 \text{ million}$$

$$= \$59.7 \text{ million}$$

Since $59.7 million exceeds actual base-year profit, $53 million, the $59.7 million figure is used as base-year profit in this example.

Given base-year profit, the allowable profit level during the program year is

$$\left(\text{Allowable Program-Year Profit}\right) = \left(\text{Base-Year Profit}\right) \times (1.065) \times \left[1.0 + \text{Percentage Volume Increase}\right]$$

$$= \$59.7 \text{ million} \times 1.065 \times 1.03$$

$$= \$65.5 \text{ million}$$

If, for any of the reasons specified in 705A-4 and 705A-6, this firm cannot achieve the price-deceleration standard,

(a) its profit margin should not be above 9.79 percent, and

(b) program-year profit should not exceed $65.5 million.

D. ILLUSTRATION OF GROSS-MARGIN STANDARD

Modified standards are available for two industries for which the general price-deceleration standard may be inappropriate: food processing and the wholesale/retail sector

1. Food Manufacturing and Food Processing (705C-2(d))

The use of the gross margin standard can be illustrated with data for a hypothetical food processing company with only domestic operations. It had $1.6 million in sales during the base quarter ending September 30, 1978.

a. Gross-Margin Computations for Quarter Ending September 30, 1978

The base-quarter gross margin should be computed as follows:

Sales (adjusted for discounts, returns, coupons, etc.)	$1,600,000
Less: food ingredients used in manufacturing	800,000
Gross margin	$ 800,000

- Sales may come from either inventory of finished goods or goods manufactured during that quarter.
- Food ingredients include those used in the manufacturing or processing of the foods sold during the same quarter, not those going into inventory of finished goods. Food ingredients are defined as agricultural or fishery commodities that undergo further refining, processing or manufacturing prior to being sold for ultimate consumption.
- Gross margin includes the cost of containers, ingredients other than food commodities used in manufacturing, transportation, storage, rent, supplies, labor, company overhead, interest, income and other taxes, net profits on sales, and all other costs except for food ingredients.

The gross margin can be computed for any reasonable grouping of products or product lines in order to remove the influence of shifts in the mix of sales. In such cases, the company-wide gross margin would be a weighted average of the individual product-line margins. Export sales as well as the related food ingredient costs and gross margins should be excluded from all calculations where possible. Costs and profits may be prorated in line with export sales of similar lines of business.

b. Alternative Computation of Base Margin

The volatility of raw material prices can result in a situation in which the margin in a single quarter is not representative of the firm's normal margin.

Under Section 705C-2(d)(2), an alternative method of determining a base-quarter gross margin is provided. For the company cited in the above example, if the average percentage gross margin for the four quarters ending September 30, 1978, were 49 percent, the base-quarter margin could be determined by taking 49 percent of base quarter sales of $1,600,000 or $784,000. Thus, the firm would have the option of using this $784,000 as the base-quarter margin for program purposes rather than the $800,000 base-quarter margin actually realized. (In this example, it would choose not to do so.)

The four-quarter average of percentage gross margins for a company is computed by adding the gross margins for each of the four quarters, adding the net sales for each of the four quarters, and dividing the latter sum into the former.

c. Implementing the Gross-Margin Standard during the Program Year

Dollar gross margins are allowed to rise during the program year by as much as 6.5 percent plus the percentage increase in physical volume. The use of the gross-margin standard does pose a problem for firms that adopt it because the margins themselves are not decision variables of the firm. Companies will need to make projections of the volume of sales and some cost elements. Thus, actual results may lead to an increase in excess of the allowable margin growth even though primary actions were taken with good-faith expectations of compliance with the standards.

If, however, a firm adopts a regular procedure for monitoring its performance and undertakes appropriate adjustments as the year progresses, it would be judged to be in compliance, and any year-end gross-margin increase in excess of the 6.5 percent

standard would be rolled over into the subsequent year. A firm should compute allowable gross margin levels for each quarter, and they should be used in appraising results and making necessary adjustments in sales prices as appropriate.

d. Calculation of Physical Volume Changes

Physical volume changes often will not need to be computed at all. Such calculations are needed only when gross margin increases exceed a 6.5 percent annual rate of increase and the excess is the result of increases in physical volume.

Volume calculations may be done in a variety of different ways. Two acceptable procedures include (1) an adjustment of revenue changes for changes in average prices, and (2) a price-weighted index of units sold. A company may use a method of volume measurement that is most consistent with its own accounting system.

2. Retail and Wholesale Trade (705C-2(c))

Retailers and wholesalers may comply with the program by limiting the growth in their percentage gross margins. Calculations for retail and wholesale companies applying the percentage-gross-margin standard are illustrated by the following data.

a. Computation of Base-Year Percentage Gross Margin

Gross margins are defined as

$$\left(\begin{matrix}\text{Gross}\\\text{Margin}\end{matrix}\right) = \left(\text{Sales}\right) - \left(\begin{matrix}\text{Cost of}\\\text{Goods Sold}\end{matrix}\right).$$

The cost of goods sold is obtained by adjusting the cost of goods purchased for inventory changes. The following example illustrates the gross-margin and percentage-gross-margin calculations for the four quarters ending September 30, 1978

COMPUTATION OF PERCENTAGE GROSS MARGIN (Base Year)		
Sales (adjusted for discounts returns, coupons, etc.)		150,000,000
Beginning inventory	5,000,000	
+Cost of goods purchased	119,500,000	
-Ending inventory	6,000,000	
Cost of goods sold		118,500,000
Gross margin on sales		31,500,000
Percentage gross margin on sales		21.0%

b. Margin Trend Calculations

- A company may maintain the same percentage gross margin in the program year as during the base year. For example, if sales for the above company increased to $180,000,000 in the year ending September 30, 1979, the gross margin could increase to $37,800,000 and the firm would remain in compliance with the standards:
  $180,000,000 × .21 = $37,800,000.
- Some distributors have experienced an historical upward trend in their percentage margins. This can be expected to occur whenever the costs of goods purchased for resale are rising less rapidly than the cost items (such as labor, rent, and fuel) that are part of the gross margin. Thus, an alternative margin standard, based on margin trend, is provided

The annual rate of increase in the gross margin is computed as

$$\left(\text{Margin Trend}\right) = \sqrt{\frac{\text{Percentage gross margin in base year}}{\text{Percentage gross margin for four quarters ending prior to October 2, 1976}}} - 1.0$$

If the percentage gross margin for this illustrative firm was 20.0% in the 1976 period,

$$\left(\text{Margin Trend}\right) = \sqrt{\frac{21.0}{20.0}} - 1.0 = \sqrt{1.05} - 1.0 = .0247$$

or

2.47%

The allowable program year percentage gross margin is obtained by applying the margin trend to the base-period percentage gross margin:

$$\left(\begin{matrix}\text{Allowable Program}\\\text{Year Percentage}\\\text{Gross Margin}\end{matrix}\right) = \left(\begin{matrix}\text{base-year}\\\text{\% gross margin}\end{matrix}\right) \times \left(1.0 + \begin{matrix}\text{margin}\\\text{trend}\end{matrix}\right)$$

$$= 21.0\% \times 1.0247$$

$$= 21.52\%.$$

If a firm makes use of the gross-margin trend, the increase in the gross margin should be implemented on a gradual basis that reflects past seasonal patterns.

c. Compliance Plan

The percentage gross margin is not a direct decision variable. It reflects policies and practices with respect to the initial percentage markup over invoice costs, subsequent markdowns of prices, and loss or shrinkage experience on sales. Thus, most distributors will need to adopt a compliance plan that translates the objective of meeting the gross-margin standard into explicit policies for markups and markdowns. It may also be necessary to establish reasonable categories of sales that control for shifts in the mix of sales among items with sharply different margins.

Some firms will choose to project some components of the gross margin other than markups (specifically, markdowns and loss rates). They may then adopt a specific policy for markups that would yield a gross margin consistent with the gross-margin standard if the projections for other elements of the gross margin are realized.

Alternatively, a firm may apply the computational procedure for deriving the allowable percentage gross margin directly to its markups. In this case it should be prepared to demonstrate that it has not altered its policies toward markdowns during the program year or during the period used to compute the trend in the markup.

If a company's percentage gross margin exceeds the allowable gross margin during the program year, it may show, for purposes of compliance, that the discrepancy is the result of unforeseen changes in those elements of the gross margins that are not

directly controllable. For example, it may achieve the target objective for its initial markups only to find that other items such as loss experience were different than anticipated. In such cases, the firm will not be viewed as being out of compliance during the program year; but plans for the second year should be designed to compensate for discrepancies during the first program year.

As in the case of food manufacturers, distributors are expected to implement any increase in the margin on a gradual basis during the year, and to make periodic adjustments as the year progresses so that they can reasonably expect to be in compliance for the program year as a whole.

II. PAY STANDARD

In order to comply with the pay standard, companies must calculate rates of change of pay rates for various employee groups. Different methods of computing these changes are required for (1) collective bargaining agreements, which are evaluated prospectively at the time they are signed, and (2) nonunion pay-rate increases, which are calculated retrospectively. The two different methods are discussed respectively in the following two sections. Examples have been included to illustrate the specific issues.

In section A, on collective bargaining agreements, a method of computing the base-period pay rate and the pay rate at the end of each year of the contract period is outlined. Firms will need to compute the annual compound rate of pay-rate change over the life of the contract and the percentage changes for individual years in order to determine whether the agreement complies with the standard.

Changes in nonunion pay rates can be computed using three different methods: a simple change in the average pay rate; a method that adjusts for shifts in the composition of the work-force; and a computation that measures pay-rate changes for a fixed population of continuing workers, adjusting for legitimate promotions. Each of these methods is illustrated. Also included is an example of the method of determining whether commission pay increases are consistent with the pay standard.

A. APPLICATION OF THE PAY STANDARD TO COLLECTIVE BARGAINING AGREEMENTS

Collective bargaining agreements are costed out prospectively. At the time the agreement is signed, it is necessary to calculate (or estimate) the average pay rate

- o at the end of the old contract period,
- o at the end of each year of the new contract, and
- o at the end of the period covered by the new contract.

The contract complies with the pay standard if

- o the percentage increase in the pay rate is no more than 8 percent during each complete year of the new contract, and
- o the (compound) average annual rate of increase over the life of the new contract is no greater than 7 percent.

The rate of increase of the pay rate includes

- o fixed wage increases,
- o cost-of-living adjustments (COLA) evaluated at an assumed 6-percent rate of increase in the Consumer Price Index (CPI) over the term of the agreement,
- o roll-up on existing wage-related benefits,
- o the first 7 percent of the increased cost of maintaining existing health-care benefits, and
- o the cost of all improvements in existing benefit plans and additions of new benefits.

In order to evaluate the terms of a new contract, it is necessary to translate wage and benefit costs to average hourly rates. The pay standard applies to the percentage changes in these hourly rates. The hourly rates are computed on the basis of pay per hour worked. The pay rate is computed as

$$(1)\quad \text{(pay rate)} = \text{(straight-time wage rate)} + \text{(benefit costs per hour worked)}.$$

Over any one-year interval during the contract life, the percentage increase in the pay rate is calculated as

$$(2)\quad \left[\left(\frac{\text{pay rate at the end of year } t}{\text{pay rate at the end of year } t-1}\right) - 1.0\right] \times 100.$$

The compound average annual rate of change of the pay rate over the contract life is computed as

$$(3)\quad \left[\left(\frac{\text{pay rate at end of contract}}{\text{pay rate at end of prior contract}}\right)^{\frac{1}{T}} - 1.0\right] \times 100$$

where T is the length of the contract in years. In practice, the annual rate need not be computed -- compound interest tables can be used. Table 1 lists the percentage increases over the lives of contracts ranging from 12 to 40 months that are consistent with the 7-percent standard.

The following brief sections describe how a company might compute each of the key elements needed to compute pay rates in formula (1). These elements are

- o average straight-time wage rate,
- o hours worked and hours of leave,
- o cost of paid-leave benefits per hour worked, and
- o other benefit costs per hour worked.

TABLE 1

Total Percentage Pay-Rate Increases
Allowable Under Pay Standard by Length of Contract

Months of Contract	Allowable Percentage Increase	Months of Contract	Allowable Percentage Increase
12	7.00	27	16.44
13	7.60	28	17.10
14	8.21	29	17.76
15	8.83	30	18.43
16	9.44	31	19.10
17	10.06	32	19.77
18	10.68	33	20.45
19	11.31	34	21.13
20	11.94	35	21.82
21	12.57	36	22.50
22	13.21	37	23.20
23	13.85	38	23.89
24	14.49	39	24.59
25	15.14	40	25.30
26	15.79	48	31.08

Average Straight-Time Hourly Wage Rate

In many collective bargaining agreements there will be more than one job classification and, as a result, more than one straight-time wage rate. In order to combine these into one average straight-time wage rate, a weighted average should be constructed using the number of straight-time hours worked in each job classification as weights. In computing the base wage rate -- that in existence at the termination of the expiring contract -- the average number of hours worked in each classification over some recently completed period (e.g., a year or a quarter) would be appropriate. These same weights should be applied in the prospective determination of average straight-time wage rates over the life of the new contract.

In most cases, the number of employees in each job classification may be used as weights rather than hours worked. This method is appropriate if straight-time hours worked per employee are similar across job classifications. The following illustrative example uses employee weights.

Table 2

(1) Job Classification	(2) Number of Employees	(3) Straight-Time Hourly Rate at End of Expiring Contract	(4) (2) × (3)
A	10	$5.50	$55.00
B	30	$6.50	$195.00
C	20	$6.75	$135.00
D	40	$7.15	$286.00
Total	100		$671.00

Average Straight-Time Hourly Wage Rate

$$\frac{\$671.00}{100} = \$6.71$$

Hours Worked and Leave Hours

The pay rates used in the standard should reflect pay per straight-time hour worked. In order to translate pay for leave time and other benefit payments into an hourly rate, it is first necessary to make an estimate of the number of hours worked and the amount of paid leave time. An example of how this might be done follows:

Table 3

Straight-time hours paid (40 hours per week × 52 weeks)	= 2080
less 8 holidays × 8 hours:	-64
less 20 vacation days × 8 hours:	-160
less 3 days sick leave (on average) × 8 hours:	-24
less an average of 1 day of other leave (e.g., jury duty, funeral leave, and administrative leave) × 8 hours:	-8
Average straight-time hours worked:	1824

In this example, the average number of straight-time hours worked is 1824 hours per year and the average number of paid-leave hours is 256 hours per year. Thus, an employee receives approximately one hour of paid leave for each 17 hours worked (1824/256 = 7.125). In what follows, the terms "hours worked" and "straight-time hours worked" are used interchangeably.

Hourly Cost of Paid-Leave Benefits

Holiday, vacation, and other paid leave constitute one important type of fringe-benefit: pay for time not worked. In order to compute the cost of leave time per hour worked, it is necessary to multiply the average straight-time wage rate by the (annual) number of hours of paid leave and divide by the (annual) number of straight-time hours worked. For example, using the figures developed above,

$$\left(\begin{matrix}\text{Hourly Cost of}\\ \text{Paid Leave}\end{matrix}\right) = \left(\begin{matrix}\text{Straight-Time}\\ \text{Wage Rate}\end{matrix}\right) \times \left(\frac{\text{Hours of Leave}}{\text{Hours Worked}}\right)$$

$$= (\$6.71) \times \left(\frac{256}{1824}\right)$$

$$= \$.942 \text{ per hour worked.}$$

In this case, the cost of paid leave at the end of the expiring contract is 94.2 cents per hour worked. Over the life of the new contract, the hourly cost of paid leave will increase (due to roll-up) as the straight-time wage rate increases. Further, if additional vacation days or holidays are granted under the new contract, hours of leave will increase and hours worked will decrease correspondingly. Both of these changes increase the hourly cost of paid leave. Conversely, reductions in hours of leave decrease the hourly cost of paid leave for a given wage rate.

Hourly Cost of Other Benefits

A collective bargaining agreement could provide a wide variety of additional benefits other than paid leave. For example, these benefits might include

- Private Pensions,
- Health Insurance,
- Life Insurance,
- Other Welfare Benefits,
- Educational Benefits,
- Legal Assistance Benefits,
- Supplemental Unemployment Insurance, and
- Uniform Allowances.

In most cases, the cost per hour worked for these benefits can be calculated by first converting the average employer cost per employee to an annual cost and then converting to an hourly rate. In the following examples, a monthly employer cost and an hourly contribution rate are translated into an employer cost per hour worked.

Example A. Employer contributions for a benefit package are $50 per month for each employee. This monthly cost is multiplied by 12 months to obtain an annual cost of $600 per year. When divided by average hours worked (1824 hours per year), the cost of the benefit per hour worked is 32.9 cents per hour worked. That is,

$$\left(\begin{matrix}\text{Benefit}\\ \text{cost per}\\ \text{hour worked}\end{matrix}\right) = \left(\begin{matrix}\text{50 dollars}\\ \text{per month}\end{matrix}\right) \times \left(\begin{matrix}\text{12 months}\\ \text{per year}\end{matrix}\right) \div \left(\begin{matrix}\text{1824 hours}\\ \text{worked per}\\ \text{year}\end{matrix}\right)$$

$$= 32.9 \text{ cents per hour worked.}$$

Example B. Employer contributions for a benefit package are 20 cents per hour paid. Since hours paid include paid leave, this value must be translated into an employer cost per hour worked. Given a 40-hour straight-time work week (2080 hours per year), the annual straight-time cost is $416 per year ($.20 × 2080). Division by average hours worked (1824 hours per year) yields the cost of the benefit per hour worked:

$$\left(\begin{matrix}\text{Benefit}\\ \text{cost per}\\ \text{hour worked}\end{matrix}\right) = \left(\begin{matrix}\text{20 cents}\\ \text{per hour}\end{matrix}\right) \times \left(\begin{matrix}\text{2080 hours}\\ \text{per year}\end{matrix}\right) \div \left(\begin{matrix}\text{1824 hours}\\ \text{worked per}\\ \text{year}\end{matrix}\right)$$

$$= 22.0 \text{ cents per hour worked.}$$

The remainder of this section costs out two illustrative, hypothetical contracts.

Example 1

A new contract takes effect on March 1, 1979. Relevant data concerning pay rates at the expiration of the old contract are as follows:

- The average straight-time wage rate under the expiring contract -- the base wage rate -- is $6.71 per hour (see Table 2)
- The average number of paid-leave hours is 256 per year and the average number of straight-time hours worked is 1824 per year (see Table 3).

- Other fringe-benefit costs at the end of the expiring contract are
  - -- employer contributions to a flat-rate pension fund (the benefit is stated in terms of dollars per month times years of service) of $50 per month per employee, or 32.9 cents per hour worked (See Example A);
  - -- employer contributions for health insurance of $35 per month per employee, or 23 cents per hour worked;
  - -- employer contributions to life insurance equal to one percent of employee straight-time hourly wages, providing a survivor benefit equal to two times annual wages;
  - -- supplemental unemployment benefits, which cost the employer $300 per year per employee or 16.4 cents per hour worked; and
  - -- a uniform allowance, averaging $200 per year per employee or 11.0 cents per hour worked.

The new contract provides for

- fixed wage-rate increases of 7 percent on March 1, 1979 -- the first day of the new contract -- and 6 percent on March 1, 1980 -- the first day of the second year of the new contract;
- maintenance of existing paid-leave provisions, life insurance benefits, supplemental unemployment benefits (employer contributions remain at 16.4 cents per hour worked), and uniform allowance (employer cost remains at 11.0 cents per hour worked);
- maintenance of existing health benefits, with employer-paid premiums estimated to increase to $39 per month per employee in the first year and to $43 in the second;
- an increase of pension benefit rates, requiring an increase in employer contributions to $55 per month per employee, or 36.2 cents per hour worked, effective at the beginning of the new contract; and
- addition of a dental-care plan, estimated to cost $16 per month per employee in the first year, or 10.5 cents per hour worked, and $17 per month per employee in the second year, or 11.2 cents per hour worked.

The contract is costed out below in four steps:

(1) calculation of the base pay rate,

(2) calculation of the first-year pay rate,

(3) calculation of the second-year pay rate, and

(4) calculation of percentage changes in the pay rate (and comparisons to the allowable percentage increases).

Step 1

Calculation of Base Pay Rate

Average wage rate	$6.71
Benefits	
Paid leave ($6.71) × (256/1824)	.942
Pension fund	.329
Health insurance	.230
Life insurance (.01 × $6.71)	.067
Supplemental unemployment benefits	.164
Uniform allowance	.110
Total (base pay rate)	$8.552/hour

Step 2

Calculation of First-Year Pay Rate

Average wage rate (1.07 × $6.71)	$7.18
Benefits	
Paid leave ($7.18) × (256/1824)	1.008
Pension fund	.362
Health insurance (1.07 × $.230)	.246
Life insurance (.01 × $7.18)	.072
Supplemental unemployment benefits	.164
Uniform allowance	.110
Dental care	.105
Total (pay rate)	$9.247/hour

The health-insurance contribution per hour worked is calculated by increasing the base contribution of 23.0 cents per hour worked by 7 percent since the estimated first-year increase in the health premium is 11.4 percent, and only the first 7 percent of the increase is counted in calculating the new pay rate (see the Pay Standard, section 705B-6).

Step 3

Calculation of Second-Year Pay Rate

Average wage rate (1.06 × $7.18)	$7.61
Benefits	
Paid leave ($7.61) × (256/1824)	1.068
Pension fund	.362
Health insurance (1.07 × $.246)	.263
Life insurance (.01 × $7.61)	.076
Supplemental unemployment benefits	.164
Uniform allowance	.110
Dental care	.112
Total (pay rate)	$9.765/hour

Step 4

Calculation of Percentage Change in Pay Rate

	Pay Rate	Percentage Change	Allowable Percentage Change	
Base	$8.552	—	—	
First Year	$9.247	8.13%	8.00%	Does not comply
Second Year	$9.765	5.60%	8.00%	Complies
Life of contract	—	14.18%	14.49%	Complies
(Annual Average)	—	(6.86%)	(7.00%)	Complies

As the first-year increase exceeds 8 percent, the contract does not comply with the pay standard, even though the average annual rate of increase over the life of the contract is less than 7 percent. Since the second-year increase is only 5.6 percent, the contract can be brought into compliance by an appropriate reallocation of some of the increase from the first to the second year. For example, deferral of the establishment of the dental-care plan until the second year would lower the first-year pay rate by 10.5 cents per hour. This alteration in the contract results in the following percentage changes:

Calculation of Percentage Changes in Pay Rate
(Assumes Dental Plan Introduced in Second Year)

	Pay Rate	Percentage Change	Allowable Percentage Change	
Base	$8.552	—	—	
First Year	$9.142	6.90%	8.00%	Complies
Second Year	$9.765	6.81%	8.00%	Complies
Life of Contract	—	14.18%	14.49%	Complies
(Annual Average)	—	(6.86%)	(7.00%)	Complies

Note: The above calculations make no distinction between wage-related increases (roll-up) and non-wage-related increases in fringe benefit costs; each benefit cost per hour is calculated directly in an appropriate manner. Often it is useful to separate wage-related benefits -- benefits for which employer costs are proportional to wage rates -- since the cost of providing these benefits will roll-up directly with the wage-rate increase. These benefit costs can be derived using a roll-up factor. In the example, only paid leave and life insurance are wage related. The percentage roll-up factor is calculated as follows:

Wage-Related Benefits	
Cost of paid leave per hour worked	$.942
Life-insurance cost per hour worked	.067
Total	$1.009

$$\text{Roll-up factor} = \frac{\text{Wage-related benefits}}{\text{Base wage rate}} = \frac{\$1.009}{\$6.71} = 15.0\%$$

This roll-up factor can be used to calculate benefit cost increases for the wage-related benefits. The increases summarized in step 4 above can be calculated alternatively as follows (assuming that the dental care plan is introduced in the first year).

Percentage Increases in Pay Rates

	(1) Wage Increase	(2) Roll-up .15×(1)	(3) Increase in other benefits costs	(4) Increase in pay rate (1)+(2)+(3)	(5) Pay Rate	(6) Percent Change
Base	—	—	—	—	$8.552	—
First Year	$.47	$.070	$.154	$.694	$9.246	8.12%
Second Year	$.43	$.065	$.024	$.519	$9.765	5.61%

Column (1) is the average wage rate increase derived from Steps 1, 2, and 3 above. Column (2) applies the roll-up factor to the wage rate increase in column (1). Column (3) is obtained by summing the increases in the non-wage-related components of fringe benefits (employer contributions to the pension fund, health insurance, supplemental unemployment benefits, and the uniform allowance), which are developed from the information in Steps 1, 2, and 3 presented above. Column (4) sums the pay rate changes in columns (1), (2), and (3). In column (5), the pay rate increases in column (4) are successively added to the base pay rate. Finally, column (6) presents the annual percentage changes. The trivial differences between the above percentage changes and those calculated in step 4 above are due to rounding differences.

UMI 9 7 5 2 A J 8 1 4 4 V

Example 2

A three-year contract becomes effective on February 1, 1979. Relevant information concerning pay rates at the expiration of the old contract is as follows:

- The average straight-time wage rate under the expiring contract -- the base wage rate -- is $9.00 per hour.
- The average number of hours of leave with pay is 280 per year and the average number of straight-time hours worked is 1800 per year. Hence, leave-pay cost is $1.40 per hour worked ($9.00 × 280 ÷ 1800).
- The only remaining benefit, for purposes of this example, is a flat-rate pension fund. Employer contribution rates to this fund are $90 per month per employee, or 60 cents per hour worked ($90 × 12 ÷ 1800).
- The base pay rate is $11.00 per hour worked ($9.00 + $1.40 + $.60).

The new contract provides for

- fixed wage increases of 60 cents per hour at the beginning of the first year (i.e., on February 1, 1979) and 50 cents per hour at the beginnings of the second and third years (i.e., on February 1 of 1980 and 1981);
- COLAs at the beginnings of the second and third years based on increases in the Consumer Price Index (CPI) according to the following formula:
  - -- at the start of the second year (on February 1, 1980), a wage increase of 1.5 cents per hour for each full-point rise of the CPI in excess of two points between November 1978 and November 1979; and

  - -- at the start of the third year (on February 1, 1981), a wage increase of 1.5 cents per hour for each full-point rise of the CPI in excess of two points between November 1979 and November 1980;
- an increase in the pension-benefit rate, estimated to cost an additional $22.50 per month per employee in the first year of the contract, or 1¢ cents per hour worked ($22.50 × 12 ÷ 1800).

In order to evaluate the pay-rate increases prospectively under this contract, it is necessary to evaluate the two COLAs assuming a 6-percent average annual rate of increase in the CPI over the life of the contract. The value of the CPI for November of 1978 is 201.8. At a 6-percent annual rate of increase, it will rise to 213.9 in November of 1979, and to 226.7 in November of 1980. Based on this assumption, the COLAs would be as follows:

COLA ADJUSTMENTS

DATE	CPI	INCREASE IN CPI	COLA*
November 1978 (actual)	201.8	—	—
November 1979 (assumed)	213.9	12.1	15¢=(1.5 × [12-2])
November 1980 (assumed)	226.7	12.8	15¢=(1.5 × [12-2])

*Note: In computing the COLA adjustment, the 12.1-point and 12.8-point increases in the CPI are adjusted down to the nearest complete full-point rise -- 12 points in each case.

Combining the fixed wage increases and the COLAs and adding these increases to the base wage rate of $9.00 per hour we can calculate the wage rates in effect at the end of each year of the contract, as shown below.

WAGE-RATE SUMMARY

	FIXED WAGE INCREASE	COLA	TOTAL WAGE INCREASE	WAGE RATE
Base	—	—	—	$ 9.00
First year	$.60	$.00	$ .60	9.60
Second year	.50	.15	.65	10.25
Third year	.50	.15	.65	10.90

Since the only wage-related benefit is paid leave, a roll-up factor is easily determined as follows:

WAGE-RELATED BENEFITS

Cost of paid leave per hour worked:	$1.40
Total:	$1.40

$$\left(\text{Roll-up Factor}\right) = \frac{\text{Wage-Related Benefits}}{\text{Base Wage Rate}} = \frac{\$1.40}{\$9.00} = 15.6\%$$

Combining the information regarding the base pay rate, the wage-rate increases, the increased cost of paid leave due to roll-up, and the specified cost of the pension-benefit improvements, we can summarize the pay-rate increases dictated by this contract as follows:

CONTRACT SUMMARY

	(1) Wage Increase	(2) Roll-up .156×(1)	(3) Pension-Cost Increase	(4) Pay-Rate Increase (1)+(2)+(3)	(5) Pay Rate	(6) Percentage Change
Base	—	—	—	—	$11.00	—
First year	$ .60	$ .09	$ .15	$ .84	11.84	7.64%
Second year	.65	.10	.00	.75	12.59	6.33%
Third year	.65	.10	.00	.75	13.34	5.96%

$$\left(\text{Percentage Increase Over Life of Contract}\right) = \left(\frac{\$13.34}{\$11.00} - 1.0\right) \times 100 = 21.27\%$$

This contract complies since the percentage increase in each year is less than 8 percent and the percentage increase over the life of the contract (21.27%) is less than the 22.50% increase allowed for a 36-month agreement (see Table 1). The compound average rate of increase over the life of the contract is (using formula (3)).

$$\left[\left(\frac{13.34}{11.00}\right)^{1/3} - 1\right] \times 100 = 6.64\%$$

B. APPLICATION OF THE PAY STANDARD TO NONUNION PAY RATES

Nonunion pay increases may be calculated by three alternative methods. Section 705B-4(a) provides for a simple comparison of the average pay rate in the last quarter of the program year with the average pay rate in the base quarter. This method is the least complex and includes the effect of all pay-rate changes, including those due to promotions and shifts in the work-force composition. Section 705B-4(e) permits an adjustment to control for the effects of shifts in the composition of the work force among distinct employee groups with different average pay rates. Section 705B-4(b) allows measurement of the pay-rate change for the fixed population of workers employed throughout the program year. This method excludes the effect of promotions as well as turnover of the work force. In order to compare these alternative methods, examples are given below.

METHOD 1 - Computation of Average Pay-Rate Change (705B-4(a))

The employee unit includes 100 workers with the following pay rates in the base quarter:

Classification	Number of Workers	Average Pay Rate*
A	25	$ 10/hr.
B	25	$ 8/hr.
C	50	$ 6/hr.

* The average pay rate in each job classification includes the costs of private fringe benefits per hour. See Section A for treatment of benefit costs and the conversion of these costs to costs per hour worked.

All employees work 500 straight-time hours in the quarter. The base pay for this unit is calculated as

A: 500 hrs. × $10/hr. × 25 workers = $125,000
B: 500 hrs. × $ 8/hr. × 25 workers = $100,000
C: 500 hrs. × $ 6/hr. × 50 workers = $150,000
Total base pay = $375,000
Total hours = 500 hours × 100 workers = 50,000 hours
The base quarter pay rate = $375,000 ÷ 50,000 hours
= $7.50/hour

All job classifications in this example receive a 7-percent pay-rate increase over the program year and employment expands by 5 employees in category B, and by 5 in category C. The unit now has the following pay rates in the final quarter of the program year:

Classification	Number of Workers	Average Pay Rate
A	25	$10.70
B	30	$ 8.56
C	55	$ 6.42

The average pay rate in the final quarter is calculated as

A: 500 hrs. × $10.70/hr. × 25 workers = $133,750
B: 500 hrs. × $ 8.56/hr. × 30 workers = $128,400
C: 500 hrs. × $ 6.42/hr. × 55 workers = $176,550
Total pay = $438,700
Total hours = 500 hours × 110 workers = 55,000 hours
The final-quarter pay rate = $438,700 ÷ 55,000 hours
= $7.98/hour

Using the method of Section 705B-4(a), the percentage change in the average pay rate is computed as

$$\left(\text{Pay-rate change}\right) = \left(\frac{\text{Final quarter pay rate}}{\text{Base quarter pay rate}} - 1.0\right) \times 100$$
$$= \left(\frac{\$7.98}{\$7.50} - 1.0\right) \times 100$$
$$= 6.40\%$$

This employee unit complies with the 7-percent pay standard. The actual pay-rate change (6.40%) is below the 7-percent increase given to each job classification due to the effect of the shift in the work-force composition.

METHOD 2 - Adjustment for changes in Work-Force Composition (705B-4(e))

In the previous example, the shift in the composition of the work force reduced the measured increase in the average pay rate. For some employee groups, however, such shifts may exaggerate the average pay-rate increase.

This is illustrated by the following situation, which begins with the same base-period pay rates and work-force composition as in the preceding example. However, in this case the number of workers in the A classification increases by 5 employees and the number in the C classification decreases by 10 employees during the program year. As in the preceding example, a 7-percent pay-rate increase is given to each classification. The job mix and pay rates in the final quarter are:

Classification	Number of Workers	Average Pay Rate
A	30	$10.70
B	25	$ 8.56
C	40	$ 6.42

Under these conditions, the average pay rate in the final quarter is computed as:

A: 500 hrs. × $10.70/hr. × 30 workers = $160,500
B: 500 hrs. × $ 8.56/hr. × 25 workers = $107,000
C: 500 hrs. × $ 6.42/hr. × 40 workers = $128,400
Total pay = $395,900
Total hours = 500 hours × 95 workers = 47,500 hours
The final-quarter pay rate = $395,900 ÷ 47,500 hours
= $8.33/hour

The average pay rate increases from $7.50 per hour to $8.33 per hour -- an increase of 11.1%. If Method 1 were used, this employee unit would exceed the 7-percent standard, even though no job classification was given a pay-rate increase of more than 7 percent. The excess is due to the shift in the composition of the work force.

Section 705B-4(e) of the standards permits the calculation of a weighted-average pay-rate change that excludes the effect of such compositional shifts. Using this method, it is assumed that the composition of the work force remains the same as in the base quarter. This is done by

(1) computing the share or fraction of total base quarter pay accounted for by each employee subgroup;

(2) computing the percentage change in the average pay rate for each employee subgroup; and

(3) computing a weighted average pay-rate change using the payroll shares as weights.

For the example developed above, these computations are

$$\left(\text{Weighted-Average Pay-rate Change}\right) = \left\{\text{Sum of Product}\left[\left(\text{Payroll Share}\right) \times \left(\text{Percentage Pay-rate Change}\right)\right]\right\}$$

Classification	(1) Base Quarter Payroll*	(2) Base Payroll Share	Percent Pay-rate Change	Weighted Change (1) × (2)
A	$125,000	.333	7.0%	2.33%
B	$100,000	.267	7.0%	1.87%
C	$150,000	.400	7.0%	2.80%
Total	$375,000	1.000		7.00%

* Note: The base-quarter payroll values are those used in calculating the base-quarter pay rate in the Method 1 section.

In this example, then, the weighted average pay-rate change is 7 percent and the employee unit complies with the pay standard.

METHOD 3 - Computations Using Continuing Employees (705B-4(b))

The method in Section 705B-4(b) of the standards allows companies to measure pay-rate changes of individual workers after excluding the effects of legitimate job promotions. The computation is based on the average of pay-rate increases for those employees who remain with the firm throughout the program year.

As illustrated in the following table, this example involves an employee unit with 5 workers in the base quarter. Each of these workers falls into an individual job category and the corresponding job rates are indicated in column (1). During the program year, each job rate is increased by 7 percent. Column (2) presents the job rates that would apply to each individual in the final quarter of the program year if their job had remained unchanged. Column (3) presents the job changes occurring during the program year. Column (4) indicates the final-quarter pay rates after the effects of turnover, promotion, and hiring activity. Column (5) isolates the cents-per-hour increases due to promotions.

PAY-RATE DATA FOR INDIVIDUAL EMPLOYEES

Worker	(1) Initial Job Rate	(2) Terminal Job Rate ((1) × 1.07)	(3) Job Action	(4) Final Pay-Rate	(5) Promotional Increase
1	$10.50	$11.24	Unchanged	$11.24	-
2	9.75	10.43	Leaves	-	-
3	9.50	10.17	Promoted	10.43	$0.26
4	9.25	9.90	Promoted	10.17	0.27
5	9.00	9.63	Unchanged	9.63	-
6	-	-	New Hire	10.17	-

The final-pay-rate data in column (4) reflect the effects of increases in job rates and the promotions and turnovers described in column (3). The job changes by individuals in this example are as follows:

- Individual 1 retains the original job.
- Individual 2 leaves the employee unit.
- Individual 3 is promoted to the job vacated by individual 2.
- Individual 4 is promoted to the job vacated by individual 3.
- Individual 5 retains the original job.
- Individual 6 is a new hire brought in for the same job to which individual 4 has been promoted.

The shift in work requirements during the program year has resulted in elimination of one job category -- the one originally occupied by individual 4 -- and requires having two workers in another category -- the category to which individual 4 was promoted and which the new hire, individual 6, entered.

Using the method of Section 705B-4(b), the average pay-rate change is computed solely on the basis of those individual workers who are employed throughout the program year -- workers 1,3,4, and 5. The portion of pay-rate increases entirely due to the job changes and corresponding promotions for individuals 3 and 4 are excluded. As seen in the preceding table, these promotional increases sum to 53 cents per hour. The appropriate computations are summarized below:

Average Pay Rate for Continuing Employees

Worker	Initial Pay Rate	Final Pay Rate	Percent Change in Pay Rate
1	$10.50	$11.24	7.0%
3	9.50	10.43	9.8
4	9.25	10.17	9.9
5	9.00	9.63	7.0
Total	$38.25	$41.47	8.4%
Less promotions	0.00	0.53	
Adjusted Pay	$38.25	$40.94	7.0%

Although the average pay rate for continuing employees has risen by 8.4%, the average pay rate, after excluding the effect of promotions, has increased only 7 percent.

Firms that use this method should exclude promotion increases only when there is a legitimate change in job responsibilities and should be able to demonstrate that the cost of promotions during the program year is consistent with prior years.

Sales Commission

The computation of increases in sales compensation raises special problems because of its dependence on sales volume. Salespeople receive increased compensation for three reasons: (1) an increase in commission rates; (2) an increase in the prices of goods sold; and (3) an increase in the volume of goods sold. The first two types of increases should be chargeable against the 7-percent standard, but the third should not.

A method of computing such compensation increases under the pay standard is shown in the following illustration.

Illustration of Commission Pay Increases

	Commission Rate	Units Sold	Price	Sales Revenues	Commission
Base Quarter	10.0%	1000	$100	$100,000	$10,000
Final Quarter	10.1%	1100	105	115,500	11,666

$$\left(\text{Actual Percentage Increase in Commission Pay}\right) = \left(\frac{\$11,666}{\$10,000} - 1.0\right) \times 100 = 16.7\%$$

$$\left(\text{Chargeable Income in Final Quarter}\right) = \left(\text{Final-Quarter Commission Rate}\right) \times \left(\text{Base-Period Units Sold}\right) \times \left(\text{Final-Period Price}\right)$$

$$.101 \times 1000 \times \$105$$

$$= \$10,605$$

$$\left(\text{Chargeable Percentage Increase in Sales Commission}\right) = \left(\frac{\text{Chargeable Income in Final Quarter}}{\text{Base-Quarter Commission}} - 1.0\right) \times 100$$

$$= \left(\frac{\$10,605}{\$10,000} - 1.0\right) \times 100 = 6.05\%$$

Although total commission pay increased by 16.7%, after adjusting for volume, the chargeable increase of 6.05% is safely within the 7-percent limitation.

V 4 4 / 1 8

QUESTIONS AND ANSWERS

The following questions and answers are an extension of those previously published by the Council in *Wage and Price Standards* on December 13, 1978 (published in the FEDERAL REGISTER on December 28, at 43 FR 60772). The numbering of the questions is sequential with that document.

I. THE PRICE STANDARDS

A. Coverage

Q24. How is the price standard applied to an agricultural cooperative?

A. Agriculutural cooperatives that provide only a marketing function for their farmer members are exempt from the price, margin, and profit standards.

If an agricultural cooperative is a food processor, it should be treated the same as any other food processor. Application of the price standard itself should be the same as for other companies. But, it should use the market price of inputs in lieu of payments to farmers in calculating its gross margin if it chooses the gross margin alternative to the price standard, or if it ends up using the profit-margin limitation.

Q25. A company does more than 75 percent of its program-year business (delivery of goods) under contracts that were signed prior to October 2, 1978 and that specify a fixed price. Is the company excluded from the application of both the price-deceleration standard and the profit-margin standard under section 705A-5(a)?

A. No, it is not. Section 705A-3(e) refers to deliveries during the *program year* whereas section 705A-5(a) refers to adjusted revenue in the *base year*. The company should comply with the price-deceleration standard with respect to deliveries not excluded under section 705A-3(e) (i.e., deliveries under contracts signed during the program year and non-contractual sales).

Q26. May companies that *purchase* products that are excluded under 705A-3 exclude the costs of those products in their own price calculations?

A. No. Companies may only exclude from their own price calculations those products, excluded under 705A-3, that they *produce*.

Q27. Is an agricultural product price that is excluded from company price calculations under 705A-3 also excluded if some processing of the product takes place before the first sale?

A. No.

Q28. May a company exclude a processed product from its price calculations if the processed product's price is closely related to the price of a raw material that is, in turn, excluded as being determined by an organized open exchange market?

A. No, unless the processed product itself is traded on an open exchange market. A connection of a preprocessed material to an open exchange market does not justify the exclusion of the processed product (e.g., fluid milk, cheese, and meat are not excluded). A few processed products themselves have an organized open exchange market. A company may exclude the sales of these processed products from the company's price or gross-margin calculations. As a first approximation, the only processors that qualify for this exclusion are manufacturers or processors of butter, oilseeds, oil and protein meals.

Finally no product that is brand-name identified can qualify for this exemption.

Q29. What freight rates and passenger fares does a U.S. air carrier exclude as exports in making its average-price calculations?

A. It excludes all international fares and rates except those for flights between the U.S. and Canada and between the U.S. And Mexico. International fares are excluded because an individual carrier has no practical way to distinguish exports from domestic sales in its international activities. Therefore, airlines treat all international sales (other than those between the U.S. and Canada and between the U.S. and Mexico) as if they were sales to foreign residents and foreign business firms. Also, these prices are set in an international market and must have the approval of foreign governments with which we have bilateral agreements.

Q30. In making average-price calculations, what freight rates and passenger fares should U.S.-operated ocean carriers engaged in international transport exclude?

A. they should exclude all rates on international movements of goods and people. These rates are excluded because of the difficulty involved in distinguishing between sales to foreign residents and companies and sales to U.S. residents and companies. Also, international ocean-liner freight rates are set in conferences which include carriers of foreign countries.

Q31. Do engineering services performed in the United States (design, drafting, studies, calculations) for a foreign client for use in a foreign country qualify as "exports of services" under 705A-3(d)?

A. Yes.

Q32. Does the term "contract" as used in Section 705A-3(e) include purchase orders of routine or normal recurring purchased items?

A. No.

Q33. How does a firm comply with the price standard if it commenced operations in the first quarter of 1978?

A. It cannot technically comply with the price standard since none of the required information is available. Such companies are, however, expected to comply with the pay standard and they are asked to adhere to the "spirit" of the program in their price decisions.

Q34. If a company sells a product to the Department of Defense (DOD) based on DOD generated and directed specifications, the specifications are subject to modification. May a company treat this item as a custom product?

A. If the company can net out the costs associated with the changes, it should treat the product as a standard item. If, however, this approach is not feasible, the company may treat the item as a custom product.

C. Computation of the Price Standard

Q8. In the calculation of base-period and program-year rates of price change, must the prices of all of a company's products be included in the calculation?

A. If it would be extremely difficult to include the prices of a certain set of products, accounting for a small portion of the total sales of the company, these prices may be excluded from the calculations. However, the included products should be representative of the company's product line. Moreover, in keeping with the spirit of the program, companies should make every effort to apply the standards to the pricing decisions for all products.

Q9. A company can choose either the third quarter of 1978 or the company's last complete fiscal quarter prior to October 2 as its base quarter. Must the choice of the base quarter be identical for price and pay calculations?

A. The base quarter should be identical for the two calculations unless there is a compelling reason, in terms of accounting convenience, for the choice of different periods.

Q10. How should a company value a cost-plus-fixed-fee contract for purposes of complying with the price-deceleration standard?

A. The price for such a contract is defined as the cost plus the fixed fee. However, if the seller is acting only as a purchasing agency with a fixed dollar fee, the transaction could be defined to include only the fee since the seller is filling a role similar to a wholesaler or retailer.

D. Profit Margin Limitation

Q7. If a diversified company treats each of its divisions as a separate "company" in accordance with the requirements of section 705D, is an individual division free to use the profit margin limitation or will *all* divisions have to use the same standard.

A. The different "companies" do not have to use the same standard.

Q8. In the calculation of its profit margin, can a company exclude the profits earned on sales excluded under 705A-3?

A. No.

Q9. How does the profit-margin limitation apply to government enterprises?

A. Government entities that are covered by the price standard can use the operating-margin limitation that is applicable to nonprofit organizations. The operating margin is operating surplus divided by operating funds, and the operating surplus is defined as operating funds less total costs and expenses including wages.

Q10. In section 705A-6 there are two reasons for the application of the profit-margin limitation exception, one being "uncontrollable price increases in goods and services it buys." How do you define such uncontrollable cost increases?

A. The wording of section 705A-6 is intended to convey the notion that companies are asked to make a good-faith effort to comply with the price deceleration standard, and to revert to the profit-margin limitation exception only if such compliance would cause a significant deterioration of the company's profit position. The effort to comply with the price-deceleration standard entails a good-faith effort to hold down costs. Hence, the reference to "uncontrollable" cost increases. However, the extent to which cost increases are uncontrollable will depend upon individual circumstances. The following nonexhaustive list includes items which if they rise in price, might be included as "uncontrollable" increases:

- Government-mandated cost increases (such as payroll taxes)
- Increased labor costs dictated by collective bargaining agreements or annual pay plans in effect prior to October 24, 1978,
- Utility-rate increases, and
- Raw materials purchased from outside the U.S.

It should be emphasized that the mere existence of an uncontrollable cost increase, no matter how trivial, does not constitute justification for the use of the profit-margin limitation exception. Companies applying for such an exception under section 705A-6(a) are asked to explain the reason for their inability to comply with price deceleration, documenting their cost increases.

II. THE PAY STANDARD

B. Employee Coverage

Q8. In determining its organizational structure for purposes of determining compliance with the standards, must the same structure be used for pay and price purposes?

A. Normally companies are expected to use the same organizational structure for pay and price purposes. However, if a company's normal accounting practices would result in different structures for pay reporting than for price reporting, and it would impose substantial administrative costs to report the same units for pay and price purposes, the company may follow its normal accounting practices.

Q9. May different pay computation methods for different employee units within one company be used?

A. Yes. But once a method is chosen for a particular unit, it should not be changed later in the program year to another method.

C. Pay and Pay Rates

Q5. If a company is required to make retrospective payments to an employee or employees as the result of legal action, are these payments chargeable under the standard?

A. No.

Q6. Is rollup included in the calculation to a pay increase?

A. Yes. The additional cost of existing benefits which results from a wage increase is to be included as part of the pay increase chargeable to the 7-percent standard.

Q7. Are TRAESOPS (Tax Reduction Act Employee Stock Ownership Plans) considered in measuring compliance with the standards?

A. No. TRAESOPS are excluded, since they are not an employer cost but rather result from money available under the investment tax credit.

D. Collective Bargaining Units

Q5. Can a company that has a large number of small collective bargaining units combine these units for purposes of compliance?

A. Units of less than 100 employees can be combined for administrative purposes or in response to requests for information. But such units are expect to comply with the standards on an individual basis.

Q6. If a new collective bargaining unit is formed, what limit is placed on pay increases in the program year?

A. The total increase for such workers should not exceed 7 percent in the program year, including pay-rate increases granted prior to formation of the new unit. Of course, a contract signed by the new unit during the program year should be consistent with the Pay Standard, as applied to collective bargaining agreements.

Q7. What is the base pay rate for a new collective bargaining agreement?

A. The average pay-rate in effect at the expiration of the prior agreement.

Q8. Can a union contract signed prior to October 25, 1978, be reopened to grant an additional pay increase during the program year?

A. Yes, if the total pay increase for the program year does not exceed 7 percent and the new contract is consistent with the pay standard as applied to new collective bargaining agreements.

Q9. Are longevity increases chargeable for collective bargaining units?

A. Yes, to the extent that they can be distinguished from qualification increases and if they add to average wage rates over the duration of the contract.

Q10. Are step-rate or progression increases included as pay rate increases?

A. Movement through a structured pay schedule from entry levels to established job-rate levels is treated the same as a qualification increase. These increases are not included in determining compliance. Increases beyond the job-rate level are treated as longevity increases and are charged against the 7-percent standard to the extent that they add to average wage rate increases over the life of the contract.

Q11. In an industry bargaining situation in which a number of companies sign a common agreement with a union and the companies have different average base pay rates, will compliance be measured for each company?

A. The Council will continue its past practice of evaluating such agreements on an industry basis, using an average base pay rate for all the companies. Individual companies that sign the pattern agreement will be deemed in compliance.

Q12. Under the pay standard, a contract that includes a provision for a future wage reopening will be assumed to be terminating on that date. Does this apply to a wage reopener that has a specific limitation?

A. The Council will permit a wage reopener that specifically provides that, upon reopening, any wage-rate or benefit increases must be in compliance with the standards. A contract that includes such a provision would not be assumed to be terminating on the reopening date. The following would thus be permissible: A two-year agreement providing for an 8-percent pay-rate increase in the first year, with a wage reopener in the second year subject to a limitation of 6-percent for the second-year increase.

E. Nonunion Standard

Q12. When excluding legitimate promotion increases under method 705B-4(b), what amount should be included as pay-rate increases?

A. The company should count any increases that the employee would have received in the absence of the promotion. This method is intended for promotions from one job paying a

JA 25 79 UMI

V 4 4 / 1 8

fixed rate to another fixed-rate job. Firms with salary ranges that combine merit increases with promotions are expected to use 705B–4(a). However, if there is a basis for separating the merit and promotional increases, 705B–4(b) may be used.

Q13. When using the fixed-population method for determining compliance, must the company recompute the base-quarter compensation rate to exclude those employees no longer with the company?

A. Yes.

Q14. How is a benefit improvement communicated to the employees before October 2, but implemented after that date, to be treated?

A. The cost of the new benefit may be excluded from all pay-rate calculations.

Q15. What is a formal annual pay plan as covered by Section 705B–4(c) of the pay standard?

A. This section covers annual merit plans and general pay increases which would have been interrupted by application of the 7-percent pay standard. For example, this provision applies to pay increases given to employees on their anniversary dates under the continuation of a plan which was in operation on October 1, 1978. The intent is to allow such plans to run as usual through the end of the plan year. In the next planning year of the company the pay increases under such plans should be in compliance with the pay standard.

Q16. May a company increase its pay to salaried employees to compensate for an increase in hours worked per day or days worked per week?

A. Such increases pose a special problem because salaried employees typically are not paid by the hour, but by the month or year. If a company wishes to give pay increases for additional hours worked for salaried employees, the burden rests with the company to show that there is an actual increase in hours worked.

Q17. Does the provision for calculating chargeable increases under cost-of-living formulas apply to nonunion employees also?

A. Yes, if such employees are covered by a formal cost-of-living formula. But, as with formal collective bargaining contracts, it should be part of a pay plan that extends beyond a year in duration.

F. Variable Compensation

Q6. How will annual incentive bonuses be treated in future years?

A. Annual incentive bonuses are expected to be consistent with the 7-percent pay standard. For nondiscretionary plans, companies should make a reasonable estimate of their profits for the coming year, and calculate the amount of aggregate incentive bonuses that would be paid at that level of profits. The projected increase in these bonuses (prorated) together with fixed compensation increases should not be more than 7 percent greater in the last quarter of the program year than in the base quarter. If bonuses are larger than estimated due to higher profits, the excess over the 7-percent standard will be considered an exception *if* the company can demonstrate that its estimate of profits was not unreasonably low.

G. Future-Value Compensation

Q5. Under Section 705B–5(e) companies are expected to place a value on new future-value plans "consistent with generally accepted accounting practices." There really is no accounting value with respect to new stock option plans. Does this mean that companies may place a zero value on such plans?

A. No. Companies are expected to place *some* reasonable value on such plans and include this value as pay during the program year.

I. Pensions

Q7. Are increased pension benefits for retirees chargeable as pay increases?

A. Since retirees are not employees under the standard, pension costs for retirees would normally be excluded from all pay calculations for the employee unit—both in the base period and in the program year. However, if it is a company's normal practice to treat retiree pension benefits as part of an employee unit's base compensation package, improvements in such benefits should be charged as a pay increase for the unit.

Q8. Can reductions in pension costs due to changes in actuarial assumptions or funding methods be used as a credit toward other pay-rate increases?

A. No.

K. Tandem Pay-Rate Exception

Q2. Is the tandem exception applicable to individual elements of pay?

A. Yes, provided that the criteria set forth in the standards covering tandem relationships are met.

III. SPECIAL SECTORS

A. Food Manufacturers, Retailing and Wholesaling

Q6. If a food-processing company, a retailer, or a wholesaler chooses to comply with the price-deceleration standard and later finds that it is unable to do so because of uncontrollable cost increases, can it turn directly to the profit-margin limitation or must it first attempt to comply with the appropriate margin standard?

A. The company may choose either to comply with the gross margin standard or to apply the profit-margin limitation exception in accordance with § 706.31.

Q7. In the computation of a gross margin by a wholesaler, do service fees have to be included?

A. Yes. All service fees, stop or order charges, delivery fees, cash discounts earned, adjustments to "sell price," etc., should be added to sales in computing the gross margin. The gross margin, calculated by subtracting from net sales the cost of goods purchased for resale, includes all costs associated with these various types of service fees.

Q8. How do inventory changes affect the computation of gross margins?

A. Net sales, less cost of goods sold (for retail and wholesale trade) or less food ingredients in the goods sold (for food manufacturers), are adjusted for inventory changes of finished goods in the computation of gross dollar margins.

Any method of calculation of inventory valuation is acceptable as long as generally accepted accounting procedures are consistently applied for a given company. No changes in inventory policy (e.g., changing from FIFO to LIFO) should be made with the intention of influencing the level of computed gross dollar margins. A company should recalculate its inventory valuation if it changes its accounting procedures.

Q9. Because of changes in the mix of product sales, an improvement in loss experience ("shrinkage"), or changes in the rates of movement of merchandise at initial markups vs. marked-down prices, a retailer might fail to satisfy the percentage-margin standard for reasons beyond its control. Will the company be judged to be out of compliance?

A. No. As long as a company makes a good-faith effort to comply with the standard, an inadvertent overshooting of the margin target will not result in a determination of noncompliance. A good-faith effort requires that retailers adopt a markup (and mark-down) policy that can be expected to generate percentage margins that comply with the standard. If there is no change in policy regarding mark-downs, shrinkage, etc., the retailer can simply project past experience regarding these factors. However, a change in policy or practice regarding any of these factors should be reflected in the mark-up policy. Finally, if a company overshoots the margin target, it will be expected to adjust its markup policy in the next year to compensate for the excessive margin during the first program year.

Q10. How can a retail company comply with the margin standard if its interest costs of carrying accounts receivable are going up at a rapid rate?

A. In many cases, the finance division of the retailer can be treated as a separate company in accordance with the criteria set forth in the definition of "company" in section 705D. In those cases in which these criteria are not met, and in which the inclusion of interest costs on accounts receivable imposes an undue hardship on the retailer, the Council will provide a procedure for an exception to the conditions required for the disaggregation of a company. In order for a company to be eligible for this exception, there must exist a reasonable basis in the available accounting records to be able to make this separation, and a reasonable allocation of all applicable overhead costs must be made. The new company would be expected to meet the standards for financial companies.

Q11. If a company whose activities include both manufacturing and retailing qualifies for the use of the percentage-margin standard under section 705C–2(a), can the retail-trade segment be treated separately under the percentage-margin standard or must these activities be combined under the price-deceleration standard?

A. The firm is allowed to do either. However, if the aggregation of these activities would force a company to the profit-margin exception due to the inability to calculate price changes for its retail activities, the Council would prefer disaggregation and separate compliance with the price-deceleration and percentage-gross-margin standards.

Q12. How does a food-manufacturing company that applies the gross-margin standard to its food operations treat its nonfood products?

A. It should apply the price-deceleration standard to its nonfood sales.

B. Professional Fees

Q4. What is the program year for application of the professional-fee standard?

A. The program year is the last calendar or fiscal quarter prior to October 2, 1978, through the same quarter in 1979.

Q5. Can professionals in applying the professional-fee standard use the revenue-weighted average fee on October 2 instead of the average fee during the last complete fiscal quarter prior to October 2?

A. Yes, if it is easier to compute and there has not been a major fee increase during the last complete fiscal quarter prior to October 2.

Q6. Are hospital-based physicians and other health professionals covered under the pay standard of the professional-fee standard?

A. Physicians that are paid on a salary basis are included in one of the employee units identified by the hospital for the purpose of compliance with the pay standard. Physicians that are paid on a fee-for-service or proportion-of-department-revenue basis should comply with the professional-fee standard. If professional earnings are based on some combination of salary and fee-for-service or proportion-of-department-revenue, the hospital and the physicians should comply with the respective standards for the relevant portions of professional earnings.

Q7. Are fees charged for services of hospital-based physicians covered under the professional fee standard?

A. Yes. Services provided on a fee-for-service basis by radiologists, pathologists, emergency-room physicians, and other hospital-based physicians are covered under the professional-fee standard. If billing is done for their services through the hospital, the hospital and the physician are both responsible for compliance with the professional-fee standard. If billing is not on a fee-for-service basis (i.e., charges are included in the hospital-room charge), the professional-fee standard does not apply.

IV. PROCEDURES

A. General Provisions

[Reserved]

B. Reports and Notifications

Q1. Are companies with at least $250 million in sales or revenues, which intend to treat their entire organization as one unit (i.e., "company") for purposes of compliance, still requested to notify the Council of their organizational structure under § 706.21(a)?

A. Yes. Even if a company does not separate into smaller "companies" for purposes of compliance, it is still requested to notify the Council of its decision, as well as to submit data on the major lines of business.

Q2. Once a company notifies the Council of its organizational structure and method of pay calculation, may it change such structure or method merely by advising the Council of the change?

A. No. Once a company establishes its reporting structure and price and pay data a company is committed to that structure and data for the program year. If a company believes that failure to change will result in an undue hardship or gross inequity, it may, if it qualifies, seek permission to change by requesting an exception.

Q3. What should a company do if it is required to report its base-period rate of price change under § 706.22(d), but it is subject to the Profit Margin Limitation because it has insufficient product coverage?

A. It should supply the information in § 706.22(d)(1) demonstrating that it is subject to the Profit Margin Limitation. The other requirements in § 706.22(d) could be omitted. The company would not have to apply for an exception in order to use the Profit Margin Limitation if it is automatically subject to that limitation because of insufficient product coverage.

Q4. Do the reporting requirements apply to private universities and other nonprofit institutions?

A. Yes, since the Standards apply to such institutions, the reporting requirements would also apply. The same principles of calculation applicable to profit-making entities would apply to nonprofit institutions, subject to certain adjustments. For example, if the Profit Margin Limitation were used, the nonprofit institution would utilize a limitation on its operating surplus, i.e., on its operating funds less total costs and expenses including wages. (See Question I.D. 6, of the Q's and A's issued on December 13, 1978.)

Q5. With respect to §706.22, does the $500 million apply only to domestic sales?

A. No. It applies to the data stated in the Form 10–K as submitted to the SEC which may include foreign sales as well.

Q6. § 706.22(b) asks consolidated companies having, or companies belonging to consolidated companies having, $500 million in sales or revenues to submit to the Council a copy of Form 10–K reports submitted to the Securities and Exchange Commission. Does this mean that firms that do not file 10–K reports with the SEC need not comply with the remainder of § 706.22.

A. No. If a firm has not prepared a Form 10–K report, it is not asked to generate one. However, it is asked to submit other information.

Q7. Should firms that have filed Form 10–K reports with the SEC file the same forms with the Council?

A. Form 10–K's on file at the SEC can be obtained by the Council, and companies need not furnish the Council with duplicate copies if this would be burdensome. However, if such copies are readily available, their submission would reduce the Council's administrative work and would be greatly appreciated.

Q8. What type of data are contemplated by § 706.22(d)(2), in the phrase "not included in the calculation of the base-period rate of price change?"

A. It is expected that some companies will find that it is not feasible to calculate an average price change covering 100 percent of their revenues (even after deducting revenues covered by 705A–3(a)–(d) and (f)–(i). Typically, this may be caused by the lack of historical records on prices, revenues, and/or physical volumes for some products. Accordingly, § 706.22(d)(2) asks companies to advise

JAN 25 1979 UMI

V 4 4 / 1 8

the Council of data of this sort. The revenues covered by 705A-3(e) would not be included, however, since that category is only defined for the program year.

Q9. Should companies filing reports under Subpart B of Part 706 file in triplicate?

A. No. One copy is sufficient.

Q10. What is a company's "most recently completed fiscal year" for purposes of Subpart B?

A. This refers to the most recently completed fiscal year prior to the start of the program year.

Q11. § 706.24 requests information from "companies with 5,000 or more employees." Can this be interpreted to refer only to disaggregated compliance units ("companies" under 705D) with 5,000 or more employees?

A. No. The request is directed at "companies" with 5,000 or more employees, *and* companies that belong to consolidated companies with 5,000 or more employees.

Q12. Does failure to comply with a request for reports under Subpart B result in a company's being put on the list of noncomplying companies?

A. No. A company can be placed on this list only if it fails to comply with the substantive Price or Pay Standards. However, if a company fails to make the requested reports, this may prompt further investigation of its operations by the Council.

Q13. If a company does not maintain records for its major lines of business at the four-digit level of the Standard Industrial Classification System, must it generate this information for purposes of a report under § 706.21(b)?

A. No. A company should supply information at a comparable level of detail, but need not follow the SIC system exactly.

Q14. § 706.22 applies to companies that "belong to" consolidated companies with $500 million or more in sales. Does this mean that companies which are owned by, but *not* consolidated with, companies with the requisite sales, are subject to § 706.22?

A. Yes.

Q15. Should companies submit data regarding base-period rates of price change under § 706.22(d) if they are subject only to the profit-margin limitation?

A. No. If a company *knows* by February 15, 1979, that it is subject to the profit margin limitation, either because it has insufficient product coverage or because it has been granted an exception, it need not supply data under § 706.22(d)(1) or (3).

Q16. Does § 706.24 require that companies submit detailed reports on their methods of meeting the pay standard by February 15, 1979?

A. No. Companies are asked only to outline how they plan to identify their reporting units, and to identify briefly what method(s) of pay calculation that they plan to use.

C. Exceptions

Q1. Should a company seek a determination under § 706.31(a)(10) if it had or is part of a consolidated company which had net sales or revenues in excess of $500 million in its last fiscal year and intends to apply an exception to the pay standard?

A. Yes. § 706.31 applies to exceptions to the pay standard as well as the price standard.

Q2. Does § 706.31(a)(2) apply to any employee unit, regardless of size?

A. No. A company need not seek a determination from the Council under § 706.31(a)(2) if an exception to the pay standard would affect an employee unit of less than 100 employees.

D. Special Investigations

[Reserved]

E. Determination of Noncompliance

Q1. Is it a defense to a Notice of Probable Noncompliance, that a company was exempted from both the price deceleration *and* profit margin standard because its adjusted revenues are less than 25 percent of total company revenue?

A. Yes. While this defense is not listed in § 706.52, it can be raised.

F. Removal from List of Noncomplying Companies

[Reserved]

G. Request for Reconsideration

[Reserved]

MARINE SAFETY INVESTIGATIONS

Notice of Proposed Rulemaking

V 4 4 / 1 8

[4910-14-M]

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 168]

[CGD 77-018]

MARINE SAFETY INVESTIGATIONS

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: The proposed rule requires reports of specified waterfront incidents, accidents, and acts and establishes procedures for investigating them. Until now there have been no regulations implementing the investigatory authority created by the Ports and Waterways Safety Act of 1972. These regulations should assist in determining causes of these events and preventing their recurrence.

DATES: Comments must be received on or before: March 12, 1979.

ADDRESSES: Comments should be submitted to Commandant (G-CMC/81), (CGD 77-018), U.S. Coast Guard, Washington, D.C. 20590. Comments will be available for examination at the Marine Safety Council (G-CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590.

FOR FUTHER INFORMATION CONTACT:

Lieutenant Commander Edward H. Bonekemper, III, Port Safety Branch, Port Safety and Law Enforcement Division, Office of Marine Environment and Systems, U.S. Coast Guard, Room 7319, Department of Transportation, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590 (202-426-1927).

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Each comment should include the name and address of the person submitting the comment, reference the docket number (CGD 77-018), identify the specific section of the proposal to which each comment applies, and include sufficient detail to indicate the basis on which each comment is made. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal. No public hearing is planned, but one may be held at a time and place to be set in a later notice in the FEDERAL REGISTER if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Lieutenant Commander Edward H. Bonekemper, III, Project Manager, Office of Marine Environment and Systems, and Stanley M. Colby, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF THE PROPOSED REGULATIONS

This proposed amendment would implement the investigatory powers established in Section 8 of the Ports and Waterways Safety Act (33 U.S.C. 1227). That statute authorizes the investigation of any incident, accident, or act involving the loss or destruction of, or damage to, any structure on, in, or next to the navigable waters of the United States or on a shore area next to those waters or which affects or may affect the safety or environmental quality of the ports, harbors, or navigable waters of the United States. It also provides for the issuance of subpenas and the payment of witness fees related to these investigations.

These proposed regulations define those incidents, accidents, and acts which must be reported to the Coast Guard and explain who is authorized to initiate an investigation. The powers of an investigating officer are set forth. Also detailed are proposed investigative proceedings, rights of parties in interest, testimony by deposition, and reports of investigation.

Comments are solicited on all the contents of this notice. Of particular value would be comments on the notification requirements, including the related definitions of "shore area," "structure," and "unusual condition."

Specific attention is called to the investigation procedures proposed in §§ 168.12 through 168.36. Commenters may wish to compare these provisions with existing 46 CFR Part 4. Should separate procedures be published in 33 CFR for these facility-related investigations? Or, should a simple cross-reference to 46 CFR Part 4 be used to make those vessel-related investigation procedures applicable to facility-related investigations?

This proposed regulation has been evaluated under the Department of Transportation Policies for Improving Government Regulations published on March 8, 1978 (43 FR 9582). The draft evaluation is available for public review at the above address.

In consideration of the foregoing, it is proposed to amend Chapter I to title 33, Code of Federal Regulations as follows:

By amending Subchapter P by adding a new Part 168 to read as follows:

PART 168—MARINE SAFETY NOTIFICATIONS AND INVESTIGATIONS

Sec.

168.01 Purpose.
168.02 Definitions.
168.03 Notification of incident, accident, or act.
168.09 Contents of notification.
168.12 Initiation of investigation.
168.15 Investigating officer: designation.
168.20 Investigating officer: authority.
168.22 Informal investigation.
168.23 Witnesses and documents.
168.25 Investigative proceedings: attendance by public.
168.27 Investigative proceedings: notice and procedures.
168.30 Investigative proceedings: parties in interest and witnesses.
168.33 Testimony by deposition.
168.36 Report of investigation.

AUTHORITY: 92 Stat. 1476 (Ports and Waterways Safety Act, as amended, 33 USC 1227); 49 CFR 1.46(n)(4).

§ 168.01 Purpose.

The purpose of the regulations under this part is to prescribe procedures for notification and investigation of accidents involving vessels, bridges or other structures on or in the navigable waters of the United States, or certain land structures or shore areas immediately adjacent to those waters in order to determine the cause and circumstances of such accidents. Determining the cause of accidents will aid in preventing their recurrence and will help protect the navigable waters and the resources therein from environmental harm.

§ 168.02 Definitions.

As used in this part:

(a) "Party in interest" means a responsible person and a person that the investigating officer finds to have direct interest in an investigation being conducted under this part.

(b) "Shore area" means a parcel of land any part of which is next to or within 100 yards of the navigable waters of the United States, excluding any part which is more than 1,000 yards from the navigable waters of the United States.

(c) "Structure" means a dock, wharf, pier, marine terminal, refinery, bridge, commercial pipeline, or bulk liquid or bulk liquefied gas facility on, in, or next to navigable waters of the United States or on a shore area.

(d) Unusual condition" means any of the following:

(1) Fire.

(2) Explosion.

(3) A breakaway of a vessel from moorings.

(4) Damage to or rupture of a pipeline, tank, or bulk liquid transfer manifold or loading arm.

(5) The release or discharge of a substance or material that affects or could adversely affect property or the environmental quality of the port, harbor, or navigable waters of the United States.

(e) "Responsible person" means the owner or operator of a structure or person in charge of or at a structure.

§ 168.03 Notification of incident, accident, or act.

Unless there is notification made under 46 CFR 4.05-1 or under Part 153 of this chapter, the responsible person shall immediately notify, by telephone, radio communication, or a similar means of rapid communication, the Captain of the Port of the occurrence of each incident, accident, or act that involves-

(a) Actual physical damage of more than $5,000 to the structure, cargo, and any property on the structure; or

(b) An unusual condition involving or affecting the structure.

§ 168.09 Contents of notification.

The notification to the Captain of the Port under § 168.03 must include the following information:

(a) Structure identification and location.

(b) Description of the incident, accident, or act being reported.

(c) Cargo involed in the incident, accident, or act.

(d) Measures taken or planned to be taken by the responsible person to mitigate the effects of the incident, accident, or act.

(e) The responsible person's name and title.

§ 168.12 Initiation of investigation.

The Commandant, District Commander, or Captain of the Port may initiate an investigation of an incident, accident, or act reportable under § 168.03.

§ 168.15 Investigating officer: designation.

The Commandant, District Commander, or Captain of the Port may designate an investigating officer to conduct the investigation of any incident, accident, or act under this part to determine in each case—

(a) The cause;

(b) If there is evidence that any failure of material or safety equipment was a contributing factor; and

(c) If there is evidence that any violation of federal law or regulation occurred.

§ 168.20 Investigating officer: authority.

The investigating officer may—

(a) Determine who is a party in interest to the incident, accident, or act;

(b) Issue subpenas for the attendance of witnesses and the production of documents and other evidence;

(c) Conduct investigation proceedings; and

(d) Take testimony by deposition.

§ 168.22 Informal investigation.

The investigating officer may conduct an informal investigation. This informal investigation may constitute the entire investigation or it may lead to investigative proceedings.

§ 168.23 Witnesses and documents.

(a) Witness fees are payable in accordance with 46 CFR Subpart 4.11.

(b) In case of refusal to obey a subpena issued to any person, the District Commander may request the Attorney General to invoke the aid of the appropriate district court of the United States to compel compliance.

§ 168.25 Investigative proceedings: attendence by the public.

(a) The public may attend investigative proceedings conducted by the investigating officer, except those concerned with evidence of a classified nature affecting national security.

(b) No person may interfere with the form and manner of conducting the investigative proceedings.

§ 168.27 Investigative proceedings: Notice and procedures.

(a) The investigating officer gives reasonable notice of the time and place of the investigative proceedings to each party in interest.

(b) The investigating officer opens the investigative proceedings by announcing the statutory authority for the proceedings and by advising parties in interest of their rights.

(c) Investigative proceedings are administrative and adherence to the formal rules of evidence is not mandatory.

§ 168.30 Investigative proceedings: parties in interest and witnesses.

(a) Parties in interest in an investigative proceeding may—

(1) Be represented by counsel;

(2) Examine and cross-examine any witnesses; and

(3) Have witnesses and present evidence in their own behalf.

(b) Each witness in an investigative proceeding who is not a party in interest may have a counsel's advice, but counsel may not—

(1) Examine or cross-examine parties in interest or other witnesses; or

(2) Be a participant in the investigative proceeding.

§ 168.33 Testimony by deposition.

(a) A party in interest requesting the investigating officer to take a deposition must apply in writing and supply the following information:

(1) The reasons why the deposition is needed in the investigative proceedings.

(2) The name and address of each witness from whom a deposition is requested.

(3) The matters concerning the investigation upon which the party in interest expects the witness to testify.

(4) The proposed time and place for the taking of the deposition.

(b) If the investigating officer grants the request for a deposition, the investigating officer gives an order to each party in interest that contains the following:

(1) The name of the witness whose deposition is required.

(2) The time period during which interrogatories may be submitted.

(3) The time and place of the taking of the deposition.

(4) The name of the person taking the deposition.

(c) Within the time under paragraph (b)(2) of this section, the party in interest desiring the deposition must submit a list of interrogatories for the person who is to testify.

(d) After the party in interest submits interrogatories under paragraph (c) of this section, any other party in interest or the investigating officer may submit a list of cross-interrogatories.

(e) Each deposition must be taken before a person who is authorized to administer oaths by the laws of the United States.

(f) As soon as practicable after the receipt of a deposition, the investigating officer rules on the admissibility of the deposition or any part of the deposition.

§ 168.36 Report of investigation.

At the conclusion of the informal investigation or investigative proceedings, the investigating officer submits a report that contains—

(a) The facts as determined by the investigating officer;

(b) The investigating officer's conclusions; and

(c) The investigating officer's recommendations.

(92 Stat. 1476 (Ports and Waterways Safety Act, as amended 33 USC 1227); 49 CFR 1.46(n)(4).)

Dated: January 17, 1979.

J. B. HAYES,
Admiral, U.S. Coast Guard,
Commandant.

The authentic text behind the news . . .

The Weekly Compilation of PRESIDENTIAL DOCUMENTS

Administration of Jimmy Carter

This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, personnel appointments and nominations, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue contains an Index of Contents and a Cumulative Index to Prior Issues.

Separate indexes are published quarterly, semiannually, and annually. Other features include lists of acts approved by the President and of nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements.

Published by Office of the Federal Register, National Archives and Records Service, General Services Administration

Title 5—Administrative Personnel

CHAPTER I—OFFICE OF PERSONNEL MANAGEMENT

PART 213—EXCEPTED SERVICE

Entire Executive Civil Service

AGENCY: Office of Personnel Management.

ACTION: Final Rule.

SUMMARY: Positions of readers for blind employees and interpreters for deaf employees, which involve only provision of reading or interpreting services, are excepted under Schedule A because it is impracticable to examine for them. Persons employed under this Schedule A authority may not be assigned other duties.

EFFECTIVE DATE: January 11, 1979.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3102 (ll) is added as set out below:

§ 213.3102 Entire Executive Civil Service.

• • • • • •

(ll) Positions of readers for blind employees and interpreters for deaf employees, filled on a full-time, part-time, or intermittent basis. Persons employed under this authority may not perform work which is not directly related to the provision of reading or interpreting services.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218)

OFFICE OF PERSONNEL MANAGEMENT,
JAMES C. SPRY,
Special Assistant to the Director.

[FR Doc. 79-2401 Filed 1-25-79; 8:45 am]

[6325-01-M]

PART 213—EXCEPTED SERVICE

Department of Commerce

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: This amendment excepts under Schedule C a position at the Department of Commerce because it is confidential in nature. Appointments may be made to this position without examination by the Office of Personnel Management. (Previously approved but inadvertently not published.)

EFFECTIVE DATE: December 13, 1978.

FOR FURTHER INFORMATION CONTACT:

On Position Authority Contact: Peter Gaul, Office of Personnel Management, 202-632-7676. On Position Content Contact: Dave Harrington, Department of Commerce, 202-377-5740.

Accordingly, 5 CFR 213.3314(x)(3) is added as set out below:

§ 213.3314 Department of Commerce.

• • • • • •

(x) *Office of the Assistant Secretary for Communicatons and Information.* • • •

(3) Deputy Assistant Secretary of Commerce.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218)

OFFICE OF PERSONNEL MANAGEMENT,
JAMES C. SPRY,
Special Assistant to the Director.

[6325-01-M]

PART 213—EXCEPTED SERVICE

Department of Agriculture, Department of Energy

AGENCY: Office of Personnel Management.

ACTION: Final Rule.

SUMMARY: This amendment excepts under Schedule C certain positions at the Department of Agriculture and the Department of Energy because they are confidential in nature. Appointments may be made to these positions without examination by the Office of Personnel Management.

EFFECTIVE DATE: January 11, 1979.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3313(i)(4) and 213.3331(i)(3) are added as set out below:

§ 213.3313 Department of Agriculture.

• • • • • •

(i) *Commodity Credit Corporation.* • • •

(4) One Special Assistant and two Confidential Assistants to the President.

• • • • • •

§ 213.3331 Department of Energy.

• • • • • •

(i) *Office of the Assistant Secretary for Environment.* • • •

(3) One Confidential Assistant (Secretary) to the Deputy Assistant Secretary.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218)

PART 213—EXCEPTED SERVICE

Department of Commerce, U.S. International Trade Commission, Department of Transportation

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: This amendment (1) excepts under Schedule C a certain position at the Department of Commerce because it is confidential in nature, (2) changes the title of a position at the International Trade Commission from Staff Assistant to Confidential Assistant to a Commissioner to more appro-

V 4 4 / 1 9

priately reflect the duties of the position and (3) changes the title of a position at the Department of Transportation from Special Assistant to the Deputy Under Secretary to Special Assistant to the Assistant Secretary for Budget and Programs to reflect the current title of the Superior. Appointments may be made to these positions without examination by the Office of Personnel Management.

EFFECTIVE DATE: December 29, 1978.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3314(a)(16) is added and 213.3339(b) and 213.3394 (a)(15) are amended as set out below:

§ 213.3339 Department of Commerce.

(a) *Office of the Secretary.* • • •

(16) One Private Secretary to the Inspector General.

• • • • • •

§ 213.3314 U.S. International Trade Commission.

• • • • • •

(b) One Staff Assistant (Legal), One Staff Assistant, and one Confidential Assistant to a Commissioner.

• • • • • •

§ 213.3394 Department of Transportation.

(a) *Office of the Secretary.* • • •

(15) One Special Assistant to the Assistant Secretary for Budget and Programs.

[6325-01-M]

PART 213—EXCEPTED SERVICE

General Services Administration

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: This amendment (1) excepts under Schedule C a position at the General Services Administration because it is confidential in nature, and (2) revokes two positions because the need for the positions no longer exists and the positions have been abolished. Appointments may be made to the position without examination by the Office of Personnel Management.

EFFECTIVE DATE: January 4, 1979.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3337(a)(4) is amended and (a)(12) is added as set out below:

§ 213.3337 General Services Administration.

(a) *Office of the Administrator.* • • •

(4) One Confidential Assistant to the Assistant Administrator. • • •

(12) One Assistant to the Administrator.

[6325-01-M]

PART 213—EXCEPTED SERVICE

Department of Health, Education, and Welfare; Department of Energy

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: This amendment (1) excepts under Schedule C a position at the Department of Health, Education, and Welfare because it is confidential in nature and (2) changes the title of a position at the Department of Energy from Special Assistant to the Director, Office of Congressional Affairs, Federal Energy Administration to Staff Assistant to the Director, Office of Congressional Affairs to more appropriately reflect the duties of the position. This position formerly existed at the Federal Energy Administration and was subsequently transferred to the Department of Energy on September 30, 1977. Appointments may be made to these positions without examination by the Office of Personnel Management.

EFFECTIVE DATE: January 9, 1979.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3316(a)(4) is added and 213.3331(m)(6) is amended as set out below:

§ 213.3316 Department of Health, Education, and Welfare.

(a) *Office of the Secretary.* • • •

(4) One Assistant Deputy Under Secretary for Intergovernmental Affairs.

• • • • • •

§ 213.3331 Department of Energy.

• • • • • •

(m) *Office of the Assistant Secretary for Intergovernmental and Institutional Relations.* • • •

(6) Six Staff Assistants, Congressional Affairs.

[6325-01-M]

PART 213—EXCEPTED SERVICE

Inter-American Foundation, Department of Energy, and Department of Transportation

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: This amendment (1) excepts under Schedule C certain positions at the Inter-American Foundation, Department of Energy and Department of Transportation because they are confidential in nature and (2) revokes a position at the Department of Energy because it has been vacant for more than 60 days. Appointments may be made to these positions without examination by the Office of Personnel Management.

EFFECTIVE DATE: January 12, 1979.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3320 and 213.3394(f)(7) are added, 213.3331(m)(5) is amended and 213.3331(m)(4) is revoked as set out below:

§ 213.3320 Inter-American Foundation.

(a) One Confidential Assistant (Andean Region).

(b) One Confidential Assistant (Caribbean/Brazil Region).

(c) One Confidential Assistant (Mexico/Central America/Panama Region).

(d) One Confidential Assistant (Southern Cone Region).

• • • • • •

§ 213.3331 Department of Energy.

• • • • • •

(m) *Office of the Assistant Secretary for Intergovernmental and Institutional Relations.* • • •

(4) [Revoke].

(5) One Staff Assistant, one Staff Assistant, State Relations, and one Staff Assistant, City and County Relations, to the Director, Office of Intergovernmental Affairs.

• • • • • •

§ 213.3394 Department of Transportation.

• • • • • •

(f) *Urban Mass Transportation Administration.* • • •

(7) One Special Assistant for Special Projects to the Administrator.

[6325-01-M]

PART 213—EXCEPTED SERVICE

Department of Labor

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: Part-time and intermittent positions at grades GS-6 and below in the Bureau of Labor Statistics involved in data collections for the Consumer Price Index may be filled by new appointment under Schedule A through December 31, 1983, because it continues to be impracticable to examine for them. Persons employed in these positions may work up to 1,600 hours in a service year.

EFFECTIVE DATE: January 10, 1979.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3115(b)(1) is amended as set out below:

§ 213.3115 Department of Labor.

• • • • • •

(b) *Bureau of Labor Statistics.* (1) Not to exceed 500 positions involving part-time and intermittent employment for field survey and enumeration work in the Bureau of Labor Statistics. This authority is applicable to positions where the salary is equivalent to GS-6 and below. Employment under this authority may not exceed 1,600 work hours in a service year. No new appointment may be made under this authority after December 31, 1983.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218)

OFFICE OF PERSONNEL MANAGEMENT,
JAMES C. SPRY,
Special Assistant to the Director.

[6320-01-M]

PART 213—EXCEPTED SERVICE

Merit Systems Protection Board, and Office of Personnel Management

AGENCY: Office of Personnel Management.

ACTION: Final rule.

SUMMARY: The purpose of this amendment is to list the Schedule C positions currently existing at both the Merit Systems Protection Board and the Office of Personnel Management. These positions had been previously excepted under Schedule C but were not listed in the FEDERAL REGISTER prior to this time.

EFFECTIVE DATE: January 1, 1979.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3390(a), (b), (c) and 213.3391(a), (b) are added as set out below:

§ 213.3390 Merit Systems Protection Board.

(a) Two Special Assistants and one Administrative Assistant to the Chairperson.

(b) One Policy Advisor and one Administrative Assistant to the Vice-Chairperson.

(c) One Policy Advisor and one Administrative Assistant to the Commissioner.

§ 213.3391 Office of Personnel Management.

(a) Two Special Assistants and one Confidential Assistant to the Director.

(b) One Policy Advisor and one Administrative Assistant to the Deputy Director.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218)

OFFICE OF PERSONNEL MANAGEMENT,
JAMES C. SPRY,
Special Assistant to the Director.

[3410-05-M]

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 7—SELECTION AND FUNCTIONS OF AGRICULTURAL STABILIZATION AND CONSERVATION COUNTY AND COMMUNITY COMMITTEES

Revision

AGENCY: Department of Agriculture.

ACTION: Final rule.

SUMMARY: These regulations are a complete revision of the existing regulations governing the selection and functions of Agricultural Stabilization

JAN 26 1979 UMI

V 4 4 / 1 9 J A 2 6 7 9 UMI

and Conservation county and community committees. The parts of these regulations relating to the suspension and removal of county committee members, community committee members, county executive directors, and other county employees have been extensively revised to eliminate repetition and to provide specific procedures to be followed in such cases, including the right to a hearing, cross-examination of witnesses, and examination of relevant evidence.

EFFECTIVE DATES: The regulations are effective when published.

FOR FURTHER INFORMATION CONTACT:

Alfred Oberg, Management Analyst, TSS-ASCS, Room 4720 South Building, Washington, D.C. 20013, (202) 447-6865.

SUPPLEMENTARY INFORMATION: On April 21, 1977, there was published in the FEDERAL REGISTER (42 FR 20628) proposed regulations revising existing regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

Since these regulations were developed prior to the issuance of Departmental procedures under Executive Order 12044, such procedures are not applicable. However, interested persons were invited to submit written comments to these regulations within thirty days after publication pursuant to 5 U.S.C. 553, and other means to obtain public participation were utilized. There were no adverse comments received. Twenty replies were received commenting on the proposed regulations. As a result of these comments, some editorial changes have been made and some changes were made to the procedures to follow in cases involving the suspension or removal from office or employment of county and community committee members, county executive directors, and other county employees. Such changes provide that hearings in connection with determinations of the Deputy Administrator are to be conducted by the Deputy Administrator or his or her designee.

Accordingly, 7 CFR Part 7 is revised to read as follows:

PART 7—SELECTION AND FUNCTIONS OF AGRICULTURAL STABILIZATION AND CONSERVATION COUNTY AND COMMUNITY COMMITTEES

NAMES OF COMMITTEES

Sec.
7.1 Local or community committee.

AUTHORITY: The provisions of this Part 7, issued under secs. 4, 8, 49 Stat. 164, 1149, as amended; 16 U.S.C. 590d, 590h(b).

NAMES OF COMMITTEES

§ 7.1 Local or community committee.

Each local committee elected under the provisions of this part shall be known as the Agricultural Stabilization and Conservation Community Committee, referred to in this part as the "community committee."

§ 7.2 County committee.

Each county committee elected under the provisions of this part shall be known as the Agricultural Stabilization and Conservation County Committee, referred to in this part as the "county committee."

PURPOSE OF COMMITTEES

§ 7.3 Purpose.

The purpose of the county committee shall be to direct the administration of sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act of 1936, the Agricultural Adjustment Act of 1938, the Agricultural Acts of 1949, and 1970, the Agriculture and Consumer Protection Act of 1973, the Food and Agricultural Act of 1977, and any amendments to such acts, such other acts of Congress as the Secretary of Agriculture or the Congress may designate, and to perform such other functions as may be designated by the Secretary. This shall be done through community committees and county committee members and other personnel responsible to the county committee, and in accordance with applicable laws, regulations, and official instructions.

SELECTION OF COMMITTEES

§ 7.4 Method.

County and community committees shall be elected in accordance with the provisions of this part.

§ 7.5 Who may vote for community committee members and delegates.

(a) Any person, regardless of race, color, religion, sex, age, or national origin, who has an interest in a farm as owner, tenant, or sharecropper and who is of legal voting age in the State in which the farm is located, and any person not of such legal voting age who is in charge of the supervision and conduct of the farming operations on an entire farm, shall be eligible to vote for community committee members and delegates in the community in which he/she has such an interest and such person is eligible to participate with respect to the farm in any program administered by the county committee.

(b) In any State having a community property law, the spouse of a person who is eligible to vote under paragraph (a) of this section shall also be eligible to vote.

(c) The term "person" as used in this section means an individual, partnership, association, corporation, estate, trust, other business enterprise or legal entity, or a State, political subdivision of a State or any agency thereof.

(d) The vote may be cast by:

(1) An individual for himself/herself.

(2) A duly authorized partner of a partnership for the partnership.

(3) A duly authorized officer of a corporation for the corporation.

(4) A guardian who is legally appointed for a minor or incompetent person.

(5) A duly authorized representative of any other eligible voter entity, except an individual.

(e) Each county office shall have a prepared list of eligible voters for each community within the county available for public inspection in advance of the election.

§ 7.6 Restrictions on voting.

Each eligible voter shall be entitled to only one vote on any one ballot in any election held in any one community. If the eligible voter has an interest in a farm in more than one community in the county, such voter shall not be entitled to vote in more than one such community in the county. There shall be no voting by proxy.

§ 7.7 Determination of elective areas.

Each county shall be divided into local administrative areas, referred to in this subpart as "communities." The term "county" in Alaska shall be the area so designated by the State committee. The boundaries of the communities shall be fixed by the State committee after considering any recommendations by the county committee. No such community shall include more than one county or parts of different counties. The county committee shall give public notice of the community boundaries in advance of the election.

§ 7.8 Calling of elections.

(a) Each election of community committee members shall be held on a date or within a period of time fixed by the Deputy Administrator, State and County Operations, (hereafter referred to as Deputy Administrator) or his/her designee, Agricultural Stabilization and Conservation Service which will in his/her judgment best afford full opportunity for participation therein by all persons eligible to vote: *Provided*, That such date or period of time shall fall within a period beginning on or after July 1 and ending not later than December 30, each year. Each such election shall be held in accordance with detailed instructions issued by the Deputy Administrator which shall be available for examination in each county office.

(b) If the number of eligible voters voting in any election of community committee members is so small that the State committee determines that the result of the election does not represent the views of a substantial number of eligible voters, it shall declare the election void and call a new election. If it is determined by the State committee that the election for any position on a community committee has not been held substantially in accordance with official instruction, the State committee shall declare such election void and call a new election.

§ 7.9 Conduct of community elections.

(a) The county committee serving at the time shall be responsible for the conduct of the community elections for the election of community committees and delegates to the county convention in accordance with official instructions issued by the Deputy Administrator.

(b) To prevent endorsement of any nongovernmental function either directly or indirectly by association or implication, community elections shall not be associated with or held in conjunction with any other election or referendum conducted for any other purpose.

(c) The county committee shall give advance public notice of how, when, and where eligible voters may vote, when and where the votes will be counted, and the right to witness the vote counting.

(d) All nominees shall be notified in writing of the outcome of the election by the county executive director.

§ 7.10 Conduct of county convention.

(a) The county committee serving at the time shall be responsible for designating the place at which the county convention for the election of the county committee will be held and for the conduct of the convention in accordance with official instructions issued by the Deputy Administrator which shall be available for examination in each county office.

(b) To prevent endorsement of any nongovernmental function either directly or indirectly by association or implication, county conventions shall not be associated with or held in conjunction with any other election or referendum conducted for any other purpose.

(c) The county committee shall give advance public notice of the county convention. It shall be open to the public.

(d) The county executive director shall notify in writing all newly elected county committee members, alternates, and county committee members with unexpired terms, of the election results.

§ 7.11 Election of community committee and delegates to the county convention.

(a) Except as provided in paragraph (c) of this section, the eligible voters in a community shall elect annually a community committee composed of three members and shall elect first and second alternates to serve as acting members of the community committee in the order elected in case of the temporary absence of a member, or to become a member of the community committee in the order elected in case of the resignation, disqualification, removal, or death of a member. An acting member of the community committee shall have the same duties and the same authority as a member. The election shall be conducted by the mail ballot method in all counties, except that the Deputy Administrator may authorize use of the meeting or polling place method in a specific county where such is deemed justified. Where elections are by mail or by polling place, the county committee shall give advance public notice that nominations may be made by petition. Election shall be by secret ballot and by plurality vote, with each eligible voter having the option of writing in the names of candidates of his/her own choice. Except as provided in paragraph (c) of this section, the three regular members of the community committee shall be the delegates to the county convention and the first and second alternates to the community committee shall also be in that order alternate delegates to the county convention: *Provided, however*, That a person may not serve as delegate if he/she has been a member of the county committee for that county during the 90 days preceding the community election. Failure to elect the prescribed number of alternates at the regular election shall not invalidate such election or require a special election to elect additional alternates.

(b) In any county where there is only one community, the community committee shall be the county committee.

(c) Where there is only one community in the county, one committee person shall be elected to hold offices for a term of 3 years or until his/her successor is elected and qualified, so that the term of office of one committee member will expire in each year. There shall also be elected annually a first alternate and second alternate to serve as acting members in the order elected in case of the temporary absence of a member or to become a member in the order elected in the case of resignation, disqualification, removal, or death of any member of

V 4 4 / 1 9 J A 2 6 7 9 UMI

the committee. In the event an alternate fills a permanent vacancy on the committee, he/she shall assume the unexpired term of the committee member replaced and hold office until the end of that unexpired term. An acting member shall have the same duties and authority as a member.

(d)) The community committee shall select a secretary who shall be either an employee of the county committee or the county agricultural extension agent.

§ 7.12 Election of the county committee.

(a) The delegates elected pursuant to § 7.11(a) shall meet in a convention held before the close of the same calendar year in which they were elected to elect committee members for vacancies on the county committee. The Deputy Administrator may fix the exact date. Each delegate shall be entitled to only one vote on any ballot, and there shall be no voting by proxy. A majority of the delegates so elected and qualified to vote at the time of the convention shall constitute a quorum. A county committee shall consist of three members. Each year one committee member shall be elected to hold office for a term of 3 years or until the successor is elected and qualified, so that the term of office of one committee member will expire in each year.

(b) At each convention, the delegates shall also elect annually a first and second alternate to the county committee to serve as acting members of the committee in the order elected in case of the temporary absence of a member, or to become a member in the order elected in case of the resignation, disqualification, removal, or death of a member of the county committee. In the event an alternate fills a permanent vacancy on the county committee, that person shall thereby assume the unexpired term of the committee member that was replaced. An acting member of the county committee shall have the same duties and authority as a member.

(c) The county committee shall select a secretary who shall be either the county executive director or other employee of the county committee, or the county agricultural extension agent for the county. If the county agricultural extension agent is not selected secretary to the county committee, that person shall be ex officio a member of the county committee but shall not have the power to vote.

§ 7.13 Tie votes.

(a) Tie votes in community committee elections held by mail or polling place method shall be settled by lot. Tie votes in such elections held by the meeting method which cannot be settled by further balloting on the same day shall be settled by lot. In one-community counties, a tie vote in determining the chairperson and vice chairperson which cannot be settled by further balloting on the same day shall be settled by lot.

(b) In the county convention, tie votes which cannot be settled by further balloting on the same day shall be settled by lot.

§ 7.14 Vacancies.

(a) In case of a vacancy in the office of chairperson of a county or community committee, the respective vice chairperson shall become chairperson; in case of a vacancy in the office of vice chairperson, the respective third member shall become vice chairperson; in case of a vacancy in the office of the third member, the respective first alternate shall become the third member; and in case of a vacancy in the office of the first alternate, the respective second alternate shall become the first alternate: *Provided,* That when unanimously recommended by the three members of the county committee as constituted under this paragraph and paragraph (c) of this section and approved by the State committee, the offices of chairperson and vice chairperson of the county committee may be filled from such membership without regard to the order of succession prescribed in this paragraph or the action of the delegates to the county convention.

(b) In case of a vacancy in the panel of delegates to the county convention, the respective alternates shall act as delegates.

(c) In the event that a vacancy, other than one caused by temporary absence, occurs in the membership of the county committee and no alternate is available to fill the vacancy, the State committee shall call a meeting of the delegates of the county convention to elect persons to fill such vacancies as exist in the membership of the county committee and in the panel of alternates, except as provided in § 7.29.

(d) In the event that a vacancy, other than one caused by temporary absence, occurs in the membership of the community committee and no alternate is available to fill the vacancy, a special election shall be held to fill such vacancies as exist in the membership and in the panel of alternates.

§ 7.15 Appeals.

(a) Any eligible voter in the county may appeal to the county committee in writing or in person, or both:

(1) The eligibility or ineligibility of persons to vote,

(2) The eligibility of persons to hold office, and

(3) The validity of the community committee elections. Such appeal must be made within 15 days of the election date, except that appeals on a determination of eligibility of a person nominated by petition must be made within 7 days of the date of notification of ineligibility.

(b) Any eligible voter in the county may appeal to the State committee in writing, in person, or both:

(1) A county committee decision on an election appeal, and

(2) The validity of a county convention. An appeal of a county committee decision must be made within 15 days of the notification of the decision. An appeal on the validity of a county convention must be made within 15 days of the county convention.

ELIGIBILITY REQUIREMENTS

§ 7.16 County committee members, community committee members, and delegates.

To be eligible to hold office as a county committee member, a community committee member, a delegate, or an alternate to any such office, a person must:

(a) Be eligible to vote in the county in which the election is held if proposed for county committee member or alternate and in the community in which the election is held if proposed for community committee member or alternate;

(b) Be residing in the county in which the election is held if proposed for county committee member; and unless waived by the State committee, be residing in the community in which the election is held if proposed for community committee member: *Provided, however,* That in cases where a State line, or a county line or community boundary runs through a farm, eligible persons residing on such farm may hold office in the county or community in which the farm has been determined to be located for program participation purposes;

(c) Not be ineligible under § 7.28;

(d) Not have been dishonorably discharged from any branch of the armed services; not have been removed for cause from any public office; not have been convicted of any fraud, larcency, embezzlement, or felony; unless any such disqualification is waived by the State committee or the Deputy Administrator;

(e) Not have been removed as a county committee member, community committee member, delegate, alternate to any such office, or as an employee for failure to perform the duties of the office, or committing, or attempting, or conspiring to commit fraud, or incompetency, or impeding the effectiveness of any program administered in the county, or refusal to carry out or failure to comply with the Department's policy relating to equal opportunity and civil rights, including the equal employment policy, or interfering with others in carrying out such policy, or for violation of official instructions, unless such disqualification is waived by the State committee or the Deputy Administrator;

(f) Not have been disqualified for future service because of a determination by a State committee that during previous service as a county committee member, community committee member, delegate, alternate of any such office, or as an employee, he/she failed to perform the duties of his/her office or employment, or he/she committed, attempted, or conspired to commit fraud, or he/she impeded the effectiveness of any program administered in the county, or refused to carry out or failed to comply with the Department's policy relating to equal opportunity and civil rights, including the equal employment policy, or interfered with others in carrying out such policy, or violated official instructions, unless such disqualification is waived by the State committee or the Deputy Administrator;

(g) Not be during the term of office a full-time employee of the U.S. Department of Agriculture;

(h) If the office is that of county committee member, not be during the term of office a sales agent or employee of the Federal Crop Insurance Corporation;

(i) If the office is that of delegate to the county convention, not have been a county committee member for that county during the 90 days preceding the community elections;

(j) If the office is that of county committee member, not be serving as a county committee member with one or more years following the current election remaining in the term of office;

(k) If the office is that of county committee member, not have served three consecutive terms as county committee member just prior to the current election: *Provided, however,* That any partial term served by an alternate who filled a permanent vacancy on the county committee, shall not count toward this three term limitation. The tenure of office of any county committee member, community committee member, delegate, or alternate to any such office, shall be terminated as soon as any such person becomes ineligible for office under the provisions of this section.

§ 7.17 All other personnel.

(a) The county executive director or any other employee must not be ineligible under § 7.28.

(b) The county executive director and other employees must not have been dishonorably discharged from any branch of the armed services, or not have been removed for cause from any public office, or not have been convicted of any fraud, larceny, embezzlement, or felony, unless any such disqualification is waived by the State committee or the Deputy Administrator.

(c) The county executive director or any other employee must not have been removed as a county committee member, community committee member, delegate, alternate to any such office, county executive director, or other employee for failure to perform the duties of the office, or committing, or attempting, or conspiring to commit fraud, incompetency, or impeding the effectiveness of any program administered in the county, or refusal to carry out or failure to comply with the Department's policy relating to equal opportunity and civil rights, including equal employment policy or interfering with others in carrying out such policy, or for violation of official instructions, unless such disqualification is waived by the State committee or the Deputy Administrator.

(d) The county executive director or any other employee must not have been disqualified for future employment because of a determination by a State committee that during previous service as a county committee member, community committee member, delegate, alternate to any such office, or as an employee, he/she failed to perform the duties of his/her office or employment; or committed, attempted, or conspired to commit fraud; or impeded the effectiveness of any program administered in the county; or refused to carry out or failed to comply with the Department's policy relating to equal opportunity and civil rights, including the equal employment policy; or interfered with others in carrying out such policy; or violated official instructions, unless such disqualification is waived by the State committee or the Deputy Administrator.

(e) The tenure of employment of any county executive director or other employee shall be terminated as soon as any such person becomes ineligible for employment under the provisions of this section.

§ 7.18 Dual office.

(a) *County committee membership.* A member of the county committee may not be at the same time:

(1) A member of a community committee;

(2) A delegate to a county convention;

(3) The secretary to the county committee;

(4) A member of the State committee; or

(5) County executive director or any other county office employee.

(b) *Community committee membership.* A member of the community committee may not be at the same time:

(1) A member of a county committee;

(2) The secretary to the county committee;

(3) A member of the State committee; or

(4) County executive director or regular county office employee.

(c) *Delegate to the county convention.* A delegate to the convention may not be a member of the State committee.

TERMS OF OFFICE

§ 7.19 County and community members.

The term of office of county and community committee members and alternates to such office shall begin on a date fixed by the Deputy Administrator, which shall be after their election and not later than the first day in the next January: *Provided, however,* That before any such county committee members or alternate county committee members may take office they shall sign an oath of office pledge that they will faithfully, fairly, and honestly perform to the best of their ability all of the duties devolving on them as committee members. A term of office shall continue until a successor is elected and qualified as provided in §§ 7.11 and 7.12.

§ 7.20 Delegates to the county convention.

The terms of office of delegates and alternates to the county convention shall begin immediately upon their election and shall continue until their respective successors have been elected and qualified.

DUTIES

§ 7.21 County committee.

The county committee, subject to the general direction and supervision of the State committee, and acting through community committee members and other personnel, shall be generally responsible for carrying out in the county the agricultural conservation program, the price support programs as assigned, the acreage allotment and marketing quota programs, the wool incentive payment program, and the disaster provisions under the feed grain, wheat, cotton and rice programs, formulated pursuant to the acts of Congress specified in § 7.3, and any other program or functions assigned to it by the Secretary of Agriculture. In so doing, the committee shall:

(a) Enter into leasing agreements for such office space as needed in accordance with prescribed procedures:

(b) Employ the county executive director, subject to standards and qualifications furnished by the State committee, to serve at the pleasure of the

V 44 / 19

county committee, except that incumbent directors shall not be removed other than under the provisions of § 7.29, until all members of the county committee have been in office for at least 90 days: *Provided, also,* That there shall be no employment discrimination due to race, religion, color, sex, age, or national origin. The county executive director may not be removed under this paragraph for advocating or carrying out the Department's policy on equal opportunity and civil rights, including the equal employment policy, and in the event it is claimed that dismissal is for such reasons, the dismissal shall not become effective until the State committee and the Deputy Administrator have determined that dismissal was not because of such reasons;

(c) Direct the activities of the community committees elected in the county;

(d) Pursuant to official instructions, review, approve, and certify forms, reports, and documents requiring such action under such instructions;

(e) Recommend to the State committee needed changes in boundaries of communities;

(f) Make available to farmers and the public, information concerning the objectives and operations of the programs administered through the county committee;

(g) Make available to agencies of the Federal Government and others information with respect to the county committee activities in accordance with official instructions issued;

(h) Give public notice of the designation and boundaries of each community within the county not less than 50 days prior to the election of community committee members and delegates;

(i) Direct the giving of notices in accordance with applicable regulations and official instructions;

(j) Recommend to the State committee desirable changes in or additions to existing programs;

(k) Conduct such hearings and investigations as the State committee may request;

(l) Perform such other duties as may be prescribed by the State committee.

§ 7.22 Chairperson of the county committee.

The chairperson of the county committee or the person acting in his/her stead shall preside at meetings of the county committee, certify such documents as may require his/her certification, and perform such other duties as may be prescribed by the State committee.

§ 7.23 Community committee.

The community committee shall:

(a) Assist the county committee in carrying out programs assigned to it;

(b) Inform farmers concerning the purposes and provisions of programs being administered in the county by the county committee;

(c) Assist in arranging for and conducting necessary community meetings; and

(d) Perform such other duties as may be assigned to it by the county committee.

§ 7.24 Chairperson of the community committee.

The chairperson of the community committee or the person acting in his/her stead shall preside at meetings of the community committee, and perform such other duties as may be assigned to him/her by the county committee.

§ 7.25 Delegate to the county convention.

Each delegate shall meet with other delegates in a county convention within a period of time fixed by the Deputy Administrator and at the place designated by the county committee to elect county committee members for the county.

§ 7.26 County executive director.

The county executive director shall:

(a) Execute the policies established by the county committee and be responsible for the day-to-day operations of the county office;

(b) Employ the personnel of the county office, in accordance with standards and qualifications furnished by the State committee, to serve at his/her pleasure: *Provided, however,* That there shall be no employment discrimination due to race, religion, color, sex, age, or national origin. An employee may not be removed under this paragraph for advocating or carrying out the Department's policy on equal opportunity and civil rights, including the equal employment policy, and in the event it is claimed that dismissal is for such reason, the dismissal shall not become effective until the State committee and the Deputy Administrator have determined that dismissal was not because of such reason;

(c) Receive, dispose of, and account for all funds, negotiable instruments, or property coming into the custody of the county committee;

(d) Serve as counsellor to the county convention chairperson on election procedures; and

(e) Supervise, under the direction of the county committee, the activities of the community committees elected in the county.

PRIVATE BUSINESS ACTIVITY AND CONFLICTS OF INTEREST

§ 7.27 All personnel.

(a) No county committee member, community committee member, delegate, alternate to any such office, or any person employed in the county office shall at any time use such office or employment to promote any private business interest.

(b) County committee members, community committee members, delegates, or alternates, and any person employed in the county office shall be subject to the official instructions issued with respect to conflicts of interest and proper conduct.

POLITICAL ACTIVITY

§ 7.28 All personnel.

(a) No person may be a member of the county governing body or hold a Federal, State, or county office filled by an election held pursuant to law or be employed by any such office and also hold office as a county committee member, community committee member, delegate, alternate to such office, or be employed in any capacity, except that members of school boards, soil conservation district boards, weed control district boards, or of similar boards are not ineligible to hold office or employment under this paragraph solely because of membership on such boards.

(b) No person may be a candidate for membership on the county governing body or for any Federal, State, or county office filled by an election held pursuant to law and hold office as a county committee member, community committee member, delegate, alternate to any such office, or be employed in any capacity, except, that candidates for school boards, soil conservation district boards, irrigation district boards, drainage district boards, weed control district boards, or for similar boards are not ineligible to hold office or employment under this paragraph solely because of candidacy for such boards.

(c) No person may be an officer, employee, or delegate to a convention of any political party or political organization and hold office as a county committee member, community committee member, delegate, alternate to any such office, or be employed in any capacity.

(d) The tenure of office of any county committee member, community committee member, delegate, alternate to any such office, or the employment of any employee, shall be automatically terminated as soon as any such person becomes ineligible for office of employment under the provisions of paragraph (a), (b), or (c) of this section.

(e) No county committee member, community committee member, delegate, or alternate to any such office, or any employee shall at any time engage in the following political activities:

JAN 26 1979 UMI

(1) Solicit or receive any contributions (including the sale of tickets) for political party organizations or for a candidate for political office or for any other political purpose in any room or building used for the transaction of any Federal official business, or at any place from any other county committee member, community committee member, delegate, or alternate to any such office or employee.

(2) Use official authority or influence to discharge, remove, demote, or promote any employee, or threaten or promise to so do, for withholding or giving contributions (including the buying or the refusal to buy tickets) for political purposes, or for supporting or opposing any candidate or any political organization in any primary, general, or special election for political office.

(3) Use or direct or permit the use of any official space, equipment, materials, supplies, or personal services either to support or oppose any political office holder, candidate or party, or for any other political purpose.

(f) No county committee member, or alternate to such office, or any employee on any day when entitled to pay for services in performance of duties, and no employee who serves during a continuous period of 90 days or more and has a regular tour of duty established in advance at any time, shall solicit, collect, receive, disburse or otherwise handle contributions of money, pledges, gifts, or anything of value (including the sale of tickets) made for:

(1) Political party organizations;

(2) A candidate for political office in any primary, general, or special election, but excluding such activities on behalf of individual candidates in township and municipal elections;

(3) Any other political purpose.

REMOVAL FROM OFFICE OR EMPLOYMENT FOR CAUSE

§ 7.29 County and community committee members, and delegates to county convention; county office personnel.

(a) Any county committee member, community committee member, delegate to the county convention, an alternate to any such office, county executive director, or any other county employee who fails to perform the duties of his office; or who commits or attempts, or conspires to commit fraud; or is incompetent; or who impedes the effectiveness of any program administered in the county; or who violates the provisions of § 7.28 (e) or (f); or who refuses to carry out or fails to comply with the Department's policy relating to equal opportunity and civil rights, including the equal employment policy; or who interferes with others in carrying out such policy; or who violates official instructions, shall be suspended from his/her office or employment. Any person who is under formal investigation for any of the above-cited reasons may be suspended. The suspension action may be taken by the county executive director with respect to any other employee, or by the county committee or State committee with respect to the county executive director or any other county employee and by the State committee with respect to any county committee member, community committee member, delegate to the county convention, or any alternate to any such office. Any person suspended shall be given a written statement of the reasons for such action and allowed 15 days from the date of mailing of the suspension in which to advise the county committee, or the State committee if it made the suspension, in writing, in person, or both, why he/she should be restored to duty.

(b) The county committee, or county executive director, or the State committee if it made the suspension, following such further investigation as is deemed necessary, shall restore to duty or remove the suspended person; except that, the county committee or county executive director may not restore a suspended person to duty without prior written approval of the State committee, and if such approval is denied shall promptly remove such person. Upon refusal or failure of the county committee or county executive director promptly to remove the suspended person, the State committee shall remove such person. In the event further investigation develops reasons, in addition to those disclosed in the suspension notice, for the action taken, the suspended person shall be given written notification of such additional reasons and allowed 15 days from the date of mailing of the notice of additional reasons for the suspension in which to advise why he/she should be restored to duty. In the event a person under suspension submits his/her resignation, acceptance thereof shall not prevent a determination by the county committee or State committee that he/she would have been removed had he/she remained in the position, and such a determination shall constitute removal within the meaning of §§ 7.16(e) and 7.17(c). The person so removed shall be given written notification of any such determination and the reasons therefor.

(c) Any incumbent, or former county committee member, community committee member, delegate to the county convention, an alternate to any such office, county executive director, or any other county employee who during his/her term of employment fails or failed to perform the duties of his/her employment; or who committed, attempted, or conspired to commit fraud, or was incompetent; or who impeded the effectiveness of any program administered in the county; or who violated the provisions of § 7.28 (e) or (f); or who refused to carry out or failed to comply with the Department's policy relating to equal opportunity and civil rights, including the equal employment policy; or who violated official instructions, may be disqualified for future service or employment by the State committee. Before any such disqualification determination is made, the State committee shall undertake such investigation as it deems necessary, after which the State committee shall give the affected person a written statement of reasons for the proposed disqualification action. Such person shall have 15 days from the date of mailing to advise in writing, in person, or both, why the action should not be taken. If any further investigation develops substantial additional reasons for disqualification, a person involved shall be given a written statement of such reasons and 15 days from the date of mailing in which to respond. The State committee may remove the disqualification for future service or employment only with prior approval of the Deputy Administrator.

(d) Any county committee member, community committee member, delegate to the county convention, or any alternate to any such office, and county executive director, or any other county employee, who, prior to taking his/her present office, committed, or attempted or conspired to commit fraud, or who impeded the effectiveness of any program administered in the county, may be suspended. Any such person who is under formal investigation for any of the above cited reasons may be suspended. The proceedings under this paragraph shall be the same as in paragraph (a) of this section.

(e) If in the event of suspensions or vacancies there are less than two members, including alternates, available to serve on the county committee, the State committee shall designate a person to administer the programs in the county pending the exoneration or removal of those under investigation, and if removed, pending the election of new county committee members and alternates. Such person may be the remaining member or alternate member of the committee if available. Any person named by the State committee in such capacity shall have full authority to perform all duties regularly performed by a duly elected county committee.

§ 7.30 Delegation of authority to Deputy Administrator.

Notwithstanding the authority vested in the State committee, a county committee, and the county ex-

V 4 4 / 1 9

ecutive director by this part, the Deputy Administrator shall have authority to suspend and/or remove or disqualify for future service or employment, any county committee member, community committee member, delegate to the county convention, an alternate to any such office, county executive director, or other county employee, for any and all of the reasons and causes authorizing such suspension, removal, and disqualification by the State committee, the county committee, or the county executive director. Any person suspended, removed or disqualified pursuant to the section shall be given a written statement of the reason for such action and shall be advised of his/her right of review as provided in § 7.31.

§ 7.31 Right of review.

Any person dissatisfied with a determination of the county committee or county executive director may appeal in writing or in person or both, such determination to the State committee. Any person dissatisfied with a determination of the State committee may appeal such determination to the Deputy Administrator. Any person dissatisfied with a determination of the Deputy Administrator made under § 7.30 may request a reconsideration of such determination by the Deputy Administrator. Such appeal or request for reconsideration shall be made within 15 days from the date of the mailing of the determination with respect to which the appeal or request is filed. Except as provided in § 7.32, such appeals and requests for reconsideration shall be determined on an informal basis. The person filing the appeal or request for reconsideration may present reasons, in writing, in person, or both, why the determination should be reversed or modified. Within 60 days after the reasons have been presented, such person shall be notified of the determination on appeal or reconsideration. The notification shall clearly set forth the basis for the determination. The determination of the Deputy Administrator is final and not subject to further administrative review.

§ 7.32 Hearing in connection with appeals and requests for reconsideration to Deputy Administrator.

Any person (hereinafter called the "appellant") filing an appeal with the Deputy Administrator, or a request for reconsideration of a determination made by the Deputy Administrator under § 7.30, is entitled, at his/her election, to a hearing in connection therewith. If the appellant does not request a hearing, the appeal or reconsideration shall be handled in accordance with § 7.31. If the appellant desires a hearing, he/she shall so advise the Deputy Administrator. The hearing shall be conducted by the Deputy Administrator, or his/her designee. The hearing shall be held at the time and place designated by the hearing officer (the Deputy Administrator or his/her designee). The appellant is entitled to appear personally or through or accompanied by a representative. The hearing officer shall conduct the hearing so as to bring out pertinent facts, including the production of pertinent documents. Rules of evidence shall not be applied strictly, but the hearing officer shall exclude irrelevant or unduly repetitious evidence. Information having a bearing on the issues shall be received in evidence. Both the appellant and the agency representatives are entitled to produce witnesses and the appellant and agency representative shall be given an opportunity to cross-examine witnesses. The hearing officer shall inform the witnesses that they are subject to a fine of not more than $10,000 or imprisonment for not more than 5 years or both for making any false statements (18 U.S.C. 1001). The hearing officer shall cause a transcript to be made of the hearing and it shall be made available to the appellant at actual cost.

§ 7.33 Findings, analysis, and recommendations of hearing officer.

If the hearing has been conducted by a designee of the Deputy Administrator, the hearing officer shall, within 60 days from the date of receipt of the transcript transmit to the Deputy Administrator, State and County Operations: (1) the record of the hearing; (2) the findings and analysis of the hearing officer; and (3) his/her recommended determination.

§ 7.34 Determination of the Deputy Administrator.

Within 30 days after receipt of the findings, analysis, and recommendations of the hearing officer, or within 60 days from the date of receipt of the transcript if the Deputy Administrator conducted the hearing, the Deputy Administrator shall make his/her final determination. The notification shall clearly set forth the basis for the determination. The determination of the Deputy Administrator is final and not subject to further administrative review.

CUSTODY AND USE OF BOOKS, RECORDS, AND DOCUMENTS

§ 7.35 Custody.

(a) All books, records, and documents of or used by the county committee in the administration of programs assigned to it, or in the conduct of elections, shall be the property of the United States Department of Agriculture and shall be maintained in good order in the county office.

(b) For polling and mail type elections, ballots shall remain in sealed boxes until the prescribed date for counting. Following the counting of ballots in all types of elections, the ballots shall be placed in sealed containers and retained for 30 days unless otherwise determined by the State committee.

§ 7.36 Use.

The books, records, and documents referred to in § 7.35 shall be available for use and examination:

(a) At all times by authorized representatives of the Secretary of Agriculture, the Administrator, the Deputy Administrator, State and County Operations, and the Deputy Administrator, Management, Agricultural Stabilization and Conservation Service;

(b) By State, county, and community committee members, and authorized employees of the State and county office in the performance of duties assigned to them under this part, subject to any limitations prescribed in official instructions;

(c) At any reasonable time to any program participant insofar as his/her interests under the programs administered by the county committee may be affected, subject to any limitations prescribed in official instructions; and

(d) To any other person only in accordance with official instructions issued.

GENERAL PROVISIONS

§ 7.37 Administrative operations.

The administrative operations of county committees including but not limited to the following, shall be conducted, except as otherwise provided in these regulations, in accordance with official instructions issued.

(a) Annual, sick, and other types of employee leave;

(b) Location and use of county committee office;

(c) Call, conduct, and records of county and community committee meetings.

§ 7.38 Implementation.

Unless specifically provided in this part, the Deputy Administrator, State and County Operations, or the Deputy Administrator, Management, Agricultural Stabilization and Conservation Service, is authorized to issue the official instructions and official procedures referred to herein, implementing the regulations in this part.

§ 7.39 Applicability.

The regulation in this part shall apply to each State of the United States.

J A 2 6 7 9 UMI

§ 7.40 Secretary, Administrator, or Deputy Administrator, not precluded from exercising authority.

Nothing in these regulations shall preclude the Secretary, Administrator, Agricultural Stabilization and Conservation Service, or Deputy Administrator, Agricultural Stabilization and Conservation Service, from administering any or all programs or exercising other functions delegated to the community committee, county committee, State committee, or any employee. In exercising this authority either the Secretary, Administrator, or Deputy Administrator may designate a person or persons of their choice to be in charge with full authority to carry on the programs or other functions without regard to the committee, committees, or their employees for such period of time he/she may deem necessary.

Signed at Washington, D.C., on January 22, 1979.

BOB BERGLAND,
Secretary of Agriculture.

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

[Amendment 30]

PART 210—NATIONAL SCHOOL LUNCH PROGRAM

AGENCY: Food and Nutrition Service, USDA.

ACTION: Final rule.

SUMMARY: This rule amends the National School Lunch Program regulations to require State agencies to include in the State Plan of Child Nutrition Operations the State's criteria for determining schools in need of a School Breakfast Program. By issuing this regulation, USDA is complying with the order issued in *Charette* v. *Bergland*, 457 F. Supp. 1197 (D.R.I. 1978).

EFFECTIVE DATE: January 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Margaret O'K. Glavin, Director, School Programs Division, Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250 (202)447-8130.

SUPPLEMENTARY INFORMATION: Legislation and State Plan guidance require that State agencies provide in their annual State Plans a detailed action program to extend the School Breakfast Program to every school in the State, giving priority to schools identified by the State agency as in need of the Program. In support of the legislation, on November 22, 1977, a proposed rule was published in the FEDERAL REGISTER. As a minimum, priority was to be given to schools in the State:

1. Classified as "Title I schools".
2. With 25 percent or more of the enrollment eligible for free and reduced price meals.
3. Without food service.

The proposed rule was not finalized. This delay resulted from the Department's decision to await a court's ruling on a lawsuit affecting State Plans (*Charette* v. *Bergland*).

Charette v. *Bergland*, the court ruled that at the very least, the State's definition of schools needing the School Breakfast Program or information about participating and nonparticipating schools must be required as part of the State Plan. This final regulation complies with the court's ruling and clarifies the requirements contained in the Department's November 22, 1977 proposal. It requires States to provide in State Plans their criteria for determining schools in need of a School Breakfast Program. As a minimum, the State's criteria will have to include those schools having 25 percent or more of the enrollment eligible for free and reduced price meals. Title I and other available data may be used by States in calculating which schools would meet the State's criteria.

In the near future, the Department plans to issue a comprehensive proposal regarding State Plans of Child Nutrition Operations which is designed to augment this final rule with additional State Plan regulatory requirements. The public will be invited to comment on that proposal. However, to comply with the Court order, the following regulatory amendment is a final rule.

Accordingly, § 210.4a paragraph (b)(3), which had been reserved, will now read as follows:

§ 210.4a State Plan of Child Nutrition Operations.

* * * * *

(b) * * *

(3) The State's criteria for determining schools in need of a School Breakfast Program which as a minimum, shall include schools having 25 percent or more of the enrollment eligible for free and reduced price meals based on Title I or other available information.

* * * * *

(Catalog of Federal Domestic Assistance No. 10.555)

The Food and Nutrition Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Orders 11821 or 11949, or OMB Circular A-107.

Dated: January 22, 1979.

CAROL TUCKER FOREMAN,
Assistant Secretary for Food and Consumer Services.

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 719—RECONSTITUTION OF FARMS, ALLOTMENTS, NORMAL CROP ACREAGE AND PRECEDING YEAR PLANTED ACREAGE

FINAL RULE

AGENCY: Agricultural Stabilization and Conservation Service, Department of Agriculture.

ACTION: Final rule.

SUMMARY: The Agricultural Stabilization and Conservation Service (ASCS) revises the regulations governing the reconstitution of farms, allotments, and incorporates requirements of normal crop acreage and preceding year planted acreage for 1978-79 and subsequent years under any program administered by ASCS through State and county committees. The revised regulations eliminate allotments for wheat, feed grains, and upland cotton while retaining those for tobacco, peanuts and extra long staple cotton. The regulations implement the Food and Agriculture Act of 1977.

EFFECTIVE DATE: January 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Robert Coplin, Production Adjustment Division, Agricultural Stabilization and Conservation Service, USDA, P.O. Box 2415, Washington, D.C. 20013, (202) 447-4541.

SUPPLEMENTARY INFORMATION: The Food and Agriculture Act of 1977 does not provide for crop allotments for wheat, feed grains, and upland cotton. The new Act provides for establishing a farm "normal crop acreage" which is used for the farm participation in agricultural payment programs. Allotments are continued for ELS cotton, peanuts, rice, and tobacco. Since farmers are now requesting reconstitutions for the 1978-1979 crop

V 4 4 / 1 9

years, it is essential this reissue be made effective as soon as possible, and it is hereby determined that it is not possible to comply with the 60-day notice requirements for public rulemaking. Accordingly, these regulations shall become effective upon publication in the FEDERAL REGISTER.

FINAL RULE

The provisions of 7 CFR Part 719 are amended to read as follows:

Sec.
719.1 Applicability.
719.2 Definitions.
719.3 Farm constitution.
719.4 Guides for determining the land constituting a farm.
719.5 County committee action to reconstitute a farm
719.6 Farm corporations and trusts.
719.7 Reconstitution of farm allotments, history acreages, normal crop acreage and preceding year planted acreage.
719.8 Rules for determining allotments, normal crop acreage, and preceding year planted acreage where reconstitution is made by division.
719.9 Rules for determining farm allotments, normal crop acreage, preceding year planted acreage and history acreages where reconstitution is by combination.
719.10 Preservation of cropland and allotment acreage.
719.11 Eminent domain acquisitions.
719.12 Exempting Federal prison farms and Federal wildlife refuges.
719.13 Supervisory authority of State ASC committees.
719.14 Transfer of allotments and Normal Crop Acreage—State public lands.

AUTHORITY: Secs. 375, 378, 379, 52 Stat. 66, as amended, 72 Stat. 995, as amended, 79 Stat. 1211, 7 U.S.C. 1375, 1378, 1379; secs. 601, 602, 706, 79 Stat. 1206, as amended, 1210, 7 U.S.C. 1801 note, 1838, 1305; sec. 105, 84 Stat. 1368, 87 Stat. 230, 7 U.S.C. 1441 note, 7 U.S.C. 1281 note, 91 Stat. 913; sec. 1001, 91 Stat. 950 (7 U.S.C. 1309).

§ 719.1 Applicability.

The provisions of this part apply to reconstitution of farms, allotments, normal crop acreage and preceding year planted acreage for 1978–1979 and subsequent years under any program administered by the Agricultural Stabilization and Conservation Service through State and county committees. The provisions of §§ 719.1 to 719.15 of Title 7 CFR (36 FR 11271, 36 FR 11802, 37 FR 5481, 37 FR 19340, 38 FR 7564, 40 FR 4112, 41 FR 20390 and 41 FR 27374) are superseded.

§ 719.2 Definitions.

In determining the meaning of the provisions of this part, unless the context indicates otherwise, words importing the singular include and apply to several persons or things, words importing the plural include the singular, words importing the masculine gender include the feminine as well, and words used in the present tense include the future as well as the present. The following terms shall have the following meanings:

(a) *Allotment.* Acreage allocated to a farm for a year for ELS cotton, peanuts, rice, or tobacco, pursuant to the Agricultural Adjustment Act of 1938, as amended, the Agricultural Act of 1949, as amended, and the Food and Agriculture Act of 1977.

(b) *Combination.* Consolidation of two or more farms or parts of farms into one farm.

(c) *Committees*—(1) *Community committee.* Persons elected within a community as the community committee under the regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees in Part 7 of Subtitle A of this title.

(2) *County committee.* Persons elected within a county as the county committee under the regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees in Part 7 of Subtitle A of this title, except that for Puerto Rico and the Virgin Islands, the Caribbean Area Agricultural Stabliziation and Conservation Committee shall, insofar as applicable, perform the functions of the State committee.

(c) *State committee.* Persons in a State designated by the Secretary as the Agricultural Stablization and Conservation State committee under section 8(b) of the Soil Conservation and Domestic Allotment Act, as amended, except that for Puerto Rico and the Virgin Islands, the Caribbean Area Agricultural Stablization and Conservation Committee shall, insofar as applicable, perform the functions of the State committee.

(d) *County.* County or parish of a State except that for Alaska, Puerto Rico and the Virgin Islands, county shall be an area designated by the State committee with the concurrence of the Deputy Administrator.

(e) *County Executive Director.* Person employed by the county committee to execute the policies of the county committee and be responsible for day-to-day operations of the ASCS county office or the person acting in such capacity.

(f) *Cropland.* Land which the county committee determines meets any of the following conditions:

(1) Is currently being tilled for the production of a crop for harvest.

(2) Has been tilled and is currently devoted to legumes or grasses which were established by a producer.

(3) Is not currently tilled but can be established that the land has been tilled in a prior year and is suitable for crop production.

(4) Has been tilled and is currently devoted to vineyards, orchards, or one-row shelter belt planting (excluding abandoned orchards or vineyards).

(5) Is preserved as cropland under § 719.10. Land classified as cropland shall be removed from such classifications upon a determination by the county committee that the land is (i) removed from agricultural production; (ii) no longer suitable for production of crops; (iii) devoted to trees (other than orchards or one-row shelter belt plantings) which were planted in the preceding year except that land planted to trees in the fall of the preceding year will retain its cropland classification for the succeeding year; or (iv) no longer preserved as cropland under the provisions of § 719.10 and does not meet the conditions in subparagraphs (1) through (4) of this paragraph.

(g) *Current year.* Calendar year for which the applicable allotment, base acreage, history acreage, normal crop acreage, yields, marketing quota penalties, or other program determinations are established or considered.

(h) *Department.* U.S. Department of Agriculture.

(i) *Deputy Administrator.* Deputy Administrator, or acting Deputy Administrator, State and County Operations, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture.

(j) *Division.* Dividing a farm into two or more farms or parts of farms.

(k) *Farm number.* Serial number assigned to a farm by the county committee for the purpose of identification.

(l) *Federally-owned land.* Land owned by the Federal Government or any department, bureau, or agency thereof, or any corporation whose stock is wholly owned by the Federal Government.

(m) *Landlord.* A person who rents or leases farmland to another person.

(n) *Normal crop acreage.* The total acreage of crops designated in accordance with 7 CFR 792.2.

(o) *OGC representative.* Appropriate Regional Attorney or Attorney-in-Charge, Office of the General Counsel, U.S. Department of Agriculture, or other authorized representative of the Office of the General Counsel.

(p) *Operator.* Person who is in general control of the farming operations on the farm during the program year.

(q) *Owner.* A person who has legal ownership of farmland, including a person who is buying farmland under a purchase agreement.

(r) *Person.* Individual, partnership, association, corporation, estate or trust, or other business enterprise or other legal entity and, whenever applicable, a State, a political subdivision of a State, or any agency thereof.

(s) *Preceding year.* Calendar year immediately preceding the current year.

J A 2 6 7 9

UMI

(t) *Producer.* Person who, as owner, landlord, tenant or sharecropper, is entitled to share in the crops available for marketing from the farm or in the proceeds thereof.

(u) *Reconstitution.* Change in the land constituting a farm as a result of combination or division.

(v) *Representative of the State committee.* Member of the State committee or any employee of the State committee.

(w) *Secretary.* Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority is delegated to act in his stead.

(x) *Sharecropper.* A producer who performs work in connection with the production of a crop under the supervision of the operator and who receives a share of such crop for his labor.

(y) *State Executive Director.* Person employed by the State committee to execute the policies of the State committee and to be responsible for the day-to-day operations of the State ASCS office, or the person acting in such capacity.

(z) *Tenant.* (1) A person usually called a "cash tenant", "fixed-rent tenant", or "standing-rent tenant" who rents land from another for a fixed amount of cash or a fixed amount of a commodity to be paid as rent; or (2) a person (other than a sharecropper) usually called a "share tentant" who rents land from another person and pays as rent a share of the crops or proceeds therefrom. A tenant shall not be considered the farm operator if he does not have control of the farm operation.

(aa) *Representative of the county committee.* A member of the county committee or any employee of the county committee.

§ 719.3 Farm Constitution.

(a) *Farms constituted under prior regulations.* Land which has been properly constituted under prior regulations shall remain so constituted until a reconstitution is required under paragraph (d) of this section.

(b) *Farms constituted for the first time or reconstituted hereafter.* With respect to the constitution and identification of land as a farm for the first time or the reconstitution of farms made hereafter, a farm shall include all land operated by one person as a single farming unit except that it shall not include land under any of the following conditions:

(1) Land under separate ownership unless the owners agree in writing;

(2) Field-rented tracts under a short-term agreement of 1 year or less (such tracts shall remain with the farm of which they are a part);

(3) Land across county lines when the allotments or quotas on such land are restricted to transfer by lease, sale, or by owner, within the county. EXCEPTION: When the land is owned and operated by one person and all such land is contiguous.

(4) Federally-owned land except land acquired by an agency having the right of eminent domain and leased back to the former owner with uninterrupted possession.

(5) Federal- and State-owned wildlife land unless the former owner has possession of the land under a leasing agreement.

(6) Land constituting a farm which is declared ineligible to participate in a program under the regulations governing the program.

(c) *Location of farm for administrative purposes:* (1) If all land in the farm is located in one county, the farm shall be administratively located in such county.

(2) If the land in the farm is located in more than one county, the farm shall be administratively located in either of such counties as the county committees and the farm operator agree. If no agreement can be reached, the farm shall be administratively located in the county (i) where the principal dwelling is situated, or (ii)) where the major portion of the farm is located if there is no dwelling.

(3) Notwithstanding the provisions of subparagraphs (1) and (2) of this paragraph, if the land in the farm is part of an Indian reservation and is operated by a grazing association, the farm may be administratively located in the county where such grazing association has its headquarters if the county committee involved and the farm operator agree to such location, provided the persons using the land do not reside thereon and the geographic features are such that administrative access would be more practical.

(d) *Required reconstitutions.* A reconstitution of a farm either by division or by combination shall be required whenever:

(1) A change has occurred in the operation of the land after the last constitution or reconstitution and as a result of such change the farm does not meet the conditions for constitution of a farm as set forth in paragraph (b) of this section: *Provided,* That no reconstitution shall be made if the county committee determines that the primary purpose of the change in operation is to establish eligibility to transfer allotments subject to sale or lease;

(2) The farm was not properly constituted under the applicable regulations in effect at the time of the last constitution or reconstitution;

(3) An owner requests in writing that his land no longer be included in a farm which is composed of tracts under separate ownership.

(4) The county committee determines that the farm was reconstituted on the basis of false information furnished by the owner or farm operator; or

(5) The county committee determines that the tracts of land included in a farm are not being operated as a single farming unit.

§ 719.4 Guides for determining the land constituting a farm.

(a) *General.* In determining the constitution of a farm, consideration shall be given to provisions such as ownership and operation. A brief explanation of these provisions is outlined in this section to assist committees in properly determining what land is to be included in a farm.

(b) *Ownership.* The county committee shall require specific proof where there is doubt as to ownership.

(c) *Family members.* Land owned by different members of an immediate family living in the same household and operated as a single farming unit shall be considered as being under the same ownership in determining a farm.

(d) *Parent corporations and subsidiaries.* All land which is operated as a single farming unit and which is owned and operated by a parent corporation and subsidiary corporations of which the parent corporation owns more than 50 percent of the value of the outstanding stock (or which is owned and operated by such subsidiary corporations) shall be constituted as one farm.

(e) *Single farming unit.* Land which the committee determines is being operated by one person with cropping practices, equipment, labor, accounting system, and management substantially separate from that of any other unit shall be considered to constitute a single farming unit.

(f) *Operation.* In determining the constitution of a farm, the county committee shall satisfy itself that the operator will be in general control of the farming operations on the farm for the program year.

§ 719.5 County committee action to reconstitute a farm.

Action to reconstitute a farm may be initiated by the county committee, the farm owner, or the operator of the farm. Any request for a farm reconstitution shall be filed with the county committee. The county committee shall act on each proposed reconstitution. All interested operators shall be notified of the action taken by the county committee. All interested owners shall also be notified provided the State committee determines such notification is desirable and this policy

V 4 4 / 1 9

is applicable to all counties in the State. If the proposed reconstitution is approved, the notice shall show the program year in which the reconstitution will become effective for each allotment, normal crop acreage, preceding year planted acreage, and program.

§ 719.6 Farm corporations and trusts.

Whenever the county committee believes a farm corporation(s) or trust(s) is formed primarily for obtaining additional program benefits under Title 7, the farm(s) shall not remain as constituted, or be reconstituted, when owned and operated (without the approval of the State committee and concurrence by the Deputy Administrator) by: (a) A corporation(s) having more than 50 percent of the stock owned by members of the same family living in the same household; (b) corporations having more than 50 percent of the stock owned by stockholders common to more than one corporation; (c) trusts in which the beneficiaries and the trustee are family members living in the same household.

§ 719.7 Reconstitution of farm allotments, history acreages, normal crop acreage and preceding year planted acreage.

(a) *When to reconstitute.* Farms shall be reconstituted as soon as it is determined that the land areas are not properly constituted and, to the extent practicable, shall be based on the facts and conditions existing at the time the change requiring the reconstitution occurred. For each farm reconstituted, the farm allotments, history acreages, normal crop acreage and preceding year planted acreage shall also be reconstituted in accordance with the provisions of this part. County office records shall be corrected as necessary to reflect properly the basic data for each farm as reconstituted.

(b) *Effective date of reconstitutions.* The effective date of the reconstitution shall be as follows:

(1) *Allotment crops, normal crop acreage, preceding year planted acreage.* (i) The reconstitution shall be effective for an allotment crop and other crops included in the normal crop acreage for the current program year if such reconstitution is initiated before such crop is or would have been planted.

(ii) The reconstitution shall be effective for an allotment crop, normal crop acreage, preceding year planted acreage for the current program year (1) if such reconstitution is initiated after such crop has been or would have been planted, and (2) if there was a bona fide change in operation before the planting period; the land involved is owned by one person; and the reconstitution would be required under this part had the facts been known by the county committee before the planting period: *Provided, however,* That where the change in operation was solely the addition of one or more operators, the reconstitution shall not be effective for the current program year if the county committee determines that an adverse effect to the program will result.

(iii) The reconstitution may be made effective for the current program year even though the reconstitution is initiated after the crop has been or would have been planted if the county committee determines that no adverse effect to the program will result and the farm owner(s) and operator(s) agree to make the reconstitution effective for such year.

(2) *Agricultural Conservation Program.* The reconstitution shall not be effective for purposes of the Agricultural Conservation Program (ACP) for the current program year if the county committee has approved cost-sharing for a producer on the farm for the current program year unless (i) the parent farm on which cost-sharing was approved was not properly constituted at the time of approval, or (ii) the county committee determines that some producer on the farm would not be eligible to participate in the ACP if the reconstitution is not made effective.

(3) *Misrepresentation.* Notwithstanding any other provision of this section, if the county committee determines that the farm was or was not reconstituted because of a misrepresentation by a producer, the farm shall be properly reconstituted, and the effective date of such reconstitution for all purposes shall be retroactive to the date the farm was improperly constituted.

(c) *Maximum and minimum provisions, adjustments, and release and reapportionments.* Allotments and normal crop acreage for reconstituted farms resulting from the divisions or combinations of parent farms in accordance with this part are subject to maximum and minimum allotment and normal crop acreage provisions and to adjustments from allotment and normal crop acreage reserves for the commodity and released farm allotments as provided in the regulations governing the determination of allotments for the commodity.

(d) *Continuous application.* Where a farm reconstitution for the current year is made before the current year's allotments, normal crop acreage and preceding year planted acreage are determined, the history acreages and other basic data for the reconstituted farms shall be used to establish the current year's allotments, normal crop acreage and preceding year planted acreage: *Provided,* That where the current year's preliminary allotment on one or more parent farms involved in a proposed combination would be reduced for underplanting, the allotment shall be determined as follows: (1) The current year's allotment for each parent farm shall be established separately, and then (2) the current year's allotment for the combined farm shall be determined by adding the allotments established for the parent farm.

§ 719.8 Rules for determining allotments, normal crop acreage, and preceding year planted acreage where reconstitution is made by Division.

The methods for dividing allotments, normal crop acreage and preceding year planted acreage in order of precedence, when the method applies, are estate, designation by landowner, contribution (including contribution-cropland and contribution-history), cropland, and history.

(a) *Estate method.* The estate method is the proration of the allotments, normal crop acreage and preceding year planted acreage for a parent farm among the heirs in settling an estate. If the estate sells a tract of land before the farm is divided among the heirs, the allotments, normal crop acreage and preceding year planted acreage for the tract shall be determined by using one of the methods provided in paragraphs (b) through (f) of this section. The allotments, normal crop acreage and preceding year planted acreage shall be divided among the heirs in settling an estate by dividing the farm among two or more heirs as follows:

(1) In accordance with a will if the county committee determines that the terms of the will are such that division can reasonably be made by the estate method.

(2) If the provisions of subparagraph (1) of this paragraph are not applicable, the allotments, normal crop acreage and preceding year planted acreage shall be apportioned in the manner agreed to in writing by all interested heirs. An agreement by the administrator or excecutor shall not be accepted in lieu of an agreement by heirs.

(3) If the provisions of subparagraphs (1) and (2) of this paragraph do not apply, the allotments, normal crop acreage and preceding year planted acreage shall be divided pursuant to paragraphs (c) through (f) of this section, as applicable.

(b) *Designation of allotments, normal crop acreage and preceding year planted acreage by landowner.* (1) If the ownership of a tract of land is transferred from a parent farm, the county committee shall at the request of the transferring owner divide the allotments, normal crop acreage and preceding year planted acreage between the parent farm and the transferred tract, or between the applicable tracts if the entire farm is sold to two or more purchasers, in the manner designated by the owner of the parent farm subject to conditions set forth in subparagraph (4) of this paragraph.

(2) If the county committee determines that the allotments, normal crop acreage and preceding year planted acreage cannot be divided in the manner designated by the owner because of the conditions set forth in subparagraph (4) of this paragraph, the owner shall be notified and permitted to revise the designation so as to meet the conditions in subparagraph (4) of this paragraph. If the owner does not furnish a revised designation of allotments, normal crop acreage and preceding year planted acreage within a reasonable time after such notification or if the revised designation does not meet the conditions of subparagraph (4), the county committee shall make the proration of allotments, normal crop acreage and preceding year planted acreage in accordance with paragraphs (c) through (f) of this section.

(3) If a parent farm is composed of tracts under separate ownership, each separately owned tract being transferred in part shall be considered a separate farm and shall be constituted separately from the parent farm using the rules in paragraphs (c) through (f) of this section, as applicable, prior to application of the provisions of this paragraph.

(4) The eligibility conditions that shall be complied with for applying this method of division are:

(i) The interested owners (seller and purchaser) shall file a written memorandum of understanding of the designation with the county committee before the farm is reconstituted and prior to a subsequent transfer of ownership of the land. The heirs of an estate may use this method to designate the allotments, normal crop acreage for allocation to a tract of land sold prior to dividing the parent farm among the heirs in settling an estate: *Provided, however,* That designation by the administrator or executor shall not be accepted in lieu of designation by the heirs.

(ii) Where the land of the parent farm is subject to a deed of trust, lien, or mortgage, the holder of the deed of trust, mortgage, or lien must agree to the division of allotments, normal crop acreage and preceding year planted acreage.

(iii) Neither the tract transferred from the parent farm nor the remaining porton of the parent farm shall receive allotments and normal crop acreage in excess of allotments and normal crop acreage for similar forms in the same area having allotments and normal crop acreage of the commodity or commodities involved and such allotments and normal crop acreage shall be consistent with good land use.

(iv) Where the part of the farm from which the ownership is being transferred was owned for a period of less than 3 years, the provisions of this paragraph shall not be applicable to such transfer unless the county committee finds that the primary purpose of the ownership transfer was not to retain or sell an allotment and normal crop acreage. In the absence of such a finding, and if the farm contains land which has been owned for less than 3 years, that part which has been owned for less than 3 years shall be considered as a separate farm and the allotments and normal crop acreage shall be assigned to that part using the rules in paragraghs (c) through (f) of this section, as applicable. Such apportionment shall be made prior to any designation of allotments and normal crop acreage with respect to the part which has been owned for 3 years or more.

(v) The land for which ownership is being transferred to a Federal, State, or other agency was not or could not have been acquired under the right of eminent domain. If eminent domain is applicable, the provisions of § 719.11 shall apply.

(5) This method is not applicable to burley tobacco and to crop allotments or quotas which are restricted to transfer within the county by lease, sale or by owner, when the land comprising the farm is located in two or more counties.

(6) This method may be applied to land identified as Indian Tribal land when leased by the Tribal Council to two or more producers for the production of allotment and normal crop acreage crops. If the land is leased to two or more producers, the county committee shall at the request of the Tribal Council divide the allotments and normal crop acreage between the applicable tracts in the manner designated by the Council. This use of the method shall not be subject to the conditions of subparagraph (4) of this section.

(c) *Contribution method.* The contribution method for dividing allotments, normal crop acreage and preceding year planted acreage for 1978 is the proration of the parent farm's allotment, normal crop acreage and preceding year planted acreage to each identical tract contributed to the allotments, normal crop acreage and preceding year planted acreage at the time of combination. Unless the provisions of paragraphs (a) or (b) of this section are applicable, this method shall be used to divide allotments and normal crop acreage for a farm which resulted from a combination that became effective during the 6-year period immediately prior to the current year. This method for dividing the allotments, and normal crop acreage shall be used beyond the 6-year period if records are available to show the contribution unless the county committee determines with the concurrence of a representative of the State committee that the use of the contribution method would not result in an equitable distribution of the allotments, normal crop acreage and preceding year planted acreage considering available land, cultural operation, and changes in type of farming. The contribution method shall not be used in cases involving the division for:

(1) Any commodity for which there was no allotment, normal crop acreage or preceding year planted acreage established at the time of combination.

(2) Preceding year planted acreage for 1979 and subsequent years.

(3) Normal crop acreage for 1978.

(d) *Contribution-Cropland or Contribution-History method.* In cases where the allotments, normal crop acreage and preceding year planted acreage are divided by the contribution method pursuant to paragraph (c) of this section and a further division of an identical tract is required, the allotments, normal crop acreage and preceding year planted acreage shall first be apportioned to the identical tracts and then apportioned among the parts of the identical tracts by the cropland or history method pursuant to paragraph (e) or (f) of this section, as applicable.

(e) *Cropland method.* The cropland method for dividing allotments, normal crop acreage and preceding year planted acreage is the proration of allotments, normal crop acreage and preceding year planted acreage to the tracts being separated from the parent farm in the same proration that the cropland acreage for each such tracts bears to the cropland for the parent farm. For rice, the acreage of cropland that is available for the production of rice shall be used to make the proration. The county committee shall verify or redetermine, if considered necessary, the cropland on each of the tracts of the parent farm prior to making the proration. This method shall be used if the provisions of paragraphs (a) through (c) of this section are not applicable unless the county committee determines that a division by the history method would result in allotments, normal crop acreage and preceding year planted acreage more representative of the operation normally carried out on each tract during the respective base period for the commodities. Notwithstanding any other provision of this paragraph, the allotments, normal crop acreage and preceding year planted acreage

UMI

shall be apportioned on the basis of the cropland available for and adapted to the production of the allotment crop, normal crop acreage and preceding year planted acreage on each tract when the owners file with the county office a written agreement as to the amount of available and adapted cropland and the county committee approves such agreement.

(f) *History method.* The history method of division of allotments, normal crop acreage and preceding year planted acreage is the proration of allotments, normal crop acreage and preceding year planted acreage to the tracts being separated from the parent farm on the basis of the acreage determined to be representative of the operations normally carried out on each tract during the respective base period for the commodities. The base period for normal crop acreage is 1977. The base year for preceding year planted acreage is the preceding year. The history method shall be used when the county committee determines that division by the cropland method should not be used.

(g) *Variation in reconstituted allotments, normal crop acreage, and preceding year planted acreage.* Allotments, normal crop acreage and preceding year planted acreage apportioned among the divided tracts, pursuant to paragraphs (e) through (f) of this section, may be increased or decreased by as much as 10 percent of the allotment, normal crop acreage and preceding year planted acreage established for the parent farm if (1) the interested owners agree in writing, and (2) the county committee determines that the method used did not provide an equitable distribution concerning available land, cultural operations and changes in type of farming. Any increase in an allotment, normal crop acreage and preceding year planted acreage on a tract pursuant to this paragraph shall be offset by a corresponding decrease on the other tracts and all variations between tracts must be compensating.

(h) *Divided history acreage and other data.* The history acreage and other basic data, except commodity yields and minimum allotments, for divided farms shall be determined by using the same percentage figure as was used to apportion the allotment crop for the respective commodity. For commodity yields and minimum allotments applicable commodity regulations shall apply.

§ 719.9 Rules for determining farm allotments, normal crop acreage, preceding year planted acreage and history acreages where reconstitution is by combination.

If two or more farms or tracts are combined for the current year, the current year's allotments, normal crop acreage, preceding year planted acreages, history acreages on acreages considered planted for the years in the base period for the respective commodities for the reconstituted farms shall be the sum of the allotments, normal crop acreages, history acreages, preceding year planted acreages and acreages considered planted for each of the tracts comprising the combination, subject to the provisions of § 719.7(c).

§ 719.10 Preservation of cropland and allotment acreage.

(a) *Definitions.* Notwithstanding the definitions in § 719.2, for the purposes of this section, the following terms shall have the following meanings:

(1) *Final acreage.* The actual crop acreage, plus any additional acreage considered planted to the crop under applicable commodity regulations.

(2) *Underplanted acreage.* The acreage by which the allotment for a commodity or normal crop acreage exceeds the final acreage of the commodity or normal crop acreage.

(b) *Preservation of cropland and acreage available for diversion credit*—(1) *GPCP and RCP.* Cropland acreage established and maintained in vegetative cover under the Agricultural Conservation Program or Regional Conservation Program shall retain its cropland classification for the period of time the contract or agreement is in effect plus the period of time thereafter that the cover is maintained. Cropland acreage established in trees under one of the programs listed in this section shall retain its cropland classification for the period of time the contract or agreement is in effect plus an equal period thereafter provided the practice is maintained. All acreage under this subparagraph shall be available for diversion credit to the extent of the underplanted acreage of an allotment crop where needed to protect the history for such crop.

(2) *RECP-REAP-ACP and comparable practices carried out without Federal cost-sharing.* Cropland acreage established and maintained in vegetative cover (excluding trees) under the the Rural Environmental Conservation Program, the Rural Environmental Assistance Program, the Agricultural Conservation Program, or comparable practices carried out without Federal cost-sharing including approved volunteer cover shall retain its cropland classification for the period of time that the cover is maintained. To qualify for diversion credit under this subparagraph (2), the following conditions shall be met:

(i) Acreage must be in excess of the sum of the set-aside acreage requirements under other adjustment programs.

(ii) The practice must have been established and carried out in accordance with good farming practices.

(iii) The producer must report the conserving crop acreage each year preservation credit is desired by a date approved by the Deputy Administrator.

(c) *Termination of diversion credit.* Acreage shall cease to be available for diversion credit when:

(1) The approved vegetation is destroyed or not properly maintained.

(2) The additional period of protection in the case of trees established under a conservation program listed in paragraph (b) of this section expires or the trees are destroyed.

(d) *Diversion credit for divided farms.* When a parent farm is reconstituted by division, future diversion credit shall accrue to the farm or tract on which the vegetative cover is physically located.

(e) *Use of diversion credit.* The diversion credit determined under the provisions of this section for each underplanted allotment crop shall be considered as acreage devoted to the crop and shall be utilized in the establishment of future State, county farm allotments.

§ 719.11 Eminent domain acquisitions.

(a) *Commodities covered.* This section provides a uniform method for handling farm allotments for extra long staple cotton, peanuts, rice, tobacco, and normal crop acreage for commodities designated by the Secretary on land involved in an eminent domain acquisition. If eligible for pooling under this section, such allotments and normal crop acreage are pooled for the benefit of the owner who is displaced from his farm by eminent domain acquisition. Such pooling is for a 3-year period from the date of displacement and during such period the owner so displaced may request transfers of allotments and normal crop acreage from the pool to other farms in the United States owned by him.

(b) *Eminent domain acquisition.* An eminent domain acquisition is a taking of title to land, or the taking of an impoundment easement to impound water on the land, or the taking of a flowage easement to intermittently flood the land, consummated with respect to land which is, or could be, so taken under the power of eminent domain by a Federal, State, or other agency. Such acquisition may be by court proceedings to condemn the land or by negotiation between the agency and the owner. An acquisition by an agency with respect to land not subject to the agency's power of eminent domain shall not be an eminent domain acquisition for purposes of this section. All land acquired by an agency for the intended project, including surrounding land not needed for the project but acquired as a package acquisition, shall be considered to be in the eminent domain acquisition if the agency expended funds for the package acquisition on the basis of its power of eminent domain. For example, a governmental agency acquires 150 acres of land from an owner as a package acquisition and requires 130 acres for the public purpose but supports the expenditure of funds for the unneeded 20 acres on the grounds that no additional cost resulted, or that avoidance of condemnation procedings warranted the package acquisition.

(c) *Owner.* For purposes of this section, owner means the person, or persons in a joint ownership, having title to the land for a period of at least 12 months immediately prior to the date of transfer of title or grant of the impoundment or flowage easement under the eminent domain acquisition. If such person or persons have owned the land for less than such 12-month period, they may, nevertheless, be considered the owner if the State committee determines that such person or persons acquired the land for the purpose of carrying out farming operations and not for the purpose of obtaining status as an owner under this section. However, no person shall be considered the owner if he acquired the land subject to an eminent domain acquisition under an outstanding contract to an agency or an option by an agency or subject to pending condemnation proceedings. In any case where the current titleholders cannot be considered the owner for the purpose of this section, the State committee shall determine the person or persons who previously had title to the land and who qualify for status as the owner under the criteria in this paragraph.

(d) *Displacement.* The owner shall be considered displaced from a farm covered by an eminent domain acquisition on the date (1) the right to prduce an allotment crop or normal crop acreage crop is relinquished voluntarily even though the owner is not required to give up possession of the land; or (2) in the case of flowage easement, the owner determines it is no longer practical to conduct farming operations on the land; or (3) the owner loses possession of the land as owner or as lessee under a lease from the agency or its designee if the lease provided unbroken possession to the owner from the date of acquisition to the end of the lease or extensions of the lease. In cases where the agency and the owner have executed a binding contract for acquisition of the farm, the owner may be considered displaced prior to completion of the acquisition if he wishes to plant the commodity on other land he owns or buys.

(e) *Notice of displacement.* The owner shall notify the county committee in writing of the eminent domain acquisition and furnish the date of displacement as soon as possible so that the allotment and normal crop acreage may be pooled in accordance with this section. Failure to so notify the county committee shall not operate to extend the 3-year period of the pool.

(f) *Pool.* Whenever the county committee determines, by notice from the owner or otherwise, that an owner has been displaced, the county committee shall establish in a pool for a 3-year period, beginning on the date of displacement, the allotments and normal crop acreage eligible for pooling under this section. Pooled allotments and normal crop acreage shall be considered fully planted and, for each year in the pool, shall be established in accordance with applicable commodity regulations.

(g) *Cases where pooling not permitted or required*—(1) *Agency has authority to continue crop production.* If the county committee determines that an agency has authority under its eminent domain powers to acquire a farm for the continued production of an allotment or normal crop acreage crop and does so acquire a farm only for such purpose and files a written notice with the county committee of the county in which the farm is located at the time of acquisition designating the allotment and normal crop acreage crops to be produced on the farm, there shall be no pooling for such crops, but farm allotments and normal crop acreage shall be established in accordance with applicable commodity regulations.

(2) *Owner waives right to have pooling.* If the owner files written notice with the county committee of intention to waive his right to have all the allotments or normal crop acreage or any part thereof, pooled and the county committee determines that the owner fully understands his right to have allotments and normal crop acreage pooled and has not been coerced to waive his right, the allotments and normal crop acreage shall be retained on the agency acquired land.

(3) *Less than 15 percent of cropland acquired.* If an agency acquires part of a farm for nonfarming purposes and the cropland on the land so acquired represents less than 15 percent of the total cropland on the farm, the allotments and normal crop acreage shall be retained on the portion of the farm not acquired by the agency and shall not be pooled.

(4) *15 percent or more of cropland acquired.* If an agency acquires part of a farm for nonfarming purposes and the cropland on the land so acquired represents 15 percent or more of the total cropland on the farm, the allotments and normal crop acreage attributable to the acquired land shall be retained on the portion of the farm not acquired by the agency if the owner files a written request with the county committee for such retention. However, only such amounts of allotments and normal crop acreage may be retained as can be supported on the available cropland and which will not exceed the allotments and normal crop acreage established on similar farms in the area, taking into consideration the land, labor, and equipment available for the production of the commodity, crop rotation practices and other physical factors affecting production. Allotments and normal crop acreage not retained shall be pooled.

(5) *In-county transfer upon displacement.* If, prior to pooling, an owner files a request to transfer the allotments and normal crop acreage to other farms which he owns in the same county, the county committee may approve a direct transfer without formal establishment in the pool. Such transfer shall be subject to the requirements in paragraph (j) of this section.

(h) *Release of pooled allotments and normal crop acreage.* Pooled allotments and normal crop acreage may be released on an annual basis by the owner to the county committee during any year for which the allotments or normal crop acreages are pooled and not otherwise transferred from the pool. The county committee may reapportion such released allotments and normal crop acreage to other farms in the same county having allotments for such commodity or normal crop acreage. Pooled allotments and normal crop acreage shall not be released on a permanent basis or surrendered after release to the State committee for reapportionment in other counties. Reapportionment shall be on the basis of past acreage of the commodity, land, labor, and equipment available for the production of the commodity, crop rotation practices and soil and other physical facilities affecting the production of the commodity. Released pooled allotments and normal crop acreage shall be regarded as fully planted in the pool and not on the farm receiving reapportionment. This paragraph shall govern the release and reapportionment, of pooled allotments and normal crop acreage notwithstanding other procedures contained in applicable commodity regulations.

(i) *Sale, lease, and owner transfers.* Pooled allotments for which there is statutory authority implemented in the applicable commodity regulations for transfer of allotments on a permanent or temporary basis by sale, lease, or by owner (within the meaning of

V 4 4 / 1 9
J A 2 6 7 9
UMI

owner for such purposes) may be transferred permanently from the pool by the owner or temporarily for the life of the pooled allotment, subject to the terms and conditions in the applicable commodity regulations for such transfers.

(j) *Regular transfers from pool*—(1) *General rule.* The owner may request transfer of all or part of the pooled allotment or normal crop acreage to any farm in the United States of which he is the bona fide owner: *Provided*, That there are farms in the receiving county with allotments and normal crop acreage for the particular commodity or normal crop acreage, or if there are no such farms, the county committee determines that farms in the receiving county are suited for the production of the commodity. For purposes of this paragraph:

(i) Receiving farm means the farm to which transfer from the pool is to be made;

(ii) Receiving State and county committee mean those committees for the State and county in which the receiving farm is located; and

(iii) Transferring State and county committees mean those committees for the State and county in which the agency acquired farm is located.

(2) *Application for transfer.* The owner shall file with the receiving county committee written application for transfer of allotment and normal crop acreage from the pool within 3 years after the date of displacement. The application shall contain a certification by the owner that he has made no side agreement with any person for the purpose of obtaining an allotment and normal crop acreage from the pool for a person other than himself. The owner shall attach to the application all pertinent documents pertaining to his ownership or purchase of land and any leasing arrangements as for example, the deed of trust or mortgage, warranty deed, note, sales agreement, and lease.

(3) *Action by receiving county committee.* The receiving county committee shall consider each application and determine whether the transfer from the pool shall be approved. Before an application is acted upon by the receiving county committee, the owner shall personally appear before the receiving county committee after reasonable notice, bring any additional pertinent documents as may be requested for examination by the receiving county committee, and answer all pertinent questions bearing on the proposed transfer: *Provided*, That the personal appearance requirement may be waived if the receiving county committee determines from facts presented to it on behalf of the owner that such personal appearance would unduly inconvenience the owner on account of illness or other good cause and such personal appearance would serve no useful purpose. Any action by the receiving county committee shall be subject to the approval required under subparagraph (5) of this paragraph.

(4) *Elements of bona fide ownership.* The receiving county committee shall approve the transfer from the pool only where the documents and other evidence presented by the owner show conclusively that the owner has made a normal acquisition of the receiving farm for the purpose of bona fide ownership to reestablish his farming operations. The elements of such an acquisition shall include, but are not limited to, the following conditions:

(i) Appropriate legal documents must establish title to the receiving farm;

(ii) If the owner was the operator of the acquired farm at the date of displacement, such owner shall personally operate and be the operator of the receiving farm for the first year that the allotment is transferred;

(iii) If the owner was not the operator of the acquired farm at the date of displacement and he was not a producer because the leasing or rental agreement provided for cash, fixed rent, or standing rent payment, such owner shall not be required to personally operate and be the operator of the receiving farm but at least 75 percent of the allotment and normal crop acreage for the receiving farm for the first year;

(iv) If the owner was not the operator of the acquired farm at the date of displacement but he was a producer on the acquired farm at the date of displacement by virtue of receiving a share of the crops produced on the acquired farm, such owner shall not be required to be the operator of the receiving farm but he shall be a producer on the receiving farm the first year that an allotment and normal crop acreage is transferred;

(v) The contractual arrangements between the owner and the seller of the receiving farm shall not contain a requirement that the receiving farm be leased to the seller or a person designated by or subject to the control of the seller nor shall the seller or a person designated by or subject to the control of the seller lease the receiving farm for the first year the allotment and normal crop acreage is transferred even though such contractual arrangements are silent as to any lease; and

(vi) Contractual arrangements under which the receiving farm was purchased or leased are customary in the community where the receiving farm is located with respect to purchase price, size of payments due, time when payments are due, and size of rental payments, if any.

(5) *Action of receiving State committee.* The approval of a transfer from the pool under this paragraph by the receiving county committee shall be effective upon concurrence by the receiving State committee. Notwithstanding any other provision of this section, the receiving State committee may authorize a transfer from the pool in any case where the owner presents evidence satisfactory to the receiving State committee that the eligibility requirements of subparagraph (4), (ii), (iii), or (iv) of this paragraph cannot be met without creating a hardship because of illness, old age, multiple farm ownership, or lack of a dwelling on the farm to which allotment and normal crop acreage is to be transferred. Notwithstanding any other provisions of this section and particularly subparagraph (4)(v) of this paragraph, the receiving State committee may authorize a transfer from the pool in any case where the owner presents evidence satisfactory to the receiving State committee that the owner has made a normal acquisition of the receiving farm for the purpose of bona fide ownership to reestablish his farming operations although the farm is leased to the seller of the farm for the first year the allotment and normal crop acreage are transferred.

(6) *Amount of allotment and normal crop acreage available for transfer.* Upon completion of all necessary approvals under this paragraph, the receiving county committee shall issue an appropriate allotment and normal crop acreage notice under the applicable commodity regulations, taking into consideration the land, labor, and equipment available for the production of the commodity crop rotation practices, and soil and other physical factors affecting the production of the commodity. For purposes of determining the amount of allotment and normal crop acreage available for transfer, the receiving county committee shall consider the receiving tract as a separate farm when such tract is in combination with land under separate ownership. The acreage transferred from the pool shall not exceed the allotment and normal crop acreage most recently established for the acquired farm and placed in the pool. When all or part of the allotment and normal crop acreage placed in the pool are transferred and used to establish or increase the allotment and normal crop acreage for other farms owned or purchased by the owner, all or the proportionate part of the past acreage history for the acquired farm shall be transferred to and considered for purposes of future allotments and normal crop acreage to have been planted on the receiving farm for which an allotment and normal crop acreage is established or increased under this section. If only a part of the available allotment and normal crop acreage is transferred from the pool, the remaining part of the allotment and normal crop acreage and past acreage history shall remain in the pool for transfer to other farms of the owner until all such allotment acreage and normal crop acreage have been transferred or until the period of eligibility for establishing or increasing allotments and normal crop acreage under this section has expired.

(7) *Cancellation of transfers.* If any allotment and normal crop acreage is transferred under this paragraph and it is later determined by the receiving county or State committee or the Deputy Administrator, that the transfer was obtained by misrepresentation by or on behalf of the owner, or the conditions applicable under subparagraph (4) of this paragraph are not met, the allotment and normal crop acreage for the receiving farm shall be reduced for each year the transfer purportedly was in effect by the amount attributable to the acreage transferred from the pool; and if the time for withdrawal from the pool has not expired, the amount of acreage initially transferred from the pool shall be returned to the pool after the period of time has expired in which the producer could exercise his rights of review and court action. Any cancellation of transfer of allotment and normal crop acreage by the receiving county committee shall be subject to approval by the receiving State committee. The receiving county committee shall issue any notice or marketing quota and penalty as may be required in accordance with applicable commodity regulations.

(8) *Effect of release of pooled allotment and normal corp acreage.* Notwithstanding the provisions prescribed in this paragraph, if the displaced owner files a request for the transfer of a pooled allotment within the prescribed period for filing such request, but his request for transfer is filed during a year in which all or a part of the pooled allotment and normal crop acreage was released to the transferring county committee pursuant to paragraph (h) of this section, the application for transfer will be processed in the usual manner but the amount of the commodity released shall not be effective on the receiving farm until the succeeding year. When a request for transfer of pooled allotment and normal crop acreage involves a transfer from one State to another, the receiving State committee shall obtain information from the transferring State committee as to whether any part of the allotment or normal crop acreage for which the transfer is requested has been released to the transferring county committee for the current year.

(k) *Constitution of acquired land.* (1) Where the owner leases part but not all of the agency acquired land, such part shall be constituted as a separate farm on the date of his displacement from the land not so leased.

(2) If a parent farm consists of separate ownership tracts, each such tract being acquired in whole or in part shall be considered as a separate farm for purposes of subparagraphs (g) (3) and (4) of this section.

(3) If part of a farm is acquired by an agency and the owner is displaced therefrom, such part shall be constituted as a separate farm on the date of displacement unless the allotments and normal crop acreage are retained on the part not acquired as provided in subparagraphs (g) (3) and (4) of this section, in which case the farm shall not be reconstituted but the farmland and cropland data shall be corrected on all appropriate records for the parent farm.

(l) *Successors in interest*—(1) *Designation of beneficiary.* The owner may file with the county committee a written designation of beneficiary of his rights in the allotments and normal crop acreage attributable to the acquired land in the event of his death and may revise such designation from time to time. The beneficiary of a deceased owner may exercise the right to continue a lease or to negotiate a lease with the agency or its designee and exercise the regular transfer rights with respect to farms owned by such beneficiary and may also exercise the release and sale, lease and owner transfer rights under this section.

(2) *Cases where no beneficiary designated.* If the owner does not file a designation of beneficiary under subparagraph (1) of this paragraph and the owner dies before displacement or after pooling occurs, the following persons shall be considered the beneficiary with the rights as provided under subparagraph (1) of this paragraph:

(i) The surviving joint owner of the farm where two persons own the farm as joint tenants with right of survivorship under which title passes to the survivor;

(ii) The person(s) who succeed to the deceased owner's interest under a will or by interstate succession. However, in the case of interstate succession, such person(s) shall be limited to surviving spouse, mother, father, brothers, sisters, or children of the deceased owner. In the settlement of the estate of the deceased owner, the heirs may file a written agreement with the county committee for the division of the deceased owner's rights under this section.

(m) *Limitations on transfers from pool.* (1) No transfer from the pool under paragraph (h), (i), or (j), of this section shall be approved if there remains unpaid any marketing quota penalty due with respect to the marketing of the commodity from the acquired farm has not been accounted for as required under applicable commodity regulations.

(2) If the tobacco or peanut allotment for an acquired farm next established after the date of displacement would have been reduced because of false or improper identification of the commodity produced on or marketed from the farm or due to a false acreage report, the allotment shall be reduced in the pool in accordance with the applicable regulations.

§ 719.12 Exempting Federal prison farms and Federal wildlife refuges.

No marketing penalty shall be assessed or entered on the county or State office debt record for excess acreage of any commodity which may be produced on a Federal prison farm or Federal wildlife refuge: *Provided, however*, That this exception does not apply to penalties incurred by an individual who has a separate interest in a crop which is subject to marketing quotas and which was produced on such Federal prison farms and Federal wildlife refuges.

§ 719.13 Supervisory authority of State ASC committees.

The State committee may take any action required by these regulations which has not been taken by the county committee. State committee may also (a) correct, or require a county committee to correct any action taken by such county committee which is not in accordance with the regulations of this part, or (b) require a county committee to withhold taking any action which is not in accordance with the regulations in this part.

§ 719.14 Transfer of allotments and normal crop acreage—State public lands.

(a) *General authority.* The Secretary may permit transfers of allotments and normal crop acreage between farms in the same county where both farms are composed of public lands of the State. Such transfers shall be permitted in accordance with conditions prescribed by this section.

(b) *Application for transfer.* An application in writing requesting the transfer of one or more of the allotments and normal crop acreage on a farm entirely composed of public lands of a State shall be filed with the county committee by the agency of the State charged with the administration of the land in such farms. The application shall identify the farms as being within the same county, show

V 4 4 / 1 9

that each farm is entirely composed of public lands of the State, and list the acreages requested to be transferred. Additional information as to the present operations on the farms, including all leasing arrangements, shall also be set forth in the application.

(c) *Closing date for filing applications.* The State committee shall establish the closing date for filing applications under paragraph (b) of this section for each year which shall be no later than the date when planting of the commodity involved in the transfer becomes general in the county.

(d) *Productivity adjustment in allotments, normal crop acreage and history acreage.* Each transfer of allotment and normal crop acreage under this section shall be adjusted for differences in farm productivity if the yield (projected for the year the transfer is to take effect) for the farm to which transfer is made exceeds the yield (projected for the year the transfer is to take effect) for the farm from which transfer is made by more than 10 percent. The county committee shall determine the amount of allotment and normal crop acreage to be transferred where productivity adjustment is required by dividing (1) the product of the yield for the farm from which transfer is made and the acreage to be transferred from such farm, by (2) the yield for the farm to which transfer is made. History acreage for the farm receiving allotment and normal crop acreage shall be adjusted by the same percentage as the allotment and normal crop acreage being transferred is adjusted. The amount of allotment and normal crop acreage and related farm history acreage transferred from the farm from which the transfer is made shall be the full amount, but the amount of allotment and normal crop acreage and related farm history acreage for the farm to which the transfer is made shall be the adjusted amount. The county acreage history, if applicable, shall be reduced to correspond with the adjusted history transferred to the farm. The history remaining unassigned to the county as a result of such productivity adjustment shall be tabulated by the State committee and included with the sum of county history acreage for determining the State history.

(e) *Limitation on acreages to be transferred.* The amount of allotment and normal crop acreage on a farm after a transfer under this section is made shall not exceed the average amount of allotment and normal crop acreage of at least three but not more than five farms with acreages of cropland similar to the farm receiving the transfer in the community having the applicable allotment and normal crop acreage on these farms.

(f) *Permanent vegetative cover requirements.* Each transfer or any allotment and normal crop acreage shall be subject to the condition that an acreage equal to the allotment and normal crop acreage transferred (before any productivity adjustment) shall be devoted to and maintained in permanent vegetative cover on the farm from which the transfer is made.

(g) *County committee action.* The county committee shall approve transfer under this section only if it determines that a timely filed application has been received, that the conditions of this section have been met, and a representative of the State committee has approved the transfer. The county committee shall issue revised notices of allotment and normal crop acreage for each farm affected by the transfer. If a county committee obtains evidence that the conditions applicable to any transfer under this section have not been met, a report of the facts shall be made to the State committee. The State committee shall determine whether such conditions have been met and if not met, shall require that the transfer be cancelled and retransferred to the original farm. Where cancellation and retransfer is required, the county committee shall issue revised notices of allotment and normal crop acreage showing the reasons for cancellation of the transfer.

Signed at Washington, D.C., on January 18, 1979.

STEWART N. SMITH,
Acting Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER I—LOAN AND GRANT MAKING AMENDMENT

PART 1941—OPERATING LOANS

Subpart A—Operating Loan Policies, Procedures and Authorizations

PART 1943—FARM OWNERSHIP, SOIL AND WATER, AND RECREATION

Subpart A—Insured Farm Ownership Loan Policies, Procedures, and Authorizations

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) is amending its regulations for determining eligibility of cooperatives, corporations and partnerships for operating and farm ownership loans. The intended effect of this action is to clarify the regulations. The action is being taken as a result of an administrative decision to set out statutory requirements more clearly and to eliminate differences between the operating loan and farm ownership loan regulations.

EFFECTIVE DATE: January 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Mr. Lynn L. Pickinpaugh, 202-447-5044.

SUPPLEMENTARY INFORMATION: FmHA amends subparagraphs (b)(6)(i) and (ii) of § 1941.12, Subpart A Part 1941, and subparagraph (b)(6)(i) of § 1943.12, Subpart A Part 1943, Chapter XVIII, Title 7 in the Code of Federal Regulations. This amendment clarifies the eligibility requirements of cooperatives, corporations and partnerships for operating and farm ownership loans. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 533 with respect to such rules. This regulation, however, is being published as a final rule. A copy of the Impact Statement prepared by FmHA is available in the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, Washington, DC 20250. Publication for comment is unnecessary because the change to Part 1943 needs to be made immediately in order to more clearly spell out existing statutory requirements for eligibility. The changes to Part 1941 are needed in order to clarify the existing requirements and to eliminate the differences between Parts 1941 and 1943 and avoid confusion in the administration of the two programs. This determination was made by Mr. Lynn L. Pickinpaugh, Director, Production Loan Division, Farmers Home Administration, U.S. Department of Agriculture, Room 5314, Washington, DC 20250.

Accordingly, various sections of Parts 1941 and 1943 are amended as follows:

PART 1941—OPERATING LOANS

Subpart A—Operating Loan Policies, Procedures, and Authorizations

1. In § 1941.12, subparagraph (b)(6)(i), add the following phrase after the word "met" in line 3; "by the entity and *all* its members, stockholders, or partners".

J A 2 6 7 9 UMI

2. In § 1941.12, paragraph (b)(6)(ii), add the words "own or" after the word "must" in line 2.

PART 1943—FARM OWNERSHIP, SOIL AND WATER, AND RECREATION

Subpart A—Insured Farm Ownership Loan Policies, Procedures, and Authorizations

3. In § 1943.12, subparagraph (b)(6)(i), line 3; add the phrase "by the entity and *all* its members, stockholders, or partners" after the word "met" at the end of the sentence.

(7 U.S.C. 1989; 42 U.S.C. 1480; 42 U.S.C. 2942; 5 U.S.C. 301; Sec. 10 Pub. L. 93-357, 88 Stat. 392; delegation of authority by the Sec. of Agri. 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 7 CFR 2.70; delegations of authority by Dir. OEO 29 FR 14764, 33 FR 9850.)

Dated: January 11, 1979.

GORDON CAVANAUGH,
Administrator, Farmers Home Administration.

[FR Doc. 79-2782 Filed 1-25-79; 8:45 am]

[6210-01-M]

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. F; Docket No. R-0146]

PART 206—SECURITIES OF STATE MEMBER BANKS

Final Rule; Correction

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final Rule: Correction.

SUMMARY: This notice corrects a previous FEDERAL REGISTER document (FR Doc. 78-35923) beginning at page 60549 of the issue for Thursday, December 28, 1978. On page 60559 of that document, in the center of the second column, a section heading should be added for § 206.54 so that the text reads as shown below:

§ 206.54 [Added]

Form F-13 (CFR 206.54) is adopted to read as follows:

§ 206.54 Form for statement to be filed pursuant to § 206.5(1) of Regulation F (Form F-13).

Board of Governors of the Federal Reserve System.

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2945]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Hertz Corp.

AGENCY: Federal Trade Commission.

ACTION: Final order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order, among other things, requires a New York City car rental company to provide each charge account customer having five dollars or more as a credit balance with periodic statements reflecting that balance; notify such customers that credit balances are refundable; and automatically refund unclaimed credit balances within seven months of their occurrence. The order would additionally prohibit the company from writing off credit balances, and would require the firm to refund, upon request, any credit balances created during the past six years.

DATES: Complaint and order issued December 21, 1978.[1]

FOR FURTHER INFORMATION CONTACT:

FTC/PD, Lewis H. Goldfarb, Washington, D.C. 20580. (202) 724-1181.

SUPPLEMENTARY INFORMATION: On Tuesday, October 17, 1978, there was published in the FEDERAL REGISTER, 43 FR 47736, a proposed consent agreement with analysis in the Matter of the Hertz Corporation, a corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions, or objections regarding the proposed form of order. No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered its order to cease and desist, as set forth in the proposed consent agreement in disposition of this proceeding.

The prohibited trade practices and/or corrective actions, as codified under 16 CFR Part 13, are as follows: Subpart—Corrective Actions and/or Requirements: § 13.533 Corrective actions and/or requirements; 13.533-20 Disclosures; 13.533-45 Maintain records; 13.533-55 Refunds; rebates and/or credits. Subpart—Delaying or Withholding Corrections, Adjustments or Action Owed: § 13.675 Delaying or withholding corrections, adjustments or action owed. Subpart—Neglecting, Unfairly or Deceptively, To Make Material Disclosure: § 13.1895 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; (15 U.S.C. 46). Interprets or applies sec. 5, 38 Stat. 719, as amended (15 U.S.C. 45).)

CAROL M. THOMAS,
Secretary.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

PART 14—PUBLIC HEARING BEFORE A PUBLIC ADVISORY COMMITTEE

Contraceptive and Other Vaginal Drug Products Panel

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) announces the termination of the Panel on Review of Contraceptive and Other Vaginal Drug Products and amends the regulations to delete it from the list of standing advisory committees. The Panel was terminated because it had completed its work.

EFFECTIVE DATE: January 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Armond Welch, Bureau of Drugs (HFD-510), Food and Drug Administration, Departmnent of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4960.

SUPPLEMENTARY INFORMATION: The Panel's functions were to review the data and information submitted as part of the over-the-counter (OTC) drug review under § 330.10 (21 CFR 330.10) on OTC products containing contraceptive and other vaginal active ingredients for human use. The Panel has submitted its conclusions and recommendations on the safety, effectiveness, and labeling of these products to the Commissioner of Food and Drugs. These conclusions and recommendations will be published in a future issue of the FEDERAL REGISTER.

Accordingly, the purpose of the Panel has been served, and the Panel is no longer needed. On December 31, 1978, the charter for the Panel expired.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1), Part 14 is amended in § 14.100 *List of standing advisory committees* by deleting paragraph (c)(20)(i)(*f*) *Contraceptive and Other Vaginal Drug Products Panel* and marking it reserved.

Effective date. Because this is a technical conforming amendment to Part 14, the Commissioner finds that there is good cause for the rule to be effective immediately upon publication in the FEDERAL REGISTER, January 26, 1979.

(Sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371(a)))

Dated: January 22, 1979.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Regulatory Affairs.

[4110-03-M]

[Docket No. 78F-0047]

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 573—FOOD ADDITIVES PERMITTED IN FEED AND DRINKING WATER OF ANIMALS

Selenium

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration is amending the food additive regulation for selenium to provide for its extended use for sheep and to provide for its use for beef and dairy cattle. A petition was filed by the American Feed Manufacturers Association requesting such use.

DATES: Effective January 26, 1979. Objections by February 26, 1979.

FOR FURTHER INFORMATION CONTACT:

William D. Price, Bureau of Veterinary Medicine (HFV-123), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3442.

SUPPLEMENTARY INFORMATION: Notice was given in the FEDERAL REGISTER of April 7, 1978 (43 FR 14736) that a food additive petition (MF-3433) has been filed by American Feed Manufacturers Association, 1701 N. Fort Myer Dr., Arlington, VA 22209, proposing that § 573.920 *Selenium* (21 CFR 573.920) be amended to extend the conditions of its use for sheep and to provide for its use for beef and dairy cattle.

The Commissioner of Food and Drugs has evaluated data in the petition and other relevant material and concludes that the food additive regulation § 573.920 should be amended to provide for the use of the petitioned additive.

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined that the use of the additive will not have a significant environmental impact. Copies of the environmental impact analysis report may be seen in the office of the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), Part 573 is amended in § 573.920 by revising the introductory text of paragraph (b)(4), by adding new paragraph (b) (5) and (6), and by revising paragragh (c) (1) and (3) and adding new paragraph (c)(4) as follows:

§ 573.920 Selenium.

* * * * * *

(b) * * *

(4) Sheep: * * *

(5) Beef cattle:

(i) In complete feed at a level not to exceed 0.1 part per million.

(ii) In a feed supplement for limit feeding at a level not to exceed an intake of 1 milligram per head per day.

(iii) Up to 20 parts per million in a salt-mineral mixture for free choice feeding at a rate not to exceed an intake of 1 milligram per head per day.

(6) Dairy cattle: In complete feed (total ration) at a level not to exceed 0.1 part per million.

(c) The additive shall be incorporated into feed as follows:

(1) It shall be incorparated into each ton of the complete feed of growing chickens up to 16 weeks of age, swine, sheep, beef cattle, and dairy cattle by a premix containing no more than 90.8 milligrams of added selenium and weighing not less than 1 pound.

* * * * *

(3) It shall be incorporated into each ton of salt-mineral mixture for sheep by a premix containing no more than 27.2 grams of added selenium in not less than 6 pounds of premix.

(4) It shall be incorporated into each ton of salt-mineral mixture for beef and dairy cattle by a premix containing no more than 18 grams of added selenium in not less than 4 pounds of premix.

* * * * *

Any person who will be adversely affected by the foregoing regulation may at any time on or before February 26, 1979, submit to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Four copies of all documents shall be submitted and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation shall become effective January 26, 1979.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1))

Dated: January 18, 1979.

JOSEPH P. HILE,
Associate Commissioner for Regulatory Affairs.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-4360]

PART 1917—APPEAL FROM PROPOSED FLOOD ELEVATION DETERMINATIONS

Final Flood Elevation Determination for the City of Davis, Yolo County, Calif.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the City of Davis, Yolo County, California. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

EFFECTIVE DATE: The date of issuance of the flood insurance rate map (FIRM), showing base (100-year) flood elevations, for the City of Davis, California.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the City of Davis, Yolo County, California, are available for review at Department of Public Works, City Hall, 226 F Street, Davis, California.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the final determinations of flood elevations for the City of Davis, California.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Covell Drain	F Street—100 feet*	43
	Oak Avenue—50 feet*	45
	Anderson Road—100 feet*.	47
Shallow Flooding	Intersection of B and Eleventh Streets.	41
	Intersection of East Fourteenth and B Streets.	41
	Intersection of H and Tenth Streets.	41
	Intersection of Alvarado Avenue and Fortuna Court.	47

* Upstream of centerline.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued: January 5, 1979.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

[Docket No. FI-4366]

PART 1917—APPEALS FROM PROPOSED FLOOD ELEVATION DETERMINATIONS

Final Flood Elevation Determination for the City of Wallace, Shoshone County, Idaho

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the City of Wallace, Shoshone County, Idaho. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

EFFECTIVE DATE: The date of issuance of the flood insurance rate map (FIRM), showing base (100-year) flood elevations, for the City of Wallace, Idaho.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the City of Wallace, Shoshone County, Idaho, are available for review at City Hall, 703 Cedar Avenue, Wallace, Idaho.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the final determinations of flood elevations for the City of Wallace, Idaho.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
South Fork Coeur d'Alene River.	Downstream Corporate Limit—25 feet*.	2708
	Third Street—20 feet**...	2722
	Sixth Street—25 feet**...	2731
	U.S. Highway 10—300 feet**.	2744
	Canyon Creek—25 feet**	2758
	Upstream Corporate Limits—15 feet**.	2792
Placer Creek	Confluence with the South Fork Coeur d'Alene River—5 feet*.	2717
	U.S. Highway 10—50 feet*.	2719
	Cypress Avenue—50 feet*.	2722
	River Street—110 feet**.	2725
	Pine Street—40 feet	2732
	Bank Street—30 feet**...	2747
	High Street—30 feet**...	2756
	Upstream Corporate Limits.	2790
Canyon Creek	U.S. Highway 10—25 feet*.	2759
	Union Pacific Railroad...	2761
	Mullan Avenue—15 feet*.	2765
	Union Pacific Railroad...	2766
	Upstream Corporate Limits—15 feet**.	2776

*Upstream from centerline.
**Downstream from centerline.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 26, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719).

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the final determinations of flood elevations for the Town of Sangerville, Piscataquis County, Maine.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Manhanock Pond	Areas adjacent to shore	449
Center Pond	Areas adjacent to shore	506
Carlton Stream	Old Dunbarton Dam—100 feet*	394
	Old Dunbarton Dam—100 feet**	402
	Numberall Inc. Dam—100 feet*	414
	Numberall Inc. Dam—100 feet**	431
	Dover Stove Company Dam—100 feet	436
	Dover Stove Company Dam—100 feet**	446
	State Route 23-30 feet**	447
Piscataquis River	Lows Bridge—30 feet**	379
	State Route 23-30 feet**	386

*Downstream of centerline.
**Upstream of centerline.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued: January 9, 1979.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

[Docket No. FI-3586]

PART 1917—APPEALS FROM PROPOSED FLOOD ELEVATION DETERMINATIONS

Final Flood Elevation Determination for Montgomery County, Maryland

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in Montgomery County, Maryland.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

EFFECTIVE DATE: The date of issuance of the flood insurance rate map (FIRM), showing base (100-year) flood elevations, for Montgomery County, Maryland.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for Montgomery County, Maryland, are available for review at the County Office Building, 100 Maryland Avenue, Rockville, Maryland.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the final determinations of flood elevations for Montgomery County, Maryland.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Booze Creek	Cabin John Parkway	119
	River Road	157
	Beech Tree Road	176
	Howell Road	215
	Bradley Boulevard	220
Buck Branch	Bells Mill Road	264
	Footbridge	293

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Bulls Run	Confluence with Booze Creek.	203

[Docket No. FI-4466]

PART 1917—APPEALS FROM PROPOSED FLOOD ELEVATION DETERMINATIONS

Final Flood Elevation Determination for the Town of Millbury, Worcester County, Mass.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the Town of Millbury, Worcester County, Massachusetts. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

EFFECTIVE DATE: The date of issuance of the flood insurance rate map (FIRM), showing base (100-year) flood elevations, for the Town of Millbury, Worcester County, Massachusetts.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the the Town of Mill-

bury, Worcester County, Massachusetts, are available for review at Municipal Office Building, 127 Elm Street, Millbury, Massachusetts.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the final determinations of flood elevations for the Town of Millbury, Worcester County, Massachusetts.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR 1910.

The final base (100-year) flood elevations for selected locations are:

[Docket No. FI-4445]

PART 1917—APPEALS FROM PROPOSED FLOOD ELEVATION DETERMINATIONS

Final Flood Elevation Determination for the City of Bridgman, Berrien County, Mich.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the City of Bridgman, Berrien County, Michigan. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

EFFECTIVE DATE: The date of issuance of the flood insurance rate map (FIRM), showing base (100-year) flood elevations, for the City of Bridgman, Michigan.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the City of Bridgman, Berrien County, Michigan, are available for review at City Hall, 4355 Lake Street, Bridgman, Michigan.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the final determinations of flood elevations for the City of Bridgman, Michigan.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Tanner Creek-William and Esseg Drain.	Confluence with Lake Michigan.	584
	Lake Street*	593
	Hillside Drive*	600
	Confluence with Bedortha Drain.	610
	Red Arrow Highway*	624
	Upstream Corporate limit.	629
Bridgman Drain (Unnamed Tributary).	Baldwin Road*	626
	Chessie System*	635
	Upstream Corporate limits.	640
Bedortha Drain	Lake Street—25 feet downstream from centerline.	614
	Red Arrow Highway*	623
	Confluence with Bridgman Drain.	623

*At centerline.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued: January 8, 1979.

[Docket No. FI-4049]

PART 1917—APPEALS FROM PROPOSED FLOOD ELEVATION DETERMINATIONS

Final Flood Elevation Determination for the Borough of Allendale, Bergen County, New Jersey

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the Borough of Allendale, Bergen County, New Jersey. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

EFFECTIVE DATE: The date of issuance of the flood insurance rate map (FIRM), showing base (100-year) flood elevations, for the Borough of Allendale, New Jersey.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the Borough of Allendale, Bergen County, New Jersey, are available for review at Borough Hall, 290 Franklin Turnpike, Allendale, New Jersey.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the final determinations of flood elevations for the Borough of Allendale, New Jersey.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided, and the Administrator has resolved the appeals presented by the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Hohokus Brook	Brookside Avenue	290
	West Crescent Avenue	273
	Park Avenue	265
Valentine Brook	Forest Road	300
Ramsey Brook	Erie Lackawanna Railroad.	326
	West Crescent Avenue	288
	Brookside Avenue	279
Allendale Brook	West Allendale Avenue	269
	West Orchard Street	267

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the City of Gonzales, Gonzales County, Tex. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

EFFECTIVE DATE: The date of issuance of the flood insurance rate map (FIRM), showing base (100-year) flood elevations, for the City of Gonzales, Gonzales County, Tex.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the City of Gonzales, Gonzales County, Tex., are available for review at the Municipal Building, 820 Saint Joseph Street, Gonzales, Texas.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the final determinations of flood elevations for the City of Gonzales, Gonzales County, Tex.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided, and the Administrator has resolved the appeals presented by the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Guadalupe San Marcos River.	Downstream Corporate Limits.	282
	U.S. Highway 183	282
	Upstream Corporate Limits.	283
	Municipal Dam	284
Tinsley Creek	Downstream Corporate Limits.	280
	Saint Lawrence Street	280
	Fischer Street	281
	Saint Andrew Street	283
	Southern Pacific Railroad (Downstream).	283
	Southern Pacific Railroad (Upstream).	288
	Dallas Street (Extended).	290
	Upstream Corporate Limits.	294
Kerr Creek	Downstream Corporate Limits.	276
	Upstream Corporate Limits.	279

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued: December 14, 1978.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

PART 1917—APPEALS FROM PROPOSED FLOOD ELEVATION DETERMINATIONS

Final Flood Elevation Determination for City of Mason, Mason County, Texas

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the City of Mason, Mason County, Texas. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

EFFECTIVE DATE: The date of issuance of the flood insurance rate map (FIRM), showing base (100-year) flood elevations, for the City of Mason, Mason County, Texas.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the City of Mason, Mason County, Texas, are available for review at City Hall, 124 Moody Street, Mason, Tex.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the final determinations of flood elevations for the City of Mason, Mason County, Texas.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Comanche Creek	Just downstream of Bickenbach Avenue.	1516
	Just downstream of Spring Street.	1533
	Mulberry Street (extended).	1547
Gamels Branch	Just upstream of Live Oak Street.	1532
	Just downstream of Pecan Street.	1544

V 4 4 / 1 9

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
	Just downstream of Rainey Street.	1580
Koocks Branch	Just downstream of Robin Avenue.	1543
	Just downstream of Avenue F.	1560
Comanche Creek Tributary No. 1.	Northern Corporate Limits.	1530
Comanche Creek	Just downstream of Mulberry Street.	1553
Tributary No. 2	At Northern Corporate Limits.	1566

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of Housing and Urban Development Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued: January 5, 1979.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX

[T.D. 7593]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Simplification of Reporting Requirements Under the Class Life Asset Depreciation Range System

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains amendments to the Income Tax Regulations (26 CFR Part 1) relating to reporting requirments under the Class Life Asset Depreciation Range System. The purpose of these amendments is to ease the public's reporting burden by using a less burdensome means to collect certain information. The amendments affect those persons who elect to use the Class Life Asset Depreciation Range System (CLADR System) for certain taxable years.

EFFECTIVE DATE: These amendments are effective for taxable years ending on or after December 31, 1978.

FOR FURTHER INFORMATION CONTACT:

Benedetta A. Kissel of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T (202-566-4454, not a toll-free number).

SUPPLEMENTARY INFORMATION:

J A 2 6 7 9 UMI

V 4 4 / 1 9

BACKGROUND

This document contains amendments to the Income Tax Regulations (26 CFR Part 1) that ease the reporting burden of those taxpayers electing to use the CLADR System. The amendments are issued under the authority contained in sections 167(m) (85 Stat. 508, 26 U.S.C. 167(m)) and 7805 (68A Stat. 917, 26 U.S.C. 7805) of the Internal Revenue Code of 1954.

The existing regulations require taxpayers electing under the CLADR System to file an annual return containing detailed information relating to eligible property. These amendments reduce the amount of information required to be contained in the return. Certain information, reported by means of the annual return prior to these amendments, remains necessary to the administration of the system. To assure collection of this information, the amendments require that a small number of taxpayers, chosen on the basis of scientifically sound sampling methods, respond to infrequent Treasury surveys. These surveys will provide the Treasury with sufficient information to keep current the figures needed for establishing asset guideline classes and periods under the CLADR System.

Since these amendments will not operate to the detriment of any taxpayer, they need not be published with notice of proposed rulemaking.

DRAFTING INFORMATION

The principal author of these amendments is Benedetta A. Kissel of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the amendments, both on matters of substance and style.

ADOPTION OF AMENDMENTS TO THE REGULATIONS

Accordingly, 26 CFR Part 1 is amended as follows:

PARAGRAPH 1. Section 1.167(a)-11 is amended as follows:

1. Paragraph (a)(1) is amended by deleting "specified in the election" the first place it appears in the seventh sentence and inserting in lieu thereof "selected", and by deleting "reporting" from the last sentence.

2. Paragraph (b)(4)(i) is amended by deleting "An election shall" from the first sentence and inserting in lieu therof "The taxpayer's books and records must".

3. Paragraph (b)(4)(iii)(c) is amended by deleting the last sentence.

4. Paragraph (d)(1)(iii) is amended by deleting the third sentence.

5. The fifth sentence of paragraph (d)(2)(iv) is revised to read as follows: "The treatment of expenditures under this subdivision for a taxable year for all asset guideline classes shall be specified in the books and records of the taxpayer for the taxable year."

6. Paragraph (f)(1)(i) is amended by deleting the sixth sentence and inserting in lieu thereof "The election may be made with an amended return filed within the time prescribed by law (including extensions) for filing the original return for the taxable year of election.".

7. Paragraph (f)(1)(iii) is revised to read as set forth below.

8. Paragraph (f)(2) is revised to read as set forth below.

9. Paragraph (f)(4) is revised to read as set forth below.

10. Paragraph (f)(5) is amended by deleting "(d)(3)(v)(c)" and inserting in lieu thereof "(d)(3)(v)(*d*)".

11. A new paragraph (f)(6) is added to read as set forth below.

§ 1.167(a)-11 Depreciation based on class lives and asset depreciation ranges for property placed in service after December 31, 1970.

* * * * *

(f) *Election with respect to eligible property*—(1) *Time and manner of election.* * * *

(iii) *Effective date.* See paragraph (f)(6) of this section for the effective date of this paragraph.

(2) *Information required.* A taxpayer who elects to apply this section must specify in the election:

(i) That the taxpayer makes such election and consents to and agrees to apply, all the provisions of this section;

(ii) The asset guideline class for each vintage account of the taxable year;

(iii) The first-year convention adopted by the taxpayer for the taxable year of election;

(iv) Whether the special 10 percent used property rule described in paragraph (b)(5)(iii) of this section has been applied to exclude used property from the election;

(v) Whether the taxpayer elects to apply the asset guideline class repair allowance described in paragraph (d)(2)(iii) of this section;

(vi) Whether the taxpayer elects for the taxable year to allocate the adjusted basis of a special basis vintage account in accordance with paragraph (d)(3)(vi) of this section;

(vii) Whether any eligible property for which the taxpayer was not required or permitted to make an election was excluded because of the special rules of paragraph (b)(5)(v) or (6), or paragraph (e)(3)(i) or (iv) of this section;

(viii) Whether any "section 38 property" was excluded under paragraph (b)(5)(iv) of this section from the election to apply this section;

(ix) If the taxpayer is an electric or gas utility, whether the taxpayer elects to apply this section on the basis of a composite asset guideline class in accordance with paragraph (b)(4)(iii)(*a*) of this section; and

(x) Such other information as may reasonably be required.

The information required under this subparagraph may be provided in accordance with rules prescribed by the Commissioner for reasonable grouping of assets or accounts. Form 4832 is provided for making an election and for submission of the information required. An election may be made and the information submitted only in accordance with Form 4832. An election to apply this section will not be rendered invalid under this subparagraph so long as there is substantial compliance, in good faith, with the requirements of this subparagraph.

* * * * *

(4) *Special conditions to election to apply this section*—(i) *Maintenance of books and records.* The taxpayer may not elect to apply this section for a taxable year unless the taxpayer maintains the books and records required under this section. In addition to any other information required under this section, the taxpayer's books and records must specify—

(*a*) The asset depreciation period selected by the taxpayer for each vintage account;

(*b*) If the taxpayer applies the modified half-year convention, the total cost or other basis of all eligible property first placed in service in the first half of the taxable year and the total cost or other basis of all eligible property first placed in service in the last half of the taxable year;

(*c*) The unadjusted basis and salvage value for each vintage account, and the amount, if any, by which gross salvage value was decreased under section 167 (f);

(*d*) Each asset guideline class for which the taxpayer elects to apply the asset guideline class repair allowance described in paragraph (d)(2)(iii) of this section;

(*e*) The amount of property improvement, determined under paragraph (d)(2)(vii)(*a*) of this section, for each asset guideline class for which the taxpayer elects to apply the asset guideline class repair allowance;

(*f*) A reasonable description of property excluded from an election to apply this section and the basis for the exclusion;

(*g*) The total unadjusted basis of all assets retired during the taxable year from each asset guideline class, and the proceeds realized during the taxable year from such retirements; and

(*h*) The vintage (that is, the taxable year in which established) of the assets retired during the year from each asset guideline class.

For purposes of paragraph (f) (4) (i) (*g*) and (*h*) of this section, all accounts of the same vintage and asset guideline class may be treated as a single account. The taxpayer must specify the information required under paragraph (f) (4) (i) (*g*) and (*h*) without regard to the retirement of an asset by transfer to a supplies account for reuse.

(ii) *Response to survey.* Taxpayers who elect to apply this section must respond to infrequent data surveys conducted by the Treasury Department. These periodic surveys, which will be conducted on the basis of scientifically sound sampling methods, are designed to obtain data (including industry asset acquisitions and retirements) used to keep the asset guideline classes and periods up to date.

(iii) *Effective of noncompliance.* An election to apply this section will not be rendered invalid under this subparagraph so long as there is substantial compliance, in good faith, with the requirements of this subparagraph.

* * * * *

(6) *Effective date.* The rules in this paragraph apply to elections for taxable years ending on or after December 31, 1978. In the case of an election for a taxable year ending before December 31, 1978, the rules in paragraph (f) of this section, in effect before the amendments made by T.D. 7593 approved January 11, 1979, shall apply. See 26 CFR § 1.67 (a)-11(f) (1977) for paragraph (f) of this section as it appeared before the amendments made by T.D. 7593.

§ 1.263(f)-1 [Amended]

Par. 2. Paragraph (a) of § 1.263 (f)-1 is amended be deleting "(f) (4) (c)" and inserting in lieu thereof "(f)".

* * * * *

The provisions of this Treasury decision will not operate to the detriment of any taxpayer. For this reason, the Treasury decision need not be issued with notice and public procedure under subsection (b) of section 553, Title 5 of the United States Code, or subject to the effective date limitation of subsection (d) of that section.

* * * * *

This Treasury decision is issued under the authority contained in sections 167(m) (85 Stat. 508, 26 U.S.C. 167(m)) and 7805 (68A Stat. 917, 26 U.S.C. 7805) of the Internal Revenue Code of 1954.

JEROME KURTZ,
Commissioner of Internal Revenue.

Approved: January 11, 1979.

DONALD C. LUBICK,
Assistant Secretary of the Treasury.

SUBCHAPTER B—MISCELLANEOUS PROVISIONS

[T.D. 7592]

PART 420—TEMPORARY REGULATIONS ON PROCEDURE AND ADMINISTRATION UNDER THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

Disclosure of Certain Return Information to Officers and Employees of the Department of Labor for Purposes of Administering Titles I and IV of the Employee Retirement Income Security Act of 1974

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains amendments to the temporary regulations relating to disclosure by the Internal Revenue Service of certain described return information to officers and employees of the Department of Labor for purposes of administering the Employee Retirement Income Security Act of 1974. These amendments add to the authority contained in the existing regulations.

DATE: These regulations authorize the automatic disclosure of certain return information after the date of publication of this Treasury decision.

FOR FURTHER INFORMATION CONTACT:

David E. Dickinson of the Legislation and Regulations Division of the Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, D.C. 20224, Attention: CC:LR:T, 202-566-3218, not a toll-free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains amendments to the Temporary Regulations on Procedure and Administration relating to the disclosure of returns and return information to the Department of Labor under section 6103(l)(2) of the Internal Revenue Code of 1954 as added by section 1202 of the Tax Reform Act of 1976 (Pub. L. 94-455, 90 Stat. 1678).

AUTOMATIC DISCLOSURE OF CERTAIN RETURN INFORMATION TO DEPARTMENT OF LABOR FOR PURPOSES OF ADMINISTERING TITLES I AND IV OF EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

The Internal Revenue Service and the Department of Labor recently entered into an agreement entitled Procedures for Coordination Between the Internal Revenue Service and the Department of Labor of Employee Plan Examination and Litigation Activities. The purpose of this agreement, which is authorized by section 3004 of the Employee Retirement Income Security Act of 1974, is to further reduce duplication of effort under the Act and to improve the coordination of compliance programs under the Act. Proper implementation of the agreement necessitates automatic Internal Revenue Service disclosure to the Department of Labor of two categories of return information in addition to those categories presently described in § 420.6103 (l)(2)-3(a) of the temporary regulations.

Accordingly, § 420.6103 (l)(2)-3(a) is amended to permit the automatic notification that the Service intends to examine, or has completed an examination, either of an employee plan or to determine liability for tax under section 4971 or 4975. In addition, the Service is to automatically transmit copies of initial pleadings indicating that the Service intends to intervene in a civil action as authorized by section 502(h) of the Act.

DRAFTING INFORMATION

The principal author of this regulation was David E. Dickinson of the Legislation and Regulations Division of the Office of the Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

WAIVER OF CERTAIN PROCEDURAL REQUIREMENTS OF PROPOSED TREASURY DIRECTIVE

A determination has been made by one of the undersigned, Jerome Kurtz, Commissioner of Internal Revenue, that there is an immediate need for amendment of the temporary regulations under section 6103(l)(2) of the Internal Revenue Code to allow additional automatic disclosures of certain return information to the Department of Labor for purposes of administering titles I and IV of the Employee Retirement Income Security Act of 1974. Because of the immediate need for such

J A 2 6 7 9 UMI

V 4 4 / 1 9

information, compliance with the procedural requirements of paragraphs (8) through (13) of the proposed Treasury directive, relating to improving regulations (43 FR 22319) would be impracticable, and, therefore, these requirements have not been followed.

ADOPTION OF AMENDMENTS TO THE REGULATIONS

In order to amend the Temporary Regulations on Procedure and Administration (26 CFR Part 420) to allow for certain additional automatic disclosures to the Department of Labor, such regulations are amended to read as follows:

Section 420.6103(l)(2)-3(a) of the Temporary Regulations is amended—

1. By deleting "and" at the end of subparagraph (20) thereof,

2. By deleting the period at the end of subparagraph (21) and inserting in lieu thereof a semicolon, and

3. By adding thereto the following new subparagraphs (22) and (23):

§ 420.6103 (l)(2)-3 Disclosure to Department of Labor and Pension Benefit Guaranty Corporation of certain returns and return information.

(a) *Disclosures following general requests.* • • •

(22) Notification that the Service intends to undertake, or has completed, an examination to determine whether—

(i) A particular pension, profitsharing, or stock bonus plan, a trust which is a part of such plan, or an annuity or stock purchase plan meets the applicable requirements of part I of subchapter D of chapter 1 of the Code,

(ii) Any particular person is, or may be, liable for any tax imposed by section 4971 or 4975, or

(iii) A particular employee welfare benefit plan, as defined in section 3(1) of the Act, meets the applicable requirements of section 501(c) or 120 of the Code,

together with any completed Department of Labor form (and supplemental schedules) relating to such examination; and

(23) Copies of initial pleadings indicating that the Service intends to intervene in a civil action under section 502(h) of the Act.

• • • • •

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitations of subsection (d) of that section.

This Treasury decision is issued under the authority contained in section 6103(q) of the Internal Revenue Code of 1954 (90 Stat. 1685; 26 U.S.C. 6103(q)) and section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

JEROME KURTZ,
Commissioner of Internal Revenue.

Approved: January 17, 1979.

EMIL M. SUNLEY,
Acting Assistant Secretary of the Treasury.

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

PART 111—GENERAL INFORMATION ON POSTAL SERVICES

Third-Class Carrier Route Presort

AGENCY: Postal Service.

ACTION: Interim regulations with comments invited for consideration in final rulemaking.

SUMMARY: As announced in the FEDERAL REGISTER on January 18, 1979 (44 FR 3797), the Postal Service will implement a new third-class carrier route presort classification on January 28, 1979 on a temporary basis. Implementing regulations for this new subclass have been developed and are set forth below. Although they are to take effect on January 28, 1979, comments on these regulations are solicited, and will be considered in drafting regulations for a permanent classification change if the Postal Service proposal is approved.

EFFECTIVE DATE: January 28, 1979, and until final regulations are issued. Comment Date: Written Comments should be received on or before April 1, 1979.

ADDRESS: Written comments should be directed to the Director, Office of Mail Classification, Rates and Classification Department, U.S. Postal Service, Room 1610, 475 L'Enfant Plaza, S.W., Washington, D.C. 20260. Copies of all written comments received will be available for public inspection and photocopying between 9:00 AM and 4:00 PM, Monday through Friday, in the Office of Mail Classification, Room 1610, at the above address.

FOR FURTHER INFORMATION CONTACT:

Ernest Collins, (202) 245-4749.

SUPPLEMENTARY INFORMATION: Classification schedule provisions on bulk third-class mail in effect prior to this temporary classification change do not provide a postage rate reduction for pieces of bulk mailings which are presorted to carrier routes or presorted to a finer extent. This temporary classification change recognizes that when pieces of large bulk mailings are properly presorted to carrier routes, the Postal Service's costs for delivering the mail are less due to reductions in the required number of handlings by the Postal Service. To implement this temporary classification change, acceptance and verification procedures considered necessary by the Postal Service must be included. These regulations must be in effect if the Third-Class Carrier Route Presort subclass is to be implemented on January 28, 1979.

Although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. 553(b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service ordinarily invites comments from the public whenever it proposes a new or amended regulation such as this, which might have a substantial effect on the public. In this case, however, publishing these rules as proposals, with a comment period of 30 days, would delay implementation of this new subclass to the disadvantage of mailers who might otherwise utilize this subclass.

Accordingly, the Postal Service finds it unnecessary and contrary to the public interest to follow its customary practice of publishing these rules as proposed rules for comment before they become effective. See 5 U.S.C. 553(d). However, we reiterate that comments are welcomed on the published rules, and that any proposed changes will be considered and acted upon as appropriate.

In view of the considerations discussed above, the Postal Service hereby adopts the following revisions of the Postal Service Manual:

PART 134—THIRD CLASS

In 134, revise .12 and add new .24 and .436f reading as follows:

134.1 Rates

.12 Bulk Rates

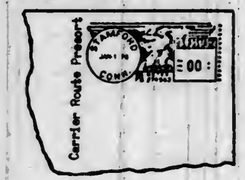
Note. The annual bulk mailing fee is $40. (See 134.222 and 134.42.)

	Special rate for authorized organizations only (see 134.5)	Regular rates	Carrier Presort Rates
.121 Books and catalogs having 24 or more bound pages with at least 22 printed, seeds, cuttings, bulbs, roots, scions, and plants (see 134.31 for weight limit).	14¢ per pound or fraction.	36¢ per pound or fraction.	36 cents per pound or fraction minus 1.5 cents per piece.
Minimum rate per piece:	2.7¢ [Applies when a piece weighs not more than 3.0857 oz. or .19286 pounds or 87.479 grams]	8.4¢ [Applies when a piece weighs not more than 3.7333 oz. or .23333 pounds or 105.838 grams]	8.4 cents minus 1.5 cents [applies when a piece weighs not more than 3.7333 oz. or .23333 pounds or 105.838 grams]
.122 All matter, except the items in 134.121, not included in the first- or second-class (see 134.31 for weight limit).	17¢ per pound or fraction.	41¢ per pound or fraction.	41 cents per pound or fraction minus 1.5 cents per piece
Minimum rate per piece:	2.7¢ [Applies when a piece weighs not more than 2.5412 oz. or .15882 pounds or 72.041 grams]	8.4¢ [Applies when a piece weighs not more than 3.2780 oz. or .20488 pounds or 92.931 grams]	8.4 cents minus 1.5 cents [applies when a piece weighs not more than 3.2780 oz. or .20488 pounds or 92.931 grams]

• • • • •

.24 Carrier Route Presort

a. *Eligibility Requirements.* (1) Pieces must be eligible for mailing as regular bulk third-class mail.



(2) Pieces must be of identical weight and size and must not exceed 10" height X 12" length X ¾" thickness. Merchandise samples with detached labels are eligible and may exceed the 10" height X 12" length X ¾" thickness dimensions as long as the detached labels meet the requirements of section 134.44a.

(3) Each mailing must contain a minimum of 2,000 separately addressed pieces properly presorted to carrier routes, rural routes, lockboxes, or general delivery. Mail addressed to post office boxes may qualify for the presort rate provided it is sorted in accordance with the scheme furnished by the Postal Service so as to eliminate incoming secondary sorts by the Postal Service.

(4) To qualify for the carrier presort rate, a piece must be in a group of ten or more properly sorted to the same carrier route. Groups of less than ten pieces to the same carrier route do not qualify for the carrier presort rate and are considered residual. The number of residual pieces to any single 5-digit ZIP Code area may not exceed 5% of the total presorted carrier route pieces addressed to that 5-digit area. Residual pieces are subject to the Regular Third-Class Bulk rates.

(5) The endorsement "Carrier Route Presort" must be printed or rubber stamped by the mailer either in or immediately adjacent to the permit imprint or postage. It may be incorporated in the permit imprint, meter ad plate, or meter "slug" as shown below. The endorsement "CAR-RT" may be printed as part of the permit imprint indicia instead of "Carrier Route Presort."

U.S. Postage Paid
Chicago, IL 60607
Permit No. _____

JAN 26 79 UMI

V 4 4 / 1 9

(6) Unsealed pieces may contain inserts or loose pages that may not be expected to become separated during postal handling.

(7) Mailers must present a listing that will reflect the number of qualifying and residual pieces mailed to each five-digit ZIP Code area with each mailing made under the carrier route presort subclass rate. After the first mailing the postmaster may authorize the mailer to retain the records and submit them upon request by the postmaster. These records must be kept for a period of 90 days following the date of mailing (or until any pending action regarding the recalculation of postage, see 8 below, is resolved to the satisfaction of the Postal Service).

(8) Mailers are responsible for the proper makeup of mail to carrier routes according to the latest official Postal Service scheme. Mailings with more then 5% error in the makeup to carrier routes in the five-digit ZIP Code area are subject to recalculation of postage at the regular Third-Class bulk rate for all pieces delivered in the five-digit ZIP Code area.

(9) Pieces bearing a simplified address as provided for in section 122.4, Postal Service Manual, may qualify for the carrier route presort subclass if they meet all requirements for the subclass.

b. How Mailers Obtain City Schemes. Mailers may, under the provisions of Section 122.54, Postal Service Manual, request a copy of the city scheme used by clerks for sorting mail. They may also request the Postal Service to sort address cards, plates or stencils by carrier routes.

This section of the Postal Service Manual is being changed to indicate that such requests are to be forwarded to the Management Sectional Center (MSC) Manager of the destination city. Management Sectional Centers and the areas they serve are listed on pages XLIX and L of the 1979 National ZIP Code and Post Office Directory, Publication 65.

Carrier schemes are currently being maintained in a variety of formats. Carrier schemes, in a standard hard copy format, for all 6300 city delivery post offices will be available to mailers at appropriate MSC's by the middle of March, 1979. Later, the Postal Service expects to have available, for mailer use, a computer tape with carrier schemes for all 480 multi-ZIP Coded post offices and 160 large single ZIP Coded post offices.

• • • • •

.436 Packages and Sacks

• • • • •

f. Preparation. (1) Packages—(a) *Carrier Packages.* When there are 10 or more pieces addressed to the same carrier route, or box section they must be prepared by the mailer in packages of 10 or more pieces. Packages of letter size mail should not exceed 4 inches in thickness. The pieces in the packages must be faces in the same direction and securely wrapped or tied together. Rubber bands are the preferred method of securing packages. A facing slip must be attached to the package over the top piece of a package and prepared as follows:

San Francisco, CA 94133	--5-digit ZIP of Address (need not be shown if the pieces bear a ZIP Code)
Carrier Route 18	--Carrier Route or Rural Route Number or Lockbox Section
FR Portland, OR 972	--Post Office of entry and its appropriate ZIP Code

San Francisco, CA 94133	--5-digit ZIP of Address (need not be shown if the pieces bear a ZIP Code)
Rural Route 18	--Carrier Route or Rural Route Number or Lockbox Section
FR Portland, OR 972	--Post Office of entry and its appropriate ZIP Code

San Francisco, CA 94133	--5-digit ZIP of Address (need not be shown if the pieces bear a ZIP Code)
Lockbox Section 18	--Carrier Route or Rural Route Number or Lockbox Section
FR Portland, OR 972	--Post Office of entry and its appropriate ZIP Code

(b) *5-Digit Packages.* Less than ten pieces to a carrier route do not qualify for the carrier route presort rate and are considered "Residual." Residual may be prepared as carrier packages as described above. If this is not done, they must be made up into 5-digit packages. All packages of residual must have a coded pressure sensitive "Red D" to facilitate postal verification and handling. Labels are to be placed on the lower left hand corner of the top piece of each package. Postage on residual pieces must be paid at regular bulk third-class rates. The number of residual pieces must not exceed 5% of the total carrier route presort mailing to the 5-digit ZIP Code area.

(2) *Sacks*—(a) *Carrier Sack.* Packages must be placed in a carrier route sack when there are 20 pounds or 1,000 cubic inches of mail to the same carrier route. These sacks must be labeled in the following manner:

J A 2 6 7 9 UMI

San Francisco, CA 94133	--Destination
3CL-Carrier Route 18	--Contents (Third-Class Letter size pieces as defined in 128 PSM
FR JC Company Boston, MA	--Mailer and Mailer's Location

San Francisco, CA 94133	--Destination
3CL-Rural Route 18	--Contents (as defined in 128 PSM)
FR JC Company Boston, MA	--Mailer and Mailer's Location

San Francisco, CA 94133	--Destination
3CF-Lockbox Section 18	--Contents (Third-Class flat size pieces as defined in 128 PSM)
FR JC Company Boston, MA	--Mailer and Mailer's Location

San Francisco, CA 94133	--Destination
3CF-Lockbox Section	
3CF-Carrier Route ___	--In this example, the contents are identified by circling the appropriate line.
3CF-Rural Route ___	
FR JC Company Boston, MA	--Mailer and Mailer's Location

(b) *5-Digit Sacks.* All packages of qualifying pieces not placed in carrier sacks must be placed in 5-digit sacks. There is no provision for city, SCF, or state sacks for material sent at Carrier Route Presort rates. These sacks must be labeled in the following manner:

San Francisco, CA 94133	--Destination
3CL-Carrier Routes	--Contents
FR JC Company Boston, MA	--Mailer and Mailer's Location

(3) *Trays*—The accepting post office may authorize the use of trays or other containers in lieu of sacks providing the separation to individual carrier routes will be adequately maintained throughout all postal handlings, the route is identified and all address labels are faced in the same direction.

An appropriate amendment to 39 CFR 111.3 to reflect these changes will be published if the Postal Service proposal on third-class carrier route presort is approved.

(39 U.S.C. 401, 403, 404, 3621, 3623, 3641)

W. ALLEN SANDERS,
Acting Deputy General Counsel.

Title 40—Protection of Enviornment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 1031-7]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revision to the New Jersey State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Rule.

SUMMARY: This notice announces approval of a request from New Jersey to revise its State Implementation Plan. The effect of the revision being approved will be to change the State's regulation limiting the emission of particulate matter from manufacturing processes. In part, this change relaxes particulate matter emission limitations applicable to the glass manufacturing industry. The Environmental Protection Agency (EPA) is announcing approval of all but one part of this State Implementation Plan revision request. That part of the State's proposed regulation which allowed for variances from the emission limitations contained elsewhere in the regulation is not being approved by EPA because it failed to meet certain important EPA procedural requirements. However, EPA has proposed and is hereby promulgating a procedure whereby such variances granted by the State may be approved on an individual basis as a part of the State Im-

V 4 4 / 1 9 J A 2 6 7 9 UMI

plementation Plan. Receipt of the revision request from New Jersey was announced in the FEDERAL REGISTER on September 28, 1978 at 43 FR 44552 where a full description of the proposed revision is contained.

DATES: January 26, 1979.

FOR FURTHER INFORMATION CONTACT:

William S. Baker, Chief, Air Programs Branch, U.S. Environmental Protection Agency, Region II Office, 26 Federal Plaza, New York, New York 10007, 212-264-2517.

SUPPLEMENTAL INFORMATION: On March 31, 1977 the State of New Jersey requested that the Environmental Protection Agency (EPA) consider a proposed revision to its State Implementation Plan (SIP). Additional information was provided on April 18, 1977 and November 14, 1977. The revision request was submitted in accordance with all applicable EPA requirements under 40 CFR Part 51 including a public hearing which was held in Trenton, New Jersey on September 29 and 30, 1976.

The proposed revision consists of changes to the State regulation, Title 7, Chapter 27, Subchapter 6, of the New Jersey Administrative Code (N.J.A.C. 7:27-6.1 *et seq.*) entitled, "Control and Prohibition of Particles from Manufacturing Processes." A summary of the proposed changes to Subchapter 6 follows.

I. SECTION 6.1—DEFINITIONS

Definitions are provided for the terms "cullet," "glass," "glass manufacturing furnace," "lead glass," and "process weight." In addition, the present definition for the term "particles" is modified.

II. SECTION 6.2—STANDARDS FOR THE EMISSION OF PARTICLES

Except for glass manufacturing furnaces used for the production of lead glass, glass manufacturing furnaces are no longer required to meet a grain loading or control efficiency standard as specified in the present subsection 6.2(a), but instead are controlled by a new production rate standard contained in the changed subsection 6.2(b). No increase in allowable emissions from the production of lead glass is proposed because of the State's concern about the toxicity of lead.

III. SECTION 6.3—PERFORMANCE TEST PRINCIPLE

The methods for determining actual source emissions and plume opacity are identified as being those contained in N.J.A.C. 7:27 B-1, "Air Test Method One," and 7:27 B-2, "Air Test Method Two," respectively.

IV. SECTION 6.4—EMISSION TESTS

No changes are proposed for this section.

V. SECTION 6.5—VARIANCES

Under the proposal, the State may grant a variance from the emission limitations specified in Section 6.2 to those glass manufacturing furnaces where the material being processsed in the furnace consists of greater than 25 percent cullet, by weight. The maximum allowable emission rate in such situations increases as the cullet content increases above 25 percent.

The proposed Section 6.5 also permits the State to grant a variance from the plume opacity limitation of 20 percent specified in subsection 6.2(d) if a glass manufacturing furnace can meet all applicable emission limitations, but cannot at the same time meet the plume opacity limitation of subsection 6.2(d).

VI. SECTION 6.6—PERMIT TO CONSTRUCT AND CERTIFICATE TO OPERATE

A minor change to the wording of subsection 6.6(c) is proposed.

VII. SECTION 6.7—EXEMPTIONS

Subparagraph 6.7(a)(3) is deleted. This subparagraph established a schedule for compliance by certain sources required to meet the provisions of Subchapter 6. This schedule has been superseded by EPA compliance schedules established in the FEDERAL REGISTER of July 24, 1975 (40 FR 30962).

While the regulatory changes proposed by New Jersey increase the allowable particulate matter emissions from glass manufacturing furnaces above those contained in the existing SIP, emission reductions not documented in the SIP from the Federal regulation requiring reduction in lead content of gasoline and from the installation of control devices which reduce emissions below existing SIP limitations more than compensate for this. The Regional Office has determined that the air quality impact of compliance with the proposed plan revision taken together with the emission reductions previously not considered in the SIP would be equivalent to the impact that would result from compliance with the existing regulation alone. Moreover, if it is found that other control measures are necessary to provide for attainment of secondary standards, additional emission limitations will be adopted by the State by January 1, 1979, as required by the amended Clean Air Act. EPA believes that, with the exception of the section relating to variances, the air quality improvement to be derived from replacing the existing regulation with which many sources are currently out of compliance with a regulation such as has been proposed is sufficient justification for its approval.

EPA's approval of the proposed revision as it relates to nine furnaces previously identified by the State as having a potential for aerodynamic downwash is based on a commitment from the State put forth in an October 27, 1978 letter that these potential downwash problems will be examined and corrected, where necessary, in as expeditious a manner as possible. Such commitment was requested by EPA in the proposed rulemaking notice (43 FR 44552). One additional furnace was mistakenly included with the nine others in the proposed rulemaking notice. This was the Kraftco facility in Jersey City.

EPA did find one shortcoming in Section 6.5 "Variances," of the State's regulation. This section as submitted by the State contains no requirement that each variance issued by the State be submitted to EPA as a SIP revision request. Section 51.34 of Part 51 of Chapter I, Title 40, Code of Federal Regulations, requires that in order for a variance to be considered for approval as a revision to a state implementation plan, it must be submitted by the State in accordance with the requirements of Section 51.6, "Revisions."

Consequently, EPA proposed disapproval of subsections 6.5 (a), (b), and (c) of the State's revision request as submitted and proposed instead that each variance that the State grants under Section 6.5 of N.J.A.C. 7:27 be subject to a public hearing in accordance with the provisions of Section 51.4, "Public Hearings," and that each such variance be processed as an individual SIP revision for EPA approval.

The proposal for revision to the SIP was announced in the FEDERAL REGISTER on September 28, 1978 at 43 FR 44552, where a detailed description of the revision is provided. In this notice EPA advised the public that comments would be accepted as to whether the proposed revision to the New Jersey State Implementation Plan should be approved or disapproved. One comment was received from the New Jersey State Chamber of Commerce, and one comment was received from the New Jersey Business Industry Association. Both comments expressed support for the revision. Comments received from Owens-Illinois, Inc. expressed support for all but two provisions of the proposed regulation.

Owens-Illinois expressed two basic objections in its comments on the proposal; these objections relate to the provisions for granting variances and to EPA's call for a plan from the State to address the identified potential aerodynamic downwash problems.

Aerodynamic Downwash

Comment.—The company's objections to the approach taken to potential aerodynamic downwash problems centers around a number of points. It is claimed that specific reference to aerodynamic downwash was inappropriate because it is only one of many problems industry faces in complying with air pollution control regulations. Furthermore, the company points out that, even without measures to address downwash, no deterioration from present air quality would result from compliance with the proposed limitations. Owens-Illinois believes that it is significant that the New Jersey Department of Environmental Protection had not found it necessary to include any specific provision for downwash in Subchapter 6 and further believes that the SIP already included mechanisms to handle such problems. One such mechanism cited by the Company is the State's authority to impose conditions on sources as requirements for being granted variances. Finally, Owens-Illinois raises doubts about the basis on which the potential for aerodynamic downwash was evaluated. The Company claims that glass manufacturing facilities appear to have been singled out as though they were the only manufacturing facilities that can have this problem. The Company believes this is particularly inappropriate since the revision addresses a regulation for all manufacturing processes.

EPA response.—While aerodynamic downwash is not the only air pollution control problem that industrial facilities face, it is a problem that gives rise to the possibility for severe localized air quality problems despite compliance with the rest of the proposed regulation. In response to the Company's second point that air quality would not deteriorate under the revised regulation even without downwash provisions, EPA points out that while this is so, EPA must be extremely careful in examining and protecting or improving, if necessary, short term air quality in the vicinity of sources whose emission limitations are to be relaxed. In response to the Company's position that the absence of provisions for downwash in the State's existing and proposed regulations indicates that such provisions are unnecessary, EPA's position is that a commitment on behalf of the State to review the downwash situation is warranted by the technical analysis. Consideration of downwash effects only at the times when sources apply for variances as suggested by Owens-Illinois is not a system that provides assurance that all potential problems will be examined and corrected, if necessary. The plan requested by EPA does provide this assurance. Finally, the criteria requested by Owens-Illinois for evaluating the potential for downwash are contained in the control strategy demonstration submitted by New Jersey. The identification of nine glass manufacturing facilities as having downwash potential is not an attempt to single out glass manufacturing furnaces as the only kind of facilities that are subject to this problem. However, the substantive parts of this revision involve relaxations in emission limitations only for glass manufacturing facilities. Provisions for relaxing emission limitations for other kinds of facilities are not included. EPA must focus its concern on any possible violations of the air quality standards where relaxations are occuring.

Variances

Comment.—Owens-Illinois' position on the provision inserted in the proposal by EPA that all variances be subject to EPA review and approval/disapproval action is that this would be costly in terms of time and money for both industry and the federal government and that such federal review was contrary to the intent of the Clean Air Act Amendments of 1977 which attempt to delegate more authority to the States.

EPA response.—As stated in the proposed rulemaking notice, Section 34 of Part 51 of Chapter I, Title 40, Code of Federal Regulations, requires that a variance be submitted by the State in accordance with the requirements of section 51.6, "Revisions," if it is to be considered for approval as a SIP revision. The action taken serves to implement this requirement. If EPA were to give blanket approval to a state's variance provisions without knowledge of the air quality impact ramifications of such an approval, its actions would not be consistent with the implementation planning concept.

Based upon the technical support provided by New Jersey, EPA has found this revision to the New Jersey State Implementation Plan as submitted by the State and supplemented with the EPA variance provision consistent with the requirements of Section 110(a) of the Clean Air Act and EPA regulations found at 40 CFR Part 51. Accordingly, EPA approves this revision. Furthermore, this action is being made effective immediately because the revision imposes no hardship on the affected sources.

Dated: January 22, 1979.

(Section 110 and 301 of the Clean Air Act, as amended (42 U.S.C. 7410, 7601).)

DOUGLAS M. COSTLE,
Administrator, Environmental Protection Agency.

Part 52 of Chapter I, Title 40, Code of Federal Regulations is amended as follows:

Subpart FF—New Jersey

1. Section 52.1570 paragraph (c) is amended by adding new subparagraph (20) as follows:

§ 52.1570 Identification of plan.

* * * * *

(c) Supplemental information was submitted on:

* * * * *

(20) A revision consisting of all but one of the sections of the revised regulation, N.J.A.C. 7:27-6.1 *et seq.*, submitted by the New Jersey Department of Environmental Protection with a March 31, 1977 cover letter which also transmitted the basis and background document and the Report of the Public Hearing. The one section that is not approved as submitted by the State is Section 6.5, "Variances."

2. Subpart FF is amended by adding a new paragraph (a) to Section 52.1604 [1] as follows:

§ 52.1604 Control Strategy and Regulations: Total suspended particulates.

(a) Any variance issued by the Department under N.J.A.C. Title 7, Chapter 27, Section 6.5, subsections (a), (b), or (c) shall not exempt any person from the requirements otherwise imposed by N.J.A.C. 7:27-6.1 *et seq.*; provided that the Administrator may approve such variance as a plan revision when the provisions of this Part, Section 110(a)(3)(A) of the Act, and 40 CFR Part 51 (relating to approval of and revisions to State implementation plans) have been satisfied with respect to such variance.

(Section 110 and 301 of the Clean Air Act, as amended (42 U.S.C. 7410, 7601).)

SUBCHAPTER C—AIR PROGRAMS

[FRL 1045-8]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Connecticut Revision

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This is a notice of final approval of a modification to the indirect source air pollution control regulation for Connecticut. The modification eliminates the requirement for

[1] NOTE: Section 52.1604 was added at 43 FR 58568, December 15, 1978 and it consisted of a paragraph (b).

V 4 4 / 1 9 J A 2 6 7 9 UMI

review of all off-street facilities, such as shopping centers, parking lots, and sports complexes, but retains review and permit requirements for highways and airports.

EFFECTIVE DATE: February 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Donald C. White, Air Branch, EPA Region I, Room 2113, JFK Federal Building, Boston, Massachusetts 02203, (617) 223-5630.

SUPPLEMENTARY INFORMATION: On March 15, 1978, (43 FR 10708) the Environmental Protection Agency (EPA) published a notice informing the public of the agency's proposal to approve a revision to the indirect source portion of the Connecticut State Implementation Plan (SIP) submitted by the Connecticut Department of Environmental Protection (DEP). The revision eliminates the requirement for review of all off-street facilities, such as shopping centers, parking lots, and sports complexes but retains review and permit requirements for highways and airports.

EPA received fourteen written comments on the proposed approval, eight favoring the proposed action and six opposed. Comments focused primarily on questions of interpretation of the relevant portions of the Clean Air Act and secondarily on the substantive impact of the proposed revision. One of the commentators, the California Air Resources Board, also filed a notice of an intent to take legal action in connection with the proposed approval. The comments received, and the agency's reasons for approving the revision, are discussed below.

The most difficult questions concern the interpretation of Section 110(a)(5)(A)(iii) of the Clean Air Act. The section provides that:

> Any State may revise an applicable implementation plan approved under Section 110(a) to suspend or revoke any such [indirect source] program included in such plan, *provided that such plan meets the requirements of this section.* (emphasis added)

The interpretation of this provision urged by those opposed to the revision is that a state may not remove the indirect source portion of a State Implementation Plan (SIP) unless it can show that the revision will not interfere with the attainment and maintenance of the National Ambient Air Quality Standards (NAAQS) and was adopted with proper procedure. The California Air Resources Board argues, for example, that there is no indication that Congress did not intend all of the requirements of Section 110 to apply to a revision of an indirect source program. EPA disagrees, for several reasons.

First, the literal interpretation renders the provision mere surplusage to the Act. Section 110(a)(3)(A) already allows a state to revoke or revise any part of its SIP so long as that action does not interfere with the attainment and maintenance of the NAAQS. Therefore, Section 110(a)(5)(A)(iii), under the literal interpretation, adds nothing to Section 110(a).

Second, the literal intrepretation raises an inconsistency within section 110(a)(5)(A) itself. If EPA refuses to approve a revocation of an indirect source review program and the state refuses to administer or enforce the program on its own, then the EPA must, under section 110(c)(1), promulgate and enforce its own indirect source review program. Such action, however, would be in direct conflict with section 110(a)(5)(A)(ii) which prohibits the Administrator from promulgating an indirect source program except for federal activities or sources. Therefore, under the literal interpretation section 110(a)(5)(A)(iii) conflicts with section 110(a)(5)(A)(ii).

Moreover, the literal interpretation of Section 110(a)(5)(A)(iii) results in harsh inequities. A state with an indirect source program would be prohibited from eliminating that program if the elimination would interfere with the attainment and maintenance of the NAAQS. A state without an indirect source program, however, cannot be forced to adopt one even if it were the only way to achieve and maintain the NAAQS. Thus, states which adopted indirect source programs when they were first proposed would be penalized and states which waited would be rewarded. California, for example, which opposes deletion of part of the Connecticut indirect source program, has no such program itself.

EPA has concluded that an interpretation of Section 110(a)(5)(A)(iii) which does not require a state to meet the substantive requirements of Section 110, including the attainment and maintenance requirement, is more in line with the overall intent of Section 110(a)(5).

Section 110(a)(5)(A)(i) allows states to include indirect source programs in SIPs and allows EPA to enforce such programs if a state chooses to adopt them, but it prohibits EPA from requiring such programs.

Section 110(a)(5)(A)(ii) prohibits EPA promulgation of indirect source programs with one exception, described below.

Section 110(a)(5)(A)(iii), which is in dispute here, allows a state to revise an approved plan to suspend or revoke indirect source programs, "provided that such plan meets the requirements of this section."

Finally, Section 110(a)(5)(B) allows EPA to promulgate, implement, and enforce indirect source review programs under Section 110(c) which apply only to federally owned, assisted or operated indirect sources.

The clear general intent of Section 110(a)(5) is thus to allow states freedom to include or not include indirect source control programs in SIPs and to restrict EPA enforcement to such programs which states freely choose to adopt and to limit EPA promulgation, implementation and enforcement to federally funded, owned and operated indirect sources. It would be directly contrary to the apparent intent of these provisions were EPA to conclude that one clause in subsection 110(a)(5)(A)(iii) has the effect of either requiring Connecticut to include an indirect source review program which it clearly chooses not to include or of authorizing EPA to promulgate or implement or enforce such a program.

Given the overriding intent of Section 110(a)(5)(A), the provision attached to subsection (iii) should be construed narrowly so as to not conflict with the primary purpose of Section 110(a)(5)(A) as a whole. This can be achieved only by interpreting subsection (iii) to require a state to meet the procedural, but not the substantive, requirements of Section 110(a). The legislative history of Section 110(a)(5)(A) also supports this narrow interpretation. The Conference Report states that the prohibition against the Administrator requiring indirect source review extends to his authority to require "as a condition for approval the inclusion or *retention* of these [indirect source review] programs in state implementation plans" (emphasis added). The Report goes on to say that "any state at any time may suspend or revoke such a program". *H.R. Rep. No. 95-564*, 95th Cong., 1st Sess., 126 (1977). The Conference Committee intended that a state should be free to revoke an indirect source regulation as well as refuse to adopt one, without any substantive interference from the EPA.

Furthermore, it was logical for Congress to retain the procedural requirements of the section while dispensing with the substantive requirements. While Congress prohibited EPA's interference with a state's substantive decisions concerning indirect source review, it did not intend that the decision process itself should be free of procedural requirements. The reference to the procedural requirements of Section 110 is necessary to insure that the decision to revoke or retain an indirect source review program is reached openly and with full public participation. Arguably, without the provision, the state's decision would not be subject to the procedural requirements.

The interpretation of the phrase "requirements of this section" in Section 110(a)(5)(A) to mean procedural and not substantive requirements is strictly limited. It is a narrow exception to the normal interpretation based on the unique circumstances surrounding Section 110(a)(5)(A)(iii). EPA continues to interpret all other provisions within Section 110 using this phrase to require SIP revisions to conform to the substantive requirements of Section 110(a)(2) and (3). In particular, except with respect to indirect source regulations, Section 110(a)(3)(A) still requires that SIP revisions not interfere with the attainment and maintenance of the NAAQS. Also, in 1979, all of the states' SIP revisions must be designed to attain and maintain the NAAQS within the required time limits regardless of whether they include an indirect source program or not.

Several commentators opposed to the revision argued that the Connecticut indirect source regulation should not be deleted until the state submits and EPA approves an adequate substitute program, since otherwise the results would have a negative effect on attainment of the standards. EPA is approving this revision, however, on the basis that the congressional intent disfavors mandatory indirect source review programs, without regard to the impact of such action on attainment and maintenance of the NAAQS. All states are required, however, to submit fully adequate SIPs to EPA which comply with the requirements of the Clean Air Act as amended in August of 1977, or suffer the consequences of their failure to do so. A state which chooses to eliminate an indirect source review program must find alternate means of attaining or maintaining standards. Furthermore, although in this context EPA takes no position on whether the Connecticut program, as established or implemented, was effective, it is the agency's position that properly designed and administered programs can have a beneficial effect on attainment and maintenance of standards. EPA is approving the SIP revision not because the Connecticut program was ineffective or unnecessary, but because Connecticut has chosen to eliminate the program and Congress has indicated that EPA should respect that choice.

Some commentators took issue with the condition stated in the proposed approval that, in order for EPA to allow elimination of an indirect source review program, "* * * the state must be proceeding in good faith to revise its plan by the January, 1979 deadline for all non-attainment areas." Some commentators argued that there is no basis for such a condition, while others claimed that Connecticut does not satisfy the condition. EPA agrees that there is no basis for the condition. Section 110(a)(5) contains no such condition. Accordingly, EPA attaches no such condition to this approval. The agency does, of course, intend to hold Connecticut to the requirement that adequate SIP revisions must be submitted within the time frames established in the Clean Air Act.

One commentator stated that the final decision should not be made by the Regional Administrator. This final decision is made by the Administrator. The same commentator listed ways in which the Connecticut SIP is inadequate. As explained above, this decision is made without regard to the overall adequacy of the Connecticut SIP.

Several commentators urged EPA to state that indirect source review programs are only maintenance and not attainment strategies. An indirect source review program could result in location and design of facilities and transportation modes which would reduce total transportation-related emissions and thus assist in attaining, and not just maintaining, standards.

Several commentators cited studies which concluded that indirect source regulations are of doubtful effectiveness. Whatever the experience may be to date with such programs, a properly designed and administered indirect source review program can result in substantial air quality benefits.

Several commentators pointed out that since Connecticut has repealed and deleted the off-street portion of its indirect source program and since EPA is prohibited from promulgating, implementing and enforcing regulations under Section 110(c), if EPA does not approve the revision, private developers would be left in a situation where they could be subject to suit under Section 304 of the Act for failing to obtain a permit, yet no agency could issue a permit. EPA agrees. If the agency were to disapprove the Connecticut revision, private developers in the state would be in an uncertain legal position. EPA could not issue indirect source permits itself since this would require a promulgation of regulations under Section 110(c) and such promulgation is prohibited. The DEP could not issue permits since there is now no state regulation authorizing such permits and the state does not intend to issue any permits. Yet developers could still be subject to suit. Approval of the revision eliminates this problem.

It should be noted, however, that this dilemma alone would not authorize EPA to approve a SIP revision absent a statutory provision similar to section 110(a)(5)(A)(iii).

Several commentators noted that the Connecticut hearing examiner's report contained conclusions that the indirect source regulation had a detrimental effect on air quality. As explained above, EPA takes no position on the substantive impact of the Connecticut regulation and thus neither agrees nor disagrees with the report.

After evaluation of the State's submittal, the Administrator has determined that the Connecticut revision meets the requirements of the Clean Air Act and 40 CFR Part 51. Accordingly, this revision is approved as a revision to the Connecticut Implementation Plan.

Final Agency action is reviewable only as provided under Section 307(b) of the Clean Air Act, as amended.

(Sec. 110(a), Clean Air Act, as amended, (42 U.S.C. 740), *et seq.*)

Dated: January 22, 1979.

DOUGLAS M. COSTLE,
Administrator.

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

PART 65—DELAYED COMPLIANCE ORDERS

Approval of a Delayed Compliance Order Issued by Iowa Department of Environmental Quality to Iowa Valley Milling Company, West Branch, Iowa

V 4 4 / 1 9

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Administrator of EPA hereby approves a Delayed Compliance Order issued by Iowa Department of Environmental Quality to the Iowa Valley Milling Company. The Order requires the company to bring air emissions from its alfalfa dehydrating plant hammermill cyclone at West Branch, Iowa into compliance with certain regulations contained in the federally approved Iowa State Implementation Plan (SIP). Because of the Administrator's approval, Iowa Valley Milling Company's compliance with the Order will preclude suits under the federal enforcement and citizen suit provisions of the Clean Air Act for violation(s) of the SIP regulations covered by the Order during the period the Order is in effect.

DATES: January 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Peter J. Culver or Henry F. Rompage, Environmental Protection Agency, Region VII, 1735 Baltimore, Kansas City, Missouri 64108, Telephone 816/374-2576.

ADDRESSES: A copy of the Delayed Compliance Order, any supporting material, and any comments received in response to a prior FEDERAL REGISTER notice proposing approval of the Order are available for public inspection and copying during normal business hours at: Environmental Protection Agency, Region VII, Enforcement Division, 1735 Baltimore, Kansas City, Missouri 64108.

SUPPLEMENTARY INFORMATION: On November 9, 1978, the Regional Administrator of EPA's Region VII Office published in the FEDERAL REGISTER, 43 FR 52255, a notice proposing approval of a delayed compliance order issued by Iowa Department of Environmental Quality to the Iowa Valley Milling Company. The notice asked for public comments by December 11, 1978, on EPA's proposed approval of the Order. No public comments were received in response to the proposal notice.

Company is approved by the Administrator of EPA pursuant to the authority of Section 113(d)(2) of the Clean Air Act, 42 U.S.C. 7413(d)(2). The Order places Iowa Valley Milling Company on a schedule to bring its alfalfa dehydrating plant hammermill cyclone at West Branch into compliance as expeditiously as practicable with sub rule 400—4.3(2)b I.A.C. Process weight rate, a part of the federally-approved Iowa State Implementation Plan. The Order also imposes emission monitoring and reporting requirements. A finding has been made that the inclusion in the Order of interim emission reduction requirements would be unreasonable. If the conditions of the Order are met, it will permit Iowa Valley Milling Company to delay compliance with the SIP regulations covered by the Order until May 1, 1979. The company is unable to immediately comply with these regulations.

EPA has determined that its approval of the Order shall be effective upon publication of this notice because of the need to immediately place Iowa Valley Milling Company on a schedule which is effective under the Clean Air Act for compliance with the applicable requirement(s) of the Iowa State Implementation Plan.

(Authority: 42 U.S.C. 7413(d), 7601)

Dated: January 15, 1979.

DOUGLAS M. COSTLE,
Administrator.

In consideration of the foregoing, Chapter 1 of title 40 of the Code of Federal Regulations is amended as follows:

PART 65—DELAYED COMPLIANCE ORDERS

By adding the following entry to the table in § 65.201 to read as follows:

§ 65.201 EPA approval of State delayed compliance orders issued to major stationary sources.

[6560-01-M]

[FRL 1034-1]

PART 65—DELAYED COMPLIANCE ORDERS

Delayed Compliance Order for the Town of Kennebunkport, Maine

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Administrator of EPA hereby issues a Delayed Compliance Order to the Town of Kennebunkport, Maine. The Order requires the company to bring air emissions from its open burning dump at Kennebunkport into compliance with certain regulations contained in the federally-approved Maine State Implementation Plan (SIP). Kennebunkport's compliance with the Order will preclude suits under the federal enforcement and citizen suit provisions of the Clean Air Act for violation(s) of the SIP regulations covered by the Order during the period the Order is in effect.

DATE: This rule takes effect on January 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Attorney, Michael Gurchin (617/223-5061), or Engineer, R. W. DiNardo (617/223-5610), both at EPA, Region I, Rm. 2103, JFK Federal Building, Boston, Massachusetts 02203.

ADDRESSES: The Delayed Compliance Order, supporting material, and any comments received in response to a prior FEDERAL REGISTER notice proposing issuance of the Order are available for public inspection and copying during normal business hours at: Enforcement Division, Environmental Protection Agency, Region I, JFK Federal Building, Room 2103, Boston, Massachusetts 02203.

SUPPLEMENTARY INFORMATION: On October 2, 1978, the Regional Administrator of EPA's Region I Office published in the FEDERAL REGISTER, 43 FR 45410, a notice setting out the provisions of a proposed delayed compliance order for the Town of Kennebunkport. The notice asked for public comments and offered the opportunity to request a public hearing on the proposed Order. No public comments or requests for a public hearing were received in response to the proposed notice.

Therefore, a Delayed Compliance Order effective this date is issued to the Town of Kennebunkport by the Administrator of EPA pursuant to the authority of Section 113(d)(1) of the Clean Air Act, 42 U.S.C. 7413(d)(1). The Order places the Town of Kennebunkport on a schedule to bring the open burning dump in Kennebunkport into compliance as expeditiously as practicable with § 100.2.2 of the Maine Air Pollution Control Regulations, a part of the federally-approved Maine State Implementation Plan. The Order also imposes interim requirements which meet Sections 113(d)(1)(C) and 113(d)(7) of the Act and reporting requirements. Although Section 113(d)(1)(C) of the Act requires that emission monitoring be included as part of an order, no reasonable system of emission monitoring is in existence for open burning dumps.

If the conditions of the Order are met, it will permit the Town of Kennebunkport to delay compliance with the SIP regulations covered by the Order until April 1, 1979. The Town is unable to immediately comply with these regulations.

EPA has determined that the Order shall be effective upon publication of this notice because of the need to immediately place the Town of Kennebunkport on a schedule for compliance with the requirement(s) of the Maine State Implementation Plan.

(Authority: 42 U.S.C. 7413(d), 7601)

Dated: January 23, 1979.

DOUGLAS M. COSTLE,
Administrator.

In consideration of the foregoing, Chapter 1 of Title 40 of the Code of Federal Regulations is amended as follows:

PART 65—DELAYED COMPLIANCE ORDERS

1. By amending § 65.240 to read as follows:

§ 65.240 Federal delayed compliance orders issued under Section 113(d) (1), (3), and (4) of the Act.

[FRL 1034-5]

PART 65—DELAYED COMPLIANCE ORDERS

Approval of a Delayed Compliance Order Issued by the Spokane County Air Pollution Control Agency to Suntex Veneer—Division of Boise Cascade

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Administrator of EPA hereby approves a Delayed Compliance Order issued by the Spokane County Air Pollution Control Authority to Suntex Veneer—Division of Boise Cascade. The Order requires the company to bring air emissions from its plywood plant at Spokane, Washington, into compliance with certain regulations contained in the federally approved Washington State Implementation Plan (SIP). Because of the Administrator's approval, Suntex Veneer's compliance with the Order will preclude suits under the federal enforcement and citizen suit provisions of the Clean Air Act for violation(s) of the SIP regulations covered by the Order during the period the Order is in effect.

DATE: January 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Kenneth D. Brooks, EPA, Washington Air Coordinator, Enforcement Division, Mail Stop 513, 1200 Sixth Avenue, Seattle, Washington 98101, telephone 206/442-1387.

ADDRESS: A copy of the Delayed Compliance Order, any supporting material, and any comments received in response to a prior FEDERAL REGISTER notice proposing approval of the Order are available for public inspection and copying during normal business hours at: EPA, Region 10, 1200 Sixth Avenue, Seattle, Washington 98101 (11B, 11th Floor).

SUPPLEMENTARY INFORMATION: On November 13, 1978, the Regional Administrator of EPA's Region 10 Office published in the FEDERAL REGISTER, 43 FR 52500, a notice proposing approval, of a delayed compliance order issued by the Spokane County Air Pollution Control Authority to Suntex Veneer. The notice asked for public comments by December 13, 1978 on EPA's proposed approval of the Order. One citizen comment was received expressing concern over liability. The Delayed Compliance Order only protects the source from suit because of exceeding emission limitations of the State Implementation Plan and does not address liability under other statutes.

Therefore, the delayed compliance order issued to Suntex Veneer is approved by the Administrator of EPA pursuant to the authority of Section 113(d)(2) of the Clean Air Act, 42 U.S.C. 7413(d)(2). The Order places Suntex Veneer on a schedule to bring its plywood plant at Spokane, Washington into compliance as expeditiously as practicable with WAC 18-04-040, a part of the federally approved Washington State Implementation Plan. The Order also imposes interim requirements which meet Sections 113(d)(1)(C) and 113(d)(7) of the Act, and reporting requirements. Monitoring requirements are waived for this order. If the conditions of the Order are met, it will permit Suntex Veneer to delay compliance with the SIP regulations covered by the Order until July 1, 1979. The company is unable to immediately comply with these regulations. EPA has determined that its approval of the Order shall be effective upon publication of this notice because of the need to immediately place Suntex Veneer on a schedule which is effective under the Clean Air Act for compliance with the applicable requirement(s) of the Washington State Implementation Plan.

(Authority: 42 U.S.C. 4713(d), 7601)

Dated: January 22, 1979.

DOUGLAS M. COSTLE,
Administrator.

PART 65—DELAYED COMPLIANCE ORDERS

Approval of a Delayed Compliance Order Issued by the Puget Sound Air Pollution Control Agency to Seattle Steam Corporation

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Administrator of EPA hereby approves a Delayed Compliance Order issued by the Puget Sound Air Pollution Control Agency (PSAPCA) to the Seattle Steam Corporation. The Order requires the company to bring air emissions from its heating plant at Seattle, Washington, into compliance with certain regulations contained in the federally approved Washington State Implementation Plan (SIP). Because of the Administrator's approval, Seattle Steam Corporation's compliance with the Order will preclude suits under the federal enforcement and citizen suit provisions of the Clean Air Act for violation(s) of the SIP regulations covered by the Order during the period the Order is in effect.

DATE: January 29, 1979.

FOR FURTHER INFORMATION CONTACT:

Kenneth D. Brooks, EPA, Washington Air Coordinator, Enforcement Division, Mail Stop 513, 1200 Sixth Avenue, Seattle, Washington 98101, telephone 206/442-1387.

ADDRESSES: A copy of the Delayed Compliance Order, any supporting material, and any comments received in response to a prior FEDERAL REGISTER notice proposing approval of the Order are available for public inspection and copying during normal business hours at: EPA, Region 10, 1200 Sixth Avenue, Seattle, Washington 98101 (11B, 11th Floor).

SUPPLEMENTARY INFORMATION: On November 14, 1978, the Regional Administrator of EPA's Region 10 Office published in the FEDERAL REGISTER, 43 FR 52748, a notice proposing approval of a delayed compliance order issued by the Puget Sound Air Pollution Control Agency to the Seattle Steam Corporation. The notice asked for public comments by December 14, 1978 on EPA's proposed approval of the Order. No comments or requests for public hearing were received.

Therefore, the delayed compliance order issued to Seattle Steam Corporation is approved by the Administrator of EPA pursuant to the authority of Section 113(d)(2) of the Clean Air Act, 42 U.S.C. 7413(d)(2). The Order places Seattle Steam Corporation on a schedule to bring its heating plant at Seattle, Washington into compliance as expeditiously as practicable with PSAPCA Regulation I, Section 9.09(b)(1), a part of the federally approved Washington State Implementation Plan. The Order also imposes interim requirements which meet Sections 113(d)(1)(C) and 113(d)(7) of the Act, and emission monitoring and reporting requirements. If the conditions of the Order are met, it will permit Seattle Steam Corporation to delay compliance with the SIP regulations covered by the Order until July 1, 1979. The company is unable to immediately comply with these regulations. EPA has determined that its approval of the Order shall be effective upon publication of this notice because of the need to immediately place Seattle Steam Corporation on a schedule which is effective under the Clean Air Act for compliance with the applicable requirement(s) of the Washington State Implementation Plan.

(Authority: 42 U.S.C. 7413(d), 7601)

Dated: January 23, 1979.

DOUGLAS M. COSTLE,
Administrator.

In consideration of the foregoing, Chapter I of Title 40 of the Code of Federal Regulations is amended as follows:

Title 41—Public Contracts and Property Management

CHAPTER 51—COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PART 51-1—GENERAL

Definition of Other Severely Handicapped

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Final rule.

SUMMARY: The Committee amends its regulations by redefining the term "other severely handicapped". The new definition is more comprehensive than the definition that is presently used in the regulations. This action is taken in recognition of the definition of the term as it appears in the Rehabilitation Act of 1973, in the implementing regulations issued by the Department of Health, Education, and Welfare, as well as the terms developed in the Comprehensive Needs Study prepared for the Department of Health, Education, and Welfare by the Urban Institute in 1975.

EFFECTIVE DATE: January 26, 1979.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT:

C.W. Fletcher (703) 557-1145.

SUPPLEMENTARY INFORMATION: On October 2, 1978, the Committee published a proposed rule (43 F.R. 45414) to revise paragraph 51-1.2(g) of 41 CFR Part 51-1 to redefine the term "other severely handicapped".

The background and reasons for the redefinition of the term "other severely handicapped" were discussed in the notice announcing the proposed rule.

The proposed definition published in the FEDERAL REGISTER has been changed slightly by inserting in subparagraph (1) the words "or for" after the words "evaluation program conducted by". This change was made to recognize those situations where the evaluation program is conducted for the workshop by an agency other than the workshop itself.

Only one comment was received as the result of the notice in the FEDERAL REGISTER. It was recommended that the definition be expanded to include "behavorial impairments", "mental or emotional conditions", and under functional capabilities, "social competence".

These changes were not considered necessary or appropriate since the proposed definition now includes those emotionally disturbed individuals who have a severe mental impairment resulting from an injury, disease, or congenital defect such that they are unable to engage in normal competitive employment. Additionally, including the proposed words would have the effect of listing a particular illness (emotional disturbance), which may cause or contribute to an individual's disability. This would serve no useful purpose and could result in demands to list a variety of other injuries or illnesses.

Accordingly, 41 CFR Part 51-1 is amended by revising § 51-1.2(g) to read as follows:

§ 51-1.2 Definitions.

* * * * *

(g) "Other severely handicapped" means a person, other than a blind person, who has a severe physical or mental impairment (a residual, limiting condition resulting from an injury, disease, or congenital defect) which so limits the person's functional capabilities (mobility, communication, self-care, self-direction, work tolerance or work skills) that the individual is unable to engage in normal competitive employment over an extended period of time.

(1) Capability for normal competitive employment shall be determined from information developed by an ongoing evaluation program conducted by or for the workshop and shall include, as a minimum, a preadmission evaluation and a reevaluation at least annually of each individual's capability for normal competitive employment.

(2) A person with a severe physical or mental impairment who is able to engage in normal competitive employment because the impairment has been overcome or the condition has been substantially corrected is not "other severely handicapped" within the meaning of this definition.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5657]

ALASKA

Classification of Lands for Selection by the State of Alaska

AGENCY: Bureau of Land Management (Interior).

ACTION: Public Land Order.

SUMMARY: The purpose of this public land order is to classify lands as suitable for selection by the State of Alaska under the provisions of the Alaska Statehood Act and in the process modify and amend numerous public land orders.

EFFECTIVE DATE: January 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Beau McClure, 202-343-3078 or Bob Sorenson, Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99510.

By virtue of the authority vested in the Secretary of the Interior by Section 17(d)(1) of the Alaska Native Claims Settlement Act, 85 Stat. 688, 708, and pursuant to Section 204 of the Act of October 21, 1976, 90 Stat. 2751, 43 U.S.C. 1714, it is ordered as follows:

1. Subject to valid existing rights the following described lands are hereby classified as suitable for State selection and the listed public land orders are modified and amended to the extent necessary to open the lands described in this paragraph to State selection; such classification and opening shall not attach to any lands segregated pursuant to Section 204(b) of the Act of October 21, 1976, or any applicable regulation, including but not limited to 43 CFR 2653, until such segregation is vacated and the land is not otherwise withdrawn:

SEWARD MERIDIAN

Tps. 29 and 30 N., Rs. 1 through 11E.
T. 31 N., Rs. 1 through 9 E.
T. 31 N., R. 10 E., sections 19 through 36.
T. 32 N., Rs. 1 through 7 E.
T. 33 N., R. 1 E.
T. 33 N., R. 2 E., sections 4 through 9, 16 through 21, 28 through 33.
T. 29 N., R. 1 W.
T. 30 N., Rs. 1 and 2 W.
Tps. 31 through 33 N., R. 1 W.

The lands described in this subparagraph *f* are contained in Public Land Order 5174 of March 9, 1972, as amended by Public Land Order No. 5256 of September 12, 1972, and Public Land Order No. 5421 of February 7, 1974.

The areas described aggregate approximately 16 million acres.

2. Any portion of any township described in paragraph 1 which lies within the National Park, Wildlife Refuge, or Forest Systems, any National Monument, or within the areas described in Public Land Order 5653, as modified by Public Land Order No. 5654, is not classified and opened to selection by the State of Alaska, except those lands described in Public Land Order No. 5653, as modified by Public Land Order No. 5654, which were also described in paragraph 5 of the Memorandum of Understanding of September 1, 1972, between the State of Alaska and the United States.

3. This public land order is not intended to modify, amend, or revoke any withdrawal, reservation, or appropriation of the lands described in paragraph 1, whether by Executive Order, proclamation, public land order, or otherwise, unless such order of withdrawal is expressly listed in paragraph 1. Land classifications made pursuant to Public Law 88-607, 78 Stat. 986, *et seq.* (the Classification and Multiple Use Act of 1964), are hereby modified only to the extent necessary to permit the State of Alaska to select the above described lands. The orders of withdrawal listed in paragraph 1 are modified and amended only to the extent necessary to open to State selection those lands specifically described in paragraph 1.

4. It is hereby determined that the promulgation of this public land order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, 83 Stat. 852, 42 U.S.C. 4332(2)(C), is required.

Dated: January 22, 1979.

CECIL D. ANDRUS,
Secretary of the Interior.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 0—COMMISSION ORGANIZATION

Editorial Amendments Concerning Delegations of Forfeiture Authority to the Staff

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This Order corrects an error in the monetary limit on authority delegated to three staff units to impose forfeitures. The document corrected appears at 43 FR 52244, November 9, 1978.

EFFECTIVE DATE: February 2, 1979.

ADRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Upton Guthery, Office of General Counsel, (202) 632-6444.

Adopted: January 17, 1979.

Released: January 18, 1979.

Order. In the Matter of Editorial Amendment of Delegations of Forfeiture Authority to the Staff.

1. In a recent Order delegating authority to the staff (FCC 78-767, November 2, 1978, 43 FR 52244, November 9, 1978), we inadvertently set the monetary limit for forfeitures imposed by the Broadcast and Common Carrier Bureaus at $3999 rather than $4000 as intended, and set the limit for the Safety and Special Radio Services Bureau at $1999 rather than the intended $2000. This Order corrects those errors.

2. Authority for these amendments is contained in Sections 4(i), 5(d), 503(b) and 504(b), of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 155(d), 503(b) and 504(b). Because the amendments are editorial and concern internal organization, the prior notice and effective date provisions of 5 U.S.C. 553 are inapplicable.

3. *Accordingly, it is ordered,* Effective February 2, 1979, That Part 0 of the Rules is amended as set out in the attached appendix.

V 4 4 / 1 9 J A 2 6 7 9 UMI

(Secs. 4, 5, 503, 504, 48 Stat., as amended, 1066, 1068, 1101; (47 U.S.C. 154, 155, 503, 504)).

R. D. LICHTWARDT,
Executive Director.

APPENDIX

Part O of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 0.281(c)(3) is revised to read as follows:

§ 0.281 Authority delegated.

• • • • •

(c) • • •

(3) Notices of opportunity for hearing pursuant to § 1.80(g) of this chapter; and notices of apparent liability, final forfeiture orders, and orders cancelling or reducing forfeitures imposed under § 1.80(f) if the amount set out in the notice of apparent liability is more than $4000.

• • • • •

2. Section 0.291(g) is revised to read as follows:

§ 0.291 Authority delegated.

• • • • •

(g) *Authority concerning forfeitures.* Authority to issue a notice of opportunity for hearing pursuant to § 1.80(g) of this chapter; and authority to issue notices of apparent liability, final forfeiture orders, and orders cancelling or reducing forfeitures imposed under § 1.80(f) if the amount set out in the notice of apparent liability is more than $4000.

3. Section 0.331(a)(9) is revised to read as follows:

§ 0.331 Authority delegated.

• • • • •

(a) • • •

(9) Authority to issue a notice of opportunity for hearing pursuant to § 1.80(g) of this chapter; and authority to issue notices of apparent liability, final forfeiture orders, and orders cancelling or reducing forfeitures imposed under § 1.80(f) if the amount set out in the notice of apparent liability is more than $2000.

• • • • •

[FR Doc.79-2819 Filed 1-25-79; 8:45 am]

PART 1—PRACTICE AND PROCEDURE

Editorial Amendment Concerning Petition for Reconsideration

AGENCY: Federal Communications Commission.

ACTION: Final Rule.

SUMMARY: Because all final action documents in rule making proceedings are not published in the FEDERAL REGISTER, the FCC is amending its rules to provide that petitions for reconsideration of final actions in rule proceedings may be filed within 30 days after the text is published or, if the document is not published, within 30 days after the text is released. This editorial amendment resolves an interval inconsistency in the rules.

EFFECTIVE DATE: February 2, 1979.

ADDRESS: Federal Communications, Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Upton Guthery, Office of General Counsel 202-632-6444.

SUPPLEMENTARY INFORMATION:

Adopted: January 17, 1979.

Released: Janaury 18, 1979.

Order. In the Matter of Editorial Amendment of Section 1.429; Rules of Practice and Procedure.

1. Section 1.429(d) provides that petitions for reconsideration of final actions in rule making proceedings may be filed within 30 days after the text of the action is published in the FEDERAL REGISTER. When a proceeding is terminated without the adoption of rules, however, the action document is not always published in the Federal Register. To provide for such situations and to eliminate an inconsistency in the rules, it is appropriate to amend Section 1.429 to provide for the filing of petitions for reconsideration within 30 days after the action document is released.

2. The amendment is set out in the attached Appendix. Authority for the amendment is set out in Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i) and 303(r), and in § 0.231(d) of the Commission's rules, 47 CFR 0.231(d). Because the amendment is editorial and procedural in nature, the prior notice and effective date provisions of 5 U.S.C. 553 are inapplicable.

3. *Accordingly, it is ordered,* Effective February 2, 1979, That § 1.429 of the rules is amended as set out in the Appendix hereto.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082; (47 U.S.C. 154, 303))

R. D. LICHTWARDT,
Executive Director.

In part 1 of Chapter I of Title 47 of the Code of Federal Regulations, the first sentence of Section 1.429(d) is revised to read as follows:

§ 1.429 Petition for reconsideration

• • • • •

(d) The petition for reconsideration and any supplement thereto shall be filed within 30 days after publication in the FEDERAL REGISTER of the document containing the full text of the action taken or, if the document is not published, within 30 days after the full text of the document is released. • • •

• • • • •

[FR Doc. 79-2818 Filed 1-25-79; 8:45 am]

[4910-62-M]

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1; Amdt. No. 1-137]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Delegation to the Commandant of the Coast Guard

AGENCY: Department of Transportation.

ACTION: Final rule.

SUMMARY: The purpose of this amendment is to delegate to the Commandant of the Coast Guard functions vested in the Secretary by the Natural Gas Pipeline Safety Act of 1968 as it relates to liquefied natural gas (LNG) facilities, on, in, or adjacent to the navigable waters of the United States.

EFFECTIVE DATE: This amendment is effective on January 26, 1979.

FOR FURTHER INFORMATION CONTACT:

Lieutentant Commander Edward H. Bonekemper, III, U.S. Coast Guard, Port Safety and Law Enforcement Division (G-WLE-1/73), United States Coast Guard, 400 Seventh Street, S.W., Washington, D.C. 20590 (202-426-1927).

SUPPLEMENTARY INFORMATION: Since the amendment relates to the organization of the Department of Transportation, it is excepted from the notice and public comment requirements of the Administrative Procedure Act (5 U.S.C. 533). Also, because this amendment is not a substantive rule, publication in the FEDERAL REGISTER not less than 30 days before the effective date is not required.

DRAFTING INFORMATION

The principal persons involved in drafting this rule are: Lieutenant Commander Edward H. Bonekemper, III, Project Manager, Office of Marine Environment and Systems, U.S. Coast Guard; Robert Beauregard, Office of the Chief Counsel, Research and Special Programs and Special Programs Administration; and Richard R. Clark, Office of the General Counsel, Office of the Secretary.

DISCUSSION

Effective February 7, 1978, the U.S. Coast Guard (USCG) and the Materials Transportation Bureau (MTB) executed a Memorandum of Understanding (MOU) with respect to a division of regulatory responsibility for waterfront LNG facilities. This MOU was published in the FEDERAL REGISTER on July 14, 1978 (43 FR 30381).

The division of responsibilities agreed to in the MOU was considered necessary due to the overlapping regulatory authority of the USCG and the MTB affecting the siting, design, construction, operation, and maintenance of waterfront LNG facilities. The authority of the USCG over such facilities is derived from the Ports and Waterways Safety Act of 1972 (33 U.S.C. 1221-1227) (PWSA) and the Magnuson Act (50 U.S.C. 191). The regulatory authority of the MTB over these same facilities is derived from the Natural Gas Pipeline Safety Act of 1968, as amended (49 U.S.C. 1671 *et seq.*) (NGPSA) and the Hazardous Materials Transportation Act (49 U.S.C. 1801 *et seq.*).

By the terms of the MOU, the USCG will establish, and the MTB will refrain from establishing, regulatory requirements for: (1) Facility site selection as it relates to management of vessel traffic in and around a facility; (2) fire prevention and fire protection equipment, systems, and methods for use at a facility; (3) security of a facility; and (4) all other matters pertaining to the facility between the vessel and the last manifold (or valve) immediately before the receiving tank(s).

Absent the MOU, such matters would be subject to the regulatory authority of the NGPSA, including that Act's Section 3 which addresses the regulatory authority of States over gas pipeline facilities:

"Any State Agency may adopt additional or more stringent standards for intrastate pipeline transportation if such standards are compatible with the Federal minimum standards. No State agency may adopt or continue in force any such standards applicable to interstate transmission facilities, after the Federal minimum standards become effective." (49 U.S.C. 1672(b))

In executing the MOU it was neither the USCG's nor the MTB's intention to alter the overall DOT/State relationship with respect to regulation of waterfront LNG facilities under the NGPSA. However, if the USCG were to regulate the above four matters only under the authority of the PWSA and the Magnuson Act, such a relationship would be altered because neither of these statutes provides the Federal preemptive authority of the NGPSA. If this were permitted, a given facility could be subject to the unacceptable situation of a nonuniform approach to Federal/State regulation.

For the purpose of assuring continued uniform regulation of an entire waterfront LNG facility, the delegation of authority made by this amendment will permit the USCG to carry out its regulatory responsibilities under the MOU with the same preemptive powers already available to the MTB. It is not intended that this delegation, for this specific purpose, affect in any way the existing delegation of authority to the MTB to carry out the functions vested in the Secretary by the NGPSA (*see* 49 CFR 1.53(a) and APP. A to Part I).

In consideration of the above, Part I of Title 49 of the Code of Federal Regulations is amended by adding a new § 1.46(y) to read as follows:

§ 1.46 Delegation to the Commandant of the Coast Guard.

• • • • •

(y) Carry out the functions and responsibilities vested in the Secretary by the Natural Gas Pipeline Safety Act of 1968, as amended (49 U.S.C. 1671 et seq.) relating to rulemaking so far as it applies to liquefied natural gas facilities adjacent to the navigable waters of the United States: *Provided,* That such rulemaking is in accordance with the Memorandum of Understanding between the Coast Guard and Materials Transportation Bureau executed on February 7, 1978, for regulation of such facilities.

• • • • •

(Sec. 9(e), Department of Transportation Act (49 U.S.C. 1657(e)).)

Issued in Washington, D.C., on January 18, 1979.

BROCK ADAMS,
Secretary of Transportation.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

Opening of the Red Rock Lakes National Wildlife Refuge, Montana, to Sport Fishing

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulations.

SUMMARY: The Director has determined that the opening to sport fishing on the Red Rock Lakes National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource and will provide additional recreational opportunities to the public.

DATES: Fishing season is open from the third Saturday in June through November. (June 16 through November 30, 1979.)

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, Red Rock Lakes National Wildlife Refuge, Monida Star Route, Box 15, Lima, Montana 59739; phone (406) 276-3347 or Area Manager, U.S. Fish & Wildlife Service, Federal Building, 316 North 26th Street, Billings, Montana 59101; phone (406) 657-6115.

SUPPLEMENTARY INFORMATION:

§ 33.5 Special regulations, sport fishing; for individual wildlife refuge areas.

Sport fishing is permitted on the Red Rock Lakes National Wildlife Refuge, Montana, as posted. All areas open to fishing are delineated on maps available at the refuge headquarters and from the office of the Area Manager, U.S. Fish and Wildlife Service, Federal Building, 316 North 26th Street, Billings, Montana 59101. Sport fishing shall be in accordance with all applicable State of Montana regulations subject to the following special conditions:

1. Boats with motors are prohibited.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 33. The public is invited to offer suggestions and comments at any time.

NOTE.—The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement

Title 29—Labor

SUBTITLE A—OFFICE OF THE SECRETARY

PART 97—SPECIAL FEDERAL PROGRAMS AND RESPONSIBILITIES UNDER THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Subpart F—Youth Incentive Entitlement Pilot Projects: Changes

AGENCY: Department of Labor.

ACTION: Final rules.

SUMMARY: The Department is amending the Youth Incentive Entitlement Pilot Project regulations with respect to extending the period of intake of youths into the program and with respect to allowing participants full-time work during school vacations. The amendments will clarify provisions that the school year does not include school breaks of five consecutive days or more to permit youths employment when school is not in session and will reflect the extension of the program for an additional year.

EFFECTIVE DATE: January 16, 1979.

FOR FURTHER INFORMATION CONTACT:

Robert Taggart, Administrator, Office of Youth Programs, U.S. Department of Labor, 601 D Street, NW., Washington, D.C. 20213, Phone—202-376-7086.

SUPPLEMENTARY INFORMATION: On May 30, 1978, the Department of Labor published in the FEDERAL REGISTER final regulations to implement the Youth Incentive Entitlement Pilot Projects under the Youth Employment and Demonstration Projects Act of 1977 (YEDPA).

At this time the Department is amending three sections of the regulations for the Entitlement program. This action is being taken in order to deal with operational problems of the Entitlement projects in the period before regulations are to be published to implement the CETA Amendments of 1978 (Pub. L. 95-524).

These changes will be incorporated into the proposed Entitlement regulations under the CETA Amendments of 1978 (Pub. L. 95-524), when they are published.

Under Section 4(d) of Pub. L. 95-524 the Department may waive the requirements as to rulemaking in implementing the eligibility provisions for CETA. Accordingly, these regulations are being published in final form, effective immediately. The changes are as follows:

In § 97.507, *Preapplication specifications*, Paragraph (i)(1)(i), and in § 97.523, *Administrative provisions; hearing provisions, and limitations on use of funds*, Paragraph (d), that limit the maximum paid program time to 20 hours a week during the school year or 40 hours per week during the summer, these paragraphs are revised to clarify that the school year does not include school breaks of 5 consecutive days or more. The revision reflects the intent of the program that youths be limited in the hours they can work while attending school, but that they be allowed to work full-time when school is not in session (i.e., for Christmas and Spring vacations as well as during the summer).

In § 97.516, *Eligibility of participants*, Paragraph (f) is changed to remove the sentence, "No youths may be enrolled in the program after December 31, 1978." This change is made to allow intake after December 31, 1978, since the program has been extended an additional year.

Accordingly, Title 29 of the Code of Federal Regulations is amended as follows:

1. Section 97.507(i)(1)(i) is revised to read as follows:

Subpart F—Youth Incentive Entitlement Pilot Projects

§ 97.507 Preapplication specifications.

* * * * *

(i) *Work-Site Development*—(1) *General.* (i) The employment or combination of employment and training guaranteed under this program is intended to be year-round with no limitation on the period of enrollment. However, this guarantee shall not exceed 20 hours per week for each youth employed during the school year, nor 40 hours per week during the summer and during school year breaks of 5 consecutive school days or more. During the school year, the guarantee must extend for at least 6 months and during the summer for at least 8 weeks. This guarantee shall not be provided to each youth for less than 10 hours per week during the school year and not less than 30 hours per week during the summer.

* * * * *

2. Section 97.516(f) is revised to read as follows:

§ 97.516 Eligibility of participants.

* * * * *

(f) Since jobs during the school year must last at least 6 months, and jobs in the summer must last at least 8 weeks, no youth may be enrolled in the program if the grant will end before the youth can complete the required period of employment.

3. Section 97.523(d) is revised to read as follows:

§ 97.523 Administrative provisions; hearing provisions; and limitations on use of funds.

* * * * *

(d) No funds under the Entitlement program may be used to pay for time spent in the Entitlement program by an enrollee in excess of 20 hours a week during the school year, or 40 hours per week during the summer and during school year breaks of 5 consecutive days or more. The minimum paid program time guaranteed for each employed youth shall be 10 hours per week during the school year and 30 hours per week during the summer.

Signed at Washington, D.C., this 16th day of January 1979.

RAY MARSHALL,
Secretary of Labor.

[4510-26-M]

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

[Docket No. H-052A]

PART 1910—OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Occupational Exposure to Cotton Dust; Cotton Waste Processors and Users; Lifting of Administrative Stay

AGENCY: Occupational Safety and Health Administration, Labor.

ACTION: Lifting of administrative stay of the cotton dust standard.

SUMMARY: This notice reinstates the application of the cotton dust standard, 29 CFR 1910.1043 (43 FR 27350), as it pertains to the cotton waste processing industries and employers who are purchasers and users of cotton batting, including employers in mattress, upholstered furniture, and automotive assembling industries. After careful review of the NIOSH health hazard evaluation survey of employees in two Stearns and Foster mattress plants, and an evaluation of the comments submitted in response to the FEDERAL REGISTER Notice of Friday, September 1, 1978 concerning this NIOSH survey, OSHA has concluded that a permanent suspension of the cotton dust standard for these pertinent industries is unwarranted and that the temporary suspension issued on that date should be rescinded.

EFFECTIVE DATE: The cotton dust standard as it pertains to the cotton waste processing industries is effective on March 4, 1979.

FOR FURTHER INFORMATION CONTACT:

OSHA, Room S-5526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210, Gary Adams, telephone (202) 523-7177.

SUPPLEMENTARY INFORMATION: The Occupational Safety and Health Administration (OSHA), in the FEDERAL REGISTER issue of June 23, 1978 (43 FR 27350), published a final occupational safety and health standard, pursuant to section 6(b) of the act, regulating worker exposure to cotton dust. The standard applies to all industries in which employees are exposed to cotton dust, with certain specified exceptions, and requires employers to take prescribed measures to control employee exposure to cotton dust. The standard was effective September 4, 1978, and, with limited exceptions, was applicable to all non-textile industries, including cottonseed oil mills, waste processing and use of cotton batting, as well as to the textile industry. On October 20, 1978, the U.S. Court of Appeals for the District of Columbia Circuit stayed the effective date of the cotton dust standard pending a decision of the merits of petitions for review before that Court. Accordingly, the agency's present action will not affect the waste processing industry while this judicial stay is in force.

On August 21, 1978, OSHA received a request for an administrative stay of the standard from the National Cotton Batting Institute and the Textile Fibers and By-Products Association, with respect to the cotton waste processing industries and employers who are purchasers and users of batting containing cotton. This request brought to OSHA's attention a draft report of a NIOSH health hazard evaluation of Stearns and Foster Company's garnetting and mattress workers. This report was not available prior to promulgation of the final standard. Upon preliminary review of this report, OSHA detemined that the information it presented warranted further review and analysis. While this new evidence was received after the close of the cotton dust record, and therefore did not have to be considered as part of this proceeding, OSHA chose to invite comment on the significance of this evidence and, in the meantime, to suspend the cotton dust standard as it pertained to the waste processing industries and users of cotton batting. NIOSH submitted a final version of the health hazard evaluation for purpose of comment on August 31, 1978.

Thirty-three comments were received in response to OSHA's request. Comments concerning the study were submitted by the Wolf Corporation, State of North Carolina, the Motor Vehicle Manufacturers Association, the National Cotton Batting Institute and the Textile Fibers and By-Products Association, the National Association of Bedding Manufacturers, and the National Cotton Council of America. NIOSH also submitted comments along with its final evaluation report on the health hazard in the Stearns and Foster plants. (In addition to these comments twenty-four were submitted by representatives of specific cotton industries employing the blind and did not comment on the study but instead sought an exemption from the cotton dust standard.)

After evaluation of this report and the written comments submitted concerning it, the Assistant Secretary has determined that further proceedings such as reopening the record for additional comments or instituting new rulemaking proceedings are not warranted, and that the standard should be applied to these industries. The reasons for this conclusion are set forth in the following section.

Evaluation of the NIOSH Health Hazard Survey: In April of 1977, the NIOSH Health Hazard Evaluation team conducted a study at the Stearns and Foster Mattress Company in Cincinnati, Ohio. The study consisted of medical and environmental data involving 54 of 75 available workers in one old and one new facility. Nineteen of these individuals were garnett workers, nineteen were tape edgers, and sixteen were sorters. No external control group was studied.

Pulmonary function testing was conducted before and after a Monday shift. Environmental monitoring was carried out simultaneously by vertical elutriation and personal sampling techniques. Dust level exposures measured by vertical elutriator for garnett workers averaged 1,500 $\mu g/m^3$ and 710 $\mu g/m^3$ in the old and new plants respectively; quilting and tape department workers were exposed to 180 $\mu g/m^3$ and 170 $\mu g/m^3$, and sorters were exposed to 340 $\mu g/m^3$ and 110 $\mu g/m^3$, in respective old and new facilities. Responses to questionnaires were also collected.

In their comments, NIOSH pointed out the obvious health features of the data. Acute pulmonary effects of exposure are discernable in the significant declines in FEV, (16/54 workers greater than 5% drop over the shift), and FVC in all three occupational categories of garnett, tape edgers and sorting. In addition, evidence of chronic pulmonary effect of exposure is demonstrated in the garnett worker group which exhibited an observed/predicted FEV, ratio of 91.5% compared to quilters and tape edgers (101%), and sorters (97%). In quilting and tape edge and sorting departments, dust levels measured by vertical elutriator varied from 110 $\mu g/m^3$ to 340 $\mu g/m^3$, yet significant acute broncho-constriction was evident among a substantial number of workers exposed at these low levels. NIOSH further noted that the pulmonary function declines observed among these workers are similar to declines observed among workers in primary textiles at similar dust levels. Byssinosis, as defined by questionnaire response, was found in one worker who also had an 11% drop in his FEV, over the shift.

Comments submitted by industry groups such as the National Cotton Batting Institute, and the Textile Fibers and By-Products Association, were similar in content. They can be summarized as follows: (1) The worker population involved in this study is small in comparison to the total population at risk; (2) no comparative relationships can be made between this worker population and other worker populations exposed to cotton dust with respect to race, age, smoking habits, years of exposure, etc; (3) the extent of respirator usage was never quantified; and (4) changes in pulmonary funtion could not be correlated with concentrations of dust present. These comments argue the impossibility of drawing any firm conclusions concerning the validity of this study or of relating dose to response from this data for the industry. These parties conclude that neither this latest NIOSH health hazard evaluation nor any other evidence in the cotton dust record supports the existence of a hazard from cotton dust in the cotton waste industries, and thus the cotton dust standard should not be applied to this segment of the cotton industry.

OSHA, based upon its review of this data, concluded that the appearance of one case of medically definable byssinosis, the large number of workers (16) with significant over-the-shift pulmonary function changes, the similarity observed between decrements among guilters and sorting workers, the decrements observed in the primary textile industry at similar dust levels and the likelihood that differential use of respirators masked some health effects, all tend to support OSHA's decision to include non-textile

JAN 26 1979 UMI

V 4 4 / 1 9

cotton waste processors and users within the scope of the final standard. The evidence contained in this latest NIOSH survey is compatible with other non-textile studies which indicate the presence of adverse health effects upon exposure to cotton dust wherever cotton is handled. Surely, nothing in the study supports the exemption of the cotton batting of waste utilization industry from the standard.

With respect to the scope of the survey, OSHA agrees with NIOSH which stated in the summary of the study that, "no firm conclusions can be drawn from this study and no generalizations to this segment of the cotton industry should be attempted." In effect, the latest NIOSH survey shares common features with the other studies in the record, that is, evidence of significant health effects upon exposure, but inadequate information for determining a dose-response relationship. Until a larger and more complete study is conducted to explain the dose-response relationship in these industries, no evidence exists to justify modification of the standard.

Therefore, in view of the health effects evident even in this limited NIOSH survey, the data contained in the final report by NIOSH and the comments submitted provide no basis for permanently suspending the cotton dust standard with respect to the waste processing industries and users of cotton batting, or for instituting further rulemaking proceedings at this time. OSHA concludes, as NIOSH did, that the OSHA standard must be complied with in order to ensure adequate worker safety and health.

In order to give affected parties an adequate period of time to comply with the standard, the effective date of the standard as it pertains to the waste industry is March 4, 1979. All other startup dates in the standard will be similarly delayed 6 months, as will the date for final implementation of the compliance plan.

This document was prepared under the direction of Eula Bingham, Assistant Secretary of Labor for Occupational Safety and Health, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210.

(Secs. 4, 6, 8, 84 Stat. 1593; 29 U.S.C. 653, 655, 657; 19 CFR Part 1911; Secretary of Labor's Order No. 8-76 (41 FR 25059))

Signed at Washington, D.C. this 23rd day of January 1979.

EULA BINGHAM,
Assistant Secretary of Labor.

CHAPTER XXV—PENSION AND WELFARE BENEFIT PROGRAMS, DEPARTMENT OF LABOR

PART 2520—RULES AND REGULATIONS FOR REPORTING AND DISCLOSURE

Revision of Schedule B (Actuarial Information) and Permanent Waiver of Certain Actuarial Information in the Annual Report

AGENCY: Department of Labor.

ACTION: Adoption of a form and final regulation.

SUMMARY: This document contains (1) a revision of Schedule B (actuarial information) which is attached by certain employee benefit plans to the annual report filed under the Employee Retirement Income Security Act of 1974 (ERISA); and (2) a final regulation which waives a requirement of ERISA that certain actuarial information be included in the annual report. These actions will affect all defined benefit pension plans that are subject to the minimum funding standards of Part 3 of Title I of ERISA and section 412 of the Internal Revenue Code of 1954, as amended.

EFFECTIVE DATE: Plan years beginning January 1, 1978, and thereafter.

FOR FURTHER INFORMATION CONTACT:

Lottie Lisle, Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4461, Washington, D.C. 20216, 202-523-9211. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: On September 26, 1978, notice was published in the FEDERAL REGISTER (43 FR 43696) of proposed revisions to Schedule B (actuarial information) which must be filed under section 103(d) of ERISA as an attachment to the annual return/report (5500 series) by all defined benefit pension plans that are subject to the minimum funding standards of Part 3 of Title I of ERISA and section 412 of the Internal Revenue Code of 1954, as amended. These revisions were designed to achieve uniformity in the reporting of certain actuarial data, and to assist interested persons in determining the benefit obligations of an ongoing pension plan and in assessing the adequacy of the assets of a pension plan to meet its benefit obligations. The notice also announced that if certain proposed changes to the schedule B were adopted, the Department contemplated adopting a permanent waiver from the requirements of section 103(d)(6) of ERISA.

All interested persons were invited to submit comments on the proposals. In addition, pursuant to notice published in the FEDERAL REGISTER (43 FR 52789, November 14, 1978), a public hearing was held on November 20, 1978, in which interested persons were afforded the opportunity to present their views on the Department's proposals.

After considering the written comments and the testimony at the public hearing, the Department has determined to adopt a Schedule B which is revised in several respects from that which was proposed and to adopt a regulation permanently waiving the requirement to file the specific information required by section 103(d)(6) of ERISA.[1]

While, as discussed below, changes have been made to the Schedule B, certain important aspects of the proposal have been retained. These include: (1) The requirement that a uniform method—the accrued benefit cost (unit credit) method—be used to calculate the present value of accrued benefits; (2) that plans with less than 100 participants not be required to disclose the present value of accrued benefits; (3) that the assumptions used in calculating the accrued benefits be based on expectations relating to an ongoing rather than a terminating plan; and (4) that the major assumptions used be disclosed on the schedule B itself.

I. SCHEDULE B—DISCUSSION OF SIGNIFICANT COMMENTS AND CHANGES TO THE FORM.

A. End of Plan Year Basis. The proposed revision to the Schedule B would have required that the present value of accrued benefits be determined as of the end of the plan year to facilitate comparison between the value of plan assets as reported on the annual report and the plan's accrued benefit liabilities as reported on the Schedule B. The instructions provided that, for plans using a valuation date other than the end of the plan year, a reasonable estimate of the value of accrued benefits as of the end of the plan year could be projected from the most recent actuarial valuation.

According to the public comments, actuaries generally choose a valuation date other than the end of the plan year. If all plans were required to calculate plan liabilities as of the end of the plan year, this would, in the view of the commentators, increase costs to

[1] Section 103(d)(6) requires that a plan's actuarial statement include the present value of all of the plan's liabilities for nonforfeitable pension benefits allocated by the termination priority categories set forth in section 4044 of ERISA and the actuarial assumptions used in these computations.

affected plans. The commentators also indicated that valuations are generally made at the beginning of the plan year and further calculations, sometimes at substantial cost, would be required in order to project values as of, or to revise estimates at, the end of the plan year in the light of events during the year.

In view of the comments received, the Department has decided to require that the present value of accrued benefits should be determined as of the beginning of the plan year. This requirement should minimize costs to plans while permitting some degree of comparability between information in the Schedule B and in the annual report.

B. Statement of the Present Value of Accrued Benefits. As proposed, Schedule B would have required that for plan years beginning in 1979, all plans with more than 100 participants must provide information with respect to: (a) The present value of vested benefits for (1) retired participants and beneficiaries receiving payments and (2) other participants (with figures for both categories calculated on a historical basis, i.e., based on service performed by, and compensation earned by, employees prior to the end of the plan year); (b) the present value of nonvested accrued benefits, also calculated on a historical basis; and (c) the present value of additional accrued benefits calculated on a projected basis.

A number of comments urged the Department to delete the proposed requirement to disclose the present value of additional accrued benefits based on projections, particularly since the projections would be limited to salary increases. The commentators argued that the proposed requirement would substantially increase plans' actuarial costs, that the resulting figure would not be meaningful, that it is rarely calculated in practice, and that it would distort comparisons between final average salary plans and plans such as flat benefit or career average plans. The Department has considered these comments and has decided to delete this requirement because it appears that the benefits of disclosing the present value of additional accrued benefits on a projected basis are not justified in view of the additional costs that would be incurred by plans.

C. Actuarial Assumptions. The instructions to the Schedule B, as proposed, would have required that each actuarial assumption used in calculating the present value of accrued benefits be reasonable.

A number of commentators indicated that the appropriateness of the actuarial assumptions used for any particular plan can only be evaluated in the aggregate, by examining aggregate gain or loss during any year or number of years. If the gains or losses remain relatively small, the commentators argued, there is no need to modify any of the assumptions. The commentators also argued that the requirement would be inconsistent with Congressional intent that the actuarial assumptions used in calculating plan liabilities be reasonable in the aggregate. In response to these comments the Department has deleted the requirement that each assumption must be individually reasonable.

D. Explanation of Differing Actuarial Assumptions. In the case where the assumptions used for the calculation of the present value of accrued benefits differ from those used in the calculation of the funding standard account, the proposed instructions to the Schedule B would have required the actuary to explain the reasons for the differences and to provide an estimate of the approximate effect of using different assumptions. Numerous comments stated that it would be difficult to estimate the effect of using different assumptions, and that any such estimate would involve substantial costs for plans. The Department has considered these comments and has modified its proposal. As adopted, the instructions to the Schedule B require the actuary to set forth the reasons for any differences in the assumptions used, but do not require an estimate of the financial effect of such differences.

In addition to the changes discussed above, minor changes have been made in response to comments which noted several technical inconsistencies in the instructions to the Schedule B.

II. PERMANENT WAIVER OF SECTION 103(d)(6)

Section 103(d)(6) provides that the actuarial statement required by section 103(d) must include the present value of the plan's liabilities for nonforfeitable pension benefits allocated by termination priority categories as set forth in section 4044 of ERISA, and the actuarial assumptions used in these computations. Under section 104(a)(2)(A) of ERISA, the Secretary of Labor may waive the requirements of section 103(d)(6). In order to waive these requirements, however, the Secretary must find that:

(i) the interests of the plan participants are not harmed thereby and (ii) the expense of compliance with the specific requirements of section 103(d)(6) is not justified by the needs of the participants, the Pension Benefit Guaranty Corporation, and the Department of Labor * * *.

For plan years 1975, 1976 and 1977, the Secretary waived the requirements of section 103(d)(6) based on the findings that: (1) The information required under section 103(d)(6) is primarily important to a plan which is terminating and would be of little relevance to participants or the Secretary in the case on ongoing plans; (2) the requirements of section 103(d)(6) would add considerable expense and time to the preparation of the actuarial statement; and (3) the PBGC expressed no need for this information on an annual basis.

At the time the revisions to Schedule B were proposed, the Department announced that if certain changes to the Schedule B were adopted, the Department would issue a permanent waiver from the requirements of section 103(d)(6) of ERISA. The public comments received generally supported such a permanent waiver.

It appears that the information submitted in response to questions 6 (d) and (e) of the revised Schedule B should provide interested persons with sufficient information with respect to plan liabilities. It further appears that the information which would be provided under section 103(d)(6) would be of little interest to plan participants, PBGC and the Department, and would impose considerable expense on plans. Accordingly, the Department finds that the interests of the plan participants are not harmed by the adoption of § 2520.104-42—which provides a permanent waiver from the requirements of section 103(d)(6) of ERISA—and that the expense of compliance with the specific requirements of section 103(d)(6) is not justified by the needs of the participants, PBGC and the Department.

Pursuant to the authority in sections 103(d), 109(a) and 505 of ERISA, Pub. L. 93-406, 88 Stat. 840-852, 894 (29 U.S.C. 1023, 1029), Schedule B to the annual return/report (5500 series) and the instructions thereto are hereby amended to read as follows:

JAN 26 1979
UMI

[4510-29-C]

SCHEDULE B (Form 5500)
Department of the Treasury
Internal Revenue Service
Department of Labor
Pension and Welfare Benefit Programs
Pension Benefit Guaranty Corporation

Actuarial Information

This schedule is required to be filed under section 104 of the Employee Retirement Income Security Act of 1974, referred to as ERISA, and section 6059(a) of the Internal Revenue Code, referred to as the Code.

▶ Attach to Forms 5500, 5500–C and 5500–K if applicable.

1978

This Form is Open to Public Inspection

For plan year beginning , 1978 and ending , 19

▶ Please complete every applicable item on this form. If an item does not apply, enter "N/A."
▶ Round off amounts to nearest dollar.

Name of plan sponsor as shown on line 1(a) of Form 5500, 5500–C or 5500–K | Employer identification number

Name of plan | Enter three digit plan number ▶

	Yes	No
1 Has a waiver of a funding deficiency for the current plan year been approved by the IRS? If "Yes," attach a copy of the IRS approval letter.		
2 Is a waived funding deficiency of a prior plan year being amortized in the current year?		
3 Have any of the periods of amortization for charges described in section 412(b)(2)(B) of the Code been extended by DOL? If "Yes," attach a copy of the DOL approval letter.		
4 (a) Has the shortfall funding method been used?		
(b) (i) If (a) is "Yes," has the deferral of the amortization of the shortfall gain (loss), beyond the plan year following the year in which the shortfall gain (loss) arose, been elected?		
(ii) If (a) is "Yes," has the deferral of the amortization of the actuarial gain (loss), beyond the first plan year after valuation, been elected?		
5 Has a change in funding method for the current plan year been made? If "Yes," attach a copy of the IRS approval letter.		

6 Operational information:
(a) Enter most recent actuarial valuation date ▶
(b) Enter date(s) and amount of contributions received this plan year for prior plan years and not previously reported:
Date(s) ▶ Amount ▶
(c) Current value of the assets accumulated in the plan as of the beginning of the plan year
(d) Present value of vested benefits as of the beginning of plan year: [1]
(i) For retired participants and beneficiaries receiving payments
(ii) For other participants
(iii) Total
(e) Present value of nonvested accrued benefits as of beginning of plan year [1]
(f) Number of persons covered (included in the most recent actuarial valuation):
(i) Active participants
(ii) Terminated participants with vested benefits
(iii) Retired participants and beneficiaries of deceased participants

7 Contributions made to the plan for the plan year by employer(s) and employees:

(a) Month / Year	(b) Amount paid by employer	(c) Amount paid by employees	(a) Month / Year	(b) Amount paid by employer	(c) Amount paid by employees
			Total		

8 Funding standard account and other information:
(a) Accrued liabilities as determined for funding standard account as of (enter date) ▶
(b) Value of assets as determined for funding standard account as of (enter date) ▶

Statement by Enrolled Actuary (see instructions before signing):

To the best of my knowledge, the information supplied in this schedule and on the accompanying statement, if any, is complete and accurate, and in my opinion the assumptions used in the aggregate (a) are reasonably related to the experience of the plan and to reasonable expectations, and (b) represent my best estimate of anticipated experience under the plan.

Signature of actuary — Date

Print or type name of actuary — Enrollment number

Address — Telephone number (including area code)

263–186–1

Schedule B (Form 5500) 1978 Page 2

8 Funding standard account and other information (continued):
(c) (i) Actuarial gains or (losses) for period ending ▶
(ii) Shortfall gains or (losses) for period ending ▶
(d) Accumulated funding deficiency at end of plan year (amount of contribution certified by the actuary as necessary to reduce the funding deficiency to zero), from 9(m) or 10(g)

9 Funding standard account statement for plan year ending ▶

Charges to funding standard account:
(a) Prior year funding deficiency, if any
(b) Employer's normal cost for plan year
(c) Amortization charges (outstanding balance at beginning of plan year ▶ $.....)
(d) Interest on (a), (b) and (c)
(e) Total charge, sum of (a) through (d)

Credits to funding standard account:
(f) Prior year credit balance, if any
(g) (i) Employer contributions (total from column (b) of item 7)
(ii) Employer contributions received this plan year for prior plan years and not previously reported
(h) Amortization credits (outstanding balance at beginning of plan year ▶ $.....)
(i) Interest on (f), (g) and (h)
(j) Other (specify) ▶
(k) Total credits, sum of (f) through (j)

Balance:
(l) Credit balance, excess, if any, of (k) over (e)
(m) Funding deficiency, excess, if any, of (e) over (k)

10 Alternative minimum funding standard account (omit if not used):
(a) Was the entry age normal cost method used to determine entries in item 9 above? ☐ Yes ☐ No
If "No," omit (b) through (g) below.
(b) Normal cost
(c) Excess, if any, of value of accrued benefits over market value of assets
(d) Interest on (b) and (c)
(e) Employer contributions (total from column (b) of item 7)
(f) Interest on (e)
(g) Funding deficiency, excess, if any, of the sum of (b) through (d) over the sum of (e) and (f)

11 Checklist of actuarial cost methods:
(a) ☐ Attained age normal (b) ☐ Entry age normal (c) ☐ Accrued benefit (unit credit)
(d) ☐ Aggregate (e) ☐ Frozen initial liability (f) ☐ Individual level premium
(g) ☐ Other (specify) ▶

12 Checklist of certain actuarial assumptions:

	A Used for item 6(d) and (e)—value of accrued benefits				B Used for item 8, 9 or 10—funding standard account			
	Pre-retirement		Post-retirement		Pre-retirement		Post-retirement	
(a) Rates specified in insurance or annuity contracts	☐ Yes	☐ No	☐ Yes	☐ No	☐ Yes	☐ No	☐ Yes	☐ No
(b) Mortality table code:								
(i) Males								
(ii) Females								
(c) Interest rate	%		%		%		%	
(d) Retirement age								
(e) Expense loading	%		%		%		%	
(f) Annual withdrawal rate:	Male	Female			Male	Female		
(i) Age 25	%	%			%	%		
(ii) Age 40	%	%			%	%		
(iii) Age 55	%	%			%	%		
(g) Ratio of salary at normal retirement to salary at:								
(i) Age 25					%	%		
(ii) Age 40					%	%		
(iii) Age 55					%	%		

(h) Is a statement of actuarial assumptions attached? ☐ Yes ☐ No

[1] Provide these figures for 1978 plan year, if calculated. Beginning with the 1979 plan year disclosure of these figures is mandatory for all plans filing a Schedule B with 100 or more participants.

1978 Instructions for Schedule B (Form 5500)

Actuarial Information

(Code references are to the Internal Revenue Code. ERISA refers to the Employee Retirement Income Security Act of 1974.)

General Instructions

Who Must File.—The employer or plan administrator of a defined benefit plan that is subject to the minimum funding standards (see section 412 of the Code and Part 3 of Title I of ERISA) must file this schedule as an attachment to the annual return/report filed for plan years beginning on or after January 1, 1976. Plans maintained on January 1, 1974, pursuant to one or more collective bargaining agreements entered into before September 2, 1974, are not subject to the minimum funding standards for plan years beginning before the earlier of the termination of the collective bargaining agreement(s) or January 1, 1981.

For split-funded plans, the costs and contributions reported on Schedule B should include those relating to both trust funds and insurance carriers.

Specific Instructions

(References are to line items on the form.)

4(a). A collectively bargained plan only may elect the shortfall funding method (see regulations under section 412 of the Code). Advance approval from the IRS of the election of the shortfall method of funding is NOT required if it is first adopted on or before the later of (i) the first plan year to which section 412 of the Code applies or (ii) the last plan year commencing before December 31, 1980. However, advance approval from IRS is required, if adopted at a later time or if discontinued.

4(b). Advance approval from IRS of the election to defer the amortization of the shortfall gain (loss) and/or the amortization of the actuarial gain (loss) is required for a plan year, subsequent to the first plan year to which the shortfall method applies. Advance approval from IRS is required for discontinuance.

5. Changes in funding methods include changes in actuarial cost method, changes in asset valuation method and changes in the valuation date of plan costs and liabilities or of plan assets. Such changes require IRS approval.

6(a). The valuation for a plan year may be as of any date in the year, including the first and last. Valuations must be performed within the period specified by section 103(d) of ERISA and section 6059(a) of the Code.

6(b). Not applicable to the first plan year to which the minimum funding standards apply.

6(c). Enter current value of total assets as of the beginning of the plan year, as shown in item 13 on Form 5500, 5500–C or 5500–K. The beginning of the plan year value should be the same figure as that of the end of the prior plan year.

6(d) and (e). Schedule B for plan years beginning in 1979 will require that the information indicated in 6(d) and (e) be completed for all plans with 100 or more participants, in accordance with these instructions. Plans with fewer than 100 participants are to supply these figures if calculated. For plan years beginning in 1978, the information is required only to the extent it has been calculated. If the value indicated in item (d) has been calculated as of the beginning of the plan year beginning in 1978, it should be entered regardless of whether it has been determined according to these instructions. The term "accrued benefit" means the individual's accrued benefit determined under the plan as required by section 204 of ERISA.

Each separate actuarial assumption used in calculating the present value of accrued benefits reported in item 12 should explicitly reflect the expectations applicable to the plan on an ongoing (rather than a terminating) basis. The actuary shall take into account rates of early retirement and the plan's early retirement provisions as they relate to the accrued benefits, where these would significantly affect the results. See instructions for item 12 for further requirements concerning actuarial assumptions.

Where significant, the present value of accrued benefits for both (d) and (e) shall be increased by the present value of any subsidized early retirement benefits, disability benefits and death benefits which are related to the accrued benefit. The present value of accrued benefits should also be increased by the present value of a cost-of-living clause if such a clause is currently part of the benefit formula.

The present values should be determined as of the beginning of the plan year.

Omit from items 6(d) and (e) liabilities fully funded by annuity and insurance contracts other than any contract funds not allocated to individuals.

6(d). Include the present value of all vested accrued benefits that are vested as of the beginning of the plan year. 6(d)(i) should include the present value of vested benefits for all retired participants. 6(d)(ii) should include the present value of vested benefits for other participants. 6(d)(iii) is the sum of 6(d)(i) and (ii).

6(e). Include the present value of the excess of the accrued benefits over the vested benefits included in 6(d).

7. Show all employer and employee contributions for the plan year, and employer contributions made not later than 2½ months (or such later date allowed under section 412(c)(10) of the Code and section 302(c)(10) of ERISA) after the end of the plan year.

8(a). If the aggregate cost or frozen initial liability method is used, enter "N/A".

8(b). Enter the value of assets determined in accordance with section 412(c)(2) of the Code or 302(c)(2) of ERISA.

8(c)(i). If the aggregate cost or frozen initial liability method is used, enter "N/A".

8(c)(ii). For the methods to be used to determine the shortfall gain (loss) see the regulations under section 412 of the Code.

8(d). Insert amount from item 9(m). However, if the alternative method is elected, and item 10(g) is smaller than item 9(m), enter the amount from item 10(g). File Form 5330 with the IRS to pay 5% excise tax on the funding deficiency.

Statement by Enrolled Actuary

In lieu of signing Schedule B (Form 5500) an enrolled actuary may attach a signed statement containing the name, address, enrollment number, telephone number and the actuary's opinion that the assumptions used in preparing Schedule B are in the aggregate reasonably related to the experience of the plan and to reasonable expectations, and represent his or her best estimate of anticipated experience under the plan and to the best of his or her knowledge the report is complete and accurate. In addition, the actuary may offer any other comments related to the information contained in Schedule B.

9. Under the shortfall method of funding, the Normal Cost is the funding standard account, is the charge per unit of production (or per unit of service) multiplied by the actual number of units of production (or units of service) which occurred during the plan year. Each amortization installment in the funding standard account is similarly calculated. For a plan maintained by more than one employer, the amortization of the shortfall gain (loss) and the actuarial gain (loss) may be deferred. See regulations under section 412 of the Code.

9(b). If no valuation was made for the current year, enter the normal cost calculated in the most recent actuarial valuation, or the estimated cost for the current year based on such valuation. If amounts are not as of the date of the most recent actuarial valuation, indicate in the Statement of Actuarial Assumptions how the amounts shown were determined.

10(a). If the entry age normal cost method was not used to determine the entries in item 9, the alternative minimum funding standard account may not be used.

10(c). The value of accrued benefits should exclude benefits accrued for the current plan year. The market value of assets should be reduced by the amount of any contributions for the current plan year.

11. Enter only the primary method used. If the plan uses one actuarial cost method in one year as the basis of establishing an accrued liability for use under the frozen initial liability method in subsequent years, answer as if the frozen initial liability method were used in all years.

12. Complete all blanks. Enter "N/A" if not applicable. If the assumptions, listed under columns A and B differ, explain, in an attached Statement of Actuarial Assumptions, the reasons for the differences.

If unisex tables are used enter the values in both the male and female columns.

12(a). Check "Yes" if rates in contract were used (e.g. purchase rates at retirement).

12(b). Enter Code as follows:

Table	Code
1937 Standard Annuity	1
a–1949 Table	2
Progressive Annuity Table	3
1951 Group Annuity	4
1971 Group Annuity Mortality	5
1971 Individual Annuity Mortality	6
UP–1984	7
Other	8
None	9

Where an indicated table consists of separate tables for males and females, add F to the female table (e.g., 4F). When a projection is used with a table, follow the code with "P" and the year of projection (omit year if projection unrelated to a single calendar year); the identity of the projection scale should be omitted. When an age set-back or set-forward is used, indicate with "–" or "+" and the years. For example, if for females the 1951 Group Annuity Table with Projection C to 1971 is used with a 5-year set-back, enter "4P71–5." If the table is not one of those listed, enter "8" with no further notation. If the valuation assumes a maturity value to provide the post-retirement income without separately identifying the mortality, interest and expense elements, under "post-retirement" enter on 12(b) the value of $1.00 of monthly pension beginning at the age shown on 12(d) assuming the normal form of annuity for an unmarried person; in this case enter "N/A" on 12(c) and 12(e).

12(c). Enter assumption as to expected interest rate (investment return). If the assumed rate varies with the year, enter the weighted average of the assumed rate for 20 years following the valuation date.

12(d). If each participant is assumed to retire at his normal retirement age, enter "NRA"; otherwise enter the assumed retirement age. If the valuation uses rates of retirement at various ages, enter the estimated average whole age at which participants are assumed to retire.

12(e). If there is no expense loading, enter 0. If there is a single expense loading not separately identified as pre-retirement or post-retirement, enter it under pre-retirement and enter "N/A" under post-retirement. Where expenses are assumed other than as a percent of plan costs or liabilities, enter the assumed expense as a percent of the calculated normal cost.

12(f). Enter rates to nearest 0.1%. If select and ultimate rates which vary with both age and years of service are used, enter rates for a new participant at the age shown and enter "S" before the rate.

12(g). Enter salary ratio for the age indicated to the nearest 1%.

12(h). Attach a statement of actuarial assumptions used (if not fully described by item 12), actuarial methods used to calculate (i) the figures shown in items 6, 8, 9, 10 (if not fully described by item 11) and (ii) the value of assets shown on line 8(b). The statement is to include a summary of the principal eligibility and benefit provisions upon which the valuation was based, an identification of benefits not included in the calculation, and other facts, such as any change in actuarial assumptions or cost methods and justifications for any such change. Include also such other information, if any, needed to fully and fairly disclose the actuarial position of the plan.

V 4 4 / 1 9 J A 2 6 7 9 UMI

V 4 4 / 1 9 J A 2 6 7 9 UMI

The final regulation set forth below is adopted pursuant to the authority in sections 101, 103, 104, 109, 110, 111(c) and 505 of ERISA, Pub. L. 93-406, 88 Stat. 840-52, 894 (29 USC 1021, 1023-24, 1029-31, 1135).

Chapter XXV of Title 29 of the Code of Federal Regulations is hereby amended so that § 2520.104-42 reads as follows:

§ 2520.104-42 Waiver of certain actuarial information in the annual report.

Under the authority of § 104(a)(2)(A) of ERISA, the requirement of section 103(d)(6) of ERISA that the annual report include as part of the actuarial statement (Schedule B) the present value of all of the plan's liabilities for nonforfeitable pension benefits allocated by termination priority categories, as set forth in section 4044 of Title IV of ERISA, and the actuarial assumptions used in these computations, is waived.

Signed at Washington, D.C. this 22nd day of January, 1979.

IAN D. LANOFF,
Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration.

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1910—OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Occupational Exposure to Lead; Administrative Stay; Reconsideration; Corrections

AGENCY: Occupational Safety and Health Administration, Department of Labor.

ACTION: Notice of administrative stay of final standard for occupational exposure to lead; notice of reconsideration and opportunity to comment on respirator table; corrections to final standard.

SUMMARY: OSHA's final standard for occupational exposure to lead was published in the FEDERAL REGISTER on November 14 and November 21, 1978, to be effective February 1, 1979. This document gives notice of an administrative stay of the standard until February 24, 1979, to facilitate judicial consideration of motions to stay the standard pending full judicial review. In addition, OSHA has decided to reconsider the final standard's prohibition on the use of dust, mist and fume respirators in certain circumstances, and to permit use of these respirators pending reconsideration.

DATES: (1) The effective date of the standard is February 24, 1979.

(2) Comments on the respirator table must be submitted by March 1, 1979.

ADDRESS: Comments should be sent to: Docket Officer, Docket H-004, U.S. Department of Labor, Room S-6212, Washington, D.C. 20210, Telephone: (202) 523-7894.

FOR FURTHER INFORMATION CONTACT:

Gary Adams, OSHA Office of Toxic Substances, U.S. Department of Labor, Room S-5520, Washington, D.C. 20210, telephone 202-523-7177.

SUPPLEMENTARY INFORMATION:

1. *Introduction.* On November 13, 1978, the Occupational Safety and Health Administration (OSHA) promulgated a permanent standard for occupational exposure to lead. [29 CFR 1910.1025, 43 FR 52952-53014 (November 14, 1978), 43 FR 54354-54509 (November 21, 1978)]. The standard provides for a delayed effective date of February 1, 1979. Pursuant to section 6(f) of the Occupational Safety and Health Act, 29 USC 655(f), numerous petitions were filed in several U.S. Courts of Appeal challenging the validity of the standard. All petitions are being transferred to the U.S. Court of Appeals for the District of Columbia Circuit (*United Steelworkers of America, AFL-CIO-CLC* v. *Marshall*, No. 78-2452 (3rd Circuit, January 10, 1979)). Following promulgation of the standard, sixteen petitions were directed to the Assistant Secretary for Occupational Safety and Health for administrative relief requesting that OSHA either withdraw the standard for reconsideration of various issues or grant an administrative stay of the effective date pending judicial review by the U.S. Court of Appeals. Petitions were received from the following persons:

1. Lead Industries Association
2. Battery Council International
3. Ford Motor Company
4. Chrysler Corporation
5. General Motors Corporation
6. Ethyl Corporation
7. American Telephone and Telegraph Company
8. American Iron and Steel Institute
9. St. Joe Minerals Corporation
10. Corning Glass Works
11. E. I. duPont de Nemours & Company
12. Minnesota Mining and Manufacturing Company
13. National Association of Printing Ink Manufacturers
14. Southwire Company
15. National Paint and Coatings Association, Inc.
16. National Association of Recycling Industries

Some petitions were treated as requests for clarification or interpretation, but administrative relief was denied to all petitioners except the Minnesota Minning and Manufacturing Company. Copies of petitions and responses are available for inspection and copying at: OSHA Docket Office, U.S. Department of Labor, Room S-6212, Washington, D.C. 20210, Telephone (202) 523-7894.

2. *Administrative stay.* Under the authority of section 10(d) of the Administrative Procedure Act (5 U.S.C. § 705) the February 1, 1979 effective date of the standard as set forth in paragraph (p) of 29 CFR 1910.1025 is stayed and amended to read February 24, 1979.

The record in the lead rulemaking proceeding demonstrates that lead has profoundly adverse effects on the health of exposed workers and that compliance with the regulation must begin immediately in order to afford workers much needed, and overdue, protection. However, the agency believes that staying the effective date of the standard until February 24, 1979 is in the public interest because it will facilitate expeditious judicial consideration of applications for stay pending judicial review filed by several parties.

The agency believes that the public interest lies in enforcement of this regulation as quickly as possible. It appears that a judicial decision on applications for stay of the standard pending review can be made by February 23, 1979, and to grant an administrative stay for this brief period of time will enable the court to fully consider the issues raised by such stay applications, and the Secretary's opposition thereto, obviating the need for emergency relief by the court before the issues are fully before it.

3. *Reconsideration.* The Minnesota Mining and Manufacturing (3M) Company petitioned OSHA on December 28, 1978 to reconsider the prohibition on the use of dust, fume, and mist respirators for concentrations of lead not in excess of 0.5 mg/m³ This prohibition is implicit in the exclusion of these respirators from the respirator selection table of the final standard. (29 CFR 1910.1025(f)(2)(i)) 3M claimed that the evidence in the rulemaking record did not support the prohibition of these respirators and, on the contrary, supported their use. OSHA agrees that serious questions have been raised which warrant further administrative consideration. Therefore, OSHA has granted 3M's request to reconsider this issue and will permit the continued use of dust, fume and mist

respirators currently permitted under 29 CFR 1910.134 for concentrations of lead not exceeding 0.5 mg/m³ pending consideration of the issue.

OSHA relied primarily on the recommendations of NIOSH is formulating the table and will now review the NIOSH exhibits in the record, and request an interpretation from them. In addition, affected persons may submit comments on the issue of whether dust, fume, and mist respirators should be included in the respirator selection table of the final standard for concentrations of lead not in excess of 0.5mg/m³ or ten times the PEL. Comments must be submitted in quadruplicate on or before March 1, 1979 to the Docket Officer, Docket H-004, U.S. Department of Labor, Room S-6212, Washington, D.C. 20210. Telephone (202) 523-7894. Comments received will be available for public inspection and copying at the above address.

3. *Corrections.* The permanent standard for occupational exposure to lead, as published in the Federal Register on November 14, 1978, is corrected below. These changes are intended to correct typographical errors and inadvertent additions to or deletions from the regulation. These changes are minor and do not require public notice and comment. (29 CFR 1911.5) Corrections to the preamble of the standard and appendices to the standard will be published in a subsequent Federal Register notice.

Accordingly, pursuant to section 6 of the Occupational Safety and Health Act (29 USC 655), 29 CFR 1911.5, and section 10(d) of the Administrative Procedure Act (5 USC 705), notice is hereby given that the use of dust, fume, and mist respirators currently permitted under 29 CFR 1910.134 is permitted under the respirator selection table of the permanent standard for occupational exposure to lead (29 CFR 1910.1025 (f) (2) (i)) until reconsideration of their exclusion from the table is completed by OSHA and a determination is made.

In addition, pursuant to the above authority FR Doc. 78-31911, promulgating 29 CFR 1910.1025, is amended as follows:

Page	Column	Line	Correction
1. 53007	1	44	Insert "Lead." after "(g)"
2. 53007	2	34	close parenthesis after "m³"
3. 53007	2	50	insert period after "Exposure monitoring" in paragraph (d)
4. 53007	3	9-13	paragraph (d)(3)(i)(B) should read "Any previous measurements of airborne lead; and"
5. 53007	3	24	add as paragraph (d)(3)(ii): "Measurements of airborne lead made in the preceding 12 months may be used to satisfy the requirement to monitor under paragraph (d)(3)(i) if the sampling and analytical methods used meet the accuracy and confidence levels of paragraph (d)(9) of this section."
6. 53007	3	24	insert "*and initial monitoring.* (i)" after "*Positive initial determination*" in paragraph (d)(4)
7. 53007	3	32	change "which" to "who"
8. 53007	3	34	add as paragraph (d)(4)(ii): "Measurements of airborne lead made in the preceding 12 months may be used to satisfy this requirement if the sampling and analytical methods used meet the accuracy and confidence levels of paragraph (d)(9) of this section."
9. 53007	3	36	change "paragraph" to "paragraphs"
10. 53008	1	7	change "may" to "shall"
11. 53008	1	Table 1	The entry for "all other industries" under the 100 μg/m³ column should be "not applicable"
12. 53008	2	7	add to the end of footnote 2 of Table I "This continues an obligation from Table Z-2 of 29 CFR 1910.1000 which had been in effect since 1971 but which was deleted upon the effectiveness of this section."
13. 53008	2	19	insert comma after "limit" in paragraph (e)(3)(i)
14. 53008	2	20	change "appropriate" to "applicable" in paragraph (e)(3)(i)
15. 53008	2	49	change "employee's" to "employees'" in paragraph (e)(6)
16. 53009	1	4	add "negative pressure" after "wear a"
17. 53009	1	Table 2	(1) Add a footnote "3" after "filters" in lines 6 and 9 of the table. (2) Insert "PEL" after "2000x" in left column.
18. 53009	3	31	in paragraph (g)(2)(vii), delete comma and all after "air"; add period at end of sentence.
19. 53009	3	44	paragraph (h)(2)(ii) should read "Shoveling, dry or wet sweeping, and brushing may be used only where vacuuming or other equally effective methods have been tried and found not to be effective."
20. 53009	3	53-55	delete "skin or clothing may come in contact with fume, dust, mist, or liquids containing lead or where" in paragraph (l)(1)
21. 53009	3	68-70	delete "their skin or clothing comes into contact with fume, dust, mist, or liquids containing lead or where" in paragraph (l)(2)
22. 53010	1	9-11	delete "where their skin or clothing comes into contact with fume, dust, mist or liquids containing lead or" in paragraph (l)(3)
23. 53010	1	18	change "1910.141(a)(3)" to "1910.141(d)(3)"
24. 53010	1	28-30, 41-43	delete "their skin or clothing comes into contact with fume, dust, mist, or liquids containing lead or where" in paragraphs (l)(4)(i) and (l)(4)(iii)

Page	Column	Line	Correction
25. 53010	1	45	add "the use of" before "respirator"
26. 53010	1	60–67	delete all of paragraph (l)(6)
27. 53010	3	6	in paragraph (j)(1)(iii), insert "including multiple physician review under paragraph (j)(3)(iii)" after "required medical surveillance"
28. 53010	2	53	insert a comma and "United States Department of Health, Education and Welfare" after "Control" in paragraph (j)(2)(iii)
29. 53011	1	71–72	delete "inorganic"
30. 53011	2	25	change "an" to "the" in paragraph (j)(3)(v)(A)
31. 53012	1	12	change semicolon to period at end of paragraph (k)(1)(ii)(A)
32. 53012	1	60–61	in paragraph (k)(1)(iii)(A)(4), change semicolon to period; delete "and"
33. 53012	2	39	delete "-iii" in paragraph (k)(1)(v)(B)
34. 53012	2	44–45	(1) delete semi colon and insert "or" after "physician;" in paragraph (k)(1)(v)(B)(2) line up ¶(2) at margin
35. 53012	2	46	change "proceeding" to "preceding"
36. 53012	3	33	insert "receives income" after "program, or"
37. 53012	3	37	change "no" to "not"
53013	1	42	change "(1)(1)(ii)" to "(1)(1)(ii)"
38. 53013	3	21	change "(1)(1)(v)" to "(1)(1)(v)"
39. 53014	2		The effective date in paragraph (p) is changed to February 24, 1979
40. 53014	3	26	add a new paragraph (D) to read "Quantitative fit testing required under (f)(3)(ii)—one year from effective date. Qualitative fit testing is required in the interim.

Signed at Washington, D.C. this 25th day of January, 1979.

EULA BINGHAM,
Assistant Secretary of Labor.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[3410-30-M]

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

[7 CFR Part 220]

SCHOOL BREAKFAST PROGRAM

AGENCY: Food and Nutrition Service, USDA.

ACTION: Proposed rule.

SUMMARY: This rule proposes to change the designation "especially needy school" to "school with severe need", establish minimum national eligibility criteria for States to use in determining schools with severe need, allow cost for severe need schools to be calculated on the School Food Authority level, and clarify the reimbursement formula for School Food Authorities which include schools with and without severe need. These changes are required by Public Law 95-166 and the Child Nutrition Amendments of 1978 (Public Law 95-627) as well as by clarifications in cost accounting methods. They are designated to provide greater national consistency of severe need determination, more efficient program operation, and inducement for increased participation by schools in the School Breakfast Program.

DATE: A 60 day comment period is provided for this proposal. Comments must be received on or before March 27, 1979 to be assured of consideration. It is the Department's intention to publish final regulations to be effective July 1, 1979.

ADDRESS: Send comments to: Margaret O'K. Glavin, Director, School Programs Division, FNS, USDA, Washington, D.C. 20250 (202) 447-8130. All written submissions received pursuant to this notice will be made available for public inspection in room 4300B, Auditor's Building, School Programs Division, FNS, during regular business hours (8:30 a.m. to 5:00 p.m.) (7 CFR 1.27(b)).

FOR FURTHER INFORMATION CONTACT:
Margaret O'K. Glavin, Director School Programs Division, FNS, USDA, Washington, D.C. 20250 (202)447-8130.

SUPPLEMENTARY INFORMATION:

CHANGES IN TERMINOLOGY

The change in terminology from "especially needy school" to "school with severe need" is a technical amendment to conform with the language of the Child Nutrition Act of 1966, as amended.

MINIMUM ELIGIBILITY CRITERIA

The Child Nutrition Amendments of 1978 (Public Law 95-627) make two categories of schools eligible for additional reimbursement when regular per meal reimbursement will not cover costs: (1) schools which are required by State law to serve breakfast and (2) schools which have a high number of needy children as defined by State criteria. The minimum State criteria is set by law at 40 percent of a school's lunches served. Schools are to rely on their statistics for free and reduced price lunches served during the second preceding school year to determine the number of needy children that they serve.

In addition the the explicit requirements of the law, the Department proposes to extend severe need reimbursement to schools which serve a high number of needy children but which did not have a lunch program in previous years upon which a forecast of participation by needy children could be made. Congressional intent is clearly to offer incentives for the expansion of the breakfast program, particularly in areas of economic need. Although the percentage of free and reduced price lunches served is a good indication that needy children will be reached in a breakfast program, administrators must rely on alternate guidelines when lunch statistics are not available. The regulations as proposed allow alternative bases on which a determination of need may be made in the absence of such data.

COST DETERMINATION

The Department proposes to continue to require the determination of eligibility for severe need funds to be made on a school by school basis. The language of the Child Nutrition Act, as amended, as well as the intent of Congress revealed in Congressional debate dictate that severe need funds be targeted to *schools* serving a substantial number of needy children. However, the Department proposes to allow cost to determined on a School Food Authority basis, in keeping with the cost accounting requirements of FNS (CN) Instruction 796-1 (Rev. 2), School Food Authority maintaining costs on an individual school basis may continue to do so. This proposal does not change the existing requirement that reimbursement not exceed cost.

The Department is aware that Section 6 of Public Law 95-627 states that no provision of the Child Nutrition Act or National School Lunch Act shall require schools receiving funds under these acts to account separately for costs incurred in the school lunch and school breakfast programs. This provision will be addressed in separate proposed rulemaking. However, it is envisioned that a formula will be divised to facilitate cost determination between programs in order that schools shall not be required under Federal regulations to maintain separate records on costs in order to qualify for severe need rates. The Department further proposes to amend that part of the regulations governing the reimbursement formula for School Food Authorities which include both schools with and without severe need by restructuring the regulations for further clarity.

Accordingly, Part 220.9 is proposed to be amended as follows: Paragraphs (b) and (c) are revised and new paragraphs (d) and (e) are added to read as follows:

§ 220.9 Reimbursement payments.

* * * * *

(b) The maximum rates of reimbursement for breakfasts served to eligible children are the applicable national average payment factors for breakfasts, prescribed semiannually by the Secretary in the FEDERAL REGISTER.

(c) The total reimbursement for breakfasts served to eligible children during the school year in any School Food Authority shall be equal to the lesser of the following amounts—(1) the total cost of such breakfasts minus revenues from other sources including children's payments; and (2) the sum of the products obtained by multiplying (a) the total number of paid breakfasts by the applicable rate of reimbursement for paid breakfasts, (b) the total number of reduced price breakfasts served in schools not determined to be in severe need by the applicable rate of reimbursement for reduced price breakfasts, (c) the total number

V 44 / 19 JA 26 79 UMI

of free breakfasts served in schools not determined to be in severe need by the applicable rate or reimbursement for free breakfasts, and if the School Food Authority includes schools determined to be in severe need, (d) the total number of reduced price breakfasts served in schools determined to be in sevre need by the applicable severe need rate of reimbursement for reduced price breakfasts, and (e) the total number of free breakfast served in schools determined to be in severe need by the applicable severe need rate of reimbursement for free breakfasts.

(d) The State agency, or FNSRO where applicable, shall determine whether a school is a school with severe need based on eligibility criteria established by the State educational agency, in the annual State Plan as required under 210.4a. At a minimum, a school shall be determined to be a school with severe need if the rate per meal established by the Secretary is insufficient to cover the costs of its breakfasts program and (1) it is required by State law to serve breakfasts, or (2) if under the National School Lunch Program, it served 40 percent or more of its lunches free or at a reduced price in the second preceding school year, or (3) if it does not have a lunch program but does have or did have a breakfast program in the second preceding school year, it served 40 percent or more of its breakfasts free or at a reduced price, or (4) if it has neither a lunch nor a breakfast program, it would estimate that it would serve 40 percent of its breakfasts free or at a reduced price. All such determinations shall be based on the most accurate data available, and must be adequately documented. A State educational agency may establish more inclusive eligibility criteria. State agencies shall submit for approval their eligibility criteria for the determination of severe need of a school in their annual State Plan.

(e) The total reimbursement for free and reduced price breakfasts served to eligible children in any School Food Authority may exceed the total cost of providing such breakfasts for any given month. However, the total reimbursement for free and reduced price breakfasts served to eligible children in any School Food Authority may not exceed the total cost as determined under guidelines established by FNS for the school year.

(Catalog of Federal Domestic Assistance No. 10.553.)

NOTE.—In accordance with Executive Order 12044, a copy of the detailed impact statement for this proposal is on file at the Office of the Director, School Programs Division, USDA-FNS, Washington, D.C. 20250 during regular business hours (8:30 a.m. to 5:00 p.m. Monday through Friday).

Dated: January 22, 1979.

CAROL TUCKER FOREMAN,
Assistant Secretary for Food and Consumer Services.

Agricultural Marketing Service

[7 CFR Part 1280]

[Docket No. WR-1]

WHEAT AND WHEAT FOODS RESEARCH AND NUTRITION EDUCATION ORDER

Hearing on Proposed Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Public hearing on proposed rulemaking.

SUMMARY: This noticed hearing is being held to consider a proposed Wheat and Wheat Foods Research and Nutrition Education Order, submitted by the Wheat and Wheat Foods Foundation that would establish a nationally coordinated program of research and nutrition education for wheat, processed wheat, and wheat end products. Such a program would be financed by assessments of up to five cents per hundredweight, to be paid by end product manufacturers of their purchases of processed wheat. The program would be administered by a twenty-member Council, composed equally or representatives of wheat producers, processors, end product manufacturers, and consumers. A coalition of wheat related organizations requested the proposed order. Proponents contend that a nationally coordinated program of research and nutrition education is needed to improve and enhance the quality, and make the most efficient use of American wheat, processed wheat, and wheat end products to ensure an adequate diet for the people of the United States.

DATES: The hearing sessions will be held beginning on February 27, March 6, and March 15 at three locations listed under "Supplementary Information."

ADDRESSES: See the list of locations under "Supplementary Information" below.

FOR FURTHER INFORMATION, CONTACT:

W. David Spalding, Livestock, Poultry, Grain, and Seed Division, AMS, USDA, Washington, D.C. 20250, Phone: 202-447-3970

SUPPLEMENTARY INFORMATION: Notice is hereby given of a public hearing on a proposed national research and nutrition education order for wheat and wheat foods. Hearing sessions will be held at three locations beginning on the dates listed below:

1. February 27, 1979—Federal Building, Courtroom No. 2. 7th Floor, 316 North Robert Street, St. Paul, MN 55101

2. March 6, 1979—Federal Executive Building, Room 556, 275 Peachtree Street, N.E., Atlanta, GA 30303

3. March 15, 1979—State Social Service Building, Basement Auditorium, 1575 Sherman Street, Denver, CO 80203. Each day's session of the hearing will commence at 9:30 a.m., local time, unless the judge otherwise specifies during the course of the hearing. Any of the sessions may be continued beyond 1 day in necessary.

The hearing is called pursuant to the provisions of the Wheat and Wheat Foods Research and Nutrition Education Act (7 U.S.C. 3401 *et seq.*), and in accordance with the applicable rules of practice and procedure governing proceedings to formulate such an order (7 CFR Part 1280).

The public hearing is for the purpose of:

(a) Receiving evidence with respect to the economic and marketing conditions which relate to the proposed order set forth herein and to any appropriate modifications thereof;

(b) Determining the extent of need for an order to implement a nationally coordinated wheat and wheat foods research and nutrition education program;

(c) Determining the economic and social impact of the proposed order on the segments of industry and public affected by such an order; and

(d) Determining whether provisions specified in the proposed order or some other provisions appropriate to the terms of the Wheat and Wheat Foods Research and Nutrition Education Act (7 U.S.C. 3401 *et seq.*) will tend to effectuate the declared policy of the Act. In addition, the following matters should also be addressed at the hearing:

(a) What are the social costs in relation to the social benefits associated with the proposed one cent per hundredweight assessment as opposed to any other assessment level between zero to five cents per hundredweight?

(b) What are probable quantitative impacts of alternative assessment levels on USDA costs, end product manufacturer costs, research budgets, competition between wheat products and their substitutes, and the longer term trends for nutrition, diets and health?

(c) Would there be a differentiation in effects from the program on low income and high income consumers, and on the different types of end product manufacturers?

(d) What evidence is there from similar actions in other commodities regarding the ability of research to improve efficiency, productivity, nutrition and diets?

The proposed order, set forth below, has not received the approval of the Secretary of Agriculture.

PROPOSED BY THE WHEAT AND WHEAT FOODS FOUNDATION

PROPOSAL NO. 1

The provisions of the order should read as follows:

AUTHORITY: Wheat and Wheat Foods Research and Nutrition Education Act (7 U.S.C. 3401 et. seq.).

Subpart—Wheat and Wheat Foods Research and Nutrition Education Order

DEFINITIONS

§ 1280.101 Wheat.

"Wheat" means all classes of wheat grains grown in the United States.

§ 1280.102 Processed wheat.

"Processed wheat" means the wheat-derived content of any substance (such as cake mix or flour) produced for use as an ingredient of an end product by changing wheat grown within the United States in form or character by any mechanical, chemical, or other means.

§ 1280.103 End product.

"End product" means any product which contains processed wheat as an ingredient and which is intended, as produced, for consumption as human food, notwithstanding any additional incidental preparation which may be necessary by the ultimate consumer.

§ 1280.104 Wheat producer.

"Wheat producer" means any person who grows wheat within the United States for market.

§ 1280.105 Processor.

"Processor" means any person who commercially produces processed wheat within the United States.

§ 1280.106 End product manufacturer.

"End product manufacturer" means any person who commercially produces an end product within the United States, but such term shall not include such persons to the extent that they produce end products on the premises where such end products are to be consumed by an ultimate consumer, including, but not limited to, hotels, restaurants, and institutions, nor shall such term include persons who produce end products for their own personal, family, or household use.

§ 1280.107 Research.

"Research" means any type of research to advance the nutritional quality, marketability, production, or other qualities of wheat, processed wheat, or end products.

§ 1280.108 Nutrition education.

"Nutrition education" means any action to disseminate to the public information resulting from research concerning the economic value or nutritional benefits of wheat, processed wheat, and end products.

§ 1280.109 Wheat Industry Council or Council.

"Wheat Industry Council" or "Council" means the administrative body established pursuant to § 1280.130.

§ 1280.110 Department.

"Department" means the United States Department of Agriculture.

§ 1280.111 Secretary.

"Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the Department to whom there has heretofore been delegated, or to whom there may hereafter be delegated, the authority to act in his stead.

§ 1280.112 Person.

"Person" means any individual, partnership, corporation, association or other entity.

§ 1280.113 United States.

"United States" means the several States and the District of Columbia, including any territory or possession.

§ 1280.114 Fiscal period.

"Fiscal period" means the calendar year or such other period as the Council may determine.

§ 1280.115 Eligible organization.

"Eligible organization" means any organization or association which has been certified by the Secretary pursuant to § 1280.165.

§ 1280.116 Representative of wheat producers.

"Representative of wheat producers" means a wheat producer, the owner, officer, or employee of a processor, or an officer, or employee of an organization or association representing wheat producers certified under § 1280.165.

V 4 4 / 1 9 J A 2 6 7 9 UMI

§ 1280.117 Representative of processors.

"Representative of processors" means a processor, the owner, officer, or employee of a processor, or an officer, or employee of an organization or association representing processors certified under § 1280.165.

§ 1280.118 Representative of end product manufacturers.

"Representative of end product manufacturers" means an end product manufacturer, the owner, officer, or employee of an end product manufacturer, or an officer or employee of an organization or association representing end product manufacturers certified under § 1280.165.

§ 1280.119 Representative of consumers.

"Representative of consumers" means a consumer, or an officer or employee of an organization or association representing consumers certified under § 1280.165.

§ 1280.120 Part and subpart.

"Part" means 7 CFR Part 1280, containing rules, regulations, orders, supplemental orders, and similar matters concerning the Wheat and Wheat Foods Research and Nutrition Education Act. "Subpart" means any portion or segment of such part.

§ 1280.121 Retail baker.

"Retail baker" means an end product manufacturer who sells end products directly to the ultimate consumer: Provided, That such term shall not include any end product manufacturer who derives less than 10 percentum of gross end product sales revenues from sales to ultimate consumers or who derives 10 percentum or more of gross food or food product sales revenues from the sale of such products manufactured or produced by others.

§ 1280.122 Intra-company transfers.

"Intra-company transfers" means sales or transfers of processed wheat for use in the manufacture of end products to end product manufacturers from related companies or divisions of the same company.

§ 1280.123 Related companies or divisions of the same company.

"Related companies or divisions of the same company" means subsidiaries, affiliates, or divisions of an end product manufacturer which are controlled by, controlling, or under common control with, such end product manufacturer.

§ 1280.124 Control.

"Control", including the terms "controlling", "controlled by", and "under common control with", means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of any person, whether through the ownership of voting securities, by contract, or otherwise.

§ 1280.125 Act.

"Act" means the Wheat and Wheat Foods Research and Nutrition Education Act (7 U.S.C. 3401 et. seq.) and any amendments thereto.

§ 1280.126 Plans and projects.

"Plans and projects" means those research and nutrition education plans, studies or projects pursuant to § 1280.145.

WHEAT INDUSTRY COUNCIL

§ 1280.130 Establishment and membership.

There is hereby established a Wheat Industry Council of twenty members, each of whom shall have a specific alternate. The Council shall be composed equally of representatives of wheat producers, processors, end product manufacturers and consumers, appointed by the Secretary from nominations submitted by eligible organizations certified pursuant to § 1280.165, or from nominations in a manner authorized by the Secretary pursuant to § 1280.132(a).

§ 1280.131 Term of office.

The members of the Council and their alternates shall serve for terms of two years, except appointments to the initial Council shall be proportionately for terms of two and three years. Each member and alternate member shall continue to serve until his successor is appointed by the Secretary and has qualified. No member or alternate shall serve more than three consecutive terms in such capacity, but service of three consecutive terms in one capacity will not disqualify any person from appointment in another capacity.

§ 1280.132 Nominations.

All nominations authorized under § 1280.130 shall be made in the following manner:

(a) Within 60 days after approval of this order by referendum, or such other period as determined by the Secretary, nominations shall be submitted to the Secretary as specified in paragraph (d) of this section by eligible organizations or associations certified pursuant to § 1280.165. Alternatively, if the Secretary determines that a substantial number of wheat producers, processors, end product manufacturers or consumers are not members of, or their interests are not represented by, any such eligible organizations or associations, then nominations shall be submitted by such wheat producers, processors, end product manufacturers and consumers in a manner authorized by the Secretary;

(b) After the establishment of the initial Council, the nominations for subsequent Council members and alternates shall be submitted to the Secretary not less than sixty days prior to the expiration of the terms of the members and alternates previously appointed to the Council;

(c) Where there is more than one eligible organization or association representing wheat producers, processors, or end product manufacturers within any geographic area, or within any segment of the wheat producing, processing, or end product manufacturing industry, they may caucus for the purpose of jointly nominating two or more qualified persons for each member and alternate member to be appointed. If joint agreement is not reached with respect to any such nominations, or if no caucus is held, each eligible organization or association may submit to the Secretary two or more nominations for each appointment to be made;

(d) In selecting such members and their alternates, factors such as those listed below shall be considered in determining equitable representation on the Council:

(1) For wheat producers, class and volume of wheat produced and geographic distribution;

(2) For processors, class of wheat processed, amount of wheat processed and geographic distribution;

(3) For end product manufacturers, the generic type of end product produced by each segment of the end product industry (baked goods, biscuits and crackers, cereals, paste products) and the percentage each such segment uses of the total processed wheat used by all such segments of the end product industry; and

(4) For consumers, the factors set out in § 1280.165.

§ 1280.133 Appointment.

From the nominations made pursuant to § 1280.132, the Secretary shall appoint the members of the Council, and an alternate for each such member, on the basis of representations provided for in §§ 1280.130, 1280.131 and 1280.132.

§ 1280.134 Acceptance.

Any person appointed by the Secretary as a member, or as an alternate member, of the Council shall qualify by filing a written acceptance with the Secretary within a period of time prescribed by the Secretary.

§ 1280.135 Vacancies.

To fill any vacancy occasioned by the failures to qualify of any person appointed as a member, or as an alternate member, of the Council, or in the

event of the death, removal, resignation, or disqualification of any member or alternate member of the Council, a successor for the unexpired term of such member or alternate member shall be nominated, qualified, and appointed in the manner specified in §§ 1280.130, 1280.132 (b) (c) (d), 1280.133, and 1280.134, except that replacement of a Council member, or alternate, with an unexpired term of less than six months is not necessary.

§ 1280.136 Alternate members.

An alternate member of the Council, during the absence of the member for whom he is the alternate, shall act in the place and stead of such member and perform such other duties as assigned. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for such member is appointed and has qualified.

§ 1280.137 Procedure.

(a) A majority of the members, including alternates acting for members of the Council, shall constitute a quorum, and any action of the Council shall require the concurring votes of at least a majority of those voting.

(b) For routine and non-controversial matters which do not require deliberation and exchange of views, and in matters of an emergency nature when there is not enough time to call as assembled meeting of the Council, the Council may take action upon the concurring votes of a majority of its members by mail, telephone, or telegraph, but any such action by telephone shall be confirmed promptly in writing.

§ 1280.138 Compensation and reimbursement.

The members of the Council and alternates shall serve without compensation but shall be reimbursed for necessary and reasonable expenses, as approved by the Council, incurred by them in the performance of their duties under this subpart.

§ 1280.139 Powers of the Council.

The Council shall have the following powers:

(a) To administer the provisions of this subpart in accordance with its terms and provisions;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 1280.140 Duties.

The Council shall have the following duties:

(a) To meet and organize and to select from among its members a chairman and such other officers as may be necessary, to select committees and subcommittees of Council members, and to adopt such rules for the conduct of its business as it may deem advisable. The Council may also establish advisory committees of persons other than Council members and pay the necessary and reasonable expenses of the members of such committees;

(b) To appoint from its members and executive committee consisting of not less than 4 nor more than 8 members, and to delegate to the committee authority to administer the terms and provisions of this subpart under the direction of the Council and within the policies determined by the Council, if such a committee is believed to be necessary or appropriate, and to appoint or employ such persons as it may deem necessary and define the duties and determine the compensation of each;

(c) To develop and submit to the Secretary for approval research plans or projects, and nutrition education plans or projects resulting from research conducted either by the Council or others;

(d) To prepare and submit to the Secretary for approval budgets on a fiscal period basis of its anticipated expenses and disbursements in the administration of this subpart, including probable costs of research and nutrition education plans or projects, and also including a general description of the proposed research and nutrition education programs contemplated therein;

(e) To prepare a summary of the approved annual budget, or amendments thereto, including a brief general description of the proposed research and nutrition education programs contemplated therein, which shall be published promptly in the FEDERAL REGISTER.

(f) To maintain such books and records, which shall be available to the Secretary for inspection and audit, and prepare and submit such reports from time to time, to the Secretary, as the Secretary may prescribe, and to make appropriate accounting with respect to the receipt and disbursement of all funds entrusted to it;

(g) With the approval of the Secretary, to enter into contracts or agreements for the development and conduct of the activities authorized under § 1280.145 of this subpart and for the payment of the cost thereof with funds collected through the assessments pursuant to § 1280.151. Any such contract or agreement shall provide that: (1) The contractors shall develop and submit to the Council a plan or project together with a budget or budgets which shall show the estimated cost to be incurred for such plan or project; (2) any such plan or project shall become effective upon approval of the Secretary; and (3) the contracting party shall keep accurate records of all of its transactions and make periodic reports to the Council of activities conducted and an accounting for funds received and expended, and such other reports as the Secretary may require;

(h) With the approval of the secretary, to invest, pending disbursement pursuant to a plan or project, funds collected through assessments authorized under § 1280.151 in, and only in, obligations of the United States or any agency thereof, in general obligations of any State or any political subdivision thereof, in any interest-bearing account or certificate of deposit of a bank which is a member of the Federal Reserve System, or in obligations fully guaranteed as to principal and interest by the United States;

(i) To prepare and make public, at least annually, a report of its activities carried out and an accounting for funds received and expended;

(j) To cause it books to be audited by a certified public account at least once each fiscal period and at such other times as the Secretary may request, and submit a copy of each such audit to the Secretary;

(k) To give the Secretary the same notice of meetings of the Council as is given to members in order that he or his representative may attend such meetings; and

(l) To submit to the Secretary such information pursuant to the subpart as he may request.

RESEARCH AND NUTRITION EDUCATION

§ 1280.145 Research and nutrition education.

The Council shall develop and submit to the Secretary for his approval any plans or projects authorized in this section. Such plans or projects shall provide for:

(a) the establishment, issuance, effectuation, and administration of appropriate plans or projects for nutrition education, both within the United States and in international markets, with respect to wheat, processed wheat, and end products;

(b) The establishment and conduct of research or studies with respect to sale, distribution, marketing, utilization or production of wheat, processed wheat, and end products and the creation of new products thereof to the end that marketing and utilization of wheat, processed wheat, and end products may be encouraged, expanded, improved, or made more acceptable;

V 4 4 / 1 9 J A 2 6 7 9 UMI

(c) Each plan or project authorized under paragraph (a) or (b) of this section shall be periodically reviewed or evaluated by the Council to insure that each such plan or project contributes to an effective coordinated program or research and nutrition education. If it is found by the Council that nay such plan or project does not further the purposes of the Act, then the Council shall terminate such plan or project; and

(d) In carrying out any plan or project, no reference to a private brand or trade name shall be made unless the Secretary determines that such reference will not result in undue discrimination against wheat, processed wheat or end products of other persons. No such plans or projects shall make use of unfair or deceptive acts or practices with respect to the quality, value or use of any competing product.

EXPENSES AND ASSESMENTS

§ 1280.150 Expenses.

(a) The Council is authorized to incur such expenses, (including provision for a reasonable reserve), as the Secretary finds are reasonable and likely to be incurred by the Council for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions of this subpart. Such expenses shall be paid from assessments received pursuant to § 1280.151.

(b) The Council shall reimburse the Secretary, from assesments, for all the expenses and expenditures, including any referendum and administrative costs incurred by the Secretary under the Act, as the Secretary finds are reasonable and likely to be incurred under this subpart during any period specified by the Secretary.

§ 1280.151 Assessments.

(a) Each end product manufacturer shall pay to the Council, pursuant to regulations issued by the Council, an assessment based on the number of hundredweights of processed wheat purchased, including intra-company transfers of processed wheat with respect to which no assessment has been paid or scheduled for payment, for use in the manufacture of end products, from processors, distributors, or (in the case of such intra-company transfers) related companies or divisions of the same company: *Provided*, That no person, including any end product manufacture who makes intra-company transfers, shall be required to pay more than one assessment with respect to the same processed wheat, whether or not such processed wheat is further processed by such person: *And provided further*, That the following end product manufacturers shall be exempt from such assessment:

(1) Retail bakers, as defined in § 1280.121, including any end product manufacturer who does not purchase more than 2,000 hundredweights of processed wheat per year for use in the manufacture of end products: *Provided*, That any person exempted under this subparagraph may waive such exemption, upon application to and approval by the Council, and thereafter will be treated as a nonexempt end product manufacturer under this subpart unless and until such person requests that such exemption be reinstated.

(2) End product manufacturers who manufacture specified end products, or types or categories thereof, which are exempted under rules or regulations issued pursuant to section 1716 of the Act.

(b) The Council, with the approval of the Secretary, shall set the amount of the assessment, not to exceed five cents per hundredweight of processed wheat purchased or transferred: *Provided, however*, That the assessment rate for the first two years of the effectiveness of the order shall not exceed one cent per hundredweight.

(c) In order to enable product manufacturers to calculate the amount of processed wheat they have purchased, persons selling or transferring processed wheat in combination with other ingredients to such end product manufacturers for use in the manufacture of end products shall disclose to such end product manufacturers the amount or proportion of processed wheat contained in such products, plus or minus 3 per centum.

(d) End product manufacturers shall remit assessments to the Council at such times and in such manner as prescribed by regulations issued by the Council, but in no case shall assessments be required to be remitted more often than quarterly.

§ 1280.152 Refunds.

(a) Subsequent to the publication of the summary of the Council budget, or amendments thereto, provided for under § 1280.140(e), all end product manufacturers not exempt from the assessments under § 1280.151 shall have 60 days from the date of publication within which to elect, under such conditions as the Secretary may prescribe, by so indicating to the Council in writing, by registered or certified mail, to reserve the right to seek refunds under paragraph (b) of this section. Only those end product manufacturers who make such an election, under the described procedure, shall be eligible for refunds of assessments paid during the one-year period immediately following the expiration of such 60-day period.

(b) Nothwithstanding any other provision of this subpart, any end product manufacturer who has been subject to and has paid an assessment, but who has reserved the right, under paragraph (a) of this section, to seek a refund, and who is not in favor of supporting the programs as provided for herein, shall have the right to demand and receive from the Council a refund of such assessment: *Provided*, That such demand shall be made by such end product manufacturer in accordance with regulations, and on a form and within a time period, prescribed by the Council and approved by the Secretary and upon submission of proof satisfactory to the Council that the end product manufacturer paid the assessment for which refund is sought, and any such refund shall be made within 60 days after demand is received therefor.

§ 1280.153 Influencing governmental action.

No funds collected by the Council under this subpart shall in any manner be used for the purpose of influencing governmental policy or action, except to recommend to the Secretary amendments to this subpart.

REPORTS, BOOKS AND RECORDS

§ 1280.159 General

Consistent with the legislative history of the Act, the Secretary and the Council shall endeavor to keep any recordkeeping or reporting obligations imposed under this part to the absolute minimum necessary, consistent with the achievement of the objectives of the Act.

§1280.160 Reports.

Each end product manufacturer subject to this subpart, and other persons subject to § 1705(c) of the Act, may be required to report to the Council periodically such information as is required by the regulations recommended by the Council and approved by the Secretary. Such information may include but be limited to the following:

(a) The number of hundredweights of processed wheat purchased, sold, or initially transferred (as described in § 1280.122 and § 1280.151(a)) for use in the manufacture of end products;

(b) The number of hundredweights of processed wheat on which an assessment was paid; and

(c) The date any assessment was paid.

§1280.161 Books and records.

Each end product manufacturer who is subject to this subpart, and other persons subject to § 1705(c) of the Act, shall maintain and make available for inspection by the Council or the Secretary such books and records as are necessary to carry out the provisions of this subpart and the regulations issued hereunder, including such records as are necessary to verify any reports required. Such records shall be retained for at least two years beyond the fiscal period of their applicability.

§1280.162 Confidential treatment.

All information obtained from such books, records or reports under the Act and this part, and all information pertaining to refund requests and refunds, shall be kept confidential by all officers and employees of the Department, the Council, and by all officers and employees of contracting agencies having access to such information. Only such information so furnished or acquired as the Secretary deems relevant shall be disclosed by them, and then only in a suit or administrative hearing brought at the direction, or upon the request, of the Secretary, or to which the Secretary or any officer of the United States is a party, and involving this subpart. Nothing in this section shall be deemed to prohibit: (a) The issuance of general statements based upon the reports of the number of persons subject to this subpart or statistical data collected therefrom, which statements do not identify the information furnished by any person, (b) the publication, by direction of the Secretary, of general statements relating to refunds made by the Council during any specific period, or (c) the publication, by direction of the Secretary, of the name of any person who has been adjudged to have violated this subpart, together with a statement of the particular provisions of the subpart violated by such person.

CERTIFICATION OF ORGANIZATIONS

§1280.165 Certification of organizations.

(a) Any organization or association may request the Secretary for certification of eligibility to participate in nominating members and alternate members of the Council to represent wheat producers, processors, end product manufacturers or consumers. Such eligibility shall be based, in addition to other available information, upon a factual report submitted by the organization or association which shall contain information deemed relevant and specified by the Secretary for the making of such determination, including, but not limited to the following:

(1) Geographic territory covered by the organization's active membership;

(2) Nature and size of the organization's active membership including, in the case of an organization other than a consumer organization, the proportion of the total number of active wheat producers, processors, or end product manufacturers represented by the organization;

(3) The extent to which wheat producer, processor, or end product manufacturer membership, respectively, of such organization is represented in setting the organization's policies;

(4) Evidence of stability and permanence of the organization;

(5) Sources from which the organization's operating funds are derived;

(6) Functions of the organization; and

(7) The organization's ability and willingness to further the aims and objectives of the Act.

(b) The primary consideration in determining the eligibility of an organization, other than a consumer organization, shall be whether its membership consists primarily of wheat producers, processors, or end product manufacturers who produce a substantial volume of wheat, processed wheat, or end products, respectively, and whether the organization is based on a primary or overriding interest in the production, processing, or end manufacturing of wheat or wheat products, and the nutritional attributes thereof.

(c) In determining the eligibility of a consumer organization, the primary consideration shall be whether (1) a principal purpose of the organization is to promote consumer interests, consumer research, or consumer education, (2) such organization has a broadly representative constituency of consumers, with active membership participation on a regular basis, and (3) the organization has demonstrated to the Secretary's satisfaction its commitment to the achievement of the objectives of the Act.

(d) The Secretary shall certify any organization or association which he finds to be eligible under this section and his determination as to eligibility shall be final. After the original certification of organizations, such organizations shall request recertification every five years and the Secretary may require recertification at any time.

MISCELLANEOUS

§1280.166 Suspension and termination.

(a) The Secretary shall, whenever he finds that this subpart or any provision therof obstructs or does not tend to effectuate the declared policy of the Act, terminate or suspend the operation of this subpart or such provision.

(b) The Secretary may conduct a referendum at any time, and shall hold a referendum on request of 10 percentum or more of the number of end product manufacturers subject to this subpart, to determine whether such manufacturers favor the termination or suspension of the subpart, and the Secretary shall suspend or terminate such subpart within six months after the Secretary determines that suspension or termination of the subpart is approved or favored by a majority of the end product manufacturers voting in such referendum who, during a representative period determined by the Secretary, have been engaged in the manfacture of end products or by end product manufacturers who produced end products containing more than 50 per centum of the total processed wheat contained in all end products manufactured during such period by the end product manufacturers voting in the referendum.

§1280.167 Proceedings after termination.

(a) Upon the termination of this subpart the Council shall recommend not more than five of its members to the Secretary to serve as trustees for the purpose of liquidating the affairs of the Council. Such persons, upon designation by the Secretary, shall become trustees of all the funds and property then in the possession or under the control of the Council, including claims for any funds unpaid or property not delivered or any other claim existing at the time of such termination.

(b) The said trustee shall: (1) Continue in such capacity until discharged by the Secretary; (2) carry out the obligations of the Council under any contracts or agreements entered into by it pursuant to § 1280.140(g); (3) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the Council and of the trustees, to such persons as the Secretary may direct; and (4) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such persons full title and right to all of the funds, property, and claims vested in the Council or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered pursuant to this subpart shall be subject to the same obligations imposed upon the Council and upon the trustees.

(d) Any residual funds not required to defray the necessary expenses of liquidation shall be turned over to the Secretary to be used, to the extent practicable, in the interest of continuing one or more of the research or nutrition education plans or projects hitherto authorized.

§1280.168 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant hereto, or the issuance of any amendment to either thereof, shall not:

(a) Affect or waive any right, duty, obligation, or liability which shall

V 4 4 / 1 9

have arisen or which may hereafter arise in connection with any provision of this subpart or any regulation issued thereunder;

(b) Release or extinguish any violation of this subpart or any regulation issued thereunder; or

(c) Affect or impair any rights or remedies of the United States, or of the Secretary, or of any person, with respect to any such violation.

§1280.169 Personal liability.

No member, alternate member or employee of the Council shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts either of commission or ommission, of such member, alternate or employee, except for acts of dishonesty or willful misconduct.

§1280.170 Patents, copyrights, inventions and publications.

Any patents, copyrights, inventions, or publications developed through the use of funds collected under the provisions of this subpart shall be the property of the U.S. Government as represented by the Council, and shall, along with any rents, royalties, residual payments, or other income from the rental, sale, leasing, franchising, or other uses of such patents, copyrights, inventions, or publications, inure to the benefit of the wheat and wheat foods industry. Upon termination of this subpart, §1280.167 shall apply to determine disposition of all such property.

§1280.171 Amendments.

Amendments to the subpart may be proposed, from time to time, by the Council, or by any organization or association certified pursuant to §1714 of the Act, or by any interested person affected by the provisions of the Act, including the Secretary.

§1280.172 Separability.

If any provision of this subpart is declared invalid or the applicability thereof to any person or circumstance is held invalid, the validity of the remainder of this subpart or the applicability thereof to other persons or circumstances shall not be affected thereby.

Proposed by the Livestock, Poultry, Grain, and Seed Division, Agricultural Marketing Service

PROPOSAL NO. 2

Make such changes as may be necessary to make the entire order conform with any provisions thereto that may result from this hearing.

Copies of this notice of hearing and the proposed order may be procured from W. David Spalding, Livestock, Poultry, Grain, and Seed Division, Agricultural Marketing Service, Room 2084 South Building, United States Department of Agriculture, Washington, D.C. 20250, or from the Hearing Clerk, Room 1077, South Building, United States Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

From the time that a hearing notice is issued until the issuance of a final decision in a proceeding, Department employees invoived in the decisional process are prohibited from discussing the merits of the hearing issues on an ex parte basis with any person having an interest in the proceedings. For this particular proceeding the prohibition applies to employees in the following organizational units:

Office of the Secretary of Agriculture.
Office of the Administrator, Agricultural Marketing Service.
Office of the General Counsel.
Livestock, Poultry, Grain, and Seed Division, Agricultural Marketing Service (Washington office only).

Procedural matters are not subject to the above prohibition and may be discussed at any time.

Signed at Washington, D.C., on January 22, 1979.

BARBARA LINDEMANN SCHLEI,
Administrator.

Commodity Credit Corporation

[7 CFR Part 1434]

1979 CROP HONEY PRICE SUPPORT PROGRAM

Proposed Determination

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Proposed rule.

SUMMARY: The Secretary of Agriculture is preparing to make determinations with respect to a price support program for the 1979 crop honey and the regulations to carry out the program. These determinations are to be made pursuant to the Agricultural Act of 1949, as amended. The program will enable producers to obtain price support on 1979 crop honey. Written comments are invited from interested persons.

DATE: Comments must be received on or before March 26, 1979 in order to be sure of consideration.

ADDRESS: Acting Director, Production Adjustment Division, ASCS, USDA, Room 3630 South Building, P.O. Box 2415, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

Harry A. Sullivan (ASCS) (202) 447-7951.

SUPPLEMENTARY INFORMATION: A. *Price support program, color differentials and discounts for quality.* Title II of the Agricultural Act of 1949, as amended, authorizes and directs the Secretary to make available through loans, purchases or other operations, price support to producers of honey at a level which is not in excess of 90 percent nor less than 60 percent of the parity price thereof. Loan and purchase rates will be based on color, class and grade and will reflect market differentials under which honey is merchandised. Section 401 (b) of the Act requires that, in determining a price support rate in excess of the minimum level prescribed for honey, consideration must be given to the supply of the commodity in relation to the demand therefor, the price levels at which other commodities are being supported, the availability of funds, the perishability of the commodity, the importance of the commodity to agriculture and the national economy, the ability to dispose of stocks acquired under a price support program, the need for offsetting temporary losses of export markets, and the ability and willingness of producers to keep supplies in line with demand.

B. *Price support program availability dates.* Comments are invited with respect to the loan and purchase availability dates and to the loan maturity date for the 1979 crop honey.

C. *Detailed operating provisions.* Detailed operating provisions necessary to carry out the program on honey will be considered for the 1979 crop honey. Provisions of this kind may be found in the regulations providing terms and conditions for the current price support program in Part 1434 of Title 7 of the Code of Federal Regulations.

PROPOSED RULE

The Secretary of Agriculture is considering the following determinations for the 1979 crop honey:

A. Price support rates based on color differentials, class and grade.

B. Price support program availability dates.

C. Detailed operating provisions to carry out the program.

Prior to making these determinations, consideration will be given to any data, views and recommendations. All comments will be made available to the public at the office of the Acting Director, Production Adjustment Division, ASCS, USDA, during regular business hours (8:15 a.m. to 4:45 p.m.), Monday through Friday, in room 3630 South Building, 14th and Independence Avenue, SW., Washington, D.C. (7CFR 1.27 (b)).

NOTE.— An aproved Draft Impact Analysis has been prepared in accordance with executive order 12044 and is available from Harry A., Sullivan (ASCS) 202-447-7951.

NOTE.—Based on an assessment of the environmental impacts of the proposed action, it has been determined that an Environmental Impact Statement need not be prepared since the proposals will have no significant effect on the quality of the human environment.

NOTE.—This regulation has been determined not significant under the USDA criteria implementing Executive Order 12044.

Signed at Washington, D.C., on January 22, 1979

RAY FITZGERALD,
Executive Vice President,
Commodity Credit Corporation.

FEDERAL TRADE COMMISSION

[16 CFR Part 13]

[File No. 772 3031]

GENERAL MOTORS CORP.

Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Provisional consent agreement.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this provisionally accepted consent agreement, among other things, would require a Detroit, Mich. motor vehicle manufacturer to cease misrepresenting the manufacturing source of engine options and the availability of standard or optional equipment. The order would also require the firm to make designated disclosures regarding the manufacturing source, ordering code, and availability of each engine option offered for the model years 1979 through 1981; notify dealers promptly of engine option substitutions; and provide them with the replacement parts and maintainance information necessary to service such equipment. Additionally, the company would be prohibited from using any wholesale order system which could prevent dealers from designating specific options requested by purchasers.

DATE: Comments must be received on or before March 27, 1979.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, 6th St. and Pennsylvania Ave., N.W., Washington, D.C. 20580.

FOR FURTHER INFORMATION CONTACT:

Paul R. Peterson, Director, 4R, Cleveland Regional Office, Federal Trade Commission, 1339 Federal Office Bldg., 1240 East Ninth St., Cleveland, Ohio 44199. (216) 522-4207.

SUPPLEMENTARY INFORMATION: Pursuant to Section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's rules of practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and provisionally accepted by the Commission, has been placed on the public record for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with § 4.9(b)(14) of the Commission's rules of practice (16 CFR 4.9(b)(14)).

[File No. 772 3031]

GENERAL MOTORS CORP.

AGREEMENT CONTAINING CONSENT ORDER TO CEASE AND DESIST

The Federal Trade Commission having initiated an investigation of certain acts and practices of General Motors Corporation, a corporation, and it now appearing that General Motors Corporation, a corporation, hereinafter sometimes referred to as proposed respondent, is willing to enter into an agreement containing an order to cease and desist from the use of the acts and practices being investigated.

It is hereby agreed by and between General Motors Corporation, and by its duly authorized officer, and their attorney, and counsel for the Federal Trade Commission that:

1. Proposed respondent General Motors Corporation is a corporation organized, existing, and doing business under and by virtue of the Laws of the State of Delaware, with its office and principal place of business located at 3044 West Grand Boulevard, in the City of Detroit, State of Michigan.

2. Proposed respondent admits all the jurisdictional facts set forth in the draft of complaint here attached.

3. Proposed respondent waives:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

4. This agreement shall not become part of the public record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission, it together with the draft of complaint contemplated thereby and related material pursuant to Rule 2.34, will be placed on the public record for a period of sixty (60) days and information in respect thereto publicly released. The Commission thereafter may either withdraw its acceptance of this agreement and so notify the proposed respondent, in which event it will take such action as it may consider appropriate, or issue and serve its complaint (in such form as the circumstances may require) and decision, in disposition of the proceeding.

This agreement is for settlement purposes only and does not constitute an admission by proposed respondent that the law has been violated as alleged in the draft of complaint here attached.

6. This agreement comtemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 2.34 of the Commission's rules, the Commission may, without further notice to proposed respondent, (1) issue its complaint corresponding in form and substance with the draft of complaint here attached and its decision containing the following order to cease and desist in disposition of the proceeding and (2) make information public in respect thereto. When so entered, the order to cease and desist shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders. The order shall become final upon service. Delivery by the United States Postal Service of the complaint and decision containing the agreed-to order to proposed respondent's address as stated in this agreement shall constitute service. Proposed respondent waives any right it may have to any other manner of service. The complaint may be used in construing the terms of the order, and no agreement, understanding, representation, or interpretation not contained in the order or the agreement may be used to vary or contradict the terms of the order.

7. Proposed respondent has read the proposed complaint and order contemplated hereby. It understands that once the order has been issued, it will be required to file one or more compliance reports showing that it has fully complied with the order. Proposed respondent further understands that it may be liable for civil penalties in the amount provided by law for each violation of the order after it becomes final.

8. Anything herein to the contrary notwithstanding, the Commission shall abide by its commitments to General Motors Corporation as set forth in its letter dated March 14, 1978 to Richard W. Pogue, Counsel for General Motors Corporation, a copy of which is attached hereto and hereby made a part hereof, as well as any applicable order of court issued or to be issued in *Federal Trade Commission v. General Motors Corporation, et al.*, Case No. 77-927, United States District Court for the Northern District of Ohio, regarding the disclosure of documents.

ORDER

I

For purposes of this order, the following definitions shall apply:

A. The term *"GM"* shall mean General Motors Corporation, and all of its divisions, its successors, assigns, officers, representatives, agents, and employees, acting directly or through any subsidiary or other device.

B. The term *"franchised GM passenger car dealer"* shall mean any person, partnership, or corporation which is a party to a franchise agreement with GM to purchase

JA 26 79 UMI

V 4 4 / 1 9 J A 2 6 7 9 UMI

new GM passenger cars for resale to purchasers.

C. The term "*Manufacturing source*" shall mean the GM division or entity by which the item referred to was produced.

D. The term "*line*" shall mean each make and model of passenger car manufactured by General Motors Corporation and distributed or sold under the Chevrolet, Pontiac, Buick, Oldsmobile or Cadillac name.

E. The term "*engine option*" shall mean any engine designated by a GM ordering code number (including the standard engine) offered by GM as factory-installed equipment. For purposes of this order, each engine option shall be assigned a single, unique ordering code designation for a given model year which does not vary across division lines.

F. The term "*material difference*" shall mean any difference which results in a significant difference in engine performance, including but not limited to any difference in Environmental Protection Agency (EPA) fuel economy ratings, mileage intervals in excess of 1,000 miles for recommended engine maintenance, horsepower and displacement, or which results in a difference of regular maintenance replacement parts.

G. The term "*substituted engine*" shall mean an engine option installed in any GM line in any area of the country as a replacement for an engine option offered for that line in the same model year, but which is unavailable in such line or area, if the replacement engine option.

(1) Is produced by a division other than that which produced the engine option to be replaced; or

(2) Has any "material difference" from the engine option to be replaced.

H. The term "*option*" shall mean an item of equipment to be installed in a new GM passenger car for which GM provides purchasers a choice of alternatives.

I. The term "*purchaser*" shall mean a potential buyer, potential lessee, buyer and lessee of any new GM passenger car, but shall not include a franchised GM passenger car dealer.

II

It is hereby ordered, That GM is prohibited from misrepresenting as of the time the representation is made by GM:

A. The manufacturing source of any engine option; and

B. That an option or item of standard equipment offered for a new GM passenger car is available if in fact it is not.

III

It is further ordered, That GM is prohibited from displaying the name of any GM car division on any engine or visible attachment to the engine under the hood of a new GM passenger car, including the air filter cover, unless the engine is manufactured by that Division.

IV

It is further ordered, That if:

A. GM furnishes or has furnished, during or in preparation for any model year, any information to any franchised GM passenger car dealers regarding any engine offered for any GM line for any model year, and

B. The engine described in the information provided to such dealers is to be or has been replaced by a substituted engine for that model year,

GM shall notify such dealers in writing, with respect to the affected lines handled by them, forthwith after the decision to substitute has been made. Such written notification shall include the lines in which the substituted engine is offered, its manufacturing source, ordering code number, designation used in the vehicle identification number to identify the type of engine option, and any material differences between the substituted engine and the engine to be replaced.

V

It is further ordered, That, for the 1979, 1980, and 1981 model years, GM shall furnish to all franchised GM passenger car dealers point-of-sale literature for distribution to purchasers in dealer showrooms disclosing clearly and conspicuously the engine options available in the GM lines carried by the dealer, and, for each engine option, the lines and areas of the country in which it is or is not available, its manufacturing source, and its ordering code designation. GM shall take such steps as are reasonably necessary to furnish such information to such dealers on a current basis. GM shall request, in writing, that such dealers display such materials in a conspicuous, accessible area of the dealer showroom.

VI

It is further ordered, That GM shall clearly and conspicuously disclose the following statement in all print advertising for the 1979 model year, and in the principal new car point-of-sale catalogs for the 1979, 1980, and 1981 model years, which contain any reference to the engine (including any representation regarding EPA fuel economy) in any GM line, group of lines or division, in which an engine option produced by a division different from the division under whose name the passenger car is distributed is offered:

(*Line, group of lines, divisional products*) is (are) equipped with GM-built engines produced by various divisions. See your dealer for details.

VII

It is further ordered, That, for the 1979, 1980, and 1981 model years:

A. GM shall clearly and conspicuously disclose, on a "window sticker" attached by GM to each new passenger car, or on the price information labels required by the Automobile Information Disclosure Act (15 U.S.C. Section 1232), the engine ordering code, and the manufacturing source of the engine installed in that car.

B. GM shall disclose in each owner's manual, maintenance chart or other maintenance information provided to a purchaser of a new GM passenger car, the accurate information customarily furnished regarding recommended maintenance intervals and regular maintenance replacement parts applicable to the engine installed in that car.

VIII

It is further ordered, That GM shall make available, subject to *force majeure*, labor disruptions, and other causes outside GM's control, replacement parts and repair and maintenance information to franchised GM passenger car dealers adequate to allow such dealers to provide GM warranty service to purchasers of new GM passenger cars equipped with any substituted engine to the same extent as it does in the case of new GM passenger cars equipped with non-substituted engines.

IX

It is further ordered, That this order shall be limited in its application to sales of new GM passenger cars in the United States and its territories.

X

It is further ordered, That:

A. GM is prohibited from utilizing a wholesale ordering system whereby its franchised GM passenger car dealers may not designate the specific options, other than standard equipment, requested by the purchaser. GM shall notify its dealers in writing that purchasers should be given the opportunity to designate the specific options ordered. *Provided*, That GM shall indicate when an option is required to be paired with another specific option.

B. For the 1979, 1980, 1981, 1982, and 1983 model years, GM shall advise its franchised GM passenger car dealers in writing whenever GM plans to build or has built a passenger car with options other than as ordered by the dealer. GM will disclose on such writing the following language:

Notify customer promptly of any changes indicated. If unacceptable, contact zone for disposition.

C. For the 1979, 1980 1981, 1982, and 1983 model years, GM shall clearly and conspicuously disclose in all principal new car point-of-sale catalogs the following statement:

Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest you verify that your car includes the options that you ordered or if there are changes that they are acceptable to you.

XI

It is further ordered, That:

A. GM shall notify the Commission at least thirty (30) days prior to any proposed change in the corporation such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of this order.

B. GM shall, within sixty (60) days after the effective date of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

ANALYSIS OF PROPOSED CONSENT ORDER TO AID PUBLIC COMMENT

The Federal Trade Commission has accepted an agreement to a proposed consent order from General Motors Corporation.

The proposed consent order and material submitted by General Motors Corporation to the Commission that is reasonably related to the merits of the order and is not exempt from disclosure under the Freedom of Information Act have been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement or make final the agreement's proposed order.

The complaint alleges that General Motors Corporation has misrepresented the division of manufacture and the availability of certain standard and optional equipment in its passenger cars, and that GM substituted other equipment for unavailable equipment.

The complaint also alleges that General Motors Corporation failed to disclose that:

(a) Certain standard and optional equipment was manufactured by a division other than the division under whose name the car is distributed;

(b) Certain standard and optional equipment was not available in cars for which GM represented them as available;

(c) GM substituted other equipment which differed from the unavailable equipment;

(d) An order by a consumer for particular equipment would not necessarily result in an order specifying that particular equipment; and

(e) An order for particular equipment, previously represented as available, could result in delivery of a car without that equipment, or with different equipment.

The complaint further alleges that GM did not make available, information and parts adequate to enable its dealers to fulfill warranty obligations for cars equipped with substituted equipment, and that GM did not make available accurate information regarding recommended maintenance intervals and regular maintenance replacement parts to purchasers of cars equipped with substituted equipment.

The proposed order applies to sales of new GM passenger cars in the United States and its territories.

The proposed order prohibits General Motors Corporation from misrepresenting the manufacturing source of any engine option and the availability of any item of standard or optional equipment. GM is also prohibited from displaying the name of any GM car division on or near the engine if the engine is not manufactured by that division.

For three model years, 1979 through 1981, GM must furnish point-of-sale literature disclosing the manufacturing source, ordering code, and availability of each engine option offered, to each dealer.

For the 1979 model year GM must use the following language in any print advertising which makes any reference to the engine in any car line in which an engine option produced by a division different from the division under whose name the car is distributed:

(*Line, group of lines, divisional products*) is (are) equipped with GM-built engines produced by various divisions. See your dealer for details.

The same notice must be placed in the principal new car point-of-sale catalogs for three model years, 1979 through 1981.

The order also requires GM to disclose on the window of each passenger car the manufacturing source and order code of the engine installed in the car for the model years 1979 through 1981. GM must also provide accurate information regarding recommended maintenance intervals and regular maintenance replacement parts in owners manuals or other information given to purchasers.

GM must notify its dealers promptly whenever it decides to substitute an engine option and provide important information about the substituted engine and the engine option it replaces.

Subject to labor disruptions and other causes outside GM's control, the order also requires GM to make available replacement parts and repair and maintenance information to dealers to allow dealers to provide GM warranty service to owners of cars equipped with substituted engines to the same extent as it does for cars not equipped with substituted engines.

Finally, GM is prohibited from using a wholesale ordering system which does not permit dealers to designate specific options requested by the purchaser. GM must notify dealers that purchasers should be given the opportunity to designate the specific options ordered.

For five model years, 1979 through 1983, GM must notify its dealers whenever it plans to build or has built a car with an option other than as ordered by the dealer. That notice directs the dealer to tell the customer promptly of the changes in the car he ordered. For the same five year period, GM must disclose in all principal new car point of sale catalogs the following prescribed statement:

Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest you verify that your car includes the options that you ordered or if there are changes that they are acceptable to you.

The purpose of this analysis is to facilitate public comment on the proposed order, and it is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

CAROL M. THOMAS,
Secretary.

CONSUMER PRODUCT SAFETY COMMISSION

[16 CFR Part 1500]

ALUMINIZED POLYESTER FILM KITES

Proposed Banning of Hazardous Aluminized Polyester Film Kites

AGENCY: Consumer Product Safety Commission.

ACTION: Proposed regulation.

SUMMARY: The Commission proposes a regulation banning aluminized polyester film kites because such kites are capable of conducting electricity and are susceptible to contact with high voltage electric power lines. This regulation is intended to reduce the risk of serious injury or death by electric shock created when an aluminized polyester film kite contacts a power line and conducts a strong electric current through the aluminized surface of the kite or its tail to a person in contact with the kite or its tail; and the risk of injury to persons in the vicinity of electric power lines which could break and fall as a result of an electric arc caused by the kites.

DATES: Comments must be received on or before March 27, 1979. The proposed effective date of the ban is 30 days after publication of a final banning regulation for aluminized polyester film kites.

ADDRESS: Send comments to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207. Received comments may be seen in, and obtained from, the Office of the Secretary, 1111 18th Street, N.W., 3rd Floor, Washington, D.C. 20207 during business hours, Monday through Friday.

FOR FURTHER INFORMATION CONTACT:

Elaine H. Besson, Office of Program Management, Consumer Product Safety Commission, Washington, D.C. 20207, (301) 492-6453.

NOTE.—All of the documents and materials referenced in the preamble are available for inspection or copying in the Office of the Secretary, 1111 18th Street, N.W., 3rd floor, Washington, D.C. 20207.

SUPPLEMENTARY INFORMATION:

BACKGROUND

In October of 1975, upon the recommendation of its enforcement staff, the Consumer Product Safety Commission issued a notice of enforcement under section 15 of the Consumer Product Safety Act ("CPSA", 15 U.S.C. 2064) alleging that certain aluminized polyester film kites manufactured between November 1, 1973 and March 31, 1974 constituted a substantial product hazard within the meaning of section 15(a) of the Consumer Product Safety Act. (See, Notice of Enforcement, October 30, 1975, In the Matter of *Francis Alonso, Jr., an individual doing business as Mylar Star Kites*, CPSC Docket No. 75-16, hereinafter "*Mylar Star Kites.*") A formal hearing on the staff's allegations was held before the Commission's administrative law judge at which oral testimony and written evidence were received from Commission and outside experts concerning the potential hazards associated with such kites. The respondent also presented evidence and has an opportunity to cross-examine witnesses presented by the Commission. (See, Transcript of Hearing and exhibits attached thereto, *Mylar Star Kites*, February 24-25, 1976, hereinafter, "Transcript.")

The technical evidence presented at the hearing concerning the electrical conductivity of aluminized polyester film kites showed that such material is an excellent conductor of electricity. When the kites manufactured by the respondent were tested at the Commission's engineering laboratory, they

V 4 4 / 1 9

were found to be capable of transmitting approximately 52 to 66 milliamperes of current at ordinary household voltage of 115 to 120 volts through a resistance of 1500 ohms, representing the resistance of the human body. (Transcript at 81.) Significantly more current can be conducted through aluminized polyester film at higher than ordinary household voltage. (Transcript at 84.) The evidence also showed that if an aluminized polyester film kite and/or tail were entangled across a live 12,000 volt line and a line which would act as a ground, an arc or ionized path could be created through which a significantly greater amount of current can flow than would be expected from the thin layer of aluminum coating on the kite. Tests conducted at the Pacific Gas and Electric Company's San Ramon facility, revealed that as much as 100 amperes (100,000 milliamperes) can pass through such an arc. (Transcript at 95–100.)

When an electrically conductive metalized kite, tail or string comes in contact with a high voltage power line, bodily contact with the kite, tail, or string can result in serious injury ranging from tissue burns to respiratory paralysis, ventricular fibrillation, and death. Ventricular fibrillation, a condition in which the heart pulsates irregularly and stops pumping blood, will cause death if not defibrillated within three minutes. (Transcript at 261). A lethal shock can occur as a result of exposure to 100 milliamperes of electric current for one second. (Transcript at 252–253.)

Evidence presented in the *Mylar Star Kites* proceeding also indicated that aluminized polyester film kites are susceptible to becoming entangled in electric power lines in such a way as to conduct electricity from one power line to another. Incidents of such entanglement cited in the record of the *Mylar Star Kites* proceeding include the following:

In early April 1975 at Herman Street, San Francisco, California, an aluminized polyester film kite and tail caused two 12,000 volt conductors to break and fall on a car. The live conductors burned a hole in the right rear of the seat and burn marks were found on the tires and wheels. (Transcript at 38.)

On April 15, 1975, near Jackson and Broderick Streets, San Francisco, California, an aluminized polyester film kite and tail, apparently having severed its string, crossed three high voltage conductors causing them to break and fall resulting in a power surge into nearby residences blowing a fuse box off the wall, exploding an electric meter and light fixture, and burning out a refrigerator compressor. (Transcript at 45.)

After a review of the testimony and other evidence presented in the proceeding, the administrative law judge found that aluminized polyester film kites manufactured by the respondent, including kites with tails 25 feet or more in length, box kites with dimensions of 36 x 28 inches, and "fighter" kites with dimensions of 25 x 31 inches, presented a substantial product hazard because they are conductive of electricity and susceptible to contact with high voltage power lines, thus presenting a hazard of electrical shock to users and retrievers of such kites, other persons in the vicinity of such power lines, and persons in homes and other buildings affected by high voltage surges caused by the kites. (See Initial Decision and Order, *Mylar Star Kites*, June 21, 1976, at 1.)

On review of the initial Decision and Order, the Commission concluded that there was substantial evidence to support the administrative law judge's findings of fact as to the hazardous nature of aluminized polyester film kites. Specifically, the Commission found that the record showed the kites to contain.

"• • • a serious defect because the design incorporates a conductive material which is capable of transmitting a lethal electric shock to a person in contact with the kite. This aluminum surface does not add to the flying capability of the kite but merely adds to its aesthetc value." Commission Decision and Order, *Mylar Star Kites*, September 16, 1977, at 3.

The Commission conclude that because of the nature and severity of the risk without an offsetting benefit sufficient to justify the risk, a product such as the kites, if properly the subject of a proceeding under the CPSA, would present a substantial product hazard.

Notwithstanding this conclusion, the Commission determined that kites are articles intended for use by children and as such, fall within the scope of the Federal Hazardous Substances Act ("FHSA," 15 U.S.C. 1261). Since the majority concluded that the hazard presented by aluminized polyester film kites could be eliminated or reduced to a sufficient extent under the FHSA, the Commission, in accordance with section 30(d) of the CPSA (15 U.S.C. 2079(d)), as it existed at the time the proceeding was commenced [1] set aside the proposed order of the administrative law judge in *Mylar Star Kites* and instructed the staff to prepare the present proposed action under the FHSA.

[1] Subsequent to commencement of the *Mylar Star Kites* proceeding, section 30(d) was amended to permit the Commission to regulate hazards under the CPSA notwithstanding the applicability of a "transferred act" if the Commission finds by rule that it is in the public interest to proceed under the CPSA. (Section 16, Pub. L. 94-284, 90 Stat. 606, May 11, 1976.)

The Commission recognizes that aluminized polyester film kites are also used by adults. Such incidential use by adults does not invalidate the Commission's regulation of this product under the FHSA as an article intended for use by children.

The authority of the Commission to regulate under the FHSA, as articles intended for use by children, products that may also be used by adults was upheld in *Forester v. CPSC*, 559 F.2d 774 (D.C. Cir. 1977). In *Forester*, which involved a petition for review of the Commission's safety regulations under the FHSA for bicycles, the court concluded that "[i]ncidental use of an item by adults would not deprive the Commission of the jurisdiction to regulate an item under the FHSA." 559 F.2d at 786. The court held that the determination as to whether an item may be regulated under the FHSA depends on whether the item is intended for use by children, a determination vested in the sound discretion of the Commission.

In the present case, the Commission observes that kites are generally recognized as articles intended for use by children and are widely used by children. Neither the retail price nor the design of aluminized polyester film kites would exclude use by children. Moreover, as in the case of bicycles, it would be impossible to set a regulatory distinction between "children's" and "adult" kites.

The Proposal

The *Mylar Star Kites* proceeding specifically concerned particular models of almuminized polyester film kites manufactured by the respondent. However, the evidence in the record indicates that any aluminized polyester film kite susceptible to contact with high voltage electric power lines would pose the same hazard of electric shock to persons coming in contact with the kite or its aluminized tail, or persons in the vicinity of electric power lines which could break and fall as a result of an electric arc caused by the kites. Accordingly, the banning regulation proposed below is intended to apply to any aluminized polyester film kite posing the same hazard as those involved in the *Mylar Star Kites* proceeding.

The Americna National Standards Institute standard for electric power lines (ANSI C2 1977) [2] allows a minimum horizontal clearance of 12 inches between power lines transmitting current not exceeding 8.7 kilovolts (8700 volts). This standard is observed nationwide by electric utilities, and results in uniform placement of electric power lines. In order to allow for a margin of safety, the Commission is proposing to ban any kite containing a piece of aluminized polyester film measuring 10 inches or more. This provision allows for the possibility that electric power lines separated by a distance of 12 inches may be pulled together by a kite, its tail, or string becoming entangled in the line.

[2] Available from American National Standards Institute (ANSI), 1430 Broadway, New York, N.Y. 10018.

Economic Considerations

An assessment of potential economic impact has been made of the proposal set forth below. The Commission, on the basis of a staff investigation and analysis, has concluded that the proposed ban would affect only a small precentage of all kites manufactured in the United States. The precise number of kites manufactured in the United States is unknown but estimates indicate that approximately 40 million are produced annually. The average selling price of affected kites is $5.00. In addition to prohibiting manufacture, distribution, or sale of aluminized polyester film kites, the proposed rule set forth below would require the repurchase of banned kites, in accordance with section 15 of the FHSA (15 U.S.C. 1274) and Commission regulations published at 16 CFR 1500.202 and 1500.203.

The repurchase requirement would have the effect of requiring the recall of any banned kites which had been previously manufactured or distributed. The cost of such recall may be significant for a small number of firms. However, the Commission notes several factors which may tend to limit such costs. The Commission's staff was unable to identify any firms which are still manufacturing the long-tailed "dragon" kites which were the subject of the original notice of enforcement issued in the *Mylar Star Kites*, and which were the type of kite involved in the incidents described above. Given the relatively short usable life of an aluminized polyester film kite, there may be very few previously sold kites still in consumers' hands and available for recall. Moreover, several of the firms which had previously manufactured these kites have already conducted a recall. In the recalls conducted, relatively few kites were actually returned by consumers. Several firms have, however, continued to manufacture and distrubute box kites and other kites containing aluminized polyester film which would be subject to the proposed ban and repurchase. Greater numbers of those kites would be available in the chain of distrubution or in consumers' hands and consequently subject to repurchase.

A copy of the economic assessment is on file and can be inspected in the Commission's Office of the Secretary at the above address.

Environmental Considerations

An assessment of the potential environmental impact has been made of the proposal set forth below. The Commission concludes that there are no significant environmental effects associated with the proposal. Therefore, there is no need for an environmental impact statement. A copy of the environmental assessment is on file and can be inspected in the Commission's Office of the Secretary at the above address.

Effective Date

It is contemplated that the effective date will be 30 days after publication of a final banning regulation for aluminized polyester film kites. The regulation will be applicable to all kites meeting the definition, regardless of when manufactured or introduced into interstate commerce. Thus, as of the effective date, no kite meeting the definition set forth in § 1500.18(c)(1) below may be manufactured, introduced or delivered for introduction into, or received in, interstate commerce. Moreover, under section 15 of the FHSA (15 U.S.C. 1274), any such kite is subject to repurchase in accordance with 16 CFR 1500.202 and 1500.203. For purposes of this regulation, introduction into interstate commerce is defined as follows: A kite manufactured outside the United States is introduced into interstate commerce when it is is first brought within a U.S. port of entry. A kite manufactured in the United States is introduced into interstate commerce (a) at the time of its first interstate sale, or (b) at the time of its first intrastate sale if one or more of its components and/or raw materials were received interstate.

Conclusion

Under the Federal Hazardous Substances Act (FHSA) the term "hazardous substance" inlcudes any toy or article intended for use by children that the Commission determines by regulation presents an electrical hazard (sec. 2(f)(1)(D), 15 U.S.C. 1261(f)(1)(D)). Section 2(q)(1)(A) of the FHSA provides that such toy or article is also a banned hazardous substance.

"Electrical hazard" is defined by section 2(r) of the act, which reads

"an article may be determined to present an electrical hazard if, in normal use or when subjected to reasonably foreseeable damage or abuse, its design or manufacture may cause personal injury or illness by electrical shock." (15 U.S.C. 1261(r)).

Based on information available to the Commission, the Commission has preliminarily determined that certain aluminized polyester film kites, because of electrical hazards associated with their design (specifically their size and electrical conductivity), present a risk of personal injury from electric shock as a result of their ability to conduct electricity and to become entangled in or otherwise contact high voltage electric power lines. The Commission believes that the potential for serious personal injury presented by such kites outweighs the potential economic impact that would result from a ban. Consequently, the Commission believes such kites should be banned from interstate commerce.

Accordingly, pursuant to provisions of the Federal Hazardous Substances Act (sec. 2(f)(1)(D), (q)(1)(A), (r), 3(e)(1), 74 Stat 372, 374, 375, as amended, 80 Stat. 1304–05, 83 Stat. 187–189, 15 U.S.C. 1261, 1262) and under authority vested in the Commission by the Consumer Product Safety Act (sec. 30(a), 86 Stat. 1231, 15 U.S.C. 2079(a)), the Commission proposes to amend Title 16, Chapter II, Subchapter C of the Code of Federal Regulations by adding a new paragraph (c)(1) to § 1500.18 as follows:

PART 1500—HAZARDOUS SUBSTANCES AND ARTICLES; ADMINISTRATION AND ENFORCEMENT REGULATIONS

§ 1500.18 Banned toys and other banned articles intended for use by children.

• • • • •

(c) *Toys and other children's articles (not electrically operated) presenting electrical hazards.* Under the authority of section 2(f)(1)(D) of the act and pursuant to provisions of section 3(e) of the act, the Commission has determined that the following types of toys or other articles intended for use by children (not electrically operated) present an electrical hazard within the meaning of section 2(r) of the act.

(1) Any kite 10 inches or greater in any dimension constructed of aluminized polyester film or any kite having a tail or other component consisting of a piece of aluminized polyester film 10 inches or greater in any dimension presents an electrical hazard and is a banned hazardous substance because its design (specifically its size and electrical conductivity) presents a risk of personal injury from electric shock due to its ability to conduct electricity and to become entangled in or otherwise contact high voltage electric power lines.

Interested persons are invited to submit, on or before March 27, 1979, written comments regarding this proposal. Comments and any accompanying data or material should be submitted, preferably in five copies, addressed to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207. Comments received after the close of the comment period will be considered to the extent practi-

[21 CFR Parts 436 and 440]

[Docket No. 78N-0337]

PYROGEN TEST FOR CERTAIN PENICILLIN DRUGS

Proposed Rulemaking

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: This document proposes to amend the antibiotic drug regulations by increasing the pyrogen test dose concentration or volume for certain penicillin drugs. This increase will improve the sensitivity of the pyrogen test and thereby assure better quality control of these drug products.

DATE: Comments by March 26, 1979.

ADDRESS: Written comments to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Joan M. Eckert, Bureau of Drugs (HFD-140), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-4290.

SUPPLEMENTARY INFORMATION: The pyrogen test is a biological test using rabbits, and it is used to determine the presence of pyrogens, substances that can produce a febrile reaction, in injectable drug products. The antibiotic drug regulations in § 436.32 (21 CFR 436.32) prescribe the volume of the pyrogen test dose to be administered to the test animal; however, the amount of antibiotic drug substance in each dose (concentration) is established by applicable regulations for specific antibiotic drugs.

The test dose concentration currently specified in the regulations for penicillin G potassium, carbenicillin disodium, nafcillin sodium, and penicillin G procaine are substantially below the recommended daily dose of each drug.

Based on its own laboratory findings, FDA has determined that the test dose concentration for penicillin G potassium, carbenicillin disodium, and nafcillin sodium can be raised without harm to the test animal. Also, FDA found that with penicillin G procaine, which is not soluble at a higher concentration, the volume of test dose solution administered can be safely increased, thereby increasing the amount of antibiotic drug the test animal receives. The sensitivity of the test method in detecting the presence of pyrogens is improved by increasing the concentration or volume of the antibiotic drug administered to the test animal.

Therefore, the Commissioner of Food and Drugs proposes that the regulations providing for those drugs be amended to increase the pyrogen test dose volume or concentration.

Although not reviewed separately, the test dose concentration for penicillin G sodium is also proposed to be raised. Because the toxicity of penicillin G sodium is so similar to penicillin G potassium in the test animal it can be assumed that the higher test dose will be tolerated. In addition, a typographical error in the italicized heading of § 440.41a(b)(3) is corrected by changing the phrase "*Nafcillin content*" to read "*Pyrogens.*"

The FDA has determined that this document does not contain an agency action covered by 21 CFR 25.1(b), and consideration by the agency of the need for preparing an environmental impact statement is not required.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended (21 U.S.C. 357)) and under authority delegated to him (21 CFR 5.1), the Commissioner proposes that Parts 436 and 440 be amended as follows:

PART 436—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

1. Part 436 is amended in § 436.32 by adding new paragraph (h) to read as follows:

§ 436.32 Pyrogen test.

* * * * *

(h) *Method 8.* Proceed as directed in paragraph (a) of this section, except inject a test dose of 2.0 milliliters of the diluted sample per kilogram of rabbit weight.

PART 440—PENICILLIN ANTIBIOTIC DRUGS

2. Part 440 is amended:

a. in § 440.13a, by revising paragraph (b)(3) to read as follows:

§ 440.13a Sterile carbenicillin disodium.

* * * * *

(b) * * *

(3) *Pyrogens.* Proceed as directed in § 436.32(b) of this chapter, using a solution containing 200 milligrams of carbenicillin per milliliter.

* * * * *

b. In § 440.41a, by revising paragraph (b)(3) to read as follows:

§ 440.41a Sterile nafcillin sodium monohydrate.

* * * * *

(b) * * *

(3) *Pyrogens.* Proceed as directed in § 436.32(a) of this chapter, using a solution containing 80 milligrams of nafcillin per milliliter.

* * * * *

c. In § 440.74a, by revising paragraph (b)(3) to read as follows:

§ 440.74a Sterile penicillin G procaine.

* * * * *

(b) * * *

(3) *Pyrogens.* Proceed as directed in § 436.32(h) of this chapter, using a solution containing 2,000 units of penicillin G per milliliter.

* * * * *

d. In § 440.80a, by revising paragraph (b)(3) to read as follows:

§ 440.80a Sterile penicillin G potassium.

* * * * *

(b) * * *

(3) *Pyrogens.* Proceed as directed in § 436.32(b) of this chapter, using a solution containing 20,000 units of penicillin G per milliliter.

* * * * *

e. In § 440.81a, by revising paragraph (b)(3) to read as follows:

§ 440.81a Sterile penicillin G sodium.

* * * * *

(b) * * *

(3) *Pyrogens.* Proceed as directed in § 436.32(b) of this chapter, using a solution containing 20,000 units of penicillin G per milliliter.

* * * * *

f. In § 440.241, by revising paragraph (b)(3) to read as follows:

§ 440.241 Nafcillin sodium monohydrate for injection.

* * * * *

(b) * * *

(3) *Pyrogens.* Proceed as directed in § 436.32(a) of this chapter, using a solution containing 80 milligrams of nafcillin per milliliter.

* * * * *

g. In § 440.274b, by revising paragraph (b)(3) to read as follows:

§ 440.274b Sterile penicillin G procaine suspension.

* * * * *

(b) * * *

(3) *Pyrogens.* Proceed as directed in § 436.32(h) of this chapter, using a solution containing 2,000 units of penicillin G per milliliter.

* * * * *

h. In § 440.274c, by revising paragraph (b)(3) to read as follows:

§ 440.274c Sterile penicillin G procaine for suspension.

* * * * *

(b) * * *

(3) *Pyrogens.* Proceed as directed in § 436.32(h) of this chapter, using a solution containing 2,000 units of penicillin G per milliliter.

* * * * *

i. In § 440.280b, by revising paragraph (b)(3) to read as follows:

§ 440.280b Penicillin G potassium for injection.

* * * * *

(b) * * *

(3) *Pyrogens.* Proceed as directed in § 436.32(b) of this chapter, using a solution containing 20,000 units of penicillin G per milliliter.

* * * * *

j. In § 440.281b, by revising paragraph (b)(3) to read as follows:

§ 440.281b Penicillin G sodium for injection.

* * * * *

(b) * * *

(3) *Pyrogens.* Proceed as directed in § 436.32(b) of this chapter, using a solution containing 20,000 units of penicillin G per milliliter.

* * * * *

k. In § 440.1060a, by revising paragraph (b)(3) to read as follows:

§ 440.1060a Sterile Penicillin G potassium buffered.

* * * * *

(b) * * *

(3) *Pyrogens.* Proceed as directed in § 436.32(b) of this chapter, using a solution containing 20,000 units of penicillin G per milliliter

* * * * *

l. In § 440.1061a, by revising paragraph (b)(3) to read as follows:

§ 440.1061a Sterile penicillin G sodium buffered.

* * * * *

(b) * * *

(3) *Pyrogens.* Proceed as directed in § 436.32(b) of this chapter, using a solution containing 20,000 units of penicillin G per milliliter.

* * * * *

Interested persons may, on or before March 26, 1979 submit to the Hearing Clerk (HFA-305), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, written comments regarding this proposal. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

In accordance with Executive Order 12044, the economic effects of this proposal have been carefully analyzed, and it has been determined that the proposed rulemaking does not involve major economic consequences as defined by that order. A copy of the regulatory analysis assessment supporting this determination is on file with the Hearing Clerk, Food and Drug Administration.

Dated: January 22, 1979.

MARY A. MCENIRY,
Assistant Director for Regulatory Affairs, Bureau of Drugs.

The table showing base flood elevations for the Gulf of Mexico should be corrected to read as follows:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Gulf of Mexico	Intersection of Sanibel Captiva Road and Wulfert Road.	11
	Intersection of West Gulf Drive and East Rocks Drive.	12
	Intersection of Periwinkle Way and Tarpon Bay Road.	12
	Intersection of Dixie Beach Boulevard and Royal Poinciana Drive.	11
	Intersection of Casa Ybell Road and Camino Drive.	12
	Intersection of Periwinkle Way and Baily Road.	12
	Intersection of Gulf Drive and Anchor Drive.	12

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued: January 12, 1979.

[Docket No. FI-4995]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of East Peoria, Tazewell County, Ill.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of East Peoria, Tazewell County, Illinois. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Clerk's Office, East Peoria, Illinois. Send comments to: The Honorable Kalvin Cummins, Mayor, City of East Peoria, 100 South Main Street, East Peoria, Illinois 61611.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of East Peoria, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Illinois River	At western corporate limits.	459
	Just upstream of Toledo Peoria and Western Railroad Bridge.	460
Farm Creek	At northern corporate limits.	460
	Confluence with Illinois River.	460
	Upstream of Peoria and Pekin Union Railroad.	461
	580 feet upstream of State Route 116.	462
	Upstream side of Interstate 74.	466
	400 feet upstream from East Washington Street.	470
	400 feet upstream from U.S. Route 150.	476
	Confluence with Dempsey Creek.	480
	At eastern corporate limits.	489
Farm Creek Diversion Channel.	At confluence with Illinois River.	460
	At confluence with Farm Creek.	460
Dempsey Creek	At confluence with Farm Creek.	480
	Upstream side of U.S. Route 150.	481
	180 feet downstream from U.S. Route 150.	502
	140 feet upstream from U.S. Route 150.	507
	Upstream side of Hill Road.	531
	Upstream side of U.S. Route 150.	540
	Corporate limits (1.725 miles upstream from confluence with Farm Creek).	559
	Corporate limits (2.165 miles upstream from confluence with Farm Creek).	581
	Downstream side of U.S. Route 150 (2.67 miles upstream from mouth).	609
	Upstream of corporate limits (2.79 miles upstream from mouth).	616
Fondulac Creek	At Illinois Route 8	508
	120 feet upstream from Oakwood Road.	521
	Upstream side of Government Access Road.	522
School Creek	Upstream side of Farmdale Road at southern corporate limits.	521
	At eastern corporate limits.	533

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Village of Tinley Park, Cook and Will Counties, Ill.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Village of Tinley Park, Cook and Will Counties, Illinois. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Village Hall, Office of Director of Community Development, 17355 South 68th Court, Tinley Park, Illinois. Send comments to: Mr. John T Dunn, Village President, Village of Tinley Park, Village Hall, 17355 South 68th Court, Tinley Park, Illinois 60477.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410; 202-755-5581 or toll free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Village of Tinley Park, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a)).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, (National Geodetic Vertical Datum)
Midlothian Creek	2,800 feet downstream of Gaynelle Avenue.	675
	700 feet upstream of Gaynelle Avenue.	684
	700 feet upstream of Oak Park Avenue.	694
	Just upstream of 80th Avenue.	696
	171st Street (upstream corporate limit).	696
76th Avenue Ditch	Mouth at Midlothian Creek.	695
	167th Street	695
	Just upstream of 164th Plaza.	696
	Just upstream of Nottingham Drive.	699
	Just upstream of 163rd Street.	702
	76th Avenue	702
	Just upstream of 159th Street.	706
	Upstream corporate limit.	706
Union Drainage Ditch.	Downstream corporate limits.	692
	1,000 feet downstream of Oak Park Avenue.	693
	Upstream corporate limit.	694
Tributary to Union Drainage Ditch.	Downstream corporate limit.	694
	Downstream of 183rd Street.	695
	Upstream of 183rd Street.	696
	Just downstream of 80th Avenue.	697

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7 (o) (4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Lowell, Lake County, Indiana

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of Lowell, Lake County, Indiana. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Town Hall, 512 East Commercial Street, Lowell, Indiana. Send comments to: Mr. Larry Hitzman, Vice President of Town Board, Town of Lowell, 512 East Commercial Street, Lowell, Indiana 46356; Attention: James Mandon.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Town of Lowell, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Cedar Creek	At southern corporate limit.	658
	100 feet downstream of Oakley Avenue.	659
	Just downstream of Oakley Avenue.	661
	300 feet upstream of Washington Avenue.	668
	Just upstream of Main Street.	669
	Just upstream of Mill Street.	670
	Just upstresm of Clark Street.	671
	At northern corporate limit.	674
McConnell Ditch	Confluence with Cedar Creek.	671
	Just upstream of Morse Street.	673
	At northern corporate limits.	674

In accordance with Section 7 (o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

Issued: January 12, 1979.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Marion, Marion County, Kansas

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Marion, Marion County, Kansas. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, 203 North 3rd, Marion, Kansas. Send comments to: The Honorable Peggy Blackman, Mayor, City of Marion, City Hall, 203 North 3rd, Marion, Kansas 66861.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Marion, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Cottonwood River	1500 feet downstream of Third Street.	1,306
	Just upstream of Third Street.	1,307
	1100 feet downstream of Chicago Rock Island and Pacific Railroad.	1,310
	Just downstream of the Chicago Rock Island and Pacific Railroad.	1,311
	Just upstream of the Chicago Rock Island and Pacific Railroad.	1,316
	800 feet upstream of Main Street.	1,315
Cottonwood River Tributary.	Southern corporate limit.	1,306
		1,309
	1700 feet downstream of Welch Street.	
	500 feet downstream of Welch Street.	1,313
	Just upstream of Welch Street.	1,318
	1200 feet upstream of Welch Street.	1,322
Old Mod Creek Channel (Interior Drainage Rainfall).	Ponding area	1,303

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of New Buffalo, Berrien County, Mich.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of New Buffalo, Berrien County, Michigan. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, New Buffalo, Michigan. Send comments to: The Honorable Clarence Sayles, Mayor, City of New Buffalo, 224 West Buffalo Street, New Buffalo, Michigan 49117.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of New Buffalo, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Galien River	Mouth at Lake Michigan.	584
	Eastern corporate limits	584

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Centerville, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Clearwater Creek	Mouth at Peltier Lake	887
	Just downstream of Main Street.	899
	Just upstream of Main Street.	900
	Eastern corporate limits	906

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued: January 12, 1979.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Shorewood, Hennepin County, Minn.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Shorewood, Hennepin County, Minnesota. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, 20630 Manor Road, Shorewood, Minnesota. Send comments to: The Honorable Steven Frazier, Mayor, City of Shorewood, Shorewood City Hall, 20630 Manor Road, Shorewood, Minnesota 55331

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Shorewood, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Lake Minnetonka	Entire lake	931

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determinations for the Unincorporated Areas of Rowan County, N.C.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the unincorporated areas of Rowan County, North Carolina. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the County Manager's Office, Rowan County Courthouse, 202 North Main Street, Salisbury, North Carolina 28144. Send comments to: Mr. Seth Murdock, County Manager, Rowan County Courthouse, 202 North Main Street, Salisbury, North Carolina 28144.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the unincorporated areas of Rowan County, North Carolina, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Coldwater Creek	Just downstream of Old Beatty Ford Road.	656
	Just downstream of Daugherty road.	671
	Just downstream of Pine Branch Road.	692

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Borough of Yeadon, Delaware County, Pa.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Borough of Yeadon, Delaware County, Pennsylvania. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Borough Hall, Church Lane and Bailey Road, Yeadon, Pennsylvania 19050. Send comments to: Mr. Richard Schwab, Manager of the Borough of Yeadon Church Lane and Bailey Road Yeadon, Pennsylvania 19050

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Borough of Yeadon, Delaware County, Pennsylvania in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Cobbs Creek	Downstream Corporate Limits.	29
	Chesaie System	31
	Church Lane	33
	65th Street	34
	Cobbs Creek Parkway (Downstream crossing).	36
	Cemetary Access Road	38
	Cobbs Creek Parkway (Upstream crossing).	39
	Longacre Boulevard	47
	Conrail	48
	Baltimore Avenue	52
	Upstream Corporate Limits.	52
Darby Creek	Downstream Corporate Limits.	31
	Providence Road (Downstream).	33
	Providence Road (Upstream).	38
	Upstream Corporate Limits.	39

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of Housing and Urban Development Act, Section 324 of the Housing and Community Amendments of 1978, Public Law 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued: January 12, 1979.

GLORIA M. JIMENEZ,
Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Richardson, Dallas, and Collin Counties, Tex.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Richardson, Dallas and Collin Counties, Texas. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

DATE: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESS: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Director of Public Work's Office, P.O. Box 309, Richardson, Texas 75080. Send comments to: Mayor Raymond Noaa or Mr. Aubrey Adcock, Director of Public Works, P.O. Box 309, Richardson, Texas 75080.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Richardson, Dallas and Collin Counties, Texas, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which

V 4 4 / 1 9 J A 2 6 7 9 UMI

V 44 / 19 JA 26 79 UMI

added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Rowlett Creek	At the confluence of Beck Branch.	505
Beck Branch	Approximately 200' upstream of North Star Road.	535
Spring Creek	Approximately 100' upstream of Jupiter Road.	557
	Approximately 200' upstream of Greenville Ave. (State Hwy 5).	569
	Approximately 100' upstream of U.S. Hwy 75.	586
Stream 2I7	Just upstream of Campbell Rd.	561
Stream 2I8	Just upstream of Unnamed Road.	585
Prairie Creek	Just upstream Hwy 75 North Bound.	579
	Just upstream of Fall Creek Rd. Drive.	603
	Just upstream of Custer Road.	618

INCOME TAX

Amortization of Certain Rehabilitation Costs for Certified Historic Structures; Public Hearing on Proposed Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Public Hearing on proposed regulations.

SUMMARY: This document provides notice of a public hearing on proposed regulations relating to amortization of certain rehabilitation costs for certified historic structures, under section 191 of the Internal Revenue Code of 1954, which appeared in the FEDERAL REGISTER for August 30, 1978 (43 FR 38731).

DATES: The public hearing will be held on March 15, 1979, beginning at 10:00 a.m. Outlines or oral comments must be delivered or mailed by March 1, 1979.

ADDRESS: The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, D.C. The outlines should be submitted to the Commissioner of Internal Revenue, Attn: CC:LR:T (LR-199-76), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT:

George Bradley or Charles Hayden of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, 202-566-3935, not a toll-free call.

SUPPLEMENTARY INFORMATION: The subject of the public hearing is proposed regulations under section 191 of the Internal Revenue Code of 1954. The proposed regulations appeared in the FEDERAL REGISTER for August 30, 1978, at page 38731 (43 FR 38732). A Notice of Extension of Time for Comments appeared in the FEDERAL REGISTER for November 1, 1978, at page 50920 (43 FR 50920).

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of proposed rulemaking and also desire to present oral comments at the hearing on the proposed regulations should submit an outline of the comments to be presented at the hearing and the time they wish to devote to each subject by March 1, 1979. Each speaker will be limited to 10 minutes for an oral presentation exclusive of time consumed by questions from the panel for the Government and answers to these questions.

Because of controlled access restriction, attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

This document does not meet the criteria for significant regulations set forth in paragraph 8 of the Treasury Directive appearing in the FEDERAL REGISTER for Wednesday, November 8, 1978.

By Direction of the Commissioner of Internal Revenue.

ROBERT A. BLEY,
Director, Legislation and Regulations Division.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 65]

[FRL 1035-8; Docket Nos. A-SS-77-591 and A-SS-77-592]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Delayed Compliance Orders for the Towns of Rockport and Camden, Maine

AGENCY: Environmental Protection Agency.

ACTION: Proposed rules.

SUMMARY: EPA proposes to issue administrative orders to the towns of Rockport and Camden, Maine. The orders require the towns to bring air emissions from their open burning dump in Rockport into compliance with certain regulations contained in the federally-approved Maine State Implementation Plan (SIP). Because the towns are unable to comply with these regulations at this time, the proposed orders would establish expeditious schedules requiring final compliance by July 1, 1979. Source compliance with the orders would preclude suits under the Federal enforcement and citizen suit provision of the Clean Air Act for violation of the SIP regulations covered by the orders. The purpose of this notice is to invite public comment and to offer an opportunity to request a public hearing on EPA's proposed issuance of the orders.

DATES: Written comments must be received on or before February 26, 1979, and requests for a public hearing must be received on or before February 12, 1979. All requests for a public hearing should be accompanied by a statement of why the hearing would be beneficial and a text or summary of any proposed testimony to be offered at the hearing. If there is significant public interest in a hearing, it will be held after twenty-one days prior notice of the date, time, and place of the hearing has been given in this publication.

ADDRESSES: Comments and requests for a public hearing should be submitted to Director, Enforcement Division, EPA, Region I, Room 2103, JFK Federal Building, Boston, Massachusetts, 02203, Attn: Air Compliance Clerk. Material supporting the orders and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Mr. Michael Gurchin, attorney, 617/223-5061 or Mr. R. W. DiNardo, engineer, 617/223-5610, both at EPA, Region I, Room 2103, JFK Federal Building, Boston, Massachusetts, 02203.

SUPPLEMENTARY INFORMATION: The towns of Rockport and Camden operate an open burning dump at Rockport, Maine. The proposed orders address emissions from the dump, which are subject to section 100.2.2 of the Maine Air Pollution Control Regulations. The regulation prohibits open burning of waste, and is part of the federally-approved Maine State Implementation Plan. The orders require final compliance with the regulation by July 1, 1979, and the sources have consented to their terms. The sources have also agreed to meet the orders' increments during the period of this informal rulemaking.

The proposed orders satisfy the applicable requirements of Section 113(d) of the Clean Air Act (the Act). If the orders are issued, source compliance with their terms would preclude further EPA enforcement action under Section 113 of the Act against the sources for violations of the regulation covered by the orders during the period the orders are in effect. Enforcement against the sources under the citizen suit provisions of the Act (Section 304) would be similarly precluded.

Comments received by the date specified above will be considered in determining whether EPA should issue the orders. Testimony given at any public hearing concerning the orders will also be considered. After the public comment period and any public hearing, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the orders in 40 CFR Part 65.

(Authority: 42 U.S.C. 7413, 7601.)

Dated: December 22, 1978.

WILLIAM ADAMS,
Regional Administrator, Region I.

The text of the proposed orders are as follows:

PART 65—DELAYED COMPLIANCE ORDERS

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, REGION I

In the Matter of Rockport, Maine Proceedings under Section 113 of the Clean Air Act, 42 U.S.C. § 7413; Order No. A-SS-77-591.

This ORDER is issued pursuant to section 113(d)(1) of the Clean Air Act (the "Act"), the 42 U.S.C. § 7413(d)(1). This ORDER contains a schedule for compliance, interim requirements, and reporting requirements. Public notice, opportunity for a public hearing, and thirty days notice to the State of Maine have been provided pursuant to section 113(d)(1) of the Act.

FINDINGS

1. Former section 100.2.2 of the Maine Air Pollution Control Regulations ("Regulations") stated, in pertinent part, as follows: Open burning of waste of any kind shall be prohibited after July 1, 1974 except that municipalities qualifying for an extension under the Solid Waste Management Plan shall cease open burning as a means of solid waste disposal by July 1, 1975.

2. Section 100.2.2 of the Regulations is part of the Maine Implementation Plan submitted to and approved by the Environmental Protection Agency ("EPA") pursuant to section 110 of the Act. Although Maine has revised section 100.2.2, EPA disapproved this revision. Therefore, the implementation plan remains unchanged and section 100.2.2 of the Regulations is still a "requirement of an applicable plan," as that phrase is used in section 113(a)(1) of the Act.

3. The Towns of Rockport and Camden, Maine respectively own and operate an open burning disposal site in Rockport.

4. On December 15, 1977, the Regional Administrator of EPA issued Notices of Violation, pursuant to section 113(a)(1) of the Act, to the Towns of Camden and Rockport alleging a violation of the above-cited regulation. Information received from the Town Managers of Rockport and Camden in letters dated October 20, 1977, discussing the Towns' open burning of refuse, served as the basis for the issuance of these Notices.

5. Representatives of Camden and Rockport were afforded an opportunity to confer with EPA concerning the alleged violation, in accordance with section 113(a)(4) of the Act. The conference was held on February 23, 1978.

6. Comments made by the Town Manager of Rockport at the February, 1978 conference concerning Rockport's and Camden's continued open burning indicate that the violation of section 100.2.2 of the Regulations has continued more than thirty days beyond Camden's and Rockport's receipt of the Notices of Violation.

ORDER

After a thorough investigation of all relevant facts, including public comment, it is determined that the schedule for compliance set forth in this ORDER is as expeditious as practicable, and that the terms of this ORDER comply with section 113(d) of the Act.

DEFINITIONS: For the purpose of this order:

"System for solid waste disposal" shall mean a land area, associated structures and necessary equipment used for storing, compacting, and processing the solid waste projected to be generated by the Towns of Rockport and Camden. The system shall satisfy all applicable regulations and procedures prescribed by the Main Department of Environmental Protection ("DEP").

It is hereby ORDERED:

I. That the Town of Rockport shall comply with the Maine Implementation Plan regulations in accordance with the fol-

V 4 4 / 1 9

lowing schedule for implementation of plans for a solid waste disposal facility to dispose of the Town's refuse on or before the dates specified:

A. November 15, 1978—choose an alternative system of solid waste disposal.

B. December 15, 1978—enter into any necessary contracts to implement the alternative waste disposal system.

C. January 1, 1979—issue all necessary purchase orders and submit a progress report which shall contain the expected delivery dates of all necesary material and equipment.

D. April 1, 1979—begin construction and site preparation for the chosen solid waste disposal facility.

E. May 15, 1979—submit a progress report to EPA which shall contain an estimate of the percentage of construction completed and an anticipated completion date.

F. July 1, 1979—cease all open burning of solid waste and begin operation of a solid waste disposal facility in accordance with all applicable regulations.

II. That the Town of Rockport shall comply with the following interim requirements which have been found to be reasonble and practicable and will avoid an imminent and substantial endangerment to the public health.

A. Burning shall be restricted to those times when meteorological conditions are such that a minimum of smoke will impact on local residences.

B. The Limerock Street dump shall be protected by a gate and a dump attendant during normal operating hours to prevent accidental fires.

C. Burning of all tannery wastes shall cease immediately.

D. The dump shall close by 5:30 p.m. every day so that burning may occur earlier in the day.

That the Town of Rockport need not install an emission reduction system because no such system exists for open burning dumps and, therefore, need not comply with section 100.2.2 of Maine Implementation Plan regulations while this order is in effect.

III. That the Town of Rockport is not relieved by this ORDER from compliance with any requirement imposed by the Maine Implementation Plan, EPA and/or the courts pursuant to section 303 during any period of imminent and substantial endangerment to the health of persons.

IV. That the Town of Rockport shall comply with the following reporting requirements on or before the dates specified below:

A. Not later than five days after any date for achievement of an incremental step or final compliance specified in this ORDER, Rockport shall notify EPA in writing of its compliance, or noncompliance and reasons therefor, with the requirement. If delay is anticipated in meeting any requirement of this ORDER, the Town shall immediately notify EPA in writing of the anticipated delay and reasons therefor. Notification to EPA of any anticipated delay does not excuse the delay.

B. All submittals and notifications to EPA pursuant to this ORDER shall be made to: Director, Enforcement Division, U.S. Environmental Protection Agency, J.F.K. Federal Building, Room 2103, Boston, MA 02203, Attn: Air Compliance Clerk.

V. That while section 113(d)(1)(C) of the Act normally requires emission monitoring in an ORDER, no reasonable system of emission monitoring for the Town of Rockport's open burning dump site exists.

VI. Nothing herein shall affect the responsibility of the Town of Rockport to comply with State, local, or other Federal regulations.

VII. Rockport is hereby notified that failure to achieve final compliance by July 1, 1979 may result in a requirement to pay a noncompliance penalty under section 120 of the Act. In the event of such failure, the Town will be formally notified, pursuant to section 120(b)(3) and any regulations promulgated thereunder, of its noncompliance.

VIII. This ORDER shall be terminated in accordance with section 113(d)(8) of the Act if the Administrator determines on the record, after notice and hearing, that an inability to comply with section 100.2.2 of the Regulations no longer exists.

IX. Violation of any requirement of this ORDER shall result in one or more of the following actions:

A. Enforcement of such requirement pursuant to sections 113(a), (b), or (c) of the Act, including possible judicial action for an injunction and/or penalties and, in appropriate cases, criminal prosecution.

B. Revocation of this ORDER, after notice and opportunity for a public hearing, and subsequent enforcement of section 100.2.2 of the Regulations in accordance with the preceding paragraph.

C. If such violation occurs on or after July 1, 1979, notice of noncompliance and subsequent action pursuant to section 120 of the Act.

X. This ORDER is effective upon publication in the FEDERAL REGISTER.

DATED: January 23, 1979.

DOUGLAS M. COSTLE,
Administrator.

The Town of Rockport, Maine, finding that the compliance schedule in this ORDER is reasonable and practicable, hereby consents to the issuance of this ORDER and will undertake to comply with all of its terms and conditions.

Dated: October 30, 1978.

CARL L. BESTERLEY,
Authorized Source Signature.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, REGION I

In the Matter of Camden, Maine Proceedings under Section 13 of the Clean Air Act, 42 U.S.C. 87413; Order No. A-SS-77-592.

This Order is issued pursuant to section 113(d)(1) of the Clean Air Act (the "Act"), 42 U.S.C. §7413(d)(1). This ORDER contains a schedule for compliance, interim requirements, and reporting requirements. Public notice, opportunity for a public hearing, and thirty days notice to the State of Maine have been provided pursuant to section 113(d)(1) of the Act.

FINDINGS

1. Former section 100.2.2 of the Maine Air Pollution Control Regulations ("Regulations") stated, in pertinent part, as follows:

Open burning of waste of any kind shall be prohibited after July 1, 1974 except that municipalities qualifying for an extension under the Solid Waste Management Plan shall cease open burning as a means of solid waste disposal by July 1, 1975.

2. Section 100.2.2 of the Regulations is part of the Maine Implementation Plan submitted to and approved by the Environmental Protection Agency ("EPA") pursuant to section 110 of the Act. Although Maine has revised section 100.2.2, EPA disapproved this revision. Therefore, the implementation plan remains unchanged and section 100.2.2 of the Regulations is still a "requirement of an applicable plan," as that phrase is used in section 113(a)(1) of the Act.

3. The Towns of Rockport and Camden, Maine respectively own and operate an open burning disposal site in Rockport.

4. On December 15, 1977, the Regional Administrator of EPA issued Notices of Violation, pursuant to section 113(a)(1) of the Act, to the Towns of Camden and Rockport alleging a violation of the above-cited regulation. Information received from the Town Managers of Rockport and Camden in letters dated October 20, 1977, discussing the Towns' open burning of refuse, served as the basis for the issuance of these Notices.

5. Representatives of Camden and Rockport were afforded an opportunity to confer with EPA concerning the alleged violation, in accordance with section 113(a)(4) of the Act. The conference was held on February 23, 1978.

6. Comments made by the Town Manager of Rockport at the February, 1978 conference concerning Rockport's and Camden's continued open burning indicate that the violation of section 100.2.2 of the Regulations has continued more than thirty days beyond Camden's and Rockport's receipt of the Notices of Violation.

ORDER

After a thorough investigation of all relevant facts, including public comment, it is determined that the schedule for compliance set forth in this ORDER is as expeditious as practicable, and that the terms of this ORDER comply with section 113(d) of the Act.

DEFINITIONS: For the purposes of this order:

"System for solid waste disposal" shall mean a land area, associated structures and necessary equipment used for storing, compacting, and processing the solid waste projected to be generated by the Towns of Rockport and Camden. The system shall satisfy all applicable regulations and procedures prescribed by the Maine Department of Environmental Protection ("DEP").

It is hereby ORDERED:

I. That the Town of Camden shall comply with the Maine Implementation Plan regulations in accordance with the following schedule for implementation of plans for a solid waste disposal facility to dispose of the Town's refuse on or before the dates specified:

A. November 15, 1978—choose an alternative system for solid waste disposal.

B. December 15, 1978—enter into any necessary contracts to implement the alternative waste disposal system.

C. January 1, 1979—issue all necessary purchase orders and submit a progress report which shall contain the expected delivery dates of all necessary material and equipment.

D. April 1, 1979—begin construction and site preparation for the chosen solid waste disposal facility.

E. May 15, 1979—submit a progress report to EPA which shall contain an estimate of the percentage of construction completed and an anticipated completion date.

F. July 1, 1979—cease all open burning of solid waste and being operation of a solid waste disposal facility in accordance with all applicable regulations.

II. That the Town Camden shall comply with the following interim requirements which have been found to be reasonable and practicable and will avoid an imminent and substantial endangerment to the public health.

A. Burning shall be restricted to those times when meteorological conditions are such that a minimum amount of smoke will impact on local residences.

B. The Limerock Street dump shall be protected by a gate and a dump attendant during normal operating hours to prevent accidental fires.

C. Burning of all tannery wastes shall cease immediately.

D. The dump shall close by 5:30 p.m. every day so that burning may occur earlier in the day.

That the town of Camden need not install an emission reduction system because no such system exists for open burning dumps and therefore need not comply with section 100.2.2 of Maine Implementation Plan regulations while this order is in effect.

III. that the Town of Camden is not relieved by this ORDER from compliance with any requirement imposed by the Maine Implementation Plan, EPA and/or the courts pursuant to section 303 during any period of imminent and substantial endangerment to the health of persons.

IV. That the Town of Camden shall comply with the following reporting requirements on or before the dates specified below:

A. Not later than five days after any date for achievement of an incremental step or final compliance specified in this ORDER, Camden shall notify EPA in writing of its compliance, or noncompliance and reasons therefor, with the requirement. If delay is anticipated in meeting any requirement of this ORDER, the Town shall immediately notify EPA in writing of the anticipated delay and reasons therefor. Notification to EPA of any anticipated delay does not excuse the delay.

B. All submittals and notifications to EPA pursuant to this ORDER shall be made to: Director, Enforcement Division, U.S. Environmental Protection Agency, J.F.K. Federal Building, Room 2103, Boston, MA 02203, Attn.: Air Compliance Clerk.

V. That while section 113(d)(1)(C) of the Act normally requires emission monitoring in an ORDER, no reasonable system of emission monitoring for the Town of Camden's open burning dump site exists.

VI. Nothing herein shall affect the responsibility of the Town of Camden to comply with State, local, or other Federal regulations.

VII. Camden is hereby notified that failure to achieve final compliance by July 1, 1979 may result in a requirement to pay a noncompliance penalty under section 120 of the Act. In the event of such failure, the Town will be formally notified, pursuant to section 120(b)(3) and any regulations promulgated thereunder, of its noncompliance.

VIII. This order shall be terminated in accordance with section 113(d)(8) of the Act if the Administrator determines on the record, after notice and hearing, that an inability to comply with section 100.2.2 of the Regulations no longer exists.

IX. Violation of any requirement of this ORDER shall result in one or more of the following actions:

A. Enforcement of such requirement pursuant to sections 113(a), (b), or (c) of the Act, including possible judicial action for an injunction and/or penalties and, in appropriate cases, criminal prosecution.

B. Revocation of this ORDER, after notice and opportunity for a public hearing, and subsequent enforcement of section 100.2.2 of the Regulations in accordance with the preceding paragraph.

C. If such violation occurs on or after July 1, 1979, notice of noncompliance and subsequent action pursuant to section 120 of the Act.

X. This ORDER is effective upon publication in the FEDERAL REGISTER.

Dated: January 23, 1979.

DOUGLAS M. COSTLE,
Administrator.

The Town of Camden, Maine, finding that the compliance schedule in this ORDER is reasonable and practicable, hereby consents to the issuance of this ORDER and will undertake to comply with all of its terms and conditions.

Dated: October 30, 1978.

[FRL 1045-7]

STATE AND FEDERAL ADMINISTRATIVE ORDERS PERMITTING A DELAY IN COMPLIANCE WITH STATE IMPLEMENTATION PLAN REQUIREMENTS

Proposed Delayed Compliance Order for Chase Bag Company, Paper Mill Division, Chagrin Falls, Ohio

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: U.S. EPA proposes to issue an Administrative Order to Chase Bag Company, Paper Mill Division. The Order requires the Company to bring Boilers #1 and #2 (the source) into compliance with Ohio Regulation AP-3-11 part of the federally approved Ohio State Implementation plan (SIP). Because the Company is unable to comply with this regulation at this time, the proposed Order would establish an expeditious schedule requiring final compliance by July 1, 1979. Source compliance with the Order would preclude suits under the Federal enforcement and citizen suit provision of the Clean Air Act (the Act) for violation of the SIP regulation covered by the Order. The purpose of this notice is to invite public comment and to offer an opportunity to request a public hearing on U.S. EPA's proposed issuance of the Order.

DATES: Written comments must be received on or before February 26, 1979 and requests for a public hearing must be received on or before February 12, 1979. All requests for a public hearing should be accompanied by a statement of why the hearing would be beneficial and a text or summary of any proposed testmony to be offered at the hearing. If there is significant public interest in a hearing, it will be held after twenty-one days prior notice of the date, time, and place of the hearing has been given in this publication.

ADDRESSES: Comments and requests for a public hearing should be submitted to Director, Enforcement Division, U.S. Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604. Material supporting the Order and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

FOR FURTHER INFORMATION CONTACT:

Mr. Arthur E. Smith, Jr., Attorney, Enforcement Division, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604, at (312) 353-2082.

SUPPLEMENTARY INFORMATION: Chase Bag Company owns a paper mill at Chagrin Falls, Ohio. The proposed Order addresses emissions from Boilers #1 and #2 at this facility, which is subject to Regulation AP-3-11 of the Ohio Implementation Plan. The regulation limits the emissions of particulate matter and is part of the federally approved Ohio State Implementation Plan. The Order requires final compliance with the regulations by July 1, 1979, and the source has consented to its terms.

The proposed Order satisfies the applicable requirements of Section 113(d) of the Act. If the Order is issued, source compliance with its terms would preclude further U.S. EPA enforcement action under Section 113 of the Act against the source for violations of the regulation covered by the Order during the period the Order is in effect. Enforcement against the source under the citizen suite provisions of the Act (Section 304) would be similarly precluded.

Comments received by the date specified above will be considered in determining whether U.S. EPA should issue the Order. Testimony given at any public hearing concerning the Order will also be considered. After the

JAN 26 1979 UMI

V 4 4 / 1 9

public comment period and any public hearing, the Administrator of U.S. EPA will publish in the FEDERAL REGISTER the Agency's final action on the Order in 40 CFR Part 65.

Dated: January 10, 1979.

JOHN MCGUIRE,
Regional Administrator,
Region V.

In consideration of the foregoing, it is proposed to amend 40 CFR Chapter I, as follows:

PART 65—DELAYED COMPLIANCE ORDERS

I. By amending the table in Section 65.400 to reflect the approval of the following order:

65.400 Federal Delayed Compliance Orders issued under Section 113(d) (1), (3), and (4) of the Act.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

[Order No. FRL 1045-7]

In the Matter of Chase Bag Company, Paper Mill Division, Chagrin Falls, Ohio. Proceeding Pursuant to Section 113(d) of the Clean Air Act, as amended [42 U.S.C. Section 7413(d)].

This ORDER is issued this date pursuant to Section 113(d) of the Clean Air Act, as amended, 42 U.S.C. 7401 *et seq.* (Act). This ORDER contains a schedule for compliance, interim control requirements, and monitoring and reporting requirements. Public notice, opportunity for a public hearing, and thirty days notice to the State of Ohio have been provided pursuant to Section 113(d) of the Act.

FINDINGS

1. On January 16, 1978, the United States Environmental Protection Agency (U.S. EPA) issued a Notice of Violation, pursuant to Section 113(a)(1) of the Act, to the Chase Bag Company, Paper Mill Division (Chase Bag), upon a finding that Chase Bag Boilers #1 and #2 are in violation of Ohio regulation AP-3-11, a part of the applicable Ohio implementation Plan as defined in Section 110(d) of the Act. This finding was based upon emission factor calculations derived from data submitted to U.S. EPA by the subject facility.

2. In satisfaction of Section 113(a)(4) of the Act, opportunity to confer with the Administrator's delegate was given to Chase Bag, and on March 23, 1978, an enforcement conference was held.

3. It has been determined that Chase Bag is unable to immediately comply with the applicable implementation Plan.

After a thorough investigation of all relevant facts, including public coment, it is determined that the schedule for compliance set forth in this ORDER is as expeditious as practicable, and that the terms of this ORDER comply with Section 113(d) of the Act. Therefore, it is hereby ORDERED:

ORDER

I. That Chase Bag shall comply with the Ohio Implementation Plan regulation AP-3-11 in accordance with the following schedule on or before the dates specified therein.

A. In regard to Boilers #1 and #2:

1. Achieved—Chase Bag shall submit final control plans.

2. Achieved—Chase Bag shall award contracts for the control equipment.

3. March 1, 1979—Chase Bag shall initiate on-site contruction of the control equipment.

4. July 1, 1979—Chase Bag shall complete on-site construction of the control equipment and achieve compliance with Ohio Implementation Plan regulation AP-3-11.

5. Pursuant to Sections 113(a) and 114 within 2 months after July 1, 1979, Chase Bag shall demonstrate compliance with Boilers #1 and #2 to the U.S. EPA.

II. Pursuant to Section 113(d)(7) of the Act, during the period in which this ORDER is in effect, Chase Bag shall comply with the following interim requirements and shall use the best practicable systems(s) of emission reduction so as to minimize particulate emissions and to avoid an imminent and substantial endangerment to the health of persons and shall further comply with the requirements of the applicable implementation plan insofar as it is able to:

A. Chase Bag shall operate and maintain existing control equipment to maximize reliability and efficiency during the interim period preceding final compliance.

B. Commencing immediately, Chase Bag shall operate and maintain its boilers to minimize particulate matter emissions from the boilers on a day-to-day basis during the interim period preceding final compliance.

III. That Chase Bag shall comply with the following emission monitoring and reporting requirements:

A. Emission Monitoring: Pursuant to Sections 113(a) and 114, in operation of the control equipment, Chase Bag shall provide means for continuously determining the pressure drop across each baghouse compartment and shall monitor the pressure drop half-hourly during operation of Boilers #1 and # 2. Upon indication of bag failure, the compartment associated therewith shall be immediately shut off and maintenance initiated.

B. Reporting Requirements: 1. No later than 15 days after any date for achievement of an incremental step or final compliance, specified in this ORDER, Chase Bag shall notify U.S. EPA in writing of its compliance, or noncompliance and reasons therefor, with the requirement. If delay is anticipated in meeting any requirements of this ORDER, Chase Bag shall immediately notify U.S. EPA in writing of the anticipated delay and reasons therefor.

2. Pursuant to Sections 113(a) and 114, every 3 months, Chase Bag shall report to the U.S. EPA details of all incidents of bag failure including date, time of day, and number of bags involved.

3. Every 3 months, Chase Bag shall report on the progress of its program for compliance specified in Paragraph I.A.

4. All submittals and notifications to U.S. EPA pursuant to this ORDER shall be made to Mr. Eric Cohen, Chief, Compliance Section, Enforcement Division, U.S. Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604. A copy of all submittals and notifications should be sent to the Division of Air Pollution Control, Department of Public Health and Welfare, 2735 Broadway Avenue, Cleveland, Ohio 44115.

5. The first quarterly report pursuant to this ORDER shall be submitted January 1, 1979.

IV. Nothing herein shall affect the responsibility of Chase Bag to comply with State or local regulations, or other Federal regulations.

V. Chase Bag is hereby notified that its failure to achieve final compliance by July 1, 1979, at Boilers #1 and #2, may result in a requirment to pay a noncompliance penalty under Section 120. In the event of such failure, Chase Bag will be formally notifed, pursuant to Section 120(b)(3) and any regulations promulgated thereunder, of it noncompliance.

VI. Ths ORDER is effective upon final publication in the FEDERAL REGISTER.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Care Financing Administration

[42 CFR Part 405]

MEDICARE PROGRAM

Cost to Related Organizations

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Proposed rule.

SUMMARY: This regulation would revise the current Medicare program regulation which limits the amount a provider may be reimbursed when it obtains services, facilities, or supplies from and organization related to it by common ownership or control. The revision clarifies the meaning and intent of the regulation by defining terms and adding explanatory language. The purpose of the revision is to make the regulation more understandable to the public, and to reduce those areas of misinterpretation which cause dispute in administration.

DATES: Consideration will be given to written comments or suggestions received on or before March 27, 1979.

ADDRESSES: Address comments to: Administrator, Health Care Financing Administration Department of Health, Education, and Welfare, P.O. Box 2372, Washington, D.C. 20013. In commenting, please refer to MAB-87-P. Comments will be available for public inspection beginning approximately 2 weeks after publication in room 5231 of the Department's offices at 330 C Street, SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (202-245-0950).

FOR FURTHER INFORMATION CONTACT:

Mr. Hugh J. McConville, Medicare Bureau, Health Care Financing Administration, East Building, Room 412, 6401 Security Boulevard, Baltimore, Maryland 21235 (301-594-9430).

SUPPLEMENTARY INFORMATION: A Medicare provider's reimbursable costs for items of services, facilities, or supplies furnished to the provider by another organization are normally the charges made by the supplying organization. (See 42 CFR 405.451.) However, a special rule applies when a provider obtains items from a supplier to which it is related by common ownership or control. (See 42 CFR 405.427, Cost to Related Organizations.)

In the situation of a related supplying organization, the provider's allowable costs for items obtained from the organization are limited to the organization's costs rather than its charges, provided those costs do not exceed the open market price of items. The regulation is intended to prevent the program from paying the provider any profit factor attributable to the provider's dealing with itself through the related organization. An exception is provided to this general rule for items supplied by related organizations meeting established criteria. (See 42 CFR 405.427(d).) Where the exception applies, the provider's allowable costs for the items obtained would be the charges made by the related supplying organization, if those charges do not exceed the prices in the open market.

In practice, the current regulation has been difficult to apply. Some of its provisions have been susceptible to misinterpretation and to subjective decisions on the part of the intermediaries and providers. As a result, many provider appeals have been brought before intermediary hearings officers and the Provider Reimbursement Review Board for resolution of disputes. Primary areas of concern have been the determination of relatedness, the determination of allowable cost, and the application of the criteria in the exception. The purpose of this proposed revision is to clarify the meaning and intent of the regulation, including the criteria for the exception to the regulation, and to extend the regulation to cover special contract situations.

1. DETERMINATION OF "RELATEDNESS"

The existing regulation treats a provider and a supplying organization as related if they are associated or affiliated "to a significant extent". The definitions of "common ownership" and "control" also use the terms "significant ownership" and "significantly" influence. The subjectiveness of these terms has caused problems in interpreting and consistently applying the regulation. We are proposing to revise these difinitions to remove these phrases. A provider and a supplying organization would be treated as related if there is "any" common ownership or control. Questions have also arisen regarding the proper treatment of chain organizations. We are proposing to define chain organization and clarify current policy, which treats dealings among components of a chain organization as dealings between related organizations. This proposed regulation would limit reimbursement to *providers* who obtain services, facilities or supplies from organizations related by common ownership or control. While HMO's are not "providers of services" for Medicare purposes, this provision is made applicable to them, subject to specific limitations by § 405.2042 (Principles of Reimbursement For Cost-Basis HMO's under Title XVIII; Allowable Costs). Therefore, because of our continuing interest in fostering the development of HMO's, we would be particularly interested in comments regarding the potential effect of the proposed regulation on HMO's.

2. DETERMINATION OF ALLOWABLE COST

The existing rule does not deal specifically with how the costs of a related supplying organization are to be determined and questions have arisen as to what methods are acceptable. We are proposing that the supplier's allowable costs be determined in accordance with the general reimbursement principles of Subpart D of the Medicare regulations. Our intent is that the supplier use generally accepted accounting principles, except where special rules have been adopted for Medicare.

3. EXCEPTIONS

We are proposing some clarifications and revisions in the existing criteria for granting an exception to the general principle. For example, we are proposing that the related supplying organization must conduct at least 80 percent of its business, of the type transacted with the provider, in the open market. The existing regulation uses the criterion "a substantial part", which is too vague to provide clear guidance. We have chosen 80 percent because, in our view, it is tantamount to the provider buying in the open market. At this level of activity, the forces prevailing in the market place should control the price charged the provider, and the supplying organization's existence would not be dependent upon the business conducted with the provider.

4. SPECIAL APPLICATIONS

The application of the regulation has been extended to provide that, even if the common ownership or control relationship terminates prior to the end of a contract for service, facilities, or supplies originally made between related organizations, the rule on related organizations would continue to apply during the full term of the contract. This application is necessary, in our view, because the contract terms, which were not arranged in arms-length bargaining, have not been changed by the termination of the relationship between the provider and the supplier.

The proposed revision to the regulation also applies the rule for related organizations to cases in which the provider and the supplying organization are unrelated prior to the execution of a contract, but common ownership or control is created at the same time by the nature of the contract or by other means.

V 4 4 / 1 9 J A 2 6 7 9 UMI

5. SHARED-SERVICES ORGANIZATIONS

This proposed rule does not incorporate the special provisions regarding shared-services organizations since those were published separately as a proposed rule on August 17, 1978 (43 FR 36488). A full explanation of the proposed rule and of our reasons for proposing it was set forth in that NPRM. Comments regarding that rule have been received and are being considered.

42 CFR 405.427 is revised to read as follows:

§ 405.427 Cost to related organizations.

(a) *Scope.* This section specifies criteria for determining a provider's allowable costs when the provider obtains services, facilities, or supplies from an organization that is related to it by common ownership or common control.

(b) *Definitions.* As used in this section, unless the context indicates otherwise:

"Chain organization" means any group of two or more facilities that are owned, leased, or controlled by one organization.

"Common control" means that an individual(s) or organization has the power to influence or direct the actions or policies of both a provider and a supplying organization or to influence or direct the transactions between a provider and a supplying organization. The term includes direct or indirect control, whether or not it is legally enforceable.

"Common ownership" means that an individual(s) or organization owns or has equity in both a provider and a supplying organization.

"Related organization" means an entity that is under common ownership or common control with a provider.

(c) *Allowable costs.* Fees charged among components of a chain organization are not allowable as provider costs. However, subject to paragraph (d) of this section, a provider's allowable costs for services, facilities, or supplies furnished to it by a related supplying organization include:

(1) Costs that would be allowable if they were incurred directly by the provider.

(2) Costs of services, facilities, or supplies furnished by one component of a chain organization to another component; and

(3) Costs of services, facilities, or supplies furnished by the home office of a chain organization to another component.

Example: Corporation A, a construction company, builds a hospital or nursing home and leases it to Corporation B to operate as a provider. Corporation B is related to Corporation A by common control. Rental payments made to Corporation A would not be used to determine the provider's allowable costs. Corporation B could only include in its allowable costs Corporation A's costs of ownership of the facility. These would include depreciation costs, interest on a mortgage, real estate taxes, and other expenses incurred by the owner for the leased facility.

(d) *Conditions for payment.*—(1) *Basic condition.* Except as provided in paragraphs (d) (2) and (3), a provider's allowable costs for services, facilities, or supplies furnished to it by a related supplying organization shall not exceed the lower of:

(i) The cost of the services, facilities, or supplies to the related supplying organization; or

(ii) The price at which comparable services, facilities, or supplies can be purchased in the open market.

(3) *Related open market suppliers.* (i) A provider's allowable costs are not limited to the provisions if paragraph (d)(1) of this section of the provider can show, to the satisfaction of the intermediary that:

(A) The related supplying organization is operated separately from the provider. This means it cannot be operated by the same sole proprietor, by the same partners of partnership, or by the same corporation, regardless of the internal corporate operating arrangements, that operates the >provider.

(B) The related supplying organization transacts 80 percent or more of its business (of the type carried on with the provider) with organizations to which it is not related.

(C) There is an open, competitive market for the type of services, facilities, or supplies furnished by the related supplying organization. For example, the items are produced and offered for sale in large quantities to the general public or the services are available at an established market price from a number of suppliers. This requirement for an open, competitive market does not apply, however, to items that are produced or acquired under a special contract, such as a provider building constructed by a related organization or a provider building rented for a related organization.

(D) The services, facilities, or supplies are of the type commonly obtained by providers from other organizations.

(ii) If all the conditions of paragraph (d)(3)(i) of this section are met, the provider's allowable costs for services, facilities, or supplies furnished by the related supplying organization shall be lower the of:

(A) The charge made by the related supplying organization to the provider; or

(B) The price at which comparable services, facilities, or supplies can be purchased in the open market.

(4) *Accounting method.* The allowable cost of services, facilities, and supplies to a related supplying organization will be determined in accordance with this subpart.

(e) *Applicability.* (1) If paragraph (d)(1) of this section is applicable, it governs the provider's allowable costs throughout the full term of a supply contract executed between a provider and a related supplying organization, even if the common control or common ownership terminates prior to the end of the contract.

(2) If a provider and a supplying organization are not related prior to the execution of a supply contract, but common ownership or common control is created at the same time by the supply contract, by a companion agreement, or by any other means, the supply contract will be treated as having been made between related organizations for purposes of paragraph (d) of this section.

Example: Corporation A owns a building and executes a lease contract with Corporation B, a provider. A single stockholder owns 100 percent of the capital stock of both corporations. A person unrelated to either corporation buys the stock of Corporation B from the stockholder, thus terminating the relationship of Corporation B and Corporation A. However, until the lease is terminated, Corporation B's allowable costs would be limited to Corporation A's costs of ownership.

(Secs. 1102, 1861(v), and 1871 of the Social Security Act (42 U.S.C. 1302, 1395o(u), and 1395hh))

(Catalog of Federal Domestic Assistance Program No. 13.773, Medicare—Hospital Insurance; No. 13.774, Medicare—Supplementary Medical Insurance.)

Dated: October 12, 1978.

ROBERT A. DERZON,
Administrator, Health Care Financing Administration.

Approved: January 15, 1979.

JOSEPH A. CALIFANO, Jr.,
Secretary.

DEPARTMENT OF AGRICULTURE

Agriculture Marketing Service

ELBOW LAKE LIVESTOCK SALES CO., ELBOW LAKE, MINNESOTA, ET AL.

Deposting of Stockyards

It has been ascertained, and notice is hereby given, that the livestock markets named herein, originally posted on the respective dates specified below as being subject to the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 *et seq.*), no longer come within the definition of a stockyard under said Act and are, therefore, no longer subject to the provisions of the Act.

Facility No., Name, Location of Stockyard, and Date of Posting

MN-113 Elbow Lake Livestock Sales Company, Elbow Lake, Minnesota, March 1, 1960.
MN-119 Granite Falls Sales Co., Granite Falls, Minnesota, September 19, 1959.
MN-136 Park Rapids Sales Co., Park Rapids, Minnesota, October 2, 1959.
MN-142 Rush City Livestock Auction, Rush City, Minnesota, April 11, 1960.
MN-157 Walnut Grove Sales Pavilion, Walnut Grove, Minnesota, September 23, 1959.
ND-109 Ellendale Livestock Market, Inc., Ellendale, North Dakota, June 6, 1959.
ND-118 Kamrath Sales Pavilion, Mott, North Dakota, May 27, 1959.
ND-120 Oakes Livestock Commission Co., Oakes, North Dakota, May 13, 1959.
SD-109 Centerville Livestock Auction, Inc., Centerville, South Dakota, May 19, 1959.
SD-117 Faulkton Livestock Commission Company, Faulkton, South Dakota, June 3, 1959.
SD-122 Herreid Livestock Commission Company, Inc., Herreid, South Dakota, June 23, 1954.
SD-141 Rapid City Livestock Market, Inc., Rapid City, South Dakota, January 24, 1947.
SD-151 Wall Livestock Auction, Inc., Wall, South Dakota, May 30, 1959.

Notice or other public procedure has not preceded promulgation of the foregoing rule. There is no legal justification for not promptly deposting a stockyard which is no longer within the definition of that term contained in the Act.

The foregoing is in the nature of a rule relieving a restriction and may be made effective in less than 30 days after publication in the FEDERAL REGISTER. This notice shall become effective January 26, 1979.

(42 Stat. 159, as amended and supplemented (7 U.S.C. 181 *et seq.*))

Done at Washington, D.C., this 19th day of January 1979.

EDWARD L. THOMPSON,
Chief, Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

Federal Grain Inspection Service

OFFICIAL AGENCY DESIGNATION

Cancellation of Designation of the Lubbock Grain Inspection and Weighing, Inc.,—Official Designation of Lubbock Grain Inspection and Weighing—Proposal of Geographic Area

AGENCY: Federal Grain Inspection Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: This notice announces the cancellation of designation of the Lubbock Grain Inspection and Weighing, Incorporated, as an existing agency at Lubbock, Texas, and the designation of the Lubbock Grain Inspection and Weighing which is owned by Mr. Raymond Anthis, as a new official agency at Lubbock, Texas, to perform grain inspection services under the U.S. Grain Standards Act, as amended, effective October 19, 1978. This notice also proposes a geographic area within which the agency will operate.

DATE: Comments by March 12, 1979.

FOR ADDITIONAL INFORMATION CONTACT:

Edith A. Christensen, Federal Grain Inspection Service, Compliance Division, Delegation and Designation Branch, 201 14th Street SW., Room 2405, Auditors Building, Washington, D.C. 20250, (202) 447-8525.

SUPPLEMENTARY INFORMATION: The United States Grain Standards Act, as amended (7 U.S.C. 71 *et seq.*) (hereinafter the "Act"), has been amended to extensively modify the official grain inspection system. Pursuant to Sections 7 and 7A of the Act (7 U.S.C. 79 and 79a), the Administrator of the Federal Grain Inspection Service (FGIS) has the authority to designate any State or local governmental agency, or any person, as an official agency for the conduct of all or specified functions involved in official inspection (other than appeal inspection), weighing, and supervision of weighing of grain at locations where the Administrator determines there is a need for such services. Such designation shall terminate triennially (7 U.S.C. 79(g)(1) and 79a(c)).

On September 18, 1978, a notice was published in the FEDERAL REGISTER (43 FR 41418) announcing that (1) the Lubbock Grain Inspection and Weighing, Incorporated, Lubbock, Texas, requested that its designation as an official inspection agency be transferred to Mr. Raymond Anthis, the Chief Inspector of that agency; and (2) Mr. Anthis has applied for designation in accordance with Section 7(f)(1) of the Act (7 U.S.C. 79(f)(1)) to operate as an official agency at Lubbock, Texas, to be known as the Lubbock Grain Inspection and Weighing.

Interested persons were given until October 18, 1978, to submit written views and comments with respect to the requested transfer of designation and/or to apply for designation to operate as an official agency at Lubbock, Texas. No comments were received regarding the September 18, 1978, notice. No additional applications were received, other than the application from Mr. Anthis.

The FGIS has conducted the required investigation of the Lubbock Grain Inspection and Weighing which included an onsite review of the inspection point at Lubbock (specified service point).

NOTE.—Section 7(f)(2) of the Act (7 U.S.C. 79(f)(2)) generally provides that not more than one official agency shall be operative at one time for any geographic area as determined by the Administrator.

As a result of this investigation and after due consideration of the request for transfer, the Lubbock Grain Inspection and Weighing owned by Mr. Anthis, was selected for designation under the Act to perform official inspection functions (other than appeal inspection), not including official weighing, and the designation of the Lubbock Grain Inspection and Weighing, Incorporated was canceled effective October 19, 1978.

A document designating the Lubbock Grain Inspection and Weighing,

V 4 4 / 1 9

as an official agency was signed on October 19, 1978. Said designation also includes an interim assignment of geographic area within which the official agency shall officially inspect grain. The geographic area assigned to the Lubbock Grain Inspection and Weighing on an interim basis pending final determination in this matter is:

Bounded on the North by: The northern Cochran County line from the Texas-New Mexico State line east; the northern Hockley County line east to Farm to Market Road (FM) 303; FM 303 north to U.S. Route 84; U.S. Route 84, including Sudan, Texas, southeast to FM 37; FM 37 east to FM 179; FM 179 north to FM 1914; FM 1914 east, not including Hale Center, Texas, to FM 400; FM 400 south to FM 37; FM 37 east to the eastern Hale County line; the Hale County line south; northern Crosby County line east; the northern Dickens County line east;

Bounded on the East by: The eastern Dickens, Kent, Scurry, and Mitchell County lines;

Bounded on the South by: The southern Mitchell, Howard, Martin, and Andrews County lines; and

Bounded on the West by: The Texas-New Mexico State line from the southern Andrews County line north to the northern Cochran County line.

In addition, the area shall include El Paso County, Texas.

Interested persons may obtain a map of the proposed geographic area from the Compliance Division, Delegation and Designation Branch.

The specified service point of the Lubbock Grain Inspection and Weighing is 920 Avenue A, Box 675, Lubbock, Texas 79408, which is located within the agency's proposed geographic area. A specified service point for the purpose of this notice is a city, town, or other location specified by an agency for the conduct of all or specified official inspection functions and where the agency or one or more of its licensed inspectors is located. A service location for the purpose of this notice is a city, town, or other location specified by an agency for the conduct of official inspection functions other than official grading where no licensed inspector is located. The designation document provides for the inclusion of additional specified service points and service locations which may be established in the future within the agency's assigned geographic area.

Publication of this notice does not preclude future amendment of this designation consistent with the provisions and objectives of the Act.

Interested persons are hereby given opportunity to submit written views or comments with respect to the geographic area proposed for assignment to the Lubbock Grain Inspection and Weighing. All views or comments should be submitted in writing to the Office of the Director, Compliance Division, Federal Grain Inspection Service, 201 14th Street, S.W., Room 2405, Auditors Building, Washington, D.C. 20250. All materials submitted should be mailed to the Director not later than March 12, 1979. All materials submitted pursuant to this notice will be made available for public inspection at the Office of the Director during regular business hours (7 CFR 1.27(b)). Consideration will be given to the views and comments so filed with the Director and to all other information available to the U.S. Department of Agriculture before final determination of the assignment of geographic area is made with respect to this matter.

(Sec. 4, Pub. L. 94-582, 90 Stat. 2868 (7 U.S.C. 75a); sec. 8, Pub. L. 94-582, 90 Stat. 2870 (7 U.S.C. 79); sec. 9, Pub. L. 94-582, 90 Stat. 2875 (7 U.S.C. 79a); sec. 27, Pub. L. 94-582, 90 Stat. 2889 (7 U.S.C. 74 note).)

Done in Washington, D.C., on January 19, 1979.

LESLIE E. MALONE,
Acting Director.

[FR Doc. 79-2837 Filed 1-25-79; 8:45 am]

[3410-02-M]

OFFICIAL AGENCY TERMINATION

Termination of Designation of The Corn Exchange, Buffalo, New York

AGENCY: Federal Grain Inspection Service, USDA.

ACTION: Notice and request for applications and comments.

SUMMARY: This notice announces the termination of the designation of The Corn Exchange, Buffalo, New York, as an official agency to perform grain inspection under the U.S. Grain Standards Act, as amended. The Federal Grain Inspection Service is requesting comments on the need for designation of a replacement agency to perform official inspection in the area previously serviced by The Corn Exchange. In addition, interested persons are invited to make application for designation to operate as an official agency in the Buffalo, New York, area.

DATES: Termination effective midnight, November 19, 1978. Application and/or comments received by March 12, 1979.

FOR FURTHER INFORMATION CONTACT:

Edith A. Christensen, Federal Grain Inspection Service, Compliance Division, Delegation and Designation Branch, 201 14th Street, S.W., Room 2405, Auditors Building, Washington, D.C. 20250, (202) 447-8525.

SUPPLEMENTARY INFORMATION: Pub. L. 94-582 was enacted in 1976 to amend the United States Grain Standards Act (7 U.S.C. 71 *et seq.*) (hereinafter the "Act"). Section 27 of the Act (7 U.S.C. 74 note) provides that any interior inspection agency providing service on November 20, 1976, the date on which the amended Act became effective, could continue to do so without a designation under the Act until the expiration of a period of time as determined by the Administrator, but not to exceed 2 years after the Act's effective date.

The Corn Exchange (Exchange), Buffalo, New York, was advised on November 15, 1977, that conflicts of interest, as defined by Section 11(b) of the Act (7 U.S.C. 87(b)), existed in their agency. The Exchange submitted no proposal to effect a satisfactory resolution of these conflicts of interest and therefore was ineligible for designation as an official agency.

Because the Exchange did not become eligible for designation under the terms of the amended Act, their designation terminated midnight, November 19, 1978, in accordance with Section 27 of the Act (7 U.S.C. 74 note).

The Administrator of the Federal Grain Inspection Service (FGIS) is authorized under the provisions of the Act to provide official inspection where it is determined official inspection is needed (7 U.S.C. 79(f)(1)). FGIS requests comments from the grain trade and other interest parties with respect to the need for continuing to provide official grain inspection service under the Act in the area previously serviced by the Exchange. All comments should be submitted in writing and mailed to the Office of the Director, Compliance Division, Federal Grain Inspection Service, 14th & Independence Avenue, SW., Room 2405, Auditors Building, Washington, D.C. 20250, not later than March 12, 1979.

Subject to a final determination by the Administrator as to the need for continuing official grain inspection service in this area, interested persons are hereby given opportunity to make application for designation to operate as an official agency in the Buffalo, New York, area, pursuant to the requirements in Section 7(f)(1)(A) of the amended Act (7 U.S.C. 79(f)(1)(A)) and section 26.96 of the regulations (7 CFR 26.96). Persons wishing to apply for designation to operate as an official agency in the Buffalo area should contact the Office of the Director, Compliance Division, at the above mentioned address, for the appropriate forms and mail their applications to that Director's office not later than March 12, 1979.

Official inspection services on domestic grain will be provided by the FGIS in the area previously serviced by the exchange until such time as the necessity of a replacement agency is determined. Persons desiring official inspection services during this period should contact Mr. Patrick Flanagan, Field Office Supervisor, United States Department of Agriculture, Federal Grain Inspection Service, Port of Albany, Albany, New York 12202, (518) 465-2662.

NOTE.—Section 7(f)(2) of the Act (7 U.S.C. 79(f)(2) provides that not more than one official agency shall be operative at one time for any geographic area as determined by the Administrator.

In making a final determination as to the need for a replacement agency in the Buffalo, New York, area, and the designation of an official agency if deemed necessary, consideration will be given to all comments filed and to any applications submitted and to all other information available to the Administrator. All comments and applications submitted pursuant to this notice will be made available for public inspection at the above Office of the Director during regular business hours (7 CFR 1.27(b)).

(Sec. 8, Pub. L. 94-582, 90 Stat. (7 U.S.C. 79); sec. 13, Pub. L. 94-582, 90 Stat. 2880 (7 U.S.C. 87); sec. 27, Pub. L. 94-582, 90 Stat. 2889 (7 U.S.C. 74 note) 7 CFR 26.96.)

Done in Washington, D.C., on January 19, 1979.

LESLIE E. MALONE,
Acting Administrator.

[Order 79-1-105; Docket 33196, et al.]

NATIONAL AIRLINES, INC., ET AL.

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 18th day of January, 1979.

In the matter of application of National Airlines, Inc. for amendment of its certificate of public convenience and necessity pursuant to section 401 of the Federal Aviation Act of 1958, as amended (Docket 33196); applications of Northwest Airlines, Inc. (Docket 33350), Eastern Airlines, Inc. (Docket 32720), Western Air Lines, Inc. (Docket 32964), Southern Airways, Inc. (Docket 33438), for amendment of their certificates of public convenience and necessity pursuant to section 401 of the Federal Aviation Act of 1958, as amended; applications of Northwest Airlines, Inc. (Docket 33351), Eastern Airlines, Inc. (Docket 32891), for exemption authority pursuant to section 416(b) of the Federal Aviation Act.

On August 14, 1978, National Airlines filed an application and a petition for an order to show cause why its authority on Route 39 in the San Francisco/Oakland/San Jose-Atlanta market should not be converted from mandatory to permissive (Docket 33196).[1]

On September 5, 1978, Northwest Airlines filed an application for an amendment of its existing certificate of public convenience and necessity for Route 3, or for the grant of new certificate authority, to permit nonstop service between the San Francisco area and Atlanta (Docket 33350). It filed a motion for hearing on the same date, as well as an application under section 416(b) of the Act for an exemption from its certificate requirements so as to permit it to provide nonstop service between San Francisco/Oakland/San Jose and Atlanta for two years, or until 60 days after final Board decision on its application for certificate authority (Docket 33350).

On September 15, 1978, Southern Airways filed a motion to consolidate its application for Atlanta-San Francisco certificate authority (Docket 33438) with the applications of Northwest, Eastern Airlines (Docket 32720) and Wesern Air Lines (Docket 32964).[2]

Eastern,[3] Western, and an incumbent in the market, Delta, filed answers in opposition to Northwest's exemption request.

Neither of the incumbents, Delta or National, has filed an answer to any of the pending applications for certificate authority or to Northwest's motion for hearing.

---

[1] National has apparently already canceled its service for an indefinite period. Beginning with the October 15, 1978, Official Airline Guide, no National flights are listed in this market.

[2] Western had already filed a motion to consolidate its application with that of Eastern on July 3, 1978.

[3] Eastern had filed for Atlanta-San Francisco exemption authority on June 21, 1978 (Docket 32891). This application was supported by the City of Atlanta and the Atlanta Chamber of Commerce and opposed by National, Western, and Delta. Eastern's request was accompanied by financial, economic and environmental data supportive of both the exemption request and the certificate request in Docket 32720. On October 25, 1978, Eastern also filed for "unused" Atlanta-San Francisco/Oakland/San Jose authority under section 401(d)(5)(A) of the Act, and was awarded this authority in Order 78-11-41 (November 9, 1978).

JA 26 79
UMI

V 4 4 / 1 9

In its application, [1] Northwest argues that the current service in the San Francisco-Atlanta market provided by Delta and National does not meet the needs of the public; that Delta provides three nonstop round trips daily but at inconvenient hours for the business traveler, and National offers only one nonstop round trip on the weekend. It proposes to provide two nonstop round trips each day, using B-727 equipment, at hours more convenient for the business traveler, and to offer "Super Saver" and other promotional fares that will compete with existing fares and benefit the public. It estimates that it will earn an operating profit of $1,318,000.

We tentatively conclude, on the basis of the tentative findings below, that it is consistent with the public convenience and necessity to award multiple authority on a Category II subsidy-ineligible basis, in the San Francisco-Atlantic and San Jose-Atlantic markets, and to grant the certificate applications of Northwest, Eastern, Western, Southern and any other fit, willing and able applicant whose fitness, willingness and ability can be established by officially noticeable data. [2] Further, we tentatively conclude that no oral evidentiary hearing is needed here since there are no material determinative issues of fact requiring such a hearing for their resolution.

Since the Oakland-Atlanta market is at issue in the pending *Oakland Service Case* (Docket 30699), we will not deal with the applications to the extent that they request such authority and, under section 302.12(d) of our Regulations, dismiss those portions of the applications. [3]

We have also tentatively decided not to hyphenate San Francisco and San Jose. If a carrier does not use its San Jose-Atlanta authority, another carrier can obtain that authority under section 401(d)(5) of the Act as long as San Jose is listed as a separate point on the first carrier's certificate. (*See* Order 78-11-41). We find this approach more consistent with the Act's declaration of policy which calls on us to encourage air service at major urban areas through secondary or satellite airports. [4]

Under the Airline Deregulation Act of 1978, we must approve an application for certificate authority unless we find, by a preponderance of the evidence, that approval would not be consistent with the public convenience and necessity (Pub. L. No. 95-504, section 14). The new Act creates a presumption that the grant of all applications is consistent with the public convenience and necessity. It places on any opponents of these applications the burden of proving them inconsistent with the public convenience and necessity (Pub. L. No. 95-504, section 14). To give such opponents a reasonable opportunity to meet an admittedly heavy burden of proof, it is our view that applicants must indicate what type of service they would provide if, after receiving authority, they chose to serve the markets at issue. This does not mean that an applicant must show that it will provide service if it receives authority but rather what the nature of its service would be if it decided to serve. We will give all existing and further applicants 15 days from the date of service of this order to supply data, [5] in order to give interested persons sufficient information on the nature of the applicants' proposals to assess consistency with the public convenience and necessity. Our tentative findings concerning all applicants that have not filed illustrative service proposals are contingent on such filings. [6]

Upon review of all the facts and pleadings in this case, we have tentatively determined that there is no reason why we should not grant multiple awards. Our tentative conclusions comport with the letter and spirit of the Airline Deregulation Act of 1978, particularly the declaration of policy set forth in section 102 which instructs us to rely, to the maximum extent possible, on competitive forces, including potential competition. [7] See our general conclusions about the benefits of multiple permissive authority in *Improved Authority to Wichita Case, et al.*, Order 78-12-106, December 14, 1978. Accordingly, we conclude that it is desirable to award the additional authority sought by the applicants, whether or not services are in fact operated. The existence of additional operating rights in markets now being served by incumbent carriers or authorized to be served will best effect the statute's policy objective of placing maximum reliance on the decisions of the marketplace. This will occur because newly authorized carriers may actually enter the market in order to exploit unmet demand, both in terms of price and service, or because incumbents will be encouraged by the realistic threat of entry to meet that demand. Because demand is dynamic in character and therefore constantly changing, the most effective means to assure that competitive forces will operate quickly and efficiently is to award multiple operating authority to carriers that are fit, willing and able to provide service.

Notwithstanding the foregoing tentative conclusions in support of multiple authority in this proceeding, we wish to make clear that we in no way desire to deter objections that might be asserted under the 1978 Act by air carriers, civic interests or other interested persons. The new statute contains a completely revised declaration of policy in section 102, as well as numerous additional and modified substantive provisions. Some of these statutory changes relate to considerations not expressly covered in the preceding statute. For example, while diversion

---

[1] The supporting data appear in Northwest's application for exemption authority (Docket 33351), although they support both the exemption request and the certificate request.

[2] Officiably noticeable data consist of that material filed under section 302.24(m) of our Rules of Practice. Applicants whose fitness cannot be so established must make a showing of fitness, as well as dealing with any questions under sections 408 and 409 of the Act. Should such applications be filed, we will then consider how to deal with them procedurally.

On the basis of officially noticeable data, we find that Northwest, Eastern, Western and Southern are citizens of the United States and are fit, willing and able to perform the air services proposed and to conform to the provisions of the Act and our rules, regulations and requirements.

[3] *See Florida Service Case*, Order 78-11-15 (November 2, 1978).

[4] We will give Northwest and Eastern 15 days from this order's service date to file any revisions to their illustrative service proposals for the Bay Area.

[5] They should submit an illustrative schedule of service in the markets at issue, which shows all points that they might choose to serve, the type and capacity of the equipment they would likely use and the elapsed trip time of flights in block hours over the segments. For the markets at issue only, they should also provide an environmental evaluation as required by Part 312 of our Regulations, and an estimate of the gallons of fuel to be consumed in the first year of operations in the markets if they instituted the proposed service, as well as a statement on the availability of the required fuel.

[6] Even though we granted Eastern dormant authority in this market in Order 78-11-41 (November 9, 1978), we propose to award it section 401 certificate authority as well. Under the provisions of the Airline Deregulation Act of 1978, Eastern may lose its dormant authority if it does not provide service for a 13-week period (*see* PDR-59). (Eastern received an exemption from the prescribed 45-day service start-up dedline until January 20, 1979 in Order 78-11-96, November 17, 1978, and commenced service on December 15, 1978.) A carrier awarded authority under section 401, however, will not lose its authority if it fails to provide service, and may enter the market at any time.

[7] Section 102(a) specifies as being in the public interest, among other things:

"The placement of maximum reliance on completitive market forces and on actual and potential competition (A) to provide the needed air transportation system, and (B) to encourage efficient and well-managed carriers to earn adequate profits and to attract capital" and "the encouragement, development, and maintenance of an air transportation system relying on actual and potential competition to provide efficiency, innovation, and low prices, and to determine the variety, quality, and price of air transportation services."

from existing carriers will not be given decisive weight in rejecting applications for new authority except upon an extraordinary showing of financial jeopardy on the part of one or more existing air carriers, with the consequent loss of air service which cannot be immediately replaced, other provisions suggest that the Congress desires us to take into account other factors. These include, but are not limited to, satellite airport questions and the degree of concentration within the industry and safety. Any party in this proceeding may explain in full why the authority that we propose to grant should not issue. Such explanations should apply specifically to the applications in issue, and should be sufficiently detailed to overcome the presumption of favorable treatment that the Act bestows on applications.

We have also decided to dismiss the application and show cause petition of National to convert its San Francisco-Atlanta authority from mandatory to permissive. Under new section 401(j) of the Airline Deregulation Act of 1978, a certificated carrier is free to suspend service at a point or over a segment for which it is the only certificated carrier providing nonstop single-plane service, provided that it gives us and the communities affected the notice prescribed in that section. [11] To the extent that National is merely requesting permissive authority to serve the San Francisco-Atlanta market, the issue is moot. [12]

Since Eastern has already received authority, under the dormant authority provisions of the Airline Deregulation Act of 1978, to commence service in the San Francisco-Atlanta market, we have determined that it would not be consistent with the public interest to award it exemption authority as well. It has received an extension of the 45-day start-up requirement for dormant authority until January 20, 1979. [13] We feel that the time granted to it to inititate service is sufficient, and that to award it exemption authority would be redundant and unnecessary.

We cannot find that it is consistent with the public interest to grant Northwest an exemption to serve the Atlanta-San Francisco/San Jose markets. Under the new Act, the change in statutory language overrides much of the precedent developed under former section 418(b)(1) and encourages us to eliminate many of the limitations we observed in the past exercise of our exemption authority. However, we are also cognizant of the fact that, despite enacting sweeping changes under the Airline Deregulation Act, Congress chose to retain the basic framework of the Federal Aviation Act [14] under which certification is the norm. Therefore, we will require each exemption applicant to demonstrate that a grant of a particular exemption will fulfill an immediate public need, so as to justify resort to the exemption procedure in lieu of utilizing conventional certification procedures. Here, although Northwest alleges a pressing need for additional service between Atlanta and the Bay Area, any such need that did exist has now been vitiated by Eastern's institution of two daily nonstop round trips between Atlanta and San Francisco, pursuant to its award under section 401(d)(5)(A) of the Act. We do find, however, that it would be consistent with the public interest to grant Northwest an exemption to serve the Atlanta-Oakland market (see Order 78-12-101, December 14, 1978)."

Finally, upon review of the environmental evaluations submitted by Northwest and Eastern in their applications, to which no answers have been filed, we find that our decision to award them authority will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, or a major regulatory action under the Energy Policy and Conservation Act of 1975. We reserve judgment on the environmental consequences of other applications pending submission of environmental data.

We will give interested persons 30 days following the service date of this order to show cause why the tentative findings and conclusions set forth here should not be made final; answers will be due within 10 days thereafter. We expect such persons to direct their objections, if any, to specific markets, and to support such objections with detailed economic analysis. If an evidentiary hearing is requested, the objector should state, in detail, why such a hearing is necessary and what relevant and material facts he would expect to establish through such a proceeding that cannot be established in written pleadings. We will not entertain general, vague, or unsupported objections. We remind objectors that under the 1978 Act they have the burden of proving why the awards proposed here will not be consistent with the public convenience and necessity.

Accordingly,

1. We direct all interested persons to show cause why we should not issue an order making final the tentative findings and conclusions stated above and amending the certificate of public convenience and necessity of Northwest Airlines for Route 3, Eastern Airlines for Route 10, Southern Airways for Route 98 and Western Air Lines for Route 19 so as to authorize the carriers to engage in nonstop operations between Atlanta, on the one hand, and San Francisco and San Jose, on the other;

2. We direct any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth here, to file with us and serve upon National, Northwest, Eastern, Southern, Western, Delta and the Atlanta civic parties, no later than February 22, 1979, a statement of objections, together with a summary of testimony, statistical data, and other material expected to be relied upon to support the stated objections; answers shall be due no later than March 5, 1979;

3. If timely and properly supported objections are filed, we will accord full consideration to the matters and issues raised by the objections before we take further action; [15]

4. In the event no objections are filed, we will deem all further procedural steps to have been waived and we may proceed to enter an order in accordance with the tentative findings and conclusions set forth here;

5. We dimiss the application of National in Docket 33196 as moot;

6. We grant the motions of Southern and Western to consolidate their applications in Dockets 33438 and 32964, respectively, with those of Northwest and Eastern in Dockets 33350 and 32720, respectively;

7. We deny the application for exemption authority of Eastern in Docket 32891;

8. We exempt Northwest from any requirements of the Act, the Board's Regulations and/or its certificate which otherwise would prevent it from operating nonstop service between Atlanta and Oakland; to the extent not

---

[11] Under section 419 of the Act, a certificated carrier intending to suspend service or reduce it below what we have determined is essential air transportation at a point must give 90 days' notice of this intent before suspending or reducing its service. We must require the carrier to continue providing essential service until we can find a suitable replacement.

[12] As noted in fn. 1, *supra*, National has apparently provided no service between Atlanta and San Francisco since May 6, 1978 (*see* Docket 31891). Since it discontinued all service on this segment before passage of the Airline Deregulation Act of 1978, it had no statutory authority to suspend such service, and therefore acted in violation of its certificate requirements. Our actions here, however, in no way condone National's behavior in this matter. We will refer this matter to our Bureau of Consumer Protection for any action they may deem necessary.

[13] *See* n. 9, *supra*.

[14] *See, e.g.*, Northwest Airlines, Inc. v. C.A.B., 539 F.2d 749 (D.C. Cir. 1976); Utah Agencies v. C.A.B., 504 F.2d 1231, 1237 (10 Cir. 1974).

[15] Since provision is made for the filing of objections to this portion of the order, we will not entertain petitions for reconsideration on these issues.

JA 26 79 UMI

V 44/19

granted here, Northwest's application in Docket 33351 is denied;

9. We direct Southern, Western and any other applicant for the authority in issue to file the data set forth in footnote 8 no later than February 7, 1979.

We will publish this order in the FEDERAL REGISTER.

By the Civil Aeronautics Board:[16]

PHYLLIS T. KAYLOR,
Secretary.

PAN AMERICAN WORLD AIRWAYS ENFORCEMENT PROCEEDING

Assignment of Proceeding

This proceeding is hereby assigned to Administrative Law Judge Rudolf Sobernheim. Future communications should be addressed to Judge Sobernheim.

Dated at Washington, D.C., January 19, 1979.

NAHUM LITT,
Chief Administrative Law Judge.

[FR Doc. 79-2828 Filed 1-25-79; 8:45 am]

[3510-15-M]

DEPARTMENT OF COMMERCE

[Docket No. S-635]

OGDEN TRAVELER, INC.

Application

Notice is hereby given that Ogden Traveler, Inc. has filed an application under the Merchant Marine Act, 1936, as amended (the act), for operating-differential subsidy to engage in bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on December 31, 1979, unless extended. Inasmuch as the applicant, and/or related persons or firms, employ or may employ ships in the domestic intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Act will be required if the application for operating-differential subsidy is to be granted.

Ogden Traveler, Inc. requests written permission to continue the employment of its tanker, the SS TRAVELER, in the domestic intercoastal and/or coastwise service.

The following companies are related to Ogden Traveler, Inc. and are holders of operating-differential subsidy contracts in the grain trade to the Union of Soviet Socialist Republics. These companies have previously received written permission under section 805(a) of the Act for the following vessels to engage in domestic intercoastal or coastwise service:

Connecticut Transport, Inc., ST *Connecticut.*
James River Transport, Inc., SS *James.*
Mohawk Shipping, Inc., SS *Mohawk.*
Wabash Transport, Inc., ST *Ogden Wabash.*
Ogden Sea Transport, Inc., SS *Columbia.*
Empire Transport, Inc., SS *Potomac.*
Willamette Transport, Inc., ST *Ogden Willamette.*
Ogden Merrimac Transport, Inc., SS *Merrimac.*
Penn Tanker Company, ST *Ogden Champion,* ST *Ogden Challenger.*

It will be necessary that the written permission granted to the foregoing companies for the foregoing vessels be extended to Ogden Traveler, Inc., and for the permission requested by Ogden Traveler, Inc. for the SS TRAVELER be extended to each of the foregoing companies. The foregoing written permission is required notwithstanding the fact that a grain voyage of the SS TRAVELER would not be eligible for subsidy if the vessel engaged in the domestic trade on that voyage.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent to section 805(a) and desiring to submit comments or views concerning the application must, by close of business on February 7, 1979 file same with the Secretary, Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing will be held, the purpose of which will be to receive evidence under section 805(a) relative to whether the proposed operations (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal service, or (b) would be prejudicial to the objects and policy of the Act relative to domestic trade operations.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential Subsidies (ODS))

Dated: January 22, 1979.

By order of the Assistant Secretary for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary.

National Oceanic and Atmospheric Administration

COASTAL ZONE MANAGEMENT ADVISORY COMMITTEE

Public Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. , notice is hereby given of the meeting of the Coastal Zone Management Advisory Committee (the "Committee") on Monday and Tuesday, February 5-6, 1979. The meeting will commence at 9:00 A.M. on February 5 and 9:00 A.M. on February 6 in Room 416, Page Building I, 2001 Wisconsin Avenue N.W., Washington, D.C.

The meeting will be open to public observation and approximately 25 seats will be available. Interested persons are invited to attend and participate in the meeting, subject to the procedures which follow. From approximately 4:00 P.M. until 4:30 P.M. on February 5, persons will be permitted to make oral statements to the Committee which are relevant to topics on the agenda. The Chairman retains the prerogative to place limits on the duration or oral statements and discussions. Persons wishing to make oral statements should notify the Committee Control Officer in advance of the meeting. A written version of an oral statement or a written statement may be submitted to the Committee Control Officer before or after the meeting, or may be mailed within five days to: Coastal Zone Management Advisory Committee, National Oceanic and Atmospheric Administration, 3300 Whitehaven Street, N.W., Washington, D.C. 20235 (Attn: Michael E. Shapiro, Committee Control Officer, CZM Advisory Committee). All statements received in typewritten form will be distributed to the Committee for consideration with the minutes of the meeting. Inquiries may be directed to the Committee Stafff at (202) 634-4128.

The items for Committee discussion at the meeting will include the following:

FEBRUARY 5

9:00 a.m.—Call to Order and Swearing in of New Members, John F. Hussey, Chairman, Robert W. Knecht, Assistant Administrator, Richard A. Frank, Administrator, NOAA.

Informal introductions.

9:30 a.m.—Overview of 1978 Work Program.
9:45 a.m.—Status of State Programs: New Members.
10:45 a.m.—Status of the National Program: report from the CSO Task Force.
11:45 a.m.—Lunch.
1:30 p.m.—Coastal Zone Management Program Update, Senior Staff, the Office of Coastal Zone Management.
4:00 p.m.—Public Statements (if any).

FEBRUARY 6

9:00 a.m.—President's Reorganization Program, Guest Speaker.
10:45 a.m.—This one hour session to be held at the Capitol in a place To Be Announced at the meeting.
11:45 a.m.—Lunch.
1:30 p.m.—Future of CZM Panel (Environmantal/government/industry representatives) Joe Bodovitz, Chairman.
2:30 p.m.—Discussion of Work Program/Formation of Task Force(s).
4:15 p.m.—Adjourn.

The Notice of Public Meeting does not permit members of the public sector 15 days notification because of an administrative delay in processing clearances and selecting of new members to provide a quorum as specified in the Committee's Charter.

Dated: January 24, 1979.

R. L. CARNAHAN,
Acting Assistant Administrator for Administration, National Oceanic and Atmospheric Administration.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1979

Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed Additions to Procurement List.

SUMMARY: The Committee has received proposals to add to Procurement List 1979 commodities and military resale items to be produced by workshops for the blind and other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: February 28, 1979.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher (703) 557-1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77.

If the Committee approves the proposed additions, all entities of the Federal Government will be required to procure the commodities and military resale items listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodities and military resale items to Procurement List 1979, November 15, 1978 (43 F.R. 53151):

Class 7520

Box, Filing, Wood
7520-00-285-3144 (GSA Regions 9, 10)
7520-00-285-3145 (GSA Regions 4, 5, 6, 7, 8)
7520-00-285-3146 (GSA Regions 4, 5, 6, 7, 8)
7520-00-285-3148 (GSA Regions 4, 5)

Class 8415

Cotton Gloves, White Cloth
8415-00-268-8354 (small)
8415-00-268-8353 (medium)
(Combined requirement of 300,000 pairs annually)

Military Resale Item No. and Name

No. 063 Retractable Pen
No. 064 Retractable Pen
No. 062 Rolling Ball Writer
No. 061 Rolling Ball Writer
No. 060 Rolling Ball Writer
No. 067 Ultra Fine Tip Marker
No. 066 Ultra Fine Tip Marker
No. 065 Ultra Fine Tip Marker

C. W. FLETCHER,
Executive Director.

DOD ADVISORY GROUP ON ELECTRON DEVICES

Meeting

The DoD Advisory Group on Electron Devices (AGED) will meet in closed session at 201 Varick Street, 9th Floor, New York, NY 10014 on March 8, 1979.

The purpose of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of Electron Devices.

The meeting will be limited to review of research and development programs which the Military Department propose to initiate with industry, universities or in their laboratories. The AGED will review programs on microwave devices, night vision devices, lasers, infrared systems and microelectronics. The review will include classified program details throughout.

In accordance with Section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Advisory Group meeting concerns matters listed in Section 552b(c) of Title 5 of the United States Code, specifically Subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Washington Headquarters Service, Department of Defense.

JANUARY 23, 1979.

DEPARTMENT OF ENERGY

Economic Regulatory Administration

DOMESTIC CRUDE OIL ALLOCATION PROGRAM

Entitlement Notice for November 1978

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: November 1978 Entitlement Notice.

SUMMARY: Under the Department of Energy's (DOE) domestic crude oil allocation (entitlements) program, this is the monthly entitlement notice which sets forth the entitlement purchase or sale requirements of domestic refiners for November 1978.

DATES: Payments for entitlements required to be purchased under this notice must be made by January 31, 1979. The monthly transaction report specified in § 211.66(i) shall be filed with the DOE by February 12, 1979.

FOR FURTHER INFORMATION CONTACT:

Douglas McIver (Entitlements Program Office), Economic Regulatory Administration, 2000 M Street, N.W., Room 6128I, Washington, D.C. 20461, (202) 254-8660.

Fred Wolgel (Office of General Counsel), Department of Energy, 12th and Pennsylvania Avenue, N.W., Room 7134, Washington, D.C. 20461, (202) 633-8820.

SUPPLEMENTARY INFORMATION: In accordance with the provisions of 10 CFR 211.67 relating to the domestic crude oil allocation program of the Department of Energy (DOE), administered by the Economic Regulatory Administration (ERA), the monthly notice specified in § 211.67(i) is hereby published.

Based on reports for November 1978 submitted to the DOE by refiners and other firms as to crude oil receipts, crude oil runs to stills, eligible product imports and imported naphtha utilized as a petrochemical feedstock in Puerto Rico; application of the entitlement adjustment for residual fuel oil production shipped in foreign flag tankers for sale in the East Coast market provided in § 211.67(d)(4); application of the entitlement adjustments for California lower tier and upper tier crude oil provided in § 211.67(a)(4); December 1978 deliveries of crude oil for storage in the strategic Petroleum Reserve; and application of the entitlement adjustment for small refiners provided in § 211.67(e), the national domestic crude oil supply ratio for November 1978 is calculated to be .166378.

In accordance with § 211.67(b)(2), to calculate the number of barrels of deemed old oil included in a refiner's adjusted crude oil receipts for the month of November 1978, each barrel of old oil is equal to one barrel of deemed old oil and each barrel of upper tier crude oil is equal to .154545 of a barrel of deemed old oil.

The issuance of entitlements for the month of November 1978 to refiners and other firms is set forth in the Appendix to this notice. The Appendix lists the name of each refiner or other firm to which entitlements have been issued, the number of barrels of deemed old oil included in each such refiner's adjusted crude oil receipts, the number of entitlements issued to each such refiner or other firm, and the number of entitlements required to be purchased or sold by each such refiner or other firm.

Pursuant to CFR § 211.67(i)(4), the price at which entitlements shall be sold and purchased for the month of November 1978 is hereby fixed at $8.16, which is the exact differential as reported for the month of November between the weighted average per barrel costs to refiners of old oil and of imported and exempt domestic crude oil, less the sum of 21 cents.

In accordance with 10 CFR § 211.67(b), each refiner that has been issued fewer entitlements for the month of November 1978 than the number of barrels of deemed old oil included in its adjusted crude oil receipts is required to purchase a number of entitlements for the month of November 1978 equal to the difference between the number of barrels of deemed old oil included in those receipts and the number of entitlements issued to and retained by that refiner. Refiners which have been issued a number of entitlements for the month of November 1978 in excess of the number of barrels of deemed old oil included in their adjusted crude oil receipts for that month and other firms issued entitlements shall sell such entitlements to refiners required to purchase entitlements. In addition, certain refiners are required to purchase or sell entitlements to effect corrections for reporting errors for the months September 1975 through October 1978 pursuant to 20 CFR § 211.67(j)(1).

The listing of refiners' old oil receipts contained in the Appendix reflects any adjustments made by ERA pursuant to § 211.67(h).

The listing contained in the Appendix identifies in a separte column labeled "Exceptions and Appeals" additional entitlements issued to refiners pursuant to relief granted by the Office of Hearings and Appeals (prior to March 30, 1978, the Office of Administrative Review of the Economic Regulatory Administration). Also set forth in this column are adjustments for relief granted by the Office of Hearings and Appeals for 1975 and 1976, which adjustments are reflected in monthly installments. The number of installments is dependent on the magnitude of the adjustment to be made. For a full discussion of the issues involved, *see Beacon Oil Company, et al.*, 4 FEA par. 87,024 (November 5, 1976).

The listing contained in the Appendix continues the "Consolidated Sales" entry initiated in the October 1977 entitlement notice. The "Consolidated Sales" entry is equal to the November 1978 entitlement purchase requirement of Arizona Fuels. The purpose of providing for the "Consolidated Sales" entry is to ensure that Arizona Fuels is not relieved of its November 1978 entitlement purchase requirement and that no one firm will be unable to sell its entitlements by reason of a default by Arizona Fuels. For a full discussion of the issues involved, *see Entitlement Notice for October 1977* (42 FR 64401, December 23, 1977).

For purposes of § 211.67(d) (6) and (7), which provide for entitlement issuances to refiners or other firms for sales of imported crude oil to the United States Government for storage in the Strategic Petroleum Reserve, the number of barrels sold to the Government totaled 2,393,862 barrels.

For the month of November 1978, imports of residual fuel oil eligible for entitlements issuances totaled 33,571,702 barrels.

In accordance with § 211.67(a)(4), the number of barrels of California lower tier and upper tier crude oil as reported by refiners to the DOE, and the weighted average gravity thereof are as follows:

	Volumes	Weighted average gravity
California Lower Tier Crude Oil	10,158,908	19°
California Upper Tier Crude Oil	7,179,641	20°

The total number of entitlements required to be purchased and sold under this notice is 21,051,237.

Based on reports submitted to the DOE by refiners as to their adjusted crude oil receipts for November 1978, the pricing composition and weighted average costs thereof are as follows:

	Volumes	Weighted average cost	Percent of total volumes*
Lower tier	85,943,853	$6.12	17.4
Upper tier	90,577,277	13.02	18.4
Exempt domestic:			
Alaskan	34,655,747	12.98	7.0
Stripper	36,946,800	14.49	7.5
Naval petroleum reserve	3,306,009	13.31	.6
Total domestic	251,429,686	10.87	51.0
Total imported	241,484,208	14.72	49.0
Total reported crude oil receipts	492,913,894	12.76	100.0
Total reported crude oil runs to stills	493,854,178		

* Numbers may not add due to rounding.

Payment for entitlements required to be purchased under 10 CFR § 211.67(b) for November 1978 must be made by January 31, 1979.

On or prior to February 12, 1979, each firm which is required to purchase or sell entitlements for the month of November 1978 shall file with the DOE the monthly transaction report specified in 10 CFR § 211.66(i) certifying its purchases and sales of entitlements for the month of November. The monthly transaction report forms for the month of November have been mailed to reporting firms. Firms that have been unable to locate other firms for required entitlement transactions by January 31, 1979 are requested to contact the ERA at 202-254-3336 to expedite consummation of these transactions. For firms that have failed to consummate required entitlement transactions on or prior to January 31, 1979, the ERA may direct sales and purchases of entitlements pursuant to the provisions of 10 CFR 211.67(k).

This notice is issued pursuant to Subpart G, 10 CFR Part 205. Any person aggrieved hereby may file an appeal with the Office of Hearings and Appeals in accordance with Subpart H of 10 CFR Part 205. Any such appeal shall be filed on or before February 26, 1979.

Issued in Washington, D.C. on January 18, 1979.

DAVID J. BARDIN,
Administrator, Economic Regulatory Administration.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER79-124]

APPALACHIAN POWER CO.

Notice of Filing

JANUARY 17, 1979.

Take notice that American Electric Power Service Corporation (AEP) on December 29, 1978, tendered for filing on behalf of its affiliates, Appalachian Power Company (Appalachian), Modification No. 9 dated October 1, 1978 to the Interconnection Agreement dated February 1, 1948 between Appalachian and Virginia Electric and Power Company (Appalachian Rate Schedule FPC No. 16).

AEP states that Section 1 of Modification 9 provides for an increase in the demand charge for Short Term Power from $0.45 to $0.70 per kilowatt per week and Section 3 provides for an increase in the demand charge for Limited Term power from $2.50 to $3.75 per kilowatt per month. AEP further states that Section 2 of Modification No. 9 provides for an increase in the transmission charge for third party Short Term Power transactions from $0.125 per kilowatt per week to $0.175 per kilowatt per week and Section 4 provides for an increase in the transmission charge for third party Limited Term transactions from $0.55 per kilowatt per month to $0.75 per kilowatt per month. AEP indicates that since the use of Short Term and Limited Term Power cannot be accurately estimated, it is impossible to estimate the increase in revenues resulting from this Modification for such period.

AEP requests an effective date of January 1, 1979, and therefore requests waiver of the Commission's notice requirements.

Copies of the filing were served upon Virginia Electric and Power Company, to Virginia State Corporation Commission and to the Public Service Commission of West Virginia, to AEP.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 29, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 79-2759 Filed 1-25-79; 8:45 am]

[6450-01-M]

[Docket No. ER79-126]

ARIZONA PUBLIC SERVICE CO.

Proposed Rate Change

JANUARY 17, 1979.

Take notice that Arizona Public Service Company (Arizona), on December 29, 1978, tendered for filing rate increases in its following FPC Electric Service Rate Schedules:

12—Electrical District No. 3
12—Electrical District No. 7
14—Maricopa County Municipal Water Conservation District No. 1
15—Roosevelt Irrigation District
16—Buckeye Water Conservation & Drainage District
17—Navopache Electric Co-operative, Inc.
34—Town of Wickenburg
35—Electrical District No. 6
50—Citizens Utilities Company
52—Papago Tribal Utility Authority
57—Arizona Electric Power Cooperative, Inc.
58—Wellton-Mohawk Irrigation & Drainage District
59—Arizona Power Authority
65—Colorado River Indian Irrigation Project
66—San Carlos Indiana Irrigation Project
68—Electrical District No. 1

Arizona states that the proposed rate change would increase revenue from jurisdictional sales and service by $5,165,063 based on the 12-month period ending February 28, 1979.

Arizona further states that the proposed changes are necessary to offset the rapidly escalating costs involved in rendering service under these schedules.

Arizona proposes to place the revised rate provisions into effect on March 1, 1979 as to all wholesale customers affected by this filing other than the following districts:

Electrical District No. 3
Electrical District No. 7
Maricopa County Municipal Water Conservation District No. 1
Roosevelt Irrigation District
Buckeye Water Conservation & Drainage District
Electrical District No. 6

Copies of the filing were served upon the Company's resale customers affected by the filing and the Arizona Corporation Commission, according to Arizona.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 29, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER78-489]

ARKANSAS MISSOURI POWER CO.

Informal Settlement Conference

JANUARY 19, 1979.

Please take notice that pursuant to Presiding Administrative Law Judge Bruce L. Birchman's Order of January 15, 1979, an informal settlement conference will be held at 10:00 A.M. on February 2, 1979 in room 3200, Federal Energy Regulatory Commission, 941 North Capitol Street, N.E., Washington, D.C.

The informal conference will be followed at 1:00 P.M. with a formal settlement conference before the Presiding Judge in a hearing room of the Federal Energy Regulatory Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER79-132]

CENTRAL MAINE POWER CO.

Notice of Filing

JANUARY 18, 1979.

Take notice that Central Maine Power Company (Central Maine) on January 5, 1979, tendered for filing a new service contract with Carrabassett Light & Power Company. Central Maine states that the instant contract replaces its previous contract with Carrabassett which expired by its own terms five (5) years from December 1, 1973.

Central Maine further states that all conditions of service in the instant

V 44/19

contract remain the same as in the previous contract.

Central Maine requests waiver of the Commission's notice requirements in order to allow an effective date of December 1, 1978.

According to Central Maine copies of the filing were served upon Carrabassett Light & Power Company and the Maine Public Utilities Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 2, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP79-23]

DISTRIGAS OF MASSACHUSETTS CORP.

Proposed Changes in FERC Gas Tariff

JANUARY 19, 1979.

Take notice that Distrigas of Massachusetts Corporation (DOMAC), on January 5, 1979, tendered for filing proposed changes in its FERC Gas Tariff, First Revised Volume No. 1. The proposed changes are based on the twelve month period ending September 30, 1978, as adjusted, and would increase jurisdictional terminaling service revenues by $4,442,258 per year above the level of the rate for terminaling service rate under the TS Rate Schedule in the Settlement Agreement of October 19, 1977, filed in Docket No. CP77-216 *et al.*

DOMAC has also tendered Alternate Revised Tariff Sheets which would provide for the recovery of demurrage charges estimated at $1,023,102 per year as an integral component of its TS Rate in lieu of recovery of the actual costs of demurrage in its Rate Schedules GS-1 and BO-1 for the sales of LNG.

DOMAC states that the proposed increased rate is necessary to permit it to recover its costs of service for the test period of twelve months ended September 30, 1978, as adjusted. The cost of service reflects increases in the unit cost of terminaling services.

Copies of the filing have been served upon DOMAC's customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C., 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 30, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Docket No. RP79-24]

DISTRIGAS CORP.

Filing of Revised Tariff Sheets

JANUARY 19, 1979.

Take notice that Distrigas Corporation (Distrigas) on January 5, 1979, tendered for filing:

Title Page to First Revised Volume NO. 1
First Revised Sheet No. 3
Second Revised Sheet No. 4
Second Revised Sheet No. 5
First Revised Sheet No. 6

to its FERC Gas Tariff. These revised sheets are submitted to clarify existing tariff provisions and make no substantive changes. Specifically the revisions relate to the incorporation into Section 2 language concerning charges to Distrigas of Massachusetts Corporation (DOMAC) presently contained in Section 5.

No change in rate is involved in these revised tariff sheets nor will Distrigas experience a change in sales level or revenues as a result of the proposed tariff changes.

Distrigas requests that the proposed tariff sheets become effective thirty days after filing or if suspension is necessary that such suspension be limited to one day.

A copy of this filing is being served upon all affected parties and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C., 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 30, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER79-145]

DUKE POWER CO.

Notice of Filing

JANUARY 19, 1979.

Take notice that Duke Power Company (Duke Power) on January 12, 1979, tendered for filing a proposed supplement to the Company's Electric Power Contract with the City of Shelby. Duke Power states that this contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FPC No. 235.

Duke Power further states that the Company's proposed contract supplement, made at the request of the customer and with agreement obtained from the customer, provides for the following increases in contract demand: Delivery Point No. 1, from 7,500 Kw to 9,500 Kw.

Duke Power indicates that this proposed supplement also includes an estimate of sales and revenue for twelve months immediately preceding and for the twelve months immediately succeeding the effective date. Duke Power proposes an effective date of February 19, 1979.

According to Duke Power Copies of this filing were mailed to the City of Shelby and the North Carolina Utilities Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 9, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER79-146]

DUKE POWER CO.

Filing

JANUARY 19, 1979.

Take notice that Duke Power Company (Duke Power) on January 12, 1979, tendered for filing a proposed supplement to the Company's Electric Power Contract with Rutherford Electric Membership Corporation. Duke Power states that this contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FPC No. 138.

Duke Power further states that the Company's contract supplement, made at the request of the customer and with agreement obtained from the customer, provides for a new point of delivery, Delivery Point No. 14 with a designated demand of 2,600 Kw.

Duke Power indicates that this supplement also includes an estimate of sales and revenues for twelve months immediately succeeding the effective date. Duke Power proposes an effective date of February 19, 1979.

According to Duke Power copies of this filing were mailed to Rutherford Electric Membership Corporation and the North Carolina Utilities Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR, 1.8, 1.10). All such petitions or protests should be filed on or before February 9, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 79-2745 Filed 1-25-79; 8:45 am]

[6450-01-M]

[Docket Nos. CP76-37 and RP77-97]

EL PASO NATURAL GAS CO.

Filing of Revised Rate Schedule

JANUARY 17, 1979.

Take notice that on January 4, 1979, El Paso Natural Gas Company (El Paso) tendered for filing the following original and revised sheets to its FERC GAS Tariff, Third Revised Volume No. 2:

First Revised Sheets Nos. 669 through 675
Original Sheet No. 675-A
First Revised Sheets Nos. 681 through 684
First Revised Sheet No. 686
First Revised Sheet No. 691

These tariff sheets constitute a notice of change in rate and certain other modifications to El Paso's special Rate Schedule T-4.

El Paso states that said Rate Schedule T-4 is comprised of the Gas Transportation Agreement dated May 9, 1975, ("Transportation Agreement") between El Paso and Southwest Gas Corporation ("Southwest"), providing for the best efforts transportation of natural gas for the account of Southwest by means of El Paso's interstate gas pipeline transmission system from a point of receipt near Ignacio, Colorado, to delivery points within the State of Arizona and on the Arizona-Nevada boundary near Big Bend, Arizona.[1] El Paso further states that on December 14, 1978, El Paso and Southwest have, by an Amendment to Gas Transportation Agreement dated December 14, 1978, ("Amendment") agreed to revise, among other things, the rate provisions contained in the currently effective Transportation Agreement in order to conform such rates to the applicable "Mainline Transmission Charges" appearing on El Paso's statement of rates sheet for transportation services rendered under executed transportation agreements included as special rate schedules in El Paso's Third Revised Volume No. 2 Tariff.

El Paso further states that it is currently charging 18.96 cents and 19.44 cents per Mcf for deliveries made pursuant to Rate Schedule T-4 at the Arizona-Nevada boundary and within the State of Arizona, respectively. El Paso proposes to reduce its transmission rates to 15.64 cents per Mcf for deliveries made at the Arizona-Nevada boundary, and to 15.12 cents per Mcf for deliveries made within the State of Arizona. El Paso states that this filing would change the currently effective rates charged to Southwest under this Rate Schedule to the applicable rates charged pursuant to Tariff Sheet No. 1-D.2, FERC Gas Tariff, Third Revised Volume No. 2.[2] The proposed effective date for these decreased rates is the earlier of the date of initial deliveries made pursuant to the above-

[1] Permanent authorization for the transportation arrangements provided for under special Rate Schedule T-4 was granted by Federal Power Commission order issued December 3, 1975, at Docket Nos. CP75-309 and CP76-37.

[2] El Paso now has pending before the Commission a general rate change filing in Docket No. RP79-12. This filing includes an increase applicable to Tariff Sheet No. 1-D.2. The Commission suspended this rate increase on December 28, 1978.

V 44/19

mentioned Amendment of December 14, 1979, or January 1, 1979.

The filing also proposes certain revisions to priorities assigned to the receipt and allocation of volumes received by El Paso from Southwest pursuant to presently effective or future agreements. In addition, El Paso proposes to change to a volumetric basis of measurement of gas transported from the currently effective Btu basis. Furthermore, El Paso requests waiver of all necessary Regulations so that the tendered filing sheets may be accepted for filing, and the rates may go into effect on the proposed date.

Any person desiring to be heard or to make any protest with reference to said tariff filing should, on or before January 30, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make any protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

*Indicates filing of petition to intervene.
**Indicates objections raised in addition to costs of conditioning gas.

The certificates were conditioned that if any of the costs associated with processing, dehydration, compression or other conditioning of the subject gas were included in the rates of the purchaser then the purchaser will be required to prove that these costs have not been compensated for in the applicable national ceiling rate. The orders also provide that this condition is subject to whatever action is taken by the Commission on rehearing in Docket Nos. CI77-412, CP77-558 and CP77-577.

The Commission finds: Participation in this proceeding by petitioners as listed above may be in the public interest.

The Commission orders: (A) Those parties listed above as petitioning for permission to intervene are permitted to intervene in the captioned proceeding subject to the rules and regulations of the Commission; *Provided, however,* that the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in the petitions to intervene; and *Provided, further,* that the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order of the Commission entered in this docket.

(B) The aforelisted applications for rehearing of our orders as shown above are hereby granted solely for the purpose of affording further time for consideration. Since this order is not a final order on rehearing, no response to the order will be entertained by the Commission in accordance with the terms of § 1.34 of the Commission's Rules of Practice and Procedure.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 79-2772 Filed 1-25-79; 8:45 am]

[1]The petitions addressed by this order have been combined herein solely for administrative conveniences. The dockets have not been combined or consolidated by this order for any other purpose.

[Docket No. RP78-76]

GAS RESEARCH INSTITUTE

Gas Research Institute Adjustment

JANUARY 18, 1979.

Take notice that on January 8, 1979, Natural Gas Pipeline Company of America (Natural) refiled under Docket No. RP78-76 proof that certain AGA research project costs have been removed from its Base Rates. Accordingly, under a concurrent filing of this same date, Natural has refiled in its pending rate proceeding, Docket No. RP78-78, Base Rates to be effective January 1, 1979, to give effect to the elimination of the AGA research project costs.

Natural states that it has requested acceptance of the tariff sheets under its concurrent filing in Docket No. RP78-78 incorporating the lower Base Rates as well as the proposed GRI surcharge of 3.5 mills per Mcf. Natural states this procedure has been followed in order to avoid filing duplicate sets of tariff sheets both to be effective January 1, 1979, with both sets reflecting the same rate levels.

Natural also requested waiver of any Commission regulations and orders to the extent necessary to allow the procedures used by it in the two interrelated filings and to allow the refiled tariff sheets in Docket No. RP78-78 to be made effective as of January 1, 1979.

Copies of Natural's filing and tariff sheets have been mailed to Natural's jurisdictional customers and interested state agencies.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C., 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 2, 1979.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Docket No. ER79-131]

GEORGIA POWER CO.

Proposed Tariff Change

JANUARY 18, 1979.

Take notice that Georgia Power Company (Georgia Power), on January 4, 1979, tendered for filing a new Interchange Agreement with Tennessee Valley Authority (TVA), replacing Georgia Power's FERC Rate Schedule No. 704. Georgia Power states that Rate Schedule No. 704 expired on October 31, 1978, and the new agreement will provide for the continued use of Georgia Power facilities to transmit TVA power to TVA customers in north Georgia.

Georgia Power further states that pursuant to the agreement, TVA will make a monthly facilities charge which is a function of Georgia Power's transmission carrying charges and Georgia Power's investment in transmission facilities utilized to serve TVA's customers.

Georgia Power proposes an effective date of November 1, 1978, and therefore requests waiver of the Commission's notice requirements.

Georgia Power indicates that copies of this filing have been served upon TVA.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 2, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Docket No. CP79-141]

GREAT LAKES GAS TRANSMISSION CO.

Application

JANUARY 18, 1979.

Take notice that on January 2, 1979, Great Lakes Gas Transmission Company (Applicant), 2100 Buhl Building, Detroit, Michigan 49226, filed in Docket No. CP79-141 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of 6,400 Mcf of natural gas per day to three of its existing customers on a *pro rata* firm basis, under its presently effective Rate Schedule CQ as follows:

[Mcf at 14.73 p.s.i.a.]

Customer	Present Contract Quantity	Proposed Increase in Contract Quantity	Proposed Total Contract Quantity
Natural Gas Pipeline Company of America	155,000	4,409	159,409
Michigan Consolidated Gas Company	57,000	1,621	58,621
Michigan Wisconsin Pipe Line Company	13,000	370	13,370

Applicant's proposals are more fully set forth in the application on file with the Commission and open to public inspection.

The application states that the gas required to render the additional sales is proposed to be imported by Applicant from TransCanada PipeLine Limited (TransCanada) in Docket No. CP79-142. Applicant states that in April 1978 TransCanada advised Applicant that its Alberta supplies would be extracting more of the heavier hydrocarbons from the gas delivered to TransCanada and subsequently sold to Applicant and that this would cause the heating value of the gas to drop to a level below 1,000 Btu's per cubic foot. In view of this, Applicant indicates that it has executed an amendatory agreement dated November 1, 1978, with TransCanada to provide for increased imports of 6,400 Mcf of natural gas per day to make up for expected Btu deficiencies below 1,000 Btu per cubic foot.

Applicant indicates that its other three customers, Northern, operating as Peoples Natural Gas Division, Inter-City Gas Limited and Michigan Power Company, which buy approximately 8.4 percent of the total volumes sold by Applicant to its existing customer, stated that they did not wish to purchase their *pro rata* share, and that their share was, therefore, reallocated back to Natural, Michigan Consolidated and Michigan Wisconsin.

It is stated that Applicant would render the sales at existing delivery points through the use of existing facilities. It is further stated that proposed sales would permit three of Applicant's existing customers to augment their gas supplies to offset reductions in the heat content of the natural gas delivered to them by Applicant. All of these customers have indicated that they intend to use these volumes in their existing market areas, it is said.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 9, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no peti-

JAN 26 1979 UMI

V 44/19

tion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Docket No. CP71-223]

GREAT LAKES GAS TRANSMISSION CO.

Petition to Amend

JANUARY 17, 1979.

Take notice that on January 3, 1979, Great Lakes Gas Transmission Company (Petitioner), 2100 Buhl Building, Detroit, Michigan 48226, filed in Docket No. CP71-223 a petition to amend the order of June 1, 1971, issued in the instant docket (45 FPC 1037)[1] pursuant to Section 3 of the Natural Gas Act so as to authorize the importation of 1,300,000 Mcf of natural gas annually from Canada from TransCanada PipeLines Limited (TransCanada) for resale in the United States, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner requests authorization to import from TransCanada for resale in the United States 1,300,000 Mcf of natural gas annually, which gas has been previously authorized to be imported for compressor fuel or other company use, but which is not now required for such uses as a result of the conservation of gas resulting from loop pipeline installed by Great Lakes pursuant to authorization granted it in Docket No. CP77-502. This looping is expected to reduce the amount of fuel gas required by the company in rendering its transportation and sales services.

Petitioner indicates that it would receive the imported gas from TransCanada at the existing point of interconnection between the two systems at the international boundary near Emerson, Manitoba. It is further indicated that pursuant to an application filed in Docket No. CP79-144, Petitioner proposes to sell the gas sought herein to be imported to Natural Gas Pipeline Company of America and Michigan Consolidated Gas Company pursuant to its Rate Schedule CQ.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before February 9, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 79-2766 Filed 1-25-79; 8:45 am]

[6450-01-M]

[Docket No. CP79-142]

GREAT LAKES GAS TRANSMISSION CO.

Application

JANUARY 18, 1979.

Take notice that on January 2, 1978, Great Lakes Gas Transmission Company (Applicant), 2100 Buhl Building, Detroit, Michigan 48226, filed in Docket No. CP79-142 an application pursuant to Section 3 of the Natural Gas Act for authorization to import an additional 6,400 Mcf of natural gas per day from TransCanada PipeLines Limited (TransCanada), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests authorization to import an additional 6,400 Mcf of natural gas per day at a point on the United States-Canadian border near Emerson, Manitoba, where Applicant's system presently interconnects with the facilities of TransCanada. It is stated that such additional volumes would be purchased from TransCanada for resale in the United States and are intended to offset a reduction in the heating content of natural gas presently being imported. Applicant indicates that in April 1978, TransCanada advised that its Alberta supplier would be extracting more of the heavier hydrocarbons from the gas which would cause its heating value to drop to a level below 1,000 Btu's per cubic foot. This level is currently approximately 995 Btu's per cubic foot and is expected to drop to 985 Btu's per cubic foot in the fall of 1979, it is said.

Applicant indicates that in order to effect the sale and importation of the additional quantity of gas it and TransCanada have executed an amending agreement, dated November 1, 1978, to their gas purchase contract No1. 1 of July 14, 1967, to increase the contract quantity that may be purchased under that agreement from 87,600 Mcf per day to 94,000 Mcf per day. Applicant further indicates that the amending agreement also provides for a Btu adjustment in the event the border price is not set by the National Energy Board of Canada (NEB) on the basis of the total heating value of the gas delivered. The present border price ($2.16 U.S. per million Btu) is set by the NEB on the basis of the heating value of the gas and, therefore, would reflect any decrease in Btu's delivered, it is indicated.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 9, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc 79-2748 Filed 1-25-79; 8:45 am]

[6450-01-M]

[Docket No. CP79-144]

GREAT LAKES GAS TRANSMISSION CO.

Application

JANUARY 18, 1979.

Take notice that on January 3, 1979, Great Lakes Gas Transmission Company (Applicant), 2100 Buhl Building, Detroit, Michigan 48226, filed in Docket No. CP79-144 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of 1,300,000 Mcf of natural gas per year to Natural Gas Pipeline Company of America (Natural) and Michigan Consolidated Gas Company (Michigan Consolidated), two of Applicant existing customers, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests authorization to sell 2,604 Mcf per day of natural gas to Natural and 957 Mcf per day of natural gas per year to Michigan Consolidated pursuant to its Rate Schedule CQ. It is indicated that pursuant to an amendment filed in Docket No. CP71-223, Applicant proposes to import the gas proposed herein to be sold to Michigan Consolidated and Natural from TransCanada PipeLine Limited (TransCanada), which gas has been previously authorized to be imported for compressor fuel or other company use. Applicant states that the proposed volumes of gas to be sold are not expected to be required for such uses as a result of the installation of loop pipeline on Applicant's system as authorized in Docket No. CP77-502.

Applicant states that it would import the gas at an existing interconnection with TransCanada at Emerson, Manitoba, and that the gas would be delivered to the customers at the existing delivery points at which the gas is being currently delivered by Applicant to Natural and Michigan Consolidated.

It is indicated that Applicant has entered into new service agreements dated December 20, 1978, with Natural and Michigan Consolidated, which agreements increased the contract quantity under the existing service agreements. It is asserted that Natural and Michigan Consolidated have advised Applicant that this gas would form a part of their base supply and no new market would be served by this gas.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 9, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 79-2749 Filed 1-25-79; 8:45 am]

[6450-01-M]

[Docket No. CI64-26]

GULF OIL CORP.

Order Granting Notice, Directing Filings, and Setting Certain Issues for Hearing

JANUARY 17, 1979.

On October 15, 1976, the Commission[1] issued Opinion No. 780[2] in the captioned docket, ordering Gulf Oil Corporation (Gulf) to deliver gas to Texas Eastern Transmission Corporation (TETCO) "at a rate of 625 MMcf per day beginning on December 15, 1976 * * *." (Order at 18).

Ordering Paragraph (B) of that opinion required Gulf to file a computation of refunds due to TETCO's ratepayers for past underdeliveries of Gulf. Pursuant to this paragraph (B), Gulf filed a computation of refunds on December 15, 1976.[3]

Ordering Paragraph (E) required TETCO to file a plan for the flow-through to its jurisdictional customers of the monies Gulf must refund. This flow-through plan was to include "the amount payable to each jurisdictional customer, the basis used to compute the amount payable, and the periods involved." (Order at 19).

The Commission issued Opinion No. 780-A[4] on December 9, 1976. Gulf, thereafter filed a petition for a stay of the Commission orders in the Third Circuit Court of Appeals, and the Court issued a "Temporary Stay" on December 15, 1976 and a "Stay Pending Review" of the Commission's Opinions and Orders on December 22, 1976.[5]

The stay of the Commission's Orders was lifted February 24, 1978 effective upon the entering of the judgment by the Third Circuit following the Supreme Court's Denial of Gulf's Petition for Writ of Certiorari on February 21, 1978.

TETCO filed its "Plan for Flow-Through and Recoupment of Refunds" on June 22, 1978 pursuant to Ordering Paragraph (E) of Opinion No. 780. TETCO asserted that it had "surveyed its customers and the relevant State Commissions as ordered by the Commission. It appears," continued TETCO, "that a substantial majority of Texas Eastern's customers would prefer that the refunds be placed in escrow, with the proceeds from investment from such refund monies to be paid to the customers. In accordance with the desire of such customers, Texas Eastern submits the following Refund Flow-Through Plan." (Plan at 2).

Gulf, on July 24, 1978, filed a letter in response to TETCO's Refund Flow-Through Plan which advised the Commission that it reserved all of its rights under Opinion No. 780-A "with respect to the entitlement of Texas Eastern's customers to the refund and as to the amount of the refund which should be remitted to Gulf."

By letter of May 3, 1978 Gulf filed a "Supplemental Statement Reflecting Refund and Interest". In a June 16, 1978 letter, Gulf filed a "Revised Supplemental Statement Reflecting Refund And Interest" and Gulf, by letter of July 14, 1978 filed its third "Revised Supplemental Statement Reflecting Refund And Interest" pursuant to Ordering Paragraph (B) of Opinion No. 780. On August 21, 1978, Gulf filed its "Fourth Supplemental Statement" Reflecting Refund And Interest to July 1, 1978. Gulf filed its Fifth and Sixth Supplemental Statements, revising earlier refund calculations, by letters dated September 14 and October 11, 1978 respectively. In the October 11, 1978 letter, Gulf now

[1] This proceeding was commenced before the FPC. By joint regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the FERC.

[1] This proceeding was commenced before the FPC. By the joint regulation of October 1, 1977, (10 CFR 1000.1), it was transferred to the FERC. The term "Commission", when used in the context of action taken prior to October 1, 1977, refers to the FPC; when used otherwise, the reference is to the FERC.

[2] *Opinion And Order On Deliveries Of Gas Under Certificate And Warranty Contract*, Docket No. CI64-26.

[3] Gulf's December 15, 1976 filing included a Schedule (B) and Schedule (C) which included therein *force majeure* volumes of gas Gulf estimated was not delivered due to the lack of OCS lease sales during the years 1962-1972. Gulf's argument was rejected by the Court of Appeals on review of the Commission's Opinion Nos. 780 and 780-A and is moot.

[4] *Opinion And Order Denying Rehearing In Part*, Docket No. CI64-26, issued December 9, 1976.

[5] *Gulf Oil Corp.* v. *FPC*, No. 76-2596. The Court affirmed the Commission's Orders on September 7, 1977, 563 F.2d 588 (CA-3, 1977) *cert. denied* February 21, 1978, 46 USLW 3526.

JAN 26 1979 UMI

V 44 19 JA 26 79 UMI

estimates its refund liability for the period July 31, 1971 thru July 31, 1978 at $80,899,539.33 of principal and $19,786,317.96 of "interest".

Ordering Paragraph (F) of Opinion No. 780 requires Gulf to file monthly reports of its deliveries to TETCO. Pursuant to an understanding between Staff and Gulf, as set forth in a January 26, 1977 letter to Mr. Carroll L. Gilliam, Esquire (Gulf's counsel) from Mr. Allan A. Tuttle, Esquire (the then Commission's Solicitor), Gulf has filed monthly reports pursuant to Ordering Paragraph (F) during the pendancy of judicial review.[4]

By letter dated March 23, 1978 Staff requested Gulf to explain, in detail, how the company arrived at the monthly *force majeure* volumes as set forth in its "computation of refund" filings, as well as included in its monthly "reports of deliveries". Gulf responded to Staff's request in a April 12, 1978 letter.

The Public Service Commission of the State of New York (New York) filed a "Motion for Prompt Action On Plan For Flow-Through And Recoupment of Refunds" on June 28, 1978. New York requests the Commission to take prompt action to "effectuate Opinion No. 780 by directing Gulf to pay Texas Eastern for the account of its customers at least $100,000,000 of the refunds and interest presently due, and either approve the Texas Eastern escrow plan for flow through and recoupment of the Gulf refunds, or establish an interim mechanism which will provide full protection to Texas Eastern customers pending determination of an appropriate flow through plan". (Motion at 3). On August 2, 1978, Gulf filed a response in opposition to New York's June 28, 1978 Motion. Gulf stated that New York's request of the Commission to direct Gulf to make an immediate payment to TETCO of at least $100,000,000 "would conflict with Ordering Paragraph (B) of Opinion No. 780, which states in pertinent part, 'Gulf shall make the required refund to Texas Eastern within 30 days of Commission approval of Gulf's computation of refund.' ".

On October 19, 1978, New York filed a letter with the Commission asking that its June 28, 1978 Motion be acted upon expeditiously. New York reiterated its request that the Commission order Gulf to make "such refunds as its filings purport to show are due now . . . pending final Commission action on the other issues raised by the Gulf filings including the propriety of its huge *force majeure* claims." (Letter at 2).

[4]By letter filed September 28, 1978, Gulf stated that for August, 1978 its average daily deliveries to TETCO were 738,886 Mcf and, in addition, it had average daily *force majeure* volumes of 101,523 Mcf.

There are a number of issues which remain to be resolved in this docketed proceeding. Namely, (1) are the volumes of *force majeure* shown in the aforementioned Gulf filings accurate and reasonable and should any *force majeure* be authorized in a warranty sale; (2) are the computations of refunds, both principal and interest, made by Gulf correct; (3) what are the specific terms of the "Escrow Agreement" proposed by TETCO, including, *inter alia*, the interest, net of expenses, offered by the bank on the principal sums deposited; (4) to which of TETCO's jurisdictional customers, and in what percentages of the whole, will the net proceeds of the Escrow Account be distributed as proposed in TETCO's "Refund Flow-Through Plan" and (5) have the affected TETCO customers and pertinent State Regulatory Commissions been apprised by such specifics, in accordance with Opinion No. 780, Ordering Paragraph (E)?

Ordering Paragraph (B) of Opinion No. 780 sets forth the Commission's directive concerning Gulf's calculation of refunds for the period of time from November 1, 1964 to December 1, 1976 in which Gulf failed to meet its certificated delivery obligations. Pursuant to this Ordering Paragraph, relating to a "locked-in" period of time, Gulf on December 15, 1976, filed the required refund report. The Third Circuit stayed the Commission from further action on the refund computations by Orders Granting Stays issued December 15 and 22, 1976 (*supra*). But for these stay orders the TETCO jurisdictional customers would have received the time value of the refunded monies from December 15, 1976, without obligation to repay Gulf such monies under the recoupment portion of the Commission's Order.

In these circumstances the jurisdictional customers of TETCO should receive the interest accrued on and after December 15, 1976 on the refunds owing as of that date, as if a stay had never been issued by the Court of Appeals. As the Commission said in Opinion No. 780-A, at 10, "Gulf's loss of the time value of the amounts refunded is simply a proper reflection of loss suffered by Texas. Eastern's customers from Gulf's failure to deliver its contract or certificate volumes of gas".

The interest accrued on and after December 15, 1976 on the refund amount determined to be due for underdeliveries from November 1, 1964 to December 1, 1976 is to be passed through to the jurisdictional customers of TETCO without obligation on their part to allow Gulf to "recoup" such interest pursuant to Ordering Paragraph (D) of Opinion No. 780 as amended by Opinion No. 780-A. Consequently, when Gulf is required to make refunds, the interest on such refunds for the period on and after December 15, 1976, will be flowed through to Texas Eastern's customers.

The Commission hereby notifies all concerned about the various filings made to date in this docketed proceeding and discussed above, and, with the exception of the *force majeure* issue discussed below, invites comments thereon from any interested person. The Commission wishes to call particular attention to the following matters: (a) New York's June 28, 1978 motion for immediate flow-through of uncontested refunds; (b) TETCO's escrow plan; (c) the alternative plan to flow-through the refund to the ultimate rate payer; (d) the disposition herein of the interest accrued on and after December 15, 1976, on Gulf's refunds.

Texas Eastern is directed to furnish the Commission with a copy of the proposed "Escrow Agreement", setting forth all the terms and conditions of such agreement. Texas, Eastern shall submit its detailed flow-through plan, designating each jurisdictional customer who will share in the net proceeds of the "Escrow Account" and the basis for the computation of each such customer's share. Texas Eastern shall file, under oath by a responsible company officer, a statement attesting to the correctness of the volumes of gas delivered to it by Gulf and included within the various Statements Reflecting Refund and Interest filed by Gulf on and after December 15, 1976. TETCO shall also file its comments as to the correctness of Gulf's computations of refunds and interest set forth in Gulf's December 15, 1976 Statement as revised. In addition, TETCO shall file an alternative plan for the distribution of the corpus of the refunds to its jurisdictional customers and the plan for Gulf's recoupment thereof. In this context, "corpus" is defined as the principal and interest calculated to be owed by Gulf for all underdeliveries from November 1, 1964 through December 1, 1976. Texas Eastern is directed to file all of the aforementioned documents and information within 30 days of the issue date of this order.

The Commission hereby sets the *force majeure* issues down to a hearing to determine whether the claimed *force majeure* volumes are accurate and reasonable and should be allowed. To this end, Gulf is directed to assist the Staff's review and examination by complying promptly with all relevant Staff requests for documents and or information. The Commission directs the parties to the hearing to elaborate their respective views on, among other related issues, whether any *force majeure* is appropriate in a warranty sale, and if so, whether the *force majeure* volumes asserted in Gulf's filings are

accurate and reasonable and should be allowed.

The Commission orders: (A) Pursuant to the Natural Gas Act, particularly Sections 4, 5, 7, 8, 10, 14 and 16 thereof, the rules and regulations thereunder, (18 CFR, Chapter I), the Natural Gas Policy Act of 1978, (Pub. L. 95-621, *et seq.*). and the regulations thereunder (18 CFR, Chapter I, Subchapters H and I), the Commission hereby orders a public hearing in the captioned docket, to be held in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C., 20426 for the purpose of hearing and disposition of the *force majeure* issues in this proceeding.

(B) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding, with authority to establish and change all procedural dates, and to rule on all motions (with the exception of motions to consolidate and sever, and motions to dismiss), as provided for in the Rules of Practice and Procedure.

(C) Gulf, and any intervenor supporting Gulf's position as to the accuracy and reasonableness of the asserted *force majeure* volumes as set forth in the filings by Gulf made pursuant to the Commission's Opinion Nos. 780 and 780-A, shall file its direct testimony and exhibits on the *force majeure* issues, including a full explanation of the factual basis and the rationale for each claim of the *force majeure*, on or before February 21, 1979. All testimony and exhibits shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all parties to this proceeding. Gulf shall file not only opinion evidence on the *force majeure* issues, but also sufficient underlying data so that the reasonableness and credibility of the opinion evidence can be weighed by application of traditional evidentiary standards.

(D) The Commission Staff shall examine, and copy where it feels appropriate, the records, accounts, memoranda and other documents of Gulf pertaining to the *force majeure* issues. To this end, Gulf is directed to assist the Staff's examination by promptly complying with all relevant requests for documents and/or information.

(E) The Presiding Judge shall preside at a prehearing conference to be held on April 4, 1979 at 10:00 A.M. E.S.T. in a hearing room at the address noted in Ordering Paragraph (A).

(F) Texas Eastern shall, within 30 days of the date of issuance of this order, file with the Commission, with copies to the Commission Staff, all parties of record in Docket No. CI64-26, all its jurisdictional customers and affected States' Regulatory Commissions, its proposed "Escrow Agreement" setting forth all its terms and conditions, which if duly executed and approved, would be the operative "Escrow Agreement" regarding the refund flow-through and recoupment provided for in Opinion Nos. 780 and 780-A. Texas Eastern shall simultaneously file its detailed flow-through plan, designating each jurisdictional customer by name, and its proposed respective percentage entitlement of the net proceeds of the "Escrow Account" by payment period, and all supporting work papers and schedules. Texas Eastern shall file, at the same time as the above-stated filings: (1) a statement under oath by a responsible company officer, attesting to the correctness of the volumes of gas delivered to it by Gulf and included within the various Statements Reflecting Refund and interest filed by Gulf on and after December 15, 1976. In the event Texas Eastern considers the stated volumes incorrect, it shall explain the basis for its disagreement; (2) a statement regarding the correctness of Gulf's computations of monetary refunds and interest as set forth in the aforementioned Gulf filings; (3) a plan for the distribution and recoupment of the entire principal and interest to its jurisdictional customers, of the refunds calculated to be owed for Gulf's under-deliveries during the period November 1, 1964 through December 1, 1976.

(G) Comments on any of the matters set forth in this order and the filings made pursuant thereto, except for those issues listed in Ordering Paragraphs A-E, above shall be filed with the Commission and its Staff at its offices at 825 North Capitol Street, N.E. Washington, D.C. 20426 with copies served on all parties, within 60 days of this order's issue date. Such comments will be considered in determining appropriate action, but those filing comments will not, as a result thereof, become parties to this proceeding.

(H) The Commission will defer action on New York's June 28, 1978 Motion until it has had an opportunity to review the comments filed herein.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER79-134]

IDAHO POWER CO.

Notice of Filing

JANUARY 17, 1979.

Take notice that Idaho Power on November 29, 1978, tendered for filing 1st Revised FERC Electric Tariff Volume No. 1 (Supersedes Original Volume No. 1). Also tendered were executed Service Agreements between the Company and several companies who have purchased or desire to purchase energy under the above referenced Tariff together with unexecuted Service Agreements among the Company and Southern California Edison Company and the Department of Water and Power, City of Los Angeles.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.W., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 9, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are filed with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER79-135]

THE IDAHO POWER CO.

Notice of Filing

JANUARY 17, 1979.

Take notice that on January 2, 1979, Idaho Power Company tendered for filing a summary of sales made under the Company's 1st Revised FERC Electric Tariff, Volume No. 1 (Supersedes Original Volume No. 1) during November, 1978, along with cost justification for the rate charged.

Any person desiring to be heard or to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.W., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 9, 1979. Protests will be considered by the

[Docket No. ER79-141]

KANSAS CITY POWER & LIGHT CO.

Notice of Filing

JANUARY 19, 1979.

Take notice that on January 10, 1979, Kansas City Power & Light Company (KCPL) tendered for filing Service Schedules C-MPA-4 for Firm Power Service under Municipal Participation Agreements between KCPL and the following Municipals:

Customer, Superseding and Replacing

Baldwin City, Kansas, Schedule C-MPA-3, Supplement No. 3 to KCPL's Rate Schedule FERC No. 85
Garnett, Kansas, Schedule C-MPA-3, Supplement No. 3 to KCPL's Rate Schedule FPC No. 78
Osawatomie, Kansas, Schedule C-MPA-2A, Supplement No. 3 to KCPL's Rate Schedule FPC No. 77
Carrollton, Missouri, Schedule C-MPA-3, Supplement No. 3 to KCPL's Rate Schedule No. 86

KCPL states that the purpose of this filing is to bring Firm Power rate levels for these customers up to those rate levels presently in effect for similar service as approved by FERC in Order dated June 2, 1978, in Docket No. ER77-522. KCPL proposes an effective date of May 1, 1978.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 12, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER79-136]

KANSAS GAS AND ELECTRIC CO.

Tariff Change

JANUARY 18, 1979.

Take notice that Kansas Gas and Electric Company (KG&E) on January 8, 1979, tendered for filing proposed changes in its FPC Electric Service Tariff No. 47. KG&E states that the proposed Amendment changes the minimum and maximum amounts of power at Delivery Points No. 5 and 6 of The Caney Valley Electric Cooperative Association, Inc.

KG&E further states that this Amendment is necessary because the Cooperative has exceeded its present demand amounts. KG&G proposes an effective date of December 11, 1978.

Copies of the filing were served upon The Caney Valley Electric Cooperative Association, Inc., according to KG&E.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 5, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ER79-137]

KANSAS GAS AND ELECTRIC CO.

Proposed Tariff Change

JANUARY 19, 1979.

Take notice that Kansas Gas and Electric Company (KG&E) on January 8, 1979, tendered for filing proposed changes in its FPC Electric Service Tariff No. 114. KG&E indicates that the proposed Amendatory Agreement changes the minimum and maximum amounts of power.

KG&E further indicates that the Amendatory Agreement is necessary because the present demands are being exceeded. KG&E proposes an effective date of November 27, 1978.

According to KG&E copies of this filing were served upon the City of Arma, Kansas.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before February 5, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KANSAS GAS & ELECTRIC CO.

Proposed Tariff Change

JANUARY 19, 1979.

Take notice that Kansas Gas and Electric Company (KG&E) on January 12, 1979, tendered for filing proposed changes in its FPC Electric Service Tariff No. 111. The proposed Amendatory Agreement changes the minimum and maximum amounts of power for the City of Haven, Kansas.

KG&E states the Amendatory Agreement is necessary because the present demands are being exceeded.

KG&E also states that copies of this filing were served on the City of Haven, Kansas.

KG&E proposes an effective date of December 18, 1978.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions of protests should be filed on or before February 9, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with

the Commission and are available for public inspection.

[6450-01-M]

[Docket Nos. CP78-174, CP78-216]

KANSAS-NEBRASKA NATURAL GAS CO., INC. AND MICHIGAN WISCONSIN PIPE LINE CO.

Findings and Order After Statutory Hearing Issuing Certificates of Public Convenience and Necessity and Granting Petition To Intervene

JANUARY 12, 1979.

On January 25, 1978, and on March 6, 1978, applications were filed by Kansas-Nebraska Natural Gas Company, Inc. (K-N),[1] and Michigan Wisconsin Pipe Line Company (M-W)[2] in Docket Nos. CP78-174 and CP78-216, respectively, pursuant to Section 7(c) of the Natural Gas Act for certificates of public convenience and necessity authorizing (1) M-W to sell gas to K-N for resale in interstate commerce; (2) the transportation of natural gas for M-W by K-N; (3) the transportation of natural gas by N-W for Monsanto Company (Monsanto); and (4) the construction and operation by M-W and K-N of the necessary facilities for the exchange of natural gas between them, all as more fully set forth in the applications.

Monsanto and M-W each own a 50 per cent interest in the Long Butte No. 1 well (Long Butte well) in Fremont County, Wyoming. Monsanto has sold its 50 per cent interest to M-W, retaining the right to repurchase 50 percent of the transferred volumes.[3]

The Long Butte well is distant from M-W's system, but close to K-N's. In order to make this gas available to M-W, M-W and K-N have agreed as follows:

(1) K-N will construct, pursuant to its budget-type authority, the necessary gathering facilities to connect the Long Butte well to its system. K-N will charge M-W a gathering fee of 7.37 cents per Mcf of gas.

(2) M-W will construct, with $371,650 of internally generated funds, the necessary facilities to connect the systems of M-W and K-N in Hemphill County, Texas (redelivery point).

(3) K-N will construct a $7,000 tap and valve at the redelivery point.

(4) K-N will gather, and deliver by exchange, up to 10,000 Mcf of natural gas from the Long Butte well to the redelivery point, at a charge of 18.74 cents per Mcf of gas redelivered.

(5) K-N will have the right to purchase up to 25 percent of the volumes transported for M-W, at the applicable FERC area rate.

Since the proposed sale by M-W, the proposed transportation and exchange, and the facilities necessary therefor involve the sale for resale and transportation of natural gas in interstate commerce, subject to the jurisdiction of the Commission, said sale and service, and the construction of the necessary facilities, are subject to the requirements of Subsections (c) and (e) of Section 7 of the Natural Gas Act.[4]

After due notice by publication in the FEDERAL REGISTER in Docket No. CP78-174, on February 2, 1978 (42 FR 5877), and in Docket No. CP78-216, on April 7, 1978 (43 FR 1207), a timely petition to intervene was filed in Docket No. CP78-174 by M-W in support of the application. No further petitions to intervene, notices of intervention,

[1] K-N, a Kansas corporation having its principal place of business in Phillipsburg, Kansas, is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by order of April 6, 1943, in Docket No. G-259 (3 FPC 966).

[2] M-W, a Delaware corporation having its principal place of business in Detroit, Michigan, is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by order of November 30, 1946, in Docket No. G-669 (5 FPC 953).

[3] M-W agreed to transport this repurchased gas for Monsanto, through M-W's system and the systems of unidentified pipeline companies, to Monsanto's plant in Decatur, Alabama. There can be no authorization of this transportation service without applications from the other pipeline companies involved; none have yet been filed.

[4] The sale by M-W to K-N is not a "first sale" as defined by Section (2X21) of the Natural Gas Policy Act because (a) the volumes sold are not solely attributable to M-W's production, and (b) the sale is for resale in interstate commerce, and thus the price of the gas is regulated pursuant to the Natural Gas Act. See Section 270.203 of the Interim Regulations Implementing the Natural Gas Policy Act.

JA 26 79 UMI

V 4 4 / 1 9

or protests to the granting of the application have been filed.

At a hearing held on January 10, 1979, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the applications and exhibits thereto, submitted in support of the authorizations sought herein, and upon consideration of the record,

The Commission finds:

(1) M-W and K-N are able and willing properly to do the acts and to perform the services proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules, and regulations of the Commission thereunder.

(2) The proposed sale, transportation and exchange of natural gas and the construction and operation of facilities necessary therefor are required by the public convenience and necessity and certificates therefor should be issued as hereinafter ordered and conditioned.

(3) Participation by M-W in Docket No. CP78-174 may be in the public interest.

The Commission orders:

(A) Upon the terms and conditions of this order, certificates of public convenience and necessity are issued in Docket Nos. CP78-174 and CP78-216, authorizing (1) M-W to sell natural gas to K-N; (2) K-N to transport by exchange natural gas for M-W; and (3) K-N and M-W to construct the necessary facilities, all as hereinbefore described and as more fully described in the applications.

(B) The certificates issued by paragraph (A) above and the rights granted thereunder are conditioned upon K-N's and M-W's compliance with all applicable Commission Regulations under the Natural Gas Act and particularly the general terms and conditions set forth in Part 154, and in paragraphs (a), (c)(3), (c)(4), (e), (f), and (g), of § 157.20 of such Regulations.

(C) M-W's proposal to transport gas for Monsanto is denied without prejudice.

(D) M-W and K-N shall complete construction of all facilities and commence the operation thereof within 12 months of the date of this order.

(E) M-W is permitted to intervene in Docket No. CP78-174 subject to the rules and regulations of the Commission; *Provided, however,* that participation of such intervener shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and, *Provided, further,* that the admission of such intervener will not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in this proceeding.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Doc. No. ER79-140]

METROPOLITAN EDISON CO.

Proposed Tariff Change

JANUARY 19, 1979.

Take notice that Metropolitan Edison Company, (Met-Ed) on January 6, 1979, tendered for filing Supplemental Letter Agreements dated October 30, 1978 to the Wheeling and Supplemental Power Agreement dated November 9, 1973 between Met-Ed (Rate Schedule FPC No. 26) and Allegheny Electric Cooperative, Inc.

Met-Ed states that the Supplemental Letter Agreements provided for the establishment of three additional delivery points for service to Adams Electric Cooperative, Inc., a member of Allegheny Electric Cooperative, Inc. Met-Ed further states that the addition of the new delivery points (a) Parkville, (b) Valley and (c) Orrtanna 115 KV will enable the Cooperative to transfer load to the new delivery points resulting in improved service capabilities to their customers.

Met-Ed proposes an effective date of February 1, 1979, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 5, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Doc. No. RP78-61]

MOUNTAIN FUEL RESOURCES, INC.

Tariff Sheet Filing

JANUARY 17, 1979.

Take notice that on January 8, 1979, Mountain Fuel Resources, Inc. (Resources) filed First Revised Sheet Nos. 4, 65, 66, 68, and 75 of its Rate Schedule No. T-1, FERC Gas Tariff, Original Volume No. 1. Resources states that the Rate Schedule No. T-1 covers transportation service available to any gas distribution system or gas pipeline company for the transportation of natural gas by Resources through its main pipeline system located in Colorado and Utah. Rocky Mountain Natural Gas Company is currently the only customer served under Rate Schedule No. T-1.

Resources states that the tariff sheets are filed in order to change the pressure base for Rate Schedule No. T-1 from 15.025 psia to 14.73 psia, to increase the transportation rate from that currently being charged to 17.79¢ per Mcf @ 14.73 psia, and to make some minor housekeeping-type modifications.

Copies of the filing have been served upon the customers of Resources, Rocky Mountain Natural Gas Company and Mountain Fuel Supply Company, and are available for public inspection at the general office of Resources, Suite 1450, 36 South State Street, Salt Lake City, Utah 84111.

Any person desiring to be heard and to make any protest with reference to said filing should on or before January 26, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it, but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing must file petitions to intervene in accordance with the Commission's Rules. Resources' tariff filing is on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Doc. No. RP79-19]

MOUNTAIN FUEL SUPPLY CO.

Order Accepting for Filing and Suspending and Setting for Hearing Proposed Rate Increase, Subject to Condition

JANUARY 17, 1979.

On December 18, 1979, Mountain Fuel Supply Company ("Mountain Fuel") tendered for filing a proposed rate increase in the transportation rate contained in its special Rate Schedule X-4. The increase would be from 4¢/mcf to 13.2¢/mcf at 14.73 psia. Rate Schedule X-4 is a Gas Purchase and Exchange Agreement between Mountain Fuel and Colorado Interstate Gas Company (CIG) providing for a sale priced at the appropriate national rate, of a portion of the gas produced by Mountain Fuel from the Spearhead Ranch area of Wyoming. The Rate change is based upon: (1) claimed increases in the investment costs, (2) reduced transportation volumes, and (3) a reduction in the estimated remaining life of the reservoir.

Mountain Fuel supported its $156,000 increase with only Statements L, M, & N even thought the increase does not qualify under § 154.63(b)(4) (Minor Rate Increase) of the Commission's Regulations. Inasmuch as the increase concerns the transportation rate portion of a single rate schedule, for purposes of the filing requirements we shall treat this filing as a minor rate increase and accept the supporting statements as adequate compliance with the Commission's filing requirements.

Based on a review of Mountain Fuel's filing herein, the Commission finds that the proposed higher rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, or otherwise unlawful. Accordingly, the Commission shall accept Mountain Fuel's proposed rate increase for filing, suspend its use for five months or until June 18, 1979, when it shall become eligible to become effective in the manner prescribed in Section 4 of the Natural Gas Act, subject to refund, and shall set the matter for hearing, as hereinafter conditioned.

Mountain Fuel's rates reflect corporate federal income taxes calculated at a 48% rate. However, since Congress recently adopted a tax measure which reduced the corporate federal income tax rate from 48% to 46% effective on January 1, 1978,[1] we shall require Mountain Fuel to file revised tariff sheets reflecting the lower rate (46%). However, Mountain Fuel shall not be permitted to make offsetting rate adjustments other than those made pursuant to Commission approved tracking provisions, those adjustments required by this order, and those required by other Commission orders.

The Commission orders: (A) Mountain Fuel's proposed rate increase in the transportation rate contained in Rate Schedule X-4 of its FERC Gas Tariff is hereby accepted for filing and suspended for five months, until June 18, 1979, at which time it may be made effective, subject to refund, upon motion filed by Mountain Fuel in accordance with the Natural Gas Act, as hereinafter conditioned.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 8, and 15 thereof, and the Commission's rules and regulations, a public hearing shall be held concerning the lawfulness of the increased rates proposed by Mountain Fuel.

(C) Staff shall serve its top sheets on or before April 20, 1979.

(D) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge for that purpose (18 C.F.R. 3.5(d)), shall convene a settlement conference in this proceeding to be held within 10 days after the service of a Statement of Position by the Staff in a hearing or conference room of the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. The Presiding Administrative Law Judge is authorized to establish such further procedural dates as may be necessary and to rule upon all motions (except motions to consolidate, sever, or dismiss), as provided for in the rules of practice and procedure.

(E) Thirty days prior to the end of the suspension period prescribed in this order, Mountain Fuel shall file revised tariff sheets reflecting the 46% corporate federal income tax rate. However, Mountain Fuel shall not be permitted to make offsetting rate adjustments other than those made pursuant to Commission approved tracking provisions, those adjustments required by this order, and those required by other Commission orders.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Doc. No. R-406]

NATURAL GAS PIPELINE COMPANIES FERC GAS TARIFFS

Proposed Amendments to Purchased Gas Cost Adjustment Provisions

JANUARY 17, 1979.

Take notice that Eastern Shore Natural Gas Company (Eastern Shore) on January 5, 1979, tendered for filing First Revised Sheet No. 245 and First Revised Sheet No. 253 to its FERC Gas Tariff, Original Volume No. 1 to become effective January 1, 1979.

Eastern Shore states that the purpose of the filing is to revise Eastern Shore's FERC Gas Tariff in order to comply with the requirements prescribed in Commission Order No. 13 issued October 28, 1978 in Docket No. R-406. Sheet No. 245 reflects the prescribed tracking dates of March 1 and September 1 under Eastern Shore's changes in Rates to Reflect Curtailment Credits or Debits, and to provide that any rate adjustments to be effective subsequent to February 1, 1979 shall be filed to be effective on March 1 and September 1 of each year; provided however, that if an adjustment is filed to be effective March 1, 1979 the provision that adjustments shall be placed into effect no sooner than six months after the next previous adjustment shall not apply thereto. Sheet No. 252 provides for the principles of interperiod income tax allocation in the determination of carrying charges on balances in FERC Account No. 191—Unrecovered Purchased Gas Cost Account and to reflect the prescribed tracking dates of March 1 and September 1 under Eastern Shore's Deferred Gas Cost Adjustment.

The Company states that copies of the filing have been sent to each of its jurisdictional customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 26, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Doc. No. RP78-78]

NATURAL GAS PIPELINE CO. OF AMERICA

Proposed Change in FERC Gas Tariff

JANUARY 18, 1979.

Take notice that on January 8, 1979, Natural Gas Pipeline Company of

V 4 4 / 1 9 J A 2 6 7 9 UMI

America (Natural) submitted for filing as part of its FERC Gas Tariff the below listed tariff sheets to be effective January 1, 1979.

THIRD REVISED VOLUME NO. 1

Second Substitute Thirty-sixth Revised Sheet No. 5
Substitute Eleventh Revised Sheet No. 5A
Substitute Second Revised Sheet No. 5B

Natural states it has reduced its Base Rates from the level shown in its pending December 29, 1978 filing in Docket No. RP78-78 to reflect the elimination of certain American Gas Association research costs, as required in the Commission order issued on December 27, 1978 in Gas Research Institute, Docket No. RP78-76 (GRI Order). The cost of service supporting the revised Base Rates also reflects the adjustments made in Natural's December 29, 1978 compliance filing for the actual balance of advance payments as of November 30, 1978, the elimination of facilities not actually certificated and placed in service by November 30, 1978, and the reduction in the federal income tax rate from 48 percent to 46 percent.

Natural also states that this procedure is appropriate because it allows the lower tax rate to be reflected in rates currently without impairing Natural's refund obligation, from and after December 1, 1978, for all items other than federal income tax and it will also serve to reduce eventual refunds in this proceeding.

A concurrent filing under separate cover at Docket No. RP78-76 was submitted by Natural requesting that its proposed GRI surcharge be approved at the 3.5 mill per Mcf level. The Base Rates shown on this latter filing are at the levels proposed on the submitted tariff sheets.

Natural requested that the Commission's Regulations be waived to the extent necessary to permit the lower Base Rates to become effective January 1, 1979.

Copies of Natural's filing and tariff sheets together with supporting data have been mailed to Natural's jurisdictional customers, interested state commissions and all other parties in Docket No. RP78-78.

Any person wishing to do so may submit comments in writing concerning Natural's filing. All such comments should be submitted to the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C., 20426 on or before February 2, 1979.

KENNETH F. PLUMB,
Secretary.

NEW ENGLAND POWER CO.

Proposed Settlement Agreement

JANUARY 16, 1979.

Take notice that on January 5, 1979. New England Power Company (NEP) tendered for filing a proposed Settlement Agreement executed by NEP and its Municipal Customers. Copies of the Agreement, according to NEP, have been sent to Fitchburg Gas & Electric Light Company and the Village of Lyndonville, Vermont, the only other customers affected. NEP requests that the Commission act on the Settlement Agreement by February 1, 1979.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before January 24, 1979. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Doc. No. ER79-142]

NIAGARA MOHAWK POWER CORP.

Proposed Tariff Filing

JANUARY 19, 1979.

Take notice that Niagara Nohawk Power Corporation (Niagara), on January 9, 1979, tendered for filing as a proposed rate schedule, a transmission agreement between Niagara and Consolidated Edision Company of New York, Inc. (Con Edison), dated October 3, 1978.

The service to be rendered by Niagara provides for the delivery of pumping and generating energy in connection with Nonfirm Pumped Storage Energy Service provided to Con Edision by the Power Authority of the State of New York (PASNY) under PANSY's Service Tariff No. 3.

Transmission capacity to be made available by Niagara to Con Edison will be that amount scheduled on an hourly basis by Con Edision each day for the subsequent 24-hour period beginning at midnight.

Niagara asks for an effective date of December 18, 1978, and therefore requests a waiver of the notice requirements.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with paragraphs 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 9, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not service to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Docket No. CP78-237, Docket No. CP66-110, *et al.*]

NORTHERN NATURAL GAS CO. AND GREAT LAKES GAS TRANSMISSION CO.

Order Consolidating Applications, Granting Certain Interventions, Denying Certain Late Interventions, and Providing for Formal Hearing Upon Approval of Import Authorization

JANUARY 12, 1979.

On March 17, 1978, as supplemented on November 16, 1978, Northern Natural Gas Company (Northern) filed in Docket No. CP78-237 an application pursuant to Sections 3 and 7 of the Natural Gas Act for authorization to import synthetic natural gas (SNG) from Canada by displacement and for a certificate of public convenience and necessity authorizing Northern to receive and transport the imported volumes through its transmission system and for an order approving certain rate treatment. In conjunction with Northern's application, Great Lakes Gas Transmission Company (Great Lakes) on April 20, 1978, filed a petition to amend its authorizations in Docket Nos. CP66-110, *et al.*, to permit deliveries by means of displacement of the gas which Northern is proposing to import in Docket No. CP78-237. Northern's and Great Lakes' proposals are more fully set forth in their respective applications, as supplemented.

Northern and Great Lakes have also filed applications with the Economic Regulatory Administration (ERA) of the Department of Energy (DOE) for import authorizations pursuant to Section 3 of the Natural Gas Act. These applications were consolidated by ERA by order of June 29, 1978, in ERA Docket No. 78-002 NG, *et al.* The Administrator of ERA has been authorized to determine whether the proposed import will not be inconsistent with the public interest by Sections 301 and 402(f) of the Department of Energy Organization Act, Pub. L. 95-91, and DOE Delegation Order Nos. 0204-4 (42 FR 60726, November 29, 1977) and 0204-25 (43 FR 47772). Pursuant to Sections 3, 4, and 7 of the Natural Gas Act, Subsections 402(e) and (f) and Section 642 of the DOE Act, and DOE Delegation Order No. 0204-26 (October 17, 1978, 43 FR 47772), the Commission has jurisdiction over certain aspects of Northern's and Great Lakes' applications. As of the date of this order, neither ERA nor the Commission has rendered a decision on the subject applications.

Northern seeks authorization to import from Canada and to receive and transport in its system up to 75,000 Mcf of gas per day for five winter seasons (November 1 through March 31) with annual volumes not to exceed 10 Bcf. Deliveries would commence after receipt of all necessary regulatory approvals. Northern proposes to purchase this gas from Union Gas Limited (Union) of Chatham, Ontario, pursuant to a contract dated December 21, 1977. The gas Northern would purchase from Union would be the equivalent on an aggregate Btu basis of synthetic natural gas (SNG) which Union has contracted for and would receive from Petrosar Limited (Petrosar) at Corunna, Ontario, pursuant to a contract between Union and Petrosar dated November 20, 1974. The SNG is produced in a plant located near Sarnia, Ontario, using western Canadian crude oil as feedstock. The plant's capacity is 33,000 Mcf per day.

It is proposed that from April 1 through November 1 of each contract year, Union would store for Northern's account the total output of the Petrosar plant. During the winter period, Northern would nominate deliveries from Union of up to 75,000 Mcf per day, which would come from Petrosar's daily output and from SNG placed in storage. Northern would use these supplies to meet peak day requirements.

Union's gas would be delivered to Northern through arrangements with TransCanada PipeLines Limited (TransCanada) and Great Lakes. Great Lakes has an existing arrangement with TransCanada whereby TransCanada delivers gas to Great Lakes at the Minnesota-Manitoba border near Emerson, Manitoba, and Great Lakes transports the gas and redelivers it to TransCanada at the Michigan-Ontario border near St. Clair, Michigan. TransCanada transports and sells a portion of these redelivered volumes to Union at Dawn, Ontario. Great Lakes also transports gas for the account of Northern from the Emerson import point to interconnecting points with Northern at Carlton and Grand Rapids, Minnesota and Wakefield, Michigan. On days when Northern requests gas from Union, Great Lakes would reduce its deliveries to Union by an equivalent volume. Union would reduce the volumes of SNG held in storage for Northern's account, and would use this gas to serve its own market. Great Lakes would then deliver the additional volumes received from TransCanada (attributable to the SNG volumes) and deliver this gas to Northern at the three interconnection points with Northern, with Carlton as the primary delivery point.

Great Lakes has entered into an agreement with TransCanada whereby gas delivered to Northern under the Northern-Union agreement would for billing purposes be included as gas delivered by Great Lakes to TransCanada at St. Clair, Michigan under the transportation contract between Great Lakes and TransCanada dated September 12, 1967. Northern would not be charged by Great Lakes for the transportation service provided.

Pursuant to the contract between Northern and Union, Northern would pay Union a contract price which is based on a formula which does not have a cost of service derivation. The price for the SNG is related to the value of the various petrochemical products created by Petrosar at its plant and the plant's feedstock costs which, in turn, are related to the price of crude oil in Alberta. Northern would also pay a monthly demand charge and a commodity charge for the storage service.

Northern says that the total average incremental cost per Mcf of the subject gas (including storage) would be $3.86 in 1978-79, and would increase to $5.33 in 1982-83. On a rolled-in basis, the effect on Northern's annual system cost per Mcf of sales would be 4.26 cents in 1978-79, and would increase to 8.47 cents in 1982-83.

Northern contends that it needs the SNG to serve high-priority customers on its system. Northern asserts that without the SNG, it will need to curtail into priority categories 1, 2B, 2C, and 3 of its curtailment plan.[1]

Northern requests that it be permitted to recover the costs of the purchase of SNG on a rolled-in basis. In addition, Northern's proposed tariff provides that the costs of SNG may be included in its annual Purchased Gas Adjustment (PGA) filings. In its March 17, 1978, application, Northern also sought authority to include a surcharge in its 1978 PGA rate filing to be effective only during the year 1979 to recover the estimated cost of SNG to be incurred during November and December 1978. Northern asserted that the surcharge is required in order to avoid deferring until 1980 collection of an estimated $12.8 million in purchased gas costs.

In August 1978, the National Energy Board of Canada issued an export license to Union.

Northern's application and Great Lakes' petition to amend are companion filings for one project. We find that the expeditious management of these applications would be best served by consolidating them, and we so order.

---

[1] Northern's curtailment plan consists of the following priority categories:
Priority 1: Residential, small commercial and industrial requirements.
Priority 2: (a) Customer storage injection requirements.
(b) Firm industrial requirements for plant protection, feedstock and process needs.
(c) Commercial and industrial requirements 300 to 499 per day or less than 50,000 Mcf annually.
Priority 3: All commercial requirements 500 Mcf to 1499 Mcf per day and all industrial not specified in Priorities 1 through 10.
Priorities 4-11: Industrial requirements with alternate fuel capabilities.

V 4 4 / 19 JA 26 79 UMI

In Docket No. CP78-237, timely notices of intervention or petitions to intervene were filed by the following:

(1) Iowa Public Service Company
(2) Iowa Electric Light and Power Company
(3) Northwestern Public Service Company
(4) Northern Illinois Gas Company
(5) Terra Chemicals International, Inc.
(6) Northern Municipal Defense Group and Minnesota Municipal Utilities Association
(7) Iowa Power and Light Company
(8) Union Gas Limited
(9) Wisconsin Power and Light Company
(10) Wisconsin Gas Company
(11) Metropolitan Utilities District of Omaha
(12) Iowa-Illinois Gas and Electric Company
(13) Greeley Gas Company
(14) Nebraska natural Gas Company

Untimely notices of intervention or petitions to intervene were filed by the following:

(1) Northern States Power Company (Minnesota) and Northern States Power Company (Wisconsin)
(2) TransCanada PipeLines Limited
(3) Michigan Public Service Commission
(4) Minnesota Gas Company
(5) Public Service Commission of Wisconsin
(6) Kansas-Nebraska Natural Gas Company, Inc.
(7) Northern Central Public Service Company, Division of Donovan Companies, Inc.
(8) North Central Public Service Corporation
(9) Iowa Southern Utilities Company
(10) Columbia LNG Corporation

In Docket Nos. CP66-110, *et al.*, Union, TransCanada, and Wisconsin Gas Company filed timely petitions for leave to intervene.

Those interveners who filed timely petitions are granted leave to intervene. Of those interveners who filed petitions to intervene out-of-time, only Columbia LNG Corporation and TransCanada stated any justification for their late filings. Columbia LNG Corporation's and TransCanada's petitions to intervene, therefore, shall be granted; the others shall be denied. See *Trunkline Gas Co., et al.*, Docket No. CP78-386, order issued November 15, 1978. The notices of intervention of the Michigan Public Service Commission and the Public Service Commission of Wisconsin are also granted.

In Docket No. CP78-237, the Metropolitan Utilities District of Omaha (Omaha) filed a timely request for a formal hearing. On the basis of Northern's and Great Lakes' applications, Northern's responses to Staff deficiency letters, and Omaha's request for a formal hearing, we believe that the subject applications should be set for formal hearing on the following general issues:

(1) Do Northern's winter market requirements necessitate the purchase of this SNG?

(2) Are there less expensive sources of supply available to Northern to meet Northern's winter requirements?

(3) Should Northern receive PGA rate treatment for the cost of the SNG?

These issues are ones which the Commission normally addresses in determining whether to grant a certificate of public convenience and necessity under Section 7 of the Natural Gas Act. DOE Delegation Order No. 0204-26 specifies that all functions under Sections 4, 5, and 7 of the Natural Gas Act are to be exercised by the FERC, as well as certain other functions within the purview of Section 3 of the Natural Gas Act. Delegation Order No. 0204-25 delegates to the Administrator of the ERA the authority to determine whether the importation is not inconsistent with the public interest under Section 3 of the Natural Gas Act on the basis of the following considerations:

(1) The security of supply and effect on U.S. balance of payments;

(2) The price proposed to be charged at the point of importation;

(3) Consistency with duly promulgated and published regulations or statements of policy of the Department of Energy specifically applicable to imports of natural gas;

(4) National need for the natural gas to be imported;

(5) Such other matters within the scope of Section 3 of the Natural Gas Act as the Administrator shall find in the circumstances of a particular case to be appropriate for his determination, including: (A) Regional needs for the natural gas to be imported; (B) The eligibility of purchasers and participants and their respective shares.

In general, the delegation orders provide that ERA is to determine whether the proposed import is consistent with the national interest and the national and regional need for gas. The Commission is to determine whether the proposal serves the public convenience and necessity of the pipeline applicants, their customers, and the ultimate consumers of the proposed gas supply.

The delegation orders appear to contemplate that ERA would act on an import application prior to the commencement of any formal proceedings before the Commission. However, no specific procedures have been developed between the ERA staff and the FERC staff to process expeditiously matters within the scope of the delegation orders. In the matter before us, the Applicant filed simultaneously applications before ERA and the Commission almost nine months ago. As of the date of this order, neither ERA nor this Commission has taken formal action on the subject applications. The applications before us involve matters which, we now believe, will have to be set for formal hearing at this Commission if ERA approves the related applications presently before it. In order to put the parties to this proceeding, including the Commission staff, on notice that a formal hearing will, in all likelihood, be required on the subject applications if ERA approves the related import authorizations, the Commission hereby announces that it intends to issue an order specifying the issues to be set for hearing and the procedures to be followed, following any ERA approval in this matter. The Commission believes that this order will assist the parties in preparing for future Commission proceedings in the subject dockets and will expedite consideration of these matters by the Commission.

At this time, however, we can not set forth in a definitive fashion all the issues which may be the subject of a formal hearing. That can not be done until the Administrator of ERA issues his order, with any terms and conditions which he may attach. Under Delegation Order No. 0204-26, the Commission has the authority to issue orders granting import and certificate authorizations in a manner necessary or appropriate to implement the determinations made by the Administrator of ERA pursuant to Delegation Order No. 0204-25. The Commission may grant its import authorization only if it adopts the terms and conditions attached by the Administrator in his order granting import authorization. The Commission, however, may deny any application if the Commission determines that the application, as conditioned by the Administrator, is inconsistent with Sections 4, 5, or 7 of the Natural Gas Act or those portions of Section 3 which have delegated to the Commission by Delegation Order No. 0204-26.

The Commission finds: (1) It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that notice be given of the Commission's present intent to hold a public hearing on the matters involved and the issues presented as hereinbefore described and limited, as well as any other matters and issues which the Commission determines shall be the subject of public hearing in any future order following any approval by the Economic Regulatory Administration of the related application of Northern and Great Lakes presently before it.

(2) Participation in these proceedings by the listed timely intervenors may be in the public interest and permitting the filing of TransCanada's and Columbia LNG Corporation's late petitions to intervene and accepting the late-filed notices of intervention will not delay the proceedings and may be in the public interest.

(3) The public convenience and necessity as well as the expeditious management of these proceedings require the consolidation of Northern's application and Great Lakes' petition to amend.

The Commission orders: (A) The application filed in Docket No. CP78-237 by Northern and the petition to amend filed by Great Lakes in Docket Nos. CP66-110, et al., are hereby consolidated and shall be set for public hearing if ERA approves the related import applications in ERA Docket No. 78-002 NG, *et al.*, and if the Commission at that time believes a hearing is required.

(B) TransCanada, Columbia LNG Corporation, and those persons filing notices of intervention or timely petitions to intervene are permitted to intervene subject to the rules and regulations of the Commission: *Provided, however,* that participation of such interveners shall be limited to matters affecting asserted rights and interests as specifically set forth in the petitions to intervene; and *Provided, further,* that the admission of such interveners shall not be considered as recognition by the Commission that they might be aggrieved because of any order of the Commission entered in this proceeding.

(C) Those persons filing untimely petitions to intervene who offered no justification for their late filing are hereby denied leave to intervene.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 79-2774 Filed 1-25-79; 8:45 am]

[6450-01-M]

[Doc. No. CP79-133]

ONG WESTERN, INC.

Application

JANUARY 18, 1979.

Take notice that on December 20, 1978, ONG Western, Inc., 624 South Boston Avenue, Tulsa, Oklahoma (Applicant) filed an application in Docket No. CP78-133 pursuant to Section 7(c) of the Natural Gas Act and Section 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70) for a certificate of public convenience and necessity authorizing Applicant to sell natural gas to Natural Gas Pipeline Company of America (Natural), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it has agreed to sell to Natural for a term of 8 years such quantities of gas as Applicant may have available,[1] at the price of $2.0001 per Mcf of gas. Such sale is required by Natural to meet its emergency needs pursuant to Section 2.70 of the Commission's General Policy and Interpretations, it is asserted.

Applicant states that it gathers natural gas within the State of Oklahoma and sells such gas to its parent company, Oklahoma Natural Gas Company, and is exempt from the provisions of the Natural Gas Act and the regulations thereunder. Applicant requests that the requested authorization provide that:

(a) The Commission specifically waives its accounting and reporting requirements with respect to Applicant for the term of the authorization, provided Applicant reports the volumes of gas sold and the price paid for the gas.

(b) The facilities, transportation, and sales by suppliers of gas to Applicant, including but not limited to any producers, and all of the existing facilities, transportation of gas, and sales by Applicant with the exception of the proposed sales and the related interconnecting facilities shall remain exempt from Commission jurisdiction and their non-jurisdictional status shall not be affected by the authorization requested.

(c) Applicant is permitted and required to abandon the sales, transportation, and facilities referred to at the end of the eight-year term without further action by Applicant or the Commission, such condition being equally applicable to any suppliers of Applicant for the purpose of making the proposed sale.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 9, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee, on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 79-2754 Filed 1-25-79; 8:45 am]

[1] Estimated volumes would be 100,500 Mcf per day.

[6450-01-M]

[Doc. No. CP76-409]

PANHANDLE EASTERN PIPE LINE CO. AND TRUNKLINE GAS CO.

Petition To Amend

JANUARY 18, 1979.

Take notice that on December 20, 1978, Panhandle Eastern Pipe Line Company (Panhandle) and Trunkline Gas Company (Trunkline) (Petitioners), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP76-409 a petition to amend the order issued on November 1, 1976, in the instant docket pursuant to Section 7(c) of the Natural Gas Act and § 2.79 of the Commission's General Policy and Interpretations (18 CFR 2.79) to authorize Petitioner to transport for two years natural gas for Glass Containers Corporation (Glass), all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.[1]

Petitioners state that Glass has a continuing need for gas supplied pursuant to § 2.79 of the Commission's General Policy and Interpretations, and that to meet that need Glass has contracted with John O. Clay and Associates to purchase gas from a well in Caldwell Parish, Louisiana, at a rate of $2.075 per million Btu's. Petitioners request that their previous authorization be extended to allow them to receive, transport and deliver up to 660 Mcf per day on a firm basis and 440 Mcf of gas per day on best-efforts basis. It is stated that Trunkline would receive the gas from the wellhead through existing facilities, deliver it to Panhandle at an existing interconnection between their systems in Tuscola, Illinois, whereupon Panhandle would transport the gas to Citizens Gas and Coke Company for Glass' account at

[1] This proceeding was commenced before the FPC. By joint regulation of October 1, 1977 (10 CFR 1000.1, it was transferred to the Commission.

V 4 4 / 1 9

an interconnection between their systems in Marion County, Indiana. Glass would pay a monthly charge of $3,485 to Petitioners, to be adjusted up or down at a rate of 17.38 cents per Mcf, depending on the amount of gas transported above or below the firm transportation volumes. It is stated that Panhandle would reimburse Trunkline approximately 82.6 percent of the fees collected from Glass.

The petition indicates that Trunkline would construct a measuring station at the point of receipt in Caldwell Parish and that Glass would reimburse Trunkline for the cost of such facility.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before February 9, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Doc. No. CP75-163]

SOUTHERN NATURAL GAS CO.

Second Amendment to Application for Pipeline Certificate

JANUARY 18, 1979.

Take notice that on November 13, 1978, Southern Natural Gas Company (Applicant), filed in Docket No. CP75-163 a second Amendment to its application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities for the transportation of natural gas, all as more fully set forth in the amendment to application on file with the Commission and open to public inspection.

Applicant now proposes certain revisions in the facilities originally proposed in the subject docket, which will enable it to receive gas to be purchased or transported by it from South Marsh Island Blocks 268, 269, and 281, offshore Louisiana. Trunkline Gas Company will transport the gas from offshore to a point near Southern's Shadyside Compressor Station, St. Mary Parish, Louisiana. Applicant states that certain reductions in the facilities orginally proposed at the subject docket are necessary because of a decrease in the quantity of gas to be transported by Trunkline for the account of Applicant, such decrease being attributable to the fact that alternate arrangements have been made with respect to gas produced from Blocks 64, 74 and E/2 of 65, Eugene Island Area, offshore Louisiana, which Applicant had previously contemplated would be received and transported through the facilities proposed in this docket.

The revised facilities for which Applicant requests a certificate of public convenience and necessity by the amendment are approximately 0.96 miles of 18-inch pipeline, 1,800 horsepower compression and related facilities. The estimated cost of revised proposed facilities is $2,952,887, which Applicant states will be financed from funds on hand.

Applicant further requests authorization to relocate to Shadyside Compressor Station on a temporary basis 1,080 horsepower of existing compression located at Gwinville Compressor Station in Jefferson Davis County, Mississippi. Applicant states that the proposed temporary relocation is necessary to permit the early commencement of deliveries from South Marsh Island Blocks 268, 269 and 281 in accordance with Commission Opinion Nos. 10 and 10-A, prior to the date on which Applicant anticipates that the proposed permanent compression horsepower will be ready for service. Applicant estimates the cost of the proposed relocation to be $140,814, which cost includes the cost of returning the relocated compression to Gwinville Compressor Station. Applicant states that the proposed temporary relocation will not adversely affect the operation of Applicant's Gwinville Compressor Station.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before February 2, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining appropriate action to be taken but will not serve to make any protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this Application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion finds that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

SOUTH TEXAS NATURAL GAS GATHERING CO. AND COASTAL STATES GAS PRODUCING CO.

Informal Conference

JANUARY 18, 1979.

Take notice that an informal conference will be held on February 7, 1979, with respect to certain matters and problems that are the outgrowth of the applications and other related filings that have been submitted by the parties to the above-styled proceedings.

One of the main purposes of this conference is to enable the Commission Staff to make a current assessment and evaluation of the problems underlying these filings. It would be helpful to such an evaluation if the parties are able to state their present position relative to each of the above-styled proceedings at this conference and whether they are of the view that each proceeding is so related to the others that such proceedings should be consolidated for purposes of Commission action.

It further appears that the existence of a substantial imbalance in an exchange arrangement authorized by the Commission in the proceeding entitled *South Texas Natural Gas Company* in Doc. No. CP67-337 has to some degree delayed the expeditious determination of the other proceedings. It would further assist in the evaluation of the applications filed in the above-styled proceedings if South Texas Natural Gas Gathering Company and Trunkline Gas Company would be prepared to discuss at this conference proposals that they would deem acceptable providing for the elimination of this imbalance. The latter two companies would be further expected to indicate why they felt that their proposals were justified or warranted in view of all of the underlying facts and circumstances.

The above-noted conference will be held on February 7, 1979, in Room No. 8402, at the Offices of Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 at 10:00 a.m.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Doc. No. CP79-132]

TENNESSEE GAS PIPELINE CO., A DIVISION OF TENNECO INC. AND CONSOLIDATED GAS SUPPLY CORP.

Application

JANUARY 17, 1979.

Take notice that on December 20, 1978, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), P.O. Box 2511, Houston, Texas 77001, and Consolidated Gas Supply Corporation (Consolidated), 445 West Main Street, Clarksburg, West Virginia 26301, (Applicants) filed an application in Docket No. CP79-132 pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicants to add a proposed delivery point, to be paid for by Consolidated and constructed and operated by Tennessee, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicants propose for Tennessee to construct and operate, at an initial estimated cost of $92,200 to be borne by Consolidated, connecting and measuring facilities in Mercer County, Pennsylvania, as an additional delivery point to Consolidated in Tennessee's Northern Rate Zone. The proposed delivery point is stated to be capable of maximum daily deliveries of 7,000 Mcf of gas; these volumes would not increase the quantities of gas Tennessee has been previously authorized to deliver to Consolidated. The proposed connection is stated to be required in order to ensure continued service to The Peoples Natural Gas Company's customers.

Applicants further propose to amend their existing service agreement to substitute their previously certificated, jointly-owned storage pool meters at the Ellisburg Storage Pool in Potter County, Pennsylvania, as the primary CD-4 delivery point for sales by Tennessee to Consolidated in lieu of the Ellisburg Sales Delivery Point which is proposed to be retained in place as an emergency delivery point.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 9, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 79-2742 Filed 1-25-79; 8:45 am]

[6450-01-M]

[Docket No. CP79-143]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

JANUARY 18, 1979.

Take notice that on January 2, 1979, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP79-143 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 21,000 Mcf (14.73 psia) of natural gas per day on a firm basis for Florida Gas Transmission Company (Florida), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests authorization to transport up to 21,000 Mcf of natural gas per day for Florida pursuant to the terms of a gas transportation agreement dated September 11, 1978, between the two companies, which gas Florida has contracted to purchase from Shell Oil Company (Shell), Florida Gas Exploration Company (Florida Exploration), Barber Oil Exploration, Inc. (Barber) and Drillamex, Inc. (Drillamex) from Blocks 149 and 150, South Marsh Island Area (SMI), offshore Louisiana. Applicant indicates that it would receive the gas from Block 132, SMI and would transport and deliver thermally equivalent quantities of gas to Florida (less fuel and line loss make-up) at an existing point of interconnection between Applicant's Southeast Louisiana Gathering System and Florida's facility in St. Helena Parish, Louisiana.

Applicant further indicates that it was granted authorization in Docket No. CP77-453 to construct and operate an extension of its Southeast Louisiana Gathering System from Block 66, SMI to Block 106, SMI, and beyond to Blocks 130 and 132, SMI and Block 331, Vermilion Area, South Addition. Applicant states that the proposed pipeline facilities would be utilized to attach new offshore gas supplies for its system and to provide capacity for transportation services for others from the offshore producing areas that would be reached by the extension.

It is stated that Applicant would charge Florida for the firm transportation service an estimated initial monthly demand charge of $244,230, which demand charge is based on a contract demand quantity of 21,000 Mcf per day reflecting, in part, preliminary estimates of the cost of completing the facilities authorized in Docket No. CP77-453 and, prior to the initial service hereunder, will be adjusted to reflect the actual cost of such facilities. In addition, current estimates of projected daily quantities indicate compression would be required at Block 106, SMI; upon installation of such compression facility the monthly charge would be adjusted to reflect the actual cost of such facility and the remaining primary term of the transportation agreement, it is said.

Applicant states that in the event additional facilities are required to transport gas owned by Applicant and

JAN 26 1979 UMI

V 4 4 / 1 9 J A 2 6 7 9 UMI

others and to maintain capacity for the contract demand quantity for Florida, Florida has the option of (1) terminating the transportation service, (2) reducing the contract demand quantity to a level that will eliminate the need for installation of additional facilities (and the monthly demand charge shall be adjusted to reflect such reduction), or (3) notifying Applicant to install such additional facilities as may be required to maintain capacity for Florida's contract demand quantity. If Florida exercises the latter option then Applicant would, at its option, either install such facilities to be jointly owned by Applicant and Florida, whereupon Florida would reimburse Applicant for Florida's proportionate share of the cost of such facilities and the monthly demand charge would be adjusted to reflect transportation through Florida's proportionate share of such facilities; or Applicant would install such facilities to be solely owned by Applicant, whereupon the monthly demand charge would be adjusted to reflect such additional facilities, it is stated.

Applicant indicates that in order to provide for offshore compressor fuel and line loss make-up, it reserves the right to retain a portion of the quantities of gas received at Block 132, based upon a determination by Applicant that such quantities are warranted by operating conditions. To provide for onshore compressor fuel and line loss make-up, Applicant initially would retain 1.2 percent of the quantities of gas it received at Block 132, SMI, it is said. Applicant asserts that it reserves the right from time to time to change the offshore and onshore percentages for fuel and line loss make-up, based upon a determination by Applicant that such percentage change is warranted by operating conditions.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 9, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Docket No. ER79-117]

VIRGINIA ELECTRIC & POWER CO.

Filing

JANUARY 17, 1979.

Take notice that on December 26, 1978, Virginia Electric and Power Company filed proposed supplemental contracts to FERC Rate Schedules No. 84-40 and No. 84-41. The Shenandoah Valley Electric Cooperative has requested a change in delivery voltage from 23 kV to 115 kV at Sherando Delivery Point which resulted in a previous change in delivery point location.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 26, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[6450-01-M]

[Docket No. ER79-130]

VIRGINIA ELECTRIC & POWER CO.

JANUARY 18, 1979.

Take notice that on January 4, 1979, Virginia Electric and Power Company (VEPCO) tendered for filing a revised supplement to the contract between VEPCO and Prince William Electric Cooperative. VEPCO states that the revised contract supplement reflects changes due to a change in transformer capacity from 2.5 MVA to 11.2/14.0 MVA as set forth below:

Delivery Point	Present FERC No.	Proposed FERC No.	Item Corrected
Heflin	83-19	83-43	1, 5 (1), (3), 8, 10, 11,

VEPCO states that the revised contract supplement is intended to supersede the listed FERC Rate Schedule and requests that the revised supplement be allowed to become effective on September 15, 1978, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 2, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Doc. No. ER79-129]

WISCONSIN PUBLIC SERVICE CORP.

Notice of Filing

JANUARY 18, 1979.

Taken notice that on January 3, 1979, Wisconsin Public Service Corporation, (WPSC) tendered for filing an amendment to the "Partial Requirements Service Agreement" with Consolidated Water Power Company. WPSC states that this amendment will establish a new interconnection point.

WPSC proposes an effective date of October 1, 1978, and therefore requests waiver of the Commission's notice requirements.

Copies of this filing were served upon Consolidated Water Power Company, according to WPSC. Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 2, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Office of Environment

STUDY GROUP ON THE GLOBAL EFFECTS OF CARBON DIOXIDE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Study Group on the Global Effects of Carbon Dioxide will meet Saturday, February 10, 1979, at 8:30 a.m. in the Magnolia Room, Hilton Inn, Atlanta Airport, Atlanta, Georgia.

The purpose of the Study Group is to give advice to the Department of Energy in the development of its role in environmental research dealing with the global effects of increasing levels of carbon dioxide from fossil fuel combustion and related matters. The Group's guidance will be based on a thorough review of ongoing and planned national and international research activities in this area.

The tentative agenda is as follows:

1. Call to order.
2. Approval of Minutes of the previous meeting.
3. Report on Progress and Functions of DOE CO_2 Effects Division.
4. Future Role and Function of Study Group: (a) Policy Advice to Assistant Secretary; (b) Advice and Assistance to CO_2 Effects Division; and (c) Scientific Considerations and Evaluations.
5. Discussion of World Climate Conference.
6. Other Business.
7. Public Comment (10 minute rule).

Adjourn approximately 1:00 p.m.

The meeting is open to the public. The Chairperson of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee concerning items on the agenda will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements concerning items on the agenda should inform Georgia Hildreth, Director, Advisory Committee Management (202) 252-5187, at least 5 days prior to the meeting and reasonable provision will be made for their appearance on the agenda.

The minutes of the meeting will be available for public review and copying at the Freedom of Information Public Reading Room, Room GA-152, Forrestal Building, 1000 Independence Avenue SW., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. An Executive Summary of the meeting may be obtained by calling the Advisory Committee Management Office at the above number.

Issued at Washington, D.C. on January 18, 1979.

GEORGIA HILDRETH,
Director,
T3Advisory
Committee Management.

Office of Hearings and Appeals

CASES FILED WEEK OF DECEMBER 29 THROUGH JANUARY 5, 1979

Notice is hereby given that during the week of December 29, 1978 through January 5, 1979 the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under the DOE's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the DOE action sought in such cases may file with the DOE written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the date of publication of this Notice (January 26, 1979) or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 29461. January 19, 1979.

MELVIN GOLDSTEIN,
Director,
Office of Hearings and Appeals.

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS

[Week of December 29, 1978 through January 5, 1979]

Date	Name and location of applicant	Case No.	Type of Submission
Dec. 29, 1978	Gustafson Oil Company of California, Washington, D.C.	DEE-2106	Price Exception (Section 212.93). IF GRANTED: Gustafson Oil Company of California would receive retroactive exception relief from the provisions of 10 CFR 212.93, which would allow the company to increase its prices of residual fuel oil and diesel fuel during the period October 1973 through June 1976.
Dec. 29, 1978	Mohawk Petroleum Corporation, Inc., Los Angeles, California.	DEE-2105	Exception to the Entitlements Program. IF GRANTED: Mohawk Petroleum Corporation, Inc. would receive an exception from its obligation to purchase entitlements under the provisions of 10 CFR 211.67 to account for its crude oil receipts and runs to stills during its 1979 fiscal year.
Dec. 29, 1978	Schulze Processing Inc., Washington, D.C.	DEA-0274	Appeal of the October 1978 Entitlements Notice. IF GRANTED: The October 1978 Entitlements Notice would be amended with respect to Schulze Processing Inc.'s entitlement purchase obligations.

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS —Continued

Date	Name and location of applicant	Case No.	Type of Submission
Jan. 1, 1979	Pasco Petroleum Co., Inc., Kansas City, Missouri.	DSO-040 and DES-0140.	Request for Special Redress and Stay Request. IF GRANTED: The Office of Hearings and Appeals would review the denial by DOE Region IX of the Application to Quash a Subpoena submitted by Pasco Petroleum Co., Inc. A stay of the subpoena would be approved pending a determination of Pasco's Petition for Speical Redress Relief.
Jan. 2, 1979	Kernaghan's Service, Great Falls, Montana.	DEE-2109	Price Exception (Normal business practices—credit terms). IF GRANTED: Kernaghan's Service would be permitted to charge interest to his agricultural customers who purchase gasoline on long-term credit in an amount which covers the increased cost to the firm since the base period.
Jan. 2, 1979	Glenn Martin Heller, Boston, Massachusetts.	DRT-0167	Temporary Stay. IF GRANTED: Glenn Martin Heller would be granted a temporary stay of the Interim Remedial Order for Immediate Compliance issued to it on December 22, 1978 by DOE Region I.
Jan. 2, 1979	Dorothy Roberts, Las Vegas, Nevada	DFA-0275	Appeal of the Information Request Denials on Nov. 29, 1978 and Dec. 18, 1978. IF GRANTED: The DOE's November 29, 1978 and December 18, 1978. Information requests denials would be rescinded and Dorothy Roberts would receive access to documents relating to litigation.
Jan. 3, 1979	Charter Oil Company, Jacksonville, Florida.	DXE-2106	Exception to the Entitlements Program. IF GRANTED: Charter Oil Company would receive an exception to the provisions of 10 CFR 211.67 regarding its entitlement purchase obligations beyond February 28, 1979.
Jan. 4, 1979	Dome Petroleum Corporation, Washington, D.C.	DES-0141 and DST-0141.	Request for Stay and Request for Temporary Stay. IF GRANTED: Dome Petroleum Corporation would receive a stay of the provisions of a Decision and Order issued by the Economic Regulatory Administration of December 28, 1978, pending a final determination of an Exception Application and an Appeal of the Order which the firm intends to file.
Jan. 3, 1979	Energy Reserves Group, Wichita, Kansas	DEE-2107	Price Exception (Section 212.73). IF GRANTED: Energy Reserves Group would be permitted to sell the crude oil produced from North Bayou Coedris Field located in Concordia Parish, Louisiana, at upper tier ceiling prices.

CASES FILED WEEK OF JANUARY 5 THROUGH JANUARY 12, 1979

Notice is hereby given that during the week of January 5, 1979 through January 12, 1979 the appeals and application for exception or other relief in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under the DOE's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the DOE action sought in such cases may file with the DOE written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the date of publication of this Notice (January 26, 1979) or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 29461. January 19, 1979.

MELVIN GOLDSTEIN,
Director,
Office of Hearings and Appeals.

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS

(Week of January 5, 1979 through 12, 1979)

Date	Name and location of applicant	Case No.	Type of submission
Jan. 5, 1979	Little America Refining Company, Washington, D.C.	DXE-2110	Exception to the Entitlements Program. IF GRANTED: Little America Refining Company would receive an exception to the provisions of 10 CFR 211.67 regarding its entitlements purchase obligations.
Jan. 5, 1979	Tenneco Oil Company, Washington, D.C	DRD-0068	Motion for Discovery. IF GRANTED: Discovery would be granted Tenneco Oil Company with respect to the objections submitted in response to the Proposed Remedial Order (Case No. DRO-0069) issued on July 26, 1978.
Jan. 8, 1979	Bassett Oil and Equipment Co., Alexandria, Virginia.	DRA-0277	Appeal of Remedial Order. IF GRANTED: The September 19, 1978 Remedial Order issued to Bassett Oil and Equipment Company by the DOE Region III would be rescinded.

LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS—Continued

Date	Name and location of applicant	Case No.	Type of submission
Jan. 8, 1979	Continental Oil Company, Washington, D.C.	DEE-2085 and DST-2085.	Price Exception (211.10) and Stay Request. IF GRANTED: Continental Oil Co. would be granted an exception to the provisions of 10 CFR 211.10 in regard to the allocation fraction of kerosene jet fuel customers. A stay would be granted to the firm pending a final determination on the Application for Exception.
Jan. 8, 1979	Geronimo Oil Company, Houston, Texas	DEE-2111	Price Exception, (§ 212.73). IF GRANTED: Geronimo Oil Company would be permitted to sell the crude oil produced from the Northwest quarter of Section 72, located in San Patricio County, Texas, at upper tier ceiling prices.
Jan. 8, 1979	Glenn Martin Heller, Boston, Massachusetts.	DRS-0167	Request for Stay. IF GRANTED: Glenn Martin Heller would receive a stay of the provisions of an Interim Remedial Order for Immediate Compliance issued to the firm on December 22, 1978, by DOE Region I.
Jan. 8, 1979	Kirkwood Oil and Gas, Washington, D.C	DRA-0276	Appeal of a Revised Remedial Order. IF GRANTED: The DOE would review the revised Remedial Order and rescind the portion concerning the Rudnik No. 32-27 lease classified as a stripper well lease.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 1046-1]

RESOURCE CONSERVATION COMMITTEE

Open Meeting

The Resource Conservation Committee is the cabinet level interagency committee established by Section 8002(j) of the Resource Conservation and Recovery Act of 1976 (Public Law 94-580). The Committee is responsible for studying and making recommendations to the President and the Congress on a broad range of resource conservation policies. The Committee is charied by the Administrator of the Environmental Protection Agency and includes the Secretaries of Commerce, Labor, Interior, Treasury, and Energy; the Chairman of the Council on Environmental Quality and the Council of Economic Advisers; and the Director of the Office of Management and Budget.

The Committee will neet on January 31, 1979 to endorse findings and decide on recommendations concerning the following resource conservation initiatives:

a. Product Regulation.
b. Virgin Materials Extraction Taxes.
c. Subsidies for Resource Recovery.
d. National Solid Waste Disposal Charge.
e. Local User Fees for Solid Waste Management.
f. National Litter Tax.
g. Beverage Container Deposits.
h. Deposits and Bounties on Durable and Hazardous Goods.
i. Federal Tax Policy Affecting Resource Conservation.
j. Railroad Freight Rates for Secondary Materials.

A report of the Committee's findings and recommendations on these initiatives will be sent to the President and Congress in March 1979.

This meeting of the Committee will be held in Room 2010, New Executive Office Building, 17th Street, N.W., between Pennsylvania Avenue and H Street, Washington, D.C. beginning at 10:00 a.m. The public is invited to observe the procedures.

Dated: January 24, 1979.

BARBARA BLUM,
Deputy Administrator,
Environmental Protection Agency.

FEDERAL RESERVE SYSTEM

AMERICAN PIONEER LIFE INSURANCE CO.

Acquisition of Bank

American Pioneer Life Insurance Company, Truman, Arkansas has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to retain an additional 13.3 per cent of the voting shares of First National Bank of Poinsett County, Truman, Arkansas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than February 19, 1979. Any comment on an applications that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of act that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, January 18, 1979.

Griffith L. Garwood,
Deputy Secretary of the Board.

BANK HOLDING CO.

Proposed De Novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than February 21, 1979.

A. *Federal Reserve Bank of New York*, 33 Liberty Street, New York, New York 10045:

1. CITICORP, New York, New York (commerical lending and leasing activities; California, Arizona, Nevada): To engage, through its subsidiary, Citicorp (USA), Inc., in commercial lending for its own account (with the intention that Citibank, N.A., Citibank (New York State), N.A., and other commercial banks may participate in the loans); and leasing personal property or acting as agent, or broker advisor in leasing such property subject to the conditions of the Board's Regulation Y. These activities would be conducted from an office in Los Angeles, California, and the geographic areas to be served are Santa Barbara, Ventura, Kings, San Bernadino, Los Angeles, Orange, Riverside, Imperial, and San Diego Counties, California; Maricopa and Pima Counties, Arizona; and Clark County, Nevada.

2. CITICORP, New York, New York (financing and insurance activities; Oregon): To engage, through its subsidiary, Person-to-Person Financial Center, Inc., in making loans to individuals (for personal, family or household uses) and businesses to finance the purchase og mobile homes, modular units, or related manufactured housing, together with real property to which such housing will be permanently affixed; and the sale of life (singly or jointly with co-signers), accident and health (or to make contractual monthly payments of the credit transaction in the event of the obligor's disability), and property and casualty insurance (including liability coverage where such is the general practice), directly related to its extensions of credit. These activities would be conducted from an office in Portland, Oregon, and the geographic area to be served is Oregon.

B. *Federal Reserve Bank of Richmond*, 100 North Ninth Street, Richmond, Virginia 23261:

NCNB CORPORATION, Charlotte, North Carolina (financing and insurance activities; Alabama, Georgia): To engage, through its subsidiary, TransSouth Financial Corporation, in operating a finance company, including the extension of direct loans for consumer and other purposes, the discount of retail and installment notes or contracts, the purchase of recreational lot notes, the extension of direct loans to dealers for the financing of inventory (floor planning) and working capital purposes, and the purchase of personal property lease contracts; and acting as agent for the sale of life, accident and health, and physical damage insurance directly related to its extensions of credit. These activities would be conducted from offices in Alexander City, Auburn, Enterprise, Eufala, Greenville, Prattville, Talladega, and Troy, Alabama, and the geographic areas to be served are the counties in which those offices are located, portions of certain contiguous counties in Alabama, and the western section of Quitman County, Georgia.

C. *Federal Reserve Bank of Chicago*, 230 South LaSalle Street, Chicago, Illinois 60690:

ST. JOSEPH BANK AND TRUST COMPANY, and ST. JOSEPH AGENCY, INC., South Bend, Indiana (mortgage banking activities; Illinois): Through its subsidiary, St. Joseph Mortgage Co., Inc., to originate, acquire, sell, and service residential, commercial, and industrial mortgage loans. These activities would be conducted from an office in Olympia Fields, Illinois, and the geographic area to be served is within a 15-mile radius of that office.

D. *Federal Reserve Bank of Dallas*, 400 South Akard Street, Dallas, Texas 75222:

FIRST UNITED BANCORPORATION, INC., Fort Worth, Texas (financing activities; Texas): To make or acquire loans or extensions of credit, including issuing letters of credit and accepting drafts; loans such as would be made by a mortgage, finance, credit card, or factoring company; consumer credit loans; accounts receivable of a bank in connection with credit card purchases; loans secured by liens on improved real estate; construction loans; short-term commercial loans; loans to finance the acquisition or carrying of accounts receivable or inventory; retail installment paper originated by dealers or other sellers of goods or services purchased by a bank; certificates of deposit issued by a bank; mortgage warehousing loans; equipment financing loans; income-producing mineral interest loans; and repurchase agreements with financial institutions involving money-market or other investments in short-term securities either on a direct investment or repurchase basis. These activities would be conducted from an office in Ft. Worth, Texas, and the geographic area to be served is Tarrant County, Texas.

E. *Other Federal Reserve Banks:* None.

Board of Governors of the Federal Reserve System, January 22, 1979.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

CITIZENS BANKERS, INC.

Formation of Bank Holding Co.

Citizen Bankers, Inc., Baytown, Texas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Citizens Bank and Trust Company of Baytown, Texas, Baytown, Texas and 100 percent of the voting shares (less directors' qualifying shares) of Baytown State Bank, Baytown, Texas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than February 19, 1979. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, January 18, 1979.

FIRST PENNSYLVANIA CORP.

Proposed Acquisition of First Pennsylvania Corporation

First Pennsylvania Corporation, Philadelphia, Pennsylvania, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b) of the Board's Regulation Y (12 CFR 225.4(b), for permission to retain ownership of the shares of Vestaur Corporation, Philadelphia, Pennsylvania.

Applicant states that it will serve, through its subsidiary, as an investment adviser (1) as defined in section 2(a)(20) of the Investment Company Act of 1940, to an investment company registered under that act; and (2) to the extent of providing portfolio investment advice to any other person, and furnishing general economic information and advice, general economic statistical forecasting services, and industry studies. These activities would continue to be performed from offices of Applicant's subsidiary in Philadelphia, Pennsylvania, and San Francisco, California, and the geographic areas to be served are national (advisement-registered investment company) and principally California, Pennsylvania, New Jersey, Connecticut, Maryland, Delaware, Virginia, and North Carolina (other specified activities). Such activities have been specified by the Board in section 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4 (b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggreived by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Philadelphia.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 22, 1979.

Board of Governors of the Federal Reserve System, January 22, 1979.

These activities would be conducted from an office in Seekonk, Massachusetts, and the geographic areas to be served are Seekonk and the westerly portion of Bristol County, Massachusetts, and East Providence, Rhode Island.

B. *Federal Reserve Bank of New York*, 33 Liberty Street, New York, New York 10045:

CITICORP, New York, New York (financing and insurance activities; California): to engage, through its subsidiary, Citicrop Person-to-Person Financial Center, Inc., in making consumer installment personal loans; purchasing and servicing consumer installment sales finance contracts; making loans, such as 1-4 family unit mortgage loans, for the account of others; making loans to individuals and businesses secured by real and personal property, the proceeds of which may be for the other than personal, family, or household purposes; and selling life, accident and health, decreasing or level (for single payment loans) term life, and property and casualty insurance (including home and automobile liability coverage where such is the general practice) directly related to its extensions of credit. These activities would be conducted from offices in City of Industry and Sherman Oaks, California, and the geographic area to be served is the Los Angeles metropolitan area.

C. *Federal Reserve Bank of Richmond*, 100 North Ninth Street, Richmond, Virginia 23261:

UNION TRUST BANCORP, Baltimore, Maryland (consumer finance and insurance activities; Maryland): to engage, through its subsidiary, Union Home Loan Corporation, in making secondary mortgage loans secured in whole or part by mortgage, deed of trust, security agreement, or other lien on real estate; and acting as agent for the sale of credit life, accident and health insurance directly related to its extensions of credit. These activities would be conducted from an office in Salisbury, Maryland, and the geographic area to be served is Wicomico County, Maryland.

D. *Federal Reserve Bank of Chicago*, 230 South LaSalle Street, Chicago, Illinois 60690:

FINANCIAL SERVICES CORPORATION OF THE MIDWEST, Rock Island, Illinois (consumer finance and insurance activities, Illinois): to engage, through its subsidiary, The Money Shops, Inc., in making consumer installment personal loans, purchasing consumer installment sales finance contracts, and acting as agent for the sale of credit life, accident and health, and casualty insurance directly related to extensions of credit by Applicant's subsidiary. These activities would be conducted from an office in Morton, Illinois, and the geographic area to be served is within a radius of 25 miles from the central business district of that town.

V 4 4 / 1 9

E. *Federal Reserve Bank of St. Louis*, 411 Locust Street, St. Louis, Missouri 63166:

MERCANTILE BANCORPORATION, INC., St. Louis, Missouri (consumer finance and insurance activities; Washington): to engage, through its subsidiary, Franklin Finance Company, in making, acquiring, and servicing loans and other extensions of credit for personal, family, or household purposes, such as are made by a finance company; and acting as agent or broker for the sale of life, accident and health, and property damage insurance directly related to its extensions of credit. These activities would be conducted from an office at 19940 Ballinger Way, N.E., Seattle, Washington 98155, and the geographic areaa to be served is within a two-mile radius of that office.

F. *Federal Reserve Bank of Kansas City*, 925 Grand Avenue, Kansas City, Missouri 64198:

MISSOURI COUNTRY BANCSHARES, INC., Liberal, Missouri (insurance activities; Missouri): to act as agent or broker for the sale of property and casualty, life, and accident and health insurance directly related to extensions of credit by its subsidiary, Citizens Bank of Liberal, and in the sale of any insurance for that subsidiary. These activities would be conducted at the subsidiary bank's premises in Liberal, Missouri, and the geographic area to be served is Barton County, Missouri.

G. *Federal Reserve Bank of Dallas*, 400 South Akard Street, Dallas, Texas 75222:

FIRST SECURITY NATIONAL CORPORATION, Beaumont, Texas (data processing activities; Texas): to provide financially related data processing services primarily for financial institutions and to provide bookkeeping or other data processing services for the internal operations of Applicant and its subsidiaries. These activities would be conducted from an office in Bryan, Texas, and the geographic area to be served is within a 50-mile radius of that town.

H. *Other Federal Reserve Banks:* None.

Board of Governors of the Federal Reserve System, January 17, 1979.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

[FR Doc. 79-2728 Filed 1-25-79; 8:45 am]

[6210-01-M]

PRESQUE ISLE BANCORPORATION, INC.

Formation of Bank Holding Co.

Presque Isle Bancorporation, Inc., Rogers City, Michigan, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 80 per cent or more of the voting shares of Presque Isle Bank, Rogers City, Michigan. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than February 19, 1979. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, January 19, 1979.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Center for Disease Control

RADIO FREQUENCY AND MICROWAVE TERATOLOGY INVESTIGATIONS

Open Meeting

The following meeting will be convened by the National Institute for Occupational Safety and Health of the Center for Disease Control and will be open to the public for observation and participation, limited only by the space available:

Date: February 5, 1979.
Time: 9:00 a.m. to 4:30 p.m.
Place: Room 115, Robert A. Taft Laboratories, 4676 Columbia Parkway, Cincinnati, Ohio 45226.
Purpose: To discuss the details of research protocols concerning the reproductive hazards of radio frequency and microwave radiation in experimental animal investigations.
Additional information may be obtained from: Dr. David L. Conover, Division of Biomedical and Behavioral Science, National Institute for Occupational Safety and Health, 4676 Columbia Parkway, Cincinnati, Ohio 45226, Telephone: 513/684-8483.

Dated: January 16, 1979.

WILLIAM H. FOEGE,
Director,
Center for Disease Control.

[FR Doc. 79-2808 Filed 1-25-79; 8:45 am]

[4110-03-M]

Food and Drug Administration

[Docket No. 75N-0213; DESI 11556]

SULFINPYRAZONE

Drugs for Human Use; Drug Efficacy Study Implementation; Announcement

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces the results of the efficacy review of sulfinpyrazone and the conditions for marketing the drug for the indications for which it is classified as effective. The drug is effective for the treatment of intermittent and chronic gouty arthritis.

DATE: Supplements to approved NDA due on or before March 27, 1979.

ADDRESSES: Communications forwarded in response to this notice should be identified with the reference number DESI 11556, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

Supplements to full new drug applications (identify with NDA number): Division of Oncology and Radiopharmaceutical Drug Products (HFD-150), Bureau of Drugs.

Original abbreviated new drug applications and supplements thereto (identify as such): Division of Generic Drug Monographs (HFD-530), Bureau of Drugs.

Submissions of protocols and requests for information on conducting bioavailability tests: Division of Biopharmaceutics (HFD-520), Bureau of Drugs.

Requests for opinion of the applicability of this notice to a specific product: Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs.

Other communications regarding this notice Drug Efficacy Study Implementation Manager (HFD-501), Bureau of Drugs.

FOR FURTHER INFORMATION CONTACT:

Carol A. Kimbrough, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3650.

SUPPLEMENTARY INFORMATION: In a notice published in the FEDERAL REGISTER of July 9, 1966 (31 FR 9426), each holder of a new drug application that became effective prior to October 10, 1962, was requested to submit to the Food and Drug Administration (FDA) reports containing the best data available in support of the effectiveness of each such product for its claimed indications. That information was necessary to facilitate a determination by FDA, with the asistance of the National Academy of Sciences-National Research Council (NAS-NRC), whether each claim in the labeling is supported by substantial evidence of effectiveness as required by the Drug Amendments of 1962, Ciba-Geigy, the sponsor of the following drug product, did not submit such information and therefore the following drug product was not reviewed by NAS-NRC:

NDA 11-556; Anturane Tablets and Capsules, each containing sulfinpyrazone; Ciba-Geigy Corp., 556 Morris Ave., Summit, NJ 07901.

Another notice published in the FEDERAL REGISTER of November 19, 1975 (40 FR 53609), re-invited Ciba-Geigy, among other firms, to submit data on or before January 19, 1976. No new submission of data was made. FDA has reviewed, and found sufficient to establish effectiveness, the clinical studies in NDA 11-556 which pertain to the indications: for treatment of chronic gouty arthritis and, for intermittent gouty arthritis. Therefore, Anturane is classified effective for those indications, and may be marketed in accordance with the conditions set forth below.

Such a drug is regarded as a new drug (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such a drug. An approved new drug application is a requirement for marketing such a drug product.

As stated in the FEDERAL REGISTER of August 23, 1977 (42 FR 42311), the provision of 21 CFR 320.22(c) waiving bioavailability data for certain drugs does not necessarily apply to drug products first announced as effective in DESI notices published after January 7, 1977. As this is the first notice announcing that sulfinpyrazone is effective, the product has also been reviewed for actual or potential bioequivalence problems. It has been determined that sulfinpyrazone in tablet or capsule form suitable for oral administration should be added to the list of drugs for which bioavailability data are not waived.

In addition to the product specifically named above, this notice applies to any drug product that is not the subject of an approved new drug application and is identical to the product named above. It may also be applicable, under 21 CFR 310.6, to a similar or related drug product that is not the subject of an approved new drug application. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product that the person manufactures or distributes. Such person may request an opinion of the applicability of this notice to a specific drug product by writing to the Division of Drug Labeling Compliance (address given above).

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drug product containing sulfinpyrazone is effective for the indications set forth in the labeling conditions below.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* Sulfinpyrazone is in tablet or capsule form suitable for oral administration.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indications are as follows:

For chronic gouty arthritis.

For intermittent gouty arthritis.

3. *Marketing status.* a. Marketing of such a drug product that is the subject of a new drug application approved prior to October 10, 1962, may be continued provided that, on or before (insert date 60 days after date of publication in the FEDERAL REGISTER), the holder of the application has submitted, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD-356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1(f)). Holders of such an application are required to submit in vivo bioavailability data if any of the conditions of 21 CFR 320.21(b) apply.

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)), must be obtained prior to marketing such a product. In addition, any applicant for approval of an abbreviated new drug application for sulfinpyrazone must provide information from (1) an in vitro dissolution test comparing the test product to the reference product, Anturane, and (2) an in vivo study employing a three period cross-over design comparing Anturane tablets, sulfinpyrazone solution and the test product. It is recommended that prior to the initiation of such studies, a protocol be submitted to the Division of Biopharmaceutics (HFD-520), (address given above). Marketing prior to approval of a new drug application will subject such a product, and those persons who caused the product to be marketed, to regulatory action.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050-1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.82).

Dated: January 12, 1979.

J. RICHARD CROUT,
Director, Bureau of Drugs.

National Institutes of Health

REPORT ON BIOASSAY OF 5-CHLORO-O-TOLUIDINE FOR POSSIBLE CARCINOGENICITY

Availability

5-Chloro-o-toluidine (CAS 95-79-4) has been tested for cancer-causing activity with rats and mice in the Carcinogenesis Testing Program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay for the possible carcinogenicity of 5-chloro-o-toluidine was conducted using Fischer 344 rats and B6C3F1 mice. Applications of the chemical include use as an intermediate in the manufacture of dyes. 5-Chloro-o-toluidine was administered in the feed, at either of two concentrations, to groups of 50 male and 50 female animals of each species.

Under the conditions of this bioassay, 5-chloro-o-toluidine was carcinogenic to B6C3F1 mice, inducing hemangiosarcomas and hepatocellular carcinomas in both males and females. There was no conclusive evidence of the carcinogenicity of the compound in Fischer 344 rats.

Single copies of the report, Bioassay of 5-Chloro-o-toluidine for Possible Carcinogenicity (T.R. 187), are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Maryland 20014.

[4110-08-M]

REPORT ON BIOASSAY OF 2,5-DITHIOBIUREA FOR POSSIBLE CARCINOGENICITY

Availability

2,5-Dithiobiurea (CAS 142-46-1) has been tested for cancer-causing activity with rats and mice in the Carcinogenesis Testing Program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay of 2,5-dithiobiurea for possible carcinogenicity was conducted using Fischer 344 rats and B6C3F1 mice. Applications of the chemical include use as a component of photographic chemicals. 2,5-Dithiobiurea was administered in the feed, at either of two concentrations, to groups of 50 male and 50 female animals of each species, with the exception of high dose male rats, of which there were only 49.

Under the conditions of this bioassay, the evidence suggested, but was insufficient to establish the carcinogenicity of 2,5-dithiobiurea for female B6C3F1 mice. The compound was not carcinogenic to male B6C3F1 mice or to male or female Fischer 344 rats.

Single copies of the report, Bioassay of 2,5-Dithiobiurea for Possible Carcinogenicity (T.R. 132), are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Maryland 20014.

[4110-08-M]

REPORT ON BIOASSAY OF P-QUINONE DIOXIME FOR POSSIBLE CARCINOGENICITY

Availability

p-Quinone dioxime (CAS 150-11-3) has been tested for cancer-causing activity with rats and mice in the Carcinogenesis Testing Program, Division of Cancer Cause and Prevention, National Cancer Institute. A report is available to the public.

Summary: A bioassay for the possible carcinogenicity of p-quinone dioxime was conducted using Fischer 344 rats and B6C3F1 mice. Applications of the chemical include use as a rubber vulcanization accelerator. p-Quinone dioxime was administered in the feed, at either of two concentrations, to groups of 50 male and 50 female animals of each species.

Under the conditions of this bioassay, dietary administration of p-quinone dioxime was carcinogenic to female Fischer 344 rats, causing neoplasms of the urinary bladder. The compound was not carcinogenic to male Fischer 344 rats or B6C3F1 mice of either sex.

Single copies of the report, Bioassay of p-Quinone Dioxime for Possible Carcinogenicity (T.R. 179), are available from the Office of Cancer Communications, National Cancer Institute, Building 31, Room 10A21, National Institutes of Health, Bethesda, Maryland 20014.

[4110-02-M]

Office of Education

FOLLOW THROUGH PROGRAM

Notice of Closing Date for Receipt of Applications for Fiscal Year 1979

Applications in the following two categories are invited for noncompeting continuation awards under the Follow Through Program: (1) grants for carrying out local Follow Through projects; and (2) grants or assistance contracts for demonstration (Sponsors).

Authority for these categories is contained in sections 551-557 of the Economic Opportunity Act of 1964, as amended by Public Law 95-568. (42 U.S.C. 2929 et. seq.)

The local project grants are generally awarded to local educational agencies and the sponsor awards are generally made to institutions of higher education or regional educational laboratories.

CLOSING DATE FOR TRANSMITTAL OF APPLICATIONS: To be assured of consideration for funding, applications for noncompeting continuation awards should be mailed or hand delivered by March 19, 1979.

If the application is late, the Office of Education may lack sufficient time to review it with other noncompeting continuation applications and may decline to accept it.

APPLICATIONS DELIVERED BY MAIL: An application sent by mail must be addressed to the U.S. Office of Education, Application Control Center Attention: 13.433A for Follow Through local projects and 13.433B for Demonstration (Sponsor) awards, Washington, D.C. 20202.

Applicants are encouraged to use registered or at least first class mail.

APPLICATIONS DELIVERED BY HAND: An application that is hand delivered must be taken to the U.S. Office of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Street, S.W., Washington, D.C.

The Application Control Center will accept hand-delivered application between 8:00 a.m. and 4:00 p.m. (Washington, D.C., time) daily except Saturdays, Sundays, and Federal holidays.

PROGRAM INFORMATION: In formulating proposals for local project grants, applicants should give special attention to § 158.15 of the *Follow Through Regulations* which provides an explanation of the procedure to be used in evaluating such proposals. In formulating proposals for sponsor awards, applicants should give special attention to § 158.52 of the *Follow Through Regulations* which provides an explanation of the procedure to be used in evaluating such proposals.

AVAILABLE FUNDS: It is estimated that FY 1979 funds will support the existing 141 local project grants and the existing 19 sponsors. In FY 1978 the local project grants ranged from approximately $65,000 to $1,800,000 and the sponsor awards ranged from approximately $65,000 to $700,000.

These estimates do not bind the U.S. Office of Education except as may be required by the applicable statute and regulations.

APPLICATION FORMS: Application forms and program information packages are expected to be ready for mailing by January 17, 1979. They may be obtained by writing to the Division of Follow Through, U.S. Office of Education (Room 3624, Regional Office Building 3), 400 Maryland Avenue, SW., Washington, D.C. 20202.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages.

SPECIAL PROCEDURES: Every applicant is subject to the State and areawide clearinghouse procedure under OMB Circular A-95.

An applicant should check with the appropriate Federal regional office to obtain the name(s) and address(es) of the clearinghouse(s) in its State. OMB Circular A-95 requires the applicant to give the clearinghouse(s) up to 60 days for review, consultation, and comments on the application. The applicant must consider comments from the clearinghouse(s) before submitting the application to the Office of Education.

In its application each applicant must provide an assurance of compliance with clearinghouse review requirements. The assurance consists of:

(a) A State application identifier number obtained from the clearinghouse, and

(b) Clearinghouse comments.

However, an applicant may certify that either or both the State and areawide clearinghouses have been provided an opportunity to review the application and that no comments have been received.

APPLICABLE REGULATIONS: The regulations applicable to this program are:

(a) Office of Education General Provisions Regulations (45 CFR Parts 100 and 100a), and

(b) Regulations governing the Follow Through Program (45 CFR 158) published in the FEDERAL REGISTER on June 29, 1977.

FURTHER INFORMATION: For further information contact, Mrs. Rosemary C. Wilson, Director, Division of Follow Through, U.S. Office of Education (Room 3624, Regional Office Building 3), 400 Maryland Avenue, SW., Washington, D.C. 20202, telephone (202) 245-2500.

(42 U.S.C. 2929 et. seq.)
(Catalog of Federal Domestic Assistance No. 13.433, Follow Through Program)

Dated: January 23, 1979.

ERNEST L. BOYER,
U.S. Commissioner of Education.

[FR Doc. 79-2970 Filed 1-25-79; 8:45 am]

FOLLOW THROUGH—TECHNICAL ASSISTANCE

Notice of Closing Date for Receipt of Applications for Fiscal Year 1979

Applications are invited for new technical assistance projects under the Follow Through Program.

Authority for this program is contained in sections 551-557 of the Economic Opportunity Act of 1964, as amended by Public Law 95-568. (42 U.S.C. 2929 et. seq.)

The program makes technical assistance awards generally to State educational agencies (SEAs).

The purpose of the awards is to provide funds to SEAs and other appropriate agencies, organizations, or institutions so that they may provide technical assistance to local Follow Through projects and otherwise exercise leadership in regard to Follow Through activities in the State.

CLOSING DATE FOR TRANSMITTAL OF APPLICATIONS: Applications for awards must be mailed (postmarked) or hand delivered by April 2, 1979.

APPLICATIONS DELIVERED BY MAIL: An application sent by mail must be addressed to the U.S. Office of Education, Application Control Center Attention: 13.433C, Washington, D.C. 20202.

Proof of mailing must consist of a legible U.S. Postal Service dated postmark or a legible mail receipt with the date of mailing stamped by the U.S. Postal Service. Private metered postmarks or mail receipts will not be accepted without a legible date stamped by the U.S. Postal Service. (NOTE: The U.S. Postal Service does not uniformly provide a dated postmark. Applicants should check with their local post office before relying on this method.) Applicants are encouraged to use registered or at least first class mail.

Each late applicant will be notified that its application will not be considered in the current competition.

APPLICATION DELIVERED BY HAND: An application that is hand delivered must be taken to the U.S. Office of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, S.W., Washington, D.C. The Application Control Center will accept hand-delivered applications between 8:00 a.m. and 4:00 p.m. (Washington, D.C., time) daily, except Saturdays, Sundays, and Federal holidays. Applications that are hand delivered will not be accepted after 4:00 p.m. on the closing date.

PROGRAM INFORMATION: In formulating proposals for technical assistance awards, potential applicants should give special attention to § 158.42 of the *Follow Through Regulations* which contains specific program funding criteria.

In Fiscal Year 1979 it is anticipated that up to 52 new awards will be made. A current grantee may apply for a new award on the same basis as an applicant not previously funded. Grants are for a one year duration.

AVAILABLE FUNDS: It is estimated that approximately $700,000 will be made available for technical assistance awards in FY 1979. It is anticipated that the grants will range from approximately $6,300 to $50,000. These estimates do not bind the U.S. Office of Education except as may be required by the applicable statute and regulations.

APPLICATION FORMS: Application forms and program information packages are expected to be ready for mailing by January 31, 1979. They may be obtained by writing to the Division of Follow Through, U.S. Office of Education (Room 3624, Regional Office Building 3), 400 Maryland Avenue, SW., Washington, D.C. 20202.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages.

SPECIAL PROCEDURES: Every applicant is subject to the State and areawide clearinghouse procedure under OMB Circular A-95.

An applicant should check with the appropriate Federal regional office to obtain the name(s) and address(es) of the clearinghouse(s) in its State. OMB Circular A-95 requires the applicant to give the clearinghouse(s) up to 60 days for review, consultation, and comments on the application. The applicant must consider comments from the clearinghouse(s) before submitting the application to the Office of Education.

In its application each applicant must provide an assurance of compliance with clearinghouse review requirements. The assurance consists of:

(a) A State application identifier number obtained from the clearinghouse, and

(b) Clearinghouse comments.

However, an applicant may certify that either or both the State and areawide clearinghouses have been provided an opportunity to review the application and that no comments have been received.

APPLICABLE REGULATIONS: The regulations applicable to this program are:

(a) Office of Education General Provisions Regulations (45 CFR Parts 100 and 100a), and

(b) Regulations governing the Follow Through Program (45 CFR 158) published in the FEDERAL REGISTER on June 29, 1977.

FOR FURTHER INFORMATION: For further information contact Mrs. Rosemary C. Wilson, Director, Division of Follow Through, U.S. Office of Education, (Room 3624, Regional Office Building 3), 400 Maryland Avenue, SW., Washington, D.C. 20202, telephone (202) 245-2500.

PUBLIC HEALTH SERVICE

Health Resources Administration

PUBLIC HEALTH SPECIAL PROJECTS

Application Announcement for Grants

The Bureau of Health Manpower, Health Resources Administration, announces that applications for fiscal

JAN 26 1979 UMI

V 4 4 / 1 9

year 1979 grants for Public Health Special Projects are now being accepted under the authority of section 792 of the Public Health Service Act.

Section 792 authorizes grants to assist accredited schools of public health and other public or nonprofit private institutions to develop new graduate programs or expanded existing ones in biostatistics or epidemiology; health administration, health planning or health policy analysis and planning; environmental or occupational health; or dietetics and nutrition.

In the award of grants for projects in the area of health administration, health planning or health policy analysis and planning, funding preference will be given to:

(a) Programs preparing the graduate for employment in a wide variety of settings, including public and voluntary agencies, extended care facilities, ambulatory care facilities, and health systems or planning agencies;

(b) Programs expanding content in health planning, policy and regulation, health economics, and quantitative methods or financial management;

(c) Programs providing for field training in (a) and (b) above;

(d) Programs providing short courses for employed health services administrators and planners in special areas involving health policy, planning and regulation, health economics, quantitative methods and financial management; or

(e) Programs to meet manpower needs in health services administration and planning by providing educational opportunities for students residing in States which have a documented shortage of health administrators and planners.

Approximately $425,000 will be available for new, renewal, and supplemental grants in fiscal year 1979.

Requests for application materials and questions regarding grants policy should be directed to: Grants Management Officer (D-04), Bureau of Health Manpower, Health Resources Administration, Center Building, Room 4-27, 3700 East-West Highway, Hyattsville, Maryland 20782, Phone: (301) 436-7360.

To be considered for fiscal year 1979 funding, applications must be received by the Grants Management Officer, Bureau of Health Manpower, Health Resources Administration, at the above address no later than *March 1, 1979.*

Should additional programmatic information be required, please contact: Education Development Branch, Division of Associated Health Professions, Bureau of Health Manpower, Health Resources Administration, Center Building, Room 5-27, 3700 East-West Highway, Hyattsville, Maryland 20782, Phone: (301) 436-6800.

Dated: January 18, 1979.

HENRY A. FOLEY,
Administrator.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Sale No. 58A]

OUTER CONTINENTAL SHELF OFFSHORE TEXAS, LOUISIANA, MISSISSIPPI AND ALABAMA

Availability of Draft Environmental Statement and Holding of Public Hearing Regarding Proposed Oil and Gas Lease

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement relating to a proposed Outer Continental Shelf (OCS) oil and gas lease sale of 115 tracts consisting of 220,828.37 hectares (545,255.24 acres) of submerged lands on the OCS in the Gulf of Mexico.

Single copies of the draft environmental statement can be obtained from the Office of the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management, Hale Boggs Federal Building, Suite 841, 500 Camp Street, New Orleans, Louisiana 70130, and from the Office of Public Affairs, Bureau of Land Management (130), Washington, D.C. 20240.

Copies of the draft environmental statement will also be available for review in the following public libraries: Austin Public Library, 401 West Ninth Street, Austin, Texas; Houston Public Library, 500 McKinney, Houston, Texas; Rosenburg Library, 2310 Sealy, Galveston, Texas; Dallas Public Library, 1954 Commerce Street, Dallas, Texas; Brazoria County Library, 410 Brazoport Boulevard, Freeport, Texas; La Ratama Library, 505 Mesquite Street, Corpus Christi, Texas; Texas Southmost College Library, 80 Fort Brown Street, Brownsville, Texas; New Orleans Public Library, 219 Loyola Avenue, New Orleans, Louisiana; Louisiana State Library, Baton Rouge, Louisiana; Lafayette Public Library, 301 West Congress Street, Lafayette, Louisiana; Calcasieu Parish Library System, Downtown Branch, Lake Charles, Louisiana; Harrison County Library, 21st Avenue and Beach, Gulfport, Mississippi; and Mobile Public Library, 701 Government Street, Mobile, Alabama.

In accordance with 43 CFR 3301.4, a public hearing is scheduled to begin at 9 a.m. on March 6, 1979, in the New Orleans Outer Continental Shelf Office, at the above listed address. The public hearing is held for the purpose of receiving comments and suggestions relating to the proposed sale.

The hearing will provide the Secretary with additional information from both public and private groups to help evaluate fully the potential effects of the proposed offering of 115 tracts. Comments are solicited concerning effects on area marine, aesthetic, recreation, and other resources and on the Gulf of Mexico environment as a whole, as a result of exploration, development, and production phases of the proposed OCS lease sale. The hearing will also provide the Secretary with the opportunity to receive additional comments and views of interested State and local agencies.

Interested individuals, representatives of organizations, and public officials wishing to testify at the public hearing are requested to contact the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management, at the above address by 4:15 p.m., February 26. Written comments from those unable to attend the hearing also should be addressed to the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management at the above address. The Department will accept written testimony and comments on the draft environmental statement until March 16, 1979. This should allow ample time for those unable to testify at the hearing to make their views known and for the submission of supplemental materials by those presenting oral testimony. Time limitations make it necessary to limit the length of oral presentations to ten (10) minutes. An oral statement may be supplemented, however, by a more complete written statement which may be submitted to the Manager, New Orleans Outer Continental Shelf Office, at the time of presentation of the oral statement. Written statements presented in person at the hearing will be considered for inclusion in the hearing record. To the extent that time is available after presentation of oral statements by those who have given advance notice, others present will be given an opportunity to be heard.

After all testimony and comments have been received and analyzed, a final environmental statement will be prepared.

ARNOLD E. PETTY,
Acting Associate Director,
Bureau of Land Management.

Approved:

LARRY E. MEIEROTTO,
Deputy Assistant,
Secretary of the Interior.

Bureau of Reclamation

AUTHORIZED SALT-GILA AQUEDUCT, CENTRAL ARIZONA PROJECT, ARIZONA-NEW MEXICO

Public Hearings on Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, as amended, the Department of the Interior has prepared a draft environmental statement for the Salt-Gila Aqueduct, authorized as a part of the Central Arizona Project by Pub. L. 90-537, 82 Stat. 885, 43 U.S.C. 1501 et seq., on September 30, 1968. This statement INT DES 79-1 dated January 4, 1979, filed with the Environmental Protection Agency, is available to the public, as specified in the Notice of Availability.

The draft environmental statement supplements the general information for the Salt-Gila Aqueduct system as covered in the final environmental statement for the overall Central Arizona Project which was filed with the Council on Environmental Quality on September 26, 1972 (FES 72-35). The purpose of the aqueduct is to convey Colorado River water from the terminus of the Granite Reef Aqueduct in south-central Pinal County, Arizona. Construction of the feature is scheduled to begin in mid-1980, with project completion scheduled for 1985.

Public hearings to receive comments on the draft statement will be in Coolidge, Arizona, at 1 p.m. and 7 p.m. on February 21, 1979, at the Coolidge Cultural Center located at 160 West Central Street. Public hearings will also be held in Apache Junction, Arizona, at 1 p.m. and 7 p.m. in the American Legion Hall located at Apache Boulevard on Saguaro Street on February 22, 1979.

The hearings will commence at 1 p.m. Oral statements at the hearing will be limited to a period of 10 minutes. Speakers will not trade their time to obtain a longer oral presentation, however, the person authorized to conduct the hearing may allow any speaker to provide additional oral comment after all persons wishing to make comments have been heard. Speakers will be scheduled according to the time preference mentioned in their letter or telephone request, whenever possible. Any scheduled speaker not present when called will lose his or her privilege in the scheduled order and his name will be recalled at the end of the scheduled speakers. Requests for scheduled presentations will be accepted up to 4 p.m. February 20, 1979, and any subsequent requests will be handled on a first-come-first-served basis following the scheduled presentations.

Organizations or individuals desiring to present their statements at the hearing should contact the Office of the Project Manager, Bureau of Reclamation, Suite 2200, Valley Center, 201 North Central Avenue, Phoenix, Arizona 85003, telephone Number 602-261-3106, and announce their intention to participate. Written comments for the hearing record from those unable to attend and from those wishing to supplement their oral presentation should be sent to the Regional Director, Bureau of Reclamation, Lower Colorado Region, P.O. Box 427, Boulder City, Nevada 89005, attention: Code 150 on or before March 5, 1979, so that they can be included in the hearing record.

Dated: January 20, 1979.

R. KEITH HIGGINSON,
Commissioner.

National Park Service

GRAND CANYON NATIONAL PARK: DRAFT FERAL BURRO MANAGEMENT AND ECOSYSTEM RESTORATION PLAN AND ENVIRONMENTAL STATEMENT

Public Meetings; Intent

Notice is hereby given that the National Park Service will hold a series of six public meetings on Grand Canyon National Park's draft Feral Burro Management and Ecosystem Restoration Plan and its Environmental Statement in late February and early March 1979, in Arizona, California, Nevada and Utah.

Each meeting will begin at 7:30 p.m., local time, however, Park Service personnel will be available at each of the meeting sites at 6:30 p.m. to answer questions and explain the plan for an hour before the meeting is convened. The schedule of meetings is as follows:

Feb. 27 Flagstaff, Room American B, Little America, 2515 East Butler Ave.

Feb. 28 Phoenix, Auditorium—Lower Level—First Federal Savings Bldg., 3003 North Central Ave.

Mar. 1 Tucson, Auditorium, Safford Jr. High School, 300 South 5th Ave.

Mar. 6 Salt Lake City, City Commission Chambers, City and County Bldg., 451 South State St.

Mar. 7 Las Vegas, Golden Eagle Room—Second Floor, Hughes Aviation Service Bldg., 6005 Las Vegas Blvd., South.

Mar. 8 Los Angeles, Regional Planning Commission Hearing Room, New Hall of Records, 320 West Temple.

These meetings are a part of the public involvement process which has been used throughout the development of the draft documents. Concurrent with the public meetings the National Park Service will consult with various Federal, State and local government agencies, individuals and organizations on the proposed Feral Burro Management and Ecosystems Restoration Plan and its draft environmental statement for the Park.

Interested individuals, representatives of organizations and public officials are encouraged and invited to express their views at these public meetings. Those unable to appear in person may submit written statements to the Superintendent, Grand Canyon National Park, P.O. Box 129, Grand Canyon, Ariz., 86023, until 30 days after the last meeting for inclusion in the public record.

Those who wish to provide oral comments for the record will be requested to register at the door. The number of people and time limitations may make ti necessary to limit the length of oral presentations. An oral statement, however, may be supplemented by a more complete written statement which also will be made a part of the record.

After a presentation of the draft plan by the Park Superintendent, the chairperson, insofar as possible, will adhere to the following order in calling for the presentation or oral comments:

1. Governor of the State in which the meeting is being held or his representative.
2. Members of Congress.
3. Members of the State legislature.
4. Official representatives of the counties in which the meeting is located.
5. Officials of other Federal agencies or public bodies.
6. Organizations in alphabetical order.
7. Individuals in order of registration.
8. Others, to the extent time is available.

Anyone wishing copies of the draft Feral Burro Management and Ecosystem Restoration Plan and its Environmental Impact Statement, which are available until the supply is exhausted, additional information on the public meetings, or the National Park Service planning process may write to the Superintendent, Grand Canyon National Park, at the address above.

Dated: January 16, 1979.

EDWIN N. WINGE,
Acting Regional Director, Western Region, National Park Service.

Office of Surface Mining

[Federal Lease No. W-6266]

BLACK BUTTE MINE, SWEETWATER COUNTY, WYO., BLACK BUTTE COAL CO.

Availability of Modification to Coal Mining and Reclamation Plan for Public Review

AGENCY: Office of Surface Mining Reclamation and Enforcement.

ACTION: Availability of Amendment to Coal Mining and Reclamation Plan for Public Review.

SUMMARY: Pursuant to § 211.5 of Title 30, Code of Federal Regulations, notice is hereby given that the Office of Surface Mining, Region V, has received sufficient additional information from the applicant in partial response to a stipulation of the Department's approval of the Black Butte mining and reclamation plan to comprise a major modification to the approved Plan and that the information is available for public review. The plan, described below, involves extraction of federally- and privately-owned coal.

Applicant	Mine name	Location of lands to be affected by amendment		
		State	County	Township, range and sections
Black Butte Coal Company...	Black Butte	Wyoming	Sweetwater	T. 19 N, R100W: 22, 27, 28, 29, 32, 33, 34. (Area cited in Plan as "Area D")

Office of Surface Mining Reference Number: WY-0010. The amendment to the mining and reclamation plan provides a narrative of a proposal to dispose of spoil in Area D, post-mining topographic maps, and mine sequence maps showing selected stages of the proposed operations. The material is provided in response to a stipulation imposed at the time the Plan was approved. The stipulation required the operator to obtain the approval of the State of Wyoming and OSM prior to disposal of any spoil "outside the mine pit boundaries". The OSM estimates that 225 acres of land in addition to that shown in the previously-approved Plan would be disturbed by the proposed spoil disposal procedures explained in the amendment.

This particular mine was the subject of a site-specific analysis of environmental impacts, alternatives and mitigating measures in an Environmental Impact Statement titled "Development of Coal Resources in Southwestern Wyoming" which was made available to the Environmental Protection Agency on August 31, 1978.

The proposed amendment submitted by Black Butte for the Black Butte Mine is available for public review in the Library, Office of Surface Mining, Region V, Room 207, Post Office Building, 1823 Stout Street, Denver, Colorado.

This Notice is issued at this time for the convenience of the public. The Office of Surface Mining has not yet determined whether the plan is technically adequate. Therefore, OSM may request additional information during the technical review. Any information so obtained will also be available for public review.

No action with respect to approval of the plan shall be taken by the Regional Director for a period of 30 days after publication of this Notice of Availability. Prior to making a final decision regarding this proposed amendment, the Office of Surface Mining will issue a Notice of Pending Decision pursuant to § 211.5(c)(2) of Title 30, Code of Federal Regulations.

FOR ADDITIONAL INFORMATION:

John Hardaway, Office of Surface Mining, Region V, 1823 Stout Street, Denver, Colorado 80202.

WALTER N. HEINE, P.E.,
Director, Office of Surface Mining, Reclamation and Enforcement.

Office of the Secretary

[INT FES 79-2]

CUMBERLAND GAP NATIONAL HISTORICAL PARK, KENTUCKY, TENNESSEE, AND VIRGINIA

Availability of Final Environmental Statement on Proposed Master Plan

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a Final Environmental Statement of the Proposed Master Plan for Cumberland Gap National Historical Park, Kentucky, Tennessee and Virginia.

The statement considers the future management and development of Cumberland Gap National Historical Park.

Copies of the Environmental Statement and Master Plan will be available for public review at the addresses given below for a period of 30 days following publication of this notice. (February 26, 1979).

Regional Director, Southeast Region, National Park Service, 1895 Phoenix Boulevard, Atlanta, Georgia 30349.

Superintendent, Mammoth Cave National Park, Mammoth Cave, Kentucky 42259.

Superintendent, Cumberland Gap National Historical Park, P.O. Box 840, Middlesboro, Kentucky 40965.

NOTE.—The U.S. Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Dated: January 19, 1979.

LARRY E. MEIEROTTO,
Deputy Assistant Secretary of the Interior.

Law Enforcement Assistance Administration

ADDITION TO FISCAL YEAR 1979 GUIDE FOR DISCRETIONARY GRANT PROGRAMS

Request for Public Comment

AGENCY: Law Enforcement Assistance Administration, Department of Justice.

ACTION: Request for public comment.

SUMMARY: The Law Enforcement Assistance Administration (LEAA) published in the FEDERAL REGISTER on November 3, 1978, the Fiscal Year 1979 Guide to Discretionary Grant Programs. This notice is to obtain comments on a proposed addition to that Guide. Publication in the FEDERAL REGISTER is in response to the Department of Justice's draft report on implementation of Executive Order 12044 (43 FR 22922, May 26, 1978). All comments will be considered in the publication of the final annoucement.

DATE: Comments are due on or before March 15, 1979.

ADDRESS: Send comments to: Henry S. Dogin, Deputy Administrator for Policy Development, Law Enforcement Administration, U.S. Department of Justice, 633 Indiana Avenue NW., Washington, D.C. 20531.

FOR FURTHER INFORMATION CONTACT:

Marlene Beckman, Office of Criminal Justice Programs, Law Enforcement Assistance Administration, U.S. Department of Justice, 633 Indiana Avenue NW., Washingon, D.C. 20531, 202-376-3824.

HENRY S. DOGIN,
Deputy Administrator for Policy Development.

JANUARY 19, 1979.

The complete text of the proposed addition to the Fiscal Year 1979 Guide to Discretionary Grant Programs appears as follows:

PROGRAM DESCRIPTION: PRESENTENCE INVESTIGATION REPORT PROGRAM

a. *Program Objective:* Increase the effectiveness and efficiency of the presentence investigation report as a decison-making tool.

b. *Program Description:* This program concentrates LEAA's past research and training efforts related to presentence reporting into a cohesive package that can be utilized by jurisdictions reexamining the utility of presentence investigations as a decision-making tool.

(1) PROBLEMS ADDRESSED

(a) During the past 35 years, a variety of organizations have established guidelines for presentence report investigations. Most recently, the 1967 President's Commission Reports on Law Enforcement and the Administration of Justice; the 1970 American Bar Association's standards on presentence reports; the 1972 National Council on Crime and Delinquency revision of the Model Sentencing Act; the 1973 publications of the National Advisory Commission on Criminal Justice Standards and Goals; and the 1977 American Correctional Association's Standards for Adult Probation all agree on several important standards.

There is consensus among these groups that presentence reports must be directly related to decison-making and that the presentence report must serve the needs of a diversity of decision-makers within the criminal justice system. These decision-makers include sentencing judges, supervising probation officers, institution classification personnel, the paroling authority, parole officers, and researchers. However, it is also agreed that the primary purpose of the presentence report is to provide the court with relevant and accurate data so that the judge may select the most appropriate sentencing alternative.

(b) Although the presentence report is often the only source of information about the offender available to the judge at the time of sentencing, a 1976 GAO Report entitled *State and County Probation: Systems in Crisis* which evaluated four counties in the

V 44 / 19 JA 26 79 UMI

V 4 4 / 1 9

nation found that in only 54 percent of the cases were presentence reports actually prepared. Further, the inclusion of a recommendation for sentencing by the probation officer seems to be as varied as the requirement for the report despite the results of numerous studies which suggest that in the majority of cases (correlation is often as high as 90 percent) the sentencing judge follows the recommendations contained in the presentence investigation report.

(c) Responding to these issues, in January 1978, the NILECJ published a Prescriptive Package which focused on the presentence investigation and report. The package is based on a comprehensive state-of-the-art survey which included a complete review of the literature and review of the operational procedures and presentence formats used by 735 state and local probation agencies. As a result of their survey, the authors found that during the 100 year history of the presentence report there has been an increasing emphasis on the quantity of data collected and presented to the courts. However, the effectiveness of the information in terms of its relevance to the sentencing decision has seldom been questioned. For the most part there has been a continuity of the "longer" rather than "shorter" presentence report format although there is extensive research evidence to show that judges make their decisions on a limited number of factors (i.e., current offense, prior criminal history, stability indicators).

(d) The principal product of the Prescriptive Package research effort is a series of 64 recommendations designed to assist the courts and probation administrators in developing a more systematic and effective approach to presentence report design and utilization. The recommendations are identical to the standards promulgated by the American Correctional Association's Commission on Accreditation in its Manual of Standards for Adult Probation.

(e) Increasing demands for probation services without the allocation of additional resources have required examination of these traditional approaches and some experimentation with new approaches. The 1978 LEAA survey report entitled State and Local Probation and Parole Systems indicates that approximately one million presentence investigation reports are prepared annually by more than 2500 agencies. More than one-third of these agencies reported that between one-fourth to one-half of probation officers' time was spent preparing presentence investigation reports. This imposes a tremendous cost effectiveness problem for probation departments. This program addresses the need for increased staff time without reducing the quality of decisions or case handling.

(2) ASSUMPTIONS

(a) The information contained in the presentence report is often the only information that the judge has about the defendant and the crime at the time of sentencing.

(b) The primary purpose of the presentence report is to provide data which meets judicial needs for decision-making.

(c) Other potential uses for decision-making may influence the content and format of the report.

(d) The data requirements for criminal justice decision-making are best determined by the decision-makers themselves.

(e) Presentence report design, both format and content, should be localized to meet the needs of the individual criminal justice system.

(f) The modular construction of reports—starting with a simple format and very basic data to which is appended other data as individual offense and/or offender warrant—represents the best utilization of scarce resources.

(3) RESULTS SOUGHT

(a) Jurisdictions participating in this program will develop and implement a presentence investigation report strategy which demonstrates the recommendations outlined in the *Presentence Report Handbook.*

(b) The presentence report program will increase the efficiency and effectiveness of the probation office and improve the quality of the information presented.

(c) Judges in the participating jurisdictions will make increased use of the presentence investigation report in their decision-making and sentences will be increasingly consistent and fair.

(d) The presentence investigation report will be a useful tool to the other decision-makers in the criminal justice system.

c. *Program Strategy:* This program will provide funding support to jurisdictions over a three phased approach including (1) planning and analysis, (2) development of the PSI Report, and (3) implementation and evaluation of the results of (1) and (2). LEAA will provide technical assistance and coordination through a grant to a National Program Coordinator. The role of the National Program Coordinator and the activities anticipated during the three phases of the program are discussed below:

(1) National PSI Program Coordinator

(a) *The National PSI Program Coordinator will be the grantee for this program. Funding for the jurisdictions selected to participate in this program will be subgrants from the National Program Coordinator.* The National Program Coordinator will assist in screening of potential sites; however, participating sites will be selected by LEAA.

(b) The National PSI Program Coordinator will provide assistance in the following ways:

- Assist finalist sites in the development of their programs
- Collect and analyze data elements needed for decision-making at each site (use of computer if needed)
- Help identify training and technical assistance needs within the jurisdiction
- Assist with local problem-solving during the life of the subgrants
- Schedule, coordinate, and provide cluster training and technical assistance for all participating sites.

(c) During the implementation phase of the projects the National Program Coordinator will provide an evaluation of the local sites to assess the results of the program and particularly to provide feedback to those participating sites.

(2) PHASED APPROACH

(a) Phase I—Planning and analysis. During this phase, it is anticipated that the probation office will review the current presentence investigation report practices and assess their utility for decision-making. Meetings among criminal justice decision-makers in the jurisdiction—particularly judges—should take place to sort out needed data elements and allow officials to articulate that information needed for decision-making. This will vary considerably in those jurisdictions where sentencing guidelines and/or mandatory minimum sentences are operating. This phase should take approximately four months.

(b) Phase II—Development of the PSI Report. Based on Phase I, special staff should develop a revised PSI Report for use in the jurisdiction. Pilot efforts could be introduced for certain types of offenders or with individual judges. One option could also include the establishment of a presentence report unit. It is anticipated that this phase will require three months.

(c) Phase III—Implementation and evaluation. During this final phase which should commence around month eight of the grant and continue for the remainder of the grant period, actual demonstration takes place. The new presentence investigation report becomes operational and its use is evaluated. Results will be measured, at a minimum, in terms of (1) time saved, (2) satisfaction of the judges, (3) cost effectiveness; and (4) impact on sentencing decisions.

J A 2 6 7 9

UMI

d. *Selection Process:* (1) Local jurisdictions will be selected by LEAA according to the following criteria:

(a) To the extent there is current use of the presentence investigation report at a minimum by the court and potential expanded uses for pretrial release, diversion, the corrections department, etc.

(b) It is essential that there is evidence of Probation Department, Judicial, and Corrections leadership, sponsorship, and participation. Letters from all appropriate officials should be included as part of the submission.

(c) To the extent this program offers the likelihood of addressing current problems facing the jurisdiction.

(d) The documented willingness to apply local existing staff commitment to this overall effort.

(e) To the extent the jurisdiction has available baseline data for pre-post comparisons and an information capability (manual or automated) to support project management and offender tracking.

(f) It is essential that there is a willingness to experiment with the presentence investigation report outlined in the NILECJ Prescriptive Package or variations including the use of a short form PSI which has, at a minimum, some commentary in the following data areas:

Description of the offense
Prior criminal record
Personal history
Evaluation
Recommendation.

(g) Pending or past legislation, including sentencing guidelines, which facilitates or promotes the use of the short form PSI.

(2) Priority consideration will be given to jurisdictions participating in one or more of the following national LEAA programs if use of the PSI can be shown to significantly contribute to the success of those programs:

(a) Reduction of Jail Overcrowding Program.

(b) Court Delay Reduction Program.

(c) Restitution or Community Service Program.

(d) Treatment Alternatives to Street Crime (TASC).

(e) Sentencing Guidelines Program.

Further, additional consideration will be given to those proposals which allow for the maximum impact of this program; that is, statewide probation systems vs. individual local offices. A mix of large and small probation departments is desired.

(3) DOLLAR RANGE AND NUMBER OF GRANTS

Up to ten separate sub-grants will be awarded with a dollar range from $50,000-$75,000. Grant duration will be for 18 months. A cash match of 12 percent is required. Additional year funding is anticipated only where project will expand program.

(4) ELIGIBILITY

Applicants are likely to be departments of adult probation or court offices which are responsible for the preparation of PSI Reports. Applicants must meet Part E criteria in the program areas as defined in the Omnibus Crime Control and Safe Streets Act of 1968, as amended. Applicants must have the endorsement of state and local planning units. Letters of cooperation from the Chief Probation Officer, Department of Corrections, and the Chief Judge must accompany the application.

(5) APPLICATION PROCEDURES AND DEADLINE

Applicants should submit to the Corrections Division, OCJP, LEAA, a concept paper addressing the following:

(a) Interest in the program.

(b) A copy of the current presentence investigation report format and description of procedures and problems. Include information on any existing statutes which impose requirements on the presentence investigation report.

(c) Proposed alternatives to current system to be investigated under Phase I.

(d) Evidence of familiarity with the requirements of this program and willingness to comply.

(e) Support from key court, county, prosecution, defense, and corrections officials.

(f) Responses to all other items listed in Section d.(1) of this announcement.

These concept papers will be accepted by LEAA through May 1, 1979. Applicants will then be contacted for additional information needed for selection purposes. If necessary, site visits will be arranged by the National Coordinator to assist in preliminary data collection and program development.

e. *Evaluation Requirements:* (1) A national cluster evaluation of this program is planned to be undertaken by the National Program Coordinator selected by the Office of Criminal Justice Programs, LEAA. The evaluator and LEAA will select sites for inclusion in the national level cluster evaluation.

(2) In addition to the self-assessment and monitoring requirements of Appendix 4, Paragraphs 3 and 4, and Appendix 5 of the *Guide for Discretionary Grant Programs* (M 4500.1G), applicants may propose an evaluation plan for their project containing the evaluation plan elements detailed in Appendix 4, Paragraph 6 of the *Guide for Discretionary Grant Programs* (M 4500.1G).

(3) Grant recipients may be required to modify their proposed evaluation plans in order to be integrated into the national level cluster evaluation design to be developed by the national evaluator.

(4) All grantees must indicate in advance their willingness to cooperate fully with the national evaluator, in providing needed data elements.

f. *Special Requirements:* Applicants are advised to be thoroughly familiar with the NILECJ Prescriptive Package entitled Presentence Report Handbook, January 1978 (available from the National Criminal Justice Reference Service or the Government Printing Office, Washington, D.C. 20402).

g. For further information, contact the Corrections Division, Office of Criminal Justice Programs, LEAA, Washington, D.C. 20531, 202/376-3824.

WASHINGTON STATE JUVENILE JUSTICE LEGISLATION (HB-371) AND RELATED ACTION PROGRAMS

Announcement of Solicitation for Grant Applications To Assess Implementation and

The National Institute for Juvenile Justice and Delinquency Prevention (NIJJDP), Office of Juvenile Justice and Delinquency Prevention (OJJDP), U.S. Department of Justice, is sponsoring an assessment of the implementation and impact of new comprehensive juvenile justice legislation (HB-371) in Washington State and of related action programs funded by OJJDP to assist the State in implementing this legislation.

Applications will be considered from public or private (non-profit) agencies and organizations or individuals for the first phase (up to 18 months) of a proposed three year assessment. The maximum funding level for the initial phase is $300,000. The deadline for receipt of applications is March 31, 1979. Potential applicants may obtain a copy of the solicitation by writing to: National Institute for Juvenile Justice and Delinquency Prevention, Office of Juvenile Justice and Delinquency Prevention, U.S. Department of Justice, 633 Indiana Avenue, N.W., Room 304, Washington, D.C. 20531, attention: Barbara Allen-Hagen; or by calling area code 202, 376-3952.

JOHN M. RECTOR,
Administrator, Office of Juvenile Justice and Delinquency Prevention.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

BUSINESS RESEARCH ADVISORY COUNCIL'S COMMITTEE ON MANPOWER AND EMPLOYMENT

Meeting

The BRAC Committee on Manpower and Employment will meet on Tuesday, February 20, 1979, at 1:30 P.M. in room 4454 (A & B) of the General Accounting Office Building, 441 G Street, N.W., Washington, D.C. The agenda for the meeting is as follows:

1. Discussion of the "Summary of Major NCEUS Recommendations."
2. Other Business.

This meeting is open to the public. It is suggested that persons planning to attend this meeting as observers contact Kenneth G. Van Auken, Executive Secretary, Business Research Advisory Council on Area Code (202) 523-1559.

Signed at Washington, D.C. this 19 day of January 1979.

JANET L. NORWOOD,
Acting Commissioner of Labor Statistics.

Mine Safety and Health Administration

[Docket No. M-78-127-C]

BARNWELL COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

The Barnwell Coal Company, P.O. Box 11222, Chattanooga, Tennessee, has filed a petition to modify the application of 30 CFR 77.1605(k) (berms) to its No. 1 Mine in Marion County, Tenn. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977, Public Law 95-164.

The substance of the petition follows:

(1) The petition concerns an elevated roadway 5.5 miles in length and varying in width from 40 to 65 feet.

(2) There are three areas on the roadway totaling in length 4000 feet where the outslope has a drop-off of greater than 3 to 1 in slope. In all cases, the roadway is a minimum of 50 feet wide and signs have been posted outlining the steepness and width of the road, cautioning for slow travel.

(3) The petitioner states that the construction of berms along the outer bank of the roadway would pose the following safety hazards:

(a) Run-off water flowing beside the berm would cut ditches which could cause an accident if a truck tire slides off into one of them.

(b) During heavy rainfall large quantities of water would flow down the road and create a potential hydroplaning hazard for large vehicles.

(c) The berm would reduce the effect of current grading maintenance of the roadway which keeps the roadbed in good condition for safe travel.

(4) As an alternative to the construction of berms, the petitioner has done the following:

(a) A caution sign is posted at the top of the hill before the steep grade;

(b) The road width is far in excess of the required 20 feet;

(c) The roadway was designated and elevated so that trucks should move toward the highwall, not toward the outslope side.

(d) Only experienced and competent drivers are permitted on this haul;

(e) Only trucks equipped with regular brakes, engine brakes and emergency brakes and well maintained vehicles are used in the hauling operation;

(f) The petitioner has instructed drivers to use the outside portion of the roadway, particularly along the cuts.

(g) Drivers are in constant radio communication with each other while on the roadway.

(5) In addition, the petitioner proposes to install posts and a ⅝ inch wire rope guardrail with a cable height of 26 inches above the ground if the above safety precautions are insufficient.

(6) The petitioner states that the measures listed above will achieve no less protection than that provided by the standard.

REQUEST FOR COMMENTS

Persons interested in this petition may furnish written comments on or before February 26, 1979. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203.

Copies of the petition are available for inspection at that address.

Dated: January 17, 1979.

ROBERT B. LAGATHER,
Assistant Secretary for Mine Safety and Health.

[FR Doc. 79-2640 Filed 1-25-79; 8:45 am]

[4510-43-M]

[Docket No. M-79-1-C]

J.A.S. PARTNERSHIP COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

J.A.S. Partnership Coal Company, R.D. No. 1, Box 1506, Pottsville, Pa. 17901, has filed a petition to modify the application of 30 CFR 75.301 (ventilation) to its 4 Foot Slope Mine in Columbia County, Pa. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977, Public Law 95-164.

The substance of the petition follows:

(1) The petitioner requests the following air quantity levels for its mine which are reductions of those in the standard:

(a) A minimum of 1,500 cubic feet per minute (c.f.m.) to each working face;

(b) A minimum of 5,000 c.f.m. to the last open crosscut in any pair or set of developing entries;

(c) A minimum of 5,000 c.f.m. to the intake end of a pillar; and

(d) Whatever additional quantity of air that may be required in any of these areas to maintain a safe and healthful mine atmosphere.

(2) The petitioner requests this modification for the following reasons:

(a) The mine's air sample analysis history has not record of harmful quantities of methane or carbon dioxide and other noxious or poisonous gases;

(b) the mine has not had any ignitions, explosions, or fires;

(c) The mine's dust sampling programs have revealed extremely low concentrations of respirable dust;

(d) Extremely high air velocities in restricted airways and manways present a hazard of flying objects to miners;

(e) High air velocities and large air quantities in the wet mine cause extremely uncomfortable and cold working conditions; and

(f) Difficulty in keeping miners on the job and securing additional mine help is due primarily to these conditions.

(3) The petitioner states that the proposed reduction in air quantity will achieve no less protection than that provided by the standard.

REQUEST FOR COMMENTS

Persons interested in this petition may furnish written comments on or before February 26, 1979. Comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: January 17, 1979.

ROBERT B. LAGATHER,
Assistant Secretary for Mine Safety and Health.

Occupational Safety and Health Administration

NATIONAL ADVISORY COMMITTEE ON OCCUPATIONAL SAFETY AND HEALTH

Appointment of Members

This is to announce the appointment of members to the National Advisory Committee on Occupational Safety and Health, established under Section 7(a) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 656).

The membership of the Committee and the categories represented are as follows:

PUBLIC

Dr. Nicholas A. Ashford, Assistant Director, Center for Policy Alternatives, Building E40-250, Massachusetts Institute of Technology, 77 Massachusetts Avenue, Cambridge, Massachusetts 02139.

Dr. Richard E. Ginnold, Assistant Professor, School for Workers, University of Wisconsin-Extension, Room 825, 432 North Lake Street, Madison, Wisconsin 53706.

Andrea Hricko, Health Coordinator, Labor-Occupational Health Programs, Insititute of Industrial Relations, 2521 Channing Way, Berkeley, California 94720.

Dr. Hawey A. Wells, Chief of Pathology, Titusville Hospital, 406 W. Oak Street, Titusville, Pennsylvania 16354.

MANAGEMENT

Dr. Ernest M. Dixon, Corporate Medical Director, Celanese Corporation, 1211 Avenue of the Americas, New York, New York 10036.

Dr. Peter J. Nord, Executive Vice President, Schauer Manufacturing Corp., 4500 Alpine Avenue, Cincinnati, Ohio 45242.

LABOR

John J. Sheehan, Legislative Director, United Steelworkers of America, Suite No. 706, 815 Sixteenth Street, NW., Washington, D.C. 20006.

George H. R. Taylor, Director, Department of Occupational Safety and Health, AFL-CIO, 815 Sixteenth Street NW., Washington, D.C. 20006.

SAFETY

Dr. Don B. Chaffin, Professor of Industrial & Operations Engineering, University of Michigan, 2260 G. G. Brown Laboratory Ann Arbor, Michigan 48109.

Dr. Robert J. Firenze, President, R. J. E. Associates, P.O. Box 1428, Bloomington, Indiana 47401.

HEALTH

Dr. Marcus M. Key, Professor of Occupational Medicine, School of Public Health, The University of Texas Health Science Center, Room N-210, P.O. Box 20186, Houston, Texas 77025.

Claudia Miller, Consultant, 1260 Windwood Drive, Lake Forest, Illinois 60045.

Doctors Firenze, Ginnold, Nord, and Wells are new members; Dr. Ashford and Mr. Sheehan have been reappointed. The other six members of the Committee are serving the second year of a two-year term which will expire June 30, 1979.

The members were selected on the basis of their experience and competence in the field of occupational safety and health.

The six newly appointed members will serve two year terms, expiring on June 30, 1980. Dr. Nicholas Ashford will continue to chair the committee.

The purpose of the Committtee is to advise the Secretary of Labor and the Secretary of Health, Education and Welfare on matters relating to the Occupational Safety and Health Act.

Signed at Washington, D.C. this 18th day of January 1979.

RAY MARSHALL,
Secretary of Labor.

[4510-28-M]

Office of the Secretary

[TA-W-4020]

ALLEGHENY LUDLUM STEEL CORP., MINNEAPOLIS, MINN.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4020: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 2, 1978 in response to a worker petition received on July 31, 1978 which was filed on behalf of workers and former workers of the Minneapolis, Minnesota sales office of the Allegheny Ludlum Steel Corporation.

The Notice of Investigation was published in the FEDERAL REGISTER on August 11, 1978 (43 FR 35759-60). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Allegheny Ludlum Steel Corporation and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The Minneapolis branch sales office was closed on March 31, 1978 due to a reorganization of the company's Sales Division. The functions performed at the Minneapolis office were transferred to another company sales office. The Sales Division was reorganized for reasons involving business efficiency and not as a result of imports. The activities at the sales offices are directly dependent upon company sales levels. Company sales of the products sold by the petitioners, did not change significantly in 1977 compared to 1976 and increased in the first ten months of 1978 compared to the like 1977 period.

CONCLUSION

After careful review, I determine that all workers of the Minneapolis, Minnesota sales office of the Allegheny Ludlum Steel Corporation are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 17th day of January 1979.

JAMES F. TAYLOR
Director, Office of Management, Administration, and Planning

[FR Doc. 79-2642 Filed 1-25-79; 8:45 am]

[TA-W-4359]

ALLIVINE KNITTING MILLS, INC., PHILADELPHIA, PENNSYLVANIA

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department

V 44/19

of Labor herein presents the results of TA-W-4359: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was intitated on November 13, 1978 in response to a worker petition received on November 6, 1978 which was filed by the Knitgoods Union, ILGWU on behalf of workers and former workers producing double knot and sweater fabrics on a contract basis at Allivine Knitting Mills, Incorporated, Philadelphia, Pennsylvania.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (42 FR 55012). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Allivine Knitting Mills, Incorporated, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof and to the absolute decline in sales or production.

U.S. imports of finished fabric decreased from 464 million square yards in 1976 to 453 million square yards in 1977. Imports increased from 187 million square yards in the first half of 1977 to 255 million square yards in the first half of 1978. However, the ratio of imports to domestic production was less than two percent in 1976 and in 1977.

A Department of Labor survey of customers of Allivine Knitting Mills, Incorporated revealed that in the first ten months of 1978 when compared to the same period in 1977, only one customer, decreased purchases from Allivine and increased its purchases of imported fabric. Further, the kind of fabric that customer imported was chiffon, a fabric Allivine did not produce; that customer substantially increased its purchases of fabric from other domestic sources at the same time.

CONCLUSION

After careful review I determine that all workers of Allivine Knitting Mills, Incorporated, Philadelphia, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 12th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[TA-W-4218]

AMF, INC., WHEEL GOODS DIVISION, RECREATIONAL VEHICLE GROUP, LITTLE ROCK, ARK.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4218: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on September 29, 1978 in response to a worker petition received on September 27, 1978 which was filed by the United Steelworkers of America on behalf of workers and former workers producing bicycles at the Little Rock, Arkansas plant of AMF, Incorporated, (Wheel Goods Division of the Recreational Vehicle Group).

The Notice of Investigation was published in the FEDERAL REGISTER on October 17, 1978 (43 FR 44795). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of AMF, Incorporated, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

Evidence developed during the course of the investigation revealed that customers which decreased purchases of bicycles produced at the Little Rock, Arkansas plant of AMF, Inc., and increased purchases of imported bicycles represented and insignificant proportion of the firm's decline in sales.

The Department conducted a survey of customers who purchase bicycles produced at AMF, Inc. Since plant sales and production increased in 1977 compared to 1976 and no layoffs occurred at the plant during the period under investigation until the second quarter of 1978, particular attention was paid to the customers' 1978 purchases on a quarterly basis. Customers surveyed who represented the major portion of AMF's decline in sales in the second and third quarters of 1978 indicated that they did not switch to imported bicycles. Although some customers surveyed indicated a switch in purchases from the subject firm to foreign sources in the second and third quarters of 1978, these customers represented an insignificant portion of the subject firm's decline in sales over the same period.

The decline in production and employment following the first quarter of 1978 was due in large part to the completion of a large, one-time promotional order.

CONCLUSION

After careful review, I determine that all workers of the Little Rock, Arkansas plant of AMF, Inc. (Wheel Goods Division, Recreational Vehicle Group) are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 17th day of January 1979.

JAMES F. TAYLOR
Director, Office of Management, Administration, and Planning.

INVESTIGATIONS REGARDING CERTIFICATIONS OF ELIGIBILITY TO APPLY FOR WORKER ADJUSTMENT ASSISTANCE

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing as substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 5, 1979.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 5, 1979.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 18th day of January 1979.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

Termination of Investigation; Correction

In FEDERAL REGISTER Doc. 78-34996 appearing on page 58648 in the FEDERAL REGISTER of December 15, 1978, the fourth paragraph should be corrected to read as follows:

"The date of the petition in this case is November 1, 1978. Since workers separated from employment at the West Hempstead, New York plant of Dowen Zier Knits, Incorporated prior to November 1, 1977, are not eligible to apply for program benefits under Title II, Chapter 2, Subchapter B of the Trade Act of 1974, continuation of this investigation would serve no purpose. Consequently, the investigation has been terminated."

Signed at Washington, D.C. this 16th day of January 1979.

[TA-W-4146]

GAF CORP., PHOTO AND REPRODUCTION DIVISION, ATLANTA, GA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4146: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on September 13, 1978 in response to a worker petition received on September 11, 1978 which was filed on behalf of workers and former workers producing photo sensitized color and black and white films, color sensitized photo paper, amateur cameras, other cameras and accessories and medical and industrial X-ray films at the Photo and Reproduction Division of GAF Corporation, Atlanta, Georgia. The investigation revealed that the workers distributed photographic film, photographic paper and precessing chemicals for both color and black and white photography produced by the 46 Jarvis Street, Binghamton, New York plant of GAF Corporation.

The Notice of Investigation was published in the FEDERAL REGISTER on September 26, 1978 (43 FR 43588). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Photo and Reproduction Division of GAF Corporation, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of photographic films and plates and photographic paper increased absolutely and relative to domestic production from 1976 to 1977 and in the first half of 1978 compared to the same period in 1977.

U.S. imports of photographic chemicals increased absolutely and relative to domestic production each year from 1973 to 1976 before decreasing slightly in 1977.

The Photo and Reproduction Division of GAF Corporation, Atlanta, Georgia acts as a distributor for photographic products produced only at one manufacturing facility of GAF Corporation, GAF Photo Products at 46 Jarvis Street, Binghamton, New York. Workers at that plant were certified as eligible to apply for Trade Adjustment Assistance on March 14, 1978 (TA-W-2293).

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with photographic products distributed by the Photo and Reproduction Division of GAF Corporation, Atlanta, Georgia contributed importantly to the decline in sales and to the total or partial separation of workers of that division of the firm. In accordance with the provisions of the Act, I make the following certification:

All workers at the Photo and Reproduction Division of GAF Corporation, Atlanta, Geogia who became totally or partially separated from employment on or after September 6, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 17th day of January 1979.

JAMES F. TAYLOR,
Director, Office of Management, Administration, and Planning.

[TA-W-4557]

GAYLOR MANUFACTURING CO., ASHLAND, VIRGINIA

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4557: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 28, 1978 in response to a worker petition received on December 26, 1978 which was filed on behalf of workers and former workers producing men's and women's shirts at Gaylor Manufacturing Company, Ashland, Virginia. The investigation revealed that the plant primarily produces men's and women's shirts and blouses.

The Notice of Investigation was published in the FEDERAL REGISTER on January 5, 1979 (44 FR 1485). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Gaylor Manufacturing Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of men's and boy's woven dress and business shirts increased absolutely and relatively in 1977 compared to 1976 and then increased absolutely in the first nine months of 1978 compared to the same period in 1977.

U.S. imports of men's and boys' knit sport and dress shirts, excluding T-shirts, increased absolutely and decreased relatively in 1977 compared to 1976 and then increased absolutely in the first nine months of 1978 compared to the same period of 1977.

U.S. imports of women's, misses' and children's blouses and shirts increased absolutely and decreased relatively in 1977 compared to 1976 and then increased absolutely in the first nine months of 1978 compared to the same period of 1977.

V 4 4 / 1 9

Customers surveyed indicated that they had decreased purchases from Gaylor Manufacturing Company and increased purchases of imported men's and women's shirts.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's and women's shirts and blouses produced at Gaylor Manufacturing Company contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Gaylor Manufacturing Company, Ashland, Virginia engaged in employment related to the production of men's and women's shirts and blouses who became totally or partially separated from employment on or after December 21, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 18th day of Janaury 1979.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4394, TA-W-4394A, and TA-W-4394B: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 16, 1978 in response to a worker petition received on November 13, 1978 which was filed by the Knitgoods Union, Local 190, International Ladies' Garment Workers' Union on behalf of workers and former workers producing women's dresses and woven sportswear and children's outerwear, sweaters, and pants at Infanta Knitting Mills, Incorporated, Philadelphia, Pennsylvania. The investigation revealed that the manufacturing plant is located in Rockledge, Pennsylvania. The investigation was expanded to include the warehouse in Southampton, Pennsylvania and sales office in New York, New York. The investigation revealed that the plant primarily produces girls' sweaters.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55011). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Infanta Knitting Mills, Incorporated, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of women's, misses' and children's sweaters increased from 1975 to 1976. In 1977, imports of women's, misses' and children's sweaters increased 9.0 percent over the average level of imports for the years 1973 through 1976. The ratio of imports of sweaters to domestic production 1977 was above the import to domestic production ratio recorded in each year in the 1973 to 1975 time period.

A survey of Infanta's major customers for the years ended June 30, 1977 and June 30, 1978 was conducted by the U.S. Department of Commerce. All of the customers surveyed increased purchases of imports while reducing purchases from Infanta.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with girls' sweaters produced at Infanta Knitting Mills, Incorporated, Rockledge, Pennsylvania contributed importantly to the decline in sales or production and to the total or partial separation of workers of that plant, of the Southampton, Pennsylvania warehouse and the New York, New York sales office. In accordance with the provisions of the Act, I make the following certification:

All workers of the Rockledge, Pennsylvania plant, the Southampton, Pennsylvania warehouse and the New York, New York sales office of Infanta Knitting Mills, Incorporated who became totally or partially separated from employment on or after September 1, 1978 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 15th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[TA-W-4396]

MODE KNITTING MILLS, INC., PHILADELPHIA, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4396: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 22 of the Act.

The investigation was initiated on November 16, 1978 in response to a worker petition received on November 14, 1978 which was filed by the Knitgoods Union, International Ladies' Garment Workers' Union on behalf of workers and former workers producing men's and ladies' sweaters and sweater shirts at Mode Knitting Mills, Incorporated, Philadelphia, Pennsylvania. The investigation revealed that Mode also produces some sweater parts, which consist primarily of collars.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55011). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Mode Knitting Mills, Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That sales or production, or both, of the firm or subdivision have decreased absolutely.

Production of men's and ladies' sweaters, sweater shirts and collars increased, in both quantity and value, in 1977 compared to 1976 and in the first eleven months of 1978 compared to the same period of 1977. Production is equivalent to sales at Mode Knitting Mills.

CONCLUSION

After careful review, I determine that all workers of Mode Knitting Mills, Incorprated, Philadelphia, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 15th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

[TA-W-4241]

NIFFTY CREATIONS, INC. LINDENHURST, N.Y.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4241: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 4, 1978 in response to a worker petition received on October 2, 1978 which was filed on behalf of workers and former workers producing ladies' jackets and blazers at Niffty Creations, Incorporated, Lindenhurst, New York.

The Notice of Investigation was published in the FEDERAL REGISTER on October 20, 1978 (43 FR 49060-61). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Niffty Creations, Inc., its manufacturer, customers of the manufacturer, the International Ladies' Garment Workers' Union, the U.S. Department of Commerce, the U.S. International Trade Commission, the National Cotton Council of America, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with those produced by the firm or appropriate subdivision have contributed importantly to the total or partial separation, or threat thereof, and to the absolute decline in sales and/or production.

Evidence developed during the Department's investigation revealed that the closure of Niffty Creations was attributable to the loss of its management. Subsequent to its closure Niffty Creations was purchased by another apparel contractor. The new company occupies the same production facilities as Niffty Creations and uses the same machinery to produce ladies' raincoats and blazers. Almost all of the workers of Niffty Creations were hired by the new contractor.

CONCLUSION

After careful review, I determine that all workers of Niffty Creations, Incorporated, Lindenhurst, New York are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 16th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

[TA-W-4397]

PROGRESSIVE KNITTING MILLS OF PENNSYLVANIA, INC., PHILADELPHIA, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4397: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 16, 1978 in response to a worker petition received on November 14, 1978 which was filed by the Knitgoods Union, International Ladies' Garment Workers' Union on behalf of workers and former workers producing men's and boys' swimwear at Progressive Knitting Mills of Pennsylvania Incorporated, Philadelphia, Pennsylvania. The investigation revealed that the plant primarily produces men's and boys' swimming trunks and tennis shorts.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55011). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Progressive Knitting Mills of Pennsylvania Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Evidence developed in the course of the investigation revealed that customers of Progressive did not increase purchases of imported men's and boys' swimming trunks or tennis shorts.

The Department conducted a survey of customers of Progressive Knitting Mills of Pennsylvania, Incorporated. None of the customers surveyed reduced purchases of men's swimming trunks and tennis shorts from Progressive and increased purchases of imported men's swimming trunks and athletic shorts in the relevant time period.

The average number of production employees at Progressive Knitting Mills increased in the fourth quarter of 1977 and in each of the first three quarters of 1978 compared to the same quarters one year earlier. The average number of employees increased in October and November of 1978 compared to the same months of 1977. The layoffs that took place in second and third quarters of 1978 were less severe than those that had taken place in the same period in 1977.

CONCLUSION

After careful review, I determine that all workers of Progressive Knitting Mills of Pennsylvania, Incorporated, Philadelphia, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 15th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

QUEEN CASUALS, INC., PHILADELPHIA, PA., PUNXSUTAWNEY, PA., ATCO, N.J.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4398, 4398A, and 4398B: Investigations regarding certification of eligibility to apply for worker adjust-

JAN 26 1979 UMI

V 44/19

ment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 16, 1978 in response to a worker petition received on November 14, 1978 which was filed by the Knitgoods Union, Local 190, International Ladies' Garment Workers' Union on behalf of workers and former workers producing women's sportswear including skirts, pants, shorts, pant suits, blouses, shirts and sweaters at the Philadelphia, Pennsylvania plant of Queen Casuals, Incorporated. The investigation was expanded to cover workers producing women's sportswear at the Punxsutawney, Pennsylvania and the Atco, New Jersey plants of Queen Casuals, Incorporated.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55011-12). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Queen Casuals, Incorporated, its customers, the National Cotton Council of America, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of women's, misses' and children's skirts increased in the first three quarters of 1978 compared to the same period in 1977.

U.S. imports of women's, misses' and children's slacks and shorts increased in 1977 compared to 1976 and increased in the first three quarters of 1978 compared to the same period in 1977.

U.S. imports of women's, misses' and children's suits, including pant suits, increased in the first three quarters of 1978 compared to the same period in 1977.

U.S. imports of women's, misses', and children's blouses and skirts increased in 1977 compared to 1976 and increased in the first three quarters of 1978 compared to the same period in 1977.

U.S. imports of women's, misses', and children's sweaters increased both absolutely and relative to domestic production in each successive year from 1973 through 1976 when the ratio of imports to domestic production reached 141.9 percent. In 1977, imports of sweaters were 9.0 percent above the average level of imports for the years 1973 through 1976. The ratio of imports of sweaters to domestic production in 1977 was above the import to domestic production ratio recorded in each year in the 1973 through 1975 time period.

A Departmental survey of customers of Queen Casuals, Incorporated indicated that some customers decreased their purchases from Queen Casuals, Incorporated and increased purchases of imported women's sportswear from 1976 to 1977 and in the first three quarters of 1978 compared to the same period in 1977.

CONCLUSION

After careful review, I determine that all workers of the Philadelphia and Punxsutawney, Pennsylvania and Atco, New Jersey facilities of Queen Casuals Incorporated contributed importantly to the decline in sales or production and to the total or partial separation of workers of those plants. In accordance with the provisions of the Act I make the following certification:

All workers of the Philadelphia, Pennsylvania, the Punxsutawney, Pennsylvania and the Atco, New Jersey plants of Queen Casuals, Incorporated who became totally or partially separated from employment on or after November 13, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 15th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[TA-W-4521]

STEFFI FASHIONS, INC., NEW YORK, N.Y., PATERSON, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4521: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 14, 1978 in response to a worker petition received on December 11, 1978 which was filed on behalf of workers and former workers producing ladies' outerwear at the New York City and Paterson, New Jersey locations of Steffi Fashions, Incorporated. The investigation revealed that the firm primarily produces women's outer coats, jackets and raincoats.

The Notice of Investigation was published in the FEDERAL REGISTER on December 26, 1978 (43 FR 60243). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of the Steffi Fashions, Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. With respect to workers of the New York City sales office without regard to whether any of the other criteria have been met, the following criterion has not been met.

That sales or production, or both of the firm or subdivision have decreased absolutely.

The investigation revealed that sales of women's outer coats, jackets and raincoats at Steffi Fashions increased in the one-year period from December, 1977, through November, 1978 compared with the like period of the previous year. Sales increased in each of the first three quarters of 1978 compared with the like quarters of 1977.

With respect to workers of the Paterson, New Jersey, plant of Steffi Fashions, without regard to whether any of the other criteria have been met, the following criterion has not been met:

That sales or production, or both of the firm or subdivision have decreased absolutely.

U.S. imports of women's, misses' and children's coats and jackets increased from 2252 thousand dozen in 1976 to 2723 thousand dozen in 1977. Imports decreased from 2081 thousand dozen in the first three quarters of 1977 to 1906 thousand dozen in the like period of 1978. The ratio of imports to domestic production increased from 48.3 percent in 1976 to 54.9 percent in 1977.

U.S. imports of women's misses' and children's raincoats increased from 191 thousand dozen in 1976 to 261 thousand dozen in 1977. Imports increased from 116 thousand dozen in the first half of 1977 to 210 thousand dozen in the first half of 1978. The ratio of imports to domestic production increased from 36.8 percent in 1976 to 50.4 percent in 1977.

Production increased in December, 1977—the earliest month of possible certification coverage given the petition date of November 30, 1978—compared to the previous month. Production in the first 11 months of 1978 was higher than in the same period of 1977. Similarly, company sales were higher in the first 11 months of 1978 than in the same period of the previous year.

JA 26 79 UMI

CONCLUSION

After careful review, I determine that all workers at the Paterson, New Jersey, plant of Steffi Fashions, Inc., and the New York City sales office are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 16th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

[TA-W-4482]

TAMI SPORTSWEAR, SAN FRANCISCO, CALIF.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4482: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on December 6, 1978 in response to a worker petition received on November 13, 1978 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' sportswear such as sweaters, skirts, jackets, blouses, pants, shorts and other garments. The investigation revealed that the plant primarily produces skirts, pants, shorts, culottes, blazers and vests and imports sweaters and blouses.

The Notice of Investigation was published in the FEDERAL REGISTER on December 19, 1978 (43 FR 59165-6). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Tami Sportswear, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated.

The average number of production workers at Tami Sportswear increased in 1977 compared to 1976 and increased in 1978 compared to 1977. The average weekly hours worked per employee did not change significantly during this period.

The petitioners allege that layoffs at Tami Sportswear occurred in 1974. Although layoffs did occur in September, 1974 when the company reorganized production operations, Section 223 (b) (1) of the Trade Act of 1974 provides that adjustment assistance not be granted to workers separated more than one year before the date of the petition. The petition in this case was dated August 29, 1978.

CONCLUSION

After careful review, I determine that all workers of Tami Sportswear, San Francisco, California are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 18th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[TA-W-4327]

TRW DOT DIVISION, CHESHIRE, CONN.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4327: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 2, 1978 in response to a worker petition received on October 31, 1978 which was filed on behalf of workers and former workers producing button snaps, rivets and burrs at TRW Dot Division, Cheshire, Connecticut.

The Notice of Investigation was published in the FEDERAL REGISTER on November 13, 1978 (43 FR 52564). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of TRW Dot Division, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

None of the customers of TRW Dot Division who were surveyed purchased imported buttons and tacks, rivets and burrs, or snaptites and staples.

CONCLUSION

After careful review, I determine that all workers of TRW Dot Division, Cheshire, Connecticut are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[TA-W-2849]

UNION RAILROAD CO., EAST PITTSBURGH, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

On May 26, 1978, the Director of the Office of Trade Adjustment Assistance issued a Notice of Termination of Investigation (43 FR 25500) in response to a petition which was filed by the Brotherhood of Locomotive Engineers on behalf of engineers and firemen now or formerly engaged in transporting of raw materials into the U.S. Steel Corporation plants, interplant moves and carrying finished products from the plants to interchange points at Union Railroad Company, East Pittsburgh, Pennsylvania, (TA-W-2849). The investigation was terminated on the grounds that the group of workers covered by the petition were included in the group of workers covered in a separate petition, (TA-W-2605), filed by the United Transportation Union.

On August 9, 1978, the Department issued a Notice of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance (43 FR 36714) in response to the petition which was filed by the United Transportation Union on behalf of workers and former workers engaged in railroad service to the U.S. Steel Corporation and other companies at Union Railroad Company, East Pittsburgh, Pennsylvania, (TA-W-2605). The nega-

V 44 / 19 J A 26 79 UMI

tive determination was based on insignificant total or partial separations at the firm. The determination was applicable to all workers (including engineers and firemen) of Union Railroad Company, East Pittsburgh, Pennsylvania.

On the basis of additional information that the pattern of layoffs may have differed as between the engineers and firemen, on the one hand, and the other railroad personnel, on the other, the Director of the Office of Trade Adjustment Assistance, on his own motion, reopened the investigation, TA-W-2849, to determine the eligibility of engineers and firemen for adjustment assistance. The Notice of Investigation was published in the FEDERAL REGISTER on October 31, 1978, (43 FR 50762).

The determination of TA-W-2849 was based upon information obtained principally from officials of Union Railroad Company, its customers and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separation, or threat thereof, and to the absolute decline in sales or production.

The investigation revealed that layoffs of engineers and firemen followed seasonal trends. Furthermore, iron ore and coal worker strikes in 1977 and early 1978 plus shutdowns of certain blast furnaces and rebuilds of coke batteries also contributed to layoffs. Average annual employment of these workers, as measured by train crews, increased in 1977 compared with 1976, and increased during the period January through October 1978 compared with the same period in 1977.

CONCLUSION

After careful review, I determine that the engineers and firemen of Union Railroad Company, East Pittsburgh, Pennsylvania, are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C., this 19th day of January 1979.

JAMES F. TAYOR,
Director, Office of Management, Administration, and Planning.

[TA-W-4357]

WASHINGTON PORCELAIN CO., WASHINGTON, N.J.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4357: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 7, 1978 in response to a worker petition received on November 6, 1978 which was filed on behalf of workers and former workers producing switch plates, castings, pouring cups, light fixtures known as industrial porcelain at Washington Porcelain Company, Washington, New Jersey.

The Notice of Investigation was published in the FEDERAL REGISTER on November 17, 1978 (43 FR 53852-53853). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Washington Porcelain Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

The Department conducted a survey of Washington Porcelain's customers. The survey results indicated customers did not purchase switch plates, castings, pouring cups, or light fixtures directly or indirectly from foreign sources during the period 1976 to June 1978.

CONCLUSION

After careful review, I determine that all workers of Washington Porcelain Company, Washington, New Jersey are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 18th day of January 1979.

HARRY J. GILMAN,
Supervisory International Economist, Office of Foreign Economic Research.

[TA-W-4402]

WEXLER KNITTING MILLS, INC., PHILADELPHIA, PA.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4402: Investigation regarding certification of eligibity to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 16, 1978 in response to a worker petition received on November 14, 1978 which was filed by the Knitgoods Union, International Ladies' Garment Workers' Union on behalf of workers and former workers producing men's and boys' and ladies' sweaters at Wexler Knitting Mills, Incorporated in Philadelphia, Pennsylvania. The investigation revealed that the plant primarily produces men's and boys' sweaters.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55011-12). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Wexler Knitting Mills, Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. Without regard to whether any of the other criteria have been met, the following criterion has not been met:

That sales or production, or both, of the firm or subdivision have decreased absolutely.

Sales of men's and boys' sweaters, in both quantity and value, increased at Wexler Knitting Mills, Incorporated in 1977 compared with 1976 and continued to increase in the first ten months of 1978 compared with the like period of 1977. Sales and production are equivalent at Wexler Knitting Mills.

CONCLUSION

After careful review, I determine that all workers of Wexler Knitting Mills, Incorporated in Philadelphia, Pennsylvania are denied eligibility to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 15th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research

[FR Doc. 79-2662 Filed 1-25-79; 8:45 am]

[4510-28-M]

[TA-W-4403]

WILSHIRE KNITTING MILLS, INC., PHILADELPHIA, PA.

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-4403: Investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on November 16, 1978 in response to a worker petition received on November 14, 1978 which was filed by the Knitgoods Union, International Ladies' Garment Workers' Union on behalf of workers and former workers producing ladies' sweaters at Wilshire Knitting Mills, Incorporated, Philadelphia, Pennsylvania. The investigation revealed that the plant produces men's, ladies' and children's sweaters.

The Notice of Investigation was published in the FEDERAL REGISTER on November 24, 1978 (43 FR 55011-12). No public hearing was requested and none was held.

The determination was based upon information obtained principally from officials of Wilshire Knitting Mills, Incorporated, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance each of the group eligibility requirements of Section 222 of the Act must be met. It is concluded that all of the requirements have been met.

U.S. imports of women's, misses' and children's sweaters increased from 1975 to 1976. In 1977, imports of sweaters increased 9.0 percent over the average level of imports for the years 1973 through 1976. Imports increased in the first quarter of 1978 compared to the first quarter of 1977. The ratio of imports of sweaters to domestic production in 1977 was above the import to domestic production ratio recorded in each year in the 1973 to 1975 time period.

U.S. imports of men's and boys' sweaters, knit cardigans and pullovers increased from 20.4 million units in 1975 to 26.5 million units in 1976 and to 28.3 million units in 1977. Imports increased to 33.2 million units in the first three quarters of 1978 as compared to 22.6 million units in the first three quarters of 1977.

A Department of Labor survey was conducted of customers of Wilshire Knitting Mills, Incorporated. The survey revealed that major customers increased their purchases of imported sweaters and decreased their purchases from Wilshire Knitting Mills in 1977 as compared to 1976 and from January-September 1978 as compared to January-September 1977.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with men's, ladies' and children's sweaters produced at Wilshire Knitting mills, Incorporated, Philadelphia, Pennsylvania contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Wilshire Knitting Mills, Incorporated, Philadelphia, Pennsylvania who became totally or partially separated from employment on or after November 22, 1977 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974.

Signed at Washington, D.C. this 15th day of January 1979.

C. MICHAEL AHO,
Director, Office of Foreign Economic Research.

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

MEETING

Pursuant to section 10(a)(2), of the Federal Advisory Committee Act, 5 U.S.C. (App. 1976), notice is hereby given that the National Advisory Committee on Oceans and Atmsphere (NACOA) will hold a 2-day meeting on Monday and Tuesday, February 12 and 13, 1979. The sessions will be open to the public and will be held in the Penhouse, Page Building 1, 2001 Wisconsin Avenue, N.W. Washington, D.C. The session on Monday will begin at 9:00 a.m.; the Tuesday session at 8:00 a.m.

The Committee, consisting of 17 non-Federal members, appointed by the President from State and local govenment, industry, science and other appropriate areas, was established by the Congress by Pub. L. 95-63, on July 5, 1977. Its duties are to: (1) undertake a continuing review, on a selective basis, of national ocean policy, coastal zone management, and the status of the marine and atmospheric science and service programs of the United States; (2) advise the Secretary of Commerce with respect to the carrying out of the programs of the National Oceanic and Atomospheric Administration; and (3) submit an annual report to the President and to the Congress setting forth an assessment, on a selective basis, of the status of the Nation's marine and atmospheric activities, and submit such other reports as may from time to time be requested by the President or the Congress.

The tentative meeting schedule follows:

Monday, February 12, 1979

9:00-9:30 a.m.—Plenary Session—Opening Remarks, Chairman—Meeting Plans, Chairman

V 44/19
JA 26 79
UMI

9:30-10:00 a.m.—Update on Federal Reorganization for Marine and Atmospheric Affairs, Mr. M. Dubs, NACOA
10:00-10:30 a.m.—Discussion of Reactions to NACOA Report on Coastal Zone Management (Comments on Pub. L. 95-273), Ms. S. Stewart, NACOA
10:30-11:30 a.m.—Briefing upon the International Decade of Ocean Exploration, Dr. G. Gross, NSF
11:30-12:00 Noon—Working Group Sessions—Ocean Use Panel, Dr. E. Murphy, NACOA—Oil Spill Legislation; Timetable for Fisheries Conservation and Management Act; Ocean Dumping; Marine Sanctuaries—Weather and Climate Panel, Dr. W. Baum, NACOA—PROFS; Flash Flood Program; Planning for Work Shop on Future Weather Services—R&D Panel, Dr. J. Knauss, NACOA—Civil Ocean Technology
12:00-1:00—LUNCH
1:00 p.m.-5:00 p.m.—Working Group Sessions (continued)

Tuesday, February 13, 1979

8:00-9:00 a.m.—Plenary Session—Panel Reports, Panel Chairmen
9:00-10:00 a.m.—Proposed New Panel Structure, Chairman
10:00-11:00 a.m.—Future Work, Chairman
1:30 p.m.—ADJOURNMENT

Persons desiring to attend will be admitted to the extent seating is available. Persons wishing to make formal statements should notify the Chairman in advance of the meeting. The Chairman retains the perogative to impose limits on the duration of oral statements and discussions. Written statements may be submitted before or after each session.

Additional information concerning this meeting may be obtained through the Committee's Acting Executive Director, Mr. John W. Connolly, whose mailing address is: National Advisory Committee on Oceans and Atmosphere, 3300 Whitehaven Street NW. (Room 434, Page Building 1), Washington, D.C. 20235. The telephone number is (202) 254-8412.

Dated: January 25, 1979.

SAMUEL H. WALINSKY,
Executive Officer.

NATIONAL COMMISSION ON UNEMPLOYMENT COMPENSATION

MEETING

The eleventh meeting of the National Commission on Unemployment Compensation is scheduled to be held at the Ramada Inn, Rosslyn, Virginia in the Dogwood AB Room on March 8, 9, 10. The meeting will begin at 9:00 a.m. and conclude at 5:30 p.m. each day.

Requests for presenting testimony must be submitted 30 days prior to the meeting date and must indicate the topics to be discussed. Individuals and organizations requesting time must limit oral testimony to not more than ten minutes. Forty copies of written testimony must be submitted, but oral testimony should summarize any written testimony. Depending upon the number of persons and organizations requesting the opportunity to testify at a meeting, and the topics to be discussed, individuals and organizations will be notified of time and place allocated for testimony. Whenever feasible, individuals and organizations presenting similar views will be grouped together and will be handled as a panel in order to enable discussion, questioning, and responses to be developed with a view to assisting the Commission to deal with the mandate established by the Congress.

Telephone inquiries and communications concerning this meeting should be directed to: JAMES M. ROSBROW, Executive Director, National Commission on Unemployment Compensation, 1815 Lynn Street, Room 440, Rosslyn, Virginia 22209 (703) 235-2782.

Signed at Washington, D.C., this 19th day of January, 1979.

JAMES M. ROSBROW,
Executive Director, National Commission on Unemployment Compensation.

[FR Doc. 79-2432 Filed 1-25-79; 8:45 am]

[4510-30-M]

MEETING

The twelfth meeting of the National Commission on Unemployment Compensation is scheduled to be held at the Southfield Sheraton, Southfield, Michigan, in the Southfield AB Room on March 29, 30, 31. The meeting will begin at 9:00 a.m. and conclude at 5:30 p.m. each day.

Requests for presenting testimony must be submitted 30 days prior to the meeting date and must indicate the topics to be discussed. Individuals and organizations requesting time must limit oral testimony to not more than ten minutes. Forty copies of written testimony must be submitted, but oral testimony should summarize any written testimony. Depending upon the number of persons and organizations requesting the opportunity to testify at a meeting, and the topics to be discussed, individuals and organizations will be notified of time and place allocated for testimony. Whenever feasible, individuals and organizations presenting similar views will be grouped together and will be handled as a panel in order to enable discussion, questioning, and responses to be developed with a view to assisting the Commission to deal with the mandate established by the Congress.

Telephone inquiries and communications concerning this meeting should be directed to: JAMES M. ROSBROW, Executive Director, National Commission on Unemployment Compensation, 1815 Lynn Street, Room 440, Rosslyn, Virginia 22209 (703) 235-2782.

Signed at Washington, D.C., this 19th day of January, 1979.

JAMES M. ROSBROW,
Executive Director, National Commission on Unemployment Compensation.

SUBCOMMITTEE FOR SOCIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act. P.L. 92-463, the National Science Foundation announces the following meeting:

NAME: Subcommittee for Sociology of the Advisory Committee for Social Sciences.

DATE AND TIME: February 15-16, 1979—9:00 am to 4:00 pm.

PLACE: Room 321, National Science Foundation, 1800 G Street, N.W., Washington, D.C.

TYPE OF MEETING: Closed: 9:00 am-4:00 pm.

CONTACT PERSON: Ronald J. Liebert, Program Director for Sociology, Room 316, National Science Foundation, Washington, D.C. 20550, Telephone: 202 632-4204.

PURPOSE OF SUBCOMMITTEE: To provide advice and recommendation concerning support for research in the Sociology Program.

AGENDA: To review and evaluate research proposals and projects as part of the selection process for awards.

REASON FOR CLOSING: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries, and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b (c), Government in the Sunshine Act.

AUTHORITY TO CLOSE MEETING: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of P.L. 92-463. The Committee Management Officer was delegated the authority to make determinations by the Acting Director, NSF, on February 18, 1977.

SUBCOMMITTEE ON METALLURGY AND MATERIALS OF THE ADVISORY COMMITTEE FOR MATERIALS RESEARCH

Meeting

In accordance with the Federal Advisory Committee Act, P.L. 92-463, as amended, the National Science Foundation announces the following meeting:

NAME: Subcommittee for Metallurgy and Materials of the Advisory Committee for Materials Research.

DATE AND TIME: February 15 and 16, 1979—9:00 a.m.-5:00 p.m. each day.

PLACE: Room 421, National Science Foundation, 1800 G Street, N.W., Washington, D.C. 20550.

TYPE OF MEETING: Closed both days, 9:00 a.m.-5:00 p.m.

CONTACT PERSON: Dr. Herbert S. Bennett, Director, Division of Materials Research, Room 408, National Science Foundation, Washington, D.C., Telephone: (202)-632-7412.

PURPOSE OF SUBCOMMITTEE: To provide advice and recommendations concerning support for research in Ceramics.

AGENDA:

THURSDAY, February 15, 1979—9:00 a.m. to 5:00 p.m.—CLOSED.
Review and comparison of declined proposals (and supporting documentation) with successful awards under the Ceramics Program, including review of peer review materials and other privileged material.

FRIDAY, February 16, 1979—9:00 a.m. to 5:00 p.m.—CLOSED.
9:00 a.m.—Further discussions of declined proposals and awards.
12 noon—Lunch.
1 p.m.—Preparation of report on Subcommittee findings and recommendations.

REASON FOR CLOSING: The Subcommittee will be reviewing grants and declination jackets which contain the names of applicant institutions and principal investigators and privileged information contained in declined proposals. This session will also include a review of the peer review documentation pertaining to applicants. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

AUTHORITY TO CLOSE MEETING: This determination was made by the Director, NSF, pursuant to provisions of Section 10(d) of P.L. 92-463.

M. REBECCA WINKLER,
Committee Management Coordinator.

Meeting

In accordance with the Federal Advisory Committee Act, as amended, Pub. L. 92-463, the National Science Foundation announces the following meeting.

Name: Subcommittee on Anthropology (Social Anthropology) of the Advisory Committee for Behavioral and Neural Sciences.
Date and Time: February 12 and 13, 1979: 9:00 a.m. to 5 p.m. each day.
Place: National Science Foundation, 1800 G Street, N.W., Washington, D.C. 20550 Room 338.
Type of Meeting: Closed.
Contact Person: Dr. John E. Yellen, Program Director, Anthropology Program, Room 320, National Science Foundation, Washington, D.C. 20550, Telephone (202) 632-4208.
Purpose of Subcommittee: To provide advice and recommendations concerning support for research in social anthropology.
Agenda: To review and evaluate research proposals as part of the selection process for awards.
Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.
Authority to Close Meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of P.L. 92-463. The Committee Management Officer was delegated the authority to make such determina-

SUBCOMMITTEE ON MOLECULAR BIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, as amended, Pub. L. 92-463, the National Science Foundation accounces the following meeting:

Name: Subcommittee on Molecular Biology, Group B, of the Advisory Committee for Physiology, Cellular, and Molecular Biology.
Date and Time: February 12 & 13, 1979, 9:00 a.m. to 5:00 p.m. each day.
Place: Room 321, National Science Foundation, 1800 G. Street, N.W., Washington, D.C. 20550.
Type of Meeting: Closed.
Contact Person: Dr. Brian J. Johnson, Program Director, Biochemistry Program, Room 330, National Science Foundation, Washington, D.C. 20550, telephone (202) 632-4260.
Purpose of Subcommittee: To provide advice and recommendations concerning support for research in Molecular Biology.
Agenda: To review and evaluate research proposals as part of the selection process for awards.
Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.
Authority to Close Meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

M. REBECCA WINKLER,

SUBCOMMITTEE ON PUBLIC UNDERSTANDING OF SCIENCE OF THE ADVISORY COMMITTEE ON SCIENCE AND SOCIETY

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Subcommittee on Public Understanding of Science of the Advisory Committee for Science and Society.
Date: February 15 and 16, 1979. 9-5 each day.
Place: Room 651, 5225 Wisconsin Avenue, N.W., Washington, D.C.
Contact Person: Dr. Jean Intermaggio, Program Manager, Public Understanding of Science program, Office of Science and Society, Room W-668, National Science Foundation, Washington, D.C. 20550, 202-282-7770.
Type of Meeting: Closed.
Purpose of Subcommittee: To provide advice and recommendations concerning direction and priorities for Public Understanding of Science program. To provide advice and recommendations concerning support for projects in Public Understanding of Science.
Agenda: To review proposals.
Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.
Authority to Close Meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

SUBCOMMITTEE ON GENETIC BIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, as amended, Pub. L. 92-463, the National Science Foundation annouces the following meeting:

Name: Subcommittee on Genetic Biology of the Advisory Committee for Physiology, Cellular & Molecular Biology.
Date and Time: February 15-17, 1979, 9:00 AM.
Place: Room 338, National Science Foundation, 1800 G Street, NW., Washington, D.C. 20550.
Type of Meeting: Closed.
Contact Person: Dr. Philip D. Harriman, Program Director, Genetic Biology Program, Room 326, National Science Foundation, Washington, D.C. 20550, telephone (202) 632-5985.
Purpose of Subcommittee: To provide advice and recomendations concerning support for research in genetic biology.
Agenda: To review and evaluate research proposals as part of the selection process for awards.
Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries, and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.
Authority to Close Meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

POSTAL SERVICE

PRIVACY OF INFORMATION

Systems of Records Modifications

AGENCY: U.S. Postal Service.

ACTION: Final Notice of Modifications to Systems of Records.

SUMMARY: This document makes final a previously published notice of the addition of three longstanding but heretofore unpublished routine uses to systems of records. This document also provides final notice of the addition of several locations to a Postal Service system of records.

EFFECTIVE DATE: February 28, 1979.

FOR FURTHER INFORMATION CONTACT:

Mr. Philip Skelly, (202) 245-5540.

SUPPLEMENTARY INFORMATION: A complete statement of the existence and character of each of the systems of records appeared in the FEDERAL REGISTER of September 8, 1978 (43 FR 40122). On July 27, 1978, the Postal Service published for comment in the FEDERAL REGISTER (43 FR 32479) a proposal to make changes to USPS 120.050, Personnel Records—Employee Suggestion Control, USPS 120.100, Personnel Records—Performance Awards System Records, USPS 120.070, Personnel Records—General Personnel Folders (Official Personnel Folders and Records Related Thereto) and USPS 120.010, Personnel Records—Architect Engineers Selection Records. No comments were received on the proposed modifications. Accordingly, after a review of the proposed text, the Postal Service has determined to give final notice of the following modifications:

USPS 120.050—Personnel Records—Employee Suggestion Control

Add routine use as follows:

"6. Disclosure may be made to the news media from the record of an individual regarding that individual's receipt of an employee award when the information is of news interest and consistent with the public right to know."

USPS 120.100—Personnel Records—Performance Awards System Records

Add routine use as follows:

"7. Disclosure may be made to the news media from the record of an individual regarding that individual's receipt of an employee award when the information is of news interest and consistent with the public right to know."

USPS 120.070—Personnel Records, General Personnel Folder (Official Personnel Folder and Records Related Thereto)

Add routine use as follows:

"16. Information pertaining to an employee who is a retired military officer will be furnished the appropriate service finance center as required under the provisions of the Dual Compensation Act."

USPS 120.010—Personnel Records—Architect Engineers Selection Records

Add routine use as follows:

"3. To refer, where there is an indication of a violation or potential violation of law, whether civil, criminal, or regulatory in nature, to the appropriate agency, whether Federal, state or local, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto."

ADDITIONAL LOCATIONS FOR USPS 080.030, INSPECTION REQUIREMENTS—VEHICULAR VIOLATIONS RECORD SYSTEM

The Postal Service has determined that it is necessary to revise the description of the system location for USPS 080.030, Inspection Requirements—Vehicular Violations Record System. This revision does not change the general character or purpose of the system as described nor does it expand the population of individuals to whom the system applies. The modificatons merely provide a more accurate description of the affected system of records. The following constitutes final notice of the necessary changes:

USPS 080.030, Inspection Requirements—Vehicular Violations Record System

System location: ADD THE FOLLOWING:

Miami, Florida, 33102(GMF).
Jacksonville, Florida, 32099 (BMC).
Atlanta, Georgia, 30318(BMC).
Greensboro, North Carolina, 27420(BMC).
Dallas, Texas, 75221(GMF), 75222(BMC).
Houston, Texas, 77001(GMF).
San Antonio, Texas, 78296(GMF).
Memphis, Tennessee, 38101(GMF), 38136(BMC).
Biloxi, Mississippi, 39533(GMF).
New Orleans, Louisiana, 70151(GMF).
Tulsa, Oklahoma, 74101(GMF).

W. ALLEN SANDERS,
Acting Deputy General Counsel.

SECURITIES AND EXCHANGE COMMISSION

ADVISORY COMMITTEE ON OIL AND GAS ACCOUNTING

Membership and Meeting

ACTION: Announcement of Membership of the Securities and Exchange Commission Advisory Committee on Oil and Gas Accounting.

SUMMARY: The Commission announced today the membership of its Advisory Committee on Oil and Gas Accounting. The initial meeting of this Committee will be held at 9:30 a.m. on Tuesday, January 30, 1979.

FOR FURTHER INFORMATION CONTACT:

James L. Russell, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549 (202-755-0222).

SUPPLEMENTARY INFORMATION: The Advisory Committee on Oil and Gas Accounting was established to advise the Chief Accountant of the Commission on issues relating to the development of reserve recognition accounting for oil and gas producers. Formation of the committee was announced on January 4, 1979 (Securities Act Release No. 6011, 44 FR 3112). The members of the Advisory Committee are listed below.

Richard C. Adkerson, Partner, Arthur Andersen & Co., Houston, TX.
Dean M. Bloyd, Group Vice President, Tesoro Petroleum Corp., San Antonio, TX.
Horace Brock, Professor, North Texas State Univ., Denton, TX.
John C. Burton, Professor, Columbia University, New York, NY.
Burnell H. DeVoe, Jr., Chairman, Price Waterhouse & Co., New York, NY.
Kenneth B. Ford, President, Miller & Lents, Ltd., Houston, TX.
P. H. Gutknecht, Vice President, Total Petroleum (North America) Ltd., Alma, MI.
Donald C. Haley, Controller, the Standard Oil Co. (Ohio), Cleveland, OH.
B. P. Huddleston, President, B. P. Huddleston & Co., Inc., Houston, TX.
John C. Jacobsen, Controller, Shell Oil Company, Houston, TX.
Kenneth L. Johnson, Vice Chairman, Coopers & Lybrand, New York, NY.
H. P. Keplinger, President, Keplinger & Associates, Inc., Houston, TX.
Charles J. Lee, Vice President, Natomas Company, San Francisco, CA.
U. J. LeGrange, Controller, Exxon Corporation, New York NY.
C. H. Moore, Partner, Peat, Marwick, Mitchell & Co., Dallas, TX.
David Norr, Lieber & Co., Harrison, NY.
Thomas A. Petrie, The First Boston Corporation, New York, NY.
Stanley P. Porter, Vice Chairman, Arthur Young & Co., Dallas, TX.
Lee J. Seidler, Professor, New York University, New York, NY.
Gerald E. Sherrod, Vice President, Citibank N.A., New York, NY.
Mr. Thomas G. Stevens, Senior Vice President, First City National Bank of Houston, Houston, TX.

As previously announced, the first meeting of the Advisory Committee on Oil and Gas Accounting will be held at 9:30 a.m. January 30, 1979, at the Commission's headquarters, 500 North Capitol Street, Washington, D.C. The meeting will be open to the public.

Dated: January 24, 1979.

GEORGE A. FITZSIMMONS,
Secretary.

[4910-06-M]

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[FRA General Docket H-78-2]

BI-MODAL CORPORATION WAIVER PETITION

As required by 45 U.S.C. 431(c) and in accordance with 49 CFR 211.41 and 211.9, notice is hereby given that Bi-Modal Corporation (Bi-Modal) has submitted a waiver petition to the Federal Railroad Administration (FRA) requesting a waiver of compliance with several safety regulations. These regulations include 49 CFR Par 215 (Freight Car Safety Standards), 49 CFR Part 231 (Safety Appliance Standards) and 49 CFR Part 232 (Power Brake Rules).

Bi-Modal seeks the waiver of compliance with these regulations in order to permit the operation of a combined railroad-highway vehicle which Bi-Modal designates as a "RoadRailer". The "RoadRailer" vehicle, as currently proposed by Bi-Modal, is almost identical to the standard semi-trailer presently used to haul cargo over the highway. The vehicle proposed by Bi-Modal deviates from the standard highway semi-trailer principally by virtue of the existence of railway running wheels. These two railway wheels are mounted on a single axle behind the normal highway tandem wheels of the semi-trailer. The separate highway and railway running gear are selectively operable. Each running gear is mounted on the body of the vehicle with an air suspension system so that

V 4 4 / 1 9 J A 2 6 7 9 UMI

while one unit is in a running position the other unit is in a stored position.

The vehicle proposed by Bi-Modal has been described in several publications of general circulation. These publications have generally included either photographs or drawings depicting the design of this vehicle. Among the publications that may be consulted for additional descriptive information are the following: Railway Age (December 11, 1978 issue); Progressive Railroading (September 19, 1978 issue); Modern Railroads (August 1978 issue); and Traffic World (June 19, 1978 issue). Detailed information concerning the vehicle is also on file with the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration. This material is available for examination by the public during regular business hours in Room 4406, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590.

Bi-Modal states that this vehicle, when being operated on a railroad, is intended for use only in trains consisting exclusively of similar vehicles. The vehicle, according to Bi-Modal would not be used with conventional freight cars. Consequently, the vehicle is no intended for interchange service, traditional switching or classification use as presently designed by Bi-Modal. Given this intended utilization, Bi-Modal states that, in its judgment, the FRA safety regulations for traditional railroad cars are not appropriate for this vehicle even though it will be operated on interstate railroads. Additionally Bi-Modal indicates that it is not possible, given the highway operation of the vehicle, to bring the vehicle into compliance with many of the FRA safety standard. Consequently, Bi-Modal seeks a waiver of compliance with all of these standards.

The waiver sought by Bi-Modal would permit non-compliance with all of the provisions of the Freight Car Safety Standards (49 CFR Part 215). These standards include provisions which relate to the inspection of freight cars and prescribe various conditions that constitute defective components requiring prompt remedial action. Additionally, the waiver sought by Bi-Modal would permit non-compliance with all of the provisions of the Safety Appliance Standards (49 CFR Part 231). These standards include provisions that prescribe the number, location and dimensional specifications for the handholds, ladders and sill steps that each freight car must be equipped with. Finally, the waiver sought by Bi-Modal would permit non-compliance with the Power Brake Rules (49 CFR Part 232). These standards include provisions that prescribe the height of drawbars and specifications for the air brake system that each freight car must be equipped with as well as the methods for conducting inspection and operational testing of train brake systems.

The scope of the requested waiver is well illustrated by some of the design features of two prototype vehicles that have already been built by Bi-Modal. These vehicles use a two pipe airbrake system rather than the single pipe system found on conventional railroad equipment. The vehicles also use a drawbar arrangement that is approximately fifteen inches higher than that found on conventional railroad equipment. Finally, these vehicles are equipped with none of the handhold, sill steps or ladders found on conventional railroad equipment.

The waiver sought by Bi-Modal is for a temporary period not to exceed five years. During this period Bi-Modal anticipates conducting operational testing of the vehicles and, as the vehicles are proven in train service, Bi-Modal expects to construct approximately ten thousand units during this period. Bi-Modal states that once operational experience has been obtained, it would then be appropriate to create specific safety standards applicable to such vehicles.

The Railroad Safety Board (Board) of the FRA, which has been delegated responsibility for determining whether to grant waivers of compliance, has decided to hold a public hearing in this proceeding prior to rendering a decision on this request. Accordingly, a public hearing will be held a 10:00 a.m. on February 28, 1979. The hearing will be held in Room 3201 of the Trans Point Building located at 2100 Second Street SW., Washington, D.C. 20590.

The hearing will be an informal one and will be conducted by a representative designated by the Board. The hearing will be conducted in accordance with the provisions of § 211.25 of the FRA Rules of Practice (49 CFR 211.25) and will not be an adversary proceeding. The Board's representative will make an opening statement outlining the scope of the hearing and will announce any additional procedures, if necessary, at the start of the hearing.

All interested persons are invited to participate in this hearing. Additionally, interested persons are invited to participate in this proceeding by submitting written data, views or comments.

All communications concerning this proceeding must identify the appropriate docket (FRA General Docket H-78-2) and should be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 2100 Second Street SW., Washington, D.C. 20590. Communications received before March 9, 1979 will be considered by the Board before final action is taken. Comments received after that date will be considered to the extent practicable.

(Sec. 202, Federal Railroad Safety Act of 1970, as amended (45 U.S.C. 431); Sec. 1.49(n), Regulations of the Office of the Secretary of Transportation (49 CFR 1.49(n)).)

Issued in Washington, D.C. on January 22, 1979.

ROBERT H. WRIGHT,
Acting Chairman,
Railroad Safety Board.

DEPARTMENT OF THE TREASURY

Office of the Secretary

DEBT MANAGEMENT ADVISORY COMMITTEES

Renewal

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 5 U.S.C. App. I, Supp. III), the Secretary of the Treasury has approved continuation of the following industry committees as advisory committees:

Titles: (1) Government Borrowing Committee of the American Bankers Association.

(2) U.S. Government and Federal Agencies Securities Committee of the Public Securities Association.

Purpose: The committees are utilized by the Secretary of the Treasury and his staff for advice in carrying out Federal financing and public debt management. They consider commercial operations, advise the Secretary of the Treasury and his staff and make reports and recommendations.

Statement of Public Interest: The membership of these committees represents a cross section of the financial community. The members are intimately acquainted with commercial and financial information and day-to-day market factors relevant to Treasury debt management operations. It is in the public interest to insure that the Secretary of the Treasury and his staff have this supplemental information in order to manage the public debt.

Authority for these committees will expire two years from the date new charters are signed by the designated Treasury official and filed with the appropriate Committee of the Senate and the House of Representatives.

Dated: January 23, 1979.

WALTER J. MCDONALD,
Acting Assistant Secretary,
Administration.

UNITED STATES METRIC BOARD

PUBLIC FORUM

Notice is hereby given that the United States Metric Board will hold a Public Forum on Thursday, February 15, 1979, from 2 p.m. to 5 p.m. The forum will be held in conjunction with the Board's regular February meeting which is also open to the public. The forum will be held at the Dallas Hilton Hotel, Embassy Garden Room, 1914 Commerce Street, Dallas, Texas.

The purpose of the forum will be to allow the Board to receive comments about voluntary metric conversion from representatives of groups or organizations and from individuals. Those who wish to participate are invited to submit statements or questions in advance to Ms. Suzanne Lowery, Office of Public Information, United States Metric Board, The Magazine Building, 1815 N. Lynn St., Suite 301, Arlington, Virginia 22209. For further information call 703/235-1933.

LOUIS F. POLK,
Chairman,
United States Metric Board.

INTERSTATE COMMERCE COMMISSION

AGRICULTURAL COOPERATIVES

Notice to the Commission of Intent To Perform Interstate Transportation for Certain Nonmembers

JANUARY 19, 1979.

The following Notices were filed in accordance with section 10526 (a)(5) of the Interstate Commerce Act. These rules provide that agricultural cooperatives intending to perform nonmember, nonexempt, interstate transportation must file the Notice, Form BOP 102, with the Commission within 30 days of its annual meetings each year. Any subsequent change concerning officers, directors, and location of transportation records shall require the filing of a supplemental Notice within 30 days of such change. The name and address of the agricultural cooperative, the location of the records, and the name and address of the person to whom inquiries and correspondence should be addressed, are published here for interested persons. Submission of information that could have hearing upon the propriety of a filing should be directed to the Commission's Bureau of Investigations and Enforcement, Washington, D.C. 20423. The Notices are in a central file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER NOTICES

January 17, 1979.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination Rules* (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before February 7, 1978. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

The following applicants seek to operate as a *common carrier*, by motor vehicles, over irregular routes.

MC 88368 (Sub-E5) (Correction), filed May 15, 1974, published in the Federal Register, issue of June 28, 1974, and partially republished, as corrected, this issue. Applicant: CARTWRIGHT VAN LINES, INC., 1109 Cartwright Avenue, Grandview, MO 64030. Representative: Charles Ephrain, Suite 600, 1250 Connecticut Ave., N.W., Washington, D.C. 20036. *Household Goods*, from points in CT to points in OR, (Gateway eliminated: Philadelphia, PA, points in Jefferson County, OH, Bloomington, IL and points within 25 miles thereof, Newton, KS and points within 15 miles thereof, points in CO, and points in WA east of the Cascade mountains. The purpose of this republication is to add the above territorial point previously omitted. The remainder of this letter-notice remains as previously published.

MC 88368 (Sub-E47) (Correction), filed May 15, 1974, published in the Federal Register, issue of August 25, 1974, and partially republished, as corrected, this issue. Applicant: CARTWRIGHT VAN LINES, INC., 1109 Cartwright Avenue, Grandview, MO 64030. Representative: Charles Ephrain, Ephrain and Clark, Suite 600, 1250 Connecticut Ave., N.W., Washington, D.C. 20036. (8) *Household Goods*, from points in RI to points in WA, (Gateways eliminated: S. Attleboror, MA; Philadelphia, PA; Steubenville, OH; Clinton, IL; Newton, KS and Sterling, CO. The purpose of this partial republication is to include part (8) above, previously omitted. The remainder of this letter-notice remains as previously published.

MC 107012 (Sub-E233), filed October 22, 1976. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, IN 46801. Representatives: David D. Bishop and Gary M. Crist (same as above). *New furniture*, crated, (1) from Waldron, AK to points in AR, NV and UT (Mexico, TX; Albuquerque, NM)* (2) from Houston, TX to points in AK, (points in Sedgewich County, KS)* (3) from Mexico, TX to points in AK (points in Sedgewich County, KS)* (4) from Albuquerque, NM to points in AK, (points in Sedgewich County, KS)* (5) from Clovis, NM to points in AK, (points in Sedgewich County, KS)* (6) from B ton, AR to points in Cochise, Gila, Graham and Greenlee, AZ, (Mexico, TC)* (7) from Waldron, AR to points in Butte, Lassen, Modoc, NV, Plumas, Shasta, Sierra, Siskiyou, Yuba, Ingo, Fresno, Kings, Tulane, Kern, Los Angeles, Orange, San Luis Obispo, Santa Barbara, Ventura, San Bernardino, Imperial, Riverside, San Diego, Alameda, Alpine, Amador, Calaveras, Colusa, Contra Costa, Eldorado, Madera, Marin, Mariposa, Merced, Mono, Monterey, NAPA, Placer, San Benito, Sacramento, San Francisco, San Joaquin, San Mateo, Santa Clara, Santa Cruz, Solano, Sonoma, Stanislaus, Sutter, Tuolumne, and Yolo counties, CA; and those points in Ada, Adams, Boise, Camas, Canyon, Custer, Elmore, Gem, Gooding, Lemhi, Owyhee, Payette, Twin Falls, Valley, Washington, Bannock, Bear Lake, Bingham, Blaine, Bonneville, Butte, Caribou, Cassia, Clark, Franklin, Fremont, Jefferson, Jerome, Lincoln, Madison, Minidoka, Oneida, and Power counties, ID. (Mexico, TX or Albuquerque, NM)* Gateways eliminated denoted by asterisks above.

MC 107012 (Sub-E234), filed October 22, 1976. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Law Dept., Fort Wayne, IN 46801. Representatives: David D. Bishop and Gary M. Crist (same as above). *Voting Machines*, uncrated. (1) from the facilities of AVM Corporation near Marion, SC to points in AK, (2) from the facilities of AVM Corporation near Marion, SC to points in Allen, Anderson, Bourbon, Butler, Chautauqua, Cherokee, Coffey, Cowley, Crawford, Elk, Greenwood, Labette, Linn, Lyon, Montgomery, Neosho, Wilson, Woodson, Barber, Barton, Chase, Clay, Cloud, Dickinson, Ellsworth, Geary, Harper, Harvey, Jewell, Kingman, Lincoln, Marion, McPherson, Mitchell, Morris, Osborne, Ottawa, Pratt, Reno, Republic, Rice, Riley, Russell, Saline, Sedgwick, Smith, Stafford, Sumneer, Washington, Cheyenne, Decatur, Ellis, Graham, Greeley, Gove, Lane, Logan, Ness, Norton, Phillips, Rawlins, Rooks, Rush, Scott, Sheridan, Sherman, Thomas, Trego, Wallace, Wichita, Clark, Comanche, Edwards, Finney, Ford, Grant, Gray, Hamilton, Haskell, Hodgeman, Kearny, Kiowa, Meade, Morton, Pawnee, Seward, Stanton, and Stevens Counties, KS, and those points in Barry, Barton, Camden, Cedar, Christian, Dade, Dallas, Douglas, Greene, Hickory, Howell, Jasper, Laclede, Lawrence, McDonald, Newton, Ozark, Polk, Stone, Taney, Texas, Vernon, and Webster Counties, MO, (Gateway eliminated: Tulsa, OK).

MC 107012 (Sub-E236), filed October 22, 1976. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, IN 46801. Representative: David A. Bishop (same as above). *New pianos*, uncrated, (1) from points in Autauga, Bibb, Blount, Calhoun, Chambers, Cherokee, Chilton, Clay, Cleburne, Coosa, Cullman, Elmore, Etowah, Jefferson, Lee, Randolph, St. Clair, Shelby, Talladega, Tallapoosa, Barbour, Bullock, Coffee, Covington, Crenshaw, Dale, Geneva, Henry, Houston, Macon, Montgomery, Pike, Russell, De Kalb, Jackson, Limestone, Madison, Marshall, and Morgan Counties, AL, to points in Butte, Lassen, Modoc, Nevada, Plumas, Shasta, Sierra, Siskiyou, Yuba, Glenn, Humboldt, Lake, Mendicino, Tehama and Trinity counties, CA (Grand Haven, MI*); (2) from points in Salt Lake County, UT, to points in AR, LA and MS (Vinita, Oklahoma City, or points in Bechham County, OK)*; (3) from points in Salt Lake County, UT, to points in Chester, Crockett, Dyer, Fayette, Gibson, Hardeman, Haywood, Lake, Lauderdale, McNairy, Madison, Obion, Shelby and Tipton Counties, TN, and points in Andrews, Archer, Baylor, Blanco, Borden, Bosque, Brown, Burnet, Callahan, Clay, Coke, Coleman, Comanche, Concho, Cooke, Coryell, Crane, Crockett, Crosby, Dawson, Denton, Dickens, Eastland, Ector, Edwards, Erath, Fisher, Gaines, Garza, Gillespie, Glasscock, Hamilton, Haskell, Hill, Hood, Howard, Irion, Jack, Johnson, Jones, Kendall, Kent, Herr, Kimble, King, Knox, Lampasas, LLamo, Lubbock, Lynn, McCulloch, McLennan, Martin, Mason, Mendard, Midland, Mills, Mitchell, Montague, Nolan, Palo Pinto, Parker, Reagan, Runnels, San Saba, Schleicher, Scurry, Shackelford, Somervell, Stephens, Sterling, Stonewall, Sutton, Tarrant Taylor, Terry, Throckmorton, Tom Green, Upton, Val Verde, Wise, Yoakum, Young, Aransas, Atascosa, Bandera, Bee, Bexar, Brooks, Cameron, Dimmit, Duval, Frio, Goliad, Hidalgo, Jim Hogg, Jim Wells, Kaines, Kenedy, Kinney, Kleberg, La Salle, Live Oak, McMullen, Maverick, Medina, Nueces, Real, Refugio, San Patricio, Starr, Uvalde, Webb, Willacy, Wilson, Zapata, Zavala, Austin, Bastrop, Bell, Brazoria, Brazos, Burleson, Caldwell, Calhoun, Chambers, Colorado, Comal, DeWitt, Falls, Fayette, Fort Bend, Galveston, Gonzales, Grimes, Guadalupe, Hardin, Harris, Hays, Houston, Jackson, Jasper, Jefferson, Lavaca, Lee, Leon, Liberty, Limestone, Madison, Matagorda, Milam, Montgomery, Newton, Orange, Polk, Robertson, San Jacinto, Travis, Trinity, Tyler, Victoria, Walker, Waller, Washington, Wharton, Williamson, Anderson, Angelina, Bowie, Camp, Cass, Cherokee, Collin, Dallas, Delta, Ellis, Fannin, Franklin, Freestone, Grayson, Gregg, Harrison, Henderson, Hopkins, Hunt, Kaufman, Lamar, Marion, Morris, Nacogdoches, Navarro, Panola, Rains, Red River, Rockwell, Rusk, Sabine, San Augustine, Shelby, Smith, Titus, Upshur, Van Zandt and Wood Counties, TX (Vinita, Oklahoma City, or Becham County, OK). (Gateway eliminated indicated by asterisk)

MC 107012 (Sub-E-389), filed May 13, 1974. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, IN 46801. Representative: David D. Bishop and Gary M. Crist (same as above). *New Furniture*, Crated, (1)(a) from points in AL to points in AZ, (Camden, AR),* (b) from points in AL to points in CA, (Camden, AR), *(c) from points in AL to points in CO, (Little Rock, AR),* (d) from points in AL to points in ID, (Little Rock, AR),* (e) from points in AL to points in IA, (Burlington, IA),* (f) from points in AL to points in KS, Little Rock),* (g) from points in AL to points in MN, (Burlington, IA),* (h) from points in AL to points in MT, (points in Greene County, AR),* (i) from points in AL to points in NV, (Little Rock, AR),* (j) from points in AL to points in NM, (Camden, AR),* (k) from points in AL to points in ND, (points in Greene County, AR),* (l) from points in AL to points in OK, (Little Rock, AR),* (m) from points in AL to points in OR, (Camden, AR),* (n) from points in AL to points in SD, (Points in Greene County, AR),* (o) from points in AL to points in UT, (Little Rock, AR),* (p) from points in AL to points in WA, (Little Rock, AR),* (q) from points in AL to points in WY, (Fort Smith, AR),* (2) from points in Autauga, Bibb, Blount, Calhoun, Chambers, Cherokee, Chilton, Clay, Cleburne, Coosa, Cullman, Elmore, Etowah, Jefferson, Lee, Randolph, St. Clair, Shelby, Talladega and Tallapoosa, AL, to points in Bienville, Bossier, Caddo, Claiborne, DeSoto, Natchitoches, Reo River, Sabine and Webster Parishes, LA (Camden, AR) points in Broome, Cayuga, Chemung, Chenango, Courtland, Delaware, Madison, Onondaga, Ontario, Otsego, Schoharie, Schuryler, Seneca, Tioga, Tompkins, Wayne, Yates, Allegany, Cattaraugus, Chatauqua, Erie, Genesee, Livingston, Monroe, Niagara, Orleans, Steuben, Wyoming, Herkimer, Jefferson, Lewis, Oneida, Oswego, St. Lawrence, Clinton, Essex, Franklin, Fulton, Hamilton, Montgomery, Saratoga, Schenectady, Warren and Washington Counties, NY (*Newton Falls, OH), points in Cameron, Clarion, Crawford, Elk, Erie, Forest, Jefferson, McKean, Mercer, Potter, Venango, Warren, Adams, Bedford, Blair, Cambria, Centre, Clearfield, Clinton, Cumberland, Dauphin, Franklin, Fulton, Huntingdon, Juniata, Lycoming, Mifflin, Montour, Northumberland, Perry, Snyder, Tioga, Union, Bradford, Carbon, Columbia, Lackawanna, Luzerne, Monroe, Pike, Sullivan, Susquehanna, Wayne, Wyoming, Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Somerset, Washington, and Westmoreland Counties, PA (Newton Falls, OH* points in TX (*Camden, AR), (3) from points in Barbour, Bullock, Coffee, Covington, Crenshaw, Dale, Geneva, Henry, Houston, Macon, Montgomery, Pike and Russell Counties, AL, to points in Bienville, Bossier, Caddo, Claiborne, DeSoto, Nathchitoches, Reo River, Sabine and Webster Parishes, LA (*Camden, AR) points in Broome, Cayuga, Chemung, Chenango, Courtland, Delaware, Madison, Onondaga, Ontario, Otsego, Schoharie, Schuyler, Seneca, Tioga, Tompkins, Wayne, Yates, Allegany, Cattaraugus, Chatauqua, Erie, Genesee, Livingston, Monroe, Niagara, Orleans, Steuben, Wyoming, Herkimer, Jefferson, Lewis, Oneida, Oswego, St. Lawrence, Clinton, Essex, Franklin, Fulton, Hamilton, Montgomery, Saratoga, Schenectady, Warren and Washington Counties, NY (*Newton Falls, OH), points in Cameron, Clarion, Crawford, Elk, Erie, Forest, Jefferson, McKean, Mercer, Potter, Venango, Warren, Bradford, Carbon, Columbia, Lackawanna, Luzerne, Monroe, Pike, Sullivan, Susquehanna, Wayne, Wyoming, Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Somerset, Washington, and Westmoreland Counties, PA (*Newton Falls, OH), points in Andrews, Archer, Baylor, Blanco, Borden, Bosque, Brown, Burnet, Callahan, Clay, Coke, Coleman, Comanche, Concho, Cooke, Coryell, Crane, Crockett, Crosby, Dawson, Denton, Dickens, Eastland, Ector, Edwards, Erath, Fisher, Gaines, Garza, Gillespie, Glasscock, Hamilton, Haskell, Hill, Hood, Howard, Irion, Jack, Johnson, Jones, Kendall, Kent, Kerr, Kimble, King, Knox, Lampasas, Llamo, Lubbock, Lynn, McCulloch, McLennan, Martin, Mason, Menard, Midland, Mills, Mitchell, Montague, Nolan, Palo Pinto, Parker, Reagan, Runnels, San Saba, Schleicher, Scurry, Shakelford, Somervell, Stephens, Sterling, Stonewall, Sutton, Tarrant, Taylor, Terry, Throckmorton, Tom Green, Upton, Val Verde, Wise, Yoakum, Young, Armstrong, Bailey, Briscoe, Carson, Castro, Childress, Cochran, Collingsworth, Cottle, Dallam, Deaf Smith, Donley, Floyd, Foard, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Hemphill, Hockley, Hutchinson, Lamb, Lipscomb, Moore, Motley, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, Wheeler, Wichita, Wilbarger, Arkansas, Atascosa, Ban-

[Notice No. 8]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

January 16, 1979.

IMPORTANT NOTICE:

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the Federal Register publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the Federal Register. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

[Notice No. 9]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 16, 1979.

IMPORTANT NOTICE

The following are notices of filing of applications for temporary authority under Section 210(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

NOTE.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

MOTOR CARRIERS OF PROPERTY

[Finance Docket No. 28937 F]

SOUTH CENTRAL TENNESSEE RAILROAD CO., INC.

Operation Over a Line of Railroad in Dickson, Hickman, and Lewis Counties, TN; Notice

South Central Tennessee Railroad Company, Inc. (SCTR), 1660 L Street, N.W., Suite 1000, Washington, DC 20036, represented by Fritz R. Kahn, Esquire, Verner, Liipfert, Bernhard, and McPherson, 1660 L Street, N.W., Suite 1000, Washington, DC 20036, hereby give notice that on the 15th day of January, 1979, it filed with the Interstate Commerce Commission at Washington, DC, an application under Section 10901 of the Interstate Commerce Act (formerly Section 1(18)) for a decision approving and authorizing the operation of a line of railroad situated in Dickson, Hickman, and Lewis Counties, TN.

SCTR proposes to operate a line of railroad between Colesburg, TN, and Hohenwald, TN, formerly known as the Centerville Branch of the Louisville and Nashville Railroad Company (L&N). On October 1, 1973, L&N filed for abandonment of the line in docket No. AB-2 (Sub-No. 5). Pursuant to authorization by the Commission in docket No. AB-2 (Sub-No. 5), operation of this line by L&N ceased at the close of business on June 30, 1978. The line was duly purchased from L&N by South Central Tennessee Railroad Authority (the "Authority").

The line of railroad proposed to be operated begins at former L&N milepost 2 at Colesburg, Dickson County, TN, and extends in a southwesterly direction through Hickman County to just south of milepost 52 near Hohenwald, Lewis County, TN, a distance of approximately 49.61 miles.

In the opinion of the Applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1108.8) in Ex Parte No. 55 (Sub-No. 4), *Implenetation—National Environmental Policy Act, 1969,* 352 I.C.C. 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See *Implementation—National Environmental Policy Act, 1969, supra,* at p. 487.

Pursuant to the provisions of the Interstate Commerce Act, as amended, the proceeding will be handled without public hearings unless comments in support or opposition on such application are filed with the Secretary, Interstate Commerce Commission, 12th and Constitution Avenue, N.W., Washington, DC 20423, and the aforementioned counsel for applicant, within 30 days after date of first publication in a newspaper of general circulation. Any interested person is entitled to recommend to the Commission that it approve, disapprove, or take any other specified action with respect to such application.

H. G. Homme, Jr.,
Secretary.

[7035-01-M]

[Finance Docket No. 28799 (Sub-No. 1F)]

ST. LOUIS SOUTHWESTERN RAILWAY COMPANY PURCHASE (PORTION)—WILLIAM M. GIBBONS, TRUSTEE OF THE PROPERTY OF CHICAGO, ROCK ISLAND & PACIFIC RAILROAD CO., DEBTOR

St. Louis Southwestern Railway Company (Cotton Belt), Southern Pacific Building, One Market Plaza, San Francisco, CA 94105, represented by W. Harney Wilson, General Attorney, Southern Pacific Transportaiton Company, and William M. Gibbons, Trustee of the Property of Chicago, Rock Island and Pacific Railroad Company (Rock Island), 332 South Michigan Avenue, Chicago, IL 60604, represented by Martin L. Cassell, Senior General Counsel, hereby give notice that on December 29, 1978, they filed with the Interstate Commerce Commission at Washington, DC, a joint application under 49 U.S.C. 11343 (formerly section 5(2) of the Interstate Commerce Act) for a decision approving the purchase by Cotton Belt of (1) Rock Island's line between Santa Rosa, NM and Herington, KS; (2) one-half interest in Rock Island's line between Herington, KS and Topeka, KS; (3) the right to operate between Topeka, KS, and Kansas City, MO, under terms and conditions of Rock Island's contract with Union Pacific Railroad Company; (4) Rock Island's line between Kansas City, KS and St. Louis, MO; and (5) all of the Rock Island's stock in Terminal Railroad Association of St. Louis and Kansas City Terminal Railway Company. Under the terms of the agreement, Cotton Belt will pay Rock Island 57 million dollars. The application also seeks authority for (1) Southern Pacific Transportation Company (SPT), Cotton Belt's parent, to operate that portion of the line to be acquired between Santa Rosa, NM, and Tucumcari, NM, and (2) for Rock Island and Cotton Belt to jointly operate between Herington, KS and Topeka, KS. This application has been accepted and assigned Finance Docket 28799 (Sub-No. 1F). Cotton Belt filed a related application under 49 U.S.C. 11301 (formerly section 20a of the Act) to assume the obligation of Rock Island for certain securities of the Kansas City Railway Company. The latter application has been docketed Finance Docket No. 28799 (Sub-No. 2F).

Three related applications docketed Finance Docket No. 28799 (Sub-Nos. 3F, 4F, and 5F) have been filed pursuant to 49 U.S.C. 11103 (formerly section 3(5) of the Act) by Cotton Belt and Rock Island seeking orders requiring the grant of bridge trackage rights in certain terminal areas.

In Finance Docket No. 28799 (Sub No. 3F) Cotton Belt seeks a decision of the Commission requiring the grant of bridge trackage rights in St. Louis, Mo-East St. Louis, IL, terminal area over track of the Norfolk and Western Railway Company, Terminal Railroad Association of St. Louis, St. Louis-San Francisco Railway Company, and the Alton & Southern Railway company. The purpose of this application is to permit Cotton Belt to gain access to its Valley Junction Yard in East St. Louis from the railroad line of the Chicago, Rock Island and Pacific Railroad Company it seeks to acquire from Santa Rosa, NM to St. Louis, MO.

In Finance Docket No. 28799 (Sub No. 4F) Cotton Belt seeks a decision of the Commission requiring the grant of bridge traffic rights in the Kansas City, MO, terminal area, over the track of St. Louis-San Francisco Railway Company, Missouri Pacific Railroad Company and Burlington Northern, Inc. The purpose of this application is to permit the Cotton Belt to interchange with other railroads serving this terminal area and to operate through Kansas City.

In Finance Docket No. 28799 (Sub No. 5F) Rock Island seeks a decisions of the Commission requiring the grant of bridge traffic rights in the Kansas City, KS-Kansas City, MO, terminal area over track of Kansas City Terminal Railway Company, Burlington Northern, Inc., St. Louis-San Francisco Railway Company, and Atchinson, Topeka and Santa Fe Railway Company. The purpose of this application is to permit Rock Island to continue operations presently performed in the Kansas City, KS-Kansas City, MO terminal area.

In Finance Docket No. 28799 (Sub-No. 6F), Cotton Belt and Rock Island have jointly filed an application pursuant to 49 U.S.C. 11342 (formerly section 5(1) of the Act) seeking approval of pooling of traffic between Topeka, KS ad Kansas City, KS. The purpose of this agreement is to permit Rock Island to move traffic between Kansas City and the Gulf of Mexico, and between Denver, CO, and Kansas City by utilizing the Topeka to Kansas City route.

The applications, and exhibits are available for inspection in the Public Docket Room at the offices of the Interstate Commerce Commission in Washington, D.C.

Cotton Belt and its subsidiaries operate a railroad system serving the following six states: AR, IL, LA, MO, TN and TX. Cotton Belt's route extends to St. Louis, MO. SPT, which controls Cotton Belt through stock ownership, and its other subsidiaries, operate a railroad system serving the following eight states: AZ, CA, LA, NV, NM, OR, TX and VT. SPT presently interchanges traffic with the Rock Island at Santa Rosa, NM.

If the applications are approved, Cotton Belt and SPT propose to provide a single system service between southern California and Kansas City, MO and St. Louis, MO. Rock Island will retain the balance of its system and continue to provide service over it.

Pursuant to 49 U.S.C. 11345(d), (formerly section 5(1)(g) of the Act) the Commission must conclude all evidentiary proceedings on the 240th day after the notice of the application is published in the Federal Register (September 21, 1979). Dates for the filing of various documents in this proceeding will be strictly adhered to.

Any person interested in filing an inconsistent application or petition for inclusion should file a notice of intent to do so no later than March 12, 1979, (45 days after the date notice of the application is published in the Federal Register). Original and five copies shall be filed with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423. Any traffic studies and data submitted shall relate to the calendar year January 1, 1977 through December 30, 1977. A person filing traffic studies as part of an inconsistent application should study not only its own traffic, but also that of the applciants, Rock Island, Cotton Belt, and SPT, where it can be reasonably expected that this traffic would be diverted, if the inconsistent application was granted. Inconsistent applica-

[1] This proceeding embraces Finance Docket No. 28799 (Sub-No. 2F), St. Louis Southwestern Railway Company, Securities; Finance Docket No. 28799 (Sub-No. 3F), St. Louis Southwestern Railway Company, Use of Terminal Facilities at St. Louis, MO—East St. Louis, IL; Finance Docket No. 28799 (Sub-No. 4F), St. Louis Southwestern Railway Company, Use of Terminal Facilities at Kansas City, MO; Finance Docket No. 28799 (Sub-No. 5F), William M. Gibbons, Trustee of the Property of Chicago, Rock Island, and Pacific Railroad Company, Debtor, Use of Terminal Facilities at Kansas City, KS—Kansas City, MO; and Finance Docket No. 28799 (Sub-No. 6F), St. Louis Southwestern Railway Company and William M. Gibbons, Trustee of the Property of Chicago, Rock Island, and Pacific Railroad Company, Debtor Pooling Agreement.

V 4 4 / 1 9

tions and petitions for inclusion must be filed with the Commission by April 26, 1979.

Persons interested in filing an inconsistent application or petition for inclusion are further advised that they should prepare a list of the information not otherwise available to them that will be necessary to complete the inconsistent application or petition for inclusion in accordance with 49 CFR sections 1111.4(b)(4) or 1111.4(b)(5), and other discoverable matter which may be desired. This list should be submitted to Cotton Belt, SPT, and Rock Island by February 26, 1979. Cotton Belt, SPT, and Rock Island are directed to respond to those persons by March 8, 1979, specifically stating what information will be voluntarily supplied and what information will not be supplied, with reasons. Fifteen copies of the lists of requested information and the responses should be filed with Commissison. Waivers granted to applicants in *Southern Pac. Transps. Co.-Pur-Chicago, R.I. & P.*, 354 I.C.C. 760 (1978), are also granted to parites filing inconsistent applications.

Any protestants who propose to file traffic studies as evidence in opposition to this application, should file such traffic studies by May 1, 1979. The traffic studies shall relate to the calendar year January 1, 1977 through December 30, 1977.

Any persons seeking protective traffic conditions, including trackage rights, shall be required to file with the Commission, and to serve upon applicants, and all other parties on or before April 15, 1979, an inital list of specific protective conditions including trackage rights applications. A final list of protective conditions shall be filed on or before May 1, 1979. Any trackage rights application shall be filed by May 15, 1979, to be considered in thes proceedings. We will presume any such application is a major market extension. Any petitions to rebut this presumption must be filed by April 15, 1979.

On April 3, 1979, an initial pre-hearing conference will be held, at the offices of the Interstate Commerce Commission in Washington, D.C., commencing at 9:30 a.m. Presiding at the conference will be Administrative Law Judge Peter A. Fitzpatrick, who has been designated to conduct the proceedings. Prior to that date, a Notice to the Parties will be issued setting forth an agenda for the pre-hearing conference. Parties should include in their comments any issues they wish discussed at the pre-hearing conference. Discovery, and related matters should be concluded prior to the pre-hearing conference to permit rulings at that time by the Administrative Law Judge on any discovery matters in dispute.

Any interlocutory appeals from rulings by the Administrative Law Judge will be considered by Division 1 of the Commission. Such appeals must be filed within 5 days after the date upon which the ruling appealed from is made, and are to be served upon the Administrative Law Judge.

Hearings will commence on May 1, 1979 at the office of the Interstate Commerce Commission in Washington, D.C., at 9:30 a.m. for presentation by applicants of their evidence-in-chief. All witnesses who will appear to testify at the hearings must prepare and serve on all parties written statements containing the substance of their testimony. Applicants will be required to serve such statements in support of the applications on all parties by April 3, 1979.

This proceeding is a class of action which may have environmental issues present, but normally does not require preparation of an environmental impact statement (EIS). 49 C.F.R. 1108.9. Although we believe that some form of environmental analysis is necessary for this proceeding, we are not contemplating, at this time, preparation of an EIS. Views to the contrary are invited.

The environmental analysis will focus on potential impacts associated with the addition of 8 to 10 trains daily over the Southern Pacific line between El Paso, TX, and Santa Rosa, NM, and the Rock Island line between Santa Rosa, NM, and St. Louis, MO. The following impacts along these lines will be considered: (1) changes in noise levels; (2) changes in air quality; (3) safety hazards; (4) changes in energy consumption; and (5) changes in employment. Comments are invited on these and other areas of potential concern which may be addressed.

Interested persons may participate formally in the proceedings by submitting written comments regarding the applications. Such submissions shall indicate the proceeding's designation (F.D. No. 28799 (Sub-No. 1F)), and the original and 15 copies shall be filed with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, not later than March 12, 1979 (45 days after the date notice of the filing of the application is published in the FEDERAL REGISTER). Such comments shall include the following: the person's position, e.g. party protestant or party in support regarding the proposed transaction; specific reasons why approval would or would not be in the public interest. Additionally, interested persons who do not intend to participate formally, but who desire to comment, may file a statement and information, as they may desire, subject to the same filing and service requirements. Persons submitting written comments to the Commission shall, at the same time, serve copies of the written comments upon the applicants, the Secretary of Transportation, and the Attorney General.

By the Commission.

H. G. HOMME, Jr.,
Secretary.

FEDERAL ENERGY REGULATORY COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: Published January 19, 1979, 44 F.R. 4092.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: 10 a.m., January 24, 1979.

CHANGE IN THE MEETING: The following items have been added:

ITEM NUMBER, DOCKET NUMBER, AND COMPANY

CAP-3. ER78-414, Delmarva Power & Light Co.
CAP-4. ER78-526 and ER77-331, Central Power & Light Co.
CAG-19. OR79- , Lakehead Pipe Line Co.
RP-6. RP71-107 (phase II) and RP72-127, Northern Natural Gas Co.
GI-2. RI76-123, J. M. Zachary.

KENNETH F. PLUMB,
Secretary.

7

FEDERAL HOME LOAN BANK BOARD.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: Volume. 44, No. 14, page 4093, Friday, January 19, 1979.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: 9:30 a.m., January 24, 1979.

PLACE: 1700 G Street NW., sixth floor, Washington, D.C.

STATUS: Open meeting.

CONTACT PERSON FOR MORE INFORMATION:

Franklin O. Bolling, 202-377-6677.

CHANGES IN THE MEETING: The following item has been added to the agenda for the open meeting—Consideration of proposed regulations implementing the Depository Institution Management Interlocks Act.

No. 213, January 23, 1979.

[S-168-79 Filed 1-24-79; 10:33 am]

8

FEDERAL MARITIME COMMISSION.

TIME AND DATE: 2:30 p.m., January 24, 1979.

PLACE: Room 12126, 1100 L Street NW., Washington, D.C. 20573.

STATUS: Open.

MATTER TO BE CONSIDERED: Sea-Land Service, Inc., proposed increases on rice in its United States Pacific coast/Puerto Rico intermodal service.

CONTACT PERSON FOR MORE INFORMATION:

Francis C. Hurney, Secretary, 202-523-5725.

[S-175-79 Filed 1-24-79; 1:36 pm]

[6735-01-M]

9

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION.

TIME AND DATE: 10 a.m., January 31, 1979.

PLACE: Room 600, 1730 K Street NW., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED: The Commission will hold oral argument on the following:

Secretary of Labor v. Republic Steel Corp., Docket Nos. IBMA 76-28, Morg 76-21.
Secretary of Labor v. Republic Steel Corp., Docket Nos. IBMA 77-39, Morg 76X95-P.
Secretary of Labor v. Kaiser Steel Corp., Docket No. 77-13-P.

These cases raise a substantial issue concerning the interpretation of the Federal Mine Safety and Health Act of 1977 and the Coal Mine Health and Safety Act of 1969: Whether a mine owner may be held liable for violative acts committed by its independent contractor?

CONTACT PERSON FOR MORE INFORMATION:

JANUARY 24, 1979.

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION.

TIME AND DATE: 10 a.m., February 1, 1979.

PLACE: Room 600, 1730 K Street NW., Washington, D.C.

STATUS: Open.

MATTERS TO BE CONSIDERED: The Commission will hold oral argument on the following:

Eastern Associated Coal Corp. v. Secretary of Labor, Mine Safety and Health Administration, Docket Nos. IBMA 77-28, Pitt 76X203.
Florence Mining Co., Helen Mining Co., Oneida Mining Co., North American Coal Corp. v. Secretary of Labor, Mine Safety and Health Administration, Docket Nos. IBMA 77-32, Pitt 77-15, 16, 17, 18, 19, 23.
Alabama By-Products Corp. v. Secretary of Labor, Mine Safety and Health Administration and United Mine Workers of America. Docket Nos. IBMA 76-114, Barb 76-153.

These cases raise substantial issues concerning the interpretation of the Federal Coal Mine Health and Safety Act of 1969 and the applicability of the decision of the U.S. Court of Appeals for the District of Columbia Circuit in *UMWA v. Andrus* (*Carbon Fuel Co.*) 581 F. 2d 888 (D.C. Cir.) *cert denied*, — U.S. — (1978).

12

UNITED STATES METRIC BOARD.

TIME AND DATE: 8:30 a.m., Friday, February 16, 1979.

PLACE: Dallas Hilton, Court Room, 1914 Commerce Street, Dallas, Tex. 75201.

STATUS: Open.

MATTERS TO BE CONSIDERED:

Review/approval of December 15, 1978 meeting minutes.
Reports.
Discussion of proposed consumer participation policy.
Discussion of proposed procedures for approval and acceptance of speaking engagements.
Discussion of proposed procedures for implementation of Freedom of Information Act requirements.
Discussion of comments received during public forum of February 15, 1979.
Introduction of agenda items for April 1979 meeting.

SUPPLEMENTARY INFORMATION: Notice of a public forum to be held by the U.S. Metric Board on February 15, 1979, which will provide individuals and groups the opportunity to comment on metric conversion, appears elsewhere in this issue.

CONTACT PERSON FOR MORE INFORMATION:

Joan Phillips, 703/235-1933.

LOUIS F. POLK,
Chairman,
United States Metric Board.

16

SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meetings during the week of January 29, 1979, in room 825, 500 North Capitol Street, Washington, D.C.

Closed meetings will be held on Tuesday, January 30, 1979 at 10 a.m., Wednesday, January 31, 1979 at 9 a.m., and on Thursday, February 1, 1979 at 9 a.m. Open meetings will be held on Tuesday, January 30, 1979 at 4 p.m., Wednesday, January 31, 1979 at 10 a.m., and on Thursday, February 1, 1979 at 10 a.m.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meetings. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meetings may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c) (4), (8), (9)(A), and (10) and 17 CFR 200.402 (a) (8), (9)(i), and (10).

Chairman Williams and Commissioners Loomis, Evans, and Karmel determined to hold the aforesaid meetings in closed session.

The subject matter of the closed meeting scheduled for Tuesday, January 30, 1979, will be:

Access to investigative files by Federal, State or self-regulatory authorities.
Formal orders of investigation.
Chapter XI proceeding (affirming action of duty officer).
Settlement of administrative proceedings of an enforcement nature.
Settlement of injunctive actions.
Institution of administrative proceeding of an enforcement nature; settlement of administrative proceeding of an enforcement nature; amendment of formal order of investigation.
Order compelling testimony.
Litigation matter.

V 44 / 19 JA 26 79 UMI

Institution of injunctive actions.
Freedom of Information Act appeals.

The subject matter of the closed meeting scheduled for Wednesday, January 31, 1979, will be:

Consideration of amicus participation.

The subject matter of the closed meeting scheduled for Thursday, February 1, 1979, will be:

Regulatory matter bearing enforcement implications.

The subject matter of the open meeting scheduled for Tuesday, January 30, 1979 at 4 p.m., will be:

Meeting with American Society of Corporate Secretaries.

The subject matter of the open meeting scheduled for Wednesday, January 31, 1979, will be:

1. Consideration of whether to withdraw the proposed tender offer rules published for comment in Securities Exchange Act Release No. 34-12676 (Aug. 2, 1976) and to publish for comment new and revised proposals. If adopted, these proposals would implement the present statutory requirements by providing specific filing, delivery and disclosure requirements, nonexclusive dissemination provisions and additional substantive regulatory protections with respect to certain tender offers as well as particular anti-fraud provisions which would apply to any tender offer. For further information, please contact John Huber at 202-755-1280.

2. Consideration of proposed regulation 13B-2. This proposed regulation would consist, among other things, of proposed rules that would: (a) prohibit the falsification of corporate books, records and accounts, and (b) prohibit the making of materially false, misleading or incomplete statements to an accountant in connection with an audit of the financial statements of an issuer or the filing of required reports. The proposed rules were published for comment in Securities Exchange Act Release No. 13185, January 19, 1977. For further information, please contact Frederick B. Wade at 202-755-1229.

The subject matter of the open meeting scheduled for Thursday, February 1, 1979, will be:

1. Consideration of amendments to form S-16 under the Securities Act of 1933 that would make the form available for primary offerings by certain subsidiary issuers in the absence of a parent company guarantee of their securities. For further information, please contact Steven J. Paggioli at 202-376-8090.

2. Consideration of a request for a waiver of certain provisions of the Commission's Conduct Regulations (relating to outside practice and securities transactions) in connection with the temporary employment of Robert A. Howes, Esq. For further information, please contact Irving H. Picard at 202-755-1238.

3. Consideration of an application of Robert D. Nielsen to appear and practice before the Commission pursuant to 17 CFR 201.2(e)(4) and in accordance with the Commission's Findings and Order Imposing Sanction and Accepting Resignation From Practice, In re Robert D. Nielsen, Admin. Proc. File No. 3-5310. For further information, please contact Alan Rosenblat at (202) 755-1198.

4. Consideration of whether to adopt amendments to the Uniform System of Accounts for Mutual and Subsidiary Service companies ("Uniform System of Accounts") and Rule 93 (17 CFR 250.93) promulgated pursuant to the Public Utility Holding Company Act of 1935. The amendment of the Uniform System of Accounts is designed to provide revenue and expense information needed for regulatory purposes and to provide accounts analyzing service company income, including allowable rate of return for use of capital. It would follow, with appropriate modifications, selected accounts of the Federal Energy Regulatory Commission's Uniform System of Accounts. The amendment to Rule 93 (17 CFR 250.93) would require service companies to keep their accounts and records in accordance with the proposed amended Uniform System of Accounts. For further information, please contact Robert P. Wason at 202-523-5159.

FOR FURTHER INFORMATION, CONTACT:

Beverly C. Rubman, 202-755-1103.

Office of the Secretary

IMPROVING GOVERNMENT REGULATIONS

Final Guidelines and Semiannual Agenda of Regulations Selected for Development and Review

V 4 4 / 1 9

[4510-23-M]

DEPARTMENT OF LABOR

Office of the Secretary

IMPROVING GOVERNMENT REGULATIONS

Response to Executive Order 12044; Final Guidelines

AGENCY: Department of Labor.

ACTION: Final Guidelines.

SUMMARY: These Guidelines implement Executive Order 12044—Improving Government Regulations by prescribing procedures to be followed in the development of Department of Labor regulations. It is the purpose of these Guidelines to encourage increased public participation in Department of Labor rulemaking and reform existing regulatory practices and procedures.

EFFECTIVE DATE: Effective January 26, 1979.

ADDRESS: Seth D. Zinman Associate Solicitor for Legislation and Legal Counsel, Office of the Solicitor, Department of Labor, Room N2428, 200 Constitution Avenue, NW., Washington, D.C. 20210, 202-523-8201.

FOR FURTHER INFORMATION CONTACT:

Sofia Petters, Counsel for Administrative Legal Services, Room N2428, 200 Constitution Avenue, NW., Washington, D.C. 20210, 202-523-8065.

Mark Solomons, Counsel for Special Legislative Projects, Room N2428, 200 Constitution Avenue, NW., Washington, D.C. 20210, 202-523-8088.

SUPPLEMENTARY INFORMATION: On May 26, 1978 the Department of Labor published proposed Guidelines in the FEDERAL REGISTER for the implementation of Executive Order 12044 (43 FR 22915-22921), and invited public comment on the proposal. The proposal contained a summary of past regulatory practices followed by agencies and offices within the Department, proposed new procedures for the development of regulations, a listing of regulations selected by the Department for review in the coming year, and details relating to the comment procedure. The proposal was designed to give full force and effect to the requirements of Executive Order 12044, and in so doing, to significantly improve the process by which Department of Labor regulations would be written in the future.

The public was given until July 28, 1978 to comment on the proposal. Thirteen written comments were received from both individuals and on behalf of organizations, and a few other comments were submitted by telephone. Many of the comments received were largely favorable to the proposal, and virtually all of the comments were pertinent and well developed. A number of comments were critical of some of the provisions of the proposal and many of those criticisms also contain suggestions on how the particular provision could be improved. The Department has found the vast majority of the comments helpful in gaining insight into the way the public views rulemaking in the Department of Labor, and has adopted a number of the suggestions made by public commentators in these final Guidelines.

DISCUSSION OF MAJOR COMMENTS AND CHANGES

Most of the comments received relate to specific sections of the proposal, or suggest additions to specific sections. In order to fully respond to all significant comments, the Department will group the comments according to related sections of the proposal, and discuss each section in light of the comments, indicating where changes have been made.

The most frequent comments relate to (1) The policies to be followed by the Department in implementing the Executive Order, (2) The structure and functions of the Regulatory Review Panel; (3) The criteria for determining when a regulation is significant; (4) The criteria for determining when a regulation is "major"; (5) The nature and extent of public participation mandated by the proposal; and, (6) The procedures to be followed in the approval of significant and major regulations.

A few general comments express concern that the Guidelines will be routinely ignored or avoided by the Department or that compliance with the Guidelines will be treated as a matter convenience. The Department wishes to assure those commentators and the public in general that all agencies and offices within the Department have been and will be instructed concerning the importance of complying with the Executive Order and these Guidelines. Moreover, the Department believes that the objectives of the Executive Order must be realized in order to assure that all programs administered by the Department are both responsive and effective.

What follows is a section-by-section discussion of the comments received.

1. *Policies.* A few of the comments received express the view that the Department's regulatory reform policies do not adequately reflect an intention to make regulatory decisions on the basis of cost-effectiveness or cost-benefit studies which the commentators urge the Department to conduct.

The Department agrees that in some instances an analysis of the benefits likely to flow from certain regulatory actions as well as the costs of such action is an important part of regulatory decisionmaking. In other instances, expecially where congressional direction is unequivocal, or where cost or benefits parameters are not quantifiable, cost analyses must play a lesser role. Under the policy Guidelines set forth, sufficient flexibility is provided to allow an appropriate determination to be made of the weight which whould be assigned to cost information in the decisionmaking process. Morevover, each agency is instructed as a part of this process to, in every case, carefully consider (1) the responsiveness of a regulatory initiative; (2) the need for the initiative; (3) alternatives to regulation; and (4) the relationship of the initiative to legal requirements in light of cost information among other things, before going forward with a regulation. It is our belief that these safeguards will help to ensure effective regulatory decisionmaking in the future.

It is confidently expected that this approach will minimize or eliminate those unnecessary, ineffective and unjustifiably burdensome regulations which deeply concern some commentators.

A few commentators are dissatisfied with the restatement of the provisions of the Executive Order itself which exempt certain types of regulations, including emergency regulations, from these procedures, and which indicate that agency compliance with the Executive Order and implementing Department procedures will not be subject to judicial review.

In drafting the Executive Order, it was recognized that in certain instances, such as those which require the issuance of emergency regulations, the reform procedures would be either inapplicable or inappropriate. While the Department recognizes the need for certain exemptions the Guidelines clearly indicate that even in the case of an exempt regulation agencies should strive to follow the Guidelines if practicable and consistent with policy and legal requirements.

In connection with judicial review of agency action under the Executive Order, the provision of the Guidelines is intended to inform the public of an important item contained in the Executive Order. It in no way detracts from this Department's commitment to improve the quality of our regulatory efforts

2. *Regulatory Review Panel.* A number of comments received urge the expansion of the responsibilities of the Regulatory Review Panel to include among other things, a provision authorizing the Panel to monitor compliance with the Executive Order, and authority to receive and solicit public comment on existing rules thought by some to be in need of review. One comment recommends the publication of the names and addresses of the Panel's members.

The Department calls the attention of the public to the right to petition agencies involved in the regulatory process directly concerning new or proposed regulations. This is the most direct approach for seeking regulatory action. The Guidelines are being revised in reference to the public right of petition. However, the Department also agrees that the Regulatory Review Panel should be authorized to receive public recommendations on regulations thought to be in need of review. A corresponding change in the Guidelines is made. The Chairperson of the Panel, in consultation with appropriate agency heads may then include these public recommendations in its comments on the semiannual agenda submitted for approval to the Secretary. In keeping with this change the Department also agrees that the name and address of the Chairperson should be published when designated.

The Department does not, however, consider it appropriate for the Panel to review agency compliance with the Executive Order. The Panel will be composed of high level officials who will assist in the Department's efforts to select appropriate regulations for publication in the semiannual agenda and for subsequent review. It will assure that the agencies are informed of the requirements of the Order and implementing Guidelines. Moreover, it should be noted that the Offices of the Secretary and Under Secretary will exercise continuing supervision over agency compliance with the Executive Order. The Guidelines require that each regulatory development plan be submitted to those officials and further require approval by the Secretary before an agency may go forward with a major regulation.

It will remain the principal responsibility of each agency to comply with the Guidelines as they apply to matters within its jurisdiction. Agencies now have this responsibility with regard to a wide variety of other authorities governing the conduct of programs for which they are responsible. In proposing the establishment of the Panel, it was not the Department's purpose to create an additional layer of bureaucracy requiring extensive additional staff and resources. Such an approach could simply delay improvements in the quality of our regulatory efforts. It is essential that all Department officials commit themselves fully to this task.

3. *Procedures for Developing New Regulations.* One comment recommends that the Guidelines incorporate and implement 5 U.S.C. 553(e), which authorizes public petitions for rulemaking. As noted above the Department agrees.

4. *Criteria for Determining Significance of Regulations.* A large number of comments were received in connection with the criteria for determining when a regulation is to be considered significant. The most frequent comments object to the partial exclusion of regulations which describe requirements compelled by law, and minor technical or clarifying regulations from the grouping of significant regulations. Similarly, there was opposition in the comments to the exclusion of internal documents not otherwise required by law to be made available to the public.

Contrary to the views expressed by some commentators, the Department does not view these exclusions as easy loopholes which might be employed to avoid the requirements of the Executive Order for the following reasons: (1) The exemption for regulations which describe requirements compelled by law would in no way avoid the requirements of the Executive Order or Departmental Guidelines, but is stated in recognition of the fact that there are some regulations which do nothing more than describe provisions of law from which the Department has no authority to vary. (2) The exemption for minor technical or clarifying changes would in no way undermine the Department's compliance with the Executive Order. If a technical or clarifying change is intended to have a new and significant impact it is not exempt from the Executive order or Departmental Guidelines, and Department officials are not permitted to hide significant regulations under the guise of minor changes. (3) Internal documents not set forth in Departmental rules, which describe or discuss enforcement strategies or procedures are either available to the public or protected in accordance with the Freedom of Information Act. While some internal documents may, under the Guidelines, be subject to the requirement of the Executive Order, in certain other circumstances the application of the procedures would be contrary to the efficient conduct of government business. The decision to proceed under the Guidelines in the development of internal documents must therefore be made on a case-by-case basis. This approach will however, be followed by the Department with a view toward achieving full and appropriate application of these Guidelines.

The second major area of concern in this context relates to the specific criteria for determining when a regulation is significant. One comment urges that the indirect effect of a regulation should be considered in determining significance, and another suggests that all regulations should be presumed to be significant unless detailed analyses demonstrate otherwise.

The Department agrees that if on the basis of existing information substantial indirect effects of regulatory initiatives are reasonably ascertainable, that should form a basis for determining that a regulation is significant. It is not, however, agreed upon that determination of significance should be automatic unless detailed studies demonstrate otherwise. The Executive Order is not intended to delay necessary decisionmaking and the publication of needed regulations or create unnecessary paperwork. It is intended to ensure that truly important regulations are fully and properly considered. In view of these factors we do not believe that a blanket presumption would be useful or efficient.

One comment urges that a substantial expansion of the criteria for significance is necessary to properly consider the impact of a regulatory initiative on State and local governments. The Department agrees that regulations which have a substantial effect on State and local governments would be considered significant and believes that the existing criteria are broad enough to achieve this result.

A few comments request clarification of the criterion which mandates a finding of significance if the regulation affects equal employment opportunities for protected groups. The Department agrees that a change in this section is necessary. The term "protected groups," which may cause some confusion, is eliminated. The criterion is intended to direct appropriate attention to equal employment opportunity concerns, and is intended to be broadly construed.

5. *Identifying Major Regulations.* The majority of comments directed at the criteria for identifying major regulations recommend that the threshold criteria be lowered to require an analysis in more instances. It must be recognized in this connection that the criteria for major are flexible guidelines only. When a regulatory initiative falls short of the criteria agencies are encouraged to treat the regulation as "major" if it is likely to cause widespread public interest or controversy. The Department must reject the proposition that more stringent but less flexible criteria would better serve the intent of the Executive Order. It should not be necessary to conduct an extensive study to determine in the first instance whether a regulation is "major". We trust the flexible guidelines developed will adequately ensure that all truly important regulations will not be the subject of unnecessary delay or paperwork requirements.

J A 2 6 7 9

UMI

V 4 4 / 1 9

A few comments express concern that the exemption from the regulatory analysis requirements should not be permitted solely on the basis of the preparation of an Economic Impact Statement under Executive Orders 11821 or 11949 or on the basis of a decision that no such statement was required. Because the criteria applicable to a determination that an economic impact statement was or was not necessary are similar to the criteria for identifying major regulations, any prior decision to prepare an economic impact statement or that one was not needed should be sufficient to meet the requirements of the Executive Order. However, in view of the fact that conditions might have changed since the time of the earlier decision, the Guidelines now authorized the preparation of a new regulatory analysis if there have been substantially changed conditions or if otherwise appropriate.

6. *Public Participation.* Virtually all comments received on public participation urge the early and effective involvement of the public in rulemaking. Among the many suggestions made to achieve this end are: (1) That there should be more than one cycle of comments; (2) That the Department should disseminate issue papers on proposals; (3) That public panels, or advisory groups should be established; (4) That training in public participation procedures should be done; (5) That a commitment should be made to involve particular groups; and, (6) That notification lists should be kept.

The Department agrees that each of these recommendations as well as others not mentioned are good approaches which may be particularly useful in many instances. The Department believes that each of these suggestions is both permitted and encouraged by the general language of the Guidelines, but does not think it proper to require that any one or more of these approaches be required in every case. Depending upon the situation involved, an individual public participation plan should be designed to meet the special needs of the regulatory initiative. This must be done with a veiw toward securing full, active, and early public participation in all significant regulatory initiatives.

One comment expresses concern that the Guidelines may require less public input for new regulations than for the amendment of existing regulations. This is not intended.

7. *Regulatory Analyses.* The comments received in connection with the form and content of regulatory analyses generally recommend the inclusion of additional and more specific criteria in each regulatory analysis. For example, a few comments suggest that particular attention be paid to the effects of a regulation on employment, supplies of materials, health, competition, production and so forth. The Department agrees that each of these concerns as well as others would, in particular situations, be appropriate subjects to be addressed by a regulatory analysis. The Guidelines, however, are designed to facilitate the development of regulatory analysis in all cases and are very broadly phrased for this purpose. Flexibility in any agency's approach toward the preparation of a regulatory analysis is essential for the efficient implementation of the Executive Order.

One comment recommends that each regulatory analysis should set forth the assumptions relied upon in conducting the analysis, the methodology employed, and should identify source material utilized. The Department agrees that these matters should be a part of each analysis to the extent necessary and feasible.

8. *Approval of Significant Regulations.* One comment received in connection with this section suggests that the official signing any significant regulation should certify compliance with the Guidelines in writing and that this certification should be included in the public record. The proposed guidelines set forth requirements for written statements by the signing official or appropriate agency heads that the requirements for approval of significant regulations have been met. The Department agrees that these statements should be made available for public inspection.

Another comment suggests that the development plan prepared in connection with significant regulations should also be a part of the public record. The Department does not agree that the publications of preliminary ideas concerning new or revised regulations would be useful. It should be noted that the procedures now require public participation at all stages, and include public participation in the development of final regulatory analyses and significant rules and regulations. Early public participation in the development of proposed rules is also provided. We believe this is the most useful way to ensure fully adequate public involvement without unnecessary delay.

A few moments were received relating to the procedures applicable to the development and approval of regulatory analyses. These comments generally request clarification of the availability of regulatory analyses and one urges that regulatory analyses be subject to a public comment and participation procedure before the development of a proposed rule.

The Guidelines provide that each notice of proposed rulemaking involving a major regulation will contain a summary of the initial regulatory analysis prepared and a statement telling how the public may obtain a copy of the full initial analysis. During the comment period the public may address comments or submit information concerning the regulatory analysis and, the analysis will be revised if necessary along with the proposed regulation. The final regulation will also contain a statement informing the public how to obtain the final analysis. This procedure is fully in keeping with the Executive Order. The Department believes that any earlier circulation of regulatory analyses occurring before review and approval by Department experts and decisionmakers would unduly delay the regulatory process and is unnecessary in consideration of the comment and discussion period provided after publication of the proposed rule.

9. *Review of Existing Regulations.* Some comments suggest that public participation in selecting regulations for review should be part of the Department's procedures. Revisions in the Guidelines reflect this view.

10. *Other Comments.* A few comments urge that particular regulations now in force or under consideration be designated either significant or major and be subjected to the procedures in the Guidelines, accordingly. Some other comments objected to the way in which particular rules were considered in the past.

The purpose of the Guidelines is to improve the quality of the regulatory process. The Department is committed to this objective. In keeping with this commitment each of the comments regarding a specific rule has been forwarded to the appropriate agency officials for consideration.

11. *Initial List of Regulations Selected for Review.* In response to a few comments the description of regulations selected for initial review has been expanded to more clearly indicate the subject matter of the regulations selected. Many additional regulations have also been added to the list, and the list may be found in its entirety in the Department's Semiannual Agenda of Regulations Selected For Review and Development.

Accordingly, the Department of Labor Guidelines for the implementation of Executive Order 12044 are revised as follows:

I. Background

1. On March 23, 1978 President Carter signed Executive Order (E.O.) 12044 (43 FR 12661) which is designed to improve and reform the way in which the Executive Agencies of the United States Government develop, issue, and review the rules and regulations which are necessary for the efficient and effective administration of

J A 2 6 7 9

UMI

Government programs. To achieve these goals E.O. 12044 directs each Executive Agency to: (a) Establish procedures for the development of significant regulations which provide the maximum opportunity for early and meaningful public participation; (b) Conduct a detailed regulatory analysis of those significant regulations which may have major economic consequences for the National economy or for a particular segment of the economy; (c) Periodically review existing regulations to determine their continuing usefulness, and; (d) Eliminate, improve, or update those existing regulations which no longer adequately serve the purpose for which they were originally issued. In connection with each of these objectives, E.O. 12044 directs each Executive Agency to prepare a draft report describing the procedures followed in the development of regulations and the changes which are proposed to bring those procedures into compliance with the E.O., proposed criteria for identifying significant regulations and regulations with major economic impact and, proposed criteria for the selection of existing regulations which are in need of review and possible revision or elimination. The report is also to contain a list of regulations which have been selected for review in the near future, and is to be published in the FEDERAL REGISTER for comments by May 23, 1978.

The Department of Labor's new procedures are intended to implement both the letter and spirit of E.O. 12044 in connection with the regulations within the jurisdiction of the United States Department of Labor.

Summary of Past Regulatory Procedures

The Department of Labor is now mandated to implement many statutes and executive orders which relate to a wide range of subjects.

For example, under the Occupational Safety and Health Act the Department is charged with assuring working men and women with safe and healthful working conditions. Under the Comprehensive Employment and Training Act the Department administers a program of Federal assistance for unemployed and economically disadvantaged individuals. Under Executive Order 11246, the Department administers an enforcement program which requires equal employment opportunity on the basis of race, color, religion, sex and national origin by government contractors and federally assisted construction contractors. The wide range of programs administered by this Department have resulted in variations in the procedures followed in issuing regulations implementing these programs. Each agency within the Department is responsible for developing its own regulations. The issuance of regulations is triggered in various ways. A statute or executive order may provide for the issuance of regulations; there may be a change in policy in administering a program; judicial decisions may necessitate an amendment to existing regulations; complaints of affected individuals or organizations or reports from the Department's investigators may alert agency officials to problem areas in existing regulations. The following illustrate some of the practices now in use for issuing regulations by Department of Labor agencies.

The Occupational Safety and Health Act authorizes the Secretary to promulgate safety and health standards in a specified manner. When the Secretary determines, upon the basis of information submitted in writing by an interested person, a representative of any organization of employers or employees, a nationally recognized standards-producing organization, the Secretary of Health, Education and Welfare (HEW), the National Institute for Occupational Safety and Health, or a State or political subdivision, or on the basis of information developed by the Secretary or otherwise available that a rule should be developed in order to serve the objectives of the Act, the Secretary may direct that such rule be drafted or request the recommendations of an advisory committee.

Prior to the preparation of its proposed regulation, in most rulemaking proceedings, OSHA receives informal comments from interested parties. Though not specifically set forth in its pertinent regulations, OSHA has, in drafting many of its standards, published Advance Notices of Proposed Rulemaking in the FEDERAL REGISTER. Occasionally, OSHA has held public factfinding hearings to aid in the development of proposals.

The proposals and regulations are written by OSHA's technical staff with assistance from the Solicitor's Office, which also reviews the drafts for legal sufficiency. Drafts of proposed regulations or revisions are reviewed by the OSHA Director of Health Standards or Director of Safety Standards, appropriate technical personnel, and the Assistant Secretary for OSHA. Informal hearings are usually held in which interested parties are afforded the opportunity to comment orally and in writing. Published regulations are signed by the Assistant Secretary.

Somewhat different procedures are used in the development of safety and health standards under the Federal Mine Safety and Health Act. When the Assistant Secretary for MSHA determines that substantive regulations should be issued, the Assistant Secretary decides on the basic objectives of the regulation and indicates overall specifications. A program head, e.g., the Administrator for Coal Mine Safety and Health organizes a drafting committee for the proposed regulation. The drafting committee is staffed by technical experts from within the agency and may include attorneys from the Office of the Solicitor. This committee participates in the preproposal consultations, attends sessions of any advisory committee created to advise on the particular regulation and writes the proposed draft regulation. The Solicitor's Office reviews the proposed regulation for legal sufficiency. Prior to publication for proposed rulemaking, the draft regulations are reviewed by the program head responsible for the subject matter being regulated, the Office of Standards, Regulations and Variances, and the Assistant Secretary for Mine Safety and Health. The Assistant Secretary signs both proposed and final regulations.

The Office of Labor-Management Standards Enforcement develops and administers the regulations in Chapter IV of Title 29 of the Code of Federal Regulations which implement those sections of the Labor-Management Reporting and Disclosure Act of 1959, as amended (LMRDA), which are administered by the Department of Labor. This Office also administers regulations which have been issued to implement section 18 (Standards of Conduct) of Executive Order 11491. Those sections of LMRDA which are administered by DOL have only been amended once, in 1965, so that most of the amendments and additions to the regulations have been for purposes such as clarification of language and reflection of court decisions rather than because of amendments to the Act.

In the case of one interpretative regulation drafted in response to a Supreme Court ruling, a decision was made to go forward after discussion between the program office and the Office of the Solicitor. The final draft was sent to the Solicitor for review and then to the Assistant Secretary for Labor-Management Relations for signature. When amendments to the regulations implementing the Labor-Management Reporting and Disclosure Act involve policy changes and are not interpretations, preproposal consultations are held with outside groups.

Under Title I of the Employee Retirement Income Security Act of 1974 (ERISA), many sections of the statute provide that the Secretary (or his delegate—the Assistant Secretary for LMSA) will issue regulations to implement specific statutory requirements. In addition, general authority is granted by the statute to prescribe regula-

V 4 4 / 1 9

tions that are necessary or appropriate to carry out the purposes of the Title. In some cases there is authority to issue regulations which ease or waive statutory requirements.

The Administrator of Pension and Welfare Benefit Programs after consulting with certain officials within the Department, and interested members of the public, determines the priorities and time schedule for the issuance of regulations. The time schedule includes internal due dates for the various stages in the regulatory process and a projected date for publication.

Generally, the Administrator then directs the Office of Regulatory Standards and Exceptions within the Pension and Welfare Benefit Programs to draft specifications for proposed regulations. Advice and recommendations from the Office of Policy and Planning and Research within the Administration as well as from the ERISA Advisory Council are considered in the development of specifications. The Advisory Council was created by statute to advise the Secretary of Labor with respect to carrying out ERISA functions. The Council consists of representatives of unions, employers, the general public and persons knowledgeable in the areas of insurance, corporate trust activity, actuarial counseling, investment counseling, investment management and accounting.

After the specifications are drafted they are referred to the Solicitor's Office which has the responsibility for drafting regulations based on these specifications. The draft regulations are then submitted to the Administrator for Pension and Welfare Benefit Programs, the Assistant Secretary for Labor-Management Services Administration, the Solicitor, the Under Secretary, and Secretary for approval. Comments are sought from the Internal Revenue Service and the Pension Benefit Guaranty Corporation when appropriate.

The Employment Standards Administration is responsible for a greater variety of programs than any other agency within the Department of Labor. The Administration includes the Office of Federal Contract Compliance Programs (OFCCP), the Office of Workers' Compensation Programs (OWCP), and the Wage and Hour Division (WH). OFCCP enforces nondiscrimination/affirmative action employment requirements applicable to government contractors and subcontractrs and Federally-assisted construction contractors under Executive Order 11246, and government contractors and subcontractors under Section 503 of the Rehabilitation Act of 1973, and Section 402 of the Vietnam Era Veterans Readjustment Act. OWCP administers workers' compensation benefit programs for Federal employees, longshore and harbor workers, and coal miners who have contracted black lung disease. The Wage and Hour Administration enforces statutes which establish standards in the workplace, such as the Fair Labor Standards Act (minimum wage, overtime, child labor, and equal pay), Age Discrimination in Employment, wage rates and overtime requirements in Government contracts (Davis-Bacon, Walsh-Healey, Service Contracts Act, and the Work Hours Act), and the Farm Labor Contractors Registration Act. Several factors common to all of these programs can give rise to the issuance of new regulations or the amendment of existing ones. Such factors include the enactment of legislation, changes in policy or procedures, comments or complaints from the public, staff recognition of ambiquities in existing regulations, and the perception of areas not covered by current regulations. However, the differences in the types of programs being administered and the segments of the public affected are such that different approaches to the development of regulations are needed.

The threshold decision to modify an existing regulation or to develop a new one is most often made in the ESA division directly involved in the interpretation and enforcement of a particular statute. This decision comes about in several ways, depending upon the statute involved. In the wage and Hour Division, the Administrator may determine that there is a need for regulatory activity because of a court decision, complaints or comments from the public, or recommendations from his or her staff arrived at through their experience with and knowledge of a program. During the formative stage of a significant regulation, there is coordination with the Assistant Secretary for Employment Standards Administration and other top Departmental policymakers.

The OFCCP develops regulatory changes for numerous reasons. These include prior experience and problems encountered in enforcing existing regulations and requirements; a desire to strengthen requirements in response to problem areas encountered in investigations; new or newly perceived areas of employment discrimination; amendments to the law itself; and developing case law.

Changes in regulations in the Office of Workers Compensation Programs are generally initiated by the Director as a result of changes in medical technology or insurance practices, comments or complaints from the public and statutory amendments. In some instances in the past, when the regulatory change was extensive, task groups were organized to draft regulations to implement new statutory provisions.

As a rule, in all ESA divisions, the original specifications and drafting of a regulation or revision is done in the office most directly involved with the administration and enforcement of the particular statute or Executive Order implemented by the regulation. The division of the Solicitor's Office most directly involved in the subject matter being regulated will assist the program officials in drafting and will then review for legal sufficiency. During this drafting process, which can extgend over a long period of time, constant attention is given to questions, observations, opinions, experiences and remarks of interested persons and organizations. After that, the draft is sent for approval to the program head and the Administrator or Director of the Division in which the program is located. The final draft is submitted to the Solicitor for review and approval. Depending upon the nature and complexity of the regulation, it is signed by the Administrator or Director of the program, the Assistant Secretary for ESA, or the Secretary of Labor.

The Employment and Training Administration has major responsibility for administering over 15 principal statutes and operates an even greater number of programs under those and other statutes. In some ETA statutes such as CETA, broad authority is given the Department of Labor to develop program practices and procedures.

Issuing regulations or revisions to regulations implementing the various statutes administered by the Employment and Training Administration is done by each program division with the advice and assistance of the Solicitor's Office. While the decisions to go forward with the issuance of a new regulation or a revision is made by the program head, the actual drafting of the proposal is usually a joint effort by the staff of the program division within ETA which is charged with administering the Act for which implementing regulations are being written or amended and the Solicitor's Office. In many cases, the Assistant Secretary for ETA directs that a project go forward. The Assistant Secretary and program officials will seek and receive comments from State Government officials, other Federal agencies, representatives of public interest groups, labor unions, employer organizations, interested parties as well as those subject to the regulations being proposed. Suggestions and comments on regulatory material also come from a national advisory committee which the Secretary of Labor has appointed to assist in carrying out the Department's responsibilities for safeguarding the welfare of apprentices. This Committee

J A 2 6 7 9

UMI

includes representatives of employers, labor, education, and officers of other executive departments.

An example of an ETA regulation that also involved the Bureau of Apprenticeship and Training concerned affirmative action in apprenticeship for women. This concept had been seriously considered by top officials in ETA and the Women's Bureau for many years. However, this particular rulemaking was initiated by the filing of a formal petition for rulemaking on this subject matter by an outside public interest organization.

In drafting the proposal for these regulations, program heads in the Bureau of Apprenticeship and Training worked with Women's Bureau and were assisted by staff from the Solicitor's Office who had considerable experience with other equal employment opportunity matters in its work with the Office of Federal Contract Compliance Programs. The Solicitor's staff drafted and prepared the proposed amendment to the regulations for Equal Employment Opportunity in Apprenticeship and Training. The proposal was then submitted to the Solicitor for approval, then to the Assistant Secretary for ETA and to the Secretary before publication in the FEDERAL REGISTER. The public was given 60 days to comment on the proposal.

As can be seen, the procedures used by the agencies within the Department of Labor vary in accordance with the needs of the programs being administered. However, all significant regulations or proposed regulations must be approved by the Secretary and the Under Secretary before publication in the FEDERAL REGISTER. In addition, the Solicitor of Labor reviews all regulations and proposed regulations for legal sufficiency.

Prior to publication of a proposed regulation, the type and extent of consultations with interested persons, agencies or organizations from outside of the Department varies with each regulatory action. However, on the whole there has generally been more involvement with outside groups during drafting of amendments to regulations already issued than during the drafting of new regulations pursuant to newly enacted legislation. With new regulations, great reliance is placed on the legislative history of the statute. This is not to say that persons or groups affected by the legislation are not afforded an opportunity to comment and make suggestions before a regulation is submitted to the FEDERAL REGISTER. But as a general rule, regulations already in operation generate more comments from the regulated public.

Finally, as a minimum the provisions of the Administrative Procedure Act have been followed where applicable. Informal rulemaking predominates in the Department of Labor's regulatory procedures. However, in some instances, including a number of rulemaking procedures under the Occupational Safety and Health Act, a record of the hearing has been kept and cross examination of witnesses allowed under the direction of an administrative law judge.

The foregoing is illustrative of the regulatory practices followed by the various agencies within the Department. Changes are being made in accordance with the directions of Executive Order 12044, and those changes are reflected in the following portions of this document.

DEPARTMENT OF LABOR POLICIES AND PROCEDURES FOR IMPROVING REGULATIONS

POLICIES

Following the issuance of the Executive Order, the Department of Labor has developed a series of procedures to achieve its objectives within the Department. All officials of the Department with responsibilities in the rulemaking process must make maximum efforts to carry out the policies of the Executive Order and implement Department of Labor procedures.

It is the policy of the Department of Labor to ensure that all regulations issued or revised by the various offices and agencies within the Department conform to the following standards:

(1) Regulations should be responsive to public needs, concerns and legislative goals.

(2) No regulation should be issued unless the need for it is clearly established.

(3) Appropriate efforts must be made to obtain public participation in the development and revision of significant regulations at as early a time as is practical.

(4) At an early stage, appropriate consideration should be given to meaningful alternative approaches, including approaches which achieve the desired result without the issuance of a regulation.

(5) Regulations should be designed to achieve statutory objectives and to avoid imposing unnecessary compliance, paperwork, costs, and other burdens on the economy, on individuals, on public or private organizations or on State or local governments.

(6) All regulations should be written in clear and concise language which can be understood by those who are required to comply with them.

The Executive Order contains certain exemptions, including exemptions for emergency regulations. Even where such exemptions apply, it is the policy of the Department that the procedures in these Guidelines be followed to the extent they are practicable and useful in the particular situation, without compromising applicable policy and legal requirements.

It is the policy of the Executive Order and the new Department procedures to improve the rulemaking process in accordance with law and avoid the issuance of unneeded regulations. Their purpose is to make necessary internal changes in procedures and they are not intended to detract from, add to or alter statutory requirements. Failure to meet the requirements of the Executive Order or of the Department's new procedures shall not provide a basis for judicial review of the regulation or other court action.

RESPONSIBILITIES OF DEPARTMENT OF LABOR OFFICIALS

Each agency head within the Department of Labor, including all Assistant Secretaries, the Solicitor, and all other chief agency officials shall become familiar with these Guidelines and shall be primarily and personally responsible for ensuring that the Guidelines are followed in connection with any regulations issued or revised by their respective agencies. In this connection, each agency head shall participate at an early stage in determining the need for the issuance or revision of regulations in their program areas, and shall exercise continuing supervision over the process by which public comment and participation is obtained, and by which final positions and regulatory provisions are developed.

REGULATORY REVIEW PANEL

In order to assist Department of Labor agencies and offices to comply with the requirements of E.O. 12044 and to facilitate the better management of regulations within the Department of Labor, a Regulatory Review Panel (The Panel) will be established. The Panel will consist of representatives appointed by the heads of agencies. The Secretary of Labor will appoint a Chairperson for the Panel. The Regulatory Review Panel will be responsible for receiving from agencies, their proposals for regulations to be included in the Department of Labor's semiannual agenda or any additional supplementary agenda of regulations. These agenda will be designed to give the public adequate advance notice of significant regulations which the Department intends to develop or review in the near future. The panel with compile and transmit the agenda to the Secretary for approval will any recommendations it may deem appropriate.

In keeping with President Carter's directive that each agency establish procedures for the continuing review of existing regulations, the Regulatory

V 4 4 / 1 9

Review Panel will assure that each agency within the Department is informed of the criteria to be applied in selecting any existing regulation or series of regulations for periodic review. The Panel may also make recommendations concerning the review of overlapping and common subject matter regulations in force in different agencies within the Department. Particular attention in this regard should be paid to regulations affecting disclosure, privacy, administrative procedures and other types of regulations which cut across agency lines of jurisdiction.

Petitions by the public for regulatory action should be directed to the responsible agency within the Department, as discussed below. However, the Panel is also authorized to receive recommendations from the public on regulations thought to be in need of review. Public recommendations may be sent to the Chairperson and should contain an explanation why the regulation in question is considered unsatisfactory or unnecessary. The Panel should consider recommendations in connection with any comments it may make to the Secretary on the proposed agenda.

PROCEDURES FOR DEVELOPING NEW REGULATIONS

Whenever an official responsible for the development of regulations believes that the development of any regulation may be necessary, the official should make an informal assessment of the need for the regulation and possible alternative approaches. If it is decided to recommend development and issuance of a regulation, the official should determine whether or not the regulation is significant.

In deciding whether to begin the development of new regulations, responsible officials should seriously consider any public petition for rulemaking submitted in accordance with 5 U.S.C. 553(e).

CRITERIA FOR DETERMINING SIGNIFICANCE OF REGULATIONS

A regulation should be considered significant if it meets the criteria for major as specified in this Report or if it directly or indirectly (if indirect effects are reasonably ascertainable on the basis of existing information) and substantially—

(1) Affects the health or safety of employees;

(2) Affects standards for determining the amount of or conditions under which benefits are payable to individuals or the eligibility of individuals to participate in various programs;

(3) Affects the operations or responsibilities of a particular industry or business or group of industries or businesses, or public or private organizations, or of State or local governments, except that wage determinations issued by the Employment Standards Administration in accordance with prescribed requirements shall not be considered significant;

(4) Increases existing reporting or compliance requirements or establishes substantial new reporting or compliance requirements for any public or private group;

(5) Affects competition within a particular industry or business;

(6) Affects any program of a State or local government or of any other Federal agency; or

(7) Affects equal employment opportunites.

Rules or regulations which simply describe requirements compelled by law will not be considered significant. However, where these rules or regulations substantially provide standards or requirements authorized but not compelled by the law, they should be considered significant if they meet the various criteria described above. Regulations or amendments to regulations involving minor technical or clarifying changes shall not usually be considered significant. These procedures will not require the Department to regard as significant internal documents not otherwise required to be made available to the public where such documents related to Department procedures in enforcing laws for which the Department has responsibility.

Even if a regulation does not meet the standards described above, it may still be appropriate to subject it to the requirements which apply to significant regulations. This would be particularly true if the regulation is likely to arouse considerable public interest or controversy.

IDENTIFYING MAJOR REGULATIONS

Once the initiating official decides whether he or she believes that any regulation should be treated as "significant," an informal assessment should be made, based on available information, as to whether the effect of the regulation would be so major as to require the preparation of a regulatory analysis. A regulatory analysis should, generally speaking, be performed if the regulation is likely to cause or result in:

(1) An increased cost of $100 million or more in any one year for the national economy;

(2) A $50 million or larger increase in costs or total revenues in any one year for a specific segment of the economy such as a specific industry, geographic region or State or local government;

(3) A direct dislocation of 10,000 jobs or more;

(4) A substantial limitation on competition, marketing, market information or an increase in concentration in a market doing $100 million of business a year or more.

These criteria should be regarded as guidelines rather than precise standards. Their purpose is to provide a rough order of magnitude. Accordingly, the Department's procedures will not ordinarily require a complex analysis to see whether a proposed regulation does or does not meet the criteria.

In addition, even where a regulation does not meet the criteria, agency heads may require that a regulatory analysis be conducted. They are encouraged to do so when a regulation is likely to cause widespread public interest or controversy.

No analysis is needed if on or before March 23, 1978 an Economic Impact Statement has already been prepared in connection with the regulation, in accordance with Executive Orders 11821 and 11949, or where a decision has been made that none was needed, unless substanitally changed conditions or other factors now indicated that a regulatory analysis is appropriate.

PUBLIC PARTICIPATION

The initiator of a regulation shall devise a plan to obtain early and effective public participation in the development of significant regulations. Early and effective public participation in the rulemaking process is essential to the development of responsive and useful regulations. There is no single approach toward public participation which is clearly most effective in every case. The approach selected should be suited to the project under consideration and be consistent with the requirements of the law. Among the approaches which should be considered are the following:

(1) The publication in the FEDERAL REGISTER of a notice or advance notice of proposed rulemaking inviting public comment at the earliest possible date;

(2) Public hearings;

(3) Conferences or meetings with interested groups and individuals;

(4) The direct notification of interested parties;

(5) The distribution of appropriate notices, press releases, or statements to trade journals or other publications including newspapers likely to be read by interested parties;

(6) Submission of the regulation or matter to be addressed in the regulation to advisory committees where appropriate; and

(7) Communication with appropriate Federal, State, or local agencies, including contacts through the Office of Legislation and Intergovernmental Relations which maintains continuing contacts with State and local officials and their representatives.

J A 2 6 7 9 UMI

Agency personnel should be alert to those statutory provisions which govern communications with persons outside the Department under certain circumstances.

APPPROVAL OF PLAN TO DEVELOP REGULATIONS

Before an agency proceeds to develop a significant regulation, the initiating official will prepare and submit to the official who will sign the regulation or appropriate agency head a proposed development plan which will include a summary of the issues to be considered and a judgment as to whether the regulation is significant. Significant regulations are signed by the appropriate Assistant Secretary, the Commissioner of the Bureau of Labor Statistics, the Under Secretary, or the Secretary except as each may otherwise provide under special circumstances. The plan will also include a summary of the alternative approaches to be explored, a judgment as to whether a regulatory analysis will be required, and a tentative plan for obtaining early public participation. Target dates should also be included.

If the individual responsible for signing the regulation as described above, or appropriate agency head approves going forward with the development of the regulation, he or she shall approve a develoment plan and designate a project manager or managers to assure that the regulation is considered in a proper and timely manner. The approving official shall also send a copy of the development plan to the Secretary and Under Secretary.

The project manager shall proceed to consider the issues involved and develop a regulatory analysis where required.

REGULATORY ANALYSES

The purpose of the regulatory analyses is to provide a useful tool in the decisionmaking process. They should not serve or be regarded as an additional paperwork burden which needlessly delays a governmental response to a problem. Project managers should strive to make the best possible use of information available to the agency within an acceptable time-frame. Regulatory analyses should be succinct and written in plain, simple language and should cover the following items in such detail as is practicable:

(1) A statement of the problem and regulatory objectives (e.g., statement of condition or situation requiring regulatory action; evidence of the problem; scope of the problem including an indication of the frequency and severity of effects; and an estimate of the effectiveness of a regulatory action in solving the problem).

(2) A brief description of the parties (e.g., individuals, groups, industries, State and local Governments) most likely to be affected by the regulatory action.

(3) A description of the major acceptable alternative regulatory actions under consideration by the agency and a discussion of the effectiveness of each major acceptable alternative in achieving the regulatory objectives.

(4) An estimate of the economic consequences of the major acceptable alternative actions, presented in as simple a form as possible, which indicates the limitations of accuracy attached to such estimates.

(5) An explanation of why a given alternative was selected for proposed regulatory action.

(6) A brief description of assumptions, methods and important source material relied upon in performing the analysis to an exent which is considered appropriate.

A copy of each regulatory analysis will be transmitted to the Secretary. The transmittal will include any recommendation made by the appropriate agency head as to whether special consideration by the Secretary is needed.

APPROVAL OF SIGNIFICANT REGULATIONS

No significant regulation will be approved unless the official signing the regulation (as previously described) is satisfied that:

(1) The regulation is needed and is consistent with the law and with the legislative goal it seeks to carry out;

(2) The direct and indirect effects of the regulation have been considered and that the least burdensome of the major acceptable effective alternative approaches has been selected;

(3) Public comments have been considered, and, in the case of final regulations an adequate response has been prepared.

(4) The regulation is written in plain language which will be understood by those who must comply with the regulation, and that overly technical language, incorporation by reference, and complex procedures are kept to a minimum, consistent with statutory objectives;

(5) Any new reporting or recordkeeping burdens are justified and kept to a minimum, consistent with statutory objectives;

(6) The name, address and telephone number of an agency official who may be contacted by members of the public has been included;

(7) A plan for monitoring and evaluating the regulation after issuance has been developed; and

(8) A regulatory analysis has been prepared, if required, and that a brief summary is included in the notice of proposed rulemaking. A statement of how the public may obtain a copy of the initial regulatory analysis will also be included. A final regulatory analysis will be made available when the final regulations are published. The analysis may be incorporated in the preamble to the final regulations.

Prior to publication of significant regulations, a draft of the proposed regulations should be sent to the Secretary and Under Secretary together with a written statement by the signing official (as described above) providing personal assurance that the above criteria have been met. Approval by the Secretary will be required, prior to publication, before going forward with all regulations for which a regulatory analysis is required. The Secretary may also deem it appropriate to require Secretarial approval before going forward with other regulations. Where regulations are deemed significant, a written statement to that effect should be submitted to the Secretary along with the draft regulations and should be included in the published regulations. Where regulations are to be signed by the Secretary or Under Secretary, the written statements should be submitted by the appropriate agency heads. Each of the written statements described will be made available for public inspection upon request.

Each notice of proposed rulemaking published in connection with a significant regulation by a Department of Labor agency should, if possible, provide at least 60 days for public comment and participation. If a shorter period is necessitated, the published notice shall explain why a full 60 day comment period is impractical. Where statutory or judicial deadlines in whole or in part preclude the Department from following the requirements of these Guidelines, the name of the policy official who made the determination that it was necessary to forego the requirements will be published with the regulations.

REVIEW OF EXISTING REGULATIONS

Each agency shall periodically select for review significant regulations within its areas of responsibility. Agencies shall submit to the Regulatory Review Panel at such times as the panel deems appropriate a list of significant regulations proposed for review and inclusion in the semiannual agenda. The panel will transmit the proposed lists to the Secretary for approval, together with any comments it may wish to make.

Each agency shall provide the name and address, and telephone number of the regulation project managers which shall also be included in the published agenda.

Agencies shall also provide to the Panel information on regulations pre-

V 4 4 / 1 9

viously selected for review. A report on the status of these regulations will be published together with the semiannual agenda.

The following criteria shall be considered in selecting regulations for review:

(1) Whether the regulation continues to be necessary to achieve statutory or policy goals;

(2) Whether the regulation has been the subject of significant public controversy, complaints, or suggestions;

(3) Whether the regulation is particularly burdensome for some segment of the public;

(4) Whether the regulation is confusing, difficult to interpret, or unnecessarily complex;

(5) Whether the regulation is duplicative or inconsistent with other Department of Labor or other agency regulations treating the same or similar subjects;

(6) Whether the regulation is consistent with the most recent technological advances;

(7) Whether a revision of the regulation needs to be considered in light of changed economic or other conditions affecting its appropriateness;

(8) Whether the regulation has been or probably will be subject to change as a result of legislative action;

(9) Whether court decisions have altered the meaning or effectiveness of the regulation;

(10) Whether agency operating personnel consider the regulation inefficient, burdensome, or a proper subject for revision;

(11) The length of time since the regulation has been evaluated; and

(12) Whether the regulation is discriminatory in effect or formulation.

Although this review process is directed principally at significant regulations, agencies should attempt to identify those groups of minor regulations which may be outdated or which may no longer serve useful purposes. These regulations should also be included on the Department's semiannual agenda.

Once a regulation has been selected for review, project managers and appropriate agency heads will be responsible for reviewing these regulations as promptly and carefully as practicable. Changes will be made in accordance with the procedures required for the development of new regulations.

Signed this 18th day of January, 1979 at Washington, D.C.

RAY MARSHALL,
Secretary of Labor.

IMPROVING GOVERNMENT REGULATIONS

Semiannual Agenda of Regulations Selected for Development and Review

AGENCY: Department of Labor.

ACTION: Semiannual Agenda.

SUMMARY: Executive Order 12044 directs each agency of the United States Government to publish in the FEDERAL REGISTER a semiannual agenda of significant regulations which will be considered for review or development during the coming 6 month period. This document contains the Department of Labor's semiannual agenda. It is intended to give the public adequate notice of the existing regulations which will be reviewed by the Department, as well as new regulations which may be developed, in the near future.

DATES: Effective January 26, 1979.

ADDRESS: For further information contact Seth D. Zinman, Associate Solicitor for Legislation and Legal Counsel, Office of the Solicitor, Department of Labor, Room N2428, 200 Constitution Avenue, NW., Washington, D.C. 20210 (202) 523-8201.

SUPPLEMENTARY INFORMATION: Included in this document are regulations selected by Department of Labor agencies for review, other regulations the Department is required to review and new regulations the Department intends to develop during the coming 6 month period. On October 31, 1978 the President requested that all executive agencies supplement earlier lists. This document includes major regulations selected for review which were not included in the Department's preliminary agenda. The Department of Labor agencies which have selected regulations for review or development are, the Employment Standards Administration (ESA), the Employment and Training Administration (ETA) the Labor-Management Standards Administration (LMSA), the Mine Safety and Health Administration (MSHA), the Office of the Assistant Secretary for Administration and Management (OASAM) and the Occupational Safety and Health Administration (OSHA). The regulations selected for review or development are organized by agency jurisdiction. Each regulation selected is identified by title and subject matter and is followed by a brief statement of the need for and legal basis for the action contemplated. Each description of a regulation selected also contains the name, address and telephone number of a knowledgeable official who may be contacted in connection with the regulation, a brief statement indicating whether a regulatory analysis may be undertaken and what action is anticipated during the coming 6 month period. Whether or not a regulatory analysis is indicated, the Department will encourage early and effective public participation in the rulemaking process.

The Department had hoped to publish its first semiannual agenda on October 31, 1978. The Department was unable to meet this deadline in an effort to review and supplement its agenda document and make it more useful. The Department regrets any inconvenience this later publication has caused any member of the interested public.

In an earlier statement published in the FEDERAL REGISTER, the Department indicated that its first semiannual agenda would be published on October 31, 1978 and that the next agenda would be published 6 months thereafter. Under the new schedule the Department's next agenda will be published on August 30, 1979 and subsequently at 6 month intervals thereafter.

INDEX

EMPLOYMENT AND TRAINING ADMINISTRATION

Regulations Selected For Review:

1. Labor Certification Process for Employment of Aliens.
2. Rehabilitation Certificates for Ex-Servicemen.
3. Nondiscrimination in Department of Labor Assisted Programs.
4. U.S. Employment Service.
5. U.S. Employment Service.
6. U.S. Employment Service.
7. Unemployment Compensation.
8. Trade Adjustment Assistance.

Regulations For Which Review is Required:

1. Unemployment Compensation for Federal Civilian Employees.
2. Unemployment Compensation for Ex-Servicemen.
3. Comprehensive Employment and Training.
4. Nondiscrimination on the Basis of Handicap.
5. Senior Community Servicer Employment.
6. Job Corps.
7. Employment Security Administration.

New Regulations:

None.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

Regulations Selected For Review:

1. Fire Protection.
2. Electrical.
3. Walking-Working Surfaces.
4. Marine Terminals.
5(a). Materials Handling.
5(b). Materials Handling.
6. Flat Roofs.
7. Tunneling.
8. Ladders and Scaffolding.
9. Floor and Wall Openings.
10. Laboratory Accreditation.

Regulations For Which Review is Required:

None.

New Regulations:

1. Cancer Policy.
2. Pesticides.
3. Access to Medical Records.
4. Chromates.
5. Beryllium.
6. Chemical Hazard Identification.

Revision Modification of Existing Standards:

1. Abrasive Blasting.
2. MOCA.
3. Safety and Health Provisions for Federal Employees.

Tentative Regulatory Action Pending Staff Analysis:

1. Asbestos—Revision of Existing Standard.
2. Standards Completion Project.
3. Noise—Revision of Existing Regulation.
4. Nickel and Cadmium.

OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION AND MANAGEMENT

Regulations Selected for Review:

1. Debarred, Suspended and Ineligible Bidders.
2. Unsolicited Proposals.
3. Grants and Agreements.

Regulations For Which Review is Required:

None.

New Regulations:

None.

EMPLOYMENT STANDARDS ADMINISTRATION

Regulations Selected For Review:

1. Fair Labor Standards: Agricultural Exemptions.
2. Farm Labor Contractor Registration.
3. Sheltered Workshops.
4. Fair Labor Standards: Hospital Workers.
5. Federal Service Contracts.
6. Labor Standards: Davis-Bacon and Related Acts.
7. Slaughtering and Meat Packing.
8. Employment of Minors.
9. Equal Pay.
10. Contract Compliance.
11. Contract Compliance.
12. Contract Compliance.
13. Contract Compliance.
14. Contract Compliance.
15. Contract Compliance.
16. Contract Compliance.
17. Contract Compliance.
18. Contract Compliance.
19. Contract Compliance.

Regulations For Which Review is Required:

1. Black Lung State Plans.
2. Black Lung Insurance.
3. Black Lung Disability Standards.
4. Fair Labor Standards: Wage Payments.
5. Fair Labor Standards: Records.
6. Fair Labor Standards: Overtime.
7. Age Discrimination.
8. Age Discrimination.
9. Labor Standards—National Endowment for the Arts projects.

New Regulations:

None.

LABOR MANAGEMENT SERVICES ADMINISTRATION

Regulations Selected For Review:

1. Labor Management Reporting and Disclosure.
2. Elimination of Form EBS-1.
3. Employee Retirement Security: Suspensions.
4. Employee Retirement Security: Reporting.
5. Employee Retirement Security: Supplemental Pay.
6. Employee Retirement Security: Exemptions.
7. Dispute Resolution Guidelines.

Regulations For Which Review is Required:

None.

New Regulations:

1. Redwood National Park Expansion.

MINE SAFETY AND HEALTH ADMINISTRATION

Regulations Selected For Review:

1. Mine Safety: Consolidation of Parts.
2. Respirable Dust Standard.
3. Underground Coal Mines.
4. Underground Coal Mines.
5. Surface Coal Mines.
6. Transfer of Miners.
7. Temporary Roof Supports.
8. Fee Schedules.
9. State Grants.

Regulations For Which Review is Required:

1. Metal/Nonmetal Advisory Standards.

New Regulations:

1. Rescue Teams.
2. Independent Contractors.
3. Construction Work.
4. Radon Daughters and Other Amendments.
5. Explosives.
6. Explosives.
7. Training for Construction Workers.
8. Miscellaneous.
9. Self Rescuers.
10. Impoundments and Tailings Piles.
11. Raise Drilling.

OTHER

New Regulations:

1. Airline Deregulation.

DEPARTMENT OF LABOR

SEMIANNUAL AGENDA

EMPLOYMENT AND TRAINING ADMINISTRATION

Regulations Selected for Review:

1. *Description:* 20 CFR Part 656—Labor Certification Process for Permanent Employment of Aliens in the United States.

Regulations for the process an employer must use to recruit U.S. workers for the job as a test of the availability of U.S. workers to perform the work.

Basis for Action: Technical changes are necessary in order to update and clarify these regulations.

Contact: Nandor Kertai, Employment and Training Administration, U.S. Department of Labor, Patrick Henry Building, Room 8416, 601 D Street, NW., Washington, D.C. 20213 (202) 376-6982.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

2. *Description:* 29 CFR Part 26—Exemplary Rehabilitation Certificates for Ex-servicemen.

Procedures for granting Exemplary Rehabilitation Certificates to any person who received any other than an honorable discharge, upon being able to establish self-rehabilitation.

Basis for Action: These regulations are being reviewed to determine whether changes would improve the success of the program.

Contact: Robert Granakis, Assistant Director for Field Operations, Veterans Employment Service, Office of the Deputy Assistant Secretary for Veterans Employment, Room 8400, Patrick Henry Building, 601 D Street, NW., Washington, D.C. 20203 (202) 376-6550.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: A comprehensive review of the regulation is underway to determine the effectiveness of existing provisions and the need for revisions.

3. *Description:* 29 CFR Part 31—Nondiscrimination in Federally-assisted programs of the Department of Labor—Effectuation of Title VI of the Civil Rights Act of 1964.

Implementation of provisions of Title VI of the Civil Rights Act of 1964 to the end that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving Federal financial assistance from the Department of Labor.

Basis for Action: To review and update existing provisions.

Contact: Frederick A. Drayton, Chief, Division of Equal Employment Opportunity, Employment and Training Administration, U.S. Department of Labor, Patrick Henry Building, Room 10324, 601 D Street, NW., Washington, D.C. 20213 (202) 376-6743.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

4. *Description:* 20 CFR 651.7—General Provisions Governing the Employment Service System Definitions; 20 CFR Part 653—Services of the Employment Service System, Subpart A—Basic Services of the Employment Service, Subpart E—Services in Support of Basic Services; and, 20 CFR 658.601—Administrative Provisions Governing the Employment Service, Subpart G—Review and Assessment of State Agency Compliance with Employment Service Regulations.

Basis for Action. The need for review of existing regulations and the

JA 26 79 UMI

V 4 4 / 1 9

development of new regulations was determined in discussions involving both Federal and State agencies.

The Employment Service Manual is a complex assortment of directives and advisory material. It has evolved over a 30 year period and much of it is now out of date and incomplete. Recent court rulings have highlighted the need for USES to differentiate between laws, regulations, policies, procedures and technical assistance.

Contact: Charles I. Carter, U.S. Employment Service, Employment and Training Administration, U.S. Department of Labor, Patrick Henry Building, Room 8018, 601 D Street, NW., Washington, D.C. 20213 (202) 376-6700.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of final regulations is anticipated.

6. *Description:* 20 CFR Part 640—Standard for Benefit Payment Promptness—Unemployment Compensation. A regulation which provides the Secretary of Labor's Standard for Benefit Payment Promptness and sets forth criteria States must attain to meet the Standard and corrective action to be taken when a State's performance falls below the criteria.

Basis for Action: To clarify existing provisions.

Contact: Edwin Kerley, Employment and Training Administration, United States Department of Labor, Patrick Henry Building, Room 7102, 601 D Street, NW., Washington, D.C. (202) 376-7105.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

7. *Description:* 20 CFR Part 616—Interstate arrangement for combined Employment and Wages-Unemployment Compensation. A regulation approving an arrangement establishing a system whereby an unemployed worker with covered employment or wages in more than one State may combine all such employment and wages in one State, in order to receive more benefits.

Basis for Action: Review is necessitated to update and improve existing provisions.

Contact: Edwin Kerley, Employment and Training Administration, United States Department of Labor, Patrick Henry Building, Room 7102, 601 D Street, NW., Washington D.C. 20213 (202) 376-7105.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

8. *Description:* 29 CFR Part 91.

Adjustment assistance for workers after certification. Regulations for payment and delivery of trade adjustment assistance to workers certified under the Trade Act of 1974 by the State employment security agencies.

Basis for Action: To review, update, and clarify existing provisions.

Contact: Robert Gillham, Employment and Training Administration, U.S. Department of Labor, Patrick Henry Building, Room 7221, 601 D Street, NW., Washington, D.C. 20213 (202) 376-6352.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

Regulations For Which Review is Required:

1. *Description:* 20 CFR Part 609.

Unemployment Compensation for Federal Civilian Employees. Regulations for Payment of Unemployment Compensation to Former Federal Civilian Employees through State Unemployment Insurance Agencies.

Basis for Action: Review is necessitated by statutory changes (Pub. L. 94-566 and Public Law 95-19) and to standardize regulations.

Contact: Charles Reynolds, Employment and Training Administration, U.S. Department of Labor, Patrick Henry Building, Room 7014, 601 D Street, NW., Washington, D.C. 20213, (202) 376-6222.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

2. *Description:* 20 CFR Part 614—Unemployment Compensation for Ex-Servicemen. Regulations for payment of Unemployment Compensation to Ex-Servicemen.

Basis for Action: Review is necessitated by statutory changes (Public Law 94-566 and to standardize regulations).

Contact: Charles Reynolds, Employment and Training Administration, U.S. Department of Labor, Patrick Henry Building, Room 7014, 601 D Street, NW., Washington, D.C. 20213, (202) 376-6222.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

3. *Description:* 29 CFR Parts 94-99—Comprehensive Employment and Training.

Regulations which implement the Comprehensive Employment and Training Act as amended.

Basis for Action: A review of existing regulations from 29 CFR Part 94 to 29 CFR Part 99 is necessary in order to operate existing programs under the Comprehensive Employment and Training Act of 1973, as amended in 1978, to provide for a smooth transition from existing to new legislation, and to prepare new regulations under the reauthorized CETA legislation.

Contact: Robert Anderson, Administrator, Office of Comprehensive Employment Development, Employment and Training Administration, U.S. Department of Labor, Patrick Henry Building, Room 6000, 601 D Street, NW., Washington, D.C. 20213 (202) 376-6254.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

4. *Description:* 29 CFR Part 32—Nondiscrimination on the Basis of Handicap in Programs and Activities Receiving or Benefiting from Federal Financial Assistance from the Department of Labor.

Implementation of provisions of Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of handicap in any program or activity receiving Federal financial assistance.

Basis for Action: The development of this Regulation is required by Section 504 of the Rehabilitation Act of 1973, Executive Order 11914, and the DHEW coordination regulations which implement Executive Order 11914.

Contact: Frederick A. Drayton, Chief, Division of Equal Employment Opportunity, Employment and Training Administration, U.S. Department of Labor, Patrick Henry Building, Room 10324, 601 D Street, NW., Washington, D.C. 20213 (202) 376-6743.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The publication of a proposed regulation is anticipated.

5. *Description:* 29 CFR Part 89—Senior Community Service Employment Program.

These regulations govern the administration and operation of the SCSEP which is authorized under the Older Americans Act. The SCSEP provides part-time, subsidized job opportunities

J A 2 6 7 9 UMI

to low-income persons aged 55 and over.

Basis for Action: The need to revise the regulations arises from the fact that the authorizing legislation has been renewed with numerous amendments.

Contact: Lamond Godwin, Administrator, Office of National Programs, Employment and Training Administration, U.S. Department of Labor, Room 6402, Patrick Henry Building, 601 D Street, NW., Washington, D.C. 20213 (202) 376-6093.

Regulatory Analysis: A regulatory analysis is not anticipated.

Action Planned: The publication of a final regulation is anticipated.

6. *Description:* 29 CFR Part 97a: Job Corps Program.

Basis for Action: The reauthorized CETA legislation will require some modifications of the Job Corps regulations, including the section on pay and allowances. Additional changes will be made simultaneously for purposes of clarification and responsiveness to new concerns which have arisen as a result of Jobs Corps expansion.

Contact: Robert Taggart, Administrator, Office of Youth Programs, Employment and Training Administration, U.S. Department of Labor, Patrick Henry Building, Room 3402, 601 D Street, NW., Washington, D.C. 20213 (202) 376-7449.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

7. *Description:* 20 CFR Part 660—Cost Principles for Employment Security Administration—Consists of General Principles for Costs Chargeable to Grants to States for ES and UI Administration;

20 CFR Part 661—Standards for Selected Items of Employment Security Administration Costs—Consists of Descriptions of Particular Types of Costs which are Allowable, Allowable with Prior DOL Approval, and Unallowable as Charges to Grants to States for ES and UI Administration;

20 CFR Part 662—Transfers to State Accounts in the Unemployment Trust Fund under Section 903 of the Social Security Act (Reed Act)—Consists of Requirements Applicable to the Use of Reed Act Funds for Unemployment Benefits and Employment Security Administration.

Basis for Action: These regulations are needed to implement Federal Management Circular 74-4 and OMB Circular A-102 and to provide complete guidance to State agencies in the use of Reed Act funds. Legislative authority appears in the rulemaking provisions of the Wagner-Peyser Act (29 U.S.C. 49c-3) and the Department's general rulemaking authority under the Social Security Act (42 U.S.C. 501) and the Federal Unemployment Tax Act (28 U.S.C. 3301).

Contact: Edward Rowland, Employment and Training Administration, U.S. Department of Labor, Patrick Henry Building, 601 D Street, N.W., Room 4208, Washington, D.C. 20213 (202) 376-6414.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

New Regulations: None.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

Regulations Selected For Review:

1. *Description:* 29 CFR Part 1910, Subpart L—Fire Protection.

This subpart contains regulations related to fire suppression equipment and fire protection systems.

Basis for Action: Subpart L is being revised to simplify existing regulations related to fire suppression equipment and fire protection systems and to require training for persons who are members of certain fire brigades.

Contact: Dr. Jerry L. Purswell, Director, Directorate of Safety Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3510, 200 Constitution Avenue, NW, Washington, D.C. 20210 (202) 523-7198.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

2. *Description:* 29 CFR Part 1910, Subpart S—Electrical.

This subpart contains provisions related to the design and installation of electrical systems in public and private facilities.

Basis for Action: Subpart S is being revised to provide a significant simplification of the current regulations and to bring the existing regulations up-to-date with the current consensus standards and technology.

Contact: Dr. Jerry L. Purswell, Director, Directorate of Safety Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3510, 200 Constitution Avenue, N.W., Washington, D.C. 20210 (202) 523-7198.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

3. *Description:* 29 CFR Part 1910, Subpart D—Walking-Working Surfaces.

Subpart D contains safety requirements concerning falling and tripping hazards related to holes in floors, walls, platforms and ladders at the workplace.

Basis for Action: This subpart is being revised to simplify language, bring requirements up-to-date with current technology and cover new types of work platforms.

Contact: Dr. Jerry L. Purswell, Director, Directorate of Safety Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3510, 200 Constitution Avenue, N.W., Washington, D.C. 20210 (202) 523-7198.

Regulatory Analysis: The need for a regulatory analysis is under study.

Action Planned: The publication of a proposed regulation is anticipated.

4. *Description:* 29 CFR Part 1918—This Part Prescribes Occupational Safety and Health Regulations Governing the Operation of Maritime Terminals.

Basis for Action: This new standard is being developed specifically for maritime terminals following a request by the industry, in order to facilitate voluntary compliance and more efficient OSHA enforcement in a high hazard industry.

Contact: Dr. Jerry L. Purswell, Director, Directorate of Safety Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3510, 200 Constitution Avenue, N.W., Washington, D.C. 20210 (202) 523-7198.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

5(a). *Description:* 29 CFR Part 1910, Subpart N—Materials Handling.

The proposed regulation will be a new addition to Subpart N covering the handling of multi-piece wheel rims.

Basis for Action: The proposed regulations is needed to protect against a very serious hazard when multi-piece wheel rims and tires "explode" while being assembled or disassembled.

Contact: Dr. Jerry L. Purswell, Director, Directorate of Safety Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3510, 200 Constitution Avenue, N.W., Washington, D.C. 20210 (202) 523-7198.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

5(b). *Description:* 29 CFR Part 1910, Subpart N—Materials Handling.

Basis for Action: This proposed regulation will cover the health and safety hazards of workers around conveyors. Principal hazards include limbs being caught in conveyor parts, falling while going over conveyors, and objects falling from conveyors onto workers.

Contact: Dr. Jerry L. Purswell, Director, Directorate of Safety Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3510,

V 4 4 / 1 9 J A 2 6 7 9 UMI

200 Constitution Avenue, NW., Washington, D.C. 20210 (202) 523-7198.

Regulatory Analysis: A regulatory analysis is not anticipated.

Action Planned: The publication of a proposed regulation is anticipated.

6. *Description:* 29 CFR Part 1926, Subpart M—Perimeter Protection for Employees Working on Flat Roofs.

Basis for Action: This proposed new regulation will provide for perimeter guarding for employees who are exposed to the hazard of falling and injuring themselves while performing work on flat roofs.

Contact: Dr. Jerry L. Purswell, Director, Directorate of Safety Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3510, 200 Constitution Avenue, NW., Washington, D.C. 20210 (202) 523-7198.

Regulatory Analysis: A regulatory analysis is not anticipated.

Action Planned: The publication of a proposed regulation is anticipated.

7. *Description:* 29 CFR Part 1926, Subpart S—Tunneling.

This subpart contains regulations for workers constructing tunnels and shafts.

Basis for Action: The revised standard will bring coverage up-to-date with current technology and provide for improved monitoring of hazardous conditions during the construction of tunnels and shafts.

Contact: Dr. Jerry L. Purswell, Director, Directorate of Safety Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3510, 200 Constitution Avenue, NW., Washington, D.C. 20210 (202) 523-7198.

Regulatory Analysis: A regulatory analysis is not anticipated.

Action Planned: The development of a proposal will be undertaken.

8. *Description:* 29 CFR Part 1926, Subpart L—Ladders and Scaffolding.

Basis for Action: This subpart is being revised to coincide with the revision of 29 CFR Part 1910-Subpart D since similar material is treated. It is being revised to simplify language, bring requirements up-to-date with current technology and cover new types of work platforms.

Contact: Dr. Jerry L. Purswell, Director, Directorate of Safety Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3510, 200 Constitution Avenue, NW., Washington, D.C. 20210 (202) 523-7198.

Regulatory Analysis: A regulatory analysis is not anticipated.

Action Planned: The development of a proposal will be undertaken.

9. *Description:* 29 CFR Part 1926, Subpart M—Floor and Wall Openings, and Stairways.

Basis for Action: This subpart is being revised to coincide with the revision of 29 CFR Part 1910—Subpart D since similar material is treated. It is being revised to simplify language, bring requirements up-to-date with current technology and cover new types of work platforms.

Contact: Dr. Jerry L. Purswell, Director, Directorate of Safety Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3510, 200 Constitution Avenue, NW., Washington, D.C. 20210 (202) 523-7198.

Regulatory Analysis: A regulatory analysis is not anticipated.

Action Planned: The publication of a proposed regulation is anticipated.

10. *Description:* 29 CFR Part 1907—Laboratory Accreditation.

Basis for Action: To improve the procedures for the accreditation of testing laboratories which certify that equipment meet requirements established in OSHA standards.

Contact: Dr. Jerry L. Purswell, Director, Directorate of Safety Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3510, 200 Constitution Avenue, NW., Washington, D.C. 20210 (202) 523-7198.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The development of a proposal will be undertaken.

Regulations For Which Review is Required: None.

New Regulations:

1. *Description:* Cancer Policy.

OSHA has proposed a statement of policy and procedure for the regulation of potential carcinogens found in the occupational environment.

Basis for Action: The Agency is responding to a need to find a more expedient means of evaluating data on potentially carcinogenic materials and for developing regulations to provide adequate employee protection from exposure to these substances.

Contact: Grover C. Wrenn, Director of Health Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3718, Washington, D.C. 20210 (202) 523-7075.

Regulatory Analysis: A regulatory analysis has been prepared.

Action Planned: The publication of a final standard is anticipated.

2. *Description:* Pesticides.

The OSHA is developing a generic standard for pesticides which may contain provisions for work practices, engineering controls, medical surveillance of employees in these operations or other provisions which would reduce the risk of serious occupational illness among workers employed in pesticide manufacture and formulation.

Basis for Action: Occupational exposure to pesticides in manufacturing and formulation operations presents serious health risks to employees in these work areas.

Contact: Flo H. Ryer, Director, Office of Special Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3663, Washington, D.C. 20210 (202) 523-7175.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The publication of a proposed standard is anticipated.

3. *Description:* Access to Medical Records.

Basis for Action: This proposed rule on access to employee exposure records and medical records would implement OSHA's policy under the OSH Act that employees have the basic right to know information obtained by employers on the employees exposure to workplace hazards and any consequent health effects on the employee. The proposal includes specifications for the length of time these records would be retained and notes to whom these records would be available.

Contact: Flo H. Ryer, Director, Office of Special Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3663, Washington, D.C. 20210 (202) 523-7175.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

4. *Description:* Occupational Exposure Standards for Chromates.

Basis for Action: OSHA is developing standards for chromates following the Section 6(b) rulemaking procedures of the Act. Chromates have been found to present risks to the employees exposed to them in their place of employment.

Contact: Fayez Hanna, Director, Office of Carcinogen Standards, U.S. Standards, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3718, Washington, D.C. 20210 (202) 523-7148.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The development of a proposal will be undertaken.

5. *Description:* Occupational Exposure for Beryllium.

Basis for Action: OSHA is developing standards for beryllium following the Section 6(b) rulemaking procedures of the Act. Beryllium has been found to present serious health risks to the employees exposed to it in their place of employment.

Contact: Fayez Hanna, Director, Office of Carcinogen Standards, U.S. Standards, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3718, Washington, D.C. 20210 (202) 523-7148.

Regulatory Analysis: An economic impact statement has been prepared.

Action Planned: The publication of a final standard is anticipated.

6. *Description:* Chemical Hazard Identification.

The proposal being developed by OSHA is expected to contain requirements for the employer to inform employees of toxic chemicals in the workplace, of their potential hazards, and of means of reducing exposure.

Basis for Action: Employee awareness of the chemical hazards to which he or she is exposed in the workplace provides knowledge necessary for that individual to actively participate in the reduction or elimination of exposure to these harmful agents.

Contact: Flo H. Ryer, Director, Office of Special Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3663, Washington, D.C. 20210 (202) 523-7175.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: There will be continued staff analysis and evaluation of alternative approaches.

Revision/Modification of Existing Standards. 1. Description: Occupational Exposure Standards for Abrasive Blasting.

Basis for Action: OSHA is reviewing and considering modifications to the current standards for abrasive blasting following the Section 6(b) rulemaking procedures of the Act. Abrasive blasting has been found to present risks to the employees engaged in it at their place of employment.

Contact: John Froines, Director, Office of Toxic Substance Standards, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3718, Washington, D.C. 20210 (202) 523-7105. %

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The review of a draft proposal by the OSHA Construction Safety and Health Advisory Committee and possible publication of proposed revisions to existing standards is anticipated.

2. *Description:* Occuaptional Exposure Standards for MOCA.

Basis for Action: MOCA has been found to present risks of serious illiness including cancer to the employees exposed to it in their place of employment. Standards previously developed must now be reconsidered in light of a recent court decision.

Contact: Fayez Hanna, Director, Office of Carcinogens Standards, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3718, Washington, D.C. 20210 (202) 523-7148.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The publication of a proposed standard is anticipated.

3. *Description:* 29 CFR Part 1960—Safety and Health Provisions for Federal Employees.

The regulations and guidelines of this part are applicable only to Federal employees and constitute a framework for the occupational safety and health program of the various Federal agencies.

Basis for Action: To ensure workplace safety and health for Federal employees.

Modifications under development for inclusion in 29 CFR Part 1960 include:

a. Uniform Program Evaluation Guide—to set forth Department of Labor policies and procedures for conducting agency safety and health program evaluation; and

b. Criteria for Occupational Safety and Health Program Awards—to establish uniform guidelines for various safety and health program awards.

These additions to 29 CFR Part 1960 will further define responsibilities of the Secretary of Labor under Section 19 of the Occupational Safety and Health Act of 1970 and Executive Order 11807. Item b. will also provide additional guidance to Federal agencies regarding various awards programs.

Contact: Mrs. Annie W. Asensio, Office of Federal Agency Safety and Health Programs, Occupational Safety and Health Administation, U.S. Department of Labor, 2100 M Street, NW., Room 156, Washington, D.C. 20210 (202) 654-5500.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed revision to the current regulation is anticipated.

Tentative Regulatory Action Pending Staff Analysis: 1. *Description:* Occupational Exposure Standards for Asbestos.

Basis for Action: OSHA is reviewing the existing standard for asbestos to determine the need for revision or modification. Asbestos has been found to present serious health risks to employees exposed to it in their place of employment.

Contact: John Froines, Director, Office of Toxic Substance Standards, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3718, Washington, D.C. 20210 (202) 523-7105.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: Staff analysis and evaluation of alternative approaches will be undertaken.

2. *Description:* Standards Completion Project.

The Occupational Safety and Health Act of 1970 describes provisions which are essential to a comprehensive and effective program of industrial hygiene. These provisions include periodic monitoring of workers exposure to toxic chemicals, medical surveillance of the employees exposed to the chemicals, employee training requirements, and recordkeeping, among others.

Basis for Action: This project would propose to apply such provisions to the current list of chemicals for which OSHA only has permissible exposure limits. The discussion of the provisions are found at Section 6(b)(7) and 8(c)(3) of the OSH Act. The OSHA permissible exposure limits are codified at 29 CFR 1910.1000.

Contact: Flo H. Ryer, Director, Office of Special Standards Programs, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3663, Washington, D.C. 20210 (202) 523-7175.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The staff analysis of several alternatives will be undertaken.

3. *Description:* Occupational Exposure Standards for Noise.

Basis for Action: OSHA is considering modifications to the current standard for noise exposure based on the record made in extensive public hearings.

Contact: John P. O'Neill, Director, Office of Physical Agent Standards, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3718, Washington, D.C. 20210 (202) 523-7193.

Regulatory Analysis: an economic impact statement has been prepared.

Action Planned: Staff analysis of the public record and an evaluation of alternatives will be undertaken.

4. *Description:* Occupational Exposure Standards for Nickel and Cadmium.

Basis for Action: OSHA is developing standards for nickel and cadmium following the Section 6(b) rulemaking procedures of the Act. Nickel and cadmium have been found to present serious health risks to exposed employees.

Contact: Fayey Hanna, Director, Office of Carcinogen Standards, U.S. Department of Labor, Occupational Safety and Health Administration, Room N3718, Washington, D.C. 20210 (202) 523-7148.

Regulatory Analysis: A regulatory analysis will be prepared for each substance.

Action Planned: The staff analysis and evaluation of alternatives will be undertaken.

V 4 4 / 19 J A 26 79 UMI

OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION AND MANAGEMENT

Regulations Selected For Review: 1. *Description:* 41 CFR 29-1.6.—Debarred, Suspended and Ineligible Bidders.

Basis for Action: This is a revision of an existing Department of Labor (DOL) procurement regulation covering exclusion from eligibility of concerns or individuals to receive Labor Department contracts or grants on account of violations of applicable Federal laws and regulations. It supplements the requirements of the Federal Procurement Regulation (41 CFR 1-1.6).

Contact: Walter C. Terry, Director, Office of Grants, Procurements and ADP Policy, Office of the Assistant Secretary for Administration and Management, Room S1325, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210 (202) 523-9148.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

2. *Description:* 41 CFR 29-4.9—Unsolicited Proposals.

This regulation implements for the Department requirements of a new section of the Federal Procurement Regulations (41 CFR 1-4.9).

Basis for Action: To revise procedures for handling unique or original proposals (for work to be done by contract) which are received in the Department without having been solicited by the Department.

Contact: Walter C. Terry, Director, Office of Grants, Procurement and ADP Policy, Office of the Assistant Secretary for Administration and Management, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington 20210 (202) 523-9148.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

3. *Description:* 41 CFR Part 29-70—Administrative Requirements Governing all Grants and Agreements by Which Department of Labor Agencies Award Funds to State and Local Governments, Indian and Native American Entities, Public and Private Institutions of Higher Education and Hospitals, and Other Quasi-Public and Private Nonprofit Organizations.

Basis for Action: Except for specific requirements of authorizing legislation, these requlations provide the Federal administrative requirements for all grants and agreements awarded by the Department of Labor. They implement for the Department the Federal administrative standards imposed on recipients of Federal grants and agreements by OMB Circulars Nos. A-102 (for recipients which are State and local governments) and A-110 (for recipients which are nonprofit organizations). The Circulars require that each Federal agency with grant or agreement programs issue regulations appropriate to its programs.

Contact: Walter C. Terry, Director, Office of Grants, Procurements, and ADP Policy, Office of the Assistant Secretary for Administration and Management, U.S. Department of Labor, Room S1325, 200 Constitution Avenue, NW., Washington, D.C. 20210 (202) 523-9148.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of final regulation is anticipated.

Regulations For Which Review is Required: None.

New Regulations: None.

EMPLOYMENT STANDARDS ADMINISTRATION

Regulations Selected For Review:

1. *Description:* 29 CFR Part 780—Exemptions Applicable to Agriculture, Processing of Agricultural Commodities, and Related Subjects under the Fair Labor Standards Act.

Exemptions under various sections of the FLSA for certain persons engaged in agriculture or processing of agricultural commodities.

Basis for Action: Interpretative Bulletin must be updated to reflect changes (additions and deletions) in coverage and exemptions brought about by the 1974 and 1977 amendments to the Act.

Contact: Paul G. Campbell, Director, Division of Minimum Wage and Hour Standards, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S3508, Washington, D.C. 20210, (202) 523-7043.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The development of a proposal will be undertaken.

2. *Description:* 29 CFR Part 41—Interpretations of the Farm Labor Contractor Registration Act.

Interpretations of the Farm Labor Contractor Registration Act, which requires farm labor contractors, their full-time or regular employees and users of migrant agricultural workers to observe certain rules regarding the recruiting, transporting, or housing of migrant workers.

Basis for Action: The Farm Labor Contractor Registration Act was significantly changed as a result of the 1974 Amendments. Revisions in this Interpretative Bulletin are required to reflect changes made in the statute, changes in policy, and to provide clear and responsive interpretations to affected parties.

Contact: Solomon Sugarman, Chief, Branch of Farm Labor Law Enforcement, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S3504, Washington, D.C. 20210 (202) 523-7531.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The development of a proposal will be undertaken.

3. *Description:* 29 CFR Part 525—Employment of Handicapped Clients in Sheltered Workshops.

Conditions under which special certificates can be issued providing for employment of handicapped persons at special minimum wage rates in sheltered workshops, under the Fair Labor Standards Act.

Basis for Action: These regulations were last comprehensively revised in 1967. Revisions are needed to resolve problems which have arisen, and simplification of certain procedures is needed to improve the administration of the program.

Contact: Arthur H. Korn, Director, Division of Special Minimum Wages, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room C4316, Washington, D.C. 20210, (202) 523-8727.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

4. *Description:* 29 CFR Part 529—Employment of Patient Workers in Hospitals and Institutions at Subminimum Wages.

Conditions under which certificates can be issued authorizing special minimum wage rates for patients performing work for the hospitals or institutions in which they reside, under Section 14 of the Fair Labor Standards Act.

Basis for Action: These regulations, first issued in 1975, contain a section which provides for a review based on our initial administrative experience with the regulations.

Contact: Arthur H. Korn, Director of Special Minimum Wages, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210, (202) 523-8727.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

5. *Description:* 29 CFR Part 4—Labor Standards for Federal Service Contracts.

Regulations and Interpretations providing for administration of the Service Contract Act.

Basis for Action: Revisions are needed to reflect current Departmental policy and clarify existing regulations by using simpler language.

Contact: Dorothy P. Come, Assistant Administrator, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S3205, Washington, D.C. 20210 (202) 523-8333.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The development of a proposal will be undertaken.

6. *Description:* 29 CFR Parts 3 and 5—Labor Standards Provisions, Davis-Bacon and Related Acts/Contract Work Hours and Safety Standards Act.

Regulations and interpretations providing for the administration and enforcement of labor standards provisions required to be included in federally-funded or assisted construction contracts under the Davis-Bacon Act and the Contract Work Hours and Safety Standards Act.

Basis for Action: Revisions are needed to reflect current Departmental policy and to clarify existing regulations by using simpler language.

Contact: Dorothy P. Come, Assistant Administrator, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S3205, Washington, D.C. 20210 (202) 523-8333.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The publication of a proposed regulation is anticipated.

7. *Description:* 29 CFR Part 570.61—Occupations Involving Slaughtering, Meat Packing or Processing, or Rendering (Order No. 10).

Hazardous Occupations Order No. 10 prohibits the employment of minors 16 and 17 years of age in occupations involving slaughtering, meat packing or processing, or rendering.

Basis for Action: Order No. 10 is issued under Section 3(1) of the Fair Labor Standards Act. A review of the Order is needed to update it in light of various technological changes which have occurred in the industry since its adoption.

Contact: Lucille C. Pinkett, Chief, Branch of Child Labor, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room C3146, Washington, D.C. 20210 (202) 523-8412.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

8. *Description:* 29 CFR Part 570, Subpart C—Employment of Minors Between 14 and 16 Years of Age (Child Labor Reg. 3).

Child Labor Regulation 3 sets forth the periods and conditions for the employment of minors 14 and 15 years of age.

Basis for Action: Child Labor Regulation 3 is issued under Section 3(1) of the Fair Labor Standards Act. A review of the Regulation is needed to provide uniformity, to clarify the standards, and to provide consistency in the application of the provisions.

Contact: Lucille C. Pinkett, Chief, Branch of Child Labor, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S3022, Washington, D.C. 20210 (202) 523-8412.

Regulatory Analysis: The need for regulatory analysis is under study.

Action Planned: The publication of a proposed regulation is anticipated.

9. *Description:* 29 CFR Part 800—Equal Pay for Equal Work under the Fair Labor Standards Act.

Interpretations regarding the meaning and application of Equal Pay Act provisions prohibiting discrimination on the basis of sex in the payment of wages for work which is substantially equal.

Basis for Action: With respect to insurance and other employee benefit plans, the current interpretations provide that the Act is not violated where either the plan provides equal benefits to both men and women or the employer makes equal contributions to the plan. On the basis of decisions of the U.S. Supreme Court and other courts and a thorough review of the legislative history and purposes of the Equal Pay Act, the Department has determined that the "either-or-rule" is an incorrect interpretation. Thus, proposed modifications in §§ 800.110 and 80.116(d) of the Equal Pay interpretations, as proposed on August 25, 1978 in the FEDERAL REGISTER, would make clear that employee benefits are "wages" within the meaning of the Equal Pay Act, that any differential in such benefits based on sex-based actuarial distinctions violates the Act, and that any sex-based differential in required employee contributions toward equal benefits violates the Act.

Contact: Richard A. McMullen, Chief, Branch of Equal Pay, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S3028, Washington, D.C. 20210 (202) 523-7605.

Regulatory Analysis: A regulatory analysis will be prepared for the proposed modification to 29 CFR Sections 800.110 and 800.116.

Action Planned: The publication of a final regulation is anticipated.

10. *Description:* 40 CFR Part 60-1—Obligations of Contactors and Subcontractors under E.O. 11246, as amended.

Regulations to achieve the aims of Parts II, III, and IV of Executive Order 11246, as amended, for promoting and ensuring equal opportunity without regard to race, color, religion, sex, or national origin, for all persons employed or seeking employment with Government contractors or with contractors performing work under federally-assisted construction contracts.

Basis for Action: This regulation needs reorganization, simplification and clarification to correct inconsistencies, reflect consolidation of the program into the Department of Labor and improve the effectiveness of the program.

Contact: Dolores C. Symons, Chief, Branch of Regulations and Procedures, Division of Program Policy, Office of Federal Contract Compliance Programs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Room C3324, Washington, D.C. 20210 (202) 523-9426.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

11. *Description:* 41 CFR Part 60-2—Affirmative Action Programs under E.O. 11246, as amended.

Requirements of affirmative action programs of nonconstruction contractors and subcontractors with 50 or more employees and (1) a contract of $50,000 or more; or (2) government bills of lading which in any 12-month period total or can reasonably be expected to total $50,000 or more; or (3) who serves as a depository of Government funds in any amount; or (4) who is a financial institution which is an issuing and paying agency for U.S. saving bonds and savings notes in any amount.

Basis for Action: This regulation needs reorganization, simplification and clarification to correct inconsistencies, reflect consolidation of the program into the Department of Labor and improve the effectiveness of the program.

Contact: Dolores C. Symons, Chief, Branch of Regulations and Procedures, Division of Program Policy, Office of Federal Contract Compliance Programs, U.S. Department of Labor, 200 Constitution Avenue, NW., Room C3324, Washington, D.C. 20210 (202) 523-9426.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

12. *Description:* 41 CFR Part 60-4—Construction Contractor's Affirmative Action Requirements under E.O. 11246, as amended.

Affirmative action requirements of contractors and subcontractors which hold any federal or federally-assisted construction contract in excess of $10,000 and procedures which all federal contracting officers and all applicants shall follow in soliciting for and awarding federal or federally-assisted construction contracts.

Basis for Action: New policies and procedures are being developed.

Contact: Dolores C. Symons, Chief, Branch of Regulations and Procedures, Division of Program Policy,

V 4 4 / 1 9

Office of Federal Contract Compliance Programs, U.S. Department of Labor, 200 Constitution Avenue, NW., Room C3324, Washington, D.C. 20210 (202) 523-9426.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

13. *Description:* 41 CFR Part 60-20—Sex Discrimination Guidelines.

Interpretations and guidelines of the Office of Federal Contract Compliance Programs regarding the implementation of E.O. 11246, as amended by E.O. 11375, for the promotion and ensuring of equal opportunities for all persons employed or seeking employment with Government contractors and subcontractors or with contractors performing under federally-assisted construction contracts, without regard to sex.

Basis for Action: There is a need for simplification and clarification in Part 60-20. Also, new policies are being proposed regarding several issues concerning discriminatory employment practices affecting women. In the area of employee benefits, a proposed amendment to Part 60-20 is now pending, having been published in the FEDERAL REGISTER on August 25, 1978 in conjunction with publication of a proposed new interpretation concerning employee benefits under the Equal Pay Act (see item 9, above).

Contact: Dolores C. Symons, Chief, Branch of Regulations and Procedures, Division of Program Policy, Office of Federal Contract Compliance Programs, U.S. Department of Labor, 200 Constitution Avenue, NW., Room C3324, Washington, D.C. 20210 (202) 523-9426.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The publication of a proposed regulation is anticipated.

14. *Description:* 41 CFR Part 60-30—Rules of Practice for Administrative Proceedings to Enforce Equal Opportunity under Executive Order 11246.

Basis for Action: Modifications could expedite hearing procedures by enabling the agency to elect simpler procedures when appropriate.

Contact: Dolores C. Symons, Chief, Branch of Regulations and Procedures, Division of Program Policy, Office of Federal Contract Compliance Programs, U.S. Department of Labor, 200 Constitution Avenue, NW., Room C3324, Washington, D.C. 20210 (202) 523-9426.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

15. *Description:* 41 CFR Part 60-40—Examination and Copying of OFCCP Documents under E.O. 11245, as amended.

General rules of the OFCCP for public access to information from records of the E.O. 11246 program.

Basis for Action: Complete revision is required in order to facilitate consistency with other disclosure rules.

Contact: Dolores C. Symons, Chief, Branch of Regulations and Procedures, Division of Program Policy, Office of Federal Contract Compliance Programs, U.S. Department of Labor, 200 Constitution Avenue, NW., Room C3324, Washington, D.C. 20210 (202) 523-9426.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

16. *Description:* 41 CFR Part 60-50—Guidelines on Discrimination Because of Religion or National Origin.

Interpretations and guidelines of the OFCCP regarding the implementation of E.O. 11246, as amended, for promoting and ensuring equal employment opportunity for all persons employed by or seeking employment with government contractors, without regard to religion or national origin.

Basis for Action: This part is under review to consider the sufficiency of existing provisions and new proposals to strengthen its effectiveness.

Contact: Dolores C. Symons, Chief, Branch of Regulations and Procedures, Division of Program Policy, OFCCP, U.S. Department of Labor, 200 Constitution Avenue, NW., Room C3324, Washington, D.C. 20210 (202) 523-9426.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

17. *Description:* 41 CFR Part 60-60—Contractor Evaluation Procedures for Contractors for Supplies under E.O. 11246, as amended (Revised Order No. 14).

Standardized contractor evaluation procedures for compliance reviews of contractors and subcontractors for supplies and services required to develop written affirmative action programs under the equal employment opportunity requirements of 41 CFR 60-1.40 and 41 CFR Part 60-2.

Basis for Action. With a view toward simplification and clarification, material now contained in Part 60-60 may be incorporated into 60-2 and an OFCCP compliance manual, with the result that the need for 60-60 could be eliminated.

Contact: Dolores C. Symons, Chief, Branch of Regulations and Procedures, Division of Program Policy, Office of Federal Contract Compliance Programs, U.S. Department of Labor, 200 Constitution Avenue, NW., Room C3324, Washington, D.C. 20210 (202) 523-9426.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

18. *Description:* 41 CFR Part 60-250—Affirmative Action Obligations of Contractors and Subcontractors for Disabled Veterans and Veterans of the Vietnam Era.

Affirmative action obligations for Government contractors and subcontractors with contracts of $10,000 or more relating to the employment of qualified disabled veterans and veterans of the Vietnam Era.

Basis for Action: Changes are necessary to achieve compatibility with E.O. 11246 and its implementing regulations.

Contact: Dolores C. Symons, Chief, Branch of Regulations and Procedures, Division of Program Policy, Office of Federal Contract Compliance Programs, U.S. Department of Labor, 200 Constitution Avenue, NW., Room C3324, Washington, D.C. 20210 (202) 523-9426.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

19. *Description:* 41 CFR Part 60-741—Affirmative Action Obligations of Contractors and Subcontractors for Handicapped Workers.

Affirmative action obligations for Government contractors or subcontractors with contracts in excess of $2,500 relating to the employment of qualified handicapped individuals.

Basis for Action: The need to modify this part is the same as that for item 25, above, (41 CFR Part 60-250).

Contact: Dolores C. Symons, Chief, Branch of Regulations and Procedures, Division of Program Policy, Office of Federal Contract Compliance Programs, U.S. Department of Labor, 200 Constitution Avenue NW., Room C3324, Washington, D.C. 20210 (202) 523-9426.

Regulatory Analysis: The need for a regulatory analysis is under study.

Action Planned: The publication of a proposed regulation is anticipated.

Regulations for Which Review is Required:

1. *Description:* 20 CFR Part 722—Criteria for Determining Whether State Workers' Compensation Laws Provide Adequate Coverage for Pneumoconiosis and Listing of Approved Laws.

Regulations establishing procedures and standards to be applied by the Secretary of Labor in determining whether a State workers' compensation law provides adequate coverage for death or disability due to pneumoconiosis.

Basis for Action: Review and revision of Part 722 is necessary because

of amendments to Section 421 of the Black Lung Benefits Reform Act of 1977.

Contact: Neil Montone, Assistant Associate Director for Coal Mine Workers' Compensation, Office of Workers' Compensation Programs, U.S. Department of Labor, 200 Constitution Avenue NW., Room C3320, Washington, D.C. 20210 (202) 523-6692.

Regulatory Analysis: It is not anticipated that a regulatory analysis will be required.

Action Planned: The publication of a final regulation is anticipated.

2. *Description:* 20 CFR Part 726—Black Lung Benefits: Requirements for Coal Mine Operators' Insurance.

Rules governing the manner by which a coal mine operator shall fulfill his insurance obligations under the Black Lung Benefits Act, either by qualification as a self-insurer or by contracting with a commercial insurance company.

Basis for Action: Review and revision of Part 726 is necessary as a result of enactment of the Black Lung Benefits Reform Act of 1977 and the Black Lung Benefits Revenue Act of 1977.

Contact: Edward Daniels, Chief, Branch of Finances, Division of Coal Mine Workers' Compensation, U.S. Department of Labor, 200 Constitution Avenue NW., Room C3316, Washington, D.C. 20210 (202) 523-9483.

Regulatory Analysis: The need for a regulatory analysis is under study.

Action Planned: The publication of a final regulation is anticipated.

3. *Description:* 20 CFR Part 718—Standards for Determining Coal Miners' Total Disability or Death Due to Pneumoconiosis.

OWCP has proposed regulations establishing standards to be applied in determining whether a coal miner is or was totally disabled due to pneumoconiosis or died from pneumoconiosis and specifying procedures and requirements to be followed in conducting medical examinations and in administering various tests.

Basis for Action: Review and revision of Part 718 is required by the amendments made to the Black Lung Benefits Act by the Black Lung Benefits Reform Act of 1977.

Contact: Robert B. Dorsey, Chief, Branch of Claims Determination, Division of Coal Mine Workers' Compensation, Office of Workers' Compensation Programs, Employment Standards Administration, U.S. Department of Labor, Room C3526, NDOL Building, 200 Constitution Avenue, NW., Washington, D.C. 20210, 202-523-6726.

Regulatory Analysis. A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

4. *Description:* 29 CFR Part 531—Wage Payments under the Fair Labor Standards Act.

Definition of the term "wage" under the FLSA, and determinations as to the "reasonable cost" and "fair value" of board, lodging and other facilities customarily furnished by an employer to employees.

Basis for Action: Regulations must be updated to reflect the 1974 and 1977 amendments to the FLSA and also to incorporate resultant interpretive rulings.

Contact: Paul G. Campbell, Director, Division of Minimum Wage and Hour Standards, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S3508, Washington, D.C. 20210, 202-523-7043.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

5. *Description:* 29 CFR Part 516—Records to be Kept by Employers.

Recordkeeping and posting requirements applicable to all employers who have employees covered by the FLSA.

Basis for Action: This regulation needs to be updated to reflect the 1977 amendments to the Act.

Contact: Paul G. Campbell, Director, Division of Minimum Wage and Hour Standards, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S3508, Washington, D.C. 20210, 202-523-7043.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

6. *Description:* 29 CFR Part 778—Overtime Compensation.

Explanation and interpretation of the overtime and maximum hours provisions of Section 7 of the Fair Labor Standards Act.

Basis for Action: Technical and editorial changes must be made in the Bulletin to reflect the 1977 Amendments to the FlSA.

Contact: Paul G. Campbell, Director, Division of Minimum Wage and Hour Standards, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S3508, Washington, D.C. 20210, (202) 523-7043.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

7. *Description:* 29 CFR Part 850—Age Discrimination in Employment—Records to be Made or Kept Relating to Age, Notices to be Posted, Administrative Exemptions.

Recordkeeping and posting requirements for employers, employment agencies and labor organizations subject to the Age Discrimination in Employment Act, and administrative exemptions pursuant to Section 9 of the Act.

Basis for Action: The Age Discrimination in Employment Act Amendments of 1978 include a limited exemption allowing compulsory retirement of certain bona fide executive or policymaking employees at ages 65 through 69. Regulations are required on how to calculate the level of retirement benefits in a form other than a straight life annuity to determine whether the $27,000 criterion for application of the exemption is met. A proposed new § 850.17 to implement this requirement was published in the FEDERAL REGISTER on December 12, 1978.

Contact: Francis V. LaRuffa, Chief, Branch of Age Discrimination, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S3502, Washington, D.C. 20210 (202) 523-7640.

Regulatory analysis: A regulatory Analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

8. *Description:* 29 CFR Part 860—Age Discrimination in Employment—Interpretations.

Interpretations which guide the Department in the enforcement and administration of the Age Discrimination in Employment Act of 1967.

Basis for Action: The interpretations must be revised to implement the Age Discrimination in Employment Act Amendments of 1978. Proposed interpretations relating to employee benefit plans (§ 860.120) were published in the FEDERAL REGISTER on September 22, 1978. Proposed interpretations concerning limited exemptions affecting certain bona fide executive or high policymaking employees and tenured employees at institutions of higher education were published in the FEDERAL REGISTER on December 12, 1978. Proposed interpretations concerning the prohibition of mandatory retirement up until age 70 may be expected in the near future. Also, to conform with changes in ADEA coverage under the Fair Labor Standards Act Amendments of 1974 and the 1978 ADEA amendments, minor proposed revisions may be expected (early next year) in sections of these interpretations concerning the definitions of "employer" and discrimination within the age range covered under the Act.

Contact: Francis V. LaRuffa, Chief, Branch of Age Discrimination, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S3502, Washington, D.C. 20210 (202) 523-7640.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

JA 26 79 UMI

V 4 4 / 1 9 J A 2 6 7 9 UMI

9. *Description:* 29 CFR Part 505—Labor Standards on Projects or Productions Assisted by Grants from National Endowment for the Arts.

Basis For Action: The regulation must be updated to reflect the imposition of labor standards requirements with respect to all professional performers and related or supporting professional personnel employed on projects or productions financed in whole or in part under grants made by the National Endowment for the Humanities brought about by the 1976 Amendments to the National Foundation on the Arts and the Humanities Act of 1965. Such regulatory changes are authorized by Section 7(g) of the amended statute.

Contact: Paul G. Campbell, Director, Division of Minimum Wage and Hour Standards, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S3508, Washington, D.C. 20210 (202) 523-7043.

Regulatory Analysis: A regulatory Analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

New Regulations: None.

LABOR MANAGEMENT SERVICES ADMINISTRATION

Regulations Selected For Review:

1. *Description:* 29 CFR Part 452, Subpart J—Special Enforcement Provisions of the Election Provisions of the Labor-Managment Reporting and Disclosure Act of 1959.

Requirements which must be met before a union member files an election complaint with the Secretary of Labor, for investigation of a complaint by the Department upon receipt of a valid complaint and, requirements for filing a civil suit seeking to set the election aside.

Basis for Action: These provisions have not been revised since December, 1959. Judicial decisions and administrative determinations made since that date should be made known to the public.

Contact: Herbert Raskin, Labor-Management Services Administration, U.S. Department of Labor, Room N5119, 200 Constitution Avenue, NW., Washington, D.C. 20210 (202) 523-7373.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

2. *Description:* 29 CFR Part 2520—Elimination of Form EBS-1.

A revision of certain reporting requirements will be proposed to eliminate the need for employee benefit plans to file a Plan Description Form EBS-1 with the Department.

Basis for Action: The revision is intended to eliminate duplicative reporting and reduce the paperwork burden imposed by ERISA.

Contact: Peter Straub, Pension and welfare Benefit Programs, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N4472, Washington, D.C. 20210 (202) 523-8377.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

3. *Description:* 29 CFR Part 2530—Suspension of Benefits.

This proposed regulation will describe the circumstances under which an employee benefit plan will be permitted to suspend the payment of benefits to a retiree under Section 203(a)(3)(B) of ERISA.

Basis for Action: To clarify and implement the requirements of Section 203(a)(3)(B) of ERISA.

Contact: Judith Kahn, Pension and Welfare Benefit Programs, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N4461, Washington, D.C. 20210 (202) 523-8430.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

4. *Description:* 29 CFR Parts 2520 and 2530—Individual Benefit Reporting and Recordkeeping.

These proposed provisions will govern (1) reports that must be furnished to participants and beneficiaries of pension plans regarding the benefits to which they are entitled, or may become entitled at retirement and (2) records that must be maintained to provide the information necessary to prepare these reports.

Basis for Action: To implement certain reporting and recordkeeping requirements of ERISA.

Contact: Peter Straub, Pension and Welfare Benefit Programs, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N4700, Washington, D.C. 20210 (202) 523-8377.

Regulatory Analysis: The need for regulatory analysis is under study.

Action Planned: The publication of a proposed regulation is anticipated.

5. *Description:* 29 CFR Part 2510—Supplemental Pay.

This proposal to amend and finalize the existing temporary regulation will clarify the circumstances under which an arrangement to make supplemental payments to employees will not be deemed an employee benefit plan under Section 3 of ERISA.

Basis for Action: To clarify the circumstances under which supplemental payment arrangements are covered by ERISA.

Contact: Edith Fierst, Pension and Welfare Benefit Program, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N4700, Washington, D.C. 20210 (202) 523-8664.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

6. *Description:* 29 CFR Part 2520—Certain Exemptions for Plans Under Which Membership in a Health Maintenance Organization is Offered as a Benefit.

The proposed regulations would provide exemptions from certain reporting and disclosure requirements, where application of those requirements might be unnecessary in view of the Health Maintenance Organization Act of 1977.

Basis for Action: The revision is intended to eliminate duplicative reporting currently required by separate provisions of the HMO Act and ERISA, thereby harmonizing the requirements of the two Acts and reducing unnecessary paperwork.

Contact: Robert Doyle, Pension and Welfare Benefit Programs, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N4700, Washington, D.C. 20210, (202) 523-8673.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of proposed regulations is anticipated.

7. *Description:* 29 CFR Part 212—GUIDELINES—Department of Labor Procedures for the Resolution of Disputes as to the Interpretation, Application or Enforcement of Employee Protection Arrangements when Employees are not Represented by a Signatory Labor Organization.

Basis for Action: These guidelines will be issued to provide information about the Department of Labor's procedures for making final and binding determinations in the resolution of disputes arising under the employee protective arrangements of the Urban Mass Transportation Act of 1964, as amended, and under Appendices C-1 and C-2 of the Rail-Passenger Service Act of 1970, as amended, when the employees are not represented by a labor organization which is signatory to the protective arrangement

Contact: Lary Yud, Division of Employee Protections, Labor-Management Services Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N5641, Washington, D.C. 20212 (202) 523-6495.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of proposed guidelines is anticipated.

Regulations For Which Review is Required: None.

New Regulations:

1. *Description:* 29 CFR 92.1-92.9—Labor Management Services Administration Regulations to be Issued Governing Employee Benefit Payments

under the Redwood National Park Expansion Act (Pub. L. 95-250).

These provisions will define the eligibility criteria which employees must meet in order to receive benefits under the Act.

Basis for Action: These regulations are necessary to implement Section 102(b) and Sections 103(d)-103(l) of title I and all of title II of Pub. L. 95-250.

Contact: Ron Glass, Division of Employee Protections, Labor-Management Services Administration, U.S. Department of Labor, Room N5641, 200 Constitution Avenue, NW., Washington, D.C. 20210 (202) 523-6495.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned:

5. The publication of final regulations is anticipated.

MINE SAFETY AND HEALTH ADMINISTRATION

Regulations Selected For Review: 000

1. *Description:* 30 CFR Parts 55, 56, and 57-Consolidation of Parts.

Basis for Action: Section 508 of the Federal Mine Safety and Health Act of 1977 (FMSHA).

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1910.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The development of a proposal will be undertaken.

2. *Description:* 30 CFR Part 71—Respirable Dust Standard for Surface Coal Mines.

Health standards to limit miners' exposure to respirable dust in surface coal mines.

Basis for Action: To implement improved health standards under Section 101 of FMSHA.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1910.

Regulatory Analysis: A regulatory analysis is not anticipated.

Action Planned: The publication of proposed regulations is anticipated.

3. *Description:* 30 CFR Part 75—Underground Coal Mine Safety Standards (nonstatutory).

Mandatory safety standards to protect miners in underground coal mines.

Basis for Action: To implement improved safety standards under Section 101 of FMSHA.

Contact: Herschel H. Potter, Chief, Division of Coal Safety, Mine Safety and Health Administration, U.S. Department of Labor, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1284.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The development of a proposal will be studied.

4. *Description:* 30 CFR Part 70—Respirable Dust Standards for Underground Coal Mines.

Health standards to limit miners' exposure to respirable dust in underground coal mines.

Basis for Action: To implement improved health standards under Section 101 of FMSHA.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1910.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

5. *Description:* 30 CFR Part 77—Surface Coal Mine Safety Standards.

Mandatory safety standards for surface coal mines and surface areas of underground coal mines.

Basis for Action: To implement improved safety standards under Section 101 of FMSHA.

Contact: Herschel H. Potter, Chief, Division of Coal Mine Safety, Mine Safety and Health Administration, U.S. Department of Labor, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1284.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: January, 1977 proposal will be reviewed for further action.

6. *Description:* 30 CFR Part 90—Transfer of Miners.

Procedures for the transfer of surface and underground coal miners with evidence of pneumoconiosis to less dusty work areas in order to prevent further development of the disease.

Basis for Action: To implement improved health standards under Section 101 of FMSHA.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1910.

Regulatory Analysis: A regulatory analysis is not anticipated.

Action Planned: The publication of a proposed regulation is anticipated.

7. *Description:* 30 CFR 75—Automated Temporary Roof Support Standards to Protect Miners from Roof Falls in Underground Coal Mines.

Basis for Action: To implement improved safety standards under Section 101 of FMSHA.

Contact: Herschel H. Potter, Chief, Division of Coal Safety, Mine Safety and Health Administration, U.S. Department of Labor, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1284.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The development of a proposal will be undertaken.

8. *Description:* 30 CFR Parts 11-36—Fee Schedules for Approval Tests Conducted by MSHA.

Basis for Action: To update fee schedules for the reimbursement of MSHA costs under Section 508 of the FMSHA.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703)-235-1910.

Regulatory Analysis: A regulatory analysis is not anticipated.

Action Planned: The development of a proposal will be undertaken.

9. *Description:* 30 CFR Part 46—State Grants Regulations.

Basis for Action: To improve regulations implementing Sections 503 of FMSHA.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703)-235-1910.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a final regulation is anticipated.

Regulations for Which Review is Required:

1. *Description:* 30 CFR Parts 55, 56, and 57—Metal/Nonmetal Health and Safety Advisory Standards.

Health and safety standards to protect life, promote health and safety, and prevent accidents in open pit metal and nonmetallic mines, sand, gravel and crushed stone operations, and metal and nonmetallic underground mines.

Basis for Action: To implement Section 301 of the Federal Mine Safety and Health Amendments Act of 1977 (Amendments Act).

Contact: Frank A. White, Office of Standards, Regulation and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703)-235-1910.

Regulatory Analysis: A regulatory analysis is not anticipated.

Action Planned: The publication of final regulations is anticipated.

New Regulations:

1. *Description:* 30 CFR Part 49—Mine Rescue Teams for all Underground Mines.

Basis for Action: To implement the requirements of Section 115 of FMSHA.

Contact: Frank A. White, Office of Standards, Regulation and Variances, Mine Safety and Health Administra-

tion, 4015 Wilson boulevard, Arlington, Virginia 22203 (703)-235-1910.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: Public hearings will be conducted.

2. *Description:* 30 CFR Part 45—Regulations to Identify Independent Contractors as Mine Operators.

Basis for Action: To implement an enforcement policy consistent with the revised statutory definition of the term "operator" contained in Section 3(d) of FMSHA.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703)-235-1910.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

3. *Description:* 30 CFR Part 110—Safety and Health Standards for Construction Work at all Mines.

Basis for Action: To implement improved standards under Section 101 of FMSHA.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1910.

Regulatory Analysis: The need for a regulatory analyis is under study.

Action Planned: The publication of a proposed regulation is anticipated.

4. *Deseription:* 30 CFR Parts 55, 56, and 57—Miscellaneous Amendments Including Standards for Exposure to Radon Daughters (Part 57 only).

Basis for Action: To implement improved safety and health standards under Section 301 of the Amendments Act.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1910.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of final regulations is anticipated.

5. *Description:* 30 CFR Parts 55, 56 and 57—Miscellaneous Amendments to Explosives Standards.

Basis for Action: To implement improved safety standards under Section 301 of the Amendments Act.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1910.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

6. *Description:* 30 CFR Parts 55, 56 and 57—Explosives Standards that Prohibit Loading through a Kelly Bar or Drill System.

Basis for Action: To implement improved safety standards under Section 301 of the Amendments Act.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1910.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of proposed regulations is anticipated.

7. *Description:* 30 CFR Part 48—Subpart C—Training Regulations for Construction Workers.

Basis for Action: To implement the requirements of Section 115 of FMSHA.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1910.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The development of a proposal will be undertaken.

8. *Description:* 30 CFR Part 18—Miscellaneous Amendments.

Basis for Action: To update Part 18 under Section 508 of FMSHA.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1910.

Regulatory Analysis: A regulatory analysis is not required.

Action Planned: The publication of a proposed regulation is anticipated.

9. *Description:* 30 CFR Part 57—Requirements to Provide Self-contained (Oxygen Generating) Self-rescuers to Underground Metal/Nonmetal Miners.

Basis for Action: To implement improved safety standards under Section 101 of FMSHA.

Contact: Frank A. White, Office of Standards, Regulations and Variances, Mine Safety and Health Administration, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1910.

Regulatory Analysis: The need for a regulatory analysis is under study.

Action Planned: The publication of a proposed regulation is anticipated.

10. *Description:* 30 CFR Parts 55, 56, and 57—Requirements for Construction and Maintenance of Impoundments and Tailings Piles at Metal and Nonmetal mines.

Basis for Action: To implement improved safety standards under Section 101 of FMSHA.

Contact: Roy L. Bernard, Chief, Division of Metal/Nonmetal Mine Safety, Mine Safety and Health Administration, U.S. Department of Labor, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-8646.

Regulatory Analysis: A regulatory analysis will be prepared.

Action Planned: The development of a proposal will be undertaken.

11. *Description:* 30 CFR Parts 75 and 77—Requirements for Raise-Drilling Projects at Underground Coal Mines.

Basis for Action: To implement improved safety standards under Section 101 of FMSHA.

Contact: Herschel H. Potter, Chief, Division of Coal Mine Safety, Mine Safety and Health Administration, U.S. Department of Labor, 4015 Wilson Boulevard, Arlington, Virginia 22203 (703) 235-1284.

Regulatory Analysis: A regulatory analysis is not anticipated.

Action Planned: The development of a proposal will be undertaken.

OTHER

New Regulations:

Description: (CFR Part to be assigned.)

Airline Deregulation Act of 1978. Regulations (a) For establishing benefit amounts, determining eligibility for benefits, and extent of reemployment assistance to be provided to protected employees; and, (b) To govern administration of protected employees' priority hire rights, air carriers duty to hire and related negotiations between air carriers and representatives of protected employees.

Basis for Action: Section 43(f) of the Airline Deregulation Act (Public Law 95-504) authorizes the Secretary to issue, amend, and repeal such rules and regulations as may be necessary to carry out Section 43, the Employee Protection Program.

Contact: (a) Robert Kenyon, Employment and Training Administration, U.S. Department of Labor, Patrick Henry Building, Room 7004, 601 D Street NW., Washington, D.C. 20213 (202) 376-7545; (b) Lary Yud, Labor Management Services Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210 (202) 523-6495.

Regulatory Analysis: The need for regulatory analysis is under study.

Action Planned: The publication of proposed regulations is anticipated.

Signed this 18th day of January, 1979 at Washington, D.C.

RAY MARSHALL,
Secretary.

PART III

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

[4510-27-M]

DEPARTMENT OF LABOR

Employment Standards Administration, Wage and Hour Division

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and supersedeas decisions to general wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the modifications and supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing general wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedeas decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Government Contract Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original general wage determination decision.

ZONE 2 - Bedford, Cameron, Clarion, Clinton, Elk, Forest, Franklin, Fulton, Huntingdon, Mifflin, Potter

DECISION NO. PA79-3000

CLASSIFICATION DEFINITION
FOR ALL ZONES

CLASS 1 - Autograde (C. M. I. & similar), backfiller, backhoe - 360 swing, cableway, caisson drill (similar to Hugh Williams), central mix plant, cooling plant, concrete paving mixer, concrete pump (self-propelled), cranes, cranes (boom or mast 101 ft. or over up to & including 150 ft. inclusive of jib + .25), cranes (boom or mast over 150 ft. up to & including 200 ft. inclusive of jib + $.50), cranes (boom or mast over 200 ft. inclusive of jib + $.75), cranes (tower-stationary climbing tower cranes), derrick, derrick boat, dozer (D-6 & over), dragline, dredge, dredge hydraulic (1 leverman - 1 oiler - 1 apprentice), elevating grader, franki pile machine, gradall (remote controls or otherwise), grader (power-fine grade), helicopter (1500 lb. or over lift), helicopter (under 1500 lb. lift), hilift (4 cy. & over), hoist 2 drums or more (in one unit), hydraulic boom truck (with pivotal Cab) (single motor-pitman or similar), local, lead mechanic, locomotive (std. gauge), metro-chip harvester or similar, mix mobile, mix mobile (with self loading attachment), muching machine (tunnel), pile driver machine, pipe extrusion machine, presplitter drill crane (25 ton & over), rough terrain crane (under 25 ton), scrapers, shovel-power, slip form paver (C. M. I. and similar), trenching machine (30,000 lbs. and over), trenching machine (under 30,000 lb.), tunnel machine (mark XXI jarva or similar), whirley

CLASS 2 - Asphalt paving machines (spreader), asphalt plant operator, auger (tractor mtd.), auger (truck mtd.), backhoe (rear pivotal swing) (180 swing), belt loader (euclid or similar), boring machine, cable placer or layer, compactor with blade, concrete batch plant (electronically synchronized), concrete belt placer (C.M.I. and similar), concrete finishing machine and spreader, concrete mixer (over 1 cy.), concrete pump (stationary), core drill (truck or skid mtd. - similar to Pan drill), dozer (under D-6), force feed loader, fork lift (lull or similar), grader - power, grease unit operator (head), guard rail post driver (truck mounted), guard rail post driver (skid type), hilift (under 4 cy.), hydraulic boom truck (non-pivotal cab), job work boat (powered) (when assistance is required it shall be a deckhand), jumbo operator, locomotive (narrow guage), mechanic, minor equipment operator (accumulative four units), mucking machine, multi-head saw (groover), overhead crane, roller - power-asphalt, ross carrier, side boom or tractor mounted boom, stone cursher, (screening-washing plants), stone spreader (self-propelled) truck mounted drill (davey or similar), welder and repairman, well point pump operator

DECISION NO. PA79-3000

CLASSIFICATION DEFINITION
FOR ALL ZONES (CONT'D)

CLASS 3 - Broom finisher (C.M.I. or similar), Compactors/Rollers (Static or Vibratory) (Self-propelled), Curb Buildet, Minor Equipment Operator (Two to three units), Multi-head Tie Tamper, Pavement Breaker (self-propelled or ridden), Soil Stabilizer Machine, Tire Repairman (As per Agreement with Teamsters), Tractor (Snaking & Hauling), Well Driller & Horizontal and Winch or "A" Frame (when hoisting & lowering)

CLASS 4 - Ballast Regulator, Compressor, Concrete Mixer (1 cy. & under with skip), Concrete Saw (Ridden or self-propelled), Conveyor, Elevator (Material hauling only), Fork-lift (Ridden or self-propelled), Form Line Machine, Generator, Groute Pump, Heater (Mechanical), Hoist (Single Drum), Ladavator, Light Plant, Mulching Machine, Personnel Boat (powered), Pulverizer, Pumps, Seeding Machine, Spray Cure Machine (power Driven), Subgrader, Tie Puller, Tugger and Welding Machine (Gas or Diesel)

CLASS 5 - Deck Hand, Farm Tractor, Fireman or Boiler, Mechanic's Helper, Oiler, Power Room, Side Delivery Shoulder Spreader (Attachment)

DECISION NO. PA79-3000

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Fnday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA//FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
CSA	MSPB*/OPM*		CSA	MSPB*/OPM*
	LABOR			LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

***NOTE: As of January 1, 1979, the Merit Systems Protection Board (MSPB) and the Office of Personnel Management (OPM) will publish on the Tuesday/Friday schedule. (MSPB and OPM are successor agencies to the Civil Service Commission.)**

federal register Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

SERIES P-1981
Treasury announces interest rates on notes will be 9¼ percent 5779

TRANSPORT OF ALIENS
Justice/INS proposes rule on seizure of vehicles, vessels and aircraft; comments by 3-30-79 5671

A-1 AND A-2 NONIMMIGRANTS
Justice/INS proposes an amendment for application acceptance or continuance of employment; comments by 3-30-79 .. 5689

CONTAINERIZED CARGO
Treasury/Customs establishes a simplified alternative for reporting bill of lading numbers; effective 1-29-79 5649

CERTAIN RUBBER PRODUCTS AND FINISHED PLASTIC PRODUCTS
Treasury initiates study of guideline depreciation periods and repair allowance percentages for assets 5779

SEAMLESS CYLINDERS
DOT/MTB issues final rule pertaining to flattening tests; effective 1-29-79 5666

EMPLOYEE RESPONSIBILITIES AND CONDUCT
FCC amends its rules in order to avoid misuse of information; effective 2-2-79 5666

ENVIRONMENTAL IMPACT
EPA lists statements filed with the Agency and distributed to Federal agencies 5707

ENDANGERED SPECIES OF WILD FAUNA AND FLORA
Interior/FWS announces results on proposals to add certain mammals and insects to the Convention on International Trade 5715

LIVESTOCK FOR EXPORT
Treasury/Customs amends Customs Regulations to require authorized personnel furnish an export inspection certificate at the time of departure; effective 2-28-79 5650

COTTON
USDA/CCC publishes specifications for bale packaging materials; effective 1-29-79 5641

IMPROVING GOVERNMENT REGULATIONS
CSA submits semi-annual publication of significant regulations that are under review at this time (Part II of this issue) 5800

SYSTEMS OF RECORDS
DOD/Army adopts exemption rule subject to the Privacy Act of 1974 entitled General Legal Files; effective 1-29-79 5651
Canal Zone Government and Panama Canal Company set forth final rule on general routine use; effective 1-30-79 5660

MEETINGS—

Title 3—
The President

Proclamation 4634 of January 26, 1979

Implementation of Orderly Marketing Agreements—and the Temporary Quantitative Limitation on the Importation Into the United States of Color Television Receivers and Certain Subassemblies Thereof

By the President of the United States of America

A Proclamation

1. On March 22, 1977, the United States International Trade Commission (USITC) reported to the President (USITC Publication 808) the results of its investigation under section 201(b) of the Trade Act of 1974 (19 U.S.C. 2251(b)) (the Trade Act). The USITC determined that color television receivers assembled or not assembled, finished or not finished, provided for in item 685.20 of the Tariff Schedules of the United States (TSUS) (19 U.S.C. 1202) are being imported into the United States in such increased quantities as to be a substantial cause of serious injury to the domestic industry producing articles like or directly competitive with the imported articles. By an evenly divided vote, three USITC Commissioners determined serious injury to exist in the monochrome television receiver industry and three Commissioners made no determination of injury with respect to the monochrome receiver industry. The Commissioners also had an evenly divided determination on the question of injury to that portion of the industry producing subassemblies of color television receivers, also provided for in item 685.20 of the TSUS.

2. On June 24, 1977, in order to remedy the serious injury found to exist by the USITC, I proclaimed (Presidential Proclamation 4511) that the Government of the United States of America and the Government of Japan had entered into an orderly marketing agreement on May 20, 1977, pursuant to section 203(a)(4) of the Trade Act (19 U.S.C. 2253(a)(4)) limiting the export from Japan to the United States of color television receivers and certain subassemblies thereof, for a period of three years beginning July 1, 1977, to 1.75 million units in each annual restraint period.

3. In Proclamation 4511 I delegated my authority under section 203(e)(3) of the Trade Act (19 U.S.C. 2253(e)(3)) to determine that any agreement negotiated pursuant to section 203(a)(4) of the Trade Act (19 U.S.C. 2253(a)(4)) is no longer effective to the Special Representative for Trade Negotiations (hereinafter referred to as the "Special Representative").

4. Pursuant to the authority delegated to the Special Representative in paragraphs 2 and 4 of Proclamation 4511, and after consultation with representatives of member agencies of the Trade Policy Staff Committee, the Special Representative has determined that imports of color television receivers and certain subassemblies thereof from Taiwan and the Republic of Korea have increased in such quantities so as to disrupt the effectiveness of the orderly marketing agreement with Japan with respect to such products and that for the purposes of section 203(e)(3) of the Trade Act (19 U.S.C. 2253(e)(3)) the orderly

UMI

V 4 4 / 2 0

marketing agreement with Japan does not continue to be effective. I concur with that determination.

5. Pursuant to the authority vested in the President by the Constitution and the statutes of the United States, including section 203(a)(5) and 203(e)(3) of the Trade Act (19 U.S.C. 2253(a)(5) and 2253(e)(3)), and in order to restore the effectiveness of the orderly marketing agreement with Japan, and to remedy the serious injury to the domestic industry producing color television receivers and certain subassemblies thereof found to exist by the USITC, orderly marketing agreements were concluded on December 14, 1978, and December 29, 1978, between the Government of the United States of America and the Government of the Republic of Korea and Taiwan respectively. The orderly marketing agreements limit the export from the Republic of Korea and Taiwan to the United States of color television receivers and certain subassemblies thereof, for the period February 1, 1979, through June 30, 1980, and set forth conditions under which limitations will be placed on the importation into the United States of such articles by the Government of the United States through quantitative restrictions. These restrictions are to be implemented under the authority of sections 203(a)(5), (e)(3), and (g)(2) of the Trade Act (19 U.S.C. 2253(a)(5), (e)(3), and (g)(2)).

6. In accordance with section 203(d)(2) of the Trade Act (19 U.S.C. 2253(d)(2)), I have determined that the level of import relief hereinafter proclaimed permits the importation into the United States of a quantity or value of articles which is not less than the average annual quantity or value of such articles imported into the United States, from the Republic of Korea and from Taiwan, in the 1972–75 period, which I have determined to be the most recent representative period for imports of such articles.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, acting under the authority vested in me by the Constitution and statutes of the United States, including sections 203 and 604 of the Trade Act (19 U.S.C. 2253 and 2483), and section 301 of Title 3 of the United States Code, do hereby proclaim:

(1) Orderly marketing agreements were entered into on December 14, 1978, and December 29, 1978, between the Government of the United States of America and the Government of the Republic of Korea and Taiwan, respectively, with respect to trade in color television receivers and certain subassemblies thereof, effective February 1, 1979. The orderly marketing agreements are to be implemented according to their terms and by quantitative restrictions as directed in this proclamation, including the Annex thereto.

(2) Subpart A, part 2 of the Appendix to the Tariff Schedules of the United States (19 U.S.C. 1202) is modified as set forth in the Annex to this proclamation.

(3) The President's authority under section 203(e)(2) of the Trade Act (19 U.S.C. 2253(e)(2)) to negotiate orderly marketing agreements with other foreign suppliers of articles subject to this proclamation after any import relief proclaimed pursuant to section 203(a)(1), (2), (3) or (5) of the Trade Act (19 U.S.C. 2253(a)(1), (2), (3) or (5)) takes effect, is hereby delegated to the Special Representative. The President's authority under section 203(e)(3) of the Trade Act (19 U.S.C. 2253(e)(3)) to determine that any agreement negotiated pursuant to section 203(a)(4) or (5) or 203(e)(2)) of the Trade Act (19 U.S.C. 2253(a)(4) or (5) or 2253(e)(2)) is no longer effective is hereby delegated to the Special Representative, to be exercised in conformity with paragraph (5) below. In the event of such a determination, the Special Representative shall prepare any proclamations that may be appropriate to implement import relief authorized by section 203(e)(3) of the Trade Act (19 U.S.C. 2253(e)(3)).

(4) The President's authority in section 203(g)(1) and (2) of the Trade Act (19 U.S.C. 2253(g)(1) and (2)) to prescribe regulations governing the entry or withdrawal from warehouse of articles covered by the orderly marketing

agreements and to issue rules and regulations governing entry, or withdrawal from warehouse, for consumption of like articles which are the product of countries not parties to such agreements, has been delegated to the Secretary of the Treasury pursuant to section 5(b) of Executive Order No. 11846. Such authority shall be exercised by the Secretary of the Treasury, upon direction by the Special Representative, on consultation with representatives of the member agencies of the Trade Policy Staff Committee.

(5) In exercising the authority delegated in paragraphs (3) and (4) above, the Special Representative shall, in addition to other necessary actions, institute the following actions.

(a) Statistics on imports from the Republic of Korea and Taiwan and from other sources of articles covered by the agreements shall be collected on a monthly basis. Should the effectiveness of the orderly marketing agreements be disrupted, the Special Representative, after consultation with representatives of member agencies of the Trade Policy Staff Committee, may make a determination that for the purposes of section 203(e)(3) of the Trade Act (19 U.S.C. 2253(e)(3)) the orderly marketing agreements do not continue to be effective.

(b) Beginning on February 1, 1979, if during any restraint period the quantity of imports of the articles covered by the agreements, from countries other than Taiwan and the Republic of Korea, appear likely to disrupt the effectiveness of the provisions of the orderly marketing agreements described in paragraph (1) above, the Special Representative may initiate consultations with those countries responsible for such disruptions and may prevent further entry of such articles for the remainder of that restraint period or may otherwise moderate or restrict imports of such articles from such countries pursuant to section 203(g)(2) of the Trade Act (19 U.S.C. 2253(g)(2)). Before exercising this authority, the Special Representative shall consult with representatives of the member agencies of the Trade Policy Staff Committee.

(c) Should the Special Representative determine, pursuant to this proclamation, to institute import restrictions on articles entered, or withdrawn from warehouse, for consumption from countries other than Taiwan or the Republic of Korea pursuant to this proclamation, such action shall be effective not less than eight days after such determination and any necessary changes in the TSUS have been published in the FEDERAL REGISTER.

(6) The Special Representative shall take such actions and perform such functions for the United States as may be necessary concerning the administration, implementation, modification, amendment or termination of the agreements described in paragraph (1) of this proclamation, and any actions and functions necessary to implement paragraphs (3), (4) and (5) of this proclamation. In carrying out his responsibilities under this paragraph the Special Representative is authorized to delegate to appropriate officials or agencies of the United States authority to perform any functions necessary for the administration and implementation of the agreements or actions. The Special Representative is authorized to make any changes in Part 2 of the Appendix to the TSUS which may be necessary to carry out the agreements or actions. Any such changes in the agreements shall be effective on and after their publication in the FEDERAL REGISTER.

(7) The Commissioner of Customs shall take such actions as the Special Representative shall determine are necessary to carry out the agreements described in paragraph (1) of this proclamation and to implement any import relief pursuant to paragraphs (3), (4) and (5) of this proclamation, or any modification thereof, with respect to the entry or withdrawal from warehouse, for consumption into the United States of products covered by such agreements or by such other import relief.

J A 2 9 7 9 UMI

(8) This proclamation shall be effective as of February 1, 1979, and shall continue in force through June 30, 1980, unless the period of its effectiveness is earlier expressly modified or terminated.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-sixth day of January, in the year of our Lord, nineteen hundred and seventy-nine, and of the Independence of the United States of America the two hundred and third.

ANNEX

Subpart A, part 2 of the Appendix to the Tariff Schedules of the United States (19 U.S.C. 1202) is modified—

(a) by adding the following headnote:

"5. *Quantitative limitation on color television receivers and certain subassemblies thereof.*—The provisions of this headnote apply to items 923.74 through 923.83, inclusive, of this subpart. The quantitative import limitations imposed are in addition to the duties provided for the restrained articles in schedule 6, part 5. The import restrictions provided for in this subpart do not apply to a single color television receiver or subassembly thereof, if imported for the personal use of the importer.

(a) *Definition.*—For the purposes of this subpart—

(i) each subassembly that contains as a component, or is covered in the same entry with, one or more of the following television components, viz.,

tuner, channel selector assembly, antenna, deflection yoke, degaussing coil, picture tube mounting bracket, grounding assembly, parts necessary for fixing the picture tube or tuner in place, consumer operated controls, or speaker,

shall be classified in items 923.78 through 923.83, inclusive;

(ii) for the purposes of items 923.78 through 923.83, inclusive, each subassembly shall be counted as a single unit, except that two or more different printed circuit boards or ceramic substrates covered by the same entry and designed for assembly into the same television models shall be counted as one unit;

(iii) the term *"restraint period"* refers to the time periods set forth in items 923.74 through 923.83, inclusive; and

(iv) the term *"exported"* refers to the actual date the merchandise finally leaves the country of exportation for the United States as provided for in section 152.1(c) of the U.S. Customs regulations (19 CFR 152.1(c)).

(b) *Export visa.*—None of the color television receivers and subassemblies thereof provided for herein exported on or after February 1, 1979, from the foreign countries involved may be entered unless such color television receivers and subassemblies are accompanied by an appropriate export visa issued by the government of the exporting country.

(c) *Color television receivers and certain subassemblies thereof exported prior to Feburary 1, 1979.*—All color television receivers and subassemblies thereof provided for in items 923.74 through 923.83, inclusive, which were exported from the foreign country involved prior to February 1, 1979, may be entered prior to April 1, 1979, without the requirement of export visas. No such color television receivers and subassemblies may be entered on or after April 1, 1979, unless accompanied by an appropriate export visa issued by the exporting country and such products shall be counted against the applicable restraint levels.

(d) *Color television receivers and certain subassemblies thereof exported and entered in different restraint periods.*—Color television receivers and subassemblies thereof provided for in items 923.74 through 923.83, inclusive, which are exported from the foreign country involved during one restraint period, but are entered more than 90 days following the beginning of the subsequent restraint period, shall be counted against the restraint levels for that subsequent restraint period. Color television receivers and subassemblies thereof provided for in items 923.74 through 923.83, inclusive, which are exported from the foreign country involved during one restraint period in excess of the restraint level for such period, may be entered after the beginning of the next restraint period and shall be counted against the restraint level for such item for such subsequent restraint period.

(e) *Carryover.*—If the restraint level for any item has not been filled for a restraint period, upon appropriate request of the foreign government involved, the shortfall may be entered under the same item during the following restraint period provided that the amount of shortfall so entered does not exceed 11 percent of the restraint level for the restraint period during which the shortfall occurred for products of Taiwan and 10 percent for products of the Republic of Korea.

(f) *Exceeding restraint levels.*—Upon appropriate request of the Government of the Republic of Korea, the restraint level for item 923.81 may be exceeded by not more than 10 percent. If the restraint level is exceeded the Special Representative for Trade Negotiations shall make a downward adjustment of the restraint level for item 923.83 in the absolute amount the restraint level for item 923.81 was exceeded.

(g) *Adjustments.*—The quota quantity applicable to item 923.74 shall be adjusted by the
